"The Interstate Commerce Commission never can see anything more than that the farm land of some farmer is decreasing in value, or that some man who has a flour mill with a production of 50 barrels a day is being crowded out. It never can see that the destruction or impairment of farm values in this place means the building up of farm values in that place, and that that shifting of values is a necessary incident to the industrial and manufacturing development of this country. And if we shall give to the Interstate Commerce Commission power to regulate rates, we shall no longer have our rates regulated on the statesmanlike basis on which they have been regulated in the past by the railway men, who really have been great statesmen, who really have been great builders of empires, who have had an imagination that rivals the imagination of the greatest poet and of the greatest inventor, and who have operated with a courage and daring that rivals the courage and daring of the greatest military general. But we shall have our rates regulated by a body of civil servants, bureaucrats, whose besetting sin the world over is that they never can grasp a situation in a large way, and with the grasp of the statesman; that they never can see the fact that they are confronted with a small evil; that that evil is relatively small, and that it cannot be corrected except by the creation of evils and abuses which are infinitely greater than the one that is to be corrected."

GOPHER GOSSIP.

Foley.—Fire destroyed the residence of Michael Gappa.

Torah.—A local telephone exchange is being put in here.

St. Paul.—The state may sell 100,000 acres of land next fall.

St. Paul.—Minnesota refuses to let other states have deer for breeding.

St. Paul.—A bird dog scares burglars out of the home of Mrs. Nielson.

Grove City.—Pete Paulson was found dead in a gravel pit near this place.

St. Paul.—Bishop Edsall lays the cornerstone of the remodeled St. Peter's church.

Duluth.—The amount of state aid allowed to each rural school will be cut down this year.

Crookston.—Red Lake river is on a furious rampage. It rose six feet in twenty-four hours.

Fort Snelling.—The park board takes steps to extend the river boulevard to Fort Snelling.

St. Paul.—The state free labor bureau will be located in the city making the best bid for it.

St. Paul Park.—Safe blowers entered the postoffice early here and secured about $80 in cash and stamps.

Minneapolis.—Julius Olson was run over by an incoming Omaha freight and had both legs cut off below the knees.

Hamline.—The state entomologist says there is no cause for worrying about seventeen-year locusts in Minnesota.

Ashland.—Frank Bartosh of Owatonna, Minn., was knocked from a tramway into White river and drowned.

Minneapolis.—John M. Daggett, the oldest Mason in the northwest, died at his residence, 12 Grove place, Nicollet Island.

St. Paul.—Governor Johnson suspended F. O. Sibley and Wesley Wright, county commissioners of Beltrami county.

Minneapolis.—Prof. J. C. Hutchinson of the university was presented with a gold-headed cane by the senior class in Greek.

Farmington.—Authority has been granted for the organization of the First National Bank of Farmington, Minn. Capital, $25,000.

Ada.—A local company was organized for the purpose of promoting a public-ownership system of telephone throughout Norman county.

Hamline.—The St. Paul and Minneapolis Growers' association have voted not to exhibit in the Agricultural hall at the state fair in September.

Cottonwood.—Prominent lumbermen of Minneapolis and Cottonwood are organizing a new state bank with $25,000 capital, to begin business immediately.

Red Wing.—E. J. Howard, traveling salesman for the Union Stone Quarry company of this city was found dead in bed at the Simon hotel, Madison, Wis.

Merriam Park.—Little Eddie Erickson, 5 years old, was instantly killed by an interurban car while playing on the tracks near his home in the midway district.

South St. Paul.—Michael, the month-old-baby of Mrs. Stella McLevich, died in its mother's arms while he was being brought home by her on the South St. Paul motor.

Minneapolis.—A rooming house fitted up for the use of opium fiends was brought to the attention of the police when the building at 215 Second street south was destroyed by fire.

St. Paul.—Ernest Kludgel and Adam Heiber, carpenters, fell from a scaffold on a new building at Marshall and Wheeler avenues. Kludgel is expected to die, while Heiber will recover.

St. Paul.—Edward Gottschalk will be hanged for the murder of Edward Hartmann Aug. 8. Gov. Jonnson took up the case, and after a consulation with the attorneys, fixed the date named.

New York.—The directors of the Twin City Rapid Transit company have voted to increase its capital stock from $20,000,000 to $25,000,000, the additional $5,000,000 to be common stock.

Mapleton.—Mapleton will observe the Fourth of July, the address of the day to be given by Rev. Thomas Clary of Minneapolis. The sports and games will be in charge of the fire department.

St. Paul.—There will be a number of dry picnics in St. Paul this summer by reason of an order issued by Chief O'Connor, of the St. Paul police force, prohibiting the sale of liquor at any picnic grounds within the city limits.

St. Paul.—John A. Hartigan, professor at St. Thomas' college, has been appointed actuary of the state insurance department at a salary of $2,000 a year to succeed D. C. Lightbourn, deputy insurance commissioner under Elmer H. Dearth.

Pipestone.—At a meeting of the executive committee and the township vice presidents of the Old Soldiers' society of Pipestone county, progress was made in the arrangements for the annual reunion to be held on July 8, on the courthouse grounds.

St. Paul.—The eighth biennial convention of the General Federation of Women's clubs will be held in St. Paul a year from next month.

Minneapolis.—A half dozen firemen narrowly escaped serious injury by falling bricks in a fire that gutted the old Fuer hotel building, 215 Second street.

Hastings.—Mrs. J. G. Sieben, wife of former Mayor Sieben, and Mrs. F. C. Ross were thrown from a buggy and the former received severe injuries. The horse became frightened at a passing automobile and the carriage was demolished.

GRIP'S UGLY SEQUEL

KNEES STIFF, HANDS HELPLESS, RHEUMATISM NEAR HEART.

Mrs. Van Scoy Experiences Dangerous After-Effects from Grip and Learns Value of a Blood Remedy.

The grip leaves behind it weakened vital powers, thin blood, impaired digestion and over-sensitive nerves—a condition that makes the system an easy prey to pneumonia, bronchitis, rheumatism, nervous prostration, and even consumption.

The story told by scores of victims of the grip is substantially the same. One was tortured by terrible pains at the base of the skull; another was left tired, faint and in every way wretched from anæmia or scantiness of blood; another had horrible headaches, was nervous and couldn't sleep; another was left with weak lungs, difficulty in breathing and acute neuralgia. In every case relief was sought in vain until the great blood-builder and nerve-tonic, Dr. Williams' Pink Pills, was used. For quickness and thoroughness of action nothing is known that will approach it.

Mrs. Van Scoy makes a statement that supports this claim. She says:

"I had a severe attack of grip and, before I had fully recovered, rheumatism set in and tormented me for three months. I was in a badly run-down state. Soon after it began I was so lame for a week that I could hardly walk. It kept growing steadily worse and at last I had to give up completely and for three weeks I was obliged to keep my bed. My knees were so stiff I couldn't bend them, and my hands were perfectly helpless. Then the pains began to threaten my heart and thoroughly alarmed me.

"While I was suffering in this way I chanced to run across a little book that told about the merits of Dr. Williams' Pink Pills. The statements in it impressed me and led me to buy a box. These pills proved the very thing I needed. Improvement set in as soon as I began to take them, and it was very marked by the time I had finished the first box. Four boxes made me a well woman."

Mrs. Laura M. Van Scoy lives at No. 20 Thorpe street, Danbury, Conn. Dr. Williams' Pink Pills are equally well adapted for any other of the diseases that follow in the train of grip. They are sold by all druggists.

One discouraging thing about the maxims of the great is that they generally formulate thier maxims after becoming great.—Chicago Record-Herald.

It Cures While You Walk.

Allen's Foot-Ease is a certain cure for hot, sweating, callous, and swollen, aching feet. Sold by all Druggists. Price 25c. Don't accept any substitute. Trial package FREE. Address Allen S. Olmsted, Le Roy, N. Y.

Art can hardly hope to compete with nature as long as Nature continues to work 24 hours a day.—Puck.

I am sure Piso's Cure for Consumption saved my life three years ago.—Mrs. Thos. Robbins, Norwich, N. Y., Feb. 17, 1900.

The less money a man has the more polite he has to be.—N. Y. Times.

ANOTHER LIFE SAVED.

Mrs. G. W. Fooks, of Salisbury, Md., wife of G. W. Fooks, Sheriff of Wicomico County, says: "I suffered with kidney complaint for eight years. It came on me gradually. I felt tired and weak, was short of breath and was troubled with bloating after eating, and my limbs were badly swollen. One doctor told me it would finally turn to Bright's disease. I was laid up at one time for three weeks. I had not taken Doan's Kidney Pills more than three days when the distressing aching across my back disappeared, and I was soon entirely cured."

Diet vs. Drugs

People Are Finding That Proper Food Is Better Than Medicine.

EGG-O-SEE A large package at any grocery **10c**

THE EGG-O-SEE CO. Quincy, Ill.

A distinguished physician in a recent lecture before a class in an Eastern Medical College said: "It is my settled conviction that ninety per cent. of all human ailments arise primarily from the stomach. Proper diet would nearly put the physician out of business."

If you desire a clear head and a strong body, the moral is plain that you must eat only the most nutritious and healthful foods.

All physicians and food experts agree that flaked wheat properly manufactured is an ideal food. EGG-O-SEE is the purest, daintiest and the most wholesome of all flaked wheat foods. It is the whole grain of the best white wheat thoroughly steam cooked and then crisped a delicious brown and properly flavored. There is health, appetizing enjoyment and economy in every package.

Egg-O-See is a food especially adapted to people living in the smaller towns and country districts, because of the abundance of rich cream at hand.

Nearly Everybody Eats It Now.

W. L. DOUGLAS

UNION MADE. **$3.50 & $3.00 SHOES** FOR MEN.

W. L. Douglas $3.50 shoes are the greatest sellers in the world because of their excellent style, easy fitting and superior wearing qualities. They are just as good as those that cost from $5.00 to $7.00. The only difference is the price. W. L. Douglas $3.50 shoes cost more to make, hold their shape better, wear longer, and are of greater value than any other $3.50 shoe on the market to-day. W. L. Douglas guarantees their value by stamping his name and price on the bottom of each shoe. Look for it. Take no substitute. W. L. Douglas $3.50 shoes are sold through his own retail stores in the principal cities, and by shoe dealers everywhere. No matter where you live, W. L. Douglas shoes are within your reach.

BETTER THAN OTHER MAKES AT ANY PRICE.

"For the last three years I have worn W. L. Douglas $3.50 shoe and found it not only as good, but better than any shoe that I ever had, regardless of price."
Chas. L. Farrell, Asst. Cashier The Capital National Bank, Indianapolis, Ind.

Boys wear W. L. Douglas $2.50 and $2.00 shoes because they fit better, hold their shape, and wear longer than other makes.

W. L. DOUGLAS $4.00 SHOES CANNOT BE EQUALLED AT ANY PRICE.

W. L. Douglas uses Corona Coltskin in his $3.50 shoes. Corona Colt is considered to be the finest patent leather produced.

FAST COLOR EYELETS WILL NOT WEAR BRASSY

W. L. Douglas has the largest shoe mail order business in the world. No trouble to get a fit by mail. 25c. extra prepays delivery. If you desire further information, *write for Illustrated Catalogue of Spring Styles.*

W. L. DOUGLAS, BROCKTON, MASSACHUSETTS

W. L. Douglas makes and sells more Men's $3.50 shoes than any other manufacturer in the world.

MINNESOTA HISTORICAL SOCIETY.

VOL. 5. GULLY, POLK COUNTY, MINN., FRIDAY, JUNE 2, 1905. NO. 12.

SUMMARY OF A WEEK'S EVENTS

MOST IMPORTANT HAPPENINGS AT HOME AND ABROAD IN CONDENSED FORM.

THE WAR IN THE FAR EAST

Progress of Hostilities Between Russia and Japan—Doings at Washington—Items of Interest from All Over the World.

THE CHICAGO STRIKE.

Mulligan and Donaghue, Chicago strike leaders, were sentenced to jail for contempt of court. Shea was upheld by Judge Kohlsaat in refusing to answer questions at the strike injunction hearing.

Lumber dealers in Chicago are unable to meet demands of their patrons because the city is unable to furnish sufficient policemen to guard their wagons.

Gov. Deneen, of Illinois, has given his pledge to Mayor Dunne that he would fill the streets of Chicago with troops within two hours of the receipt of an official request either from the mayor or Sheriff Barrett.

Twelve members of the Carriage and Wagon Workers' union and alleged sluggers were indicted in Chicago for the death of Charles J. Carlstrom.

Mayor Dunne, of Chicago, ordered that another 1,000 men be added to the police force for strike duty, hoping that this additional strength will avert a call for troops.

Senator Platt, president of the United States Express company, declares the companies will not recede from the position they have taken in the Chicago strike.

RUSSO-JAPANESE WAR.

Linevitch tried to take the offensive against Oyama. He sent Rennenkampf around the Japanese left flank to disaster, his cossacks being badly cut up.

The czar plans a council of national defense, headed by Grand Duke Nicholas, which will take over complete control of operations on land and sea in the war.

The admiralty at St. Petersburg believe Admiral Rojestvensky has dodged Togo by giving Formosa a wide berth.

Capitals of Europe are unable to secure confirmation of the rumor that Togo has been defeated in a battle south of Formosa with Rojestvensky's fleet.

Japanese cavalry in a scouting expedition penetrated to a point 20 miles north of Gunshu pass and in the rear of the Russian army.

MISCELLANEOUS.

The mystery of the murder of Daniel S. Berry was cleared away at Savanna, Ill., by the bullet fired by his own hand, which blew out the brains of Bothwell Pulford, Savanna's wealthiest citizen, whose name had been connected with the Berry assassination.

While insane, William Stephens, who lived at Ross Valley, Marin county, Cal., murdered his wife, his five children, attempted to murder a passing milkman, and then ended his own life.

The Canton, O., state bank, with individual depositors of more than $600,000, closed its doors. The directors state that the bank will not be able to resume business. The failure was brought about by heavy loans to W. L. Davis, vice president, without adequate security.

The dead body of a young man beside which lay a 15-year-old girl badly wounded, was found near Wheaton, Minn. The girl says they had planned to die together, and that she killed the man and shot herself.

Gov. La Follette sent to the Wisconsin legislature a message urging legislation that would destroy secret lobbying.

J. O. Pattee, for several years master mechanic of the Great Northern and Milwaukee roads, died in St. Paul, Minn., from the effect of a fall down the cellar of his house.

During Jewish disturbances in Warsaw, Poland, over an attempt of the Jewish socialist organization called the Bund to purge the Hebrew district of Warsaw of all disreputable persons, eight persons were killed and 100 wounded.

Joel W. Juett, on trial at Cynthiana, Ky., for the murder of his father last December, was acquitted by a jury. Juett pleaded self-defense.

Three gold medals given by President Roosevelt to three German bluejackets who saved the lives of several sailors of the United States ironclad Monadnock in Chinese waters were transmitted by Ambassador Tower to the foreign office in Berlin.

According to news received in Vienna from Liezen, in Styria, 17 persons have been killed by an explosion caused by firedamp in the Bosruck tunnel there.

Emperor Nicholas' birthday was celebrated in Russia as a general holiday and with the usual observances.

Burnett, Cummins & Co., bankers, of Boston, failed. The liabilities amount to $1,700,000.

The Ohio republican convention at Columbus nominated Gov. Herrick for reelection.

United States Senator Ben Tillman, of South Carolina, was thrown from a buggy at Edgefield, S. C., and painfully, though not seriously, injured.

At Cheyenne, Wyo., Judge Scott overruled the motion for a new trial of Col. W. F. Cody's divorce suit. The case will go to the supreme court on appeal.

Lawmakers seek to change the president's plan for an extra session in October.

Postmaster General Cortelyou warns postal service employes to avoid politics.

The southern industrial parliament urged congress to lower tobacco tax and help the south otherwise.

William C. Jutte, of Pittsburg, who lost a fortune of $15,000,000 in three years fired a bullet into his heart at an Atlantic City hotel.

Southern Caucasus is aflame with racial strife between the Moslems and Armenians and armed mobs control the villages, the authorities being helpless.

Charles W. Mayer has sued Alexander, Tarbell, Hyde and other Equitable heads for $1,500,000 losses in the Shipbuilding bubble.

The new ruling by Attorney General Moody makes possible the displacing of older commanders of warships by younger men, which is the president's plan.

President Roosevelt, in a message to the Presbyterian general assembly in session at Winona Lake, expresses the hope that all branches of the church would soon be joined.

Equitable officials in New York learn that any national inquiry into its affairs instituted by President Roosevelt is impossible, even if asked by all interests.

The Thebes (Ill.) bridge, across the Mississippi, opening a new gateway to the southwest and a triumph in railroad engineering, was forally opened to traffic.

John C. Smith was elected commander of the Grand Army of the Republic of Illinois and a resolution was adopted to return confederate flags captured in the civil war.

An adopted son of the late William Ziegler will receive $25,000,000 as the result of his foster father's death.

William Ziegler, the capitalist and promoter of arctic explorations, died at his country home near Norton, Conn.

William French pleaded guilty in the United States district court at Springfield, Ill., to robbing the post office at Mulberrygrove, Bond county, Ill., and he was sentenced to three years in Chester penitentiary.

At Butte, Mont., Michael Haggerty, a miner, shot and probably fatally wounded his wife, shot their 14-year-old son and then killed himself. Jealousy of the wife is the supposed motive.

Fire, originating in the foundry department of the Ohio Brass company at Mansfield, O., destroyed a large part of the plant. The damage, it is estimated, will amount to $100,000 or more.

The Ohio democratic state central committee fixed Columbus, June 27 and 28, as the date for the state convention.

The comptroller of the currency has been advised that the First National bank of Lexington, Okla., has failed.

M. E. Walley was killed by an explosion of nitroglycerine on a vacant lot in Denver, Col. Fragments of the body were found three squares distant from the scene of the explosion.

Hebrews of St. Petersburg and and other cities have decided to abstain from attending theaters, concerts, etc., for three months, as a mark of mourning for those killed during the recent rioting at Zhitomir.

The Wisconsin senate passed the McGillivray anti-trust bill.

The Presbyterian general assembly at Winona Lake voted for a committee to take up with the Washington presbytery the question of erecting a Presbyterian cathedral at the national capital.

William E. Trautmann, of East St. Louis, will be appointed district attorney for the eastern district of Illinois, according to an announcement made by the president in Washington.

President Roosevelt, replying to a suggestion that a national commission investigate the Equitable affairs, says an inquiry is being made to ascertain the powers of the government in the matter.

Thousands witness the parade of the Illinois veterans of the Grand Army at Rockford, which was the chief feature of the encampment.

Estes G. Rathbone, according to a Denver report, is reinstated in the post office department, and appeared in that city to inspect books of the local office.

A St. Thomas (Ont.) judge ordered the deportation of railroad officials who had been taken from the United States to take the places of Canadians.

The senate committee on interstate commerce concluded inquiry on the railroad rate question. It is absolutely opposed to President Roosevelt's views.

President Castro suppressed a leading newspaper of Caracas and threw the editors into jail for printing an article praising President Roosevelt.

The French silk industry, facing ruin, asks the government to treble the tariff.

Prince Nakachidza, governor of Baku, Caucasia, was killed by a bomb and a lieutenant and a bystander were also victims.

Britons celebrated the anniversary of Queen Victoria's birth.

John Stewart Crossy, known throughout the theatrical world as J. C. Stewart, one of the "Two Johns," the famous fat men of the stage, died in St. Louis, aged 71 years.

The Ohio supreme court in a recent decision upheld the direct inheritance tax law.

The four-story dormitory of the Rogers Williams university, an institution for the instruction of negroes, was destroyed by fire at Nashville, Tenn. The loss was about $4,000.

The senate committee on interstate commerce which has been investigating the rate question, decided in executive session to close the hearing.

It was semiofficially announced that Ivan Kaleleff, who murdered Grand Duke Sergius at Moscow, February 17, has been hanged.

The Merchants' Trust company, of New York, was closed by order of the state superintendent of banks because it had made loans amounting to about $1,250,000 upon which it had not been able to realize a sufficient sum to pay depositors and save the capital of the company.

August W. Machen, under sentence of two years' imprisonment for his connection with postal frauds, pleaded guilty to an additional indictment and was sentenced to an additional two years' imprisonment.

Over 400 mules perished in a fire that destroyed the sales stables of Maxwell and Crouch and Sparts Brothers, at the National stockyards, East St. Louis, Ill. The total loss is estimated at $100,000.

In a family quarrel at Hendricks, Magoffin county, Ky., Dora Arnett shot and fatally wounded her husband, Dudley Arnett, with a revolver. Arnett, it is said, had beaten his wife and was trying to take the revolver from her when she fired.

President Roosevelt will send a military mission to Paris to view the French army maneuvers.

Mrs. Mary A. Livermore, the well-known writer and reformer, died at her home in Melrose, Mass. Bronchitis and a weak heart hastened the end. She was 85 years of age.

Olon E. Kenyon, a prominent lumberman of Naomi, Mich., was killed near Damascus, Va., in an accident on a logging railroad.

The B'nai B'rith grand lodge, in session in Cincinnati, denounced Russia's persecution of the Jews and appeals to America for aid.

Friends of Dr. Alice B. Stockham, arrested in Chicago for sending obscene matter through mails, appealed to the president in her behalf.

Mrs. Robert Twitty, of Chicago, objected to her husband leaving the house, and in a quarrel that followed the husband was killed.

The Cumberland Presbyterian general assembly at Fresno, Cal., by a majority of 27 adopted the majority report for union with the northern church.

A father and son were killed by a sheriff's posse near Waverly, Ill., while resisting arrest. A deputy was shot by the young man.

Railroad legislation will be urged ahead of tariff reform in the president's recommendations to the special session of congress which he has decided to call next fall.

President Roosevelt issued an order against convict labor for government.

Railroad men predict the wane of interurban lines because of the development of automobile.

An unknown person offered to return the stolen $90,000 diamonds to Tiffany for $10,000 and immunity from arrest.

The Presbyterian general assembly at Winona Lake, Ind., unanimously refused to renounce the Westminster confession.

Mayor Weaver, of Philadelphia, caused a sensation by dismissing two members of his cabinet in his fight against the gas "grab."

The Illinois encampment of the G. A. R. opened auspiciously in Rockford.

Ambassador Choate unveiled a memorial window to John Harvard in St. Saviour's church, Southwark, Eng., in the presence of a large gathering.

While catching in a game of baseball in Brooklyn, James Miles, a youth, was almost instantly killed by a pitched ball.

Dominic I. Murphy, of the District of Columbia, has been appointed consul to Bordeaux, France, to succeed A. W. Tourgee, deceased.

A fire at Ambridge, Pa., in the Central restaurant, completely destroyed the building. Annie Czubko, 20 years old, a Slavish girl employed as a cook, was cremated.

King Oscar, of Sweden, will resume the direction of state affairs, thus terminating the regency of Crown Prince Gustave.

Three-quarters of a million of people have already died of the plague in India this year. The mortality from January 1 to April 1 was 471,744, while another 215,961 succumbed during the four weeks ending April 29.

CHICAGO RIOTS ARE RENEWED.

POLICE USE CLUBS AND REVOLVERSE TO DISPERSE THE UNRULY MOBS.

Strike Sympathizers Armed with Air Rifles Shoot at Officers from Behind Lumber Piles. One Lumber Mill Closes Down.

Chicago, May 27.—Rioting broke out afresh yesterday in the teamsters' strike. There were a number of vicious fights in the lumber district, during which the police were compelled to use their clubs, and in one instance revolvers, in order to disperse the mob.

A serious fight took place at the corner of Canal and Madison streets, adjoining the Union passenger depot.

The wagon of an express company, although protected by a policeman and a deputy sheriff, was attacked by a large crowd, despite the fact that it bore on each side a large placard declaring that all people had been enjoined by the federal court from interfering with the wagon.

The policeman displayed his revolver, but the crowd paid no attention to him. They rushed at the wagon, and seizing the wheels attempted to overturn it.

A riot call brought from the Desplaine street police station, four squares distant, a large force of officers who dispersed the crowd and arrested about forty of the most active in the disturbance.

The worst fight in the lumber district occurred at Twenty-second street and Ashland avenue, where a crowd of men and boys had all through the morning hurled stones and clubs at every passing lumber wagon.

Finally a wagon on which Police Officer Bagenski was a passenger came along and the mob greeted it with the usual volley of stones.

They also threatened to attack the driver and the situation was so serious that the officer drawing his revolver fired six shots at the crowd which broke and fled in wild confusion.

None of the bullets hit anybody.

Last evening general rioting was prevalent throughout the lumber district and particularly in the territory near the intersection of Thirty-fifth street and Center avenue.

The lumber wagons returning from making deliveries were attacked by by crowds at every oportunity.

There was no official action taken by any of the material trades union looking to active sympathetic support of the teamsters' strike.

P. O. ROBBERY.

John D. Hyatt of the Minneapolis Postoffice is Arrested for Robbing Mails

Minneapolis, May 27.—John D. Hyatt, whose residence is 926 Fourteenth avenue south, for the last twenty-three years an employ of the Minneapolis postoffice, and for many years one of the clerks at the receiving window, was arrested for stealing letters from the mails.

The arrest was the result of a six weeks' work on the part of Postoffice Inspectors H. O. Smith, of Owatonna, and Howard C. Fry, of Fargo. Persistent complaints of valuable letters lost in the mails led to the assignment of the inspectors to ferret out the thief or thieves.

The arrest of Hyatt was made by United States Marshal W. H. Grimshaw in person at just about the time when the heavy evening deposits of mails have been made. In his pockets when arrested were found twenty-five letters, all with stamps uncancelled, and evidently just abstracted from the thousands of letters passed over the counter. Among the letters found on Hyatt's person was a decoy letter addressed to a fictitious person in Winona, containing four marked one dollars bills.

MURDER.

A Young Girl Kills Her Lover and then in Turn Attempts to Kill Herself.

Wheaton, Minn., May 27.—A young man named Herman Speff, from Cokato, working for Mrs. Deal, and a young girl about 15 years of age, named Sidensticher, whose father resides near here, were found three miles south, near the railway tracks, the young man being dead, having been shot in the head with a revolver, and the girl seriously wounded with two or three bullets in the abdomen.

The girl is still alive and claims that she killed the man and shot herself, and that she wished to die, as they had wished to die together. She borrowed the revolver from a hardware store here. It seems to be a complicated love afair.

WASHINGTON GOSSIP

JUSTICE HARLAN ATTRIBUTES VIGOR TO OUTDOOR EXERCISE.

FISH COMMISSION'S REPORT

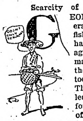
Al Fresco Potomac Dinner at Its Best—Always Marrying Off Unmarried Public Men—Secretary Moody a Victim.

WASHINGTON.—The rumor is again circulated that Associate Justice John M. Harlan contemplates retirement from the supreme bench. Judge Harlan's enthusiastic advocacy of the establishment of a Presbyterian cathedral in Washington has inspired this latest rumor. It is suggested that if the matter is taken up by the Presbyterian general assembly Judge Harlan will be requested to take charge of the movement, and in order to do so he will relinquish his place on the bench and devote all his energies to the building of the cathedral.

Recently the judge was asked concerning the report that he would leave the bench for the purpose of furthering the Presbyterian cathedral movement. He declared that he was not in a position to discuss the matter, and whatever was done would depend upon the action of the general assembly. He announced his great interest in this movement and his willingness to assume a large share of the burden of raising the funds, but he was not prepared to say whether he would leave the supreme bench for the purpose of devoting all his time to the matter.

Judge Harlan is entitled to retirement, having passed the requisite age, but few of his colleagues are more wrapped up in their work than is he. He has been a member of the supreme bench for 28 years, and still does his full share of its work. He is physically in the finest condition and demonstrated only a few weeks ago that he was a formidable opponent for anyone to meet on the golf links. He took part in a golf competition and played 18 holes over a rough, hilly course, and won the match for his club, the Chevy Chase Golf club, by defeating his opponent on the eighteenth green. He has made some of the most difficult strokes ever played on the Chevy Chase links, and it is no unusual thing for him to walk from his home to the links, a distance of four or five miles. The judge attributes his fine physical condition to his indulgence in this sort of out-of-door sport.

Scarcity of Shad.



GEORGE M. BOWERS, chief of the fish commission, has very discouraging reports to make this year to the lovers of the toothsome shad. The work of collecting shad eggs for the purpose of stocking rivers and propagating this important food fish was seriously retarded this spring. The low temperature of the waters produced by the continued cold weather interfered with spawning and then the fishing season opened with tremendous onslaughts by fishermen. Mr. Bowers reports that instead of taking hundreds of millions of shad eggs, as the commission has been able to do in past years, the government will be lucky to obtain 40,000,000 eggs this year.

Only dwellers along the Atlantic coast appreciate to the full this splendid fish. The season begins early in Florida and works up along the coast, reaching its height when the Susquehanna and Delaware rivers are reached. The first shad in the market is a sure harbinger of spring, and is welcomed as joyfully as the spring flowers in the hills. With the coming of warm days the shad leave their winter haunts and seek the waters of the bays and rivers. Their destination is the shallow depths of the fresh water rivers, where their eggs will quickly ripen. The taking of the fish by millions in nets interferes with the run and the roe shad that have gotten through and reached the spawning beds have not produced because the temperature of the water has been so low.

The government considers the propagation of the shad so important that an annual appropriation of $250,000 is made for the collection of the shad eggs. Fishermen are paid $10 per million for the eggs, but the outlay this year will be very limited. The end of the season comes about May 20, and the prospect is that the government will have mighty few shad fry to plant in the coast rivers this year. The result of the scarcity will be felt three or four years from now.

Planked Shad of Washington.

IN Washington and at the river resorts round about the shad is met with in all its glory. This city is as famed for its planked shad as Philadelphia is for its catfish and waffles, Boston for its cod, or Chicago for its planked whitefish. To enjoy this delicacy at its best, planked shad should be eaten at one of the many resorts along the Potomac river. There the fish is planked in good old-fashioned style, in the open air, before a good hot wood fire. A shad weighing two or three pounds is split up the back, tacked to a two-inch oak plank and set up at an angle before the glowing hot wood coals.

A row of the fish dressed in this style is attended by a negro cook, usually a white-haired old servitor, who first began the practice of his art in the days before the war. He knows exactly the temperature to maintain, and how to keep the fish from scorching by liberal basting with melted butter. When the fish is cooked to a turn it is served in the open air on a table on the plank on which it is cooked. Accompanying it are fresh spring vegetables, particularly the luscious onion, and with a platter of hoe cakes, the latter the genuine southern article, cooked on a plank in front of the same fire as was the fish, and the rare, delicious but simple combination of water ground corn meal and water spread thin upon a hot plank.

A dinner of this description is sung about by the local poets. It is sought by the statesman and enjoyed by the diplomats. With an old-fashioned mint julip, concocted as only a genuine Maryland or Virginia "uncle" knows how, the perfection of an al fresco Potomac dinner is reached.

The Secretary of Agriculture.

SINGLE men in the cabinet or in public life must pay the penalty of their condition. Dame Rumor is always busy with their names, and hints and predictions of marriages are many. Secretary of Agriculture Wilson is one of the conspicuous victims of the persistent social gossips. Mr. Wilson lost his wife some 13 years ago, and it is doubtful if he has ever given a single thought to a remarriage. This does not prevent the periodical appearance of the newspaper paragraph stating that the secretary is about to marry a lady who is variously described as a school teacher in his own state of Iowa, a middle-aged clerk in his department, or a charming widow in society.

Mr. Wilson has long since given up the idea of suppressing this sort of gossip, and has resigned himself to the fate of being talked about, no matter how distasteful it is. The fact is, the secretary is too busy with the affairs of his department, and his mind is so engrossed with plans for the advancement of agriculture and the betterment of the condition of farmers, that he has little or no time to give to the lighter and more personal affairs of life. He is more diligent in seeking an effective enemy of the boll weevil or in the inoculation of sails to make them more productive than he is in the fair sex or in the quest of a wife.

Attorney General Moody, the bachelor member of the president's cabinet, is another target for Dame Rumor's shafts. Mr. Moody has been too busy all his life building up a reputation in the law to give much thought to seeking a partner for life. The accommodating social gossips of the city, however, have settled his fate for him, if they are to be believed, and have him engaged to marry a charming widow in Boston, who is conducting a very prosperous millinery establishment. They declare that the lady, highly educated and charming as she is, cares nothing for society, and is particularly indifferent to official society, and therefore has declined to become Mrs. Moody as long as Mr. Moody remains in the government service. When he retires, however, it is declared that one of his first moves will be to take the Boston widow into partnership for life and then enter upon the practice of law at the Hub.

Then They Become a Peril.

President Roosevelt says, hopefully, that we may learn something of value from the people of every nationality who come to us. This is no doubt true, in a certain sense, observes an exchange. If they are distributed in the sparsely settled communities, they will help us and themselves, but if they congregate in the slums of the cities they become a peril.

Can Tell When It's Rough.

Patience—Do you think you can tell anything about a man by his face?

Patrice—Certainly; I can tell if he has shaved.—Yonkers Statesman.

BOATING ON THE NILE.

The Best Pilots Run Aground Two or Three Times a Day.

Navigation on the Nile is not so complicated a matter as upon the north Atlantic, writes Alonzo Clarke Robinson in Outing. To run at full speed upon a sand bar is an occurrence of such frequency as hardly to elicit a comment from the passengers. The crew take more interest because they are obliged to push the boat off again with poles, and this entails a great amount of shouting and some work. The Nile below the first cataract is a fairly broad, muddy river, flowing between deposed banks varying from six to eight to twenty to thirty feet in height. Its surface is interrupted everywhere by sand spits and islands upon which are to be seen thousands of birds. The channel, if such it can be called, winds from one side to the other and changes completely with every flood; hence even the best pilots run aground two or three times a day. It is, of course, impossible to proceed at night, and each day's voyage comes to an end wherever darkness happens to overtake one. The boat's nose is simply run plump on the bank, two men leap out and drive stakes to which to make fast, and there you are for the night. A very simple and effective method, without any ostentation and requiring very little knowledge of mathematics; it has also the advantage of variety. Sometimes one finds oneself alone beneath the wonderful Egyptian moon lighting up the river, he distant cliffs and the silent, empty lain, or perhaps one stops near some ittle native village, in which case the ank is lined with silent, curious figures, who crouch for hours wrapped in heir white cloth coverings. Once we ied up beside a lonely brick kiln. The ight was a weird one. The red flare f the furnace, fed with sugar cane, ast intermittent flashes of light into he night, in and out of which moved lack half naked natives, while overead was the cloudless, star lit sky of gypt.

OUR INAUGURAL OATH.

t Is the Shortest and Simplest Taken by Any Ruler.

The oath of office taken by the incoming president of the United States s the shortest and the simplest required of any ruler on earth. It is prescribed by the constitution and is as ollows:

"I do solemnly swear (or affirm) that will faithfully execute the office of resident of the United States, and, to he best of my ability, protect, preserve nd defend the constitution of the United States."

This oath is slowly repeated by the resident elect after the chief justice f the supreme court, in the presence of he public upon a platform erected in ront of the main door on the eastern ide of the capitol. While the oath is eing repeated the president elect and he chief justice face each other and old with their right hands between hem a Bible furnished by some person nterested or especially procured for he occasion, which becomes the property of the president after it has been ppropriately inscribed and sealed by he chief clerk of the supreme court.

At the close of the oath the president lect bows his head and kisses the open age of the book, and it has been customary for him or for his wife or a riend to select some appropriate passage at which the book shall be opened nd the verse upon which he shall press is lips. Sometimes, when those interested forget or neglect to choose a passage, the Bible is opened at random, ut the clerk of the supreme court is lways careful to note and mark the xact place where the lips touched the age.—Chicago Record-Herald.

The Horseshoe Legend.

Here is an explanation of the old orseshoe superstition: St. Dunstan as a skilled farrier. One day while t work in his forge the devil entered i disguise and requested Dunstan to oe his "single hoof." The saint, alough he recognized his malign cusomer, acceded, but caused him so uch pain during the operation that atan begged him to desist. This St. unstan did, but only after he had ade the evil one promise that neither e nor any of the lesser evil spirits, his ervants, would ever molest the inates of a house where the horseshoe as displayed.

A Servile House of Lords.

When King Henry VIII.'s name was poken in his presence in the house of rds every peer prostrated himself ith Asiatic servility. An entry in the ecords of the house gives the subance of a speech delivered by the ancellor on Jan. 16, 1541, in which e king's goodness and wisdom are xtolled, and it tells us that whenever s majesty was mentioned, "which appened often," all the lords prosated themselves, bowing to the round as one man.

Force of the Future.

Cut off the future, and man is the ost timid of creatures. The demons d dragons are too terrible for him face and attack. But spread before m the illimitable future, and he will e all things, certain of victory at st. Any night, however filled with eping, can be endured by one who ows that joy is coming in the morn-

SPOILED PLOT OF TAGALOGS.

How an American Saved the Docks at Manila From Destruction.

Among the recent arrivals on the Pacific coast from the Philippine Islands is a certain lieutenant of infantry whose exploits in late years have won for him the cognomen of the American Strickland. There are some who hold that Kipling's Strickland was an apprentice at the trade in which Rafferty excels.

Rafferty is not the lieutenant's name, and it would not be wise or fair to him or to the government to hint at the real one, for the war department has started a particular crusade against publicity, especially in the matter of spies, of whom this lieutenant is considered the most wonderful.

Rafferty first came under the notice of high official circles shortly after the beginning of the Filipino trouble, when one day he forced his way into the presence of Provost Marshal Tillson at Manila and quietly uttered a sentence that turned the provost's face to the color of ashes. "Who are you?" he demanded.

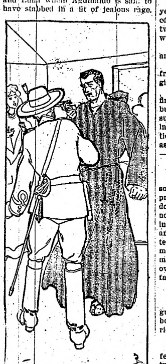
"James Rafferty, sir; first sergeant, Company K, —th United States infantry, now stationed at Baler."

That night an attempt was frustrated to blow up the wharf with dynamite. Rafferty told the story of the plot to the provost marshal himself. The sergeant arrived from Baler on the previous day, it appeared, with several prisoners, and found, after he had turned the Moros over to the proper authorities, that he would have to wait several days before he could get a steamer returning up the coast. Having time to kill in Manila, the sergeant frequented the gambling hells so common outside the walls of the city proper. In one of those dens he overheard a conversation between two well dressed Filipinos.

"I tell you," said one of the Filipinos, "the Americans will not fire upon a woman. I have seen it for myself. The guard patrols all night around the wharfs where the stores are kept. It will be a severe blow if the stores are destroyed. Only a woman can gain entrance. I have watched the soldiers talk to them, for the nights are long, and the Americans are far from home. She will not be suspected. She is beautiful and can speak with the guard while the other enters."

Who the women were was never discovered. In fact, nothing happened that night, for, acting upon Rafferty's information, the guards were double banked around the wharfs. Another spy, however, was sent to investigate Rafferty's story, which was shortly afterward confirmed.

Perhaps the most sensational adventure in which the American Strickland took a hand was the capture of Pio del Pilar, one of the executive geniuses of Aguinaldo's staff. There were three geniuses—Gregorio and Pio del Pilar and Luna whom Aguinaldo is said to have stabbed in a fit of jealous rage.



RAFFERTY LEVELED HIS PISTOL.

Gregorio del Pilar was shot in battle, nd a reward was offered for the capure of Pio, dead or alive.

At the same time a certain Filipino ristocrat of the name of Lara had a eautiful friend living in a lonely house at Santa Anna, some distance up the Pasig river. Pio del Pilar was also in love with this woman.

One night in Manila an attempt was made upon the life of Lara, and rumors gained circulation to the effect that the attempted assassination was instigated by Pio del Pilar himself.

Late that same night a Franciscan monk boarded a steam launch which was moored in the Pasig river, and, shoving a revolver in the face of the engineer, the holy father ordered him to steam up toward Santa Anna.

Some time after that the monk entered the quarters of the officer commanding the American troops at Santa Anna and after a brief interview took his departure. Later on in the night a guard of soldiers was quietly placed around a lonely house just outside the town. Presently the monk appeared and by virtue of his office was admitted to the presence of Pio del Pilar.

"Come out," said Rafferty, and Pio came—at pistol point.

OYSTER FARMS.

The Natural and Artificial Beds in Eastern Virginia.

In eastern Virginia there are several thousand acres of oyster farms where oysters are raised by artificial methods on artificial beds. The natural oyster bed is where the oyster breeds and matures naturally. There are thousands of acres of such beds in the Chesapeake bay system of salt water. In such beds the oysters breed by the millions, and as they are too close together there they cannot all reach a satisfactory growth. If taken when small from these natural beds and strewn along on the bottoms where there are no oysters naturally, at the rate of 600 to 1,000 bushels per acre, such young oysters mature and ripen off for the market, some in one and the rest in two years.

There is a profit in such work when intelligently managed of 25 to 33½ per cent. Probably more than 100,000 acres of artificial oyster beds are made to grow an oyster crop in addition to the acreage embraced in the natural beds. The area of artificial beds is increasing rapidly each year.

One singular feature about the oyster is this: They all look exactly alike, there being no difference between the male and the female externally or internally. In fact, the art of man is not sufficient to distinguish one sex from another. Another unique feature is this: The male oyster "lays" as many eggs as the female—"equal rights," we perceive. The eggs of the male are called milt, and the eggs of the female are called spawn. An ordinary full grown oyster is supposed to lay a million eggs a year. In spawning season the water is full of these eggs, and when the milt and the spawn come in contact and the water is at the right temperature life is imparted to the microscopic egg, and it drops to the bottom, where, if it succeeds in grasping hold of something, such as another oyster or shell or rock or anything to hang on to, the tiny creature begins to form its shell and in a few weeks becomes visible to the eye.—Country Gentleman.

Monster Beds.

Though the beds of the royal personages of England were elaborately carved and hung with rich curtains, even so late as the Tudor period, it is recorded that King Henry VIII.'s bed contained only straw beneath all its finery. A curious order exists as to precautions to be taken against the possibility of intended mischief to the royal person in the making of the bed, for the usher was to search the straw through with a dagger, "that there be none untruth therein, and to tumble over on the down bed for the better search thereof." The bed of Henry VIII. was nearly eleven feet square, and of even more generous dimensions is the great bed to which Shakespeare refers in a well known passage in "Twelfth Night," which was twelve feet square. This "great bed of Ware" has been a marvel for centuries.

He Sent Another.

A few years ago a well known lawyer remitted in settlement of an account to the publisher of a paper a two dollar bill, which was returned with the brief statement:

"This note is counterfeit; please send another."

Two months passed before hearing from the lawyer again, when he apologized for the delay, saying:

"I have been unable until now to find another counterfeit two dollar bill, but hope the one now inclosed will suit, professing at the same time my inability to discover what the objection was to the other, which I thought as good a counterfeit as I ever saw."—Philadelphia Ledger.

Rise Above Your Troubles.

No matter what cares, anxieties or sorrows may vex or sadden you, do not prove yourself a weakling by going down before them, but show yourself noble in rising above them and molding them to life's purpose. Rather bear an insult than give one; rather dry a tear than cause one to be shed. How many celebrities we would have if men would be as anxious to make their own fame as they are to unmake the fame of others.

Nothing Left.

"I have had lots of friends who were guilty of mutilating books they had borrowed from me, but my latest experience was the most novel of all."

"What was it?"

"I lent Mrs. Blanks my dictionary a few days ago, and yesterday she returned it without a word!"—New Orleans Times-Democrat.

Brides Priced.

To us it seems a curious whim on the part of our ancestors of the eighteenth century that in their marriage announcements they should so often choose and with such seeming complacency to enlighten the world with regard to the amount of fortune received with the brides. Here are two cases in point: "Mr. James Coutts of Jeffry's Sq., merchant, to Miss Peagrum of Knightsbridge, £80,000." "W. Smith, gentleman, of the 2d Troop of Horse Guards, to Mrs. Ann Gardiner, a maiden lady, aged, 'tis said, near 70, with a fortune of £20,000."—Chambers' Journal.

Webster's Tiresome Habit.

Senator Hoar in his "Reminiscences" says that Daniel Webster had a tiresome habit in his public speeches of groping after the most suitable word after this fashion: "Why is it, Mr. Chairman, that there has gathered, congregated; this great number of inhabitants, dwellers, here; that these roads, avenues, routes of travel, highways, converge, meet, come together here?" When the speech was printed all the synonyms but the best one would be left out.

"The Three Most Beautiful Roses"
By Paul de Longpre

At the urgent solicitation of the Woman's Home companion, Mr. Paul de Longpre who is the greatest painter of flowers in the world consented to make a painting of what he considered "The Three Most Beautiful Roses" and the painting is without doubt one of the masterpieces of this great artist. This magnificent picture is reproduced in all its original grandeur on the cover of the Woman's Home Companion for June. Although this cover is an accurate reproduction of a painting worth hundreds of dollars, yet the June number which has this exquisite cover, may be obtained at any first class news stand or direct from the publishers for the trival sum of only ten cents.

Mr. Paul de Longpre is justly styled the "King of Flower Painters." He not only paints roses, but every flower that grows, and is the highest authority on flowers. His paintings are found in the most select homes. Some have sold for as much as even thousands five hundred dollars ($7,500.00).

Artists, art critics and competent judges all agree that the covers of the Women's Home Companion far excel those of any other magazine.

The Woman's Home Companion is a magazine which is a beauty and excellence, art. stories, illustrations and fashions, etc., exce's all other home and family magazines. The Woman's Home Companion is published by The Crowell Publishing Company, New York City, also Chicago, Ill., at One Dollar a year and is the favorite magazine in nearly half a million homes, where it is read each and every issue by three million people.

His Gentlemanly Resentment.

The Judge—You called him a liar, did you? How did he take it? The Colonel—He agreeably surprised me, suh, by acting like a perfect gentleman. He knocked me down, suh.—Chicago Tribune.

A Jilt.

"Is Miss Richly an athletic girl?"

"I should say so! She threw over one of the heavyweights of the football team."—Exchange.

A metal roof is said to be positive protection against the building it covers being struck by lightning.

The Originator.

"I wonder who made the first after dinner speech?" asked the philosopher.

"Adam," replied the wise guy promptly. "As soon as he got through with the core of that apple he said, 'The woman tempted me,' didn't he?"—Cincinnati Commercial Tribune.

Forced to It.

"You ought not to 'beg,'" she said.

"No, ma'am," admitted the tramp.

"Why do you do it?"

"Well, ma'am, I wouldn't if I could git people to give me money by jest askin' fer it."—Chicago Post.

DEFECTIVE PAGE

TWO OPEN LETTERS

IMPORTANT TO MARRIED WOMEN

Mrs. Mary Dimmick of Washington tells How Lydia E. Pinkham's Vegetable Compound Made Her Well.

It is with great pleasure we publish the following letters, as they convincingly prove the claim we have so many times made in our columns that Mrs.

Mrs. Mary Dimmick

Pinkham, of Lynn, Mass., is fully qualified to give helpful advice to sick women. Read Mrs. Dimmick's letters.

Her first letter:

Dear Mrs. Pinkham:—

"I have been a sufferer for the past eight years with a trouble which first originated from painful menstruation—the pains were excruciating, with inflammation and ulceration of the womb. The doctor says I must have an operation or I cannot live. I do not want to submit to an operation if I can possibly avoid it. Please help me."—Mrs. Mary Dimmick, Washington, D. C.

Her second letter;

Dear Mrs. Pinkham:—

"You will remember my condition when I last wrote you, and that the doctor said I must have an operation or I could not live. I received your kind letter and followed your advice very carefully and am now entirely well. As my case was so serious it seems a miracle that I am cured. I know that I owe not only my health but my life to Lydia E. Pinkham's Vegetable Compound and to your advice. I can walk miles without an ache or a pain, and I wish every suffering woman would read this letter and realize what you can do for them."—Mrs. Mary Dimmick, 59th and East Capitol Streets, Washington, D. C.

How easy it was for Mrs. Dimmick to write to Mrs. Pinkham at Lynn, Mass., and how little it cost her—a two-cent stamp. Yet how valuable was the reply! As Mrs. Dimmick says—it saved her life.

Mrs. Pinkham has on file thousands of just such letters as the above, and offers ailing women helpful advice.

TELEPHONE AS REFORMER.

An Example of the Surprising Effect It May Have on Our Morals.

Congressman Bingham, at a dinner of the Philadelphia Clover club, spoke of modern life in the most optimistic way, relates the Cincinnati Enquirer.

"The world is growing better," he said. "Daily it becomes cleaner, kinder, and more upright. Nearly everything makes for reform. Even the telephone has a tremendous reforming influence.

"Let me give you an example of the surprising effect that the telephone exercises over our morals.

"A certain man, at breakfast one morning, said to his wife:

"'My dear, I'll not be home to dinner to-night, and you had better not sit up for me, as I shall be detained very late at the office posting my books.'

"'Very well,' the lady answered. 'Before I go to bed I'll say good night to you over the telephone.'

"The man had forgotten, you see, that a telephone now connected his office and his house."

Reduced Rates to Buffalo, N. Y., Acct. Annual Meeting B. P. O. Elks, July 11th to 13th. The Nickel Plate Road offers low rates with long Limit and Stop-over at Chautauqua Lake, N. Y. Full information of Agent, or address J. Y. Calahan, General Agent, 111 Adams St., Chicago, Ill.

The German emperor is credited with the statement: "The whole world is in trouble when I travel," and if he said it, it isn't all egotism, either.—Boston Globe.

Just Discrimination in Railway Rates

All railroad men qualified to speak on the subject in a responsible way are likely to agree with President Samuel Spencer, of the Southern railway, when he says: "There is no division of opinion as to the desirability of stopping all secret or unjustly discriminatory devices and practices of whatsoever character."

Mr. Spencer, in speaking of "unjustly discriminatory" rates and devices, makes a distinction which is at once apparent to common sense. There may be discrimination in freight rates which is just, reasonable and imperatively required by the complex commercial and geographical conditions with which expert rate makers have to deal. To abolish such open and honest discrimination might paralyze the industries of cities, states and whole sections of our national territory.

This distinction between just and unjust discrimination is clearly recognized in the conclusions of the International Railway Congress, published yesterday:

> "Tariffs should be based on commercial principles, taking into account the special conditions which bear upon the commercial value of the services rendered. With the reservation that rates shall be charged without arbitrary discrimination to all shippers alike under like conditions, the making of rates should as far as possible have all the elasticity necessary to permit the development of the traffic and to produce the greatest results to the public and to the railroads themselves."

The present proposal is, as Mr. Walker D. Hines, of Louisville, showed in his remarkable testimony the other day before the senate committee at Washington, to crystallize flexible and justly discriminatory rates into fixed government rates which cannot be changed except by the intervention of some government tribunal, and by this very process to increase "the temptation to depart from the published rate and the lawful rate in order to meet some overpowering and urgent commercial condition."—New York Sun.

OREGON EXPOSITION NOTES.

Sutter's Fort, where gold was first discovered in California, 57 years ago, will be reproduced at the Lewis and Clark exposition by the Sacramento Valley Development association.

Massachusetts will send a delegation of legislators to the Lewis and Clark exposition, and they will bring with them an orator for the occasion. Rev. Dr. Taft, of Worcester, is mentioned in this connection.

There will be a riot of roses in bloom on the grounds of the Lewis and Clark exposition the opening day, and for many days thereafter. The rose exhibit will show forth the glories of the Oregon climate as a producer of hues and perfume.

Abraham Lincoln's old home at Springfield, Ill., the only piece of real estate ever owned by the martyred president, will be reproduced as the Illinois state building at the Lewis and Clark exposition. Many Lincoln relics will be exhibited.

Every day during the four and a half months of the Lewis and Clark exposition one or more excursions to Portland, on account of special events, will be run. It is estimated that 1,000 visitors will reach Portland daily on excursion trains alone.

In the Moonlight.

"Why, lovey, do they call them the soft rays of the moon?"

"Because, dearest, they are apt to make people soft."—Yonkers Statesman.

THINK OF IT!

This Pretty Matron Had Headache and Backache, and Her Condition Was Serious.

PE-RU-NA CURED.

MRS. M. BRICKNER.

99 Eleventh Street, Milwaukee, Wis.

"A short time ago I found my condition very serious. I had headaches, pains in the back, and frequent dizzy spells which grew worse every month. I tried two remedies before Peruna, and was discouraged when I took the first dose, but my courage soon returned. In less than two months my health was restored."—Mrs. M. Brickner.

The reason of so many failures to cure cases similar to the above is the fact that diseases peculiar to the female sex are not commonly recognized as being caused by catarrh.

FEMALE TROUBLE NOT RECOGNIZED AS CATARRH.

Catarrh of one organ is exactly the same as catarrh of any other organ. What will cure catarrh of the head will also cure catarrh of the pelvic organs. Peruna cures these cases simply because it cures the catarrh.

If you have catarrh write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

NEWS OF MINNESOTA.

Bonds.

St. Paul.—State Treasurer Julius H. Block has under consideration a recommendation to the board of investment of the sale of all or part of the state's holdings of the Virginia bonds. Mr. Block is investigating the probable price that these bonds would bring in case they were offered for sale.

The state holds $2,145,000 of these bonds, and all except $352,000 of them mature in 1991, with an option on the part of the state of Virginia to redeem them at par after 1936. Mr. Block is now corresponding with the authorities of Virginia to ascertain what proportion of them, if any, they expect to redeem. These bonds bear interest at the rate of 3 per cent, payable semi-annually.

There is a great demand for loans from the state—from our own school districts, municipalities and counties—for the purpose of building school houses, court houses, constructing drainage ditches, etc., and it is at present impossible to supply all these calls. This is particularly true of the northern part of the state, which is rapidly developing. These loans pay the state 4 per cent interest, or 33⅓ per cent more than the Virginia bonds bring.

Mr. Block's object in this disposition of the bonds is thus not only to aid the municipalities and school districts in our own state, but it would also result in a much greater revenue to the state school, university and other trust funds, now holding these bonds.

Business Openings.

It seems to me that the man with a small capital can find no better opportunity for investment and for the establishment of a small business than in some of the many growing towns of the Northwest.

The Great Northern railway issues a booklet 'Business Openings,' which adequately and comprehensively describes the needs of the many towns along its lines and contains a detailed list of the business openings afforded the man with limited means as well as the big investor. I do not know of a section of the country which offers such limitless opportunities to the man who is content to live in a new country. The fact that in nearly every state of the northwest there is an available supply for almost every form of manufacture, offers to the manufacturer a chance to operate close to the supply of raw material.

Life Insurance.

St. Paul.—Insurance Commissioner O'Brien issued a preliminary report of the condition and business of the life insurance companies doing business in the state during 1904. The amount written by the premium companies doing business in the state was $33,439,414 and the losses incurred amounted to $1,777,922. Their total admitted assets were $2,479,716,868, liabilities $2,229,652,200, and surplus $214,064,495.

The general casualty insurance companies have a cash capital of $20,782,681 and assets of $141,165,271. Of fifty-six fraternal societies furnishing the department with statements a total income of $1,977,774 is given in premiums and losses amounting to $1,516,764. There were eleven fraternal societies doing business exclusively in the state and these show an increase of $233,536 for the year and losses paid $163,441.

Less Aid.

Owing to the fact that the last legislature largely increased the number of rural schools to secure state aid without increasing the appropriation, the rural schools will this year receive considerably less than the $125 each, which is the regular amount granted. The legislature provided that a certain class of rural schools which do not employ a first grade teacher shall have $50 aid each. This money must come out of the $100,000 appropriated as aid for first grade schools, and will accordingly, cut down the allowance for each.

Many Fish.

The state fish commission will this year distribute 150,000,000 wall-eyed pike in the streams and lakes of the state. This large number of that species of fish is now being raised at the state hatcheries because it is declared to be the best pan fish in Minnesota waters, and its propagation is in every way assisted by the commission.

Fatal Fall.

Farmington.—Falling headlong from a scaffold suspended eighteen feet in the air, Peter Becka, a prominent farmer living four miles south of Farmington, was fatally injured.

Becka was working on a building located on the farm, when he suddenly fell. A St. Paul physician was called, who found that the neck was broken in two places.

News Notes.

St. Paul—The city clerk has issued 1,300 bicycle licenses.

St. Paul—John C. Eden resigns as assistant general traffic manager of the Great Northern.

St. Paul—The state railway and warehouse commissioners will make their own plans for hay inspection.

Duluth—Complaints that some of the retail meat dealers' and grocers' associations in Minnesota are violating the Minnesota anti-trust law were filed with Gov. John A. Johnson yesterday, and the governor has ordered an investigation.

Fort Snelling—Private A. Ballard, Company A, Twenty-eighth regiment, stationed at Fort Snelling, accidentally shot himself through the left wrist while cleaning his revolver.

St. Paul—State Treasurer Block proposes to cash the $2,000,000 worth of Virginia bonds held by the permanent school fund.

GOT AN EXCUSE TO TALK.

Wanted to Say Something to the Old Woman and the Way Was Opened.

"I was in a Long Island village last summer," said a New York lawyer, according to the Cleveland Leader, "when a big automobile came tearing along, and just in front of the post office it struck and killed a big hog belonging to a villager who was leaning over his gate at the time.

"'How fast was the machine going?' I asked of him, as he came out and looked after the flying auto.

"'Forty miles an hour,' he replied.

"'Then you can make the owner pay for your hog.'

"'Yes, I suppose so, but I don't think I shall fool with the case.'

"'Don't you think the hog is worth going to law about, eh?'

"'He was a fine hog, and I ought to be paid for him, but me and the old woman have been grouty at each other for a week, and I've been aching for a chance to open out on her. This is just what I wanted, and I'll let the auto go and go in and tell her some things she won't forget for the next 30 years!'"

The Truth Breaks Out.

"Now, of course, doctor," said the man upon whose eye the operation had been performed, "I respect your skill highly, and all that; but doesn't it seem, even to you, a little too much to charge $50 for doing a bit of work that occupied you about five minutes?"

"My good sir," said the great oculist, hastening to the defense of himself and his profession, "you don't realize that in acquiring the skill to perform such an operation in five minutes I have spoiled perhaps two bushels of eyes quite as valuable as yours!"—N. Y. Times.

Success Versus Succession.

Rubber—Well, Gen. Linevitch hasn't succeeded yet, anyway.

Cumback—Oh, yes, he has. He succeeded Gen. Kuropatkin.—Washington Post.

In Record Time.

Piney Flats, Tenn., May 29th.—(Special)—Cured in two days of Rheumatism that had made his life a torture for two years, D. S. Hilton, of this place, naturally wants every other sufferer from rheumatism to know what cured him. It was Dodd's Kidney Pills.

"Dodd's Kidney Pills are the grandest pill on earth," says Mr. Hilton, "I would not take any sum of money for what they did for me. For two years I had what the doctors called rheumatism. I could hardly walk around in the house. It seemed to be in my back and hip and legs. I tried everything but nothing helped me till I got Dodd's Kidney Pills.

"Two days after I took the first dose all pain left me and it has never come back since. I can't praise Dodd's Kidney Pills too much."

Rheumatism is caused by uric acid in the blood. Healthy kidneys take all the Uric Acid out of the blood. Dodd's Kidney Pills make healthy kidneys.

"De trouble wif some mighty smart men," said Uncle Eben, "is dat when a opportunity comes along, dey does so much mental arifmetic about it dat it's clean gone pas' befo' dey gits de answer."—Washington Star.

Who Is Pusheck?

One reads so much about Dr. Pusheck and the wonderful cures achieved by his Kuro, that everybody is interested to know more about him. Dr. Pusheck has practiced medicine for some 25 years in Chicago, and has within the last few years extended his efforts all over the country. All advice is free, and his main remedy—his Kuro—is sent on trial to anyone suffering from Weakness, Pain, Rheumatism or any Blood, Skin, Stomach or Nervous Trouble. Book free. Dr. Pusheck, Chicago.

An old coat that's paid for feels better on you than a new one that ain't—but, then, it's the looks of the garment nowadays and not the feel of it that counts.—Judge.

Shake Into Your Shoes

Allen's Foot-Ease. It cures painful, swollen, smarting, sweating feet. Makes new shoes easy. Sold by all Druggists and Shoe Stores. Don't accept any substitute. Sample FREE. Address A. S. Olmsted, Le Roy, N. Y.

Many a fellow has lost a mighty comfortable seat by injudicious standing up for his rights.—Puck.

Piso's Cure for Consumption is an infallible medicine for coughs and colds.—N. W. Samuel, Ocean Grove, N. J., Feb. 17, 1900.

Rain may be all right for growing crops, but it brings no joy to the baseball fan.—Chicago Chronicle.

Observations.

It is hard to say which is the more difficulty—living down a past or living up to a future.

Experience—the name we give our failures.

Impulse—what we regret next day.—Beatrice Sturges, in Smart Set.

Agricultural and Horticultural Colonies on the Kansas City Southern Railway.

Lockesburg Colony in Sevier County, Arkansas, containing about 30,000 acres, and Loring Colony in Sabine Parish, Louisiana, containing about 24,000 acres, are now open for settlement. Lands range in price from $7.00 to $15.00 per acre, and are sold on easy terms to actual settlers. Lockesburg Colony is well suited for General Farming, stock raising and commercial fruit growing. Loring Colony lies in a splendid fruit, truck and tobacco region, and is good for corn and cotton also. Both are situated in a beautiful country, with a healthy climate and excellent water. Write for books concerning Lockesburg and Loring Colonies and "Current Events" Magazine to S. G. Warner, G. P. & T. A., K. C. S. Ry., Kansas City, Mo.; F. E. Roesler, Immigration Agt., K. C. S. Ry., Kansas City, Mo.

"Hit makes no diffunce ter me," says Brother Dickey, "ef de worl' is flat or roun'; what's botherin' me is how not to fall off."—Atlanta Constitution.

EVERY WALK IN LIFE.

A. A. Boyce, a farmer, living three and a half miles from Trenton, Mo., says: "A severe cold settled in my kidneys and developed so quickly that I was obliged to lay off work on account of the aching in my back and sides. For a time I was unable to walk at all, and every makeshift I tried and all the medicine I took had not the slightest effect. My back continued to grow weaker until I began taking Doan's Kidney Pills, and I must say I was more than surprised and gratified to notice the backache disappearing gradually until it finally stopped."

Doan's Kidney Pills sold by all dealers or by mail on receipt of price, 50 cents per box. Foster-Milburn Co., Buffalo, N. Y.

Say Plainly to Your Grocer

That you want LION COFFEE always, and he, being a square man, will not try to sell you anything else. You may not care for our opinion, but

WOOLSON SPICE CO., Toledo, Ohio.

WORK THAT TELLS

The Kind That Brings Real Success is Done with a Healthy Body and Brain.

How can you expect to do the best work of which you are capable with either brain or body if you don't have that real health and good feeling, that vim and force that comes from perfect digestion? Egg-o-See is not a medicine; simply a perfect food. Easily enough assimilated for the invalid, yet containing enough nutriment to sustain the greatest physical exertion. Try it for breakfast and lunch and do away with grease and soggy cereals and see how almost magical is the effect. You'll find real pleasure in its eating, it is so crisp and palatable that you will want it again. It brings the right kind of energy for real success.

EGG-O-SEE is a food especially adapted to people living in the smaller towns and country districts, because of the abundance of rich cream at hand.

Nearly Everybody Eats It Now.

A large package at any grocery 10c

Way It Affects You.

"I've explained to you what 'trunk' and 'branch' mean," said the teacher of the botany class; "now who can tell me what 'sprig' means?"

"I know," cried Tommy, "it means you've got a cold in your head when you try to say 'spring.'"—Philadelphia Public Ledger.

900 DROPS

CASTORIA

A Vegetable Preparation for Assimilating the Food and Regulating the Stomachs and Bowels of

INFANTS AND CHILDREN

Promotes Digestion, Cheerfulness and Rest. Contains neither Opium, Morphine nor Mineral. NOT NARCOTIC.

Recipe of Old Dr SAMUEL PITCHER.

Pumpkin Seed –
Alx. Senna +
Rochelle Salts –
Anise Seed +
Peppermint –
Bi Carbonate Soda +
Worm Seed –
Clarified Sugar
Wintergreen Flavor.

A perfect Remedy for Constipation, Sour Stomach, Diarrhoea, Worms, Convulsions, Feverishness and LOSS OF SLEEP.

Fac Simile Signature of

Chas. H. Fletcher.

NEW YORK.

At 6 months old

35 DOSES – 35 CENTS

EXACT COPY OF WRAPPER.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher. and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher.

The Kind You Have Always Bought

In Use For Over 30 Years.

SUMMARY OF A WEEK'S EVENTS

MOST IMPORTANT HAPPENINGS AT HOME AND ABROAD IN CONDENSED FORM.

THE WAR IN THE FAR EAST

Progress of Hostilities Between Russia and Japan—Doings at Washington—Items of Interest from All Over the World.

RUSSO-JAPANESE WAR.

President Roosevelt, in a talk with Ambassador Cassini, urged Russia as a friend to bring the war to an end, and offers his good offices in case the czar decides to seek peace. An answer from St. Petersburg is not expected for several days.

Rough estimates made of the Russian losses in the battle fought in the Sea of Japan, exclusive of nearly 4,000 prisoners, vary from 7,000 to 9,000. It is feared that the majority perished. The total Japanese casualties are under 800.

Rear Admiral Voelkersam, who was commander of the battleship squadron of the Russian fleet, was, it is announced, killed the first day of the battle, May 27, in the conning tower of his flagship, the battleship Oslabya, one of the vessels sunk.

Admiral Togo, in an official report, sums up his great victory, saying Rojestvensky is a prisoner and wounded, and the Baltic fleet is practically wiped out, 22 ships having been sunk or captured. No Japanese ship was seriously damaged, he says. Two ships of Rojestvensky's fleet, the cruiser Almaz and the destroyer Grozny, arrived in Vladivostok and reported that Togo lost two battleships in the fight.

In a dispatch to Tokio Admiral Togo announces that the recent naval battle will be known as "the naval battle of the sea of Japan."

Admiral Togo reports that Vice Admiral Enquist was captured with Admiral Rojestvensky. The Russian prisoners, Togo says, will exceed 3,000.

It is officially announced that in the naval battle the damages received by the Japanese fleet v re very slight. None of the battleships, cruisers, destroyers or other ships were lost except three torpedo boats. Three officers were killed and about 200 men killed or disabled.

A Japanese expert in analyzing the cause of Rojestvensky's defeat says the Russian gunnery was bad and ammunition was wasted.

Rojestvensky was captured while hidin the coal bunkers of a torpedo boat destoryer.

The feeling against Admiral Nebogatoff because of his surrender is bitter in Russia, many admiralty authorities demanding that he be shot.

Another Russian torpedo boat destroyer, the Terosiahty, has arrived at Vladivostok.

An officer of the Russian battleship Borodino says she was wrecked by the Japanese fire in the battle and finally sunk by a torpedo.

The Russian cruiser Izumrud, in flight from Togo, struck a reef on the coast of Siberia and was blown up by her own crew.

St. Petersburg admits loss of mastery of the sea and the czar wept on hearing the news of the disaster on the sea.

Gen. Linevitch telegraphs the Czar that the Russian army is in revolt and that it is impossible to continue the war.

The Russian army in Manchuria, hearing of the sea disaster, is in revolt, and demands that fighting cease. Nicholas called a council to consider the course of [illegible] nation. The St. Petersburg press raises a bitter cry against the bureaucracy.

MISCELLANEOUS.

A. R. Hall, aged 64 years, died at Knapp, Wis., from a paralytic stroke which he sustained on May 24. Mr. Hall was a prominent lawyer and was well known in political circles in Minnesota and Wisconsin.

Dr. G. W. Lorenz turned state's evidence against Machen and Crawford, and revealed a conspiracy to rob the government through postal contracts.

A bomb hurled at the carriage containing King Alfonso and President Loubet in Paris injured neither ruler, but many soldiers were injured.

THE CHICAGO STRIKE.

Startling charges of attempted bribery of labor leaders by prominent business men for the purpose of having strikes called or ended were made before the grand jury in Chicago by President C. P. Shea, of the teamsters, and by Albert Young.

That the present strike could have been settled weeks ago on the payment of $50,000 is a counter charge hurled at the Chicago labor leaders who accused well-known business men of attempted bribery.

Positive announcement has been made that there will be no sympathetic strike in New York to help the Chicago teamsters. Instead of quitting their jobs, the New York union drivers, who number 38,000, will be assessed five cents, or $1,900, a day.

Confederate Memorial day was observed at Lexington, Va., by special exercises in Lee Memorial chapel. The burial place of Gens. Robert E. Lee, Stonewall Jackson and other distinguished dead were decorated profusely with flowers and flags.

The First national bank of Ladysmith, Wis., was closed and is in charge of P. F. Earling, special bank examiner. The state has on deposit $8,000 and total deposits aggregate $35,000, which will be paid in full and the bank reorganized.

Special dispatches from several points in Walworth county, southern Wisconsin, say that 17-year locusts are reported to have arrived in that section, but not in sufficient numbers as yet to do any serious damage.

The Wisconsin assembly adopted a resolution for a constitutional convention and passed a bill taxing telegraph and telephone companies on an ad valorem basis.

A bill appropriating $650,000 for a new capitol building at Madison passed the Wisconsin senate.

A serious fight has taken place between Servian and Bulgarian bands, near Kitshewo, Macedonia. Twenty Bulgarians and 12 Servians were killed and many on each side were wounded.

One person was killed and 14 injured in an accident on the Delaware, Lackawanna & Western railroad at Passaic, N. J.

Fire in Pittsburg, Pa., completely destroyed the Avenue theater and partially wrecked the Grand opera house adjoining, but fortunately no panic resulted, and no lives were lost. The loss will reach $100,000; fully insured.

J. L. Galloway, tax collector of Fanning county, and his brother, George Galloway, were killed on an excursion train near McKay's, Tenn., by a man named Ewing. The cause of the trouble is not known.

Benjamin F. Marsh, republican member of the United States house of representatives from the Fourteenth district of Illinois, died at his home in Warsaw, Ill. Mr. Marsh had served eight terms in congress and had been elected to a ninth term.

A bomb was exploded in the palace of the governor general at Bareclona, Spain, causing considerable damage. Ten persons were arrested.

Charles Cooper, aged eight, and Harry Cooper, aged 14, only children of Rev. Fred Cooper, were killed by lightning while working in an orchard at Wenatchee, Wash.

Favorable weather aids Chicago business and despite the teamsters' strike confidence is increasing.

Mayor Weaver, of Philadelphia, ousted two more organization appointees.

An error in telegraphing the government cotton report caused a panic in New Orleans and the loss of fortunes by the bulls.

Eddie Hanlon was given the decision over Young Corbett at the end of their 20-round bout at San Francisco.

The sultan of Morocco refused to accept the French scheme of reforms and appealed to the powers. The act is regarded as a rebuff to England and France.

James W. Alexander is to be shorn of power and supplanted by the chairman of the board of directors of the Equitable Life Assurance society. James Hazen Hyde was requested to sell his stock inside of three months. The Frick committee report was rejected by the directors, and Frick, Bliss and Harriman resigned.

The czar signed a call for a national assembly to decide on peace or war.

President Roosevelt will start on his trip through the south next autumn on the night of the 17h of October.

Washington diplomats think that when peace negotiations come Roosevelt will act as arbitrator.

The monthly statement of the public debt shows that at the close of business May 31, 1905, the debt, less cash in the treasury, amounted to $1,000,346,128, which is an increase for the month of $3,128,187.

John Thoroughgood, a prominent manufacturer and politician, dropped dead in his office in Janesville, Wis. Death was due to apoplexy.

An earthquake caused great damage at Scutari, Albania where about 500 houses and 200 persons were killed or injured.

The announcement is made officially that the extraordinary session of congress, which it is the present intention of President Roosevelt to call, will not begin until after the November elections.

Without a dissenting vote both branches of the Philadelphia city council withdrew the ordinance authorizing the extension of the city gas works lease to the United Gas Improvement company for a period of 75 years, for which privilege the company was to pay the city $25,000,000.

Mr. Justice Harlan, of the United States supreme court, was the guest at a banquet given in honor of his seventy-second birthday by the Louisville Bar association.

Because he threatened the lives of his fellow townsmen with a gun, George Workman, the town sergeant, of Charleston, W. Va., shot and instantly killed John Jones, a miner.

Two miners were killed at the Walpole mine at Iron Mountain, Mich., by a fall of overhanging ore.

Oscar F. Miller, of the Alhambra theater of Milwaukee, Wis., died after a ten days' illness. Mr. Miller suffered from a complication of diseases. He was one of the best-known theater managers in the west.

Gov. La Follette told the Wisconsin senate it must pass a railway tax measure or have an extra session.

President Roosevelt pushed the key at Washington that started the Lewis and Clark exposition at Portland, Ore., 3,000 miles away.

The government deficit was increased $2,000,000 during May and is now $36,649,680 for 11 months of the fiscal year.

John Moore, of Richmond, Tex., was nominated for congress by the democratic convention at Houston, to succeed John M. Pinckney.

Two Liverpool shipowners sued Charles F. Wenham, a Chicago steamship agent, to recover $65,000, alleged to have been misappropriated.

A report to the Lake Mohonk conference shows that business organizations in 32 states and 57 large cities support international arbitration.

A bill for an injunction filed in the federal court in Chicago accuses George Gallup, of Escanaba, Mich., of a $70,000 fraud.

The attempt to kill King Alfonso with a bomb was the result of a plot by Spanish anarchists, and the thrower is under arrest, the police of Paris declare.

The United States government is ready to join in an international conference for stricter laws against anarchists.

Hope for peace is wrecked by a conference of czar and advisers, who will involve Europe in a general conflagration rather than submit to Japan's terms.

The American schooner Atlantic won the race across the Atlantic for the Kaiser's cup, making a new record. The German schooner yacht Hamburg finished second, nearly 24 hours behind the Atlantic.

With Russia conquered, overtures for peace must come from the czar. Japan will demand an indemnity of perhaps $1,000,000,000. Oyama is ready to cruch Linevitch if negotiations are not opened soon.

During the term of the supreme court of the United States just closed, 400 cases were docketed and 402 cases were disposed of. When the court adjourned there were still 280 cases on the docket.

Former Congressman John Murray Mitchell, of New York, died at his country residence in Tuxedo Park, N. Y.

President Roosevelt authorized the announcement that Charles J. Bonaparte, of Baltimore, Md., would be appointed secretary of the navy to succeed Paul Morton, who stated he would retire July 1.

The Albright art gallery was dedicated at Buffalo, N. Y., in the presence of 10,000 people.

At least five men were killed and two seriously injured by a cave-in at the Gunnison reclamation tunnel in Colorado.

William Rosenbrook and John Boldt were instantly killed and William Gool fatally injured at a barn raising on the farm of Mrs. Jacob Heisler, north of Albion, Mich.

Under the supervision of the United States bureau of forestry a forest of 35,000 trees has been planted on the slopes of San Gabriel mountains of California to conserve the water of the mountain streams for irrigation purposes at a total cost of but $1,485.

Figures for six months show that the tide of immigration is still rising.

Missouri's secretary of state closed a St. Louis bank against which charges of fraud are filed.

Clearings of Chicago banks in May are larger by $130,000,000 than in the corresponding month of 1904.

Judge George Gray opened the annual Lake Mohonk conference on arbitration. Other speakers were Carroll D. Wright, Benjamin F. Trueblood and Justice Brewer.

The English yacht Valhalla finished third in the trans-Atlantic cup race.

Deputy Sheriff Cole, of Charlotte, Mich., who shot and killed Charles Edwins the night of May 7, was bound over to the circuit court and furnished $5,000 bail.

A pack of 30 wolves attacked a woman and two children near Refugio, Tex., but after a desperate battle lasting an hour the three persons were rescued by a United States mail carrier.

Worthy Naulty, aged nine, and Louis Jolin, aged ten, were drowned by the capsizing of a duck boat in which they were playing at Marine City, Mich.

VLADIVOSTOCK AWAITS ATTACK

DEFENSES ARE PUT IN CONDITION AND NON-COMBATANTS LEAVE.

More Moves for Peace. Nations are Working Together and it is Believed Russia will Ultimately be Brought to Terms.

St. Petersburg, June 5.—A dispatch received here says that all non-combatants have been ordered to leave Vladivostok.

Vladivostok, June 5.—It is expected here that a Japanese attack on the fortress will not be long delayed. There is, however, a calm and determined spirit manifested by the population in face of the impending crisis.

The defenses of Vladivostok, on which steady work has been in progress since the beginning of the war, are now considered as having been completed.

Washington, June 5.—The German emperor had added his voice and instructed his ambassador at St. Petersburg to advise the czar to accept Roosevelt's offer of his frendly inter vention to establish between Russia and Japan a basis which they can discuss the ending of the war.

The information was officially communicated to the president last night by Baron Sternberg, the German ambassador at the White House lasting two hours. The details of their discussion was regarded with the utmost secrecy.

Manila, June 5.—The naval board, which has examined into the condition of the Russian warships here, reports that the Oleg will require sixty days, the Aurora thirty days and the Jemtchug seven days to effect repairs.

TORNADO.

Belle Plaine, Minnesota, is Visited by a Severe Storm that Does Considerable Damage.

Belle Plaine, Minn., June 4.—A tornado last night, 9 miles wide north and south, knocked down a large barn belonging to Mrs. Sielaff, killing two cows: Mail Carrier O'Connor's barns were demolished and part of his house and chimney are gone. Mrs. Merlin's confectionery front broken in; granary of Mrs. Sisterman carried a distance of fifty feet, thrown against a barn and completely demolished, and damaging the house. Sam Kapin's plate front broken in; Whitlock's lumber yard badly damaged; demolished the plate glass of J. R. Stratton's dwelling; telephone wires all down. The Catholic church under construction was damaged considerably.

Forest Fires.

Bemidji, Minn., June 5.—Several dangerous forest fires are raging in this vicinity.

At Blackduck a forest fire broke out and the citizens turned out en masse to fight it. Three times it attacked the yards of the Chicago Coal & Fuel company, containing 200,000 poles as well as thousands of cords of ties and pulpwood, and each was beaten off. A message notified the Bemidji fire department to be in readiness to respond to an emergency call.

Pioneer Dies.

Knapp, Wis., June 5.—A. R. Hall, 64 years of age, died Saturday from a paralytic stroke which he sustained on May 24. Mr. Hall was a prominent lawyer, and was well known in political circles in Minnesota and Wisconsin. He served seven terms in the Minnesota assembly, during three of which he occupied the speaker's chair. He moved to Wisconsin in 1880, and from 1890 served in the Wisconsin legislative assembly six successive terms.

Killed by Cars.

Mankato, Minn., June 5.—A stranger, believed to be Joseph Whishart, was killed by the southbound passenger train on the Milwaukee road a mile south of Le Sueur Center while walking on the track. He is believed to be deaf and dumb. The engineer whistled and reversed his engine, but paid no head and was struck and badly mangled.

Elevator Robbed.

Stillwater, June 5.—The grain elevator of Jamieson & Havenor of St. Paul, located at Afton, was entered by burglars and about $8 taken from the office safe—all it contained. The combination on the safe was not turned, and the robbers had only to turn the handle to open it.

Semi-Centenial.

Preston, Minn., Sune 5.—The annual reunion of old settlers, which was to have been held here on June 29, has been postponed to Aug. 14 when Preston will celebrate its semi-centennial. The original village plat was recorded on Aug. 14, 1855.

WASHINGTON LETTER

ASSISTANT SECRETARY TAYLOR MAY RESIGN.

HAS INTERESTS IN ALASKA

Personality of Col. Andrews—Miraculous Changes North of Capitol Grounds—Want Paul Jones' Body at National Capitol.

WASHINGTON.—The treasury department is likely to lose one of its prominent officials and a most interesting character. This is "Uncle Hod" Taylor, assistant secretary, who has charge of internal revenue affairs, immigration, public buildings and other important bureaus of the department. Mr. Taylor has about concluded that his private interests can no longer be sacrificed for a $4,000 government job and the chances are that within the next few months he will withdraw from the public service.

The assistant secretary, who is affectionately known as "Uncle Hod," is one of the "plain people" whom President Roosevelt likes and talks so much about. He was governor of Wisconsin, and in his time perhaps has been the shrewdest political leader in that state which turns out past masters in the art of political manipulation. He is a somewhat picturesque character, a man of homely phrase, but good, sound, common sense. He looks like a prosperous farmer or cattle grower, who had invested considerable money in banks and acquired a little of the polish of a city. He wears a heavy suit of almost white hair, his face is smooth shaven and full of healthy color, and he usually dresses in sack coat and trousers of light-colored material. He has a shrewd but kindly eye, and although very "near" in making a business bargain, he is a bluff, big-hearted western business man.

Like so many popular statesmen in Washington, Mr. Taylor is a devoted fisherman. He has caught every kind of game fish from the rainbow trout to the mighty salmon of Canadian waters. He is never so happy as when, with congenial comrades, he is off to the northern woods for a month's fishing for bass, pickerel or salmon. He has a collection of fishing rods that would make the eyes of old Izaak Walton bulge out with envy if that gentle sportsman were on earth to catch a glimpse of them.

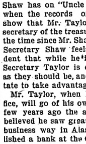
How "Uncle Hod" Is Regarded.

IT TOOK the president some little time to appreciate Assistant Secretary Taylor, because of the latter's brusqueness and independence, but now Mr. Roosevelt has the highest estimation of him and is trying to persuade Mr. Taylor to remain in the treasury department. Secretary Shaw, a westerner himself, was not long in discovering the worth of the ex-governor of Wisconsin. When puzzling questions would arise about the construction of public buildings or the proper application of the immigration laws, Mr. Taylor had the faculty of going right straight to the main point of the question in a way that pleased Secretary Shaw very much.

The dependence which Secretary Shaw has on "Uncle Hod" is apparent when the records of the department show that Mr. Taylor has been acting secretary of the treasury more than half the time since Mr. Shaw first took office. Secretary Shaw feels perfectly confident that while he is away Assistant Secretary Taylor is conducting affairs as they should be, and he does not hesitate to take advantage of this fact.

Mr. Taylor, when he goes out of office, will go of his own volition. Some few years ago the assistant secretary believed he saw great possibilities in a business way in Alaska, and he established a bank at the City of Nome. His foresight has been justified, and the business of the bank has grown so great and mining interests with which he is connected are so important that he now feels compelled to give them his undivided attention.

May Be Governor of Pennsylvania.



A WELL-KNOWN figure at the capitol and in public life in Washington may be transferred to the highest office in the gift of the people of Pennsylvania next year. Col. Wesley R. Andrews, secretary to Senator Penrose, of Pennsylvania and chairman of the republican state committee, is said to be slated for the nomination for governor in the Keystone state next year. Col. Andrews is a quiet, modest man, but his intense energy and his absolute devotion to public business has made him one of the best-known men in the senate end of the capitol. As secretary of the Pennsylvania state committee for a number of years, he has established a personal acquaintance that was not equaled even by that great political master, the late Senator M. S. Quay.

Col. Andrews is a fine example of the self-made man, and those who know his worth believe that the governorship of Pennsylvania is not too great a reward for the work he has done. He is a man of less than average stature, rather spare of form, with a clear complexion and a kindly, but piercing eye, and gives no outward evidence of the tremendous amount of work he can perform. It is no unusual thing for him during the busiest days of the session or in the heat of a campaign to work 20 hours out of the 24. He can keep three or four stenographers busy taking the dictation necessary to dispose of Senator Penrose's heavy correspondence.

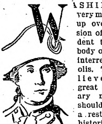
Col. Andrews is a brother of the widely known "Bill" Andrews, now of New Mexico, but lately of Pennsylvania, where he was recognized as the late Senator Quay's first lieutenant. There is wide difference, though, in the character of Wesley R. and William H. Andrews. The latter is the typical political boss, while the former is the efficient and able public servant. The boss, or as he is better known, "Bill" Andrews, is now delegate-elect from New Mexico, and expects to be a United States senator if statehood is granted that territory.

"Swampoodle" Changed.

WITHIN the next year or two the whole face of nature north of the capitol grounds will be changed. The corner stone has been laid of the magnificent $4,000,000 Union depot which is to be erected some four or five squares north of the capitol building. It is situated in a low-lying district, much of which had for years enjoyed the more or less euphonious name of "Swampoodle," where negroes of the lowest class lived and where crime was rampant. This low ground is to be filled up and the big union depot will almost be on a level with the capitol, and the group of magnificent public buildings that are located and to be built about the capitol plaza.

The earth necessary to fill up this hollow would constitute a mountain, almost, and it is being obtained from the excavations already made and in progress for the house and senate office buildings and from the tunnel which the Pennsylvania railroad is digging under Capitol hill. The rapidity with which landmarks have been removed and former well built-up squares of the city have disappeared has taken away the breath of the old inhabitants. The big square adjoining the northeast corner of the capitol grounds less than three months ago was covered with rows of houses, some of them luxurious mansions. Today a big steam shovel is rapidly converting that square into a big hole in the ground. The dirt and the debris as it is being scooped out is loaded on cars and quickly deposited on the ground around the new depot, so that by the time the walls of the latter have been built, the surrounding squares will have been raised to the height of 50 feet or more.

Arlington Or Annapolis?



WASHINGTON is very much wrought up over the decision of the president to have the body of Paul Jones interred at Annapolis. This city believes that the great revolutionary naval hero should have found a resting place in historic Arlington which, of all the national cemeteries containing the bodies of dead soldiers and sailors is the most noted.

If Paul Jones' body were to rest in Arlington it is claimed that a thousand patriots would pay tribute at his tomb where one will do so at Annapolis. The latter, it is true, is the naval center of the United States, and this is the reason why it was chosen as the final resting place for the first American naval hero. It is claimed that his memorial there will be an inspiration to the youths who are taught at the naval academy, and will serve to bring the lessons of his great career more emphatically to their minds. The history of the navy rests at Annapolis and the navy claims Paul Jones as its own.

Admiral Dewey, the head of the navy, who has all the affection possible for his alma mater at Annapolis, and who is loyal to that naval town, takes a broader view of the disposition of Paul Jones' body. He believes that Jones belongs to the whole people and not particularly to the navy. As the National cemetery at Arlington, just across the Potomac from Washington, is the resting place of both military and naval heroes, Admiral Dewey believes that it is there the body should lie, and a great memorial be erected.

DEFECTIVE PAGE

THE SUNBEAM.

Published every Friday, at Gully, Minnesota

BY HUNT & SINGER.

Entered at the postoffice at Gully, Minnesota, as second class matter.

Rate per year in advance $1.00.

NOTICE With this issue we discontinue the publication of THE SUNBEAM, at Gully. The plant will be removed to the new location of Steenerson, in the township of High Landing Red Lake county, from which place it will be issued about July 1st.

Hunt & Singer.

THEM NEW SHOES.

Crookston Journal: Senator Stephens is receiveing considerable atention just now. Governor Johnson's shoes are large in size we are told—yet smaller feet in the Republican ranks may fill them. Senator Stephens sounds well. Governor Stephens would sound better. Crookston is justly proud of her distinguished republicans. There are several that have the admirable qualities necessar for the governorship here. Some are of the polished, policy sort. Others are frank and open and stern, We have the timber. The lightning had best not flirt in our domain It's dangeroue. Still, Governor Stephens sounds pleasant to the Journal and the thousands that delight in honering him.

Well if A. D. Stevphens is going to jump for bigger fish in the next campaign he may just as well try Gov. Johnsen's shoes as a pair that might be a poorer fit. However he can depend on the solid support of all the railroads, as he earned it by his votes in the last legislature.

The King of Bardsey.

About a mile distant from the rocky promontory of Braich-y-Pwll, the extreme westerly point of north Wales, lies the island of Bardsey, the home of a singularly isolated community. The island is the property of Lord Newborough and was a favorite resort of the third baron, grandfather and predecessor in the title of the present peer. At that period the island was even more remote and out of the way than at present. Communication with Pwllheli was infrequent and uncertain. Consequently the Bardsey folk formed an entirely independent community, forced by circumstances to conduct their own affairs without special reference to the laws of the country. Lord Newborough instituted the office of "king." Selecting from the islanders one of superior parts and character, he invested him with the general authority which he himself possessed as landlord, bidding the rest to obey his ruling, abide by his decisions in case of dispute and in general respect his authority. Partly in jest, partly to strengthen his vicegerent's position, he conferred upon that worthy the title of "king of Bardsey" and bestowed upon him a crown, a treasure and an army. The "crown" was a gorgeous diadem of brass, wondrously embossed and wrought; the "treasure" a silver casket brought from Italy, and the "army" a wooden figure painted to represent a soldier.

Grotesque African Customs.

Tattooing is almost universally practiced by both sexes of the natives of Africa. It is, however, very roughly done and is altogether inferior to the tattooing of the Maoris of New Zealand and other Pacific races. The method of operation is simply to make a slit in the skin and then rub in charcoal. Among the less pleasing feminine ornaments must be reckoned the nose buttons of the Wa Yao and the frightful pelele, or lip ring, of the Anyanja. The nose button is a circular disk of ivory or burnished lead let into one side of the nostril. Ugly as is the effect produced by this, it is yet a thousand times less hideous than the pelele, which consists of a round, flat piece of ivory or wood fixed in a slit in the upper lip. The slit is gradually increased by the insertion of successive plugs, each a little larger than the preceding one, until it can accommodate a full sized pelele, which sticks out an inch or more in front of the face, rendering the appearance of the wearer scarcely human.

The Young Fool.

There may be no fool like the old fool, but he is given a close rub by the young man who tries to keep step with [illegible]nions who have three or four [illegible]mes as much spending money as he. —Hartford Post.

The Frosted Hand.

"Yes, and after she refused me she waved her hand in farewell."

"Sort of cold wave, wasn't it?"—Cleveland Plain Dealer.

Men who take things without thanks and let them go without repining are generally the most successful of mortals.—Milwaukee Sentinel.

SPORTING RIGHTS.

Only Source of Income of Many Titled English Families.

Were it not for the enormous sums paid for fishing and shooting rights many people of ancient names and goodly title would, in the most literal sense, have no means of livelihood whatever, and only the other day one of the best known property agents of the west end of London drew up for the writer a list of a dozen people mixing in society of an exclusive kind, every penny of whose income is derived from the letting of sporting rights.

Nearly all the money thus expended has been made in commerce, and the agent referred to above showed documentary evidence proving that there are lots of men who do not mind paying as much as £100 for every deer, £3 for every trout and £20 every salmon they kill, plus the sport of killing them. One of the most remarkable features of this letting is the fact that only about one in every hundred of the owners of ancient sporting rights ever enjoys his privileges as a sportsman. He either prefers or is compelled to part with such privileges, and those who take advantage of them are nearly all people in business.

This renting of fishing and sporting has even extended down to comparatively humble people in the provinces. Many a small Yorkshire farmer is being kept, and well kept, not by his farming, but by the letting of some comparatively insignificant sporting right.—London Tit-Bits.

Gilding Without Gold.

One more proof that all is not gold that glitters is found in the fact that much of the gold lettering seen on signs, and also much of the gilding of picture frames, has no gold whatever about it. Among laymen the opinion prevails that all such decoration requires the actual use of gold leaf, but the reality is different, and a substitute that defies detection has been widely used for some time. The exact effect of gold is secured by using a leaf of either silver or aluminium under yellow paint. The metal backing gives the required luster, and the paint gives the required color. This method cannot be used in all cases, because the paint is of peculiar quality and requires putting on with an even thickness. For this reason it is generally applicable only to flat surfaces. Parts of a gilded picture frame which are molded into waving surfaces generally require genuine golf leaf to cover them. —Philadelphia Record.

Plant a Tree.

When eating a good pear or apple save the seeds and plant them either in a flower pot, where they will germinate before long, or else directly in the garden, when they will come up next spring. To prevent their loss the place must be covered as a mark. It takes a number of years before they bear fruit, but to see the progress of growth from year to year is always interesting. People often think it is not worth while for them to plant trees. They will not live to have fruit of them and so neglect it entirely. But some one will enjoy the harvest. It is just the individual egotism which causes so much unhappiness and affects all classes of society in many ways.—Hartford Times.

Great Heads and Little Wit.

Great men are usually said to have great memories, but it does not follow that all who have great memories are great men. I remember an idiot in Ohio who was a great curiosity many years ago. He knew the whole Bible by heart from beginning to end, and if any verse was read or repeated to him he could tell exactly in what book and chapter it was to be found and its verse number in the chapter. He was considered a great marvel in this particular, but in every other he was a mental imbecile and could not be trusted even to feed himself.—St. Louis Globe-Democrat.

For a Shave de Luxe.

"Let me give you a tip for which I think you will be grateful," said a local barber in one of the downtown shops the other day. "Always maintain a pleasant feeling and a slight smile if possible when in a barber's chair for the purpose of being shaved. When the face is in a smile and the muscles are relaxed it is very much easier for the barber to run over it with a razor. This is especially applicable to persons who have a tough and wiry beard."—Washington Star.

A Mean Trick.

A Huntsville man has a book on the cover of which is a picture of a man yawning. Whenever his wife begins to lecture him he gets out the book and reads it in front of her. She sees the picture and has to stop talking to yawn. Finally she becomes too tired to talk.—Kansas City Star.

Somewhat Inconsistent.

Sir Hartley Williams, a celebrated judge of Australia, said he once knew a pious lawyer who was in the habit of praying for clients. "Imagine," exclaimed the judge, "the insult to the Almighty contained in the request that he should stir up strife among people, foment discord and promote litigation just to serve the selfish purposes of this pious solicitor."

Its Beauties.

"Do you now appreciate the beauties of civilization?"

"Yes," answered the barbarian. "Civilization is a great institution. But, as in the case of other large enterprises, it's usually best to be one of the promoters and get in on the ground floor." —Washington Star.

OYSTER FARMS.

The Natural and Artificial Beds in Eastern Virginia.

In eastern Virginia there are several thousand acres of oyster farms where oysters are raised by artificial methods on artificial beds. The natural oyster bed is where the oyster breeds and matures naturally. There are thousands of acres of such beds in the Chesapeake bay system of salt water. In such beds the oysters breed by the millions, and as they are too close together there they cannot all reach a satisfactory growth. If taken when small from these natural beds and strewn along on the bottoms where there are no oysters naturally, at the rate of 600 to 1,000 bushels per acre, such young oysters mature and ripen off for the market, some in one and the rest in two years.

There is a profit in such work when intelligently managed of 25 to 33⅓ per cent. Probably more than 100,000 acres of artificial oyster beds are made to grow an oyster crop in addition to the acreage embraced in the natural beds. The area of artificial beds is increasing rapidly each year.

One singular feature about the oyster is this: They all look exactly alike, there being no difference between the male and the female externally or internally. In fact, the art of man is not sufficient to distinguish one sex from another. Another unique feature is this: The male oyster "lays" as many eggs as the female—"equal rights," we perceive. The eggs of the male are called milt, and the eggs of the female are called spawn. An ordinary full grown oyster is supposed to lay a million eggs a year. In spawning season the water is full of these eggs, and when the milt and the spawn come in contact and the water is at the right temperature life is imparted to the microscopic egg, and it drops to the bottom, where, if it succeeds in grasping hold of something, such as another oyster or shell or rock or anything to hang on to, the tiny creature begins to form its shell and in a few weeks becomes visible to the eye.—Country Gentleman.

Monster Beds.

Though the beds of the royal personages of England were elaborately carved and hung with rich curtains even so late as the Tudor period, it is recorded that King Henry VIII.'s bed contained only straw beneath all its finery. A curious order exists as to precautions to be taken against the possibility of intended mischief to the royal person in the making of the bed, for the usher was to search the straw through with a dagger, "that there be none untruth therein, and to tumble over on the down bed for the better search thereof." The bed of Henry VIII. was nearly eleven feet square, and of even more generous dimensions is the great bed to which Shakespeare refers in a well known passage in "Twelfth Night," which was twelve feet square. This "great bed of Ware" has been a marvel for centuries.

He Sent Another.

A few years ago a well known lawyer remitted in settlement of an account to the publisher of a paper a two dollar bill, which was returned with the brief statement:

"This note is counterfeit; please send another."

Two months passed before hearing from the lawyer again, when he apologized for the delay, saying:

"I have been unable until now to find another counterfeit two dollar bill, but hope the one now inclosed will suit, professing at the same time my inability to discover what the objection was to the other, which I thought as good a counterfeit as I ever saw." —Philadelphia Ledger.

Rise Above Your Troubles.

No matter what cares, anxieties or sorrows may vex or sadden you, do not prove yourself a weakling by going down before them, but show yourself noble in rising above them and molding them to life's purpose. Rather bear an insult than give one; rather dry a tear than cause one to be shed. How many celebrities we would have if men would be as anxious to make their own fame as they are to unmake the fame of others.

Nothing Left.

"I have had lots of friends who were guilty of mutilating books they had borrowed from me, but my latest experience was the most novel of all."

"What was it?"

"I lent Mrs. Blanks my dictionary a few days ago, and yesterday she returned it without a word!"—New Orleans Times-Democrat.

Brides Priced.

To us it seems a curious whim on the part of our ancestors of the eighteenth century that in their marriage announcements they should so often choose and with such seeming complacency to enlighten the world with regard to the amount of fortune received with the brides. Here are two cases in point: "Mr. James Coutts of Jeffry's Sq., merchant, to Miss Peagrum of Knightsbridge, £80,000." "W. Smith, gentleman, of the 2d Troop of Horse Guards, to Mrs. Ann Gardiner, a maiden lady, aged, 'tis said, near 70, with a fortune of £20,000."—Chambers' Journal.

Webster's Tiresome Habit.

Senator Hoar in his "Reminiscences" says that Daniel Webster had a tiresome habit in his public speeches of groping after the most suitable word after this fashion: "Why is it, Mr. Chairman, that there has gathered, congregated, this great number of inhabitants, dwellers, here; that these roads, avenues, routes of travel, highways, converge, meet, come together here?" When the speech was printed all the synonyms but the best one would be left out.

"The Three Most Beautiful Roses"

By Paul de Longpre

At the urgent solicitation of the Woman's Home companion, Mr. Paul de Longpre who is the greatest painter of flowers in the world consented to make a painting of what he considered "The Three Most Beautiful Roses" and the painting is without doubt one of the masterpieces of this great artist. This magnificent picture is reproduced in all its original grandeur on the cover of the Woman's Home Companion for June. Although this cover is an accurate reproduction of a painting worth hundreds of dollars, yet the June number, which has this exquisite cover, may be obtained at any first class news stand or direct from the publishers for the trival sum of only ten cents.

Mr. Paul de Longpre is justly styled the "King of Flower Painters." He not only paints roses, but every flower that grows, and is the highest authority on flowers. His paintings are found in the most select homes. Some have sold for as much as seven thousands five hundred dollars ($7,500,00).

Artists, art critics and competent judges all agree that the covers of the Woman's Home Companion far excel those of any other magazine.

The Woman's Home Companion is a magazine which is a beauty and excellence, art, stories, illustrations and fashions, etc., excels all other home and family magazines. The Woman's Home Companion is published by The Crowell Publishing Company, New York City, also Chicago, Ill., at One Dollar a year and is the favorite magazine in nearly half a million homes, where it is read each and evry issue by three million people.

NOTICE.

You can make your applications to make final proof on your homestead, before W. G. HUNT, at Steenerson post office, on sec. 29, Township 153 N. R. 40 W., and have your notice published in the newspaper printed nearest your land.

LOCAL PARAGRAPHS.

Do your Notary Public business at the SUNBEAM office.

Use Mark's headache tablets when in pain,

Mark's little Liver Pills removes constipation.

For ditching knives go to Tom Davis, at Winsor Minn.

Charles Berg has the contract to paint Charles Enquists residence.

The Big Store at McIntosh, is paying 20 cents a pound for wool, and 20 cents a pound for butter.

Mark's little liver pill's are pleasent to take.

There is a new dray line to be started in town by Charles Berg and Andrew Jordahl.

Jona Wichterman arrived home from Dakota, safe and sound on Tuesday evening.

Charles Enquist has his new cage ready for occupancy, but his friends are still looking to catch sight of the bird.

Andrew Arneson is making quite extensive improvements grubbing and breaking on his homestead this season.

DR. FOSTER will be at his Fosston office on June 26th to remain 10 days. see him for reliable dental work.

Richard Ohm is having the stons for the celler and foundation to the addition to his residence.

Nels M. Bolstad and Leon Wichterman went down to Crookston Monday, to serve as grand jurymen during the present term of court.

Nels N, Bolstad left for Bagley on Tuesday morning, where he goes as a witness in the case of E. A, Schneider vs Stephen Singer,

Eddey Singer came down from Rhoda post office Friday last and visited friends in this locality until Sunday, when he went to Red Lake Agency on a business trip.

Mrs Emma Umland and Mrs Bertha Aust went to Bagley on Wednesday, as witnesses in the Schneider and Singer case.

Seth Hayford and Will Rodman leave for the new reservation lands in Township 152, this morning, where the latter will contract breaking to do for the new settlers.

It is amusing to listen to some of the people who have land on the swamp north of here, where they can not get to their land with a team, when the frost is out of the ground, when they are talking about poor roads up on the new reservation lands.

When the officials were elected for the uewly organized town of 152 40, some one sprung the name of Wanzen Wojnerowski, for justice of the peace. Only three voters in the township succeeded in voting for him, which was unfortinate for had he been elected the showing of his name would have been sufficient to scare all the criminals out of the country.

The Polk County Summer School will begin its session on June 21, 1905, at the High School Building in the city of Crookston, and will continue six (6) weeks, with the following corps of instuctors: Prof. S A, Challman of Montevido, as conductor, with F. C. Miller of St. Paul, G. W. Walker of Argyle, Charlotte M. Knudeson of St. Cloud and C. L. Newbury of Eley, as assistants.

Notice For Publication.

First Pub. Apr. 28th 1905.

Land Office at Crookston, Minn. Apr. 26th. 1905

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim and that said proof will be made before the Register and Receiver of the U. S. Land Office at Crookston Minn on June 17th. 1905 viz:

Arnfin Botolsen.

H. E. No. 6018 Chippewa Series for the W ½ S. W. ¼, N. E. ¼, S. W. ¼, N. W. ¼ S. E. ¼, Sec. 12 Twp. 151, N. R. 39. W.

He names the following witnesses to prove his continuous residence upon and cultivaton of said land viz:

Arnfin E. Ness, Even Sjuistad, Hadle Nyland and Hans H. Fjeld, all of Wanke, Minnesota.

SYLVESTER PETERSON, Register.

Contest Notice.

Department of the Interior.

United States Land Office. Doc. No. 3123.

Crookston, Minnesota, May. 17, 1905.

A sufficent contest affidavit having been filed in this office by Hans H. Mello, contestant, against homestead entry No. 4698, made January 22, 1902 for N. E. ¼, Sec. 21, Twp. 150 N. R. 39, W. by Carrie L, Sorenson, Contestee, in which it is alleged that the said Carrie L. Sorenson has wholly abandoned said tract; that she has changed her residence therefrom for more than six months since making said entry, and next prior to the date herein; that said tract is not settled upon or cultivated by said party as required by law, and that the said alleged absence from the said land was not due to employment in the army navy or marine corps of the United Stated as a private soldier officer, seaman or marine during the war with Spain or during any other war in which the United States may be engaged. Said parties are hereby notified to appear, respond and offer evidence touching said allegation at 10 o'clock a. m. on July 5th, 1905, before Nels M. Bolstad. Notary Public Polk Co.. at Gully, Polk Co.. Minn., (and that final hearing will be held at 10 o'clock A. M. on July 12, 1905, before) the Register and Receiver at the United States Land Office in Crookston, Minnesota. The said contestant having, in a proper affidavit filed May 17th. 1905 set forth facts which show that after due dilligence personal service of this notice can not be made, it is hereby ordered and directed that such notice be given by due and proper publication.

Sylvester Peterson Register,

Deft's record address is Thief River Falls, Minnesota.

Worshipers of Strange Gods.

Snake worshipers are more numerous than river worshipers in the Punjab. They have always been a large denomination in heathen countries. Why they worship snakes is a problem that has been frequently discussed to no particular purpose. But people who worship owls, bats, lobsters, rats and mice will worship anything, and perhaps snake worshipers are so common merely because snakes are so widely distributed and so far from exclusive in their habits. If a man worships an opossum or an ornithornycus, he must go to Australia to do so, but serpents are everywhere. So is the earth (Prithi), and the earth, as Hertha, Demeter and under many other names, has never wanted adorers.

Even the untutored Pawnees are earth worshipers and bury articles by way of sacrifice, which is more economical than burning them, as they can be dug up again. The ancestral mound is a good deal adored in the Punjab. In Scotland it became the fairy hill, as at Aberfoyle, and was treated with conspicuous respect in times comparatively modern. The church was usually built as near it as possible, perhaps to counteract the influence of the ancestral mound or to acquire any local sacredness that might be going.—London News.

Oddly Marked Tombstone.

In an old graveyard in Maine the monument to the founder of a distinguished family is marked with the outline of a human leg. It is formed by black streaks in the granite running through the stone, for at the back there is another leg, but much smaller in dimensions. Nobody saw this blemish when the stone was set up. Not until years had passed did any one notice it. People concluded that the stonecutters, not wishing to go to the expense of quarrying out another block, so hid the leg with cement and stone dust that the actions of the storms of a dozen winters were necessary to expose the strangely formed disfigurement.

Your Shadow.

"May your shadow never grow less" or "be less". That is a familiar salutation. The origin is dim, but may be as follows: When persons have made certain progress in the black arts they are compelled to run through a subterranean hall, with the evil one after them. If they run so fast that his Satanic majesty can catch only their shadow or part of it they become first rate magicians, but lose either all of part of their shadow. The expression means: May you escape wholly and entirely from the clutches of the foul fiend.

It is well known that after a man reaches the age of about fifty-five his stature grows shorter; therefore his shadow must be less. To say, "May your shadow never grow less," means, "May you never grow older."—New York Press.

Confirming His Theory.

He—It seems to me you are very capricious. You were more cordial the last time I saw you. She—Was I? Well, I dare say that was mere caprice.

His Masterpiece.

Binks—So you think there's a world of hidden meaning in my sonnet? Miss Gushley—Oh, yes! And so well hidden too!—Cleveland Leader.

First Mention of Football.

It is believed that "The History of London," by William Fitzstephen, written about the year 1175, makes the first historic mention of this game in England, although it seems certain that it was introduced into Great Britain in early times by the Romans.

The selfish, loving only themselves, are loved by no one, so selfishness is [illegible] [illegible].—[illegible].

Agricultural and Horticultural Colonies on the Kansas City Southern Railway.

Lockesburg Colony in Sevier County, Arkansas, containing about 30,000 acres, and Loring Colony in Sabine Parish, Louisiana, containing about 24,000 acres, are now open for settlement. Lands range in price from $7.00 to $15.00 per acre, and are sold on easy terms to actual settlers. Lockesburg Colony is well suited for General Farming, stock raising and commercial fruit growing. Loring Colony lies in a splendid fruit, truck and tobacco region, and is good for corn and cotton also. Both are situated in a beautiful country, with a healthy climate and excellent water. Write for books concerning Lockesburg and Loring Colonies and "Current Events" Magazine to S. G. Warner, G. P. & T. A., K. C. S. Ry., Kansas City, Mo.; F. E. Roesler, Immigration Agt., K. C. S. Ry., Kansas City, Mo.

It takes more than dogma and creed to make a Christian.—The Commoner.

PORTLAND EXPOSITION NOTES.

The manufacture of gold pens will form one of the many interesting working displays at the Lewis and Clark exposition.

St. Louis artists will have a comprehensive exhibit of Missouri art at the Lewis and Clark exposition, as an offset to the general belief that Missouri produces mainly apples and army mules.

The Illinois building at the Lewis and Clark exposition is a replica of the home in which Abraham Lincoln lived while a resident of Springfield. This property is said to have been the only real estate the martyred president ever owned.

The Massachusetts building at the Lewis and Clark exposition has as its distinguishing feature a replica of the famous Bullfinch front of the old state house in Boston. When the state house was rebuilt Massachusetts went to an expense of $3,000,000 to retain this front.

Kangaroo farming is becoming a regular calling in Australia.

HER WEAKNESS GONE

HOT FLASHES AND SINKING SPELLS CONQUERED AT LAST.

Mrs. Murphy Tells Her Fellow-Sufferers How She Got Rid of Serious Troubles by Simple Home Treatment.

"I had been bothered for several years," said Mrs. Murphy, "by stomach disorder, and finally I became very weak and nervous. Flashes of heat would pass over me, and I would feel as if I was sinking down. At such times I could not do any household work, but would have to lie down, and afterwards I would have very trying nervous spells."

"Didn't you have a doctor?" she was asked.

"Yes, I consulted several doctors but my health did not improve. One day a friend asked me why I did not try Dr. Williams' Pink Pills. She assured me that they had proved of the greatest benefit in the case of her daughter. In fact, she praised them so enthusiastically that my husband got me a box."

"And what was the result?"

"Before I had taken half of the first box my condition was greatly improved. The quickness with which they reached and relieved all my troubles was really surprising. After I had used only three boxes I had no more heat-flashes or weak spells. Thanks to them, I have become a well woman."

Mrs. Mary D. Murphy lives at No, 1903 Force street, Fort Wayne, Indiana. Dr. Williams' Pink Pills, the remedy which she found so satisfactory, furnish directly to the blood the elements that give vigor to every tissue of the body. They can be depended on to revive failing strength, and to banish nervousness. Their tonic properties are absolutely unsurpassed.

As soon as there is drag, or dizziness, or pallor, or poor circulation, or disordered digestion, or restlessness, or pains, or irregularities of any kind these famous pills should be used. They have cured the most obstinate cases of anæmia, dyspepsia, rheumatism, neuralgia, nervous prostration and even partial paralysis.

If you desire information specially suited to your own case write directly to the Dr. Williams Medicine Company, Schenectady, N.Y. Every woman should have a copy of Dr. Williams' "Plain Talks to Women." which will be mailed free to any address on request. Any druggist can supply the pills.

Facts Are Stubborn Things

Uniform excellent quality **for over a quarter of a century** has steadily increased the sales of LION COFFEE,

The leader of all package coffees.

Lion Coffee

is now used in millions of homes. Such popular success speaks for itself. It is a positive proof that **LION COFFEE** has the **Confidence of the people.**

The uniform quality of LION COFFEE survives all opposition.

LION COFFEE keeps its old friends and makes new ones every day.

Sold only in 1 lb. packages. Lion-head on every package. Save these Lion-heads for valuable premiums.

SOLD BY GROCERS EVERYWHERE

WOOLSON SPICE CO., Toledo, Ohio.

NEWS OF MINNESOTA.

State Land.

St. Paul.—The state land which will be offered for sale by State Auditor S. G. Iverson this fall will be sold on an entirely new basis. In accordance with a law passed by the recent legislature, those who buy land from the state will be required to do one of three things:

First—Fence at least 25 per cent of the tract for pasture and convert such portion into pasture land.

Second—Cultivate at least 5 per cent of the tract.

Third—Build a house and actually reside on the tract for a period of twelve months.

Under the law one of these three conditions must be met by the purchaser or his assigns within five years from the date of the sale.

State Auditor S. G. Iverson, who is ex-officio land commissioner, will send out a circular explaining the terms under which state lands are offered for sale under the new law.

No More Private Sales.

After July 1, 1905, real property bid in for the state at regular annual tax sales will be sold only at public auction, according to a ruling made by State Auditor S. G. Iverson.

Under the old law absolute property had to be disposed of by the county auditor at a public or private sale as the state auditor might direct. The legislature session of 1903 however, provided that such property must be disposed of at public sale to be conducted by the state auditor, the tax deed to be executed by the governor instead of the county auditor.

Signs Death Warrent.

Gov. Johnson signed the death warrent of William Williams, the St. Paul murderer, condemned to be hanged Wednesday, Aug. 9.

The governor returned after a three days' absence, and found the transcript of testimony in the case awaiting him, and he signed the warrent for Williams' death at once. The murderer will hang unless the pardon board intervenes.

A Skeleton.

Fosston.—A Skeleton was dug up by a farmer, fifteen miles north of this place. It was found at a depth of twelve and one-half feet and was very large. Though badly decomposed, its general form and size could be clearly made out. The head itself extended from corner of the well which the farmer was digging and which is about three and one-half feet square. The teeth are well preserved and the largest ones are between three and four inches in length, occuring in groups of three or four. The general charactor of the country where the skeleton was found is hiliy. The sub-soil in the locality is sand and gravel, though particular stratum surrounding the skeleton being a dark loam.

Various opinions are current as to character of the skeleton, but the best informed persons who have seen the bones incline to the view that they are of a mastodon. Dr. McKennon of this place has in his posession some of the best preserved bones.

Wins the Bet.

Minneapolis.—When Neal Curtis, a well-known traveling man of Moline, Ill., walks up to the desk of the Hotel Nicollet office on the occasion of his bi-monthly visit to that hostelry, he will be presented by a paper bearing his signature and that of "Henry Wood," one of the Japanese bellboys.

The writing at present reposes in the hotel safe and is to the effect that Mr. Curtis bet the bellboy $10 to $25 that Rojestvensky would be victorious in the sea fight with Admiral Togo.

The wager was made more than two months ago and as neither party wanted his money tied up they agreed to record the bet and place it in the office safe.

An Auto Wreck.

Duluth.—W. J. Stevenson, a prominent attorney was severely injured as the result of an accident to his automobile. Mrs. Stevenson and their four-year-old son were in the machine at the time and the mother was slightly injured. The child was not hurt.

The machine collided with a telephone pole on London road at about Fifty-seventh avenue east, and was wrecked. Mr. Stevenson was thrown forward and his head struck the pole. He was unconscious for ten minutes.

News Notes.

St. Paul.—Mr. and Mrs. Michael Rauchnot were burned severely as a result of a gasoline stove explosion at their home early in the morning.

Minneapolis.—Twenty-five clerks in the postoffice will receive $100 increases in the salaries on July 1. An allowance of $2,500 for the purpose has been granted them.

St. Cloud.—Emil Olsen, accused of grand larceny in the second degree, was acquitted. The jury was out but thirty minutes.

Northfield.—The third annual convention of postoffice clerks of Minnesota was held here.

St. Paul—Gov. Johnson appointed five members to the state board of grain appeals.

Minneapolis—Trinity Baptist church now being built in this city will be equipped with a newly invented appliance whereby deaf persons will be enabled to hear the sermons with the same ease as members of the congregation who are not so afflicted.

Minneapolis—Willie Jones, twelve years of age, had a narrow escape from being drowned while swimming in the Mississippi river at the east end of the Franklyn avenue bridge. He was saved only by the presence of mind of an older boy, who saw his companion going down and rushed to his rescue.

Piscatorial Expert.

Mrs. Homely—That blond, Mrs. Blublud, is constantly fishing for compliments.

Mr. Homely—And she constantly seems to get them.

"Well, I could, too, if I carried the same kind of bait?"

"It isn't a question of bait, my dear. It is a question of artful casting."—Cincinnati Commercial-Tribune.

She Knew.

Her Father—What! Marry that fool. Why, he hasn't any idea of finance.

His Daughter—Don't you believe the half of it. He stopped right in the middle of his proposal to ask how much you were worth.—Brooklyn Eagle.

"Nothing makes a man feel so downhearted," observed the cigar store philosopher, "as to come home from paying the last coal bill of the winter and find his wife looking over a pile of summer-resort literature."—Chicago Sun.

Thought She Couldn't Live.

Moravia, N. Y., June 5.—Mr. Benjamin Wilson, a highly respected resident of this place, come very near losing his wife and now that she is cured and restored to good health his gratitude knows no bounds. He says:—

"My wife has suffered everything with Sugar Diabetes. She has been sick four years. She doctored with two good doctors, but kept growing worse. The doctors said she could not live. She failed from 200 pounds down to 130 pounds. This was her weight when she began to use Dodd's Kidney Pills, and now she weighs 190, is well and feeling stronger every day.

"She used to have Rheumatism so bad that it would raise great bumps all over her body and this is all gone, too.

"Dodd's Kidney Pills are a God-send to those who suffer as my wife did. They are all that saved her. We can't praise them enough."

Happy Thought.

Mrs. Bacon—I see the walls of many of the houses in Mexico are from three to six feet thick.

Mr. Bacon—I wish you'd run down there and see if you can find a flat to suit us.—Yonkers Statesman.

RAILROAD RATE LEGISLATION

It Is Unconstitutional and Unnecessary to Confiscate the Property of the Railways.

Testifying before the Senate Committee at Washington, Inter-State Commerce Commission Prouty said in discussing the proposition to give to that Commission the power to regulate railway rates:

"I think the railways should make their own rates. I think they should be allowed to develop their own business. I have never advocated any law, and I am not now in favor of any law, which would put the rate making power into the hands of any commission or any court. While it may be necessary to do that some time, while that is done in some states at the present time, while it is done in some countries, I am opposed to it. . . . The railway rate is property. It is all the property that the railway has got. The rest of its property is not good for anything unless it can charge a rate. Now it has always seemed to me that when a rate was fixed, if that rate was an unreasonable rate, it deprives the railroad company of its property pro tanto. It is not necessary that you should confiscate the property of a railroad; it is not necessary that you should say that it shall not earn three per cent. or four per cent. When you put in a rate that is inherently unreasonable, you have deprived that company of its rights, of its property, and the Circuit Court of the United States has jurisdiction under the fourteenth amendment to restrain that. . . . I have looked at these cases a great many times, and I can only come to the conclusion that a railroad company is entitled to charge a fair and reasonable rate, and if any order of a commission, if any statute of a state legislature, takes away that rate, the fourteenth amendment protects the railway company."

The Agony Nearly Over.

"Have you decided where you will spend the summer?"

"Almost. My wife and daughters have got their choice of resorts narrowed down to 17."—Chicago Tribune.

"The Simple Life"

Proper Food is Really the First Step in Right Living.

One of the evils of our complex modern way of living, is our unnatural and unhealthy foods.

To have really good health and a good stomach it is necessary to eat simple nourishing food. EGG-O-SEE is the ideal food, and reaches the proper requirements in this direction more nearly than any other cereal now on the market.

To make EGG-O-SEE the kernels of the choicest California white wheat are first cleansed by brushes, then thoroughly steam cooked, then flaked and crisped to a maple tint and delicately flavored with natural fruit juice and pure grain sugar.

In these delicious flakes, lies the mighty strength-giving power of the whole wheat grain that evenly nourishes every part of the body, and gives physical and mental energy that means splendid health and successful endeavor.

EGG-O-SEE A large package at any grocery 10c

THE EGG-O-SEE CO. Quincy, Ill.

Backache, "The Blues"

Both Symptoms of Organic Derangement in Women—Thousands of Sufferers Find Relief.

Mrs. J. G. Holmes
Emma Cotrely

How often do we hear women say: "It seems as though my back would break," or "Don't speak to me, I am all out of sorts?" These significant remarks prove that the system requires attention.

Backache and "the blues" are direct symptoms of an inward trouble which will sooner or later declare itself. It may be caused by diseased kidneys or some uterine derangement. Nature requires assistance and at once, and Lydia E. Pinkham's Vegetable Compound instantly asserts its curative powers in all those peculiar ailments of women. It has been the standby of intelligent American women for twenty years, and the ablest specialists agree that it is the most universally successful remedy for woman's ills known to medicine.

The following letters from Mrs. Holmes and Mrs. Cotrely are among the many thousands which Mrs. Pinkham has received this year from those whom she has relieved.

Surely such testimony is convincing.

Mrs. J.G. Holmes, of Larimore, North Dakota, writes:

Dear Mrs. Pinkham:—

"I have suffered everything with backache and womb trouble—I let the trouble run on until my system was in such a condition that I was unable to be about, and then it was I commenced to use Lydia E. Pinkham's Vegetable Compound. If I had only known how much suffering I would have saved, I should have taken it months sooner—for a few weeks' treatment made me well and strong. My backaches and headaches are all gone and I suffer no pain at my menstrual periods, whereas before I took Lydia E. Pinkham's Vegetable Compound I suffered intense pain."

Mrs. Emma Cotrely, 109 East 12th Street, New York City, writes:

Dear Mrs. Pinkham:—

"I feel it my duty to tell all suffering women of the relief I have found in Lydia E. Pinkham's Vegetable Compound. When I commenced taking the Compound I suffered everything with backaches, headaches, menstrual and ovarian troubles. I am completely cured and enjoy the best of health, and I owe it all to you."

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhœa, displacement or ulceration of the womb, that bearing down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any substitute.

FREE ADVICE TO WOMEN.

Remember, every woman is cordially invited to write to Mrs. Pinkham if there is anything about her symptoms she does not understand. Mrs. Pinkham's address is Lynn, Mass., her advice is free and cheerfully given to every ailing woman who asks for it. Her advice and medicine have restored to health more than one hundred thousand women.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

Appropriated It.

Her—They say there is only one person in 15 who has perfect eyes.

Him (with uncommon fervor)—In 15? There's only one in a million!—Brooklyn Eagle.

To Wash Lace Collars.

Shave Ivory Soap in boiling water; add a pinch of soda and drop the collar in, stirring it until the dirt is removed. Rinse in a pint of hot water to which has been added a teaspoonful of gum arabic and a few drops of coffee or real Indian tea. To iron, pick out and press on white flannel, press with a moderately hot iron.

Our own troubles are always the worst in the world.—N. Y. Times.

Piso's Cure cannot be too highly spoken of as a cough cure.—J. W. O'Brien, 322 Third Ave., N., Minneapolis, Minn., Jan. 6, 1900.

New adage: A fool with his money is soon started.—Puck.

COMPLETELY RESTORED.

Mrs. P. Brunzel, wife of P. Brunzel, stock dealer, residence 3111 Grand Ave., Everett, Wash., says: "For fifteen years I suffered with terrible pain in my back. I did not know what it was to enjoy a night's rest and arose in the morning feeling tired and unrefreshed. My suffering sometimes was simply indescribable. When I finished the first box of Doan's Kidney Pills I felt like a different woman. I continued until I had taken five boxes. Doan's Kidney Pills act very effectively, very promptly, relieve the aching pains and all other annoying difficulties."

THE SUNBEAM.

MINNESOTA
HISTORICAL
SOCIETY.

VOL. V. SUNBEAM, RED LAKE COUNTY, MINNESOTA, FRIDAY, JULY 14, 1905. NO. 15.

SUMMARY OF A WEEK'S EVENTS

MOST IMPORTANT HAPPENINGS AT HOME AND ABROAD IN CONDENSED FORM.

THE WAR IN THE FAR EAST

Progress of Hostilities Between Russia and Japan—Doings at Washington—Items of Interest from All Over the World.

THE RUSSIAN REVOLT.

Sailors on the battleship Kniaz Potemkine notified the powers that they have declared war on all Russian ships which will not join in the revolt.

The Kniaz Potemkine arrived in Theodosia, a port in the Crimea, and after threatening to bombard the town obtained a supply of food, but no coal could be had

The Kniaz Potemkin evaded the Black sea fleet, which is in pursuit, by leaving Theodosia. A British collier was raided for fuel outside the port, and the rebel ship then disappeared.

Sixty-seven of the mutineers from the Georgi Pobiedonosetz, including the ringleaders, were imprisoned at Odessa. It is expected that all of them will be shot.

The fleet of Rear Admiral Kruger is hot in pursuit of the mutinous Kniaz Potemkine.

Estimates of the number killed during the fires and rioting of last week in Odessa run as high as 6,000. A far greater number were shot down, but many of the bodies were incinerated.

According to a correspondent, the total losses through the outbreak at Odessa are estimated at $5,000,-000.

The Russian ambassador has notified the foreign office at Vienna that all necessary steps have been taken to protect neutral shipping in the Black sea.

RUSSO-JAPANESE WAR.

Russian peace envoys are given full power to fix indemnity to Japan.

Russia has indicated her willingness to suspend hostilities, but refuses to ask for an armistice as a matter of pride.

Announcement is made that the United States, England and Germany each will take $50,000,000 of a new $150,000,-000 Japanese loan.

Japan and China are believed to be on the eve of reaching an agreement as to Manchuria and other important issues growing out of the war. An alliance would have a far reaching effect on European powers as well as Asia.

Gen. Linevitch, in a telegram to the czar confirms the defeat of the Japanese at Sanviatse, when a Japanese battalion was annihilated. The Japanese losses, he says, were enormous.

Japan, although ready to crush Linevitch, sacrificed tactical advantage because of the approaching peace conference.

MISCELLANEOUS.

Official announcement was made at Oyster Bay that Elihu Root has been appointed secretary of state. Secretary Root will take the oath of office in a couple of weeks.

The law passed by the Kansas legislature last winter appropriating $410,-000 to build an independent oil refinery at Peru, Kan., was declared unconstitutional by the state supreme court.

The body of John Hay was laid to rest in Lakeview cemetery, Cleveland, O. The ceremonies were simple in the extreme. President Roosevelt and several members and ex-members of the cabinet attended.

Secretary Bonaparte has taken up his duties at the navy department.

Eleven log drivers were drowned in Chippewa river at Little Falls dam, Wis. They lost control of the batteau in which 16 men had crossed the river, and the boat swamped.

Lon Beard, a negro who had been arrested on a charge of assaulting Mrs. Chester Crawford, of Normandy, Ky., was lynched by a mob.

Judge Fremont Alvord, of the Marion county, Ind., criminal court, held unconstitutional the law passed by the last session of the legislature, placing private banks of Indiana under state supervision. The case will be appealed.

On high military authority it is stated that Sweden is taking precautionary measures on the frontier, to offset the reported threatening attitude of Norway.

The czar will journey to Moscow, and reports indicate that he will call a council of the people from the Kremlin. This causes a rumor that the Russian capital will be moved to Moscow.

An order for the mobilization of the Swedish army has been issued, and a proclamation to this effect will probobly be issued within a week.

The tannery of the Widen-Lord Leather company was partially destroyed by fire at Foxbbro, Mass. The loss is $100,000.

Caleb Powers is to be tried in the United States court for complicity in the murder of William Goebel at Frankfort, Ky. This was settled when United States District Judge Cochran announced that he would take jurisdiction in the case, as has been requested by attorneys for Powers.

Fourteen miners were killed and a number injured by an explosion in a colliery at Anderieres, Belgium. The explosion was caused by fire damp.

The body of Rear Admiral Louis J. Allen, who died in New York city June 29, was buried in the Arlington National cemetery in Washington with military honors.

A company has been incorporated to build a tubular steel tunnel 50 feet below the bed of the Mississippi river, to run between East St. Louis, Ill., and St. Louis, Mo.

George D. May, president of the wrecked Big Bend National bank, Davenport, Wash., was arrested in Boston.

Plans for a great $3,00,000 Park row terminal for the Brooklyn bridge were adopted by the New York board of estimate and apportionment.

Reactionaries are reported conspiring to dethrone the czar, whose reform tendencies terrify them.

Weekly trade reviews show satisfactory conditions, though business has had a slight setback from rains.

On July 17 the ninth annual convention of the National Association of Railway Agents will assemble at the Lewis and Clark exposition.

Roy Snavely was instantly killed in a runaway on his father's farm, north of Sterling, Ill. He was thrown from a hay rake, breaking his neck.

Albert Keller, of Michigan City, Ind., appealed a case in which judgment had been rendered against him in the sum of one cent.

The father of four-months-old baby admits he threw the child into the Chicago river and drowned it because he didn't want to support it.

Judge Gray, arbitrator between miners and operators in Illinois, decided that the expense of operation in the shot firers' law shall be shared equally by employers and men.

Steamers 500 miles apart in midocean talked by wireless relays.

Gilbert Johnson, chief engineer for Thomas W. Lawson, of Boston, was stabbed to death by a peon at Urique, Mexico.

The Queen City tannery, of Titusville, Pa., the largest sole leather manufactory in the world, was sold by Lucius Beebe & Sons, of Boston, to the United States Leather company. The transfer involves about $1,500,000.

The wholesale grocery house of Phillips, Webb & Co., of Nashville, Tenn., was destroyed by fire. Loss, $150,000.

A bronze statue of Sacajawea, the Indian bird woman, who, bearing on her back her infant child, guided the explorers Lewis and Clark through "Old Oregon," was unveiled at the exposition at Portland.

Work on the construction of the new training school buildings at Feehanville, Ill., was begun and the cost when completed is estimated at $1,000,000.

Gas companies of the Illinois cities of Aurora, Joliet, LaGrange and Elgin are consolidated, with authorized capital stock of $6,500,000. The field of operation is to be extended to cities and towns in Kane, Du Page, Will and parts of Cook county.

Railway employes will protest to the government against reduction of rates on roads in Illinois.

M. Jaures, the French socialistic leader, was debarred from speaking in Berlin by Chancellor von Bulow.

The body of Admiral John Paul Jones was formally delivered to the United States with brilliant ceremonies at the American church in Paris, distinguished men of many countries being present.

The St. Charles, Ill., school for boys was formally opened by philanthropic men and women interested in the work of educating youth from congested centers.

Roscoe E. Harris, aged 16, only son of Judge Ira Harris, former mayor of Colorado Springs, Col., was shot to death by Matthew Daily. The shooting was accidental.

All Crimea is on the verge of revolt and the Caucasus is ready to set up a Slavic republic.

Grover Cleveland may resign as an Equitable trustee because of uncertainty as to honesty of the society's transactions.

Col. O. G. Staples, former Asst. Gen. Tracey L. Jeffords and others were indicted at Washington, charged with conspiracy in the live stock insurance affair.

Thomas W. Lawson is on his way west with a message of warning to small investors in six of the states.

Secret societies in schools were strongly denounced by a committee of the National Educational association, in session at Asbury Park, N. J.

As a result of an explosion at the shaft of the Taylor Coal & Coke company at Searight, Pa., five men were killed and four injured, one fatally.

Damage estimated at $90,000 was caused by a fire in Union Hartnell oil well No. 2 at Santa Maria, Cal.

Martial law has been abolished over the whole of Formosa and the Pescadores islands.

About 30 people were injured, one seriously, in the wreck of the Great Northern west-bound "flyer" at Spring Brook, 21 miles east of Williamston, N. D.

A roundhouse in the South Nashville, Tenn., yards of the Louisville & Nashville railroad was burned. Loss, $50,000. Nine locomotives were damaged to the extent of $1,000 each.

C. J. Devlin filed in the United States district court at Topeka, Kan., an involuntary petition in bankruptcy. The petition schedules liabilities exceeding $2,600,000.

James W. Alderdice, a lawyer convicted in New York of forgery, was sentenced to 18 years' imprisonment in Sing Sing.

J. A. Spekenhier has been appointed receiver of the Commercial bank, of Hagerstown, Ind., on application of President Frank Mason. The liabilities exceed $100,000, while the assets are given as much less than that amount.

Harry Walker, aged 18 years, and Alex. Worrall, aged 12, were drowned in the Youghiagheny river near McKeesport, Pa.

The seventh international convention of the Epworth league was opened in Denver, Col.

A tornado in Texas caused much loss of life and destruction of property in Montague county and the northern portion of the state. Twenty-four are known to be dead.

The five-year-old son of Samuel Squillman, of Seymour, Ia., and the four-year-old son of a neighbor, George Billard, were burned to death in a fire which destroyed Squillman's home.

Herman Meminger, chief of the Milwaukee (Wis.) fire department, died from the effects of injuries sustained at a fire two months ago, when it was reported he inhaled acid fumes.

Fred Ross, who was knocked out by Jack Donnelly in the sixteenth round of a prize fight at Aberdeen, Wash., is dead. His neck was dislocated and a blood clot gathered on the brain.

Three railroad employes were killed and two injured and thousands of dollars' worth of property destroyed by a head-on collision on the Fitchburg division of the Boston & Maine railroad near Wachusett, Mass.

Gen. Amasa Cobb, brigadier general of volunteers during the civil war, veteran of the Mexican war, congressman and ex-justice of the supreme court of Nebraska, died at Los Angeles, Cal, aged 82 years.

The formal opening of the twenty-second International Christian Endeavor convention took place in Armory hall, Baltimore, Md., with about 8,000 delegates present.

Mrs. Lucie B. Tyng, one of the best-known temperance workers in the United States, died in Peoria, Ill.

The new directory indicates Chicago's population to be 2,272,000.

The weekly crop report shows that growth has been retarded by heavy rains, but the condition of corn in the corn belt is excellent.

The money circulation July 1 was the largest per capita and in amount in the history of the country. Bank note issues in the past year were larger than the new gold increase.

Most of the Chicago indicted packers, their agents and the companies in which they are interested have furnished bonds.

Gov. Hanly's crusade against bookmakers has put an end to horse racing in Indiana.

Samuel Thompson, a Chicago coffee importer, says the scheme of an eastern clique to have a tax imposed is a market manipulation to secure $12,000,000 profit on stock.

Graeme Stewart's will, dividing an estate of $500,000 between his widow, children, brothers and sisters, was filed in Chicago.

The Spring Valley (Ill.) national bank and the First national bank of Toluca, Ill., closed their doors as the result of the failure of C. J. Devlin, of Topeka, Kan.

S. L. Frazer, of Chicago, when asked for an accounting by his partner in the brokerage business suddenly fled, leaving an alleged defalcation of $100,000.

The Wabash Railway company has discharged its superintendent of the secret service department and 121 men employed in detective work.

Fourth of July casualties reported throughout this country number 42 deaths and 2,431 injured.

Loss of life variously estimated at more than 200 and less than 1,000 persons, and property damage to the extent of over $1,000,000 were caused by the recent flood which swept over the town of Guanajuaro, Mex.

John Bowman, cashier of the Commercial bank of Hagerstown, Ind., committed suicide by shooting. No cause for the deed is known.

Ten business houses and one dwelling at Roulette, Pa., were destroyed by fire, entailing a loss of $50,000. The insurance was small.

The American revivalists, Rev. Reuben A. Torrey and Charles M. Alexander, concluded their five months' revival campaign in England with a great thanksgiving service at Albert hall, London, for the 14,000 converts recorded.

In view of the bad harvest prospects owing to the drought and the storms in Portugal, King Charles has sanctioned the importation of 75,000 tons of American wheat and has ordered the reduction of the customs duties by 50 per cent.

NEWS OF MINNESOTA.

Contest a Tie.

St. Paul—Officials of the dairy and food commission are wondering to whom should they award the first prize in the butter scoring contest. Allie Olson of Hector and Alfred Schroeder of Lafayette each scored 97, and under the rules of the commission there is no way of ascertaining who is the winner.

It has been suggested that a coin be flipped to see who gets the prize, but should this coarse be decided on, there is a question as to who should receive the second prize. A. G. Schandall of Elmore scored 96¾, the score next to the highest, and would naturally receive the second prize. A. G. Schan got the second prize, the man who scored 97, but lost on the "flip" would get nothing. J. F. Kielty of Watkins, who scored 96½, expects the third prize. The first prize is $5 cash, the second $3 and the third $2.

Inheritance Tax.

The recent inheritance tax statements under the inheritance law passed by the recent legislature have been filed with the state auditor.

Five St. Paul estates come under the provisions of the inheritance tax law. The estate of Phal D. Ferguson, estimated at $250,000, will pay the state about $[illegible]2,000 on a 5 per cent basis. The estate is left to one heir, and the law allows an exemption of $10,000. The estate of Thomas Schnell, amounting to $72,3[illegible]0, will pay a tax of 1¼ per cent, after a $10,000 exemption has been taken out. The estate of Charles E. Dickerman, amounting to $150,000, is left to five heirs. Each heir is entitled to a $5,000 injunction. The estate of Katherine Stewart, amounting to $7,500, and the estate of Joseph O. Patee, amounting to $115,000 also come under the law.

Fire at Training School.

Red Wing.—The building used as a sloyd shop and laundry at the state training school was destroyed by fire at 1 o'clock the morning of July 2. The loss is estimated at $40,000.

The building was a three-story structure of brick and stone, and was used as a workshop in which the boys of the school were taught trades. The basement and lower floors were given up to the laundry and engine room.

The fire started from an unknown cause in the tailor shop and had gained great headway before it was discovered. Much of the material was of a light, combustible nature and burned like kindling. The burned structure was in the rear of the main building. No damage was done to any other building. A common report is that the fire was of incendiary origin.

Prison Population.

Stillwater — Some surprise was caused by the announcement that the number of criminals at the state penitentiary is increasing more than four times as fast as the population of the state. The population of the prison has increased 40.2 per cent since 1900, while the census bureau officials will be highly pleased if there is an increase of 10 per cent in the population of the state.

There are 702 prisoners at Stillwater, by far the largest number in the history of the institution. The number a year ago was 634, three years ago 553 and five years ago 486. Members of the board of control who returned to St. Paul announced that all the cells are full and that prisoners are compelled to sleep in the corridors.

At Isle of Pines.

Mankato—Judge John B. Ogle, the runaway forger and embezzler, who twice tried to kill himself, has been located at Neuva Gerona on the Isle of Pines, the refuge of A. A. Buck, the defaulting cashier of Mankato.

Owing to the fact that the United States has no extradition treaty with the Isle of Pines it will be impossible to bring Ogle back for trial and punishment.

Much Building.

Building permits aggregating $1,000,-000 were issued in St. Paul last month. This is the largest amount issued in in one month in the history of the city.

This figure is also greater than the total figure for several average months. While nearly one-half of this amount is covered by two large buildings, most of it includes average structures and additions to buildings.

News Notes.

Grand Rapids—A new iron ore district is discovered southwest of here.

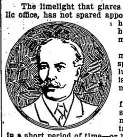
Mendota — Falling into a pool caused by high water of the Minnesota river, Arthur Hugo Johnson was drowned. The child's body was taken to St. Paul for burial.

St. Paul—L. A. Rosing of the state board of control objects to locating the administration building at the school of agriculture on low ground.

St. Paul—The state census will show an increase of 300,000 in Minnesota's population.

Minneapolis.—A campaign against slaughterhouses located near the residence portions of some of Minnesota's beautiful cities and villages has been started by the state board of health.

THE MAN INDORSED BY THE PRESIDENT



The limelight that glares down upon men aspiring to and occupying public office, has not spared appointees of our popular president. Some of them have been able to stand the white heat, others have been scorched. The onlooker can but remark the passing show.

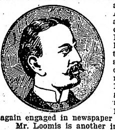
Paul Morton, who has crowded into recent months a variety of duties and big financial responsibilities, must, in the language of the illustrious congressman, scarcely know where he is at. And yet those in touch with the gentleman assert he is usually able to find himself.

Still, it must be rather a dizzy feat to jump from railroading into the cabinet, then take a sprint into New York subway finance, and immediately thereafter get into the Equitable entanglement. This, Mr. Morton has accomplished, in a short period of time—or has had the greatness thrust upon him.

It is rather interesting to note that Paul Morton, secretary of the navy under Roosevelt, republican president, is son of that J. Sterling Morton that was secretary of agriculture under Cleveland, democratic president. The father moved to Nebraska when a young man, became a farmer and much interested in agricultural matters. He was the originator of the annual Arbor day, made so much of in the west. Paul was born in Detroit, wherefore, the west can point to another of her sons that have shown themselves men of action. He began his career at the youthful age of 15, when he was entered as clerk in the land office of the Burlington & Missouri River railroad. He remained with the Burlington system until 1890, at which time he had risen to be general freight agent of the Burlington & Quincy.

Next we hear of him as president of the Colorado Fuel and Coal company, and of the Southern Iowa railway and Illinois Western. He presently becomes third vice president, then second vice president of the Santa Fe. Then the president, having his eye out for promising men, invites him to the post of secretary of the navy, invites him twice before he accepts. Then arises the furore over Santa Fe rebates, and both Mr. Roosevelt and Mr. Morton, though continuing in their mutual regard and confidence, think it for the best that the secretary of the navy resign. Walter Wellman, writing in the Chicago Record-Herald anent the president making public his faith in Mr. Morton, says: "He virtually places wings on the broad shoulders of the young man who is now both secretary of the navy and chairman of the board of directors of the Equitable Life Assurance society."

A JOURNALIST AND DIPLOMAT



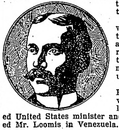
Another gentleman that has had to meet the consequences of him that leaves behind the seclusion and repose of private life, and whom the president also has defended with characteristic energy, is Assistant Secretary of State Loomis. We have all been made familiar with the Bowen-Venezuela charges, and will only refer to the fact that Mr. Loomis has been cleared of the offenses laid at his door. Let us glance at the story of the man that has served the past two years as assistant secretary of state, who is a noted journalist and diplomatist. Another western man, another Ohio man. Francis Loomis was born in Marietta, O., in 1861, his father, Judge William Loomis. After graduation from Marietta college, he joined the staff of the New York Tribune, and later held the position of Ohio librarian. From 1885-7 he was again engaged in newspaper work reporting happenings at the capital.

Mr. Loomis is another instance of Washington correspondents that have been asked, because of their intimate knowledge of national affairs, to political and diplomatic posts. From 1890-3 he served as United States consul at Etienne, France, and while abroad wrote extensive reports on labor situations in Europe. On his return to this country he became editor-in-chief of the Cincinnati Tribune. From 1897-1901 he held the post of envoy extraordinary and minister plenipotentiary to Venezuela.

In this last field of service, Mr. Loomis did good work toward furthering our commerce in South America; "he arranged for a parcels post convention; opened negotiations for extradition and reciprocity treaties; made long trips up the Orinoco river on United States man-of-war; settled successfully several questions that had been matters of diplomatic difference and correspondence for several years."

He was made envoy extraordinary and minister plenipotentiary to Portugal from 1901-3, and in 1903 was made assistant secretary of state.

A BRIEF SKETCH OF HERBERT W. BOWEN



It is indeed matter for regret when a man of standing like that of Mr. Bowen, a man with a future before him, comes to grief. His dismissal from the diplomatic service puts an end to a career that promised well.

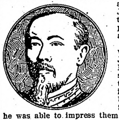
In the president's letter to the secretary of war, in which direction is given that the minister to Venezuela be dismissed from the service, this acknowledgment is given of the minister's past record: "Mr. Bowen has been a long time in the consular and diplomatic service. During much of that hime he has done good work, and until recently I had hoped to promote him."

Mr. Bowen, who was United States consul at Barcelona, Spain, when the Spanish-American war broke out, was the last of the consuls to leave the hostile country. He was next appointed United States minister and consul general to Persia, and in 1901 succeeded Mr. Loomis in Venezuela.

Mr. Bowen is an author and a lawyer, has written books of verse and legal treatises. The following volumes are from his pen: "Losing Ground," "In Divers Tones," "De Genere Humano," "International Law."

Unlike the two public men referred to above, Mr. Bowen is an easterner. He was born in Brooklyn 49 years ago, studied at the Brooklyn Polytechnic, was a member of, but did not graduate with, the class of 1878, at Yale, also pursued his studies abroad for awhile. In 1881 he received LL. B. cum laude from Columbia law school. He practiced law in New York for some time, and then entered the consular service. In 1891 he was appointed to the consulship at Barcelona, Spain, and four years later served there as consul general.

MARQUIS ITO'S LABORS FOR JAPAN



This Japanese statesman, who was suggested as an excellent man to conduct the delicate negotiations in settlement of the Russo-Japanese war, has a world-wide fame. It was Ito that prepared Japan's "long-promised written constitution—this magnificent instrument more liberal in its provisions than some European governments allow."

Ito stood for progress from his earliest years; when in company with a group of other aspiring Japanese, he eluded the Yedo spies and sought in England some knowledge of modern life. He studied there two years, and then hastened home to plead with the Choshui officers not to engage in war with the combined fleets of the British, United States, Dutch and French men-of-war at Shimonoseki. When his clansmen were beaten, he was able to impress them with the value of a united Japan, the need for acquaintance with western civilization. We give a summary of his public services to his country: The report of his study of the United States coinage system led to the adoption by Japan of the decimal system; as minister of public works, he was prime mover in having the railroad built from Yokohama to Tokio; he served in the home office; he journeyed round the world, revisited Europe, and returning to Japan, carried out radical reforms as minister president of state; he superintended reforms which should bring the laws of his country in harmony with those of Christian nations; he persuaded the court to adopt European dress. In 1888 he retired to work on the constitution; in 1892, recalled to the premiership, he guided the nation through the Chino-Japanese war of 1894-5; later again called to the premiership, under his guidance Japan joined with the allies in rescue of the legations in Peking.

Yale conferred upon him in 1901 the degree of LL. D. He is looked upon as "one of the profoundest constructive statesmen of modern times."

CHRISTOPHER WEBSTER.

Cash from Total Stranger.

Mrs. C. Durga, of Bethel, Vt., has received $20,000 by the will of Alfred Burte, of Liverpool, England, almost a total stranger. A few years ago, while Mr. Burte was visiting in Bethel, Mrs. Durga did some writing for him and would take no pay. She had not heard from him since.

Preserve Old Sentiment.

When a man is elected mayor of the city of New York lamps are placed in front of his residence and they remain there after he is out of office. Thus there is a more or less permanent directory to the residences of ex-mayors. This is a unique preservation of an old-time sentiment.

DEFECTIVE PAGE

THE SUNBEAM.

BY W. G. HUNT.

ublished every Friday, at
nbeam, Red Lake County
nesota.

ıbscription $1.00 per year.

THE NEW SUNBEAM.

ith this issue we commence publication of THE SUANBEM Red Lake County, having ved our printing plant from ly Polk County to this place. e are aware that this makes n nswspapers in this county, we have located so far back we hope we will not crowd of the others.

e shall publish a paper de d to the best interest of the ıty, and especialy this part

e did not move our plant at the request of any one, because we bought land here considered this a good busi- location, and shall com ce the publication of our er with confidence that we e right.

KE YOUR PAYMENTS.

s the time for the second ment on the lands bought of government on this reser- on is about due, it would be for the settlers to prepare eet this payment. There is xtension of time granted, is there any reduction in price, or any change made in conditions under which you ht the land, which is that entry will be canceled if do not make your payment in sixty days after it is due, e write this to explain the ıtion as it is, not as some of ould likee to have it, but as

ıere are all kinds of stories g circulated, that originated e brain of some one that not understand the situa to the affect that there is to n extension of time, and re tıon in price.

ny man of ordinary inteli- ce had ought to know, that law opening this reservation passed by congress and any g affecting the time and e must be brought before and they do not meet until December, aud as there has no change made in the litions under which you took land you had better make payment or your entay may anceled and your farm sold ome one else, who may walk o your house and show you papers for your farm and when you can move so they take possession.

ully is having a senseational prosecuting blind piggers, as usal in such cases the little s get squeezed, while the big s goes scotfree

he Red Lake and Thief Riv papers are still hammering he coubty seat removel, and are pleased that we are far y and can onlysee the smoke attle.

he new 11 Townships that e opened for settlement last mer is destined to be the est and best part of the nty, as the land is very rich has a natural drainage thru Red Lake and Clearwater rs, and is being rapidly led up by a thrifty class of mers that have money to im- ve their farms.

hat this part of the county ds is some roads, and they not very well get them until townships are orgnized, but f River and Red Lake Falls taking up so much of the e of our Commissioners in county seat removel that poor fellows can not attend ny other business.

MORE LAND OPENED UP.

Announcement was made at the general land office June 26th that 37,800 acres of land would be thrown open in Minnesota on August 15th, The lands for the most part are located in the Cass Lake, Crookston, RedLake, White Earth, Duluth, and Fond Du Lac districts. These will be subject to homestead entry.

There has been nothing heard from the county Commissioners about the laying out of the new county road from Red Lake river to the town line of Equality, for which they have a monster petition. Prehaps the county dads are of the opinion that the people got up that petition for the fun of it, but they diden't, as they want a road south from here and a bridge across the Clearwater river.

Mankato Free Press: You can talk about the man behind the gun, the hardy son of toil behind the plow; you can relate your stories of the man behind the cash register or the man behind the footlights, but none of them is to be compared with the man behind the linotype.

A Small Favor.

Young Wife (time, midnight)—Quick! Quick! Wake up! I hear some one downstairs!

Husband (sleepily)—What do they seem to be doing?

Wife—Hark! Hear that? They are in the pantry. I heard my cake box rattle.

Husband (wearily)—Tell them to please not to die in the house.—New York Weekly.

Seasonable Inquiry.

"Allow me, Mr. Bifkins," said the hostess to a late arrival, "to introduce Captain de Jones, a man who has faced death in a score of battles."

"Pleased to meet you, captain," said Bifkins. "By the way, are you a military or football captain?"—Cleveland Plain Dealer.

Not For General Circulation.

"Say, pa, when I'm a man won't I have to obey you nor ma any more?"

"No, but you'll have a boss then who will make you wonder why you ever thought we were hard to deal with. You needn't tell your ma, however, that I told you."—Chicago Record-Herald.

As It Should Be.

He had just proposed, but his poverty was too much of a handicap.

"A man without money," she said, "might as well walk back and sit down."

"Oh, of course," he rejoined. "He naturally wouldn't be in a position to ride back."—Brooklyn Eagle.

Anxious.

"I hear that your wife has run away from you?"

"Yes. I've offered a reward for her capture, dead or alive."

"How much?"

"Ten dollars alive and a thousand dollars dead."—Judge.

In the Hands of Experts.

"Figures don't lie, do they paw?"

"No, my son, but if you will examine the campaign text books you will find that they can tell two entirely different and contradictory kinds of truths."—Chicago Tribune.

Two Views of It.

"He admits that he isn't succeeding in business as rapidly as he had expected."

"Which means that he is failing even more rapidly than his friends expected."—Philadelphia Press.

No Trace.

Patience—They say there are microbes in kisses.

Patrice—Yes, but isn't it a lucky thing that they don't leave any marks?—Yonkers Statesman.

Sweeping.

"I was just telling my daughter," said Mrs. Newdore, "that it's a shame for her to play the piano on Sunday."

"Huh!" exclaimed Mrs. Peppery. "Why Sunday especially?"

Flirting In Japan.

A Japanese woman flirts—as far as she knows the meaning of the word—with her sleeves and fan and not with her eyes and smiles. By the different movements of the ends of her kimono sleeves she manages to convey to her admirers all sorts of unspoken messages, and by the opening and shutting of her fan to the right or to the left she can reject or accept the most weighty offers. Her code signaling with her sleeves and fan is quite as [illegible] of her social education.

BOATING ON THE NILE.

The Best Pilots Run Aground Two or Three Times a Day.

Navigation on the Nile is not so complicated a matter as upon the north Atlantic, writes Alonzo Clarke Robinson in Outing. To run at full speed upon a sand bar is an occurrence of such frequency as hardly to elicit a comment from the passengers. The crew take more interest because they are obliged to push the boat off again with poles, and this entails a great amount of shouting and some work. The Nile below the first cataract is a fairly broad, muddy river, flowing between deposed banks varying from six to eight to twenty to thirty feet in height. Its surface is interrupted everywhere by sand spits and islands upon which are to be seen thousands of birds. The channel, if such it can be called, winds from one side to the other and changes completely with every flood; hence even the best pilots run aground two or three times a day. It is, of course, impossible to proceed at night, and each day's voyage comes to an end wherever darkness happens to overtake one. The boat's nose is simply run plump on the bank, two men leap out and drive stakes to which to make fast, and there you are for the night. A very simple and effective method, without any ostentation and requiring very little knowledge of mathematics; it has also the advantage of variety. Sometimes one finds oneself alone beneath the wonderful Egyptian moon lighting up the river, the distant cliffs and the silent, empty plain, or perhaps one stops near some little native village, in which case the bank is lined with silent, curious figures, who crouch for hours wrapped in their white cloth coverings. Once we tied up beside a lonely brick kiln. The sight was a weird one. The red flare of the furnace, fed with sugar cane, cast intermittent flashes of light into the night, in and out of which moved black half naked natives, while overhead was the cloudless, star lit sky of Egypt.

OUR INAUGURAL OATH.

It Is the Shortest and Simplest Taken by Any Ruler.

The oath of office taken by the incoming president of the United States is the shortest and the simplest required of any ruler on earth. It is prescribed by the constitution and is as follows:

"I do solemnly swear (or affirm) that I will faithfully execute the office of president of the United States, and, to the best of my ability, protect, preserve and defend the constitution of the United States."

This oath is slowly repeated by the president elect after the chief justice of the supreme court, in the presence of the public upon a platform erected in front of the main door on the eastern side of the capitol. While the oath is being repeated the president elect and the chief justice face each other and hold with their right hands between them a Bible furnished by some person interested or especially procured for the occasion, which becomes the property of the president after it has been appropriately inscribed and sealed by the chief clerk of the supreme court.

At the close of the oath the president elect bows his head and kisses the open page of the book, and it has been customary for him or for his wife or a friend to select some appropriate passage at which the book shall be opened and the verse upon which he shall press his lips. Sometimes, when those interested forget or neglect to choose a passage, the Bible is opened at random, but the clerk of the supreme court is always careful to note and mark the exact place where the lips touched the page.—Chicago Record-Herald.

The Horseshoe Legend.

Here is an explanation of the old horseshoe superstition: St. Dunstan was a skilled farrier. One day while at work in his forge the devil entered in disguise and requested Dunstan to shoe his "single hoof." The saint, although he recognized his malign customer, acceded, but caused him so much pain during the operation that Satan begged him to desist. This St. Dunstan did, but only after he had made the evil one promise that neither he nor any of the lesser evil spirits, his servants, would ever molest the inmates of a house where the horseshoe was displayed.

A Servile House of Lords.

When King Henry VIII.'s name was spoken in his presence in the house of lords every peer prostrated himself with Asiatic servility. An entry in the records of the house gives the substance of a speech delivered by the chancellor on Jan. 16, 1541, in which the king's goodness and wisdom are extolled, and it tells us that whenever his majesty was mentioned, "which happened often," all the lords prostrated themselves, bowing to the ground as one man.

Force of the Future.

Cut off the future, and man is the most timid of creatures. The demons and dragons are too terrible for him to face and attack. But spread before him the illimitable future, and he will dare all things, certain of victory at last. Any night, however filled with weeping, can be endured by one who knows that joy is coming in the morning.

Tortillas.

Tortillas, the Mexican substitute for wheat bread, are made from selected corn. The kernels are boiled soft in limewater and after being thoroughly washed are rubbed between the hands to remove the outer husk. They are then ground while wet to a soft mass with stones or a peanut butter mill, patted into thin cakes, baked on a dry griddle and eaten while still hot.

Wanted by Chicago manufacturing house, person of trustworthiness and somewhat familiar with local territory as assistant in a branch office. Salary $18 paid weekly, Permanent position. No investment required. Business established. Previous experience not essential toengaging. Address Manager Branches, 323 Dearborn St. Chicago, Ill.,

DR. J. OHNSTAD.

PHYSICIAN AND SUGEON.

(Successor to Dr. McAchran.)

All calls promptly attended; day or night.

Office in Capenter & Webster Building North.

McIntosh, Minnesota.

STEPHEN SINGER,

NOTARY PUBIC, POLK CO.,

All business promptly attended too; Application for Marriage Licenses; Contest papers Affidavits; etc., drawn,

GULLY, POLK CO., MINNESOTA,

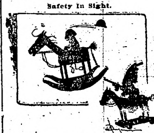
The King of Bardsey.

About a mile distant from the rocky promontory of Braich-y-Pwll, the extreme westerly point of north Wales, lies the island of Bardsey, the home of a singularly isolated community. The island is the property of Lord Newborough and was a favorite resort of the third baron, grandfather and predecessor in the title of the present peer. At that period the island was even more remote and out of the way than at present. Communication with Pwllheli was infrequent and uncertain. Consequently the Bardsey folk formed an entirely independent community, forced by circumstances to conduct their own affairs without special reference to the laws of the country. Lord Newborough instituted the office of "king." Selecting from the islanders one of superior parts and character, he invested him with the general authority which he himself possessed as landlord, bidding the rest to obey his ruling, abide by his decisions in case of dispute and in general respect his authority. Partly in jest, partly to strengthen his vicegerent's position, he conferred upon that worthy the title of "king of Bardsey" and bestowed upon him a crown, a treasure and an army. The "crown" was a gorgeous diadem of brass, wondrously embossed and wrought; the "treasure" a silver casket brought from Italy, and the "army" a wooden figure painted to represent a soldier.

Grotesque African Customs.

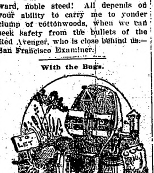
Tattooing is almost universally practiced by both sexes of the natives of Africa. It is, however, very roughly done and is altogether inferior to the tattooing of the Maoris of New Zealand and other Pacific races. The method of operation is simply to make a slit in the skin and then rub in charcoal. Among the less pleasing feminine ornaments must be reckoned the nose buttons of the Wa Yao and the frightful pelele, or lip ring, of the Anyanja. The nose button is a circular disk of ivory or burnished lead let into one side of the nostril. Ugly as is the effect produced by this, it is yet a thousand times less hideous than the pelele, which consists of a round, flat piece of ivory or wood fixed in a slit in the upper lip. The slit is gradually increased by the insertion of successive plugs, each a little larger than the preceding one, until it can accommodate a full sized pelele, which sticks out an inch or more in front of the face, rendering the appearance of the wearer scarcely human.

Safety In Sight.



The Pursued Scout—Forward! Forward, noble steed! All depends on your ability to carry me to yonder clump of cottonwoods, when we can seek safety from the bullets of the Red Avenger, who is close behind us.—San Francisco Examiner.

With the Bugs.



Mrs. Bug—Janitor, are you sure this is the right size? You know I must have a No. 11 to accommodate my family!—New York American.

Just Help Himself.

He—If I tried to kiss you would you call for help? She—Would you need it?

NEW STORE.

I wish to call your attention to the fact, that I have a choice and well selected stock of groceries, which I am selling at reasonable prices. New settlers, who are in need of groceries can be supplied, at THE KUEHNEL POST OFFICE AND STORE, and save going long distance's to the city.

MISS A. KUEHNEL, PROP., and postmaster. Sec. 20 T. 153 R.40.

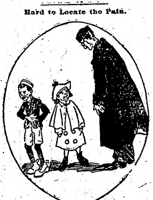
WHERE YOU ARE DOING BUSINESS.

Hard to Locate the Pain.



"Where is his pain?"

"Dat's de trouble, mister. You see, Jimmie's so thin he don't know whether it's de backache or stomach ache."—Leslie's Weekly.

Deacon and Elder.

Morrison—What is the matter, Dumley? You look terribly mystified. Dumley—No wonder. I was talking with Jinkins just now. We were speaking of the Joneses, and he said that the elder was the younger and the deacon the elder. I can't get at the rights of the thing to save me.—Boston Transcript.

On the Christmas Tree.

The old fashioned stockings and hearts and crosses and animals cut out of tarlatan outlined with worsted and then filled with flat candles and tied on the tree are always popular ornaments. Sugar figures bought in the confectionery store will serve to break the monotony. The baker at Christmas time usually has his windows filled with horses, dogs, cats and men and women made of delectable cake dough and artistically ornamented with colored sugar curlycues. These are toothsome and attractive to the small boy and girl.

Candles in small candle holders are always scattered well over the tree. It is a wise precaution to keep a pan of water in which is a wet sponge in case of accidents. When a spark falls upon a bough, the sponge quickly applied to the spot will check the spread of the fire.—Washington Star.

Letter Perfect.

Rustic poets do not always find rhymes come easily and naturally. At least the following epitaph in a country district would seem to suggest it:

Here lies the body of William Lee.
This was him, this was he.
A B C D E F G.

Nevertheless there is no fault to be found with the actual rhyme as such.—London Globe.

DEFECTIVE PAGE

LOCAL PARAGRAPHS.

Do your Notary Public business at the SUNBEAM office.

Mrs. E. Peterson of Gully is visiting friends at Rhoda, P. O. this week.

Miss Annie Spoklie is visiting her parents, at Nielsville this week.

Andrew Ellingson. of McIntosh has put in a general store at High Landing.

A small amount of grain was sown in this locality this season, but what there is looks fine.

Walter McAndress has fifteen acres of land under cultivation and ready for next year's crop.

Mayor K.K. Austin, of "Skunk town" and family went down to Crookston to celebrate July 4th,

Martin E Hyland was down at Gully last week looking after his farming interest down there.

Stephen Singer of Gully was looking over this locality this week and decided to locate here in buiness this fall.

Settlers who are expecting to make loans to meet their second payments should make their applications to make final proof, so as to get them published before the payment is due.

There is no better location for a good blacksmith in northern Minnesota than at this place. A reliable blacksmith will be given assistance to build here

Chas. Berg of Gully was up the past week looking over the country here, and was well pleased with it. He expects to buy a farm here this month,

We noticed that nearly every one of the settlers liveing along the river have fine gardens, which is an indication, that all kinds of vegetables thrive on this soil.

Postmaster Jenson of Kratka has a large amount of extra post office work to do owing to it being the distrubating office for the numerous other post offices.

Read the advertiaement of Miss A. Kuehnel in this issue and give her your patronage, as by doing so you help to build up a store near where you live.

Tom Sullivan aud his son John have compleated the building of their new barn, and are now busy turning over the soil for a crop next season.

A petition is being circulated to organize Sections 19, 20, 21, 28 29, 30, 31, 32, and 33 into a school district. This will make a fair sized district and seems to meet with the approval of a large number of residents.

Mr. S. Pelka of Gully was the first subscriber to pay in advance, for the SUNBEAM to continue to make him the weekly visits as it has been doing in the past four years from our office at Cully.

Mr. and Mrs. Anton Bakken of Winsor spent a few days in this locality looking over the country. Mr. Bakken's were very well pleased with this vicinity, and may decide to locate here in the near future.

Edward Singer and William Swanson, were up Monday and made applications to make final proof on their homesteads. They are the first to make application at this office and are likely to be the first ones to make final proof on this reservation.

Edward Singer, the new p.m. at Rhode has his office the best arranged of any we have seen on the new reservation. He reports busines as being brisk at the new office and he expects to send in a report of buiness done, at the eud of three months that will surprise his uncle samul,

Jerrey Obrien came from Cavalier two weks ago to commence building operations on his sisters and his own land, which they bought of the government this spring. He was obliged to return to Dak. last week owing to the searlous illness of his mother. He made arangement to have THE SUNBEAM make him weekly visits during his stay in N. Dak.

LAND OFFICE BUSINESS.

U.S. Commissioner L. G. Browning with office located at Thief River Falls, is prepared to take homestead entries final proof etc., within the Crookston U. S. Land District.

Office in News-building, three doors south of the post office.

A. Eve and Sim O Tool were doing business at Thief River Falls this week.

Patrick Sullivan has built a a large and substasial farm residence on his homestead this this spring

Mrs Henry Arents parents Mr and Mrs Vaughn, of German Town were visiting at the Arents July 4th

J, K. Wood County Surveyor and C.E., with office at Thief River Falls, will give all orders for surveying prompt attention

Johannes Bolstad, a brother of Nels N. Bolstad. the Gully merchant arrived from Norway on Monday last, and will make his future home in America.

There was social visiting party at the residenc of George Singer, ou sunday afternoon, at which an enjoyable time was had all who atended.

W E. Wood, who has the assessing to do between the Red Lake and Clearwater Rivers, was a caller at this office on saturday last, and improved the orprotunity to add his name to our subscription list.

Mr. aad Mrs. Shuston claim the honer of being the parents of the first white child born in the town of High Landing, a son born May 4th. Mr. and Mrs. Palon came in close seconds with a girl, born June 4th. There are no symptoms of race suicide up in this locality.

We with numerous others (who came from eastern Polk county to this new reservation), who have had the pleasure of doing business with Oswald A. Brager as U.S. Commissioner and assistant cashier of the Bank of Fosston, will be pleased to learn that him and his brother A.G. Brager have opened a new realestate and land office, at Thief River Falls, under the name of Brager Bros.

WHAT'S THE ANSWER?

A young man asked a farmer for his daughter in marriage. The answer was: "Go into the orchard and bring in a parcel of apples. Give me one half of the whole number and to mother one half of the balance and have one apple over, and to the daughter one-half of the remainder and half an apple over, and have one left yourself with out cutting an apple. Then if she is willing you can have her." He solved the problem and how many apples did he bring?

INSTALLMETS ON RED LAKE LANDS.

U. S. Land Office Crookston Minn. June 10th, 1905.

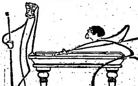
The instalments on Red Lake lands are due one year after purchase, and must be paid within 60 days thereafter or lands will be fortited. In order to get the corect amount of the installment, multiply the number acres by the price paid per acre, and from this amount deduct the 20 per cent paid at the time of purchase, and devide the balance by 5. This will give the exact amount of the five installments. Always give the discription of the land and present post office adress. No private checks will be eccepted from anybody.

A. F. GEORGE,
Receiver.

Wreckage.

Break, break, break—
No, not the waves of the sea—
Only the resolutions
That the foolish made, ah, me!
—S. E. Kiser.

Careless Artist.



"Do you think you can draw that ball the length of the table?"

"I'll have to, I suppose. But I don't see why the artist didn't draw it back there to begin with."

Honors Easy.

People who were present smiled at the little passage of arms which took place between two young ladies at a luncheon recently. One of them, a bride, shaking hands in her characteristically cordial way, said to the other: "I'm so glad to meet you! You have afforded me so very much amusement just lately."

"Amusement?" said the other.

"Oh, yes," went on the bride. "I've been through my husband's desk and have read all his old love letters. I found several very affectionate letters from you, and I enjoyed reading them really ever so much."

"I'm so glad you enjoyed them," replied the other. "But do come and see me very soon. Here is my card. I have the answers to all those letters, and you might like to read them as well. Mr. X.'s letters are so much more affectionate than those I wrote to him. I know you'll enjoy reading them ever so much more than you did mine."

Ideas From Nature.

Walking on the outskirts of Bolton one autumn evening, a clever young man became interested in watching the seeds falling from a sycamore tree. He observed that they acquired a rotary motion before reaching the ground, and, inquiring into the cause, he found that the two wings were slightly turned in opposite directions, which caused them to revolve in falling. The idea of making a screw propeller on this principle at once occurred to him.

Galvani, a natural philosopher of Italy, was dissecting a dead frog one day while a pupil was making experiments in electricity by his side. He observed that the muscles of the frog, being exposed, gave signs of motion whenever the nerves came in contact with the scopel. Galvani discovered the existence of a new principle in this phenomenon and originated the fertile branch of physics known by the name of galvanism.

One Man's Idea of a Joke.

"This artificial limb business is getting to be something wonderful," said a Cleveland man. "When a man can wiggle the fingers of an artificial hand it is uncanny. Practical jokes of terrible effect are possible with the artificial limb, and the victim is such in the true sense of the word. I saw a man in Denver about three weeks ago who walked up to the hotel clerk and in a friendly way reached across the counter to shake hands. Then he wheeled away and left his hand in the grip of the clerk. The clerk fainted—actually fainted, although he realized, I believe, that the hand he held was but an artificial one. The man who wore it had devised a scheme by which he might throw it off by pressing a spring. The delight he took in the joke ceased when the victim collapsed."—Milwaukee Sentinel.

Tallyho!

A very early equivalent of similar sound and purpose to the tallyho with which a huntsman now cheers on his hounds appears in a quaint old song printed in 1730 called "The Death of Reynard, the Fox," by Sir William Young:

He quickly found the cover
Too hot for him to stay,
And soon Ned Callet spied him
Stealing across the way.

"Tolle aux!" then Callet cried
And gave a gibbet shrill.
He tossed his brush as who should
say,
"Come, kiss me if you will!"

Some, however, derive the cry when a fox breaks cover from "taillis hors," the French for "out of the coppice."—London Globe.

The Korean Wife.

In Korea the rooms of a wife or mother are the sanctuary of any man who breaks the law. Unless for treason or for one other crime he cannot be forced to leave those rooms, and so long as he remains under the protection of his wife's apartments he is secure from the officers of the law.

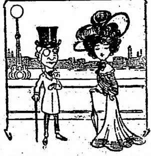
Bound to Be Comfortable.

An author who had been jailed for debt wrote to his wife: "Do me the favor to send me my Shakespeare, my nightgown and slippers, my pipe and all letters asking for autographs and containing stamps. I want to be comfortable and at peace with the world."—Atlanta Constitution.

A Slow Photographer.

Irate Female—Look here! Do you mean to tell me that I have got such an ugly looking nose as that? Photographer—But my apparatus cannot lie, madam. Irate Female—Then, for goodness' sake, go and get one that can.

His Mistake.



He—She doesn't like me. I attempted to kiss her once.

She—How foolish of you! Why didn't you attempt to kiss her twice?

A Pampered Ambition.

"That boy says his only ambition is to make a living without working."

"What are his parents going to do for him?"

"Make a politician out of him."—Detroit Free Press.

DESERT SHEEP HERDERS.

Their Lonely, Dreary Life Tends to Drive Them Crazy.

Do you realize what it means to watch 3,000 sheep alone in the desert? You have read weird, grewsome stories of the horror of the solitary lighthouse keeper's life, but compared to the days of the Mexican shepherd those of the average keeper of the light are filled with gayety and noise. Even with their one or two dogs the shepherds often go insane, and were it not for the company of their shaggy collies the lunacy among them would rise to an almost incredible percentage, if we are to believe those who have followed the sheep in the desert and therefore may be supposed to know.

Once in old Santa Fe, N. M., I met a man who for twelve years had followed the sheep. His work was done. All day long he sat in a chair in the rear of a little dobe store, crouched over, gibbering to himself, bleating—an idiot. He still saw his sheep swaying like a great white wave among the sagebrush, and ever in his ears sounded the killing monotone of their bleats. One boy, though fifteen years of age, is mentally no further advanced than the average child of five. His father is a shepherd, his mother died when he was four years old, and his father took him out upon the range. All his life has been spent among the sheep. He is one with them today.

How is it possible, then, you ask, that men are to be found willing to watch them? It is very easy. Sheep herding is a lazy job at best, and the "greaser" is the laziest creature on earth. For $20 a month he is willing to sit in the sand and listen to the never ending bleating until the little mind he has gives way and they fetch him in from the range insane. He is glad to take the chance for $20 a month.

The greaser is not the only shepherd in the west. On the vast ranges of Nevada and Wyoming you may run across an occasional college man tending the sheep. Once, indeed, a college professor, ill of consumption, undertook to follow 5,000 bleaters for the summer. In autumn they found him insane, on his hands and knees among the sheep, bleating with them. Day after day his eyes behold only a brilliant turquoise sky, in which hangs a sun of brass; an ocean sweep of sage flecked sand and a slowly moving, compact mass of sheep. His ears hear no sound save the steady "Baa, baa!" day and night, affecting him as the Chinese criminal of ancient days was affected by the regular tap, tap of a hidden drum.

And yet so long as the desert continues to provide food for the "bleaters" so long will shepherds go mad among the flocks, and for ten years the desert's greatest value to man has been the food it has offered the sheep, nor yet is the store depleted.—Pilgrim.

The Wickedness of Growing Old.

Here are the three deadly symptoms of old age: Selfishness, stagnation, intolerance.

If we find them in ourselves we may know we are growing old, even if we are on the merry side of thirty. But, happily, we have three defenses, which are invulnerable. If we use them we shall die young if we live to be a hundred. They are: Sympathy progress, tolerance.

The first is the hardest to most of us, because our own little prison of the actual is so immensely important to us. There is no denying the fact that when you have a toothache yourself it is hard to have to consider other people's aches. But it can be done, though it generally involves physical effort, for we must bestir ourselves and act. The mere feeling of sympathy expressed by action is a poor, useless thing, but the soul, determined not to grow old, can force the body to such physical effort, though there is no denying that it is hard work.—Harper's Bazar.

Toothache.

Toothache is something to be dreaded. Until a dentist can be consulted and the exact cause of the disturbance located and professionally treated it is an excellent thing to moisten the finger and, after dipping it into some bicarbonate of soda, rub it on the gum round the sore tooth. It is also a relief to mix a teaspoonful of this bicarbonate of soda in half a glass of warm water and rinse the mouth with some every little while, holding a little in the mouth for a few seconds so that it penetrates all the crevices. The soda, being an alkali, serves to neutralize the acids in the mouth, which are often the cause of toothache.

Knew the Crowd.

A street preacher in a west of Scotland town called a policeman who was passing and complained about being annoyed by a certain section of the audience and asked him to remove the objectionable ones.

"Weel, ye see," replied the cautious officer, "it would be a hard job for me tae spot them, but I'll tell ye what I'd dae if I were you."

"What would you do?" eagerly inquired the preacher.

"Just gae round wi' the hat!"

His Line.

"Yes," said the lecturer, "I'm dealing in furniture these days."

"How is that?" asked a listener.

"Making one night stands under a lecture bureau, with the help of the time tables."—Baltimore American.

When to Cut Weeds.

She—When should a young widow discard her weeds? He—Oh, I don't know, but I suppose she should cut them out just as soon as she wants to raise a second crop of orange blossoms.—Baltimore Herald.

Decision of character will often give to an inferior mind command over a superior.—Wirt.

Cheerful and Hopeful.

The men whom I have seen succeed best in life says Charles Kingsley, have always been cheerful and hopeful men, who went about their business with a smile on their faces and took the changes and chances of their normal life like men, facing rough and smooth alike as it came, and so found the truth of the old proverb that "good times and bad times and all times pass over."

Legal Eloquence.

A young lawyer concluded his argument in a case with the following sublime burst of eloquence: "If, gentlemen of the jury, the defendant's hogs are permitted to roam at large over the fair fields of my client with impunity, then—yes, then, indeed, have our forefathers fought and bled and died in vain!"

Logic.

Teddie—Pa, where do we get our milk from? Father—From cows, my son. Teddie—And where do cows get their milk from? Father—Why, Teddie, where do you get your tears? Teddie (after a long, thoughtful pause)—Do they have to spank cows, papa?—Judge.

A Man to Be Avoided.

Briggs—Here comes Gidson. Let's cross over. Griggs—Why, I thought he was a friend of yours. Briggs—He used to be, but now he's my deadly enemy. He's the unspeakable villain who recommended a place for me to spend my vacation.—Brooklyn Life.

Very Like His Dad.

M. Crapaud—Ah! So zis ees your leetle son? He look to be similaire to you. Popley—Yes, he's very much like me. M. Crapaud—Ah! How do you call eet? "A cheep of ze old blockhead," ees eet not?—Philadelphia Press.

A Beautiful Case.

Visitor (calling on friend in hospital) —Sorry to find you here, old chap; badly hurt? Patient—Yes, I am afraid I am. I heard the doctor say I was a "beautiful case."

Of two heroes, he is the greater who esteems his rivals most.—Beaumelle.

He Sent Another.

A few years ago a well known lawyer remitted in settlement of an account to the publisher of a paper a two dollar bill, which was returned with the brief statement:

"This note is counterfeit; please send another."

Two months passed before hearing from the lawyer again, when he apologized for the delay, saying:

"I have been unable until now to find another counterfeit two dollar bill, but hope the one now inclosed will suit, professing at the same time my inability to discover what the objection was to the other, which I thought as good a counterfeit as I ever saw."—Philadelphia Ledger.

An authority on horses says the gray will live the longest and that roans come next in order. Blacks seldom live to be over twenty, and creams rarely exceed fifteen.

A Dream With a Moral.

A rich lady dreamed that she went to heaven and there saw a mansion being built. "Whom is that for?" she asked of the guide.

"For your gardener."

"But he lives in the tiniest cottage on earth, with barely room for his family. He might live better if he did not give away so much to the miserably poor folks."

Farther on she saw a tiny cottage being built. "And whom is that for?" she asked.

"That is for you."

"But I have lived in a mansion on earth. I would not know how to live in a cottage."

The words she heard in reply were full of meaning. "The Master Builder is doing his best with the material that is being sent up."

Then she awoke, resolving to lay up treasure in heaven.—Chicago Post.

The Englishman's Morning Tub.

Until the beginning of the seventeenth century English princes and other babes were immersed three times in the font when christened. The last Prince of Wales who was submitted to this ordeal appears to have been Arthur, the son of Henry II., who died in 1502 at the age of sixteen. The abolition of the practice was strongly objected to upon sanitary grounds by Sir John Floyer, a celebrated physician, who died in 1734. "Immersion," he says, "would prevent many hereditary diseases," and "the English will return to it when physic has given them a clear proof that cold baths are both safe and useful." So our morning tub is the outcome of royal immersion.—London Mail.

Freshness of Youth.

He was a respectable looking man, and, judging from his appearance, he was a butcher by trade, and this belief was verified a few minutes later. He carried a white apron under his arm, and as he entered a car a huge cleaver dropped from the bundle to the floor. A youth who had not reached the age of discretion sank out merrily. "Say, mister, you dropped your pocketknife." The passengers laughed, but they could not help but think that the youth took a long chance on kidding a man with a cleaver.—Albany Journal.

Rise Above Your Troubles.

No matter what cares, anxieties or sorrows may vex or sadden you, do not prove yourself a weakling by going down before them, but show yourself noble in rising above them and molding them to life's purpose. Rather bear an insult than give one; rather dry a tear than cause one to be shed. How many celebrities we would have if men would be as anxious to make their own fame as they are to unmake the fame of others.

Nothing Left.

"I have had lots of friends who were guilty of mutilating books they had borrowed from me, but my latest experience was the most novel of all."

"What was it?"

"I lent Mrs. Blanks my dictionary a few days ago, and yesterday she returned it without a word!"—New Orleans Times-Democrat.

IN DARKEST AFRICA.

The French government intends to make experiments in its Congo colony in the cultivation of a wild coffee tree discovered by the explorer, M. Chevalier.

Miss Jane Nathan, who is the first South African-born girl licensed to practice as a dental surgeon, has returned from her successful studies in Europe to begin her profession at Hanover, Cape Colony. She is also believed to be the first South African girl to take any medical degree.

Dr. Robert Koch had a caravan, consisting of 70 men, when he visited Morogoro, in German East Africa, last month. The natives called him "the great medicine man" and were astonished at the size of his expedition, which had for its object the study of the plague and of a kind of fever which is communicated by the papasi, or bedbugs, and which has made one road almost impassable. It is not deadly, but makes invalids of the victims for weeks.

Four Facts For Sick Women To Consider

Lydia E. Pinkham's Vegetable Compound Has an Unequalled Record of Cures—Mrs. Pinkham's Advice Is Confidential, Free, and always Helpful

FIRST.—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, irregular and painful menstruation, leucorrhœa, displacements of the uterus, pain in the side, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

SECOND.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, all uterine and ovarian inflammation, weakness and displacements, regulating menstruation perfectly and overcoming its pains. It has also proved itself invaluable in preparing for childbirth and the change of life.

THIRD.—The great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

FOURTH.—Every ailing woman in the United States is asked to accept the following invitation. It is free, will bring you health and may save your life.

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

MILLIONS OF WOMEN

USE

Cuticura SOAP

Assisted by Cuticura Ointment, the great Skin Cure, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings, and chafings, in the form of baths for annoying irritations and inflammations, or undue perspiration, in the form of washes for ulcerative weaknesses, and for many sanative, antiseptic, purposes which readily suggest themselves, as well as for all the purposes of the toilet, bath, and nursery.

Sold throughout the world. Potter Drug & Chem. Corp. Boston. Mailed Free, "A Book for Women."

Two Great Qualities.

"Is it possible," asked the passenger on the Mississippi river steamboat, looking at the turbid, boiling flood, "that people ever drink this water?"

"Sir," said the lanky passenger with the broad brimmed slouch hat, "you take a glass of that water, let it settle; pour off the clear fluid at the top, and it's the best drinking water in the world."

"But the sediment at the bottom—"

"You don't need to throw that away, either. By George, sir, it makes the best and richest soil you ever saw!"—Chicago Tribune.

His Objection.

De Style—What is it you don't like about Miss Golddust?

Gunbusta—Other fellows' arms.—N. Y. Times.

Arriving at a Verdict.

Kushequa, Pa., July 10.—(Special)—In this section of Pennsylvania there is a growing belief that for such Kidney Diseases as Rheumatism and Lame Back there is only one sure cure and that is Dodd's Kidney Pills. This belief grows from such cases as that of Mrs. M. L Davison of this place. She tells the story herself as follows:—

"I have suffered from Rheumatism for thirty years and find that Dodd's Kidney Pills have done me more good than any medicine I have ever taken. I was also bothered with Lame Back and I can only say that my back hasn't bothered me since I took Dodd's Kidney Pills."

Considering that Mrs. Davison only took two boxes of Dodd's Kidney Pills, the result would be considered wonderful if it were not that others are reporting similar results daily. Kushequa is fast arriving at a verdict that "Dodd's Kidney Pills are the one sure cure for Rheumatism."

A paradox: Some people do a great deal, but others do more and don't do so much.—Chicago Record-Herald.

TORTURING, DISFIGURING

Humors, Eczemas, Itchings, Inflammations, Burnings, Scalings and Chafings Cured by Cuticura.

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurements, as in pimples and ringworm; the awful suffering of infants, and anxiety of worn-out parents, as in milk crust, tetter and salt rheum—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment and Pills are such stands proven beyond all doubt by the testimony of the civilized world.

Garbage and garage are something alike in spelling, but not altogether alike in smelling.—St. Louis Globe-Democrat.

General Weakness.

Nervous Prostration, Easily Tired, Pains, Aches, etc., are signs of some deep-seated trouble and ought to be corrected at once. Pusheck's-Kuro is the best Tonic, Blood and Nerve medicine in the world, also Cures Indigestion, Misuse and Heart and Kidney Troubles. Dr. Pusheck, Chicago.

In the beginning the woman sits down and waits for a husband; in the end she sits up and waits for him.—Life.

Do not believe Piso's Cure for Consumption has an equal for coughs and colds.—J. F. Boyer, Trinity Springs, Ind., Feb. 15, 1900.

Affronted Authority.

"So your wife does not approve of baseball?"

"No," answered Mr. Meekton. "Henrietta can't stand it to see any mere man bossing people around the way the umpire does."—Washington Star.

The Difference.

"In the Society Islands, when a man dies they whitewash his body."

"And here we perform the same tender offices with his character."—Cleveland Leader.

One of the professors says lying is unnatural and has to be learned. This may be true, but it seldom is necessary to serve a long apprenticeship.—Chicago Record-Herald.

ATAXIA FOUR YEARS

FOLLOWS MALARIA CONTRACTED IN SPANISH-AMERICAN WAR.

Victim Had Become Helpless When He Tried Dr. Williams' Pink Pills, but Was Cured in Four Months.

Because he did not know that there is a remedy for ataxia, Mr. Ariel endured four years of weakness, pain and the misery of thinking his case incurable.

"At the outbreak of the Spanish-American war," he says, "I went with Company B, Eighth Regiment, M.V.M., into camp at Chickamauga, and while there my system became thoroughly poisoned with malaria. When I was mustered out, I carried that disease home with me. After a while locomotor ataxia appeared."

"How did the ataxia begin?"

"I first noticed a pain in my ankles and knee joints. This was followed by a numb feeling in my legs. At times I had to drag myself around; my legs would shake or become perfectly dead. I had constant trouble in getting about in the dark. I kept a light burning in my room at night as I could not balance myself in the darkness. Even with the aid of a light I wobbled, and would reach out and catch hold of chairs to prevent myself from falling?"

"How long were you a sufferer?"

"Four years in all. During the last three years I was confined to bed, sometimes for a week, again for three or four weeks at a time. When I was lying down the pain in my back was frequently so severe that I had to be helped up and put in a chair to get a little relief. I had considerable pain in my bowels and no control over my kidneys. The worst of all was that the doctor could give me no hope of recovery."

"How were you cured?"

"I read that Dr. Williams' Pink Pills had cured locomotor ataxia and one or two friends spoke to me about them. In the fall of 1903 I began to take them for myself and I had not used more than one box before I found that the pains in my knees and ankles were greatly relieved. Four months afterward I became a perfectly well man, and I am today enjoying the best of health."

Mr. Edward H. Ariel lives at No. 48 Powow street, Amesbury, Mass. Every sufferer from locomotor ataxia should try Dr. Williams' Pink Pills without delay. Any druggist can supply them.

DOG THAT GOES VISITING.

Regular Round of Morning Calls Made by Canine in New York Town.

"There's a dog in our neighborhood," says a lady who resides on one of the residence streets uptown, reports the Utica (N. Y.) Observer, "that has a regular round of visits to make every morning.

"I find out by comparing notes with a number of my neighbors that this particular dog makes a visit to each house every morning, and to some places he makes a call each afternoon. He is a good-natured fellow, and he will come in, act greatly pleased to see those who talk to him, accept with gratitude any bit of sweet or little morsel of meat that happens to be left from the breakfast, stays around a few minutes and then go on to the next house, where he goes through the same programme. I suppose he makes the trips because he gets something to eat at each place, and is petted and made a good deal of by all the women and children.

"There have been some changes in the neighborhood this spring and some of the old friends moved away, but that never bothered this dog. He made early calls upon the new families, and without the formality of an introduction. Within a week he had them all upon his calling list. I have watched from the windows many times, and I find that he makes his calls in regular order."

AN EXPENSIVE OCCUPATION

Collecting Signatures and Letters of Historic Value Takes Much Money.

Autograph hunting is a sport hard to understand, writes Andrew Lang, in Longman's Magazine. Somebody has paid £900 for a draft of a letter written by Mary Queen of Scots. Where is the value? It is a long letter, perhaps 2,500 words, in the queen's large, legible hand. But it had been published in a photographic fac-simile, with text and translation in print, and every drop of historical information had been wrung out of it by Father Pollen, S. J. If the original draft had then been burned, nobody would have been the poorer, except the heirs of the late Mr. Scott, of Halkshill, the owner. His family generously presented Father Pollen's adimrable edition to the Scottish Historical society a year ago, so it is not the novel historical contents that make the seven pages of old paper sell for £900. I hope that the purchaser of a small parcel of state papers of 1576, about a robbery of jewels from Queen Mary when a prisoner, will print the contents, as they may have artistic, if not precisely historic, interest

SOME DIMINUTIVE ARMIES.

That of Monaco Has But 150 Soldiers—Several Others Less Than One Thousand.

Hachette's Almanach gives the statistics of the smallest armies of the world. The smallest of them all is that of Monaco, with 75 guards, 75 carabiners and 20 firemen, says Stray Stories.

Next comes that of Luxemburg, with 135 gendarmes, 170 volunteers and 39 musicians. In case of war, says the laws, "the number of volunteers may be temporarily raised to 250."

In the republic of San Marino they have universal compulsory service, with the result that they can put into the field nine companies, comprising 950 men and 38 officers, commanded by a marshal.

This, however, is the war strength of the forces. On a peace footing the republic can only put one company of 60 men on the parade ground.

In the case of the republic of Liberia, the most striking feature is the proportion of officers to privates. There are 800 of the former and only 700 of the latter. None the less the republic issues proclamations of neutrality when wars break out between the great powers of Europe.

How They Break the Egg.

Birds while still in the egg have a sharp, horny spike attached to the upper part of the beak, by means of which they are assisted in breaking out of the shell. This prominence becomes opposed to the shell at various points in a line extending all around the egg at about one-third of the egg's length from the large end. It makes a series of little holes, thus weakening the shell, and when the chick arrives at a certain stage of strength and development it has no difficulty in breaking out. In the common fowl this little weapon drops off a day or two after it is hatched, but on the pigeon and birds that are fed by their parents it sometimes remains for two weeks.

Britain's Loss by Emigration.

During the half century from 1853 to 1903 over 13,000,000 people emigrated from the British Isles, and of this immense number the great majority went to swell the population of the United States. Happily, in quite recent years the tide of emigration has set in more strongly toward the Dominion of Canada; but even last year 80,000 people from these islands entered the United States, carrying with them at least £1,000,000 in hard cash and in all probability more than twice that amount.—London Post.

All Lost.

The doctors were holding a consultation over the case.

"Gentlemen," remarked the physician in charge, "I am unable to discover any change whatever."

"Then we might as well give him up," they remarked, in chorus.—Kansas City Drovers' Telegram.

MARKETING POTATO CROPS.

How the Railroads Made It Possible for the Growers to Get Fair Prices.

In line with the classic case of the oyster shippers, cited by President Hadley, of Yale University, in his book on Railroad Transportation, is the case of the Aroostook potato growers brought by President Tuttle, of the Boston and Maine Railroad before the Senate Committee on Interstate Commerce. Nothing could better show how a railroad works for the interest of the localities which it serves.

A main dependence of the farmers of the Aroostook region is the potato crop, aggregating annually eight to ten million bushels which find a market largely in Boston and the adjacent thickly settled regions of New England. The competition of cheap water transportation from Maine to all points along the New England coast keeps railroad freight rates on these potatoes always at a very low level.

Potatoes are also a considerable output of the truck farms of Michigan, their normal market being obtained in and through Detroit and Chicago and other communities of that region.

Not many years ago favoring sun and rains brought a tremendous yield of potatoes from the Michigan fields. At normal rates and prices there would have been a glut of the customary markets and the potatoes would have rotted on the farms. To help the potato growers, the railroads from Michigan made unprecedentedly low rates on potatoes to every reachable market, even carrying them in large quantities to a place so remote as Boston. The Aroostook growers had to reduce the price on their potatoes, and even then could not dispose of them unless the Boston and Maine railroad reduced its already low rate, which it did. By means of these low rates, making possible low prices, the potato crops of both Michigan and Maine were finally marketed. Everybody eats potatoes, and that year everybody had all the potatoes he wanted.

While the Michigan railroads made rates that would have been ruinous to the railroads, had they been applied to the movement of all potatoes at all times, to all places, they helped their patrons to find markets then. The Boston and Maine Railroad suffered a decrease in its revenue from potatoes, but it enabled the Aroostook farmers to market their crop and thereby to obtain money which they spent for the varied supplies which the railroads brought to them. If the making of rates were subject to Governmental adjustment, such radical and prompt action could never have been taken, because it is well established that if a rate be once reduced by a railroad company, it cannot be restored through the red tape of Governmental procedure. If the Michigan railroads and the Boston and Maine Railroad had been subjected to Governmental limitation they would have felt obliged to keep up their rates, as do the railroads of France and England and Germany under Governmental limitation, and let the potatoes rot.—Exchange.

OVER THE OCEAN.

Four-fifths of Zululand has been declared unfit for Europenan habitation by the British delimitation commission.

"To calm public excitement" the Hungarian Jockey club has paid the debts of a Buda-Pesth bookmaker, who lost $41,500 over the Austrian derby.

A British board of trade return shows that during 1904 453.877 emigrants left the United Kingdom, nearly half of whom went to the British colonies. Twenty-six per cent. of the number went to Canada.

Three rare specimens of male tree fern, Osmunda regalis, of more than 1,000 years' growth, have been procured for the imeprial botanic gardens of St. Petersburg from the virgin forests on the Black sea coast, near Adler.

Mrs. Frederick Krupp, widow of the famous gunmaker, has given 200,000 marks for a convalescent laborers' home, to celebrate the fifth anniversary of the opening of the great Gruson works, near Madgeburg, Germany.

The Egyptian government has decided upon postponing—and this may mean abandoning—the scheme for raising the Assuan dam, and thereby increasing the supply for the irrigation of the country in the summer, and has taken this decision mainly because two mathematicians in London have developed a new theory regarding the stresses upon masonry dams.

"Smoking races" are the latest development of student life in Germany. They are usually held at drinking bouts and form a novel feature of these occasions. Hugs pipes are made specially for this purpose, having a capacity of from one to three ounces of tobacco. All pipes must be identical in shape and construction and are filled with the same quantity of tobacco to a grain.

Unique was the wedding which took place at a village near Dover, England, the other day, the bridegroom being a gentleman engaged in China, who had inserted a matrimonial advertisement in a London journal, resulting in a correspondence and exchange of photos with the daughter of a professional gentleman in the Kentish village. The bridegroom has traversed the thousands of miles separating China from Kent to claim the bride.

Unusual.

"Why did she refuse him?"

"She thought she could do better."

"How strange! Girls seldom think that until after the ceremony."—Town Topics.

The White River Division.

St. Louis, July 8.—The White River division of the Iron Mountain Route, between Newport, Ark., and Carthage, Mo., is rapidly approaching completion, and report of representatives of the general passenger department, who recently made a complete trip over the line, indicates that through trains will be running inside of sixty days.

"While several thousand tourists have already made the trip from each end of the completed line, and we have hauled during the month of June over forty fishing parties from Carthage, who desired to make the five-day float from Galena to Branson, returning on train in 50 minutes, for the complete daylight run over the new line," said Mr. H. C. Townsend, general passenger agent, "there will be a tourist travel unprecedented over any line in this part of the country. The fishing proposition is becoming so well known that a number of club houses on the James river, between Galena and Branson, are now completed and are taxed to their capacity."

"The romantic features of the new line are naturally the ones to attract the most general attention, but the agricultural and mineral possibilities of this new region are remarkable."

"The road itself is a marvel of engineering, and the 85-pound rails, with rock ballast, promises the highest degree of speed and safety."

THE SUNBEAM.

MINNESOTA HISTORICAL SOCIETY.

VOL. V. SUNBEAM, RED LAKE COUNTY, MINNESOTA, FRIDAY, JULY 28, 1905. NO. 17.

THE NEWS OF A WEEK CONDENSED

SUMMARY OF MOST IMPORTANT EVENTS AT HOME AND ABROAD.

THE WAR IN THE FAR EAST

Progress of Peace Negotiations Between Russia and Japan—Foreign and Domestic Items of Interest Told in Brief.

THE RUSSIAN REVOLT.

An attempt to slay Pobiedonostseff, leader in the Russian church, was frustrated by the prompt seizure of the would-be assassin, according to St. Petersburg reports.

Rumors of a plan to dethrone Emperor Nicholas caused prohibition of the zemstvoist congress in Moscow.

The zemstvo congress at Moscow, which opened in defiance of Trepoff's orders, was raided by the police, who took the names of those present.

The Zemstvo congress passed a plan for constitution by vote of 220 to 7 and declined to appeal again to the czar.

Stephen Okrjeia, who was condemned to death for throwing a bomb into the police station at Praga, Russian Poland, March 26, was executed at Warsaw. The executioner was obliged to hang Okrjeia twice.

RUSSO-JAPANESE WAR.

China officially notifies the powers ment regar[illegible] any arrangeing which she has not been consulted beforehand.

China's claims as to Manchuria will have little effect on peace negotiations. Japan is determined that the terms to be agreed to shall have permanent results.

Baron Komura, Japan's peace plenipotentiary, and his suite arrived in Seattle and took a train for the east in a few hours.

A Japanese army has landed north of Vladivostok and the complete investment of the citadel is imminent, according to a dispatch from Tokio.

The Japanese find only slight damage was done to Russian ships sunk at Port Arthur, and will refloat six by August.

Admiral Rojestvensky in a report on the naval battle of the Sea of Japan said ships were dishonestly built and that shells were bad. Vessels disloyal in the fight owing to mutinous spirit.

MISCELLANEOUS.

The boilers of the gunboat Bennington exploded as the ship lay in port at San Diego, Cal. Thirty-nine of her crew are known to be dead, 21 are missing and are believed to have perished and 76 are wounded. The warship is badly wrecked, but was saved from sinking.

The Chicago teamster's joint council, after a referendum vote of several unions, declared the strike off and advised the men to seek for places as individuals.

Chicago drivers who have been on strike made a rush to get their old jobs, but only a small percentage were reemployed.

The City national bank of Kansas City, Mo., failed. The bank held paper of C. J. Devlin, of Topeka, to the amount of upwards of $100,000, and the failure is the direct result of the closing of the First national bank of Topeka.

A large Bulgarian band attacked the village of Baltinas and Gradeshuntza, in the Morinevo district, in European Turkey, murdering the entire population indiscriminately.

Gov. Hoch, of Kansas, announced that he would declare the office of state treasurer, now held by J. J. Kelly, vacant, because of Kelly's refusal to give a new bond, his old bond having been involved in the recent failure of C. J. Devlin.

The grand jury of Milwaukee county, Wis., which is investigating alleged graft, returned another batch of 27 indictments, involving 14 persons.

Senator E. J. Burkett, of Nebraska, has received a letter from Secretary Loeb in which it was stated it is the president's intention to call a special session of congress on November 11.

Mrs. Mary Larins, a patient at the state insane asylum at Traverse City, Mich., was murdered early Friday by Mrs. Ernestine Berge, another patient, who crushed her skull with a granite iron vessel, while the atetndant was absent from the room.

All the Chinese shops in Shanghai refuse to sell American goods, including Standard oil. All schools and colleges in that section have decided to discard all American books.

The New York state insurance department ordered the Equitable Assurance society to pay the $565,000 Mercantile Trust loan.

A former registrar of deeds of Milwaukee county, Wis., convicted of stealing chairs from county offices, was fined $60 and costs, which he [illegible]

M. T. Hancock, the well-known millionaire plow inventor and manufacturer, died as the result of an automobile accident in Los Angeles, Cal., in which, also, his wife, son and daughter were seriously injured.

Georgetown, Ind., a town 12 miles west of New Albany, on the Southern railway, was almost washed away by a cloudburst.

Capt. H. Clay Evans, Jr., retired, died at his summer home on Walden's ridge, near Chattanooga, Tenn., aged 32 years. Capt. Evans served in the Philippines and was retired some time ago on account of poor health.

Norman Williams, who murdered Alma Nesbitt and her mother on March 9, 1900, was hanged at the Wasco county jail, The Dalles, Ore. He made no statement.

Jimmy Britt proved an easy winner over "Kid" Sullivan in 20 rounds of fighting in San Francisco.

Weekly trade reviews report an enlargement of business under favorable conditions.

A bomb was thrown at the sultan of Turkey in the court yard of a Constantinople mosque, killing several attendants, but missing the ruler.

The president and Secretary Root at Oyster Bay conferred over the note of China on the peace conference, which is believed to threaten the "open door."

Hereafter all crop reports made by the department of agriculture will be compiled by a statistical board, which will tabulate the figures on the day the report is to be sent out.

The government will invite proposals for furnishing 2,000 Italians, 2,000 Chinese and 2,000 Japanese to work on the construction of the Panama canal.

Charlie Johnson, 19 years old, of Marcusville, Ia., fell from the rods of an Iowa Central freight train and his head was severed from his body.

John Gales, sentenced to be hanged [illegible] release from Joliet penitentiary, where, he alleges, he has been held since on a death warrant.

Attorney General Mayer, of New York, is preparing to bring suit under the criminal code against the directors of the Equitable society.

Consul Dodge, at Caracas, Venezuela, is charged with assisting in settling a claim for a company in which he is interested.

Gov. Higgins has yielded to public [illegible] to the New York legislature, which promptly ordered a thorough investigation with a view to revision of the state laws.

The village of Manhattan, Ill., suffered a loss of $30,000 by fire.

Judge Noah W. Cheever, who has been prominent in the affairs of the national prohibition party, died suddenly at his home in Ann Arbor, Mich., from apoplexy. He was 65 years of age.

B. R. Gibson, a Chesapeake & Ohio fireman, was shot and killed by his 14-year-old stepdaughter, Carrie Dooley, whom he locked up in a room with him. She claims he made immoral proposals to her and seizing his gun shot him dead.

Harold Weekes, the one-time famous football player of Columbia college, paid $80,000 for a seat on the New York stock exchange.

The price of meat has risen in Germany from 20 to 25 per cent. during the last six months.

Benjamin Cook, a member of the Minnesota state public school board, shot and killed himself at Owatonna, Minn. No cause is known for the suicide. Mr. Cook was ex-mayor of Owatonna, ex-chairman of the state democratic central committee.

Seventy-five persons were killed and 312 prostrated by the heat in a day in New York city. The hot wave broke in Chicago and only 13 prostrations were reported during the day, but 15 persons died as result of prolonged heat.

The wave of intense heat which held the city of New York in its grasp for more than a week, causing nearly 200 deaths, several times that number of serious prostrations and untold sufferings to millions, has been broken.

Col. N. R. Nelson, formerly a member of the staff of Gov. Jeremiah Rusk, of Wisconsin, who ten days ago received a verdict of $6,500 in a suit against the Chicago & Northwestern Railroad company, died at La Crosse, Wis.

Neilson Brown, a well-known society man of Philadelphia, was found dead in bed at a hotel in Atlantic City. Apoplexy is thought to have caused death.

Daniel Kelley, accused of wife murder, was found guilty at Gann Valley, S. D. The jury recommended life imprisonment.

In the courthouse of Oshkosh, Wis., Col. John Hicks took the oath of office before Judge C. D. Cleveland as envoy extraordinary and minister plenipotentiary of the United States to Chili.

The will of John Hay, the late secretary of state, filed in Washington, leaves the bulk of his estate to the widow and the remainder to his brothers and sister.

Poorer peasants in Russian districts face a famine due to destruction of crops by hot winds.

Prince Potemkine, scion of a noted Russian house, left his native land to seek liberty in the United States and reached New York in the steerage.

Five human skeletons were found on an island near Hammond, Ind.

The $685,000 blind loan made by the Mercantile Trust company to Alexander and Jordan as Equitable trustees has been mysteriously made good.

The British government was beaten in the commons on a motion to reduce the Irish land commission, but the ministry, expecting a vote of confidence on another issue, will not resign.

The New York legislature, before which Justice Hooker of the supreme court has been on trial, has voted not to remove him from office.

The death rate of Chicago shows an increase of more than 20 per cent for the week as a result of the hot spell.

Fred McDonald, a young negro, was placed in jail at Lebanon, Mo., charged with the assassination of his father-in-law, Alfred Eldredge.

The Farmers' bank of Spring Valley, O., a private institution owned by George W. Smith, closed its doors and a receiver has been appointed. The assets are $16,000 with liabilities in excess.

The troop stable at Fort Washakie, Wyo., has been destroyed by fire. Fifty horses belonging to troop F, Tenth United States cavalry, were burned and also three mules and considerable saddlery.

Rear Admiral Francis J. Higginson, commandant of the Washington navy yard, has been placed on the retired list of the navy.

Five miners were literally torn to pieces by the explosion of 25 pounds of dynamite in a storage powder house at the West Riverside coal mine, two miles west of Des Moines, Ia.

Chairman Paul Morton, of the Equitable Life Assurance society, summarily removed as comptroller T. D. Jordan, and appointed in his stead William A. Day, assistant attorney general of the United States.

Gen. Oliver O. Ashton, of Boston, dropped dead in the Hotel Washington, in Seattle, Wash., from a stroke of apoplexy brought on by the heat.

George Brown, a well-known farmer living near New Martinsville, W. Va., shot and killed William Williams, 15 years old, because he found the lad in his blackberry patch.

The final interment of the remains of John Paul Jones may not take place this [illegible] to deposit the remains beneath the great Memorial chapel at Annapolis, which cannot be completed this year.

Francis Thomas de Grey Cowper, seventh Earl Cowper, who was lord lieutenant of Ireland from 1880 to 1882, is dead. There being no heir the earldom is now extinct. Earl Cowper was born in 1834.

Elihu Root, of New York, has been sworn in as secretary of state.

A murderer in the St. Paul prison condemned to death ended his life by strangling himself in his cell.

In Chicago Esther Hacken, angered by her aged father's interference in household affairs, threw carbolic acid in his face and destroyed his sight.

Railroad companies in Wisconsin evince a desire a comply strictly with the new rate law of that state.

United Mine Workers are declared to have spent $1,500,000 to keep alive the strike in the Tennessee Coal & Iron company's mines.

At Grantsville, W. Va., Louis Hendrick and Robert McCroskey pleaded guilty to first degree murder and were sentenced to the penitentiary for life. They were charged with the murder of Henry Blackshire.

Jealous over the supposed infatuation of her husband for her sister, a Williamsburg (N. Y.) woman kills her own child.

President Roosevelt will urge congress to decide on some plan for the federal supervision of life insurance companies. Leading lawyers already are endeavoring to work out a measure that would be constitutional.

The forty-sixth annual campmeeting of Methodists at Desplaines, Ill., opened with a meeting attended by over 2,000.

The Chinese empire is on the eve of sweeping reforms. Officials will go to all parts of the world to study questions of government.

Justice Brewer in a Milwaukee speech denounced graft as nation's peril.

Vice Governor Deutrich, of Finland, was badly wounded by a bomb, thrown by a terrorist as the official was leaving the senate at Helsingfors.

E. H. Funston, father of Gen Funston, was found guilty in a Kansas police court for disturbing the peace.

Daniel Maloney, who had made numerous successful ascensions with Prof. Montgomery's aeroplane, fell 3,000 feet to his death at Santa Clara, Cal.

Seven lives were lost in a disastrous fire, which destroyed the Hoffman house at Wabasha, Minn.

Gen. Francis E. Pinto, who was the only surviving commissioned officer of the First regiment, New York volunteers, which served with distinction in the Mexican war, died at his home in Brooklyn. He was 83 years old.

The yearly outing of George A. Hulse and his family of eight had a tragic ending at Southampton, L. I., when Hulse and his 11-year-old son lost their lives by drowning while Mrs. Hulse and the six little ones looked on, helpless to render aid.

WIND CAUSES DEATH AND HAVOC.

STORM IN RACINE COUNTY WISCONSIN CAUSES DEATH OF TWO PERSONS.

Disaster Occurs Near Tomkinsville and Union Grove. Trees Uprooted, Fences Blown Away, Barns Destroyed.

Racine, Wis., July 24.—With a roar that was heard five miles, a cyclone struck the northern rim of Racine county yesterday, killing two men and damaging property and crops to the extent of $100,000.

The cyclone came from the southwest, and at its first dip struck the large barn of Adolph Meisner, which was torn to pieces, the debris, with grain and farm machinery, being scattered 200 feet. Trees were uprooted and fences were blown away, the damage on this farm alone amounting to $5,000.

In every quarter grain is ruined, but no other buildings were destroyed. For miles trees can be seen uprooted fences torn down.

At a farm in Thompsonville a workman, whose name was not known, was struck and killed.

Near Union Grove a Hunter, an old farmer, was picked up by the storm and his neck was broken.

At the Haumerson brickyard lightning struck a shed and six men were stunned.

Two barns were struck and their [illegible] were wrecked.

At least a dozen cattle were killed, and the telephone wires in the district were blown down.

Lost in Death Valley.

Goldfield, Nev., July 23.—A story of awful suffering on the burning sands of Death valley, ending in two deaths from thirst and exhaustion and the wrecking of a mind, is brought here.

The latest victims of the treacherous waste on which so many have given up their lives in the quest for gold were Earl Weller and E. M. Titus, formerly of Telluride, Colo., members of a party [illegible] with John Mullen, started from Rhyolite June 20 on a trip to the Funeral mountains.

Mullen was taken into Rhyolite Sunday, by an Indian. The prospector was in a pitiable condition, his mind deranged and his health completely shattered by the ordeal through which he had passed.

To See the Eclipse.

Valencia, Spain, July 23—The United States cruiser Minneapolis, having on board Rear Admiral Colbyn Chester, superintendent of the United States naval observatory, and the other members of the American expedition which will observe the eclipse of the sun here on Aug. 29, arrived at Villanueva bel Grao, from Gibralter. The cruiser replied to salutes of the land batteries and the American officers exchanged visits with local authorities.

Col. Lamont is Dead.

Poughkeepsie, N. Y., July 24.—Col. Daniel Scott Lamont, secretary of war during the second administration of President Cleveland, died suddenly at his home at Milbrook, Duchess county last night at 9;15 o'clock.

Heart failure was the cause of his death.

Mr. Lamont was vice president of the Northern Pacific railroad and director and truetee in many railroad and financial corporations.

Middle-of-Road Populist Dies.

Austin, Texas, July 24.—Marion Williams, the widely known middle-of-the-road populist, died here Saturday, in the insane asylum, where he had been confined for several years.

He was the man who, in the exciting political days in Texas, some ten years ago, led the populists to fusion with the republicans.

Mormons Go To Canada.

Bute, Mont., July 23.—A trainload Mormons will arrive in Butte, Aug. 15 en route to Alberta, Can., where they will establish a colony. According to advices received here seven more trainloads of Mormons will follow as part of the big settlement proposed. About 50,000 acres of land, it is stated, has been procured through the head of the Mormon church for the colony.

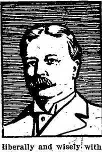
Ravages of Wolves.

Long Prairie, Minn., July 22.—Farmers living in the township of Leslie are making complaints of the ravages of wolves among their sheep. One night recently Frank Moore lost thirty-five sheep in this way.

Oil Fields Aflame.

Humble, Texas, July 24.—Lightning yesterday ignited a tank belonging to the Texas Oil company. The fire was held under control all the afternoon, but began to spread at night, and twelve tanks belonging to the company were doomed.

WILLIAM H. TAFT A BIG MAN



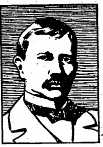
This adjective was the one considered most fitting when the death of lamented John Hay brought before the public probable men for the post of secretary of state; it was agreed that the president would have to look out for a "big" man.

Since Mr. Taft became secretary of war (1903), he has discharged not only the duties of his office, but has had close association with affairs belonging to the state department, among which mention may be made of insular matters and the Panama canal. If decision of character is a salient part of Secretary Taft's "bigness," his handling of ex-Chief Engineer Wallace adds to his reputation to no inconsiderable degree.

Mr. Taft was selected for the war portfolio because of his knowledge of Philippine matters. From 1901 to 1903 he served as civil governor of the Philippines, and proved the man for the place, dealing liberally and wisely with the natives and at the same time protecting the interests of the United States.

Mr. Taft was born in Ohio, is now not quite 50 years old. His father is recorded as "jurist, cabinet officer and diplomat" and the son has followed fast in the parent's footsteps. Mr. Taft from 1887-90 was judge of the superior court of Ohio, solicitor general of the United States 1892-1900. He has been a cabinet officer, as we mentioned, since 1903. That he has good right to the name of diplomat should pass without question; it is attested by his skill in dealing with the Filipinos; his conduct of isthmian difficulties; his direction of affairs of state during the absence of Secretary Hay. He is a man of mark, looked upon as a very possible presidential candidate at the next quadrennial election. Those who doubt the presidential bee in his bonnet, affirm his goal is the high seat of chief justice, assert he gave up his very lucrative practice that he might some day arrive at this honor. But he once sacrificed preferment leading thereto that he might help in the satisfactory solution of the Philippine problem.

THE NEW SECRETARY OF STATE



President Roosevelt once said Elihu Root was the ablest man in the service of the nation.

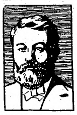
After Mr. Root's retirement from public life, a couple of years ago, his name was repeatedly suggested for this high office, then for that higher office. And now he gives up a wonderfully fine practice—said to have brought him this year over $200,000—for a cabinet position with its modest salary of $8,000. Some report his ambition to be president leads him to make the sacrifice, others call his motive noble patriotism, and still others consider it the personal friendship for Mr. Roosevelt that influences him.

He will find his new duties pressing. We quote from an editorial in the Chicago Record-Herald: "The department of state, in view of the delicate and intricate questions with which it is called upon to deal (Russo-Japanese peace conditions, the future of China and of the open door, Morocco, San Domingo, Venezuela and South America generally), will have full need of the breadth, the energy, the grasp, the skill and the discretion which we have learned to expect from Elihu Root."

Mr. Root is a famous corporation lawyer. He has been counsel for the sugar trust, for New York street railways, and for various railroads. It is said his name has appeared in nearly every celebrated legal case in the business and political world of New York since he left the war department.

Mr. Root served as secretary of war from 1899 to 1903, in which office he was distinguished for administrative ability, and progressiveness; he planned the new war college; modifications in the rules of promotion, wherein seniority should cease to be the whole claim; and another reform brought about by his efforts was the institution of the general staff. His career as secretary of state is looked forward to with interest.

PRESIDENT EDUCATIONAL ASSOCIATION



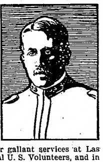
The new president of the National Educational association is an educator, clergyman, author and journalist. Prof. Nathan C. Schaeffer is an eastern man; he was born in Pennsylvania, received his early education at a college in Lancaster, that state, and later studied divinity at the theological seminary of the German Reformed church. He continued his studies in Germany, took post-graduate courses at the universities of Berlin, Leipsic and Tuebingen.

Personal experience as a teacher was gained at the Franklin and Marshall college in Lancaster, at which institution he was once a student, and in 1877 he was made principal of the Keystone state normal school. For the last 12 years he has served as state superintendent of public instruction. Prof. Schaeffer has been especially prominent in eastern educational circles. He has held office in various educational associations, and as editor of two educational publications has taken active part in broad educational matters.

Not infrequently the battle for the presidency of the National Educational association is a big one, and this year it has raged hotly. Dr. Schaeffer represents the "independents," who are arrayed against the so-called machine that has been such a power in the association. His election makes for the divided victory of the independents.

It was back in 1857 that the National Teachers association was organized. it was incorporated under its present name in 1886. The early association did not grow rapidly, but in 1870 it combined with the American Normal association and the National Superintendents' association and its work began to be specialized. The reports of annual meetings show that the various departments of the present (17 there are now, I believe) are doing much for the advancement of teaching as a profession. The active membership is over 10,000, but the annual meetings are attended by both associate and active members, many thousands of teachers gather from all parts of the country.

THE GALLANT SURGEON-SOLDIER



Maj. Gen. Leonard Wood is back again in the states, come from labors in the Philippines on the unpleasant mission of consulting a physician about his health. Which reminds us that the major general is a physician himself, served as a surgeon in the army ere he made a name as a soldier in active service.

In 1884 he graduated at the Harvard medical school and the ensuing year he became a contract surgeon in the regular army. The next year he served in the campaign against famous old Geronimo, was medical and line officer in the expedition, and for his gallantry in this campaign received a medal of honor.

When the Spanish-American war called for men of soldier ability, Leonard Wood and Theodore Roosevelt organized the First U. S. Volunteer Cavalry, the famous regiment of "Rough Riders," with Wood colonel and Roosevelt lieutenant colonel. For gallant services at Las Guasimas and San Juan he was made brigadier general U. S. Volunteers, and in 1901 he was commissioned brigadier general in the U. S. army.

When Santiago surrendered (1898), he first held command of the city and then the district of Santiago. He succeeded Gen. Brooke as governor general of the island of Cuba, and proved very successful in his administration of affairs.

In 1903 he was placed in command of a division of the army in the Philippines, and the same year is the date of his appointment to the rank of major general in the regular army. Maj. Gen. Wood is still quite a young man, is only 45 years old.

The Law of Sale.

A specialist who has made a study of the mental attitude of the consumer toward the advertiser formulates what he calls the "law of sale" as follows: "Attention, properly sustained, changes to interest; interest, properly augmented, changes to desire, and desire, properly intensified, changes to resolve to buy." Often the reader passes through all these mental changes, remarks the Philadelphia Record, in the perusal of a single advertisement; sometimes the cumulative power of a series of "ads." is necessary to bring him to the final attitude. In either case the best means of attracting attention, arousing interest and intensifying desire is the first-class daily newspaper, which covers the field no other medium can reach.

Three Wishes.

"You have served your country nobly," said the mikado. "Anything you may ask will be granted."

"I have but three requests," answered the Japanese naval hero; "don't erect a triumphal arch, don't present me with a house, and don't let the girls kiss me."—Washington Star.

DEFECTIVE PAGE

THE SUNBEAM.

BY W. G. HUNT.

Published every Friday, at Sunbeam, Red Lake County Minnesota.

Subscription $1.00 per year.

Tickets of admission to the Gottschalk exicution are selling at reduced rates in St.Paul at preasent.

The settler who fails to make his second payment within sixty days after it is due, can have the satisfaction of saying, that he used to have a farm on the newly opened 11 townships on the Red Lake reservation.

Red Lake Falls Gazette: The assesment books at Thief River Falls show only one hog listed in that city. It is a problem what Assessor Sweaas ment by this; and no one knows whether he just ment to enumerate himself, or bunched the whole population and called it one. Explanations are in order.

The Agricultural Assotiation, of Red Lake County, are out with their premium list for their fourth annual fair to be held at Thief River Falls August 9th, 10th, and 11th. This will be a good opprotunity for the fermers to exhibit their farm produce, if the premiums are not large, as it will be some saitsfaction to let other people know what large potatoes you grow.

We don't know who is the hot air railroad builder of this locality, that is having the Soo rail road being built from Thief River Falls to Duluth, sometimes on the north, but more often on the south side of Red Lake River, but we are of the opinion that he is the twin brother of the man that circulated the report, that Knute Nelson had got an extension of time for the settlers on this reservation to make their payments on their land.

CITY LOCAL NEWS.

The editors of the city dailys take great delight in copying an article from their country exchanges that is printed by the country paper, and is of local interest only. They do this to make the country editor appear ridiculous to their city readers, but we wonder if they ever stop to consider how very ridiculous some of their writings appear to the farmer who subscribes for the city daily to get the latest news. There was a game of base ball played at Minneapolis the other day and if a farmer attempted to read about it here is the way it reads.

"While the Minnetonka craft were being beaten at White Bear lake, Wednesday afternoon, Commodore Watkins and his fleet found the going to rough in the ragatta with skipper Clingman and his Toledo crew at Nicollet bay. The The Toledo crew sailed around the circuit nine times, while Watkins was piloting the Miller boat over the same distance but four times.

Gene Ford was at the helm for the home cutter, while Win Kellum had charge of the Grillo single-decker. Ford did fairly well, but the miserable work of the deck hands behind him was discourigeing.

The race was even when the first turn was completed. At the second buoy Watkins' wathoosiers were leading by a short margin. This continued until the fourth round, when the invading crew let out their sails and passed Watty and his flat bottom scow."

Now we are of the opinion, that this string of alang is more ridiculous to an intelligent farmer than a countery editors write up of a farmers picnic could look to city people, who had never visited such a place.

A FROLIC IN MEXICO

BREAKING THE PINATA DURING THE CHRISTMAS FESTIVAL.

This Mirth Provoking Pastime Is the Great Social and Fun Making Feature of the Season—Dressing and Filling the Olla.

Christmas in Mexico is not the typical Christmas of cold and snow and ice, but one of bright, warm sunshine, cloudless blue skies, flowers in profusion, trees in full foliage and a life of out of doors.

At least a week before Christmas in the principal streets of Mexico arches are erected from sidewalk to sidewalk, festooned with wreaths of flowers and bunting, in the national colors—red, white and green. Under the arches booths are erected, and every toy manufactured in Mexico is on sale.

In every Mexican house great preparations are made for what is called the "pinata." Every child begs and scrapes and saves the centavos for weeks and months ahead. All kinds of articles are made especially for this ceremony, and every family vies with its friends and neighbors to have its pinata more beautiful and fanciful than any one else's.

The pinata is really an earthenware utensil which is in general use for cooking. It is called in common parlance an olla and is of brown pottery something like the old fashioned earthenware crocks used in the north before enamel ware became the fad.

The pinatas are large or small, as the purse of the purchaser permits. They are round, pot bellied and very large at the top. They are sold from door to door on the streets and in the markets. They cost only 10, 15 or 20 centavos, but the olla is the least expensive part of the game.

The body of the olla for a woman is covered with tissue paper; then a crinkled paper dress is fashioned; then a bodice is built up draped to represent a loose white waist, and above this is placed a false face. The hair is made with black paper, braided into one long plait at the back, as the women wear their hair in Mexico. Sometimes a white tehuana headdress is made of the lace paper used by bakers and confectioners.

A flower pinata is decorated with large paper flowers in every color of the rainbow. Red, white and green ribbons, forming long streamers, and silver and gold tinsel, glass balls and colored lights all help to make the flower pinata very beautiful. The possibilities for dressing these pinatas are endless. In a large family the mother and daughters have their own pinatas, and great secrecy is maintained in the decoration of the olla. It is the aim of each to devise as original a dressing for the pinata as possible, and it can be made a very extravagant ornament. In the families of wealthy Mexicans the luxury of the pinata often mounts into thousands.

After the olla is decorated to the taste it is filled. The filling consists of peanuts, hazel nuts, hard candies, like marbles, and all kinds of Mexican dulces. These dulces are candied fruits, nut paste, etc.

Christmas night the pinatas are carried in great state into the sala and suspended from the ceiling one at a time. All the relatives of the family are present, and as cousins of the fifth and sixth degree are recognized and children are very numerous there is generally a large gathering. They all sit very demurely on chairs ranged in a row around the walls of the room.

One person is constituted master of ceremonies, the eldest son or daughter of the house. He or she stands in the middle of the room. Near by is a jar or umbrella stand filled with aplsaco canes or sticks. When everything is ready a child or grown person is selected and called by name. She comes forward and is blindfolded.

Then the fun begins. The person blindfolded is turned round and round until she loses all knowledge of where the pinata hangs. A cane is put in her hands, and she is told to hit the pinata and try to break it. She is given three chances. If she fails to hit it she sits down amid laughter and ridicule. If she hits it without breaking it she is entitled to a small prize.

And so it goes on, one after another being called up, blindfolded and given a cane and three chances to break the pinata. Finally one more fortunate than the rest succeeds in giving a hard enough blow, and, crash, the pinata falls to the grounds in hundreds of bits and its contents are scattered far and wide.

A wild scramble ensues. Everybody rushes forward to gather as much of the spilled contents as possible.

The fortunate breaker of the pinata gets a handsome prize and is awarded the seat of honor. He or she sits down and is debarred from another trial at breaking another pinata. As soon as the confusion dies down and order is somewhat restored another olla is hung up and the same routine gone through. So the fun continues until the last pinata is broken, and then the prizes are awarded.

The pinata party is the great social and fun making feature of the Christmas season. After the pinatas have been broken and a supper has been served there follows dancing, or a traveling company of Indians from the mountains is brought in to sing and dance in native costume.

These traveling Indians are somewhat like the singing bands which go around at Christmas time from house to house in England, Germany, France and Italy. [illegible] [illegible] the Christmas holiday [illegible] City Star.

Led All the Guests.

In the days of King George III. of England the Persian ambassador to his court demanded, but was denied, precedence over all other foreign representatives. He refused to go to court, causing it to be reported abroad that he was ill. He met the prince regent at the house of the Lady Salisbury of the time. "I am very sorry to offend your royal highness by not going to court," he said. "Now, sir, my sovereign, he tell me I go first; your people say I must go last. Now, this very bad for me when I go back to Persia." So saying, he made a significant pass toward his head, expressing decapitation. The prince tried to appease him. "But, sir, you still angry with me. You have not invited me to your party tomorrow night." The prince explained that it was only a children's party, but the ambassador might come if he chose. He did choose, for he went and, being the only ambassador there, led all the guests, thus scoring heavily for Persia, which made him comfortable about the neck again.

Restoring Faded Ink.

Faded ink on old documents, papers, parchments, etc., may be restored so as to render the writing perfectly legible. The process consists in moistening the paper with water and then has been wetted with a solution of sulphide of ammonia. The writing will immediately appear quite dark in color, and this color in the case of parchment will be preserved. On paper, however, the color will gradually fade again, but on a fresh application of the sulphide of ammonia it will reappear. Writing executed in ordinary ink which has been rendered illegible by age may be restored by carefully moistening it with an infusion of galls or a solution of ferrocyanide of potassium slightly acidulated with hydrochloric acid. Care must be taken to apply the liquid so as to prevent the ink from spreading.

Sandy's Initiation.

A Scottish gillie was invited by the laird to take a pull at his flask after gaffing the first fish of the day.

"I canna trink oot a bottle," protested the gillie, with a frown of disapproval.

"Aweel, try, Sandy," said the laird encouragingly. And Sandy tried—tried so thoroughly that the laird gazed in mingled awe and admiration as the whisky gurgled and gurgled out of the flesk down the swarthy throat until, with scarce a heel tap left in it, the "pocket pistol" was handed back to the owner.

"Hoot, Sandy, maybe ye were richt; maybe ye canna trink oot of a bottle," gasped the laird, with a mighty sigh, "but, eh, mon, ye'd soon learn!"—Bally's Magazine.

Benefits of Proper Breathing.

The habit of slow, measured, deep breathing that covers the entire lung surface is of more value and importance than you will ever believe until you have tried it, and when you have established the habit of breathing in this manner you will say some remarkable things in its favor. It will reach all points of your physical system. All the benefits that occur from a healthy condition of the blood will in a greater or less degree be yours, for the manner and completeness with which the inspired air comes in contact with the blood in the lungs are of the utmost importance to every vital process.—Christian Work and Evangelist.

Hissing in the Theater.

Formerly there was no hissing in the theater. The beneficent audience were content to yawn and fall asleep. The invention of hissing is no older than 1680 and took place at the first representation of "Aspar," a tragedy of Fontenelle, so we are told by the poet Roi in his "Brevet de la Calotte." A farce was produced by [illegible] under the title of "Fire and Water." "I predict its fate," said [illegible]. "What fate?" whispered the anxious author at his side. "What fate?" said [illegible]. "Why, what can fire and water produce but a hiss?"

You will never get on the sunny side by waiting for the world to turn round.—Atlanta Constitution.

Wanted by Chicago manufacturing house, person of trustwortiness and somewhat familiar with local territory as assistant in a branch office. Salary $18 paid weekly. Permanent position. No investment required. Business established. Previous experience not essential to engaging. Address Manager Branches, 323 Dearborn St. Chicago, Ill.

A Caustic Tongue.

Years ago a prominent citizen of Chicago, who at that time was president of one of its leading clubs, in introducing another prominent citizen as a speaker at a club banquet dwelt in highly complimentary terms on the latter's efforts to bring about political reforms. "Gentlemen," he said, "no one in this city exerts a more powerful influence for good than does Mr. Blank when he is sober." Then in great confusion and amid an awed silence he hastened to explain that Mr. Blank exerted, as he had intended to say, a powerful influence when he was in earnest.

At the banquet given at the opening of the present Board of Trade building the elder Carter Harrison made a flamboyant speech congratulating himself on having been born in the same year that the steam locomotive was invented. He was followed by the late Emery Storrs, who said that, most appropriately, Carter Harrison and the locomotive were born in the same year since both of them had been blowing off steam ever since.

It was Emery Storrs who said that a fellow lawyer reminded him of a beautiful house with massive portals and impressive cornices, which, when you opened the front door, landed you immediately in the back yard.

Gilding Without Gold.

One more proof that all is not gold that glitters is found in the fact that much of the gold lettering seen on signs, and also much of the gilding of picture frames, has no gold whatever about it. Among laymen the opinion prevails that all such decoration requires the actual use of gold leaf, but the reality is different, and a substitute that defies detection has been widely used for some time. The exact effect of gold is secured by using a leaf of either silver or aluminum under yellow paint. The metal backing gives the required luster, and the paint gives the required color. This method cannot be used in all cases, because the paint is of peculiar quality and requires putting on with an even thickness. For this reason it is generally applicable only to flat surfaces. Parts of a gilded picture frame which are molded into waving surfaces generally [illegible]

NEW STORE.

I wish to call your attention to the fact, that I have a choice and well selected stock of groceries, which I am selling at reasonable prices. New settlers, who are in need of groceries can be supplied, at THE KUEHNEL POST OFFICE AND STORE, and save going long distance's to tthe city.

MISS A. KUEHNEL, PROP., and postmaster; Sec. 20 T. 153 R. 40.

Make Your Applications TO Make Final Proof On Your Homesteads At This Office.

We have had a number of years active experience in making applications and publishing final proof's, which you can get the benefit of by doing business with us.

LEGAL PAPERS Drawn At This Office, By W.G.Hunt Notary Pnblic.

Sweets to the Sweet.

Visitor—I've brought you a few chocolates. But I suppose you always have quantities of sweets?

Ethel—No; I don't. I eat 'em all.

The Newriches.

Mrs. Newrich—You look pretty well, Henry, but somehow you never seem to quite have the appearance of a real man of fashion.

Too Inquisitive.

Blobs—Are you going to get a new suit this season? Slobs—No, my tailor says he can't afford it.—Cincinnati Tribune.

Love's Reason.

He—You passed me without speaking to me.

She—Oh, I must have been thinking about you.

Plant a Tree.

When eating a good pear or apple save the seeds and plant them either in a flower pot, where they will germinate before long, or else directly in the garden, when they will come up next spring. To prevent their loss the place must be covered as a mark. It takes a number of years before they bear fruit, but to see the progress of growth from year to year is always interesting. People often think it is not worth while for them to plant trees. They will not live to have fruit of them and so neglect it entirely. But some one will enjoy the harvest. It is just the individual egotism which causes so much unhappiness and affects all classes of society in many ways.—Hartford Times.

Great Heads and Little Wit.

Great men are usually said to have great memories, but it does not follow that all who have great memories are great men. I remember an idiot in Ohio who was a great curiosity many years ago. He knew the whole Bible by heart from beginning to end, and if any verse was read or repeated to him he could tell exactly in what book and chapter it was to be found and its verse number in the chapter. He was considered a great marvel in this particular, but in every other he was a mental imbecile and could not be trusted even to feed himself.—St. Louis Globe-Democrat.

For a Shave de Luxe.

"Let me give you a tip for which I think you will be grateful," said a local barber in one of the downtown shops the other day. "Always maintain a pleasant feeling and a slight smile if possible when in a barber's chair for the purpose of being shaved. When the face is in a smile and the muscles are relaxed, it is very much easier for the barber to run over it with a razor. This is especially applicable to persons who have a tough and wiry beard."—Washington Star.

A Sure Trick.

A Huntsville man has a book on the cover of which is a picture of a man drowning. Whenever his wife begins to lecture him he gets out the book and holds it in front of her. [illegible]

* * * * * * *

LOCAL PARAGRAPHS.

Do your Notary Public business at the SUNBEAM office.

Applications to make final proof written free at this office.

We want about two hundred more cash subscribers at once.

Ye editor has been looking after haying operations this week instead of local news.

Mr. and Mrs. A. Lee, of Thief River Falls are visiting Mr. and Mrs E.T. Emmerson, this week.

We had an other of them big rains yesterday, which has again fetched our annual flood up to high water mark.

There will be a grand harvest ball at the Singer hall at Rhoda, on Saturday evening August 2. Good music and plenty of room for danceing.

Jessie LeBree, of Thief River Falls, will undoubtly hitch his team the next time he stops at Kuehnel post office for lunch, as it is not pleasent to catch runaway teams.

Dan Sullivan and family come home from StHilaire on monday. They shipped their household goods and farm machinery from Thief River Falls on the gasolien boat "Dan Patch".

Our hard cash collections have been the big sum of $1, for the past week. If any one thinks we are doing to much business out here and that it should be devided up they should make haste to locate up this way

This Township (High Landing), hold their first election on Saturday, at High Landing post office. We don't know whether there will be enough men for officers, or not enough offices for all who may want one.

There was a social dance at the residence of George Singer on saturday evening last, which was enjoyed by a number of the new settlers, The best of music was furnished for the occasion by the Lillo string band and an excellent lunch was served at 12 o'clock by Mr. and Mrs. Singer.

If you are expecting to make a loan to meet your second payment on your land you should make your application to make final proof when your payments are due, so as to get your six weeks publication before the 60 days extra time given you by the government, in which to make your payment are out.

Advice About Eggs.

A writer in the Delineator gives some sensible advice about eggs. There is a general impression that eggs, acknowledged to be a complete food, may be safely eaten on all occasions. On the contrary, as the writer alluded to points out, invalids and young children should never be given eggs unless they are very fresh. Persons suffering from biliousness, gastritis and several other troubles find difficulty in digesting even fresh eggs. Some physicians declare that the slightest tendency toward rheumatism makes eggs undesirable. The white of eggs whipped to a froth with a little water is a good thing to give fever patients, as a rule, but the physician should be consulted before even this is given to a sick person.

Elevated Rivers.

The most elevated river in the world is the Desaguadero, in Bolivia. It is of a considerable depth, and its whole length, from the village Desaguadero, at the south extremity of Titicaca, to the north end of the lake Aullagas, is about 180 miles. The average elevation of the valley or tableland of Desaguadero above the level of the sea is about 13,000 feet. The river whose source lies highest is the Indus, which rises on the north of the Kailas Parbat mountain, in Tibet, 22,000 feet above sea level.

His Sad Loss.

"Darn the luck! I lost a peach of an umbrella today."

"Yes, people don't seem to have any conscience about swiping umbrellas. How did you lose it?"

"Well, it was standing against the wall in the restaurant. I kept my eye on it"—

"You bet you have to! Well?"

"And just as I was getting up the fellow that owned it came along and took it!"—Cleveland Leader.

Chickens.

"Does he think there is any money in raising chickens?"

"Yes; he says for every grain they give a peck."—Yale Record.

LAND OFFICE BUSINESS.

U.S. Commissioner L. G. Browning with office located at Thief River Falls, is prepared to take homestead entries final proof etc., within the Crookston U. S. Land District.

Office in News building, three doors south of the post office.

TAKE NOTICE.

While we have a Post Office established at this place there has not been an order issued by the department for the delivery or mail here, but all mail for this place should be adressed to Rhoda post office.

Muscles in Tension.

The Revue Scientifique has been asking what muscles tire soonest, with the conclusion that it is not the muscles in use, but those under tension, although doing no work. The writer urges us to use the arms and legs less and the back and neck more; for on them comes the greatest strain. He has been asking men of all occupations the same questions:

When you have worked much, where do you feel tired?

Before you were trained did fatigue show itself in the same regions?

All the answers point to the same conclusions. The baker who kneads dough all night complains of fatigue in his legs.

The blacksmith is tired, not in his arms and shoulders, but in his back and loins.

The young soldier, after a march, is especially tired in the back of the neck, even if he has carried no knapsack.

The oarsman who is in perfect training after prolonged exercise gets tired in his calves and insteps.

These facts point to the conclusion that in any continued effort we should try to alter the habit of contraction. That is to say, the body, like the mind, needs change of work.

A Nightmareless Rarebit.

A bachelor whose skill at getting up dainty supper dishes assures him plenty of company in the evenings is responsible for a substitute for the Welsh rabbit that is free from nightmare. He covers lightly toasted bread with finely grated cheese and instead of slipping it in the oven places it beneath the flame of the gas broiler until the cheese has been toasted a light brown.

If a good cream cheese is used there is not the slightest suggestion of sogginess or greasiness, and even those to whom a rabbit means a night of troubled dreams may indulge in this with no fear of evil consequences.

The trick lies in the grating of the cheese. Broken into bits, it would melt into a pasty mass. Finely divided, each particle should be individually toasted before it has a chance to melt down, and in that state it is readily assimilated.—New York Press.

The Choice of a Wife.

A German professor selects a woman who can merely stew prunes not because stewing prunes and reading Proclus make a delightful harmony, but because he wants his prunes stewed for him and chooses to read Proclus by himself. A fullness of sympathy, a sharing of life one with another, is scarcely ever looked for except in a narrow, conventional sense. Men like to come home and find a blazing fire and a smiling face and an hour of relaxation. Their serious thoughts and earnest aims in life they keep on one side. And this is the carrying out of love and marriage almost everywhere in the world, and this the degrading of women by both.—From One of Mrs. Browning's Letters, 1846.

The Value of New Ideas.

The recognition of the value of a new idea in regard to a business point is leading employers to encourage criticisms and suggestions from employees in respect to the details of the business, thus utilizing their microscopic view, rather than depending solely on the birdseye view which is taken by the manager. A friendly feeling results from this attitude, and the employee takes a deeper interest in his work, developing his own capacity and helping the business. To see his idea carried out by his superiors puts new life into him and adds new enthusiasm to his efforts.—Success.

The Wedding Ring Finger.

The wedding ring was placed on the left hand as nearest the heart and on the fourth finger because that finger was supposed to have its own "private wire" (in the shape of a delicate nerve) to the heart. That finger, too, was called the medicine finger, and the belief was that by virtue of the little nerve it could detect a dangerous poison if simply inserted in the liquid. From that belief the idea that wedding rings—the rings worn on that finger—had special curative qualities had its rise. To this day wedding rings are rubbed over an obstinate sty on an eyelid.

The Chance He Lost.

"Why are you so sad, Alice?" her mother asked.

"I've decided not to keep company with Mr. Jonesby any more."

"Dear me! Have you heard anything about him?"

"No. But last night when I said I wished that I was a man he merely asked me why, instead of getting excited and saying that life would be hateful to him if I had not been born a girl."—Chicago Record-Herald.

ANIMALS' WANDERINGS.

Country Mouse and Town Mouse Fable Has Foundation In Fact.

The fable of the country mouse and the town mouse has a foundation in fact. Mice occasionally migrate in large numbers when food grows scarce and travel considerable distances to fresh houses. Farmers in a part of Perthshire had a good reason to become aware of this fact when a couple of years ago vast swarms of mice invaded their cornfields at harvest time.

But the mouse only travels when it has to. The rat, on the contrary, seems to take a yearly outing, in very much the same fashion as do human beings. Rats are the most migratory creatures in the world. Troops of rats leave the towns at the end of summer and spend a month or two in the country, apparently in order to enjoy the change of food which the country affords at that time of the year in the way of fresh fruit and grain. Before the cold weather sets in they are all back again in their old quarters.

Reindeer migrate with the same regularity as swallows. They move south when winter sets in, but as soon as ever the snow begins to melt they travel steadily north, sometimes for as much as a thousand miles.

To end a holiday by deliberate suicide is so strange a phenomenon that for a long time naturalists looked upon the stories of the migration of the lemmings as an improbable fiction. Yet the facts are beyond dispute. At irregular intervals these ratlike creatures start out from their homes in the fastnesses of northern Scandinavia in huge droves numbering tens of thousands and travel steadily southward. Death pursues them in a hundred forms. Hawks and other birds of prey hover above them. Thousands are drowned in rivers. Yet the rest struggle on until they reach the sea. They do not stop. They plunge in, swim out and struggle on until at last their strength fails and they drown. Not one ever returns from this journey of death.—London Answers.

COTTON IN A FABRIC.

How to Tell if Worsted or Woolen Cloths Are Adulterated.

Worsted cloths are less often adulterated than woolens and are more easily detected. A cotton worsted is a lie on the face of it, for the cotton stands out with prominence. But often a cotton thread is twisted with a worsted thread, and to determine its presence it is only necessary to take the twist out of the thread and then examine its component parts.

Cotton, having a long staple, can be carded and combed with wool to be spun into worsted yarn. This is done to cheapen the cost of production. Cotton is carded and spun with wool and shoddy, not so much to cheapen the yarn, for cotton is generally as expensive as much shoddy, but is introduced to give strength or spinning qualities to the stock. In many cases the shoddy is of such short staple that it would not stand the drawing in spinning, and, as it would make the cost of the yarn too high to put in enough wool to give that lacking strength, cotton is put in for this purpose.

The percentage of cotton in a fabric can be determined in this manner: Take a small piece of cloth and weigh it. Now boil it for five minutes in a 5 per cent solution of caustic soda. Take out what is left, and, if any, it is all cotton. The wool will all be dissolved. The percentage of shoddy cannot be determined except by experience.

A cloth or yarn with shoddy in it is easily detected by its feel. Cloth made of all new wool is softer feeling than one containing shoddy, for the latter has lost that new, soft, springy feel peculiar to wool.—American Wool and Cotton Reporter.

Success Prolongs Life.

It is now well known that increased complexity of life with increased expenditure distinctly aids longevity. Luxury, "the fertile parent of a whole family of diseases," modifies it greatly, of course, but this is a manageable factor, says the London Chronicle. We have only to recall personal experience to realize the force of intellectual stimulation. The interest of sport will sustain men without fatigue for distances they otherwise could not traverse. The excitement of strife will often mask the presence of wounds. Self forgetfulness in all the walks of life, under the stress of love, chivalry or accepted duty, doubles human endurance. Success gives new vitality, new powers, and this is another name for new life.

No Notion of Real Trouble.

"I bet I get into more trouble than any man in this state," volunteered the young fellow who had come in the clubhouse. "Nothing in the trouble line overlooks me. Why, I'd be afraid to marry"—

"What! Ain't you married?" ejaculated the red nosed elderly party who was hovering over the gratis lunch. "Boy, you don't know what trouble is."—Louisville Courier-Journal.

Charity.

She—I'm glad we went. It was an excellent performance—and for such a charitable purpose. Her Husband—Yes, indeed! We all feel a thrill of satisfaction when we do something for charity and get the worth of our money at the same time.—London Tit-Bits.

Intended.

Bills—You made a funny break in congratulating the bride's father instead of the groom. Wills—No, I didn't. I've a daughter, too, and I know what they cost.—Chicago Journal.

Just as you are pleased at finding faults you are displeased at finding perfections.—Lavater.

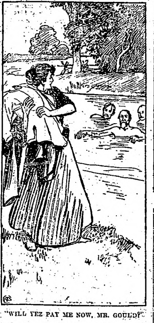
CONDENSED STORIES.

How an Irishwoman Beat Jay Gould in a Financial Bout.

While Jay Gould was superintending the building of the old Rutland and Washington railroad, between Rutland, Vt., and Eagle Bridge, N. Y., in the late summer of 1852, it became necessary to cross a large farm in the town of Castleton belonging to Mrs. Ann Dineen, so a strip of her property was obtained.



"WILL YEZ PAY ME NOW, MR. GOULD?"

A fine patch of watermelons on the place was too strong a temptation for the hundred or more men in the construction gang, and in a day or two the patch was melonless.

Mrs. Dineen complained to Gould, but he disclaimed any responsibility for the acts of the workmen and refused to recompense her for her loss.

A day of two later Mr. Gould and one or two of his engineers were obtaining relief from the effects of the hot weather by taking a swim in the Castleton river when suddenly Mrs. Dineen appeared on the bank. Gathering up all the clothes of the bathers, the woman made a motion as though to throw them into the water and shouted, "Will yez pay me for thim watermillions now, Mr. Gould?"

The promoter's trousers contained a timepiece worth a large sum and other valuables, which immersion would not have benefited, so he agreed to settle for the stolen fruit if she would go to his office the next day. The promise was satisfactory, and Mrs. Dineen retreated in triumph.—New York Herald.

Sweeping.

"I was just telling my daughter," said Mrs. Nexdore, "that it's a shame of her to play the piano on Sunday."

"Huh!" exclaimed Mrs. Peppery. "Why Sunday especially?"

FROM A WIFE'S DIARY.

A word to the wise is resented.

Many are called; but few get up.

Where there's a will there's a lawsuit.

Fools rush in and win—where angels fear to tread.

Misery loves company, but company does not reciprocate.

Love is romantic. Matrimony is decidedly a matter of fact.

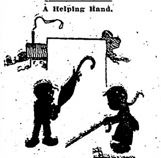
When we hear of other people's troubles it reconciles us to our own.

We never know how good we are going to be until the opportunity has passed.

If you bestow a favor forget it, but if you receive one it is wise to remember.

Happiness is the greatest of tonics, the best of cosmetics and the envy of dyspeptics.—Detroit Tribune.

A Helping Hand.



"What are you standing there for? Don't you see I'm going to hit the ball?"

"You'd missed it so often I thought I'd show you where it is."—New York Evening Journal.

DEFECTIVE PAGE

Let Your Grocer Bring Your Breakfast

—A little fruit—a jar of cream—and Egg-O-See.

Worry not about cooks or cooking—we've done all that for you—for Egg-O-See is **flaked whole wheat**—cooked exactly right.

Strong in its sweet simplicity. Pure in its natural flavor of perfect **flaked whole wheat**—Egg-O-See is nature's food.

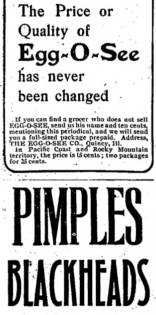
An Egg-O-See breakfast makes your dinner and supper taste better.

Back to Nature—Eat Egg-O-See. Don't worry about meals, their cooks—or their cooking—Eat Egg-O-See—for nothing else by any other name is the same—or nearly as good—and try it **now**—for your grocer sells Egg-O-See.

The Price or Quality of **Egg-O-See** has never been changed

If you can find a grocer who does not sell EGG-O-SEE, send us his name and ten cents, mentioning this periodical, and we will send you a full-sized package prepaid. Address, THE EGG-O-SEE CO., Quincy, Ill.

In Pacific Coast and Rocky Mountain territory, the price is 15 cents; two packages for 25 cents.



PIMPLES BLACKHEADS

Cuticura SOAP

To treat Pimples and Blackheads, Red, Rough, Oily Complexions, gently smear the face with Cuticura Ointment, the great Skin Cure, but do not rub. Wash off the Ointment in five minutes with Cuticura Soap and hot water, and bathe freely for some minutes. Repeat morning and evening. At other times use Cuticura Soap for bathing the face as often as agreeable. No other Skin Soap so pure, so sweet, so speedily effective.

Cuticura Soap combines delicate medicinal and emollient properties derived from Cuticura, the great Skin Cure, with the purest of cleansing ingredients and the most refreshing of flower odors. Two Soaps in one at one price—namely, a Medicinal and Toilet Soap for 25c. Potter Drug & Chem. Corp., Sole Props., Boston. Mailed Free, "How to Preserve, Purify, and Beautify."

WHEN WRITING TO ADVERTISERS please state that you saw the Advertisement in this paper.

IN MEDICAL PRACTICE.

By means of the leprolin serum, a temporary cure has been effected in a number of cases under the care of the mission of lepers in India, and the patients are kept in special observation wards.

Inasmuch as a soldier wounded in battle sometimes lacks the strength to call out for help, Dr. Matignon, a French doctor in the Japanese Red Cross service, has invented a whistle which, with a very slight exertion, gives a loud sound.

The purification of the water supply of Chicago and the improvement of the drainage system of that city have cut the mortality from typhoid fever down to about one-third of the death list from that disease when the population was little more than half as great as it is now.

According to Dr. T. L. Macdonald, the prosperous and strenuous mental life, combined with gorging, explains the frequency of Bright's disease in high official circles at Washington. He says that overeating is the germ of nephritis. Mental activity and physical quiescence aid in its production and carking care and worry are also causative factors. Bright's disease is prone to attack the intellectual and the anxious. Alcohol, he thinks, is not as potent a cause as is generally believed.

A rubber film glove has been devised for surgeons. The gloves are "put on" by immersing the hands in a weak solution of gutta percha in benzine or acetone. The purpose of the film is to seal the surfaces of the hands with an insoluble, impervious and practically imperceptible pellicle, which will not admit blood, pus or secretions. Such a protective measure for surgeons is said to be preferable to working with rubber gloves, inasmuch as the sense of touch or pliability of the skin is not impaired in any way.

NAMES BEST DOCTOR

MR. BAYSSON PUBLISHES RESULTS OF VALUABLE EXPERIENCE.

A Former Pronounced Dyspeptic He Now Rejoices in Perfect Freedom from Miseries of Indigestion.

Thousands of sufferers know that the reason why they are irritable and depressed and nervous and sleepless is because their food does not digest, but how to get rid of the difficulty is the puzzling question.

Good digestion calls for strong digestive organs, and strength comes from a supply of good rich blood. For this reason Mr. Baysson took Dr. Williams' Pink Pills for the cure of indigestion.

"They have been my best doctor," he says. "I was suffering from dyspepsia. The pains in my stomach after meals were almost unbearable. My sleep was very irregular and my complexion was sallow. As the result of using eight boxes of Dr. Williams' Pink Pills, about the merits of which I learned from friends in France, I have escaped all these troubles, and am able again to take pleasure in eating."

A very simple story, but if it had not been for Dr. Williams' Pink Pills it might have been a tragic one. When discomfort begins with eating, fills up the intervals between meals with pain, and prevents sleep at night, there certainly cannot be much pleasure in living. A final general breaking down must be merely a question of time.

Mr. Joseph Baysson is a native of Aix-les-Bains, France, but now resides at No. 2439 Larkin street, San Francisco, Cal. He is one of a great number who can testify to the remarkable efficacy of Dr. Williams' Pink Pills in the treatment of obstinate disorders of the stomach.

If you would get rid of nausea, pain or burning in the stomach, vertigo, nervousness, insomnia, or any of the other miseries of a dyspeptic, get rid of the weakness of the digestive organs by the use of Dr. Williams' Pink Pills. They are sold by druggists everywhere.

Proper diet is, of course, a great aid in forwarding recovery once begun, and a little book, "What to Eat and How to Eat," may be obtained by any one who makes a request for it by writing to the Dr. Williams Medical Co., Schenectady, N.Y. This valuable diet book contains an important chapter on the simplest means for the cure of constipation.

Let Common Sense Decide

Do you honestly believe, that coffee sold loose (in bulk), exposed to dust, germs and insects, passing through many hands (some of them not over-clean), "blended," you don't know how or by whom, is fit for your use? Of course you don't. But

LION COFFEE

is another story. The green berries, selected by keen judges at the plantation, are skillfully roasted at our factories, where precautions you would not dream of are taken to secure perfect cleanliness, flavor, strength and uniformity.

From the time the coffee leaves the factory no hand touches it till it is opened in your kitchen.

This has made LION COFFEE the LEADER OF ALL PACKAGE COFFEES.

Millions of American Homes welcome LION COFFEE daily. There is no stronger proof of merit than continued and increasing popularity. "Quality survives all opposition."

(Sold only in 1 lb. packages. Lion-head on every package.)

(Save your Lion-heads for valuable premiums.)

SOLD BY GROCERS EVERYWHERE

WOOLSON SPICE CO., Toledo, Ohio.

NEWS OF MINNESOTA.

Pure Food.

St. Paul.—All articles of food sold in Minnesota must be true to their names, according to a ruling made by E. K. Slater, state dairy and food commissioner.

Mr. Slater rules that the label must contain the names of all the ingredients and that no technical terms which the public cannot understand shall be used. For instance, baking powder containing phosphate, alum and starch must not be labeled as containing calcium acid phosphate and anhydrus soda alum.

The ruling is made with especial reference to the new code which will go into effect March 1, 1906, but the commissioner expresses the hope that the new law will be complied with at once, so that there will not be a flood of illegal goods on the market next March. He has prepared a letter, which will be sent to the jobbers and manufacturers in the state, explaining the effects of the new law.

Examine Books.

Governor Johnson ordered Public Examiner P. M. Kerst to make an examination of the books and records of the state capitol commission, in the following letter:

It is my understanding that there never has been any general examination of the accounts and conduct of the state capitol commission, and that no examination has ever been made by your department. I therefore request that you proceed, at your earliest convenience, to make an examination of the accounts and business conduct of said capitol commission since its creation, and make a report of your findings to this office.

Inspect State Lands.

An inspection of the state lands in the northern part of the state will be made next month by state officials accompanied by editors of several agricultural papers.

The details of the trip have not been arranged, but it probable that the party will go in a special car and will visit the state lands in Aitkin, Pine, Mille Lacs, Carlton, Crow Wing, Itasca, St. Louis and many other counties in Northern Minnesota.

Busy at Fair Grounds.

Hamline.—Secretary E. W. Randall of the Minnesota state fair has been busy at the fair grounds during the last ten days. The rainy weather of earlier part of the season delayed the work, but it is now well in hand and all the improvements and repairs will be well out of the way before the opening of the fair on Monday Sept. 4.

The Minnesota-St. Louis building is nearing completion. The carpenters have finished this work and the masons and plasterers are now putting the cement finish in place. This will take the place of the staff used in the original building at St. Louis. Water and gas connection will be put in at once.

Lectures on Bible.

Hamline.—The Northwestern Bible conference and Chautauqua at the state fair grounds July 30 to Aug. 20 is securing some noted talent for its work. The secretary of the committee has received a communication from Dr. John Urquhart of Scotland, author and lecturer, consenting to give the conferences ten addressess between Aug. 12 and 18. Dr. Urquhart is between fifty and sixty years of age, widely known as a preacher and as an author. At his home in Scotland and all over England he has waged a constant fight in defense of conversation in theology.

Will Open the Tract.

Eveleth.—Telegrams were received at Duluth by parties interested in the lands surrounding Ely lake to the effect that the final papers and maps had been fully approved by the Washington land office and were being sent to the land office at Duluth. The next step looked for is the opening of the land to settlement, which will mean vigorous contests among the parties who have been living for thirteen years on the shores of Ely lake.

News Notes.

Sanford—During a severe thunder storm, Robert Burns, a farmer, was instantly killed by lightning. He was found lying in the road near his farm.

Stephen—A severe electrical storm passed over here. The heavy rain caused much grain to lodge.

Hastings—Valentine Boor, a merchant tailor and pioneer resident, died from paralysis, aged 79 years.

Ada—John Riggers of Hadler is badly paralyzed and in a precarious condition, as the result of jumping from a passenger train. He lay on the prairie all night before anyone discovered his plight.

Mankato—John Barth, 15 years old, was drowned in the Minnesota river.

Duluth—The body of Mrs. John Henemister was recovered from the slip at the foot of Sixth avenue west by the United States life-saving crew. It is believed that while walking on the pier the woman accidentally fell into the bay.

Minneapolis—The body of John E. Paradis, who was drowned in Lake Minnetonka, was recovered.

Moorhead—Mayor Nye left his wheel standing on the street a few days ago, and some thief appropriated it and rode to Fargo. The wheel was recovered.

St. Paul—The National Association of Sheriffs meets here Aug. 8 for a three days' convention. It is expected 100 sheriffs will attend.

Minneapolis—A fierce blaze in the basement of the Ginter Grocery company's store, 23 Sixth street south caused a loss on the stock of about $3,000, while the building suffered to the extent of $1,000. The loss is covered by insurance.

Getting His Mind Off Sugar.

"Why didn't you want your husband to go and play with the children in the sand?" asked one lady of another, at a Florida resort.

"Because he came here to get his mind off of business," was the reply.

"Oh, I didn't know your husband was in the retail grocery business!"—Yonkers Statesman.

Our Changing Language.

"Do you think that our country will ever succeed in getting rid of grafters?"

"Yes," answered Senator Sorghum. "There will be a time when grafters are unheard of. But it will be due to the change that is constantly going on in our vocabulary. There will be a new word that means the same thing."—Washington Star.

Especially for Women.

Champion, Mich., July 24th.—(Special).—A case of especial interest to women is that of Mrs. A. Wellett, wife of a well-known photographer here. It is best given in her own words.

"I could not sleep, my feet were cold and my limbs cramped," Mrs. Wellett states. "I had an awful hard pain across my kidneys. I had to get up three or four times in the night. I was very nervous and fearfully despondent.

"I had been troubled in this way for five years when I commenced to use Dodd's Kidney Pills, and what they caused to come from my kidneys will hardly stand description.

"By the time I had finished one box of Dodd's Kidney Pills I was cured. Now I can sleep well, my limbs do not cramp, I do not get up in the night and I feel better than I have in years. I owe my health to Dodd's Kidney Pills."

Women's ills are caused by Diseased Kidneys; that's why Dodd's Kidney Pills always cure them.

A woman may be convinced in after years that she drew a blank in the matrimonial lottery, but she clings to the belief that her husband drew a prize.—Chicago Sun.

BEAUTIFUL SKIN,

Soft White Hands and Luxuriant Hair Produced by Cuticura Soap.

Millions of Women Use Cuticura Soap, assisted by Cuticura Ointment, the great skin cure, for preserving, purifying and beautifying the skin, for cleansing the scalp of crusts, scales and dandruff, and the stopping of falling hair, for softening, whitening and soothing red, rough and sore hands, for baby rashes, itchings and chafings, for annoying irritations and ulcerative weaknesses, and many antiseptic purposes which readily suggest themselves, as well as for all the purposes of the toilet, bath and nursery.

It is an odd fact that the most expert marksman cannot equal the unerring accuracy of the stray bullet in reaching the mark.—Baltimore American.

Is Your Strength What It Should Be?

Can you work as energetically, or walk as far, climb the stairs as rapidly as you used to? Are your nerves as steady, and your memory as good as formerly? Pains, Weakness, Nervous Exhaustion, Weak Memory, Rheumatism, Indigestion, Catarrh, Misuse and the various Blood and Nervous troubles cause premature old age, shorten life and destroy happiness. Regain your strength, vigor and health by using Pusheck's-Kuro, $1.00 at most druggists, or sent by Dr. C. Pusheck, Chicago.

Some men waste a lot of valuable time explaining their actions.

Shake Into Your Shoes

Allen's Foot-Ease. It cures painful, swollen, smarting, sweating feet. Makes new shoes easy. Sold by all Druggists and Shoe Stores. Don't accept any substitute. Sample FREE. Address A. S. Olmsted, Le Roy, N. Y.

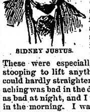
The fellow who courts trouble generally ends by marrying it.

Piso's Cure for Consumption is an infallible medicine for coughs and colds.—N. W. Samuel, Ocean Grove, N. J., Feb. 17, 1900.

The man who is his own best friend has few others.

AN OLD MAN'S TRIBUTE.

An Ohio Fruit Raiser, 78 Years Old, Cured of a Terrible Case after Ten Years of Suffering.



SIDNEY JUSTUS.

Sidney Justus, fruit dealer, of Mentor, Ohio, says: "I was cured by Doan's Kidney Pills of a severe case of kidney trouble, of eight or ten years' standing. I suffered the most severe backache and other pains in the region of the kidneys. These were especially severe when stooping to lift anything and often I could hardly straighten my back. The aching was bad in the day time, but just as bad at night, and I was always lame in the morning. I was bothered with rheumatic pains and dropsical swelling of the feet. The urinary passages were painful and the secretions were discolored and so free that often I had to rise at night. I felt tired all day. Half a box served to relieve me, and three boxes effected a permanent cure."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y.

SICK HEADACHE

CARTER'S LITTLE LIVER PILLS.

THE IDEAL WIFE

Shapes the Destiny of Men—The Influence of a Healthy Woman Cannot Be Overestimated.

Mrs. Bessie Ainsley

Seven-eighths of the men in this world marry a woman because she is beautiful in their eyes—because she has the qualities which inspire admiration, respect and love.

There is a beauty in health which is more attractive to men than mere regularity of feature. The influence of women glorious in the possession of perfect physical health upon men and upon the civilization of the world could never be measured. Because of them men have attained the very heights of ambition; because of them even thrones have been established and destroyed.

What a disappointment, then, to see the fair young wife's beauty fading away before a year passes over her head! A sickly, half-dead-and-alive woman, especially when she is the mother of a family, is a damper to all joyousness in the home, and a drag upon her husband.

The cost of a wife's constant illness is a serions drain upon the funds of a household, and too often all the doctoring does no good.

If a woman finds her energies are flagging, and that everything tires her, dark shadows appear under her eyes, her sleep is disturbed by horrible dreams; if she has backache, headaches, bearing-down pains, nervousness, whites, irregularities, or despondency, she should take means to build her system up at once by a tonic with specific powers, such as Lydia E. Pinkham's Vegetable Compound.

This great remedy for women has done more in the way of restoring health to the women of America than all other medicines put together. It is the safeguard of woman's health.

Following we publish, by request, a letter from a young wife.

Mrs. Bessie Ainsley of 611 South 10th Street, Tacoma, Wash., writes:

Dear Mrs. Pinkham:—

"Ever since my child was born I have suffered, as I hope few women ever have, with inflammation, female weakness, bearing-down pains, backache and wretched headaches. It affected my stomach so that I could [illegible] in bed.

"Lydia E. Pinkham's Vegetable Compound made me a well woman, and I feel so grateful that I am glad to write and tell you of my marvelous recovery. It brought me health, new life and vitality."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Ainsley it will do for every woman who is in poor health and ailing.

Its benefits begin when its use begins. It gives strength and vigor from the start, and surely makes sick women well and robust.

Remember Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of actual cures of woman's ills. This fact is attested to by the thousands of letters from grateful women which are on file in the Pinkham laboratory. Merit alone can produce such results.

Women should remember that a cure for all female diseases actually exists, and that cure is Lydia E. Pinkham's Vegetable Compound. Take no substitute.

If you have symptoms you don't understand, write for special advice. It is free and always helpful.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

Mull's Grape Tonic (FREE) FOR Hot Weather Dangers

CONSTIPATION STOMACH AND BOWEL TROUBLE

No one with regular bowels and healthy stomach can contract disease. A person with Constipation and Stomach Trouble is always the first to succumb to Sun Stroke, Heat Debility and Prostration. Cholera, Colic and Diarrhea are more fatal in Hot Weather because vitality is lower—they are the direct result of Constipation. It is a mistake to suddenly check diarrhea, the danger is Blood Poison. A physic is also dangerous as it weakens the patient and reduces vitality. Treat the cause with Mull's Grape Tonic. Constipation and its attending ills are caused by decaying or dying bowels and intestines—Mull's Grape Tonic revives and strengthens the Bowels so that they are enabled to act naturally and eject the poison from the system, everybody should take it during hot weather. It wards off disease, builds up the system and purifies the blood. Typhoid Fever and Appendicitis are unknown in families where Mull's Grape Tonic is employed. As a Stomach Tonic it is unequalled.

SUFFERED ALL HIS LIFE.

The endorsement of E. B. McCurdy of Troy, Ohio, proves that the severest forms of Constipation are promptly cured by Mull's Grape Tonic—He says:

"I gave your Tonic a thorough trial. It is the only remedy that will cure constipation. I do not believe anyone suffered more therefrom than I, as I had been afflicted with it all my life. For days my bowels would not act and then only by the use of strong cathartics that were fast ruining my health. My Stomach and Liver were deranged and I suffered with inward piles, the pains of which would at times raise me off my chair. I spent much money with various doctors and medicines to no avail.

Soon after I started Mull's Grape Tonic my bowels began to move regularly—the pain left me and my general health built up rapidly.

I heartily recommend it as an absolute cure to which I am a living witness."

Until Mull's Grape Tonic was put on the American market there was no cure for Constipation. Let us send you a bottle free to-day to show you that it will do all we claim.

Good for Ailing Children and Nursing Mothers.

FREE BOTTLE COUPON

Send this coupon with your name and address and your druggist's name, for a free bottle of Mull's Grape Tonic, Stomach Tonic, Constipation Cure and Blood Purifier, to MULL'S GRAPE TONIC CO., 147 Third Ave., Rock Island, Ill. Give full address and write plainly. The $1.00 bottle contains nearly three times the 50c. size. At drug stores. The genuine has a date and number stamped on the label—take no other from your druggist.

WINCHESTER

RIFLE AND PISTOL CARTRIDGES

Winchester Rifle and Pistol Cartridges of all calibers are loaded by machinery which sizes the shells, supplies the exact quantity of powder, and seats the bullets properly. By using first-class materials and this up-to-date system of loading, the reputation of Winchester Cartridges for accuracy, reliability and excellence is maintained. Ask for them.

VOL. V. SUNBEAM, RED LAKE COUNTY, MINNESOTA, FRIDAY, AUG. 4, 1905. NO. 18.

MINNESOTA HISTORICAL SOCIETY.

THE NEWS OF A WEEK CONDENSED

SUMMARY OF MOST IMPORTANT EVENTS AT HOME AND ABROAD.

THE WAR IN THE FAR EAST

Progress of Peace Negotiations Between Russia and Japan—Foreign and Domestic Items of Interest Told in Brief.

RUSSO-JAPANESE WAR.

Japan will demand as a basis for the peace negotiations an indemnity covering the cost of the war, probably $1,000,000,000, and the cession of Sakhalin, the Liaotung peninsula and the Manchurian railway to Harbin.

Japan will demand of Russia evacuation of Manchuria as a requisite to peace. Her own rights as to railway and fortified ports are to be determined by negotiations with China.

China will demand payment of $100,000,000 from belligerents for damage inflicted in Manchuria. Japan will not agree to pay China an indemnity, blaming the empire for inability to keep out the Russians.

Baron Komura and Minister Takahira, Japan's peace plenipotentiaries, conferred with President Roosevelt at Oyster Bay. Baron Komura conveyed to the president the thanks of the mikado for his efforts to end the war.

At his meeting with Baron Komura, the Japanese peace envoy, it is believed President Roosevelt urged Japan to consent to an immediate armistice with Russia to prevent the impending battle near Vladivostok.

Korea has sounded the United States on the question of the inviolability of national integrity as a result of the war. The powers are disposed to grant Japan paramount rights in the peninsula as a result of her crowning victories on land and sea.

Japs may demand the neutralization of Vladivostok in return for the dismantling of Port Arthur.

Rear Admiral Kataoka reported the successful landing of the Japanese forces at Alexandrovsk on Sakhalin island.

MISCELLANEOUS.

Johann Hoch, convicted of murder and bigamy, was snatched from the gallows in Chicago almost at the hour of his execution on a reprieve granted by Gov. Deneen on a showing that sufficient money had been raised to carry the case to the supreme court.

All members of the crew of the ill-fated Bennington have been accounted for. The summary of the situation is 54 identified dead; four unidentified dead; 46 wounded; one missing; 90 injured; one deserter.

Another death among the injured of the Bennington's crew has occurred, the victim being W. V. Kennedy. The body will be taken to Alliance, Neb., where the deceased formerly lived.

The list of the Bennington dead now numbers 62.

The funeral of Ensign Newman K. Perry, the only officer killed in the gunboat Bennington disaster, was held at San Diego, Cal.

Secretary Bonaparte promises a prompt and thorough investigation of the explosion on the gunboat Bennington.

Chief of Police Francis O'Neill handed his resignation to Mayor Dunne of Chicago, and requested that it take effect at once.

John M. Collins was appointed chief of police to succeed Francis O'Neill by Mayor Dunne, of Chicago.

George T. Moore, physiologist and algoloist of the department of agriculture, tendered his resignation to Secretary Wilson, and it has been accepted.

E. H. Colvin, who was appointed receiver of the recently closed Farmers' bank at Spring Valley, O., announces an apparent shortage of $12,000.

President Roosevelt made a visit to Coney Island to inspect the institution established there by the city of New York to improve the condition of the poor.

Alexander Winn and Nelson Walker, negroes, convicted of having murdered Mr. Charles Hawk, a white trading boatman, were hanged at Vidalia, La.

Joseph Moyer, pawnbroker in Detroit, Mich., was attacked and fatally injured by thieves. The thieves got away with about $600 in money and probably $1,000 worth of diamonds. Moyer died.

President Morton, of the Equitable Life Assurance society, accepted the resignation of A. C. Haynes, a leading general agent of the society.

Paul Morton has been elected to the full presidency of the Equitable Life Assurance society.

Two dead, two fatally burned and three others seriously injured is the result of an explosion of a gasoline stove at the home of Levi Titus, of Braddock, Pa.

The Japanese navy department announces the rescue of the crew of the German steamer Cecele, which is aground off Cape Patience, island of Sakhalin. Four Germans, two British subjects, one Norwegian and 36 others were saved.

Azra Miller, aged 20, of Boonville, Ind., is minus part of his nose and is in a dying condition as a result of being cut by Henry Broshears in a fight.

George Crandstaff, of Boonville, Ind., 21 years old, while carrying tar to the roof of a building, slipped, the hot tar falling upon him, scalding him fatally.

An unknown incendiary in Sterling, Ill., stole Samuel Elgin's horse from his barn and drove 15 miles, where he set fire to and destroyed Mr. Elgin's creamery, valued at $5,000.

Republican leaders of Cleveland boom John D. Rockefeller for mayor and frame a platform promising to present the street railways to the city and complete the public building plan.

Gov. Folk, of Missouri, won his fight on Delmar gamblers. The race track has suspended pending the supreme court's decision on the use of the police.

President Roosevelt is expected to ask congress to increase the displacement of the battleships Michigan and South Carolina from 16,000 to 20,000 tons, making them the most formidable in the world.

The Mutual Reserve society issued a statement to policy holders denying that it falsified a report.

France and Germany again face a crisis because of inability to agree as to the conference programme on Morocco.

The German view that foreign warships be excluded from the Baltic sea causes vigorous protest in England.

The boycott on American goods in China is declared to be harmless, being the work of students without official standing.

Wisconsin democrats started a boom for W. J. Bryan for president.

The wives of eight Kansas farmers have been arrested for destroying a saloon near Abilene.

An Indianapolis judge warmly criticised a fellow jurist who pointed out the way to safely violate the anti-cigarette law.

Weekly trade reviews report increased activity, due largely to the promising outlook for crops.

Quarantine regulations against the city of New Orleans are being rigidly enforced.

The storthing voted to submit to the people of Norway the question of the dissolution of the union with Sweden, fixing August 13 for the referendum.

The seventh annual congress of Zionists opened at Basle, Switzerland, in the presence of over 1,000 delegates, representing the leading forces of the Zionist movement throughout the world.

Charged with embezzling $10,000 from a Bremen bank, Herman Schadow was arrested in New York as he stepped off the steamship Maine. The prisoner declared his willingness to return to Germany to stand trial.

Mattie and Grace Wigner, sisters, aged 14 and 16 years, respectively, were drowned while attempting to ford a creek west of Lacyne, Kan.

William Slugger shot his wife and William Vivian at Noxen, Pa., and then fired a bullet into his head.

One of the most urgent calls for harvest hands received in Des Moines, Ia., came from North Dakota, when a local employment firm was notified that 1,000 men were wanted in that state to harvest the wheat crop.

Some doubt is expressed in official circles in Washington whether it will be possible to obtain China's consent to another treaty with the United States providing for even the exclusion of Chinese laborers from this country.

Six men, all Italian laborers, were killed and three others fatally injured by being struck by an accommodation train on the New York Central railroad at Tribes Hill, N. Y.

An electric express train on the Lancashire & Yorkshire rairoad, collided with an empty stationary train at the Hall road station, Liverpool, England, causing the death of 23 persons and the injury of many.

Four men have been killed by the wrecking of an east-bound freight train on the Northern Pacific between Myers and Bighorn, Mont.

Coal, railroad and dock properties, conservatively estimated to be worth $50,000,000, were combined into one company at a meeting held in New York.

Ex-State Senator William E. Finck and wife were fatally burned by a natural gas explosion in their home at Somerset, O. Both are dead.

The Norwegian government has proposed to the storthing the holding of a referendum on the dissolution of the union with Sweden.

Business organizations of the country plan to urge congress to provide for better inland waterways.

Commissioner Sargent reports that the Japanese are leaving Hawaii, causing a bad labor famine.

Bishop Isaac W. Joyce, of the Methodist Episcopal church, died in Minneapolis after a long illness.

A mob of a thousand persons attacked a caravan of wagons in Chicago and severely injured a nonunion teamster.

A new commercial treaty with Germany is to be considered by the senate at the next session of congress, the present one to be allowed to lapse November 30.

Iowa's state executive council has completed assessment of corporation property, increasing that of railroads $2,637,400.

Both houses of the Swedish parliament have adopted the report of the special committee proposing a plan for a peaceable severance of the union with Norway.

The battleship Missouri won a race between eight great men-of-war from Newport News to New York harbor. The victor did 18.22 knots an hour.

Official reports show that 44 persons have died of yellow fever in New Orleans. The disease is spreading slowly and a feeling of alarm is growing among the citizens.

Action was brought in the United States court to have a receiver appointed for the Equitable society, the stockholding company to be annulled and the $421,000,000 assets to be turned over to the society.

Total deaths from yellow fever in New Orleans number 45.

Marquette, Mich., and other points on the Marquette iron range experienced a distinct shock of earthquake. A dull rumbling noise accompanied the disturbance. Tall buildings were swayed, dishes rattled and windows shaken, but no damage is reported.

In St. Louis Frank W. Card, formerly a railroad conductor living at Como, Col., shot and killed a woman named Beulah Craft, and fired three bullets into his head in an effort at suicide.

David Tosser, a leading lumberman of the St. Croix valley, died at Stillwater, Minn., aged 84 years. He leaves a fortune of more than $1,000,000.

The Cedar Rapids Transfer company's warehouse, Cedar Rapids, Ia., filled with machinery and household goods, was destroyed by fire. Loss, $100,000.

A stamp tax on stocks, bonds, checks and patent medicines is favored by Representative Livingston of Georgia.

William Anderson, a veteran newspaper man of Pittsburg, and for 60 years a member of the editorial force of the Pittsburg Gazette, died at the age of 78 years.

At a session of the directors of the Equitable Life Assurance society in New York the resignations of former President James W. Alexander and Nevada N. Stranahan as directors were accepted.

A freight train wrecked in the Central Georgia railway yards in Atlanta, Ga., caused the deaths of three white men and one negro and fatal injuries to Yardmaster Fred Woodall.

Fire destroyed the Missouri Grain company's elevator at Moberly, Mo., containing a large amount of grain. Loss, $200,000.

James E. Foye, private secretary of Millionaire Charles G. Gates, had his mother arrested on the street in New York for asking him to give her money for food.

David Johnson, 14 years old, was instantly killed at Desplaines camp meeting grounds by a Northwestern train.

A combine of independent oil men is said to have been practically completed at Pittsburg to fight the Standard, based on productive field in Kansas and a pipe line to the Gulf of Mexico.

Cardinal Gibbons in an interview declares that corporation corruption is inevitable, and that the only hope of the nation is the dread of exposure which actuates men of business.

Three boys were killed by the collapse of a cottage in Chicago, which they were tearing apart for firewood.

Emperor William's visit to the czar is said to have been to obtain the latter's consent for a Hohenzollern prince to ascend the throne of Norway.

Cleveland tenants formed an association to blacklist landlords who object to children in rented property.

Congress faces the necessity of enacting legislation to check the dangerous wave of immigration from southeastern Europe. The increase in the illiterate tide comes mostly from Hungary, Russia and Italy. Educational and other tests are suggested.

Secretary Taft and members of his party were received by the emperor of Japan.

President Gutheil, in his annual address to the United States League of Savings and Building associations, said the aggregate membership is nearly 2,000,000.

United States Senator Mitchell, of Oregon, convicted of using his office of United States senator to further the law practice of a firm in Portland, was sentenced to pay a fine of $1,000 and six months' penal servitude.

Judge McPherson of the United States circuit court of southern Iowa denies the right of strikers to establish picket lines.

Secretary of War Taft and party received a demonstrative welcome to Japan, the principal buildings, streets and wharves of Yokohama and the shipping in the harbor was gayly decorated.

Very Rev. Augustine F. Scheiner was elevated to the high office of bishop of the newly created diocese of Superior, Wis. The ceremonies were conducted in St. John's cathedral, Milwaukee, and were most elaborate.

WASHINGTON LETTER

CAREER OF MAJOR WILLIAM WARNER OF MISSOURI.

CAPITAL'S HISTORIC HOUSES

American Institute of Architects Restores a Notable One—Our Area of Maple-Sugar Farming Much Decreased—Interesting Trees.

WASHINGTON.—Few men have entered upon their senatorial work with greater ardor and industry than Maj. William Warner, who has been elected by the Missouri legislature to fill the seat so long occupied by Francis M. Cockrell. The experience in the national legislature is not new to Maj. Warner, as he served two terms in the house from '85 to '89. He knows the ropes and he did not let the grass grow under his feet when his election as senator practically made him the republican referee in the distribution of federal patronage in Missouri. He has been a frequent visitor to Washington during this spring and summer, and in every sense is "persona grata" at the white house, where he is a welcome caller.

It has been suggested that when Maj. Warner supplies the congressional directory with his biography he might limit it to one or two lines and state an interesting history in these words: "At six an ore picker on the dump at the mouth of a mine. At 65 a member of the United States senate."

This distinguished statesman was the youngest of six children and lost his father when he was five years old, and a year later lost his mother. He was employed in the lead mines of southern Wisconsin at the age of six, and earned his bread by picking up bits of ore from the refuse piled about the mouths of the shaft. From this work he was promoted to drive an old horse that worked the mine pump.

Through hardships of this sort he worked his way in the mine, and at ten years of age secured a place in a grocery store, and for four years worked and studied and saved enough money to pay board and tuition for a year at a small college. He was teaching school at 20 years of age, to enable him to pass through college, when he enlisted in the army. He dismissed his school the day he enlisted and told the scholars "Go home; there will be no more school until you get a new teacher."

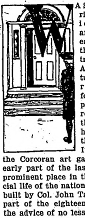
Public Buildings.

PRESIDENT Roosevelt hopes to secure the authorization of a commission at the next session of congress to act as experts on the sites and exterior designs of the public buildings which may be erected in Washington in the future. It is understood that Speaker Cannon will not object to this commission, although he has been very much opposed to what is known as the McKim commission, that was appointed on a resolution of the senate and paid out of the contingent fund of that body. "Uncle Joe" always regarded that commission as having operated without proper legal authority, and he has not disguised his opposition to carrying out its plans and recommendations.

Under the plan proposed by the senate the commission will not cost the government a cent. It is not proposed to put up an extra building or to provide any additional space because of this plan. The only question to be decided by it is whether new buildings as they are from time to time erected shall follow a harmonious general scheme or be built up in the old haphazard way. It is very easy to see now where improvements could have been made in the building up of Washington as it is. The public buildings have been erected without any order, and their beauty has been hidden and the general effects badly marred by planting them here, there and everywhere.

There is a strong sentiment in favor of having the public buildings, as far as possible, arranged in one grand vista, beginning with the magnificent national library on Capitol hill and extending a mile away to the Potomac. The government has a broad reservation running this distance, known as the Mall, and it is hoped in time to so arrange future buildings that they will line this Mall, ending with the white house and the state, war and navy buildings. If this is carried out the view from the capitol dome or from the top of the Washington monument would show all the great public buildings arranged with beautiful symmetry and on a general plan.

The Octagon House.

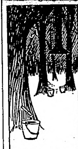


WASHINGTON is rich in old historic buildings, around which the early memories of the city and country cluster. The American Institute of Architects recently performed a distinct public service in restoring one of these beautiful old houses known as the Octagon house. It is located near the Corcoran art gallery, and in the early part of the last century filled a prominent place in the social and official life of the national capital. It was built by Col. John Tayloe in the latter part of the eighteenth century, upon the advice of no less a person than George Washington.

This old house is octagonal in shape and was occupied by President Madison after the British burned the white house in 1814. The treaty of Ghent, which closed our second war with England, was signed by President Madison in the circular room in this house, which is now used by the secretary of the American Institute of Architects as an office. The lot is triangular in form and fenced in by a high brick wall.

Col. John Tayloe was an immensely wealthy man for his period. At the age of 20 it is said he had an income of nearly $60,000 a year. When he built the Octagon house his income had increased to $75,000 a year. His establishment was known throughout the country for its entertainments and up to the time of his death in 1828 he had entertained within the hospitable doors at his mansion all the noted men of that period, among whom might be named Jefferson, Madison, Monroe, John Quincy Adams, Decatur, Porter, Lafayette, Steuben, Webster, Clay, Calhoun, and a long list of lesser lights.

Encouraging Maple Sugar Industry.



THE bureau of forestry connected with the agricultural department is determined to use its greatest endeavors in the preservation of a distinctly American industry—one that is associated with the development of the country from the early days. It is determined to protect and develop the production of maple sugar and make the toothsome maple syrup a still better known article of food on the American table. Since 1850 the area of maple sugar farming has greatly changed and shrunk. In the early days of the country maple sugar was commonly made even in many parts of the south, because cane sugar was virtually unobtainable. Now there is no maple sugar produced in the southern states.

In Indiana, Michigan and Illinois the maple trees have been extensively cut for lumber and the production of maple sugar and sirup has been reduced to a minimum, while cheap imitations of this delicious article are flooding the markets. The present largest producers of sugar maple products are Ohio, Vermont and New York. The sugar and black maple yield the most and the best sap. The maple is a hardy and vigorous tree and readily reproduces itself; so that the bureau of forestry believes that with proper attention extensive groves of this valuable tree can be preserved and grown. It is figured out that a farmer can easily clear from three to five dollars an acre from a sugar grove, and as it requires no cultivation and the farmer can do most of his own work the profit is considerable.

Secretary Wilson is aiding all he can in furthering this sweet work and in the bulletins he has issued from his department there are minute instructions how to collect the maple sap with the least damage to the trees and with the greatest economy to the farmer. Secretary Wilson has found that the maple trees now furnish but a small per cent. of the commercial maple sirup and sugar. The trade has been supplied by radically adulterating the pure goods or by manufacturing a product entirely from foreign material. It is estimated that seven-eighths of what is sold as maple sirup and sugar is a spurious article. Secretary Wilson believes that it is a part of his mission as the head of the agricultural department to give the sweet-toothed citizens of this republic the genuine old-fashioned maple sugar and the delicious sirup for their buckwheat cakes on a winter's morning.

DEATH FROM RUSH OF WATERS.

IMMENSE DAMAGE TO PROPERTY FOLLOWS BURSTING RESERVOIRS.

A Tremendous Flood Sweeps Down on Trumbull, Conn. Carry One Home Away. The Inmates Have Perilous Voyage.

Bridgeport, Conn., July 31.—Loss of life and immense damage to property followed the bursting of reservoirs north of this city, early yesterday, as a result of the unprecedented fall of rain.

The precipitation in the series of showers which struck across Connecticut Saturday night and yesterday morning reached a total of seven inches.

The dam at Ward's mill at Easton went out at 2 o'clock yesterday morning, sending a great body of water down through the town of Trumbull.

In a short time the dam at the paper mill reservoir broke.

There was no warning to the people who lived on the banks of what is usually a small water course.

The house occupied by John Lesco his wife and several children were picked up by the flood and carried a mile down stream.

The members of the Lesco family were asleep at the time and all were rescued after a perilous journey.

A house occupied by Michael Moran was hurled against the Berkshire bridge and smashed to kindling wood and it is believed that Moran was drowned. Police and firemen went to the rescue and saved several.

In North Bridgeport, the water swept against the Barnum avenue bridge and wrecked it just when an ice wagon was crossing it. In the wagon were M. Kowzeski and John Starkin. The wagon and horses were swept away and Kowzeski was drowned. Starkin was able to swim ashore.

Sue For Large Sum.

Ashland, Wis., July 28.—Two suits by Bad River Chippewas, indirectly involving over a half million dollars, were begun in the state courts at Ashland and stipulated to the federal court at Madison, the looser to carry the case to the supreme court. The government holds in trust at Ashland over half a million dollars, which will amount to $600,000 by the time these test cases are decided. The Indians demand this sum at once, whereas the policy has been to pay them at the discretion of the agent.

Threatens to Kill Family.

Winona, Minn., July 28.—John Brang has been sent to the asylum for the insane at Rochester because he is considered dangerous to have around the house. He had about a dozen butcher knives concealed about the place and had threatened to kill his wife. He also said of the children that he was going to kill them. His family has lived in a state of terror for several months.

Orders Gun Loaded.

Winona, Minn., July 28.—Dr. J. C. Coomes of La Crosse attempted suicide at Preston last evening. He went into a hardware store and purchased a revolver, which he ordered loaded, and then pressed the muzzle against his temple, but before he could pull the trigger the weapon was wrestled from him by Mr. Schaeffer, the proprietor. Dr. Coomes is now being cared for at Preston.

Boycott Begins.

San Francisco, July 31.—Mr. Louis Getz president of one of the big importing and exporting houses of this city has received a cable from Shanghai, which reads as follows:

"Cancel all orders. Boycott of American trade effective among Chinese merchants. All business entirely suspended."

Santa Fe Ditched.

Chicago, July 31.—The California Express on the Atchison, Topeka & Santa Fe railroad leaving this city at 10 o'clock Sunday, went into the ditch at Lemont, a village thirty miles southwest of here.

Eaten By Shark.

Beaufort, N. C., July 30.—Sutton Davis, a boy of 16, while wading and playing in the water at Davis Shore, ten miles east of here, was attacked and eaten by a very large shark.

Lightning.

New York, July 31.—During a thunderstorm of terific intensity which passed over New York yesterday afternoon, five persons were struck by lightning and instantly killed and nine were seriously injured at Parkway baths at Coney island.

Lynched.

Dallas, Tex., July 30.—An unknown negro who attempted to assault two white women, was lynched yesterday near the town of Avery by a mob of several hundred men.

DEFECTIVE PAGE

THE SUNBEAM.

BY W. G. HUNT.

Published every Friday, at Sunbeam, Red Lake County Minnesota.

Subscription $1.00 per year.

Make your applications to make final proof at this office and have your notices published in the paper published nearest to your land, as the law requirs.

Sunbeam is the name of this new post office located on section 29 Township 153 N.R. 40 W., on the south bank of Red Lake river, and is disdined to be a big city some day.

We wonder if the big city of Crookston were compelled to put in any extra policemen to keep the peace this week, while the editors from Red Lake and Thief River Falls was in town.

Why not get up a petition to move the county seat from Red Lake Falls to High Landing?. Thief River Fall had ought to support a proposition of this kind, and if we could get Plummer and Rhoda in with us we would be sure to win.

We regret our inabilaty to attend the Convention of the Red River Vally Newspaper Men, which was held at Crookston, this week,, but we heartily indorse the movement of the newspaper men to organize, as they have all kinds of organizations to watch, and the paper trust, in particular.

We understand that the petition to lay out a county road from the Red Lake River to the town line of Equality and a bridge across clearwater river was laid on the table by our county Commissioners. We don't know as it's any use to kick, but we came from Polk County, where the Commissioners took an interest in the laying out of roads and building bridges.

The petition to organize this school district has been held up by the County Commissioners, and September 5th, set for the day of hearing on the question We have not learned whether it was laid over at the request of some one in the district; or the county dads are waiting until the childen are older.

First Red Lake County Commissioner. Have you heard anything from the madamus proceedings?. Seond Com. No but I understand that there are some school and road petitions to be acted upon. First Com. To h— with their road and school petitions we must attend to them mandamus proceedings, as the lawyers and judge Watts do not seem to understand their business very well.

Our subscription list has increased quite rapidly since we located here and we desire to place our paper before as many readers as want it, but do not want to send it to any one who does not want it, and if your name has got on our list by mistake notify your post master and the paper will not stop publication, but it will stop comming to you

STEENERSON EXPLAINS.

We are getting almost tired of explaining the necessity of the settlers on this reservation making their seond payment within sixty days after it is due, or his right will be canceled, but we will publish part of a letter writen by Hon. Steenerson, to W. A. Swanson, which fully explains the whole matter.

Crookston Minn. April 26, 1905.

W. A. Swanson.

My Dear Sir.

I have your favor of the 24th inst., inquiring if I can not possibly secure a ninty days furthur extension upon the first payment of the lands opened last June, under the act of February 20, 1904.

Replying to this, I have the honor to say that I should take great pleasure in appealing to the Department in behalf of the settlers if such an appeal would do them any good, but under the law it would be utterly beyond the power of the Department to extend the time of payment, Section 3 of the Act of February 20, 1904, is very specific in regard to payment for the land and leaves no discretion whatever in the Secretary of the Interior. It provides.

"In case any purchaser fails to make said annual payments promptly when due, or within sixty days thereafter, all rights in and to said lands covered by his or her purchase, shall at once cease and any payments made thereupon be forfited and the Secretary of the Interior shall thereupon declare such forfiture by re-offering such lands for sale."

From which you will see that the law itself gives you sixty days in which to make your payment, but if you allow it to run a single day beyond this sixty days there is no power whatever in the Interior Department to extend the payment, or to accept the money after that time, but they are compelled to reoffer the land and you will lose all prior payments. These are the terms upon which the land was sold and is a law of Congress and there is no power to change it, and I might add that this provision was inserted in complience with an agreement with the Indians upon the faith of which they parted with their lands. It is well for all the settles to understand this plainly, for otherwise they might subject themselves to a forfeiture of their lands.

Yours sincerely.

H. STEENERSON,

MADNESS IN PLANTS.

Mexican Weeds That When Used Will Drive Men Crazy.

Marihuana is a weed used by people of the lower class and sometimes by soldiers, but those who make larger use of it are prisoners sentenced to long terms. The use of the weed and its sale, especially in barracks and prisons, are very severely punished, yet it has many adepts, and Indian women cultivate it because they sell it at rather high prices.

The dry leaves of marihuana, alone or mixed with tobacco, make the smoker wilder than a wild beast. It is said that immediately after the first three or four drafts of smoke smokers begin to feel a slight headache; then they see everything moving, and finally they lose all control of their mental faculties. Everything, the smokers say, takes the shape of a monster, and men look like devils. They begin to fight, and of course everything smashed is a monster "killed." But there are imaginary beings whom the wild man cannot kill, and these inspire fear until the man is panic stricken and runs.

Not long ago a man who had smoked a marihuana cigarette attacked and killed a policeman and badly wounded three others. Six policemen were needed to disarm him and march him to the police station, where he had to be put into a straitjacket. Such occurrences are frequent.

There are other plants equally dangerous, among them the tolvache, a kind of loco weed. The seeds of this plant boiled and drunk as tea will make a person insane. Among some classes of Mexico it is stated that Carlotta, the empress of Mexico, lost her mind because she was given tolvache in a refreshment.

There is in the state of Michoacan another plant the effects of which upon the human organism are very curious. The plant grows wildly in some parts of Michoacan, and natives have observed that whenever they traverse a field where there were many of such plants they lose all notion of places. For this reason when a person reaches a place where there are many of these plants he forgets where he is going, where the place is and even where he is and what he is doing there. It takes from three to four hours for a person affected by the smell of the plant to recover the full control of his mental faculties.

Another very curious plant is the one called de las carreras in some places where it grows. When a person drinks a brew of the leaves or seeds of the plant he feels an impulse to run and will run until he drops dead of exhaustion.—Mexican Herald.

Her Endurance.

"How can you scold all the time?" was asked of the woman with five stepchildren and an indolent husband.

"I can't just explain it, but I know that I'm blessed with wonderful powers of endurance."

The Camel As a Soldier.

The camel is a good soldier, says a London writer. It may be stupidity, and it may be bravery, but a camel is as steady under fire as a tower. The Persians mounted small cannon on the backs of their camels and called them zambwahs, or "little wasps." This fashion was adopted in India, and after the battle of Sobraon 2,000 of these artillery camels were captured. In the Indian mutiny the British had a camel corps of 150 beasts, and on the back of each camel sat a Scotch highlander in his kilt. In 1845 Sir Charles Napier had a camel corps in Sindh, and in one day he marched seventy-five miles defeated a brigand chief and marched home again. In 1878 the British used camels against the Afghans, and the government paid for 50,000 camels that died in those campaigns. Many of these were driven to death by their owners in order that they might claim the government bounty.

Oddly Marked Tombstone.

In an old graveyard in Maine the monument to the founder of a distinguished family is marked with the outline of a human leg. It is formed by black streaks in the granite running through the stone, for at the back there is another leg, but much smaller in dimensions. Nobody saw this blemish when the stone was set up. Not until years had passed did any one notice it. People concluded that the stonecutters, not wishing to go to the expense of quarrying out another block, so hid the leg with cement and stone dust that the actions of the storms of a dozen winters were necessary to expose the strangely formed disfigurement.

You will never get on the sunny side by waiting for the world to turn round. —Atlanta Constitution.

The Frosted Hand.

"Yes, and after she refused me she waved her hand in farewell."

"Sort of cold wave, wasn't it?"—Cincinnati Plain Dealer.

A Caustic Tongue.

Years ago a prominent citizen of Chicago, who at that time was president of one of its leading clubs, in introducing another prominent citizen as a speaker at a club banquet dwelt in highly complimentary terms on the latter's efforts to bring about political reforms. "Gentlemen," he said, "no one in this city exerts a more powerful influence for good than does Mr. Blank when he is sober." Then in great confusion and amid an awed silence he hastened to explain that Mr. Blank exerted, as he had intended to say, a powerful influence when he was in earnest.

At the banquet given at the opening of the present Board of Trade building the elder Carter Harrison made a flamboyant speech congratulating himself on having been born in the same year that the steam locomotive was invented. He was followed by the late Emery Storrs, who said that, most appropriately, Carter Harrison and the locomotive were born in the same year since both of them had been blowing off steam ever since.

It was Emery Storrs who said that a fellow lawyer reminded him of a beautiful house with massive portals and impressive cornices, which, when you opened the front door, landed you immediately in the back yard.

Gilding Without Gold.

One more proof that all is not gold that glitters is found in the fact that much of the gold lettering seen on signs and also much of the gilding of picture frames, has no gold whatever about it. Among laymen the opinion prevails that all such decoration requires the actual use of gold leaf, but the reality is different, and a substitute that defies detection has been widely used for some time. The exact effect of gold is secured by using a leaf of either silver or aluminium under yellow paint. The metal backing gives the required luster, and the paint gives the required color. This method cannot be used in all cases, because the paint is of peculiar quality and requires putting on with an even thickness. For this reason it is generally applicable only to flat surfaces. Parts of a gilded picture frame which are molded into waving surfaces generally require genuine gold leaf to cover them. —Philadelphia Record.

NEW STORE.

I wish to call your attention to the fact, that I have a choice and well selected stock of groceries, which I am selling at reasonable prices. New settlers, who are in need of groceries can be supplied, at THE KUEHNEL POST OFFICE AND STORE, and save going long distance's to the city.

MISS A. KUEHNEL, PROP., and postmaster. Sec. 20 T. 153 R. 40.

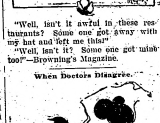
When Doctors Disagree.



"I'm gettin' tired of eatin' the same kind of grub every day."

"Never mind, grandpa. We'll have a new doctor next week, and then you'll have a change of diet."—Boston Journal.

Cynical.

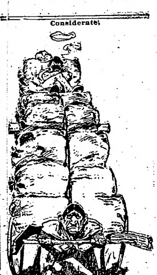
"Which do you think counts for the most in life, money or brains?"

"Well," answered Miss Cayenne, "I see so many people who manage to get on with so little of either that I am beginning to lose my respect for both."—Washington Star.

Just Help Himself.

He—If I tried to kiss you would you call for help? She—Would you need it? —Smart Set.

Considerate.



Voice (from above)—Lorenzo, wan you getta tired I'll t'rowa downa de dog."—Leslie's Weekly.

Monster Beds.

Though the beds of the royal personages of England were elaborately carved and hung with rich curtains even so late as the Tudor period, it is recorded that King Henry VIII.'s bed contained only straw beneath all its finery. A curious order exists as to precautions to be taken against the possibility of intended mischief to the royal person in the making of the bed, for the usher was to search the straw through with a dagger, "that there be none untruth therein, and to tumble over on the down bed for the better search thereof." The bed of Henry VIII. was nearly eleven feet square, and of even more generous dimensions is the great bed to which Shakespeare refers in a well known passage in "Twelfth Night," which was twelve feet square. This "great bed of Ware" has been a marvel for centuries.

The small courtesies sweeten life; the greater ennoble it.—Bovee.

LOCAL PARAGRAPHS.

Do your Notary Public business at the SUNBEAM office.

Applications to make final proof written free at this office.

We want about two hundred more cash subscribers at once.

Mr. and Mrs. Simon O'Tool were visiting at Mr. and Mrs. Walt McAndress on Sunday.

Olof Ramstad, of Thief River Falls was looking over lands in this locality to day.

Dan Sullivan is building a large and substancial farm residence on his claim, which will make him a fine home.

Eddy Singer drove down to Gully on Saturday last, retuning Sunday. He reports that the roads are in horrible condition.

The steam boat "Christenia" went up the river Wednesday with a load of freight for Red Lake Agency.

We know of two or three quat ers of land that are worth $20. an acre that can be bought of the government for $4, if you want to homestead them.

Mrs. Alfred Eye was at Tief River Falls, visiting friends last week, retnrning Tuesday evening. Alfred kept bachelors hall while she was away, but he had a lonesome far away look about him.

The fish in the river seem to have gone on a strike and refuse to bite at any hook, no matter how tempting the bait, but prehaps they have learned that the board of health at Mankato have pronounced fish to be unhealthy food, at this time of year.

We were sorrey to learn that Stephen Singer, who was in the office with us at Gully has a malignant attact of typhoid feavor and is being treated at the Fosston hospital. At last accounts he was doing as well as could be expected but will be laid up for some time.

John Sullivan, Mrs. Tom Sullivan and her daughter Miss Nora Sullivan, went to Crystal, N. D., on Thursday morning to attend to their extensive farming interests out there, and expect to be absent until about October 1st,. Mrs Sullivan took some fine specimens of flax grown nere here to show the Dakota people what this part of Minnesota can produce.

We made a mistake in dates in our mention of the harvest ball at Rhoda in our last weeks issue. We don't just understand how that figure 2 got in there in the place where a 5 should have been, but it did and it stayed there from the first to the last paper, that went through the press. However we hope it will not prevent them from having a fine time at the dance tomorrow night.

Mr. Albert Spoklie, accidently mesured the depth of the river nere Mr. Arnts place and found it only ankle deep, that is when his feet were up. Him and Mr. Arnt were going to cross the river in a row boat and Mr. Spoklie, who has a cripple leg, in getting into the boat lost his footing and plunged into the river, but Mr. Arnt soon assisted him to terrafirma, with no more searious results than a good ducking.

There was a sad accident on the farm of Walt McAndrees last week. James O'Brien's man was mowing hay in the heavy pea vine when little Pat, who had had followed him to the field, as children some times will, in some way got in front of the sickle and one of his legs was entirely severed from his body, and he bled to death. Funeral servis were held in the McAndrees grove and the remains laid to rest on the bank of the river, beside which he loved to play during life. We believe we forgot to mention the fact that Pat was a fine pug dog and the pet of the O'Brien household.

APPLICATIONS AT LILLO.

If you live in the town of Equality or Johnson you can make your application to make final proof, at Lillo, and have your notice published in the paper published nearest your land.

LAND OFFICE BUSINESS.

U.S. Commissioner L. G. Browning with office located at Thief River Falls, is prepared to take homestead entries final proof etc., within the Crookston U. S. Land District.

Office in News building, three doors south of the post office.

OUR FIRST TOWN MEETING.

The Town of High Landing held their first meeting aud election on Saturday last, at High Landing post office. There was a fair attenc considerig the time of year and that the farmers are busy haying. There waa 45 votes cast and the following ticket elected.

Chairman of Supervisors, for 1 year, J. C. Gulrud.

Supervisor, for two years, P. Sullivan.

Supervisor, for three years A. M. Hanson.

Town clerk, James Jacobson.

Treasurer, Pete Wol.

Justice's of the peace, W. G. Hunt, F. Zardal.

Constable's A. Eve, J. Hole.

A resolution was passed declaring all section lines to be legal roads four roods wide, and two days pole tax was voted to be worked this season. $50 was voted for current expences and $100, for road and bridge fund.

The Township was devided into four road districts, that part south of the river being set off as one district and that north of the river divided into three districts. Dan Sullivan was elected road overseerer for road District No. 3 on this, the south side of the river, but we did not learn the names of the others.

It was the sense of the meeting, that the board do not go in debt for road graders at preasent, but that they buy eight common scrapers for this year.

TOWNSHIP OF KRATKA.

The following ticket was elected at the town election in the Township of Kratka on Saturday July 29th,.

Chairman of Supervisors for 3 years, Lars Berndrn. Supervisor for 2 years, Peter Hedeen Supervisor for 1 year, Ludvik Larson. Town clerk, P. M. Johnson. Treasurer, Carl Jensen. Assessor, L. Burgland. Justice's of the peace, C. W. Nelson, Roy McCullough. Constable's, Chas Peterson, Carl Hovon. A resolution was passed declaring all section lines public higways, and three days pole tax voted to fix them in passiable condition. There was only 36 votes cast as there was no stife for office, and the farmers are busy haying and did not go to election.

The Story of a Discovery.

How many valuable inventions have been the result of pure accident, while in other cases men have puzzled their brains with study for a lifetime and brought forth nothing!

It happened one night that a big starch factory on the banks of the Liffey, near Dublin, took fire, and great puddles of starch and water were left outside.

Some calico printers who had been out all night and were quite tipsy came along toward morning, and one of them stumbled into one of the puddles. He found it so sticky that all his clothes stuck to him so fast that he had to stay in bed next morning till his wife soaked them out.

The man knew from his trade that the starch and water had formed a very powerful and valuable gum. He went back to the place of the fire and investigated, and the result was the discovery of the adhesive gum now used in sticking postage stamps and which has made many rich. But temperance lecturers need not know it.—Boston Globe.

The Same Thing.

A New York paper asks, "Will man become obsolete?"

Don't most of them get married?—Columbus Enquirer-Sun.

To Clean Plaster Ornaments.

Clean plaster ornaments by dipping in cold starch, brushing the powder off lightly when dry.

Marketing in Paris.

Almost every woman in France does her own marketing, and ladies take their maid or cook along to carry home their purchases.

I am speaking of the average household. Rich or very chic people leave the marketing to the cook, who deals in stores which have regular deliveries, while in very wealthy households that all important personage, the chef, would not hear of any one interfering with his prerogative of selecting and ordering everything, and this able creator of sauces, of things savory, steaming or jellied, may even have his own coupe to take him to the Halles, the huge market that each day provides the provisions for all of Paris and its suburbs.

Servants love to go to market, for it is a custom with almost every storekeeper to give them a cent on every franc spent, so you will find it next to an impossibility to make your cook deal where she does not receive her sou du franc, and in engaging a servant many will ask you, "Does madame do her own marketing?"—Good Housekeeping.

Milk and Apples.

Though no one would think so from looking at a fluid glass of milk and a solid apple, the percentage of solids and water in apples and in milk is almost the same, apples being 85 per cent water, and milk 86 per cent.

There is more sugar in apples and more acid in milk. A diet of both apples and milk is one of the most wholesome and well balanced. The potash contents of both are high. They are the best for brain, bone and muscle nourishment, and in their effect upon the nerves they are soothing.

In skimming milk the cream removed lessens the fat percentage, and for older people or fat children the skim milk is equally desirable, in some cases better. In eating apples the skin, too, should be eaten. Pared apples are not so nutritious, as the ash contents of the apple skin are valuable to the human system.

Odd Animal Laws.

When a dog was unlawfully killed in countries differing so widely as Germany and Arabia the owner of the animal used to be indemnified in the following manner: The dog was hung up by the tail, with the point of its muzzle touching the ground, and the man who had committed the offense was obliged to pour over it corn or flour until the carcass was completely hidden by the heap. This heap then became the property of the man who owned the dog.

In Syria there was a specially curious variation, for if it were a street dog that was killed the flour was made into bread and given to its fellows. No doubt this arose from the value attached in these old parts to street dogs as scavengers. By the old Welsh laws of Howel the damages for killing an animal belonging to another were assessed in the same odd manner.

Two Kinds of Reading.

If we make the pages of our books merely a sort of pleasant maze in which to set our minds to wandering during idle hours we in reading shall have acquired a pastime that is usually harmless. But there is a vast difference between such a way of spending our time and the reading that teaches us to think as the greatest and wisest men and women have thought. Words stand in our minds for certain ideas or images. From what we read we learn to make these plain or hazy, clearly drawn pictures or carelessly executed sketches, and thus our powers of thinking are directly trained by our method of reading.—St. Nicholas.

Magnet Power.

The lifting of massive iron and steel plates weighing four, six and twelve tons by magnetism is now done every workday in a number of large steel works. The magnets are suspended by chains from cranes and pick up the plates by simple contact and without the loss of time consequent to the adjustment of chain and hooks in the older method. It is also found that the metal plates can be lifted by the magnets while still so hot that it would be impossible for the men to handle them. A magnet weighing 800 pounds will lift nearly five tons.

Position In Sleep.

According to Dr. Fischer of Berlin, the most effective position of sleep for obtaining intellectual rest is to keep the head low and the feet slightly elevated. Failing this, the body should at any rate be horizontal, so as to irrigate the brain well. The habit of sleeping with head low and feet high is, according to the doctor, a remedy for brain troubles and some internal maladies. It can be adopted gradually.

Ill Luck Averted.

"My dear," said Mrs. Spenders by way of preliminary, "would you consider an opal unlucky?"

"I would if I got a bill for one and had to pay it," began her husband sternly.

"Oh," she interrupted, "I'm so glad I ordered a diamond instead!"—Catholic Standard and Times.

Sarcastic.

Cholly—D'you know, I'm sometimes inclined to think— Clara (encouragingly)—Why don't you do it, Cholly? It's not such a difficult thing if you really try.

Limit to Rights.

Even the free citizen of a free country may not have in all cases the right to do what he pleases with his own property.—Galveston News.

Not So Enjoyable.

Friend—Your wedding breakfast was a delightful affair. Mr. Honeymoon (with a sigh)—Yes, but we've had [illegible]

NOTICE FOR PUBLICATION.

First Pub. Aug 4th. 1905.

Department of the Interior, Land Office at Crookston Minn. July 31st 1905.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register and Receiver of the U. S. Land Office, at Crookston Minnesota, on September 7th 1905 viz:

Peter O'Toole.

H.E. No. 428. Red Lake Series, for the S. W. ¼ Sec. 25 Tp. 158 N. R. [illegible] W.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:

Simon O'Tool, Albert Spoklie, James O'Brien, Walter McAndrees, all of [illegible] Minn.

R. J. MONTAGUE Register.

A LITTLE NONSENSE.

Why a Certain Married Man Had the Blues.

"What's the matter, old man?" he said as they met the next morning after. "You look blue."

"I feel blue."

"But last night you were the jolliest member of our party."

"I felt jolly."

"You acted like a boy just let out of school."

"I felt like one."

"You said that your wife had gone away for the first time in three years and there wasn't any one to say a word if you went home and kicked over the mantel clock."

"I remember it."

"You said that if you stayed out until 4 o'clock there was no one to look at you reproachfully and sigh and make you feel mean."

"Yes, and I stayed out until 4 o'clock, didn't I?"

"You certainly did."

"And I gave a war whoop on the front doorstep."

"Yes, and you sang a verse from a comic opera song and tried to dance a clog."

"Yes, and my wife missed that train. Now, please go away and let me alone."—St. Louis Republic.

A Better Way.

Dramatist—In my new play the hero gets killed in the last act.

Manager—That's a mistake.

Dramatist—Why?

Manager—He ought to be killed in the first act.

To Promote Politeness.

The pupils and alumni of an academy in Chicago have organized a club known as the Knights and Ladies of Courtesy, "to promote politeness and a more accurate and dignified use of the mother tongue." The club has elected an official optimist and pessimist, who are to report upon the evidence of improvement or decadence in public and private manners.

Beautifying Paris.

The Avenue des Champs-Elysees, Paris, is to be extended to the forest of St. Germain, at a cost of $2,000,000. The avenue will be about eight miles long and 135 feet wide. In the middle will be an electric railway, and at each side of the railway will be tracks for motor cars, cycles, horse vehicles and pedestrians.

His Economy.

Wyte—Browne is very economical, isn't he? Black—Browne? Well, I'll tell you. Browne is the sort of man who, when he wants an awl and hasn't any, instead of buying one will go to work to make one by straightening out a corkscrew.

A Puzzle.

Miss Snowflake—What did Jim Jackson git married for? Miss Washtub—Goodness only knows! He keeps right on workin'.—Puck.

Be ignorance thy choice where knowledge leads to woe.—Beattie.

Against Her Principles.

"Don't you think," asked Mrs. Oldcastle, "that everybody is affected more or less by environment?"

"Yes," replied Mrs. Packenham, "if they're foolish enough to take such things, but I always turn down my glass and never touch it."—Chicago Record-Herald.

Hadn't Tested It.

He—It's impossible to please everybody in this world, isn't it? She—I don't know. I never tried it.—Detroit Free Press.

HIGH LANDING STORE.

DRY GOODS, CLOTHING

BOOTS & SHOES.

GROCERIES & CROCKERY.

I have no large rent bills to pay or other city expeness to be kept up and can and will sell you goods as cheap as you can buy them anywhare in northern Minnesota.

Andrew Ellingson.

FROM A WIFE'S DIARY.

A word to the wise is resented.

Many are called, but few get up.

Where there's a will there's a law suit.

Fools rush in and win—where angels fear to tread.

Misery loves company, but company does not reciprocate.

Love is romantic. Matrimony is decidedly a matter of fact.

When we hear of other people's troubles it reconciles us to our own.

We never know how good we are going to be until the opportunity has passed.

If you bestow a favor forget it, but if you receive one it is wise to remember.

Happiness is the greatest of tonics, the best of cosmetics and the envy of dyspeptics.—Detroit Tribune.

Glass Eyes for Animals.

Glass eyes are now made for horses, cats and dogs, as well as for human beings. These animals use a larger eye than man, and several are ordered for them at the same time, as a new one is necessary about once in six months. The edges become roughened and produce irritation, from the acids of the secretions affecting the enamel.

Dog's Sudden End.

Peter McArthur, talking about a novelist who was arranging for the dramatization of a novel that he had not yet completed, remarked: "He is a good deal like a Canadian friend of mine who went hunting with a dog. The trip was all right for a time, but there came a sudden end when the dog undertook to jump over a deep well at two jumps."

Good Thing to Remember.

An eggshell is porous, and dirt on it affects the meat.

DEFECTIVE PAGE

PERSONAL PARTICULARS.

The family of the late Gen. Gomez has presented the jeweled sword he received from an American to the National museum of Havana.

The late Mary A. Livermore was once called "the Daniel Webster of American women" because of her majestic mien, solidity of character, Doric simplicity of thought and weight of utterance.

Miss Bessie Bain, who lives on a farm near Chatham, N. Y., has been appointed an overseer of highways in her district. Miss Bain declares she will see that the work is well done. She intends to have the best section of road in the township.

Miss Helen Buck, president of the graduating class at Mount Holyoke college, probably is the greatest woman athlete in the world, but in attaining that distinction has sacrificed none of her studies. A famous university trainer says that with scientific instruction Miss Buck would prove a worthy rival of some of the best male athletes.

Harold A. Loring, of Portland, Me., has received an appointment from the secretary of the interior as supervisor of native Indian music. Mr. Loring has passed some time among the Sioux Indians of the Rosebud Indian reservation in South Dakota, becoming much interested in the Indians and their music. His new duties will take him among the various reservations of the Indians in the west.

Mrs. Frederick Ferris Thompson, of New York, is an unknown woman—in a public sense, that is to say—who is doing handsome things with her money without the embarrassment of conditions. She has erected a physical culture building for the Teachers' college, in New York, costing $350,000. A library building which she gave Vassar took $500,000, and a college chapel building for Williams college, costing $400,000, will be dedicated in a few days.

Clever of Her.

"My dear," said young Mr. Marage, "what is this dessert, anyway?"

"It's called surprise pudding," replied the dear young thing. "I tried to make bread, but it wouldn't rise for me, so I just made a nice wine sauce for it and turned it into dessert."—Philadelphia Press.

When Children Are Truthful.

"My little boy never tells a lie—"

"Aw, come off!"

"When there are visitors present, Wait until I finish, can't you."—Courier-Journal.

THE PLAYWRIGHT-STAR.

Odette Tyler, Famous Actress, Values Doan's Kidney Pills.

Miss Odette Tyler is not only one of the best known dramatic stars in America, but has written and produced a successful play of her own. Miss Tyler has written the following grateful note, expressing her appreciation of Doan's Kidney Pills:

Odette Tyler

Foster-Milburn Co., Buffalo, N.Y.

Gentlemen: My experience with your valuable remedy has been equally gratifying to both myself and friends.

Foster-Milburn Co., Buffalo, N. Y. For sale by all dealers. Price, 50 cents per box.

NO MORE HEADACHE

GENERAL WEAKNESS AND FEVER DISAPPEAR TOO.

How a Woman Was Freed from Troubles That Had Made Life Wretched for Many Years.

The immediate causes of headaches vary, but most of them come from poor or poisoned blood. In anæmia the blood is scanty or thin; the nerves are imperfectly nourished and pain is the way in which they express their weakness. In colds the blood absorbs poison from the mucous surfaces, and the poison irritates the nerves and produces pain. In rheumatism, malaria and the grip, the poison in the blood produces like discomfort. In indigestion the gases from the impure matter kept in the system affect the blood in the same way.

The ordinary headache-cures at best give only temporary relief. They deaden the pain but do not drive the poison out of the blood. Dr. Williams' Pink Pills on the contrary thoroughly renew the blood and the pain disappears permanently. Women in particular have found these pills an unfailing relief in headaches caused by anæmia.

Miss Stella Blocker recently said: "Dr. Williams' Pink Pills did me a great deal of good. I had headache nearly all the time. After I had taken three boxes of these pills I became entirely well."

"How long had you suffered?" she was asked.

"For several years. I can't tell the exact date when my illness began for it came on by slow degrees. I had been going down hill for many years."

"Did you have any other ailments?"

"I was very weak and sometimes I had fever. My liver and kidneys were affected as well as my head."

"How did you come to take the remedy that cured you?"

"I saw in a southern newspaper a statement of some person who was cured of a like trouble by Dr. Williams' Pink Pills. My physician hadn't done me any good, so I bought a box of these pills. After I had taken one box I felt so much better that I kept on until I became entirely well."

Miss Blocker's home is at Leander, Louisiana. Dr. Williams' Pink Pills are sold by all druggists. Besides headache they cure neuralgia, sciatica, nervous prostration, partial paralysis and rheumatism.

Mission of the Cossack.

It is worthy of notice that the czar of Rusisa depends for his safey almost wholly upon his regiments of Cossacks. These mounted soldiers have proved themselves to be despicable warriors in the far east. As a factor in war the Cossack has tumbled from the high position he once held to an exceedingly low level. On the other hand, as the arm prop and buttress of a despotism, the Cossack has proved himself to be an unqualified success. His function, the one in which he excels, is to charge, with sword or loaded whip, upon crowds of unarmed men, women and children where the probabilities of effective retaliation are exceedingly slight.—Boston Herald.

Just Like a Woman.

Noah—It's going to rain cats and dogs.

The Secret of Good Coffee

Even the best housekeepers cannot make a good cup of coffee without good material. Dirty, adulterated and queerly blended coffee such as unscrupulous dealers shovel over their counters won't do. But take the pure, clean, natural flavored **LION COFFEE**, the leader of all package coffees—the coffee that for over a quarter of a century has been daily welcomed in millions of homes—and you will make a drink fit for a king in this way:

HOW TO MAKE GOOD COFFEE.

Use LION COFFEE, because to get best results you must use the best coffee.

Grind your LION COFFEE rather fine. Use "a tablespoonful to each cup, and one extra for the pot." First mix it with a little cold water, enough to make a thick paste, and add white of an egg (if egg is to be used as a settler), then follow one of the following rules:

1st. WITH BOILING WATER. Add boiling water, and let it boil THREE MINUTES ONLY. Add a little cold water and set aside five minutes to settle. Serve promptly.

2d. WITH COLD WATER. Add your cold water to the paste and bring it to a boil. Then set aside, add a little cold water, and in five minutes it's ready to serve.

3 DONT'S { Don't boil it too long. Don't let it stand more than ten minutes before serving. Don't use water that has been boiled before.

TWO WAYS TO SETTLE COFFEE.

1st. With Eggs. Use part of the white of an egg, mixing it with the ground LION COFFEE before boiling.

2d. With Cold Water instead of eggs. After boiling add a dash of cold water, and set aside for eight or ten minutes, then serve through a strainer.

Insist on getting a package of genuine LION COFFEE, prepare it according to this recipe and you will only use LION COFFEE in future. (Sold only in 1 lb. sealed packages.)

(Lion-head on every package.)

(Save these Lion-heads for valuable premiums.)

SOLD BY GROCERS EVERYWHERE

WOOLSON SPICE CO., Toledo, Ohio.

NEWS OF MINNESOTA.

Hymn to Minnesota.

(By Permission of Jos. E. Osborn, Author and Composer.)

O, Minnesota, hail unto thee;
Brightest of stars on the flag of the free.
Happy thy youths and thy beauteous maids,
Reared 'mid thy valleys, thy woods and thy glades.
Father of rivers and mother of lakes,
Grandest and noblest of all of our states.

Th' Indian o'er prairies no longer roams;
Studded they are with most beautiful homes.
Hushed is the war-cry at Anthony's falls,
"Rah" rings instead at the 'Varsity Halls.
"Rah, Ski-u-mah," yes, the roar is the same,
Bringing to State and the 'varsity fame.

Great are thy statesmen and warriors bold,
Courage and wisdom and wit they unfold.
Great are thy mills and thy mines and thy marts,
Commerce and schools, and mechanics and arts.
Great is thy nature and great are thy men,
Hail unto thee, yes, again and again.
Father of rivers and mother of lakes,
Grandest and noblest of all of our states.

Will Not Have to Borrow.

St. Paul.—It looks as though it will not be necessary for the state treasurer to borrow money to make good the increasing overdraft in the general revenue fund.

During the past week the fund received about $50,000 as the result of the purchase of state capitol certificates with state school moneys. Now the shortage in the general revenue account is accordingly decreased to $300,000. Though this deficit will be materially increased again, there is something over $600,000 in county taxes, due June 20, still unpaid. Of this amount nearly $200,000 will enter the general revenue fund, and the balance may be used on overdrafts.

Counties which have as yet failed to send in their taxes to the state are Hennepin, Ramsey, St. Louis, Beltrami, Clearwater, Fillmore, Carlton, Hubbard, Itasca, Kanabec, Otter Tail, Pine and Sherburne.

Use Automobile.

St. Paul—What is probably the only automobile in use by a rural mail carrier in the country leaves here every morning for New Canada and vicinity. Gerhard Melchoir is the enterprising carrier who has introduced this innovation in the method of serving the patrons on his route, and he can be seen starting out on his daily round from the Bradley street station shortly after 9 o'clock every morning.

The means of locomotion is an important one for the rural carrier, as he must make his daily tour in all kinds of weather, and he naturally tries to complete his round as quickly as possible. He has his horses to feed and keep well shod. If one of the horses goes lame or is otherwise disabled he is put to great inconvenience and perhaps considerable expense in caring for the sick horse and hiring a substitute.

No More Battle.

Minneapolis.—There will be no further battle in Minnesota between the independent oil companies and the Standard Oil over railroad rates.

The Standard is not objecting to the recent ruling made by the railroad and warehouse commission whereby the roads were ordered to carry oil shipments in barrels in less than carload lots at the same rate granted the Standard on its tank cars; and at a meeting of representatives of all the railroads doing business in Minnesota, held at the offices of the attorneys for the Northern Pacific in St. Paul, it was decided not to appeal from the ruling of the state railroad commission, so far as the railroads are concerned.

261,974.

Minneapolis.—Final official census figures place the population of this city at 261,974. This is a gain of 59,256 since the federal census of 1900. The gain is the greatest of any five-year period in the history of the city.

Secretary of State Peter E. Hanson announced the returns, after the final checking had been done. The showing made by Minneapolis is a surprise to the most sanguine enthusiasts in the matter of the city's growth. The most hopeful hardly dared to make advance estimates much closer to the actual results than 5,000 under the figures.

News Notes.

Moorhead—It has been decided to hold a carnival and harvest festival in this city for four days, beginning Aug. 23. A committee from the Commercial club, including Messrs. Dalby, Kiefer and Wright, have charge of the arrangements.

Virginia—Little Anthony Kuberka, the 6-year-old son of Mr. and Mrs. Kuberka, is lost in the woods north of here, and searching parties are searching the land.

Hokah—Suit for $20,000 for personal injuries by falling over an obstruction in the street has been started against the village by Jesse Reynols of Minnesota Lake.

St. Paul.—George Phillips, a bridge foreman, is fatally injured by a fall and dies while on the way to the hospital.

Long Prairie—Farmers living in Leslie are making complaints of the ravages of wolves. Frank Moore lost thirty-five sheep.

Bird Island—The farmers have organized a farmers' elevator company, with Nick Bruels as president.

Winona—Advices received here are that the steamer Quincy of the Diamond Jo line, which has been undergoing extensive repairs at Dubuque, is still in the drydock, the launching having been delayed on account of high water in the river. A new hull is being built at Dubuque for the Glenmont of the Van Sant fleet.

Sister Mary's Wisdom.

Mary had a little lamb, its fleece was white as snow; it strayed away one summer day where lambs should never go. Then Mary sat her down and tears streamed slowly from her eyes; she never found the lamb because she did not advertise. And Mary had a brother John, who kept a village store; he sat down and smoked his pipe and watched the open door. And as the people passed along and did not stop to buy, John still sat down and smoked his pipe and blinked his sleepy eye.

And so the brokers seized his stock, but still he lingered near, and Mary came to drop with him a sympathetic tear.

"How is it, sister, can you tell why other shopmen here sell all their goods so quickly and thrive from year to year?"

Remembering now her own bad luck, the little maid replies: "These other fellows fatten, John, because they advertise."

Voice from Arkansas.

Cleveland, Ark., July 31st. (Special).—Nearly every newspaper tells of some wonderful cure of some form of Kidney Disease by the Great American Remedy, Dodd's Kidney Pills, and this part of Arkansas is not without its share of evidence that no case is too deeply rooted for Dodd's Kidney Pills to cure.

Mr. A. E. Carlile, well known and highly respected here, tells of his cure after nearly a quarter of a century's suffering. Mr. Carlile says:

"I want to let the public know what I think of Dodd's Kidney Pills. I think they are the best remedy for sick kidneys ever made.

"I had Kidney Trouble for 23 years and never found anything that did me so much good as Dodd's Kidney Pills. I recommend them to all sufferers."

There is no uncertain sound about Mr. Carlile's statement. He knows that Dodd's Kidney Pills rescued him from a life of suffering and he wants the public to know it. Dodd's Kidney Pills cure all Kidney ills from Backache to Bright's Disease.

Do Differently Now.

Grandmamma—When your grandpa was courting me he always kissed me upon the brow.

Granddaughter—If a man kissed me upon the brow I'd just call him down a little bit.—Smart Set.

ULCERS FOR THIRTY YEARS.

Painful Eruptions from Knees to Feet Seemed Incurable Until He Used Cuticura.

Another of those remarkable cures by Cuticura, after doctors and all else had failed, is testified to by Mr. M. C. Moss, of Gainesville, Texas, in the following letter: "For over thirty years I suffered from painful ulcers and an eruption from my knees to feet, and could find neither doctors nor medicine to help me, until I used Cuticura Soap, Ointment and Pills, which cured me in six months. They helped me the very first time I used them, and I am glad to write this so that others suffering as I did may be saved from misery."

There is hardly enough flattery in the whole world to satisfy one man who believes he has a fine figure that must be dressed in the perfection of fashion.—N. Y. Press.

Don't Get Footsore! Get Foot-Ease. A wonderful powder that cures tired, hot, aching feet and makes new or tight shoes easy. Ask to-day for Allen's Foot-Ease. Accept no substitute. Trial package FREE. Address A. S. Olmsted, Le Roy, N. Y.

If you see a man carrying a watermelon home, you can be practically sure that he never undertook to do the same thing before.—Boston Globe.

Piso's Cure cannot be too highly spoken of as a cough cure.—J. W. O'Brien, 322 Third Ave., N., Minneapolis, Minn., Jan. 6, 1900.

A truly modest man is one who keeps his opinion of himself to himself.—N. O. Picayune.

MISS ELLA OFF, INDIANAPOLIS, IND.

SUFFERED FOR MONTHS.

Pe-ru-na, the Remedy That Cured.

Miss Ella Off, 1127 Linden St., Indianapolis, Ind., writes:

"I suffered with a run down constitution for several months, and feared that I would have to give up my work.

"On seeking the advice of a physician, he prescribed a tonic. I found, however, that it did me no good. On seeking the advice of our druggist, he asked me to try Peruna. In a few weeks I began to feel and act like a different person. My appetite increased, I did not have that worn-out feeling, and I could sleep splendidly. In a couple of months I was entirely recovered. I thank you for what your medicine has done for me."—Ella Off.

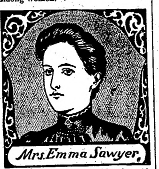
KIDNEY TROUBLES

Increasing Among Women, But Sufferers Need Not Despair

THE BEST ADVICE IS FREE

Of all the diseases known, with which the female organism is afflicted, kidney disease is the most fatal, and statistics show that this disease is on the increase among women.



Mrs. Emma Sawyer,

Unless early and correct treatment is applied the patient seldom survives when once the disease is fastened upon her. Lydia E. Pinkham's Vegetable Compound is the most efficient treatment for kidney troubles of women, and is the only medicine especially prepared for this purpose.

When a woman is troubled with pain or weight in loins, backache, frequent, painful or scalding urination, swelling of limbs or feet, swelling under the eyes, an uneasy, tired feeling in the region of the kidneys or notices a brick-dust sediment in the urine, she should lose no time in commencing treatment with Lydia E. Pinkham's Vegetable Compound, as it may be the means of saving her life.

For proof, read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sawyer.

"I cannot express the terrible suffering I had to endure. A derangement of the female organs developed nervous prostration and a serious kidney trouble. The doctor attended me for a year, but I kept getting worse, until I was unable to do anything, and I made up my mind I could not live. I finally decided to try Lydia E. Pinkham's Vegetable Compound as a last resort, and I am to-day a well woman. I cannot praise it too highly, and I tell every suffering woman about my case." Mrs. Emma Sawyer, Conyers, Ga.

Mrs. Pinkham gives free advice to women; address in confidence, Lynn, Mass.

IN THE FAR EAST

Progress of Peace Negotiations Between Russia and Japan—Foreign and Domestic Items of Interest Told in Brief.

RUSSO-JAPANESE WAR.

Japan will grant freedom to all political prisoners at Sakhalin. The island is in Japan's hands, the garrison surrendering.

Japanese announce that the Russian forces on Sakhalin island were routed after a hard fight.

It is officially reported at Tokio that two Russian torpedo boat destroyers appeared off Chungching, on the northern coast of Korea, and attacked the Keisho, a small merchant steamer. The destroyers fired 60 shots, seven of which hit the port side of the engine room and bridge, killing the captain and one boy, and wounding two of the crew.

Advance guards of the hostile forces south of the Tumen river are within rifle range and an early conflict is regarded in Tokio as inevitable.

Japanese in Korea begin a simultaneous advance against Musariet and Platsabang passes, but the Russians report that both columns have been checked.

Gen. Linevitch telegraphs St. Petersburg denying he has been surrounded and declaring that all his troops are well arranged.

Peace plenipotentiaries of Japan and Russia were received by President Roosevelt at Oyster Bay with imposing ceremonies and formally presented to each other.

M. Sergius Witte, Russia's chief plenipotentiary to the peace negotiations, arrived in New York and issued an address praising the American people, but showing no optimism over the meeting with the Japanese envoys. Members of M. Witte's party, while speaking guardedly concerning the coming negotiations, say their business first is to secure Japan's terms, after which it will be determined whether there is any basis for a further parley.

Diplomats regard the peace outcome as uncertain; Russia fears that Japan's terms will be too exacting and humiliating, and Japan doubts good faith of the czar's representatives; armistice and Sakhalin as issues. Roosevelt is to avoid precedence entanglements.

It is said that M. Witte has the power to sign a treaty of peace within 24 hours if Japan's terms meet with his approval. Japan is expected to demand $750,000,000 indemnity.

PLAGUE IN THE SOUTH.

President Roosevelt, acting on the request of Gov. Blanchard, of Louisiana and leading officials and citizens of New Orleans, has directed Surgeon General Wyman to take charge of the yellow fever situation. A Mississippi quarantined boat was captured by Louisiana naval militia and officers and men arrested.

Owing to the strict quarantine against New Orleans enforced by Louisiana parishes, handling of mails is being stopped and the federal government is expected to take control of the yellow fever situation.

Yellow fever made greater gains at New Orleans and invaded the section above Canal street. Authorities admit the disease will have to run its course.

The record of deaths from yellow fever in New Orleans was broken, 11 persons dying in a day, making 84 deaths thus far.

The federal government has been drawn into a clash between Louisiana and Mississippi over the yellow fever situation, a revenue cutter assisted Mississippi; patrol boats in Louisiana waters.

The southern portion of Illinois has been quarantined against the yellow fever districts in Louisiana and other states.

Yellow fever has made a big gain at New Orleans, where the number of cases is 54, but the deaths reported decrease to five.

MISCELLANEOUS.

Charles F. Pfister, Milwaukee's leading capitalist and politician, was indicted by a grand jury, charged with stealing $14,000 intrusted to him for use in obtaining a city garbage contract for the Wisconsin Rendering company.

Congress, says Secretary Wilson, is responsible for the government refusing meat inspectors to small packers, thus aiding the beef trust.

Thousands of persons have filed applications for homesteads at the opening of the reservations in Utah and Colorado.

A. M. Katon, who was born in Ireland 115 years ago, and believed to have been the oldest man in the northwest, is dead at Glidden, Wis.

Telegraphers on the Great Northern and Northern Pacific railroads went on strike because of a difference over wages.

The ranks of the striking telegraphers on the Great Northern and Northern Pacific systems are said to be broken. Manager Horn declares the attempt to tie up traffic a failure.

More delays of passenger trains have resulted from the telegraphers' strike on the Great Northern and Northern Pacific

Secretary Taft and party sailed on the Manchuria from Nagasaki, their last port in Japan, closing a tour marked by many demonstrations.

Secretary Taft and party were officially welcomed by the governor and other officials at Nagasaki, Japan.

Secretary Taft and party received an elaborate welcome in Manila.

A mysterious case of wholesale poisoning at the summer boarding house of Mr. and Mrs. John Chamberlain, near Cincinnati, O., prostrated seven persons. Several of the victims are still in a serious condition.

David Reed, 60 years of age, shot and killed his wife and afterwards drowned himself in a ditch near their home at Hamlet, Ind., in which there was only 18 inches of water. Reed was formerly a policeman in Chicago.

Big crops, according to Dun's and Bradstreet's reviews, have resulted in an unusual expansion of trade all over the country.

After being out more than 40 hours the jury in the Oregon land fraud cases against Congressman Williamson, Dr. Van Gesner and Land Commissioner Biggs reported that it was unable to agree, making the second disagreement in the same case. The third trial will begin on August 28.

An attempt to blow up the French ship Asnieres at sea has been reported by Capt. C. Touze, who arrived with the vessel at San Francisco. He said that a dozen capped fuses, such as are used by miners, were found in his cargo, and that a shock or jar might have ignited them and destroyed the vessel.

Information is in the hands of the Chicago police that may lead to the unraveling of the automobile murder of last November, in which William Bate, Jr., a chauffeur, was killed by a mysterious man who went by the name of "Dove."

Despite the efforts of his former friends and business associates the whereabouts of the missing Mayor William H. Belcher, of Paterson, N. J., have not been discovered.

John Laughlin, former state senator and one of the best known lawyers of Brooklyn, N. Y., died suddenly of apoplexy.

Judge D. S. Wade, aged 65, died at his home at Little Medford, O. He was probate judge of Ashtabula county for several terms.

Leon Howell and Jennie Richardson, and Helen Pallis, colored children, were drowned in a lake at Glenloch, N. J. The children had gone boating and one of the party rocked the boat, upsetting it. Two other children were rescued.

George H. Robinson's $3,000,000 damage suit against Edward Holbrook at Providence, R. I., has been settled out of court.

Capt. William Crocker, a prominent hotelkeeper and horseman, was fatally cut in an encounter with F. S. Jergen, of Huntington, W. Va. W. E. Ingram and Walter Mayhew, of Ohio, all well-known horsemen, and an unknown jockey.

Eight prisoners escaped in a wholesale jail break at Sioux Falls, Ia. They were charged with burglary and highway robbery.

A mob took two negroes, "Kid" George and Ed Lewis, from jail at Hattiesburg, Miss., and hanged them to a bridge in the glare of the electric light for the murder of J. G. Smith, a convict guard.

The extraordinary session of the Swedish riksdag has been brought to a close.

The creditors of Mrs. Chadwick will receive seven mills on the dollar.

One woman was fatally and six seriously hurt as the result of a wreck on the Baltimore & Ohio near Johnstown, Pa.

Robert W. Criswell, editor of The New Yorker, a weekly publication in Gotham, who was charged with criminally libeling a friend of Alice Roosevelt, committed suicide by throwing himself under a train in the subway.

The celebration of the semi-centennial of the ship canal at Sault Ste. Marie came to an end with speeches by noted men, including Vice President Fairbanks.

Martin Strock and his two sons, aged 18 and 22 years, ten miles south of Big Stone City, S. D., were killed by foul air while cleaning out an old well.

After killing two persons, probably fatally wounding two others, one a woman, and less seriously shooting two moore, Ike Kinney, a negro, was killed at Doella, Ark., six miles south of Lewisville, after a fight with a posse.

Mrs. Lyman R. Hawkes, of Warren, Mass., and Mrs. Anna Skipper, a visitor, met death in the burning of the Hawkes farmhouse. Mrs. Hawkes died while trying to save Miss Skipper.

The safe of the post office at Boles, Mo., was blown open by robbers, who secured $200 in cash and $140 worth of stamps.

Judge Barnes, of the Nebraska supreme court, has granted a temporary injunction against the Nebraska Grain Dealers' association, which, it is alleged, is operating as a trust and in restraint of trade.

A local passenger train was wrecked at Pleasant Hill, Mo., mortally injuring Engineer Frank C. Berry, of Sedalia, and painfully injuring Engineer Raymond, of the same place.

Twelve of the 20 mills of the American Sheet & Tin Plate company at New Castle, Pa., will be placed in operation next week.

The bank of West Liberty, Ky., closed its doors, owing to excessive loans. The bank has been running about three years and had a capital stock of $15,000.

Two negro robbers entered the office of Contractor S. T. Roberts, in the business district of Des Moines, Ia., during the day and robbed him of $415 in cash and more than $500 in checks.

Gen. James R. Carnahan, major general of the uniform rank, Knight of Pythias, died at his home, after an illness of two weeks.

Arthur Weaver, a prominent business man of Clinton, Wis., was killed in a runaway. His wife was seriously injured and may die.

John Ballard, assistant postmaster at Richmond, Ky., has been arrested on a charge of rifling registered letters.

H. H. Loving, a former banker of Paducah, Ky., shot H. A. Rose, a prominent lumber man, and killed him. It is supposed that the shooting resulted from a quarrel over business affairs.

The Warren paper mills at Raubsville, Pa., were almost destroyed by fire. Loss $50,000, partially insured.

President Stuyvesant Fish, of the Illinois Central, declares rate discrimination should be stopped, but opposes the government's naming the tariffs.

Seven state insurance commissioners met in Chicago and decided to visit New York and investigate the large life insurance companies.

The celebration of the semicentennial of the opening of the Soo canal was begun with a naval parade, witnessed by Vice President Fairbanks.

Ohio prohibitionists nominated Aaron S. Watkins for governor.

Policeman Patrick E. Owens, of Chicago, fatally shot his wife during a quarrel.

The Catholic Order of Foresters at its international convention in Boston reelected Thomas H. Cannon high chief ranger.

King Oscar of Sweden has picked a cabinet favorable to a peaceful settlement with Norway.

Through a return filed by an undertaker at the office of the town clerk of Middletown, Conn., the fact became public that on July 14 George W. Tweed, a son of the late William M. Tweed, of New York, known as "Boss" Tweed, committed suicide by jumping from an upper veranda of the Connecticut hospital for the insane.

Andrew Wylie, for a long time a justice of the supreme court of the District of Columbia, but who retired some years ago, died at Washington.

Disappointed in love, Charles E. Reese, aged 50 years, one of the best-known and most highly respected men in southern Montana, suicided by shooting himself through the head in Virginia cemetery at Virginia City.

Percy Pierce, of Buffalo, has been awarded the $2,000 trophy offered by Charles J. Glidden for the best showing in the recent automobile endurance test from New York to Mount Washington and return.

Four lives were lost by the capsizing of a small skiff on Swan river, five miles north of Verna, Itasca county, Minn., near Ingstrom's landing. The names of the unfortunates are: Edith Tichenor, Goldie Tichenor, Everett Tichenor and Mrs. J. M. Pogue, settlers of that portion of country.

The bank at Royal, Champaign county, Ill., was broken open and robbed of $4,000. Nitroglcerin was used and the explosion, which blew the safe door through the roof, was heard for miles. The robbers escaped.

Duane Herbert Church, whose invention of about 150 machines has revolutionized the manufacture of watches in America, during the last 20 years, is dead from heart failure at his home in West Newton, Mass.

Seven sailors were killed and eight severely injured by the explosian of a submarine mine during mining practice in the Sandham Roads near Stockholm, Sweden. A boat containing the victims struck the mine and was blown into the air.

One white boy and two negro boys were killed outright and 20 other persons were more or less seriously injured in a heavy windstorm which struck Bessmay, La.

Mrs. Fred Schneider, the 18-year-old wife of a merchant tailor, of St. Joseph, Mich., committed suicide by jumping into the St. Joseph river before the eyes of several hundred resorters

T. M. Casey, cashier of the defunct Salmon and Salmon bank, of Clinton, Mo., who has been out under an $8,000 bond for foregery, has been arrested under four charges of receiving deposits when the bank was insolvent.

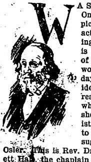
Mrs. Augusta Lehmann has acquired the sole ownership of the Fair department store at Chicago by buying out the holdings of Otto Young in the store founded by her husband, E. J. Lehmann.

WASHINGTON LETTER

CHAPLAIN OF THE SENATE A WONDERFUL OLD MAN.

HALES ARE A NOTED FAMILY

A Glance at the Disappointed People in Government Offices—First Assistant Postmaster General Hitchcock a Wise Choice.

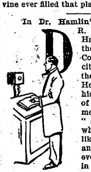


WASHINGTON.—One of the most picturesque characters in Washington public life is a man 83 years of age, who still works hard every day and has no idea that he has reached the stage when chloroform should be administered, according to the humorous suggestion of Dr. Osler. This is Rev. Dr. Edward Everett Hale, the chaplain of the United States senate. Dr. Hale would be a striking figure in a throng of 10,000. He is tall, slender, with just a slight stoop and is conspicuous for the splendid head that surmounts his shoulders. It is the head of a philosopher, and such a one as the old painters loved to put on canvas. He has long hair, brown and gray, blue eyes, deep set, and his beard is almost white. He has a deep, strong voice, and his morning invocation at the opening of the sessions of the senate sounds like a musical chant.

Dr. Hale is one of the busy old men who does not live in the past, but who believes in working for to-day and to-morrow. He is the author of ten books and is still writing. One of the best known of his works is "The Man Without a Country." He is of the strenuous type, physical and mental, just the kind of an old man that President Roosevelt delights in. He comes of the grandest stock in America, and Nathan Hale, the patriot spy of the revolution, was his great-uncle. Dr. Hale when but nine years of age was practicing shorthand, and he says himself that at the age of 12 years he could set type as well as an average journeyman. His father was a teacher, a lawyer, a civil engineer and an editor of a daily newspaper. His son was allowed to play with tools when but a child, and in the shop fitted up for him and his brothers were sharp tools, chemicals and gunpowder.

It was through the efforts of the late Senator Hoar that Dr. Hale was secured as chaplain of the senate, and it is admitted that no more dignified divine ever filled that place.

In Dr. Hamlin's Church.



DR. TEUNIS S. Hamlin, pastor of the Church of the Covenant in this city, has "made the deaf to hear." He has adopted in his church the use of a little instrument called the "acousticon," which is not unlike a telephone, and through which every deaf person in his church is able to hear the sermon distinctly. This instrument is attached to the reading desk, and is shaped something like a telephone, and also bears a little resemblance to a camera. It conveys sound through wires running to small receivers which are to be used by persons who can, under ordinary circumstances, hear nothing at all.

The instrument does not attract any more attention than a reading lamp would on a desk. The wires are out of sight and run along the floor of the church to certain seats, where small receivers are located. These receivers can be held to the ear without attracting the notice of those who sit near by and the deaf person in the congregation catch every word of the sermon. In delivering his sermon, Dr. Hamlin does not raise his voice above the ordinary pitch. He talks directly toward the instrument on the pulpit and keeps near it all the time he is speaking. He and his deaf parishioners are delighted with the success of the instrument, and it is probable that the latter will become very popular in this city.

Dr. Hamlin is one of the broad-minded, progressive clergymen of the day, who believes in the adoption of modern inventions and conveniences that will add to the comfort of his congregation. No false dignity or pride prevents his adopting what some people call "fads." The doctor is known as the "bicycle preacher" in Washington, as he early adopted that two-wheeled vehicle as a convenient and speedy means of visiting his parishioners. When called suddenly to attend any of his people the doctor mounts his wheel and makes his way to distant parts of the city in a short time.

The Government Clerks.

IT HAS been suggested that the legend written over Dante's Inferno, "Leave hope behind ye who enter here," could appropriately be blazoned over the doors of the government offices in Washington. The government departments are veritable graveyards of disappointed ambitions, if the history of hundreds of the clerks there employed is reviewed. Chief Clerk William H. Bayley, of the pension office, recently instituted an inquiry which developed some very interesting facts regarding the 1,200 clerks employed in that branch of the government service.

Mr. Bailey made a canvass for the purpose of ascertaining the former occupations of the employes, and the results were surprising. It was found that the register of clerks contained the names of nearly 400 men who had prepared themselves for the professions of law, medicine and theology. The graduates in law numbered 267, in medicine 100, and in theology 20. There were 40 clerks who had been authors, 43 were editors, 18 editors and publishers, 27 printers, 151 newspaper correspondents, four reporters, three proofreaders, 33 magazine writers and one confessed to having been a poet. A total of 144 clerks held diplomas from colleges and universities.

This office naturally attracts old soldiers, but it is surprising to learn the number of men who held high rank who are in the service. Among the men now passing on war claims who formerly held military titles are one major general, one adjutant general, five brigadier generals, eight colonels, seven lieutenant colonels, 12 majors, 48 captains, 80 lieutenants and eight second lieutenants. Among men who formerly helped make state laws there are nine ex-members of houses of representatives of various states and four ex-state senators. There are 18 former justices of the peace, five county judges, seven probate judges, three police judges and 12 sheriffs. There are 21 former surgeons, two bankers, six dentists and two elocutionists. There are no less than [illegible] of the 1,200 clerks who formerly followed teaching as a profession. It is a sad commentary on human failure to note the number of professional derelicts who have drifted into this dead harbor of government service.

Pests That Damage Our Crops.

THE ravages of insects and worms upon the crops in this country mean a loss that is simply startling. In the year book of the department of agriculture just issued a compilation has been made of the loss worked by 14 of the most important of the pests. It is estimated that the loss from all insect pests direct or indirect reaches the enormous sum of $750,000,000. The 14 pests which the experts of the department of agriculture has investigated do an estimated annual minimum damage of some $300,000,000.

As leader of these enemies of human endeavor the chinch bug costs the farmers $60,000,000. Most of this falls upon the wheat raisers, as the bug is very fond of wheat. The Hessian fly is also very destructive of wheat, the damage caused by it being conservatively placed at $40,000,000. The corn root worm, or the cut worm as it is known, and the corn ear worm together work damage as great as the Hessian fly. The south's great staple, cotton, suffers greatly from the ravages of various pests. The boll weevil, the boll worm and the cotton leaf worm inflict an annual damage of $50,000,000, and a recent official report expressed the opinion that when the weevil shall have spread all over the cotton producing territory it will be capable of inflicting an annual loss of $230,000,000.

In the orchards of the country a continual warfare must be waged to prevent the ruin of crops, and as it is, the fruits of all kinds sustain losses amounting to nearly $30,000,000 during the season. The worst enemy of the apple is the codling moth, but the most dangerous enemy of fruits generally is the San Jose scale. The annual damage resulting from the scale is estimated at $10,000,000, and the loss from the ravages of the codling moth have reached as high as $15,000,000. Tobacco has its enemy by which an annual loss is worked of over $5,000,000. Grasses and hay are also damaged materially, as are all fruits and vegetables. This does not take into account the ruinous work of locusts and grasshoppers, which sometimes kill all the crops and growing trees in large sections of the country.

GOPHER GOSSIP.

St. Paul—Judge Kelly holds that the city gambling ordinance is illegal.

White Bear—White Bear and Pluto win the yacht races at White Bear.

St. Paul—The state closes a fiscal year with a deficit in the revenue fund of $541,624 95.

Duluth—Congressman Bede says the floods in northern Minnesota might have been averted.

Hastings—Magnus Shuholm was assaulted and robbed of $20 by a footpad in front of his home.

St. Paul—Fifteen thousand people a month, practically all sightseers, visit the new state capitol.

Kragness—Wm. Mutterer, a farm laborer, while swimming in the Buffalo river, was drowned.

Duluth—Opposition is arising to the sale of $2,000,000 Virginia bonds held by the state school fund.

St. Paul—"The Treaty of the Traverse des Sioux," by Frances D. Millet, is hung in the new capitol.

St. Paul—The census figures show an increase of almost 50 per cent in the Indian population in the state.

Eveleth—John Aho, a Finn, 26 years old, was smothered by ore at the Petit mine stock pile, five miles east of here.

Brainerd—The state sues a lumber company to recover for the loss of fish killed and frightened away by a log jam.

Washington—C. A. Engelstead was appointed postmaster at Gatzka, Marshall county, vice C. E. Johnson, resigned.

Duluth—Four lives were lost by the capsizing of a small skiff on Swan river, five miles north of Verna, Itasca county.

Minneapolis—A movement is started to secure an endowment fund for a chair of forestry at the Minnesota university.

St. Paul—The remains of a woman, supposed to be those of Mrs. Grace Adamson, of Minneapolis, were found in the river.

Minneapolis — Albert Erickson, 16 years old, was instantly killed while adjusting a belt in the C. A. Smith sawmill.

St. Paul—Dr. O. Wellington Archibald, a prominent oculist and aurist, was found dead in the bathtub at his apartments.

St. Paul—The parents of three boys who borrowed and wrecked an automobile have to pay $480 for repairs to the machine.

St. Paul—The annual convention of the Women's Christian Temperance union for the twenty-third district was held at the House of Hope.

Two Harbors—Ole Nastin, aged 24, employed as a tiemaker on the Indian reservation in Cook county, was drowned while in bathing.

Ada—Directors of the Norman county telephone company are contemplating the purchase of the Ada, Halstad, Shelly and Twin Valley lines.

Minneapolis—Wheat deliveries at the Chamber of Commerce July 31 were 1,030,000 bushels, which quantity was taken over by millers principally.

St. Paul—Governor Johnson has issued the annual Labor Day proclamation, designating the first Monday in September for fitting observance.

Winona—Articles of incorporation of the Security Bank of Lewiston, this county, have been filed with the register of deeds. It has a capital stock of $10,000.

Mankato—Alfred A. Buck of Mankato was preparing to go into the restaurant business in Havana when he was arrested. He says he will come back and "take his medicine."

Minneapolis—Fifty Jewish families have formed an organization for the purpose of establishing an agricultural colony in some part of Minnesota, or in the Canadian wheat belt.

Minneapolis—During the month of July the police department made 776 arrests upon various charges. The month was the most profitable of any since the present administration of police assumed charge of the department.

St. Paul—Frank Day, the governor's private secretary, intends to take his campaign against the abattoirs at the Minnesota Transfer to the state board of health if the St. Paul city board refuses to take some action.

Minneapolis—In the week ending July 27 the state dairy and food department collected twenty-seven samples of milk and cream from dairies and dealers in and about the city, and found eight of them illegal.

Duluth—J. E. Bergston of Ellis, Wis., shot himself to death just after parting with Ellen Samuelson, who had refused to marry him. Bergston was 30 years old and identified with the lumber industry.

St. Paul—Insurance Commissioner T. D. O'Brien filed an opinion that a mutual live stock insurance company cannot legally do business in Minnesota without first complying with the insurance laws requiring a deposit of $100,000.

DEFECTIVE PAGE

THE SUNBEAM,

BY W. G. HUNT.

Published every Friday, at Sunbeam, Red Lake County Minnesota.

Subscription $1.00 per year.

Dr. Koches search for the murderer of Dr. Gebbard, reminds a large number of people of an old lady looking for her spectacles when they are pirched on her nose.

McIntosh Times: The announcement is made that the president has called a special session of Congress to convene the 8th day of November. Probly there is need enough. As touching trust busting the United States Senate up to this hour seems to have been so "scared of the cars" that it would shy at a wheelbarrow.

We do not want to say anything to injure anyone that is engaged in a legitimate business, but the petition that is being circulated to congress for an extension of time of making payments on these lands, by a party claiming to represent Knute Nelson, and colecting 50'c from each homesteader that signs it looks like a "gr ft". Hon. Nelson and Steenerson will do all they cau to aid the settlers, and a petition will be drawn up for an extension of time and left in the post offices for the settlers to sign free of charge, and if it is possiable to get an extension of time we will get it, so you may as well wait for the big petition and keep your 50c.

WILL HE BE PREMOTED?

It is now quite certain that ex-State Senator A. D. Stephens, of Crookston will be a canndidate for congressmen from this District, as he made such a fine record as State Senator, for the railway companys that they want to extend him the usal courtesy of faithful employes: premotion. Had it not been for his noble efforts free passes over all railroads would have been abolished by law and railroad fare reduced to two and one half cents a mile, which would have been of direct benefit to the common people who are compelled to travel occasionly and have not "stand in" enough to get a free pass. Of course the railroad companys have been very good to A. D., as he has an interest in about all the new townsites along their new lines of roads, and the first time he had any chance to pay them back was when he got elected to the legislature, and he did labor faithfuly for them as soon as he got the chance. He could not accomplish so much the first winter he was at St. Paul, as he was somewhat of a stranger, but as he was a senator elected for four years, he done such good work last winter for the railroads, that they would like to have him elected to congress We shall publish some of the excelent good work done by him, (for the railroads) in the last legislature and when the people read it they can decide whether he is entitled to premotion or not, but we are of the opinion that they will allow him to stay in his present position of, Banker and railroad townsite proprietor instead of sending him down to represent them in congress.

Hamlet at Singapore.

I saw "Hamlet" played and adapted for Malays at Singapore. It was sung instead of spoken, and mostly to English tunes. Hamlet addressed the ghost to the tune of "Her Golden Hair" and killed Polonius to "Listen to the Band." Polonius addressed his son to "That's English, You Know," and, with the king and queen, sang "Mary Was a Housemaid" to other words. The ghost scene included three ghosts, two clowns and a bottle of whisky.

To Clean Plaster Ornaments.

Clean plaster ornaments by dipping in cold starch, brushing the powder off lightly when dry.

One Advantage of England's Fogs.

"Should scientists succeed in finding ways and means for dispelling the foggy condition of England's atmosphere I am afraid that country will lose more than it gains," said a weaver. "One of the reasons why English weavers produce fabrics of finer and softer finish than American weavers from the same quality of cotton and other yarn is because of the damp condition of the atmosphere in that country at all times.

"It is a well known fact that yarn kept continually and uniformly damp will spin finer and softer than that drying out in the process of weaving. Thousands of dollars have been spent by our weavers in appliances to keep their shops uniformly humid, but thus far without success. The fine quality of panama hats, for instance, if the straw were not kept damp while the process of weaving is on, could not be produced. The straw is not worked under water, as many suppose, but is kept uniformly damp by being worked in the early morning hours when a heavy dew is falling."—Milwaukee Sentinel.

He Wanted That Wine.

General Sir E. Hamley is cited as the authority for a good anecdote about Bismarck. Hamley was sitting close to the chancellor at luncheon, with the old Emperor William not far off.

Bismarck, talking rather loudly, described the old monarch as being generous, but very forgetful. Hamley got nervous, as he thought the emperor would hear. "For instance," continued Bismarck, "I pleased him the other day, and he asked me what he could do for me. I said, 'Give me a dozen of that Tokay you have in your cellars,' and he said he would. "But," added Bismarck, raising his voice still higher, "he hasn't done it." Here Hamley hastily broke in, "I beg your pardon, but I am really afraid the emperor will hear you." "I want him to hear me!" roared Bismarck. "That's just what I want." And a smile broke over the face of his imperial master.—"Fifty Years of Fleet Street."

Tiger Story From India.

A man living in a village near Lucknow is reported to have had an extraordinary adventure in the jungle. He had gone in search of two buffaloes that had gone astray when he was attacked by a tiger.

He was unarmed except for a heavy stick, with which he fought until overcome by loss of blood, when he sank unconscious. At this moment the two buffaloes appeared. One of them stood over the wounded man, while the other snorted and tossed his head.

The man recovered consciousness and staggered to his feet, when the tiger made another spring at him. The beast was, however, received on the horns of one of the buffaloes and was so badly wounded that it turned tail and slunk away.—London Express.

Liquid Metal Polish.

Take eight ounces of Spanish whiting, which must be perfectly free from grit, and put in one quart of gasoline. Shake up the whiting and gasoline thoroughly. You will notice the whiting settles immediately, leaving the liquid as clear as water. To remedy this and, further, to make it a better polishing agent, add to each quart of the mixture thirty-two drops of oleic acid—no more, no less. Shake again, and the whiting will not settle. Apply to gold, silver, nickel, brass, glass or any kind of metallic surface with a piece of cotton flannel, rubbing well. Polish with a piece of same cloth.—Blacksmith and Wheelwright.

Waterproofing Dress Goods.

One of the most important processes used for waterproofing dress materials is on the lines of the old alumina process. In this case the factor used is rosin dissolved in a large bulk of petroleum spirit. The fabrics to be proofed are passed through a bath of this solution and dried to drive off the solvent. Following this, the goods are treated by pressing with hot polished metal rollers. This last process melts the small quantity of rosin which is deposited on the cloth and leaves each single fiber with an exceedingly thin film of rosin on it.

Forests and National Prosperity.

As a living example of the consequences of deforestation we need simply look to Spain, a country which centuries ago was rich in timber and agricultural products, a proud seafaring nation of world conquerors. Spain's decadence dates from the time when her timber supply became exhausted, her shipbuilding relaxed and her barren, unprotected soil ceased to bear fruit.—Forum.

A Long Way Around.

A man with a large family of daughters on his hands may profit by the following suggestion: An old lady who had several unmarried daughters fed them largely on a fish diet because, as she ingeniously observed, "fish is rich in phosphorus, and phosphorus is useful in making matches."

Her First Dinner.

"Yes," said Newlywed, "my wife and I are housekeeping now. She prepared our first dinner last night with her own fair hands."

"How was it?" asked Bacheller.

"Well, the nuts and raisins were fine."—Philadelphia Ledger.

Most Deadly of Insults.

Fweddie—That creature actually told me to mind my own business, y'know!

Cholly — The impertinent wretch!

Fweddie—Positively insulting! As if to insinuate, don't y'know, that I was in business!—Cleveland Leader.

Nobody can help being born stupid, but anybody can help becoming stupider than he was born.—Lady Helen Forbes.

The Preacher's Error.

In the early days of Springfield a preacher bought some sausage for lunch one Sunday and took it to church with him. He carried the sausage in the back pocket of his coat, and a dog, catching the scent, followed him. Every few feet the preacher would kick backward at the dog without looking around. Arriving at church, the preacher began the services, and the dog lay down behind the altar.

A few minutes later one of the deacons stole quietly up behind the preacher, intending to hand him a sheet of paper, and pulled his coat tail. Without glancing back the preacher gave one vicious kick and sent the deacon rolling down the altar steps on to the dog, which set up a terrible howling. The preacher, still looking straight ahead, said:

"My friends, this thieving scoundrel has been trying to rob me ever since I made a purchase at the butcher shop before coming here."

When the preacher discovered what he had done he dismissed the congregation and went outside to kick the dog.—[illegible]

Wanted by Chicago manufacturing house, person of trustwortiness and somewhat familiar with local territory as assistant in a branch office. Salary $18 paid weekly, Permanent position. No investment required. Business established. Previous experience not essential toongaging. Address Manager Branches, 323 Dearborn St. Chicago, Ill.,

He names the following witnesses to prove his continuous residence upon and cultivation of said land viz:

Knut K. Austin; James O'Brien; Simon O'Tool, Peter Hunstad; all of Kratka Minn.

R. J. MONTAGUE Register.

A Caustic Tongue.

Years ago a prominent citizen of Chicago, who at that time was president of one of its leading clubs, in introducing another prominent citizen as a speaker at a club banquet dwelt in highly complimentary terms on the latter's efforts to bring about political reforms. "Gentlemen," he said, "no one in this city exerts a more powerful influence for good than does Mr. Blank when he is sober." Then in great confusion and amid an awed silence he hastened to explain that Mr. Blank exerted, as he had intended to say, a powerful influence when he was in earnest.

At the banquet given at the opening of the present Board of Trade building the elder Carter Harrison made a flamboyant speech congratulating himself on having been born in the same year that the steam locomotive was invented. He was followed by the late Emery Storrs, who said that, most appropriately, Carter Harrison and the locomotive were born in the same year since both of them had been blowing off steam ever since.

It was Emery Storrs who said that a fellow lawyer reminded him of a beautiful house with massive portals and impressive cornices, which, when you opened the front door, landed you immediately in the back yard.

Fiji Courtship.

"Alas, Gazabooze, I fear I can never win her love. Twice have I fractured her skull with my war club, but she [illegible] still."—[illegible]

You will never get on the sunny side by waiting for the world to turn round. —Atlanta Constitution.

NEW STORE.

I wish to call your attention to the fact, that I have a choice and well selected stock of groceries, which I am selling at reasonable prices. New settlers, who are in need of groceries can be supplied, at THE KUEHNEL POST OFFICE AND STORE, and save going long distance's to tthe city.

MISS A. KUEHNEL, PROP., and postmaster. Sec. 20 T. 153 R. 46.

Make Your Applications TO Make Final Proof On Your Homesteads At This Office.

We have had a number of years active experience in making applications and publishing final proof's, which you can get the benefit of by doing business with us.

LEGAL PAPERS Drawn At This Office, By W. G. Hunt Notary Pnblic.

Adding Insult to Injury.

The Rain (stentoriously, just as Brown has missed a two pounder at least)—Bah!—Punch.

With the Bugs.

Mrs. Bug—There! I told you if you went near the pepper you'd get a bad cold.—New York Evening Journal.

Against Her Principles.

"Don't you think," asked Mrs. Oldcastle, "that everybody is affected more or less by environment?"

"Yes," replied Mrs. Packenham, "if they're foolish enough to take such things, but I always turn down my glass and never touch it."—Chicago Record-Herald.

Hadn't Tested It.

He—It's impossible to please everybody in this world, isn't it? She—I don't know. I never tried it.—Detroit Free Press.

All the News.

A wise editor says: "A man told us the other day that we did not publish all the things that happened. We should say not. In the first place, there is somebody else depending on us for a living. If we printed all that happens we would soon be with the angels. In order to please the people we must print only the nice things said of them and leave the rest to gossip. Yet it's a fact we don't publish all the news. If we did wouldn't it make spicy reading? But it would be for one week only; the next week you would read our obituary. All the news is all right when it's about the other fellow."

Japanese "Silent" Music.

A curious ceremony is performed in Japan by the court musicians at certain Shinto festivals. Both stringed and wind instruments are used, but it is held that no sound should be allowed to fall upon unworthy ears, and, as some of the ears present might be unworthy, all the motions of playing are gone through by the musicians, but not a single sound is heard. This strange custom dates back many generations, but since the advent of civilization has rapidly lost favor.

A New Variety.

A New York woman tells of an experience which she had recently in one of the large department stores. She was looking for some house furnishings and, walking up to one of the floorwalkers, asked where she could see the candelabra.

"All canned goods two counters to the left," answered the official guide briefly.—Harper's Weekly.

Extremes in the Mails.

Extremes sometimes meet in the mails. In a recent pile of exchanges the Yukon News from Dawson, Yukon territory, was in juxtaposition with the Isle of Pines Appeal from Santa Fe, Isle of Pines, and the Freethinker of London lay cheek by jowl with the Christian Intelligencer of New York.—New York Tribune.

Saved It.

Aunt Jane—What a man Henry is to tear and swear! You used to say he never lost his temper. Emily—Yes, that's when he was paying attention to me. Evidently he was saving until after he was married.—Boston Transcript.

* * *

LOCAL PARAGRAPHS.

Do your Notary Public business at the SUNBEAM office.

Applications to make final proof written free at this office.

C. W. Johnson is going to put in a new barber shop at Rhoda.

Hans Quam is building a new house on his claim in Deer Park township.

The U.S. mail will leave and arrive regulary at the new post office, of Sunbeam in the future.

Sjot Sigurdson had the mis fortune to loose a valuable horse yesterday afternoon.

P. M. Miss Kuehnel was enjoying a ride on the merry-go-round, at the Thief River Falls Fair Wednesday.

Patric O'Toole, of Crystal N. Dak. has been visiting his brothers Simon and Peter nere here the past week.

The Township officers of High Landing met at the office of T. S. Jacobson clerk, on Monday afternoon to qualify.

This would be a good place for a flouring mill. All that you would have to do is harness the Red Lake River for power.

Seth Hayford left for his old home, at Gully Wednesday for a short visit, and will go from there to Gilbey N. Dak. to work though the harvest and threshing seson.

Andrew Ellingson the High Landing merchant can not sell you new eyes, but he can fit up your old eyes; with glasses so you can see as good as you ever did. Give him a trial.

Among those who was in attendence at Thief River Falls fair this week from this locality, was Mr. and Mrs. E. T. Emmerson, Mrs. Albert Spoklie, Miss May Arnt, Miss O' Riley, Miss Kuehnel, and Alfred Eve.

James O.Brien returned home from Cavalier N. Dak. on Friday last after the funeral of his mother, who died last week. He was accompanied by his sister Miss. Katie O.Brien, who bought land here last spring and will make this her future home

McIntosh Times: Carpenter and Webster inform us that they have closed a deal for three car-loads of twine, mostly States Prison and Deering, and that twine will be cheap this year. Be sure to see them before you buy.

There was a raibow one day last week and some of the natives took down their bible and read the IX chapter of Genseis to see if the promis to not again drown the earth was still there.

Sophia Jacobson, a sister of T. S. Jacobson our Town clerk arrived from Wisconsin last Saturday for an extended vist with him. Miss Jacobson is highly cultured in the art of penmanship, and was of material assistants in drawing up bonds for the township officials, who qualified on Monday last.

Owing to bad roads there was not a very large attendence at the harvest ball at George Singers Saturday evening last, but those present had a fine time and kept the floor warm with dancing until daylight. The music was by the Lillo string band assisted by Mike Kolski, with clarionet, and was of the best for dancing.

A party of Rivermen, that passed by here on Saturday last on their way from Red Lake to Thief River Falls, says that the river is the highest at the present time that it has been for the past thirty years, at this time of year. Red Lake is about ten inches above its usual level. As it is about 60 miles long and 30 miles wide the people living on the banks of Red Lake River can expect the present high stage of water to continue for some time.

Walt Mc Andrees is building a new stock barn 20 X 26 feet.

Andrew Ellingson is building a large store house ajoining his store, at High Landing.

Mr. Peterson has his blacksmith shop in running order at High Landing and is prepared to do reparing on short notice.

Mrs. Carl Jensen, of Kratka was a passenger on Thursdays stage to Thief River Falls to visit friends and have a peep at the exhibits at the fair.

August Wentzel, of this Township went to Fisher on Wednesday, where he has extensive farming interests to look after and expects to be absent until October. He ordered THE SUNBEAM to follow him so as to get the weekly news from his home town, during his absence.

APPLICATIONS AT LILLO.

If you live in the town of Equality or Johnson you can make your application to make final proof, at Lillo, and have your notice published in the paper published nearest your land.

LAND OFFICE BUSINESS.

U.S. Commissioner L. G. Browning with office located at Thief River Falls, is prepared to take homestead entries final proof etc., within the Crookston U. S. Land District.

Office in News building, three doors south of the post office.

RHODA HAPPENINGS.

Thore Lunde was a caller here last Friday

M. E. Hyland transacted business at Gully last week.

C. W. Johnson and Georg Singer transacted business at Mc Intosh, last Thursday.

Thor Moe returned home last Saturday after a weeks stay down in town of Eden.

A. Christianson and Thore Moe hauled two loads of movables from their old farms in town of Eden last week.

Rains evry other day and still the weather prophets are hanging out, for dry weather.

Olof Ramstad, from Thief River Falls was up here in the interest of the Citizins Bank, of that place, looking over the country.

G. Swanson is going into the haying business here in great shape He expects to put up a hundred loads, if possible, and will run two rigs.

M. E. Hyland left for Erskine, last Saturday, to meet his youngest daughter. who was to come there.

Charles W. Johnson had the misfortune to loose one of his oxen the other day. The ox made a jump some way and broke his neck.

Haying goes slow and if the weather don't change the better soon, it will last until it freezes up.

Ole Torkelson from near Espetvet says, "he got drownded out down there and had to move his stock over to his fathers place nere here, Mr. T. Lunde."

Bennie Rustad and his brothers, Theo and Johnny, went over to Garness for a short stay last week, but soon returned, They said "all their meadow land over there stood under water."

Editor Hunt, of The Sunbeam, passed this way Saturday night on his way to the harves ball at George Singers.

If you want rough lumber at "rough prices", try Plummer.

Early seeded flax stands two and one half feet high and well headed

Mr. A. Christiansons little son Henry, had the misfortune to step on a nail last week and has a very sore foot ever since, but is on the way to recovery now.

The Misse's Annie and Bergina Moen, from Fosston, daughters of Tore Moen, here, came up for a short visit with their parents last week. Mr. Moens father was with them. They all were well pleased with our country.

Mr. Olof Snobeck, and family of Eden, came up for a short visit to Mr. Christiansen and family last week. We understand that Mr. Snobeck bought a piece of land here since.

Chas. Swanson was over to Equlity, last Saturday after a load of movables.

Wanted, Two weeks steady haying weather.

Thats All.

GLASSES FOR DRUNKARDS.

Chicago Physician Thinks Eye Strain Causes Craving For Alcohol.

That drunkenness can be cured by wearing the proper kind of eyeglasses is the newest theory of students of the disease, says the Chicago Inter Ocean. Dr. Chalmers Prentice of Chicago is responsible for the theory. The physician says that the nerve centers controlling the mechanical movements of the eye comprise fully one-third of the brain structure and that the natural position of the eye in a state of rest is that of distant vision.

Any work, he contends, that increases the use of the eye indoors or for near vision and close application makes the labor of focusing so great that the brain centers rob the other portions of the body of their just proportion of energy and induce a condition of nervous irritability which is especially evidenced by a craving for alcohol. It is easily observable that horsemen, automobilists and outdoor workers whose employment requires constant effort in distant vision are delightfully free from the blight, the physician contends. On the other hand, it is saddening to note, he says, the number of college professors, lawyers and newspaper men who are bound hand and foot in the service of the drink demon.

Dr. Prentice goes further than this—than saying that the nervous irritability is evidenced by a craving for alcohol. He says that this condition actually has much to do with creating the drink appetite. He says that persons who earn their daily bread by callings requiring close range of vision and who find but little time for open air tonic should wear fogs and prisms adjusted to the visions required by their employment.

A JUVENILE DRUNKARD.

Distressing Case Before the Children's Court In St. Louis.

James Welsh, fourteen years old, who, according to the statement of his father, Edward Welsh, is a habitual drunkard and incorrigible, was a short time ago before the juvenile court in St. Louis on a charge of intoxication.

The testimony of the father and the admissions of the boy revealed one of the most astounding instances of youthful depravity that have been brought out in the juvenile court, says the Republic. The boy said he drank all the whisky and beer he could get. The father said he had manifested the alcoholic appetite for a long while and was entirely uncontrollable.

It was said that he was frequently drunk and that no arguments or punishment had been effective in breaking him of the habit.

The boy was sent to the house of refuge, and Judge Taylor declared that the saloon keeper who gave the child liquor would be punished to the full extent of the law.

Decrease In Court Martials.

The annual report of General George B. Davis, judge advocate general of the United States army, to the secretary of war shows the total number of trials by general court martial during the year to have been 4,249, being 1,025 less than in the preceding year. General Davis says:

"The marked diminution in the number of trials by general court martial is very gratifying, as indicating that the conditions of the military service are now such as to require less frequent resort to court martial procedure in order to maintain discipline in the military establishment." This improvement in the morale of the army is attributed by the New Voice to the abolition of the canteen.

Giving the Devil a Start.

The Kansas City World says the churches have let the devil get a good start at Sugar Creek. After six saloons have been established the town site company offers to donate land for a church building.

Webster's Tiresome Habit.

Senator Hoar in his "Reminiscences" says that Daniel Webster had a tiresome habit in his public speeches of groping after the most suitable word after this fashion: "Why is it, Mr. Chairman, that there has gathered, congregated, this great number of inhabitants, dwellers, here; that these roads, avenues, routes of travel, highways, converge, meet, come together here?" When the speech was printed all the synonyms but the best one would be left out.

Her Endurance.

"How can you scold all the time?" was asked of the woman with five stepchildren and an indolent husband.

"I can't just explain it, but I know that I'm blessed with wonderful powers of endurance."

To have a perfect stomach a man or a woman must dine well and breakfast and sup simply.—Ladies' Home Journal.

CUSTOMS IN MOROCCO.

The Scene at the Slave Market in Marrakish.

"From time to time we are taking our meals in the open air," writes a traveler to Morocco. "I see the shepherd boys staring at us from a respectful distance. To them we must seem no better than savages. In the first place, we sit on chairs and not on the ground. We cut our bread, which, as every true believer knows, is a wicked act and defies Providence, since bread is from Allah and may be broken with the hand, but never touched with a knife. Then we do not know how to eat with our fingers, but use knives and forks and spoons, that after mere washing are common property. We do not have water poured out over our fingers before the meal begins—the preliminary wash in the tent is invisible and does not count—and we do not say 'Bismillah' before we start eating. Our daily bathing seems to puzzle them greatly. I do not notice that little Larbi and his brother Kasem ever tempt the sea to wash or drown them. Yet they look healthy enough and are full of dignity."

Vividly delineated, too, by the same writer are the scenes in the slave market at Marrakish. "The various booths where the salesmen keep their slaves, of all ages and both sexes, are carefully screened from sight until the market opens. Then one at a time these booths empty themselves of their contents and men, women and children are marched around the inclosure, the auctioneer crying out the latest bid, and the slave owner pointing out the best features of his articles for sale.

"They are all gorgeously attired and decked out to show them off to the best advantage. One by one the youngest and the fairest and the fittest are chosen until at the end of the long, hot day only a few aged and weary and worn are left. They have tramped round and round the market all day long, but they are old and therefore not wanted."

A GREEDY CORMORANT.

He Devoured Two Pounds of Stones as Part of a Meal.

When I was a keeper in the National Zoological park in Washington I observed a remarkable example of the well known greediness of the cormorant.

Four little cormorants came to the zoo and were placed in a cage in which dogs had once been kept. Outside was a pebbly yard in which the dogs had exercised. The cormorants waddled about this yard and seemed to be having a fine time until one morning I noticed that one of them was sitting on the ground unable to rise. He did not waddle up to get his meal of whole fish, each usually about half as long as his own body, and as the others came rushing toward me to get their share I knew that he was ill. I went into the cage and lifted him up. What was my amazement to hear something grating and clanking inside of him! And he seemed surprisingly heavy. I at once called the head keeper, who decided to investigate by means of a surgical operation.

He took out two pounds of stones, one of which was four inches long, two and a half inches wide and about half an inch thick! The poor chap seemed to feel relieved. In a few days he became convalescent, ate his food regularly and seemed to be doing well. Then that hooked bill reached under the feathers and tore out some of the surgeon's stitches, which were undoubtedly irritating, as the wound was beginning to heal. As a result of this interference the wound opened, and, as the weather was hot, the patient died five days after the operation.—St. Nicholas.

Longfellow.

Conspicuous among the multitude of famous and interesting persons whom Moncure D. Conway mentions in his autobiography is the poet Longfellow. At the time Mr. Conway was studying in Cambridge in 1853 Longfellow was the professor of poetry in Harvard university, and it is plain that the affection and reverence the poet then inspired in the young student have survived the half century that has passed.

"Longfellow's personality was potent among us," says Mr. Conway. "His modesty, his amiable man to man manners toward the young, the absence of airs or mannerisms, his transparent veracity of mind and respect for all sincere opinions, were very engaging. He was universally beloved."

In Praise of Cockneys.

Cockneys are the best natured people under the sun. It is notorious that a big London crowd is of all crowds in the world the most harmless and the easiest to manage. But see them also in their ordinary collections, outside the gallery door of a popular theater or crowding in the carriages of an excursion train—what fun and kindness and wholesome give and take! A deliberately rude or offensive cockney is hardly to be met.—G. S. Street in Pall Mall Gazette.

The Mortality List.

Manager (of great exposition)—What alarms me is our mortality list. Assistant—Mortality list? Why, it's next to nothing at all! "I know better than that. More than one-third of the people that come through the turnstiles are deadheads."

Truth Didn't Save Him.

Father—Did you break this vase? Johnny—Yes, father; I cannot lie. Father—No, and you won't be able to sit either when I've done with you. Go and fetch the strap.—New Yorker.

Of all the cants in this canting world, though the cant of hypocrites may be the worst, the cant of criticism is the most tormenting.—Sterne.

HIGH LANDING STORE.

DRY GOODS, CLOTHING.

Glass Eyes for Animals.

Glass eyes are now made for horses, cats and dogs, as well as for human beings. These animals use a larger eye than man, and several are ordered for them at the same time, as a new one is necessary about once in six months. The edges become roughened and produce irritation, from the acids of the secretions affecting the enamel.

Dog's Sudden End.

Peter McArthur, talking about a novelist who was arranging for the dramatization of a novel that he had not yet completed, remarked: "He is a good deal like a Canadian friend of mine who went hunting with a dog. The trip was all right for a time, but there came a sudden end when the dog undertook to jump over a deep well at two jumps."

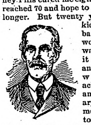
Good Thing to Remember.

An eggshell is porous, and filth on it affects the meat.

DEFECTIVE PAGE

TWENTY YEARS OF IT.

Emaciated by Diabetes; Tortured With Gravel and Kidney Pains.



Henry Soule, cobbler, of Hammondsport, N. Y., says: "Since Doan's Kidney Pills cured me eight years ago, I've reached 70 and hope to live many years longer. But twenty years ago I had kidney trouble so bad I could not work. Backache was persistent and it was agony to lift anything. Gravel, whirling headaches, dizziness and terrible urinary disorders ran me down from 168 to 100 pounds. Doctors told me I had diabetes and could not live. I was wretched and hopeless when I began using Doan's Kidney Pills, but they cured me eight years ago and I've been well ever since."

Truths that Strike Home

Your grocer is honest and—if he cares to do so—can tell you that he knows very little about the **bulk** coffee he sells you. How *can* he know, where it originally came from, how it was blended—**or with what**—or when roasted? If you buy your coffee loose by the pound, how *can* you expect purity and uniform quality?

LION COFFEE, the LEADER OF ALL PACKAGE COFFEES, is of necessity uniform in quality, strength and flavor. For OVER A QUARTER OF A CENTURY, LION COFFEE has been the standard coffee in millions of homes.

LION COFFEE is carefully packed at our factories, and until opened in your home, has no chance of being adulterated, or of coming in contact with dust, dirt, germs, or unclean hands.

In each package of LION COFFEE you get **one full pound** of Pure Coffee. Insist upon getting the genuine. (Lion head on every package.)

(Save the Lion-heads for valuable premiums.)

"The Simple Life"

Proper Food is Really the First Step in Right Living.

One of the evils of our complex modern way of living. is our unnatural and unhealthy foods.

To have really good health and a good stomach it is necessary to eat simple nourishing food. EGG-O-SEE is the ideal food, and reaches the proper requirements in this direction more nearly than any other cereal now on the market.

To make EGG-O-SEE the kernels of the choicest California white wheat are first cleansed by brushes, then thoroughly steam cooked, then flaked and crisped to a maple tint and delicately flavored with natural fruit juice and pure grain sugar.

In these delicious flakes, lies the mighty strength-giving power of the whole wheat grain that evenly nourishes every part of the body, and gives physical and mental energy that means splendid health and successful endeavor.

EGG-O-SEE

Borrowing Money on a New Plan

The co-operative plan of borrowing money inaugurated by the progressive loan firm of Brager Bros., of Thief River Falls, Minnesota, deserves and will have the hearty co-operation and endorsement of everyone wishing to borrow money secured by first mortgage on improved Minnesota farm lands. Their plan has in view the negotiation of farm loans for the borrower at lower rates of interest and on more liberal terms than the majority of the borrowers have been able to secure. All parties desiring to borrow money this fall, either to pay up their present loan or for other purposes, securing such loan by first mortgage upon improved Minnesota farm lands on the most reasonable terms and at low rates of interest for a term of years have an opportunity of saving money by joining them in their co-operative movement. Write them at once, giving your name, postoffice address, amount of loan desired, and value and description of the land that will be offered as security for the loan.

CONCERNING THE CLERGY.

Rev. Joseph W. Cross, the oldest living alumnus of Harvard college and the Andover theological seminary, celebrated recently his ninety-seventh birthday.

At the late commencement of Ohio Wesleyan university the degree of D. D. was conferred on Rev. Byron Palmer, of the East Ohio conference, author of "God's White Throne."

Rev. Dr. Barnard M. Kaplan, rabbi of the Bush Street temple of San Francisco, received from President Roosevelt an autograph copy of his California speeches for the benefit of, the Bush Street temple.

Glasgow university has conferred the degree of D. D. upon Rev. W. H. Bentley in recognition of his services on the Congo. Mr. Bentley is the son of a missionary, and has given 27 years of service in Africa. He is the author of the Congo dictionary and grammar, has translated the New Testament, and is now engaged in translating the Old Testament.

BIBLICAL BALM.

If people seem unkind, read the fifteenth chapter of John.

If you are all out of sorts, read the twelfth chapter of Hebrews.

If you find the world growing small and yourself great, read the nineteenth Psalm.

If you are losing confidence in men, read the thirteenth chapter of First Corinthians.

If you are discouraged about your work, read the one hundred and twenty-sixth Psalm.

If you cannot have your own way in everything, keep silent and read the third chapter of James.

BABY'S INSTINCT

Shows He Knew What Food to Stick To

Forwarding a photo of a splendidly handsome and healthy young boy, a happy mother writes from an Ohio town:

"The enclosed picture shows my 4-year-old Grape-Nuts boy.

"Since he was 2 years old he has eaten nothing but Grape-Nuts. He demands and gets this food three times a day. This may seem rather unusual, but he does not care for anything else after he has eaten his Grape-Nuts, which he uses with milk or cream, and then, he is through with his meal. Even on Thanksgiving day he refused turkey and all the good things that make up that great dinner, and ate his dish of Grape-Nuts and cream with the best results and none of the evils that the other foolish members of the family experienced.

"He is never sick, has a beautiful complexion, and is considered a very handsome boy. May the Postum Company prosper and long continue to furnish their wholesome food!" Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read the little book, "The Road to Wellville," in every pkg.

NEWS OF MINNESOTA.

Our Population.

St. Paul.—Minnesota's population is 1,955,000 in round numbers.

This is an increase of 203,616 compared with the population of 1900—a betterment of 11.6 per cent.

The above figure is prepared from complete returns from all counties except Ramsey, and that county is estimated in making the aggregate at 195,000, a generous allowance.

The returns, as a whole, show something of a falling off in population of counties in southern Minnesota. The census bureau hoped to bring the state's total up to the 2,000,000 mark, but it has fallen 45,000 short of this amount.

Ramsey county is now going over its figures for a third time. A second count brought the population of the city of St. Paul little over 160,000, with thirty-eight out of the forty districts reported. An estimate on the missing districts brought the total population of St. Paul up to 175,514. Allowing for a proportional increase in the country districts of Ramsey county, outside of the city, and further gains from the rechecks, brings the county's population, on a generous estimate, up to 195,000

For the Fairs.

Minneapolis.—One fare plus 50 cents is the round-trip rate granted by the Great Northern, Northern Pacific and the Soo roads on account of the state fair, the 50 cents to cover cost of admission to the grounds. The decision was reached at a conference of St. Paul business men with officials of the roads. Assurances were given that every effort would be made to protect against ticket scalping. Measures similar to those adopted in St. Paul will be taken in Minneapolis. The announcements of half rates is a matter of great satisfaction to the officials of the fair.

The low rate tickets will be on sale Saturday, Sept. 2, all over the northwest—in a general way 200 miles east and south of the two cities and as far west as the Missouri river—so that people in the most remote sections can get into town in time to see Dan Patch go against his world's record on Monday afternoon, the opening day of the fair. Dan will positively appear only on Monday, Sept. 4.

Fun at the Fair.

Hamline.—"The Pike" will be one of the features of the Minnesota state fair this year. Like everything else at the coming fair the "pike" will be much improved. It will be the liveliest place on the grounds; there will be something doing every minute.

One of the results of the recent trip of President Cosgrove and Secretary Randall of the fair into North Dakota, will be the increase in the exhibit of marketable stock in car load lots. This is a new feature of the Minnesota state fair and the officers were pleasantly surprized when they got out into the cattle country to find much interest and a probability of good entries for these prize. The car lot premiums cover cattle, sheep and swine and in addition to the offers made by the state agricultural society there are several special prizes given by the live stock men of South St. Paul.

Russian Wheat Crop.

The following item will prove interesting to the Northwest:

From an authentic source it is reported that owing to lack of transportation and storage facilities in Russia, the grain shipping situation is in a precarious condition. This spring transportation at St. Petersburg was blocked. At all times tens of thousands of cars were at a standstill. Recently a large number of cars were received at St. Petersburg in a fermented condition and were condemned to be burned. The blockade not only effects the grain now in storage and in transportation, whereby thousands of carloads will be lost, but the safety of the present crop is also jeopardized, as the outlook at present is that the way cannot be cleared to handle the new crop.

Died in Her Arms.

Duluth.—Human interest was not lacking at the examination of passengers of the steamer America by Immigrant Inspector Dean upon her arrival from Port Arthur.

Among her eighteen passengers was Nellie Johnson, a pretty Swedish girl, who told the inspector that she arrived in Canada several months ago, to marry her sweetheart, who was there winning a home for her. He had prospered, but in his eagerness to become rich he had overtaxed his health and when she reached his side his strength was at the last ebb, and died in her arms. She had $4,000 which he had saved up.

News Notes.

Cokato—The building owned by Isaac Neimi, of Calumet, Mich., and occupied by Mike Jokela as a general store, was destroyed by fire.

Duluth—The attorney general is threatening to bring suit to recover $40,000 alleged to be due for timber trespass.

Minneapolis—Phil Carlin has been appointed general organizer of the International Brotherhood of Carpenters and Joiners of America.

Fertile—Hans Juelson, member of the house of representatives of this state in 1893, from Norman county, died at Blackduck, where he was on a visit to his son. Mr. Juelson had been a resident of Sundal, Norman county, for over twenty years.

Pipestone—George B. Brickert and daughter Josie, through their attorney, have served notices of claim for damages in the amount of $300 each upon the city council.

NAUTICAL KNOWLEDGE.

The Acquisition of Which Would Assuredly Fit One for an Exciting Cruise.

Having been sailing one afternoon with a friend, you notice how simple it is to manage a boat; so you buy one—whether it is a center-board or a fin-keel boat you don't know, and it doesn't make any difference so long as you like the color, says the Chicago Daily News.

Ask half a dozen friends to act as crew. Great care should be exercised in choosing only men who know nothing about sailing, otherwise they might make suggestions as to the management of the boat. Far better is it for you to train the men after your own ideas of sailing—and you stand a much better chance of getting a picture of yourself and your boat into the papers.

After sailing around the harbor a few times without damaging any of the other boats, you will be in a position to invite your girl friends to go sailing. If experienced yachtsmen tell you that your boat will with safety carry ten, invite twenty friends. If you bring them all back you will establish a precedent.

Never postpone a sailing party because of an approaching storm. This would look cowardly, and by all means establish a reputation for daring even if you have to risk the lives of all your friends.

Always carry full canvas—before a squall and during it. Once outside the harbor tie your main sheet down—in hard knots if possible. This will make the trip more exciting.

By carefully following the above rules you will give the newspaper reporters a chance to write columns on "Yachting as the Most Dangerous of Sports" and will also help the life-saving crew to earn their salaries.

BAD CLERK FOR BUSINESS.

Couldn't Dissemble When It Came to Answering Questions of Customers.

An Arctic explorer was praising the late William Ziegler, whose great wealth went in the past to fit so many expeditions of discovery in the white north, relates the San Antonio Press.

"He was a man of the alertest wit," the explorer said. "I never saw his equal in hitting off a person's character in an opposite story. Once, I remember, he was describing a flour manufacturer of loose morals.

"Mr. Ziegler said the manufacturer was like a certain grocer who called his clerk up before him one day and said:

"'That lady who just went out—didn't I hear her ask for fresh laid eggs?'

"'Yes, sir,' the clerk answered.

"'And you said we hadn't any?'

"'Yes, sir; that is correct.'

"The grocer, purple with rage, yelled:

"'Didn't you see me lay those eggs myself on the counter not ten minutes ago? You are discharged, you mendacious scoundrel, and see that you don't look to me for a reference, either.'"

His Idea of It.

"What is the vermiform appendix?" asked the teacher of the class in anatomy and physiology.

"It's a little curlicue on the inside of you," responded Willie, "that's all right until you find out you've got it, and then you have to get the doctors to take it out."—Chicago Tribune.

His Share.

Councilman—I've come to see, sir, if you will subscribe anything to the town cemetery.

Old Resident—Good gracious! I've already subscribed three wives.—Life.

Sound as a Dollar.

Monticello, Minn., Aug. 7th.—Mr. J. W. Moore of this place stands as a living proof of the fact that Bright's Disease, even in the last stages, may be perfectly and permanently cured by Dodd's Kidney Pills.

Mr. Moore says: "In 1898, three reputable physicians after a careful examination told me that I would die with Bright's Disease inside of a year. My feet and ankles and legs were badly swollen; I could hardly stand on my feet and had given up all hopes of getting cured, when a traveling salesman told me that he himself had been cured of Bright's Disease two years before.

"He said he had taken to his bed and expected to die with it, but that he had been cured by a remedy called Dodd's Kidney Pills.

"I commenced taking them at once and I am thankful to say that they saved my life. After a short treatment I was completely restored to good health and I am now as sound as a dollar."

The principal difficulty in the way of making goats an article of commerce on the live stock market is that they might bear the price of those goats which now masquerade as spring lambs.—Omaha Bee.

CUTICURA OINTMENT

The World's Greatest Skin Cure and Sweetest Emollient—Positively Unrivaled.

Cuticura Ointment is beyond question the most successful curative for torturing, disfiguring humors of the skin and scalp, including loss of hair, ever compounded, in proof of which a single anointing with it, preceded by a hot bath with Cuticura Soap, and followed in the severer cases by a dose of Cuticura Resolvent Pills, is often sufficient to afford immediate relief in the most distressing forms of itching, burning and scaly humors, permit rest and sleep, and point to a speedy cure when all else fails. It is especially so in the treatment of infants and children, speedily soothing and healing the most distressing cases.

You may know that a thing is thoroughly artistic when you cannot tell for the life of you why it is artistic.—Chicago Tribune.

The Maintenance of Way forces of the Erie are now engaged in laying 350 miles of 90-pound steel rails on the main track. A larger mileage has never been laid in any one year before. The Erie has always been noted for its good track, and the management finds that it is necessary to use a heavier rail on account of the weight of the several hundred new engines that have been purchased in the last two years. Much of the rail being removed has only been in track four or five years and will be used on branch lines.

If 'twere only conscience that made cowards of us all, there would be no lack of bravery in the world.—Puck.

Do not believe Piso's Cure for Consumption has an equal for coughs and colds.—J. F. Boyer, Trinity Springs, Ind., Feb. 15, 1900.

There is a town in Germany of the name of Reichsdeputationshauptschluss. What a picnic for a suburban train conductor!

Tumors Conquered Without Operations

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in Cases of Mrs. Fox and Miss Adams.

Fannie Fox
Miss Luella Adams

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor.

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by excessive menstruation accompanied by unusual pain extending from the ovaries down the groin and thighs.

If you have mysterious pains, if there are indications of inflammation ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation; secure Lydia E. Pinkham's Vegetable Compound right away and begin its use and write Mrs. Pinkham of Lynn, Mass., for advice.

Read these strong letters from grateful women who have been cured:

Dear Mrs. Pinkham:— (First Letter.)

"In looking over your book I see that your medicine cures Tumor of the Uterus. I have been to a doctor and he tells me I have a tumor. I will be more than grateful if you can help me, as I do so dread an operation."—Fannie D. Fox, 7 Chestnut St., Bradford, Pa.

Dear Mrs. Pinkham:— (Second Letter.)

"I take the liberty to congratulate you on the success I have had with your wonderful medicine.

"Eighteen months ago my monthlies stopped. Shortly after I felt so badly I submitted to a thorough examination by a physician, and was told that I had a tumor on the uterus and would have to undergo an operation.

"I soon after read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After taking five bottles as directed, the tumor is entirely gone. I have again been examined by the physician and he says I have no signs of a tumor now. It has also brought my monthlies around once more; and I am entirely well. I shall never be without a bottle of Lydia Pinkham's Vegetable Compound in the house."—Fannie D. Fox, Bradford, Pa.

Another Case of Tumor Cured by Lydia E. Pinkham's Vegetable Compound.

Dear Mrs. Pinkham:—

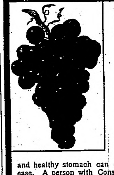
"About three years ago I had intense pain in my stomach, with cramps and raging headaches. The doctor prescribed for me, but finding that I did not get any better he examined me and, to my surprise, declared I had a tumor in the uterus.

"I felt sure that it meant my death warrant, and was very disheartened. I spent hundreds of dollars in doctoring, but the tumor kept growing, till the doctor said that nothing but an operation would save me. Fortunately I corresponded with my aunt in the New England States, who advised me to try Lydia E. Pinkham's Vegetable Compound before submitting to an operation, and I at once started taking a regular treatment, finding to my great relief that my general health began to improve, and after three months I noticed that the tumor had reduced in size. I kept on taking the Compound, and in ten months it had entirely disappeared without an operation, and using no medicine but Lydia E. Pinkham's Vegetable Compound, and words fail to express how grateful I am for the good it has done me."—Miss Luella Adams, Colonnade Hotel, Seattle, Wash.

Such unquestionable testimony proves the value of Lydia E. Pinkham's Vegetable Compound, and should give confidence and hope to every sick woman.

Mrs. Pinkham invites all ailing women to write to her at Lynn, Mass., for advice.

Lydia E. Pinkham's Vegetable Compound; a Woman's Remedy for Woman's Ills.



Mull's Grape Tonic (FREE) FOR Hot Weather Dangers

CONSTIPATION
STOMACH AND BOWEL TROUBLE

No one with regular bowels and healthy stomach can contract disease. A person with Constipation and Stomach Trouble is always the first to succumb to Sun Stroke, Heat Debility and Prostration. Cholera, Colic and Diarrhea are more fatal in Hot Weather because vitality is lower—they are the direct result of Constipation. It is a mistake to suddenly check diarrhea, the danger is Blood Poison. A physic is also dangerous as it weakens the patient and reduces vitality. Treat the cause with Mull's Grape Tonic. Constipation and its attending ills are caused by decaying or dying bowels and intestines—Mull's Grape Tonic revives and strengthens the Bowels so that they are enabled to act naturally and eject the poison from the system, everybody should take it during hot weather. It wards off disease, builds up the system and purifies the blood. Typhoid Fever and Appendicitis are unknown in families where Mull's Grape Tonic is employed. As a Stomach Tonic it is unequalled.

SUFFERED ALL HIS LIFE.

The endorsement of E. B. McCurdy of Troy, Ohio, proves that the severest forms of Constipation are promptly cured by Mull's Grape Tonic—He says:

"I gave your Tonic a thorough trial. It is the only remedy that will cure constipation. I do not believe anyone suffered more therefrom than I, as I had been afflicted with it all my life. For days my bowels would not act and then only by the use of strong cathartics that were fast ruining my health. My Stomach and Liver were deranged and I suffered with inward piles, the pains of which would at times raise me off my chair. I spent much money with various doctors and medicines to no avail.

Soon after I started Mull's Grape Tonic my bowels began to move regularly—the pain left me and my general health built up rapidly.

I heartily recommend it as an absolute cure of which I am a living witness."

Until Mull's Grape Tonic was put on the American market there was no cure for Constipation. Let us send you a bottle free to-day to show you that it will do all we claim.

Good for Ailing Children and Nursing Mothers.

FREE BOTTLE COUPON

Send this coupon with your name and address and your druggist's name, for a free bottle of Mull's Grape Tonic, Stomach Tonic, Constipation Cure and Blood Purifier, to MULL'S GRAPE TONIC CO., 147 Third Ave., Rock Island, Ill. Give full address and write plainly. The $1.00 bottle contains nearly three times the 50c. size. At drug stores. The genuine has a date and number stamped on the label—take no other from your druggist.

MINNESOTA HISTORICAL SOCIETY.

THE NEWS OF A WEEK CONDENSED

SUMMARY OF MOST IMPORTANT EVENTS AT HOME AND ABROAD.

THE WAR IN THE FAR EAST

Progress of Peace Negotiations Between Russia and Japan—Foreign and Domestic Items of Interest Told in Brief.

THE PEACE CONFERENCE.

Russia's reply to the Japanese terms of peace were delivered by M. Witte to Baron Komura. Upon the two crucial points, indemnity and the cession of the island of Sakhalin, the reply is an absolute non-possimus. Other points are accepted as bases for discussion, while still others are accepted conditionally.

Reimbursement for the expenses sustained in the prosecution of the war and the cessation of the island of Sakhalin constitute the main features of the peace conditions handed by Baron Komura to M. Witte at the second day's session of the peace conference at Portsmouth, N. H. The other terms are substantially as follows: The cession of the Russian leases to the Liaotung peninsula, comprising Port Arthur and Dalny. The evacuation of the entire province of Manchuria, the retrocession to China of any privileges Russia may have in the province and the recognition by Russia of the principle of the "open door." The cession to Japan of the Chinese Eastern railroad below Harbin, the main line through northern Manchuria to Vladivostok to remain Russian property. The recognition of the Japanese protectorate over Korea. The grant of fishing rights to Japan in the waters of the Siberian littoral northward from Vladivostok to the Behring sea. The relinquishment to Japan of the Russian warships interned in neutral ports. Finally a limitation upon the naval strength of Russia in far eastern waters.

The outlook for peace is declared to be brighter because discussion of the disputed terms will be held.

The first session of the peace conference at Portsmouth, N. H., was merely perfunctory and no important business was transacted. The general opinion there is that Japan and Russia will fail to agree on peace terms.

A Paris correspondent in St. Petersburg says the czar instructed M. Witte to use his utmost endeavor for peace.

The Japanese effected a landing at a port in Siberia and drove away a small force of Russians.

Gen. Linevitch reports a Russian retreat, the Japanese turning both flanks of his army.

PLAGUE IN THE SOUTH.

Archbishop Placide Lewis Chapelle, succumbed to the yellow fever epidemic in New Orleans. Sixty-three new cases and seven deaths mark the spread of the fever in spite of the fact that United States officials direct the fight.

The yellow fever situation at New Orleans is considered much worse, reports showing that the disease is extending into the better sections of the city. One of the leading surgeons in the fight against the fever epidemic was stricken with the plague.

The Louisiana health board has called on the governor for militia to end illegal quarantines and restore traffic; yellow fever has spread to all parts of New Orleans.

The yellow fever panic tied up telephone lines in the country surrounding New Orleans.

Increase in the number of new cases in the yellow fever section of New Orleans makes the situation less encouraging.

The New Orleans yellow fever record to date is: Deaths,124, total cases, 747.

MISCELLANEOUS.

President Roosevelt, in an address at Chautauqua, N. Y., favored enforcing the Monroe doctrine, but not aggrandizement, and asked wise control of big corporations.

A steamer rescued members of the Fiala-Ziegler arctic expedition, who had been cut off from the world since July, 1903. The ship America was crushed and fuel and provisions were lost. The expedition lost only one man.

Thirteen bodies of victims killed in the collapse of the J. C. Meyers company department store at Albany, N. Y., were recovered. Feared several more are in the ruins.

A negro who attempted to assault a white girl at Sulphur Springs, Tex., was burned at the stake by a mob of 500 men.

St. Thomas' Episcopal church, New York, one of the costliest religious edifices in America, was destroyed by fire, the loss being estimated at $250,000.

The Crete village of Castelli was destroyed by a Russian warship because a landing party to take over the customs house was opposed.

Gov. Johnson, of Minnesota, has offered his services to disputants in the telegraphers strike and has urged settlement.

Maj. Taggart, on the witness stand, called a relative of his wife a cowardly cur and a free-for-all fight in the courtroom was narrowly averted.

Maj. Taggart, on the witness stand in his divorce case, gave details of drinking bouts in which his wife is declared to have taken part.

British opinion deemed Japan's terms not excessive, while Germany doubts if the czar can accept. The conditions caused depression in Paris.

A report that William H. Belcher, the absconding mayor of Paterson, N. J., was reported as having been seen at Stockton, Cal., was denied.

During an altercation at Jeffersonville, Ind., John Taylor killed Lou Phelps with a knife.

The Catholic Total Abstinence union gave a vote of thanks to President Roosevelt for his visit, adopted resolutions for temperance reform, and adjourned to meet next year at Providence, R. I.

Mrs. Naomi Aldrich, of Grayling, Mich., is in jail charged with having poisoned her two boys, aged 10 and 12, to collect $50 life insurance on each.

Twenty firemen were scalded by an explosion of grease in a burning soap factory in New York city.

Trade reports were less uniformly favorable, but adverse factors were of a temporary nature, and the net results for the week were satisfactory, according to Dun's trade review.

Rear Admiral Andrew E. K. Benham, retired, is dead at Lake Mahopac, N. Y. He was a member of the Schley court of inquiry.

Harry Parker and Harry Johnson confessed to the murder of Pawnbroker Joseph Moyer at Detroit.

The court of inquiry in the Bennington disaster has completed its investigation at San Diego, Cal., and the members will now prepare their report.

Edward Drouin, formerly a wealthy and influential merchant of Philadelphia, is dead at Peoria, Ill.

Perry J. Luster, formerly manager of the Cumberland Telephone company, of Guthrie, Ky., who disappeared from that place July 29, on which date his wife was found dead in her room with a bullet through her brain, is under arrest at Ogden, Utah.

Peter Hale, proprietor of the Gregson Springs, one of the pioneer residents of Butte and Anaconda, and one of the best known men in Montana, is dead at Butte.

After a spree August Deseck, of Rock Island, Ill., shot and killed his wife and committed suicide.

At least three men were badly burned in an explosion at the Illinois Steel company's works, in South Chicago, Ill.

William Rissetter, a wealthy farmer of near Dixon, Ill., fatally stabbed his son in a quarrel over a horse.

J. E. Ort, aged 35, of Harrisburg, Pa., fell asleep on the railroad track at Pana, Ill., and was instantly killed.

Noah Fowler, aged 50 years, a prominent farmer of Pana, Ill., died from the effects of lemon extract which he drank.

The Pere Marquette railway engine house at New Buffalo, Ind., burned, destroying two Pere Marquette and one Chicago, Cincinnati & Louisville locomotives.

A Nashville (Tenn.) physician advocates the limitation of crime by inducing poor people to limit the number of their offspring.

Five deaths and eleven prostrations were reported in Chicago as a result of a hot wave which swept over that city.

President Shea, of the Teamsters' brotherhood, admitted before the national convention at Philadelphia that he ordered alteration of records of joint council at Chicago to destroy evidence against himself and other indicted strikers.

Secretary Taft, in a banquet address at Manila, says Filipinos must learn the principles of democracy by education and that a representative assembly will be granted natives in 1907 if no insurrection exists.

The British parliament was prorogued after a session chequered with strife with the premier.

Capt. Horace M. Reeve, who was a member of the general staff of the army, is dead of typhoid fever at Washington.

In a freight wreck on the Chicago, Rock Island & Pacific railway, near Limon Junction, Col., Dr. Wright Andyman and Joseph Miller, both of Omaha, were killed. The men are said to have been riding on the trucks.

Mrs. Chester Winstanley, at New Albany, Ind., while temporarily insane, drowned her daughter in a bathtub. Seizing a pistol, she shot and dangerously wounded her husband, and then swallowed a quantity of carbolic acid dying an hour later.

The condition of the farming community in the province of Seville, Spain, is becoming desperate. Thousands of laborers being without bread or other food, have been reduced to eating the roots of wild plants. Bread riots are reported to have occurred at many places, where bakeries were looted.

Samuel Stenman, a miner employed at the Montreal mine, was shot and killed near his home at Hurley, Wis. The murderer escaped.

Consul General Rodgers, at Shanghai, cabled the department of state that the Chinese chamber of commerce at that place is powerless to stop the boycott against Americans and American products.

Aaron Osborn and Dan Fisher, well diggers, were killed by choke damp or carbon monoxide gas while entering a well to make repairs five miles from Belding, Mich.

Joseph and Edward Flurh, brothers, aged 14 and 16, were killed at Corydon, Ind., while playing in a sandbank excavation, which collapsed.

George Johnson and William James were killed by lightning near Cushing, Okla. The men were standing under a tree which the lightning struck.

Elzie Morgan shot and killed Robert Moore at Woodlawn, Ill., in a quarrel about Moore's daughter. Morgan surrendered.

While jealously insane, Carl Boeck, of Portage, Wis., aged 22 years, killed his wife, aged 19 years, by cutting her throat and stabbing her in the back. He then tried to take his own life.

Accused of stealing three watches by Jeweler Mathew Mamer and Nicholas Kitten, Officer Oscar Benson, of the Chicago police force, killed the first named, wounded the second and then committed suicide.

President Roosevelt was given a magnificent reception at Wilkesbarre, Pa., by crowds of miners and temperance workers who had gathered to hear him speak.

Rear Admiral Charles E. Clark, one of the naval heroes of the Spanish war, reached the age limit of 62 years and was transferred to the retired list of the navy.

Dr. Kellogg, the noted Battle Creek, Mich., specialist, and a close friend of President Harper of the Chicago university, after a consultation, advised Dr. Harper to lay down the duties of president and devote all his time and energy to battling with the cancer that threatens his life.

A report given out at Cleveland, O., declares Dr. W. R. Harper, president of the Chicago university, is in the best of health and that he has no intention of resigning his position.

Warrants were sworn out at Denver, Col., against four officials and one clerk of the Western bank, charging them with violating Section 222 of the Colorado statute by receiving deposits when they knew the Western bank was insolvent.

Capt. Jerome B. Osler, nearly 105 years old and a resident of Chicago since 1833, is dead.

The Western bank, a state institution at Denver, Col., with deposits of about $1,000,000, made an assignment because a run had been feared.

John Walters and his two sons were drowned in Hickory creek, near McCune, Kan., while trying to ford the creek with a load of hay. Recent heavy rains had caused the stream to rise.

The dreaded cattle plague known as blackleg, a form of murrain, has broken out in Brookfield, Mass.

Socialists at Riga, Russia, compelled 20,000 workmen to strike by threat of death.

Wu Ting Fang, in an interview at Peking, disclaimed responsibility for the boycott against America, but complains bitterly of treatment accorded Chinese.

African tribesmen burned many Portuguese villages and massacred the white settlers by wholesale.

Phillip Loew, 70 years old, committed suicide in a Chicago hotel, leaving a note reproaching his children.

Rev. Lewis Albright, of Delaware, O., widely known in Ohio, having been presiding elder of the North Ohio Methodist conference, a trustee of Ada university and of Ohio Wesleyan university, is dead.

The Interstate Sheriffs' association, in session at St. Paul, Minn., chose officers and selected Des Moines, Ia., as the place for the next annual convention.

Chicago's big teamsters' strike, for which Shea, in his speech before the teamsters' national convention at Philadelphia, accepted responsibility, cost $110,620, according to the union finance committee's report.

The street car strike in Saginaw, Mich., on since June 4, has been officially declared off. The management of the railway will take the striking employes back on individual application.

A project for a representative national assembly of Russians, to be elected by the people and to have large powers, is approved formally by Emperor Nicholas, and a manifesto proclaiming the decision will be issued.

The weather bureau's weekly bulletin on crop conditions shows winter wheat about all threshed, corn in excellent condition, good crop of oats harvested and cotton improving in many states. Rust is prevalent in spring wheat in the northwest.

Terrific wind and electrical storms in several sections of Wisconsin caused much damage to growing crops and property.

Orrin W. Potter, steel trust millionaire of Chicago, wed Mrs. Bell, a former hairdresser of New York city, and sailed for Europe.

WASHINGTON LETTER

SENATOR CLAPP DEVELOPING INTO ONE OF STRONG MEN.

OFFICE THAT IS VERY BUSY

Consul in Germany Sends Interesting Report of Stove in Use in That Country—Army Officers to Investigate.

WASHINGTON.—One of the proud boasts of the late Senator Quay, of Pennsylvania, was that he had five per cent. Indian blood in his veins. It is regarded as a great honor to have had an ancestor among the best of the aborigines in the early days of the country. Mr. Quay was not the only statesman at the capital who had Indian blood, as Mr. Curtiss, of Kansas, is also of that strain, and is a member of the Kaw tribe. It is said that Senator Clapp, of Minnesota, also has a slight admixture of the red man's blood, and his appearance indicates it. He has the straight black hair and black eyes of the aborigines. The senator does not mention this strain, if he has any, but neither does Mr. Curtiss, but neither of them is ashamed of the pure American blood.

Senator Clapp, who has just been reelected, is developing into one of the strong men in the United States senate. He is an indefatigable worker, and during the recent hearings before the interstate commerce committee, he proved one of the best cross-examiners of witnesses in favor of further regulation of railway rates. The senator used to live in Hudson, Wis., and was next-door neighbor to Assistant Secretary of the Treasury Taylor. The latter tells some interesting stories about Clapp's early experience as a political campaigner.

On one occasion the gathering he was to address was packed with the hardest lot of unconvertible democrats there ever was. Clapp got up and began to talk, but was howled down in just a half minute. Again and again he was compelled to stop, and the crowd would only subside when he told a funny story. Finally an old Irishman, who knew him and knew Clapp's name was Moses, shouted to him: "Don't mind them, Mo; they are a lot of rowdies, no decent people would come."

House Office Building.

CONGRESS MAN

THERE is gradually rising out of the ground southeast of the capitol building a magnificent marble palace, which is to be known as the house office building, but which in beauty and impressiveness will compare with the national library and with the capitol itself.

The building will occupy the entire square lying southeast of and diagonally from the capitol. When completed, it will be three stories in height and will contain 436 offices, which are to be forever dedicated to the use of members of the house of representatives.

The building is to be classic in style and ornamented with 34 columns, in pairs. The main rotunda will be elaborately decorated in bronze, marble and decorative plaster, and its splendid effects will be heightened by a monumental staircase. The interior arrangements will make it an ideal workshop for the members of the house. There is to be a caucus, or assembly, hall 57 by 87 feet, to be used by the party organizations of the house. Then there will be a dining hall on the second floor, which will be one of the finest rooms of its kind in the country, and will be a great improvement over the stuffy, ill-smelling rooms that are now used in the basement at the capitol. The kitchen for this restaurant will be located in the attic over the dining-room; so that the atmosphere of the building will not be burdened with the odors of cooking.

The building is to be equipped with barber shop, bathrooms and everything necessary to the comfort and convenience of the members. It is in this building that the members expect to receive their many callers and conduct their correspondence. They expect to be relieved from the importunities of callers who have heretofore besieged the doors in the corridors about the hall of representatives. Hereafter, the visitors will be referred to the congressman's quarters in the office building. There will be a telephone switchboard giving connection with every office, and a post office in the basement, at which the members will receive their mail at least an hour earlier than at the present time. This magnificent building will be a monument to "Uncle Joe" Cannon, who conceived the idea of such a structure and who was mainly instrumental in having it authorized.

The Attorney General.

ATTORNEY GENERAL MOODY is about the busiest man in the cabinet. When he was secretary of the navy, Moody had a pretty good time of it, traveling about on fast cruisers and dispatch boats, visiting naval stations and accompanying the squadron's evolutions. Since he became head of the department of justice however, he has been kept closely at his desk and every hour of his time nearly has been occupied with big legal problems. The investigation of railroads for violation of the anti-rebate law, suits against corporations for violations of the anti-trust law, the prosecution of the beef trust and several other important matters have kept this brilliant young lawyer very busy. In the midst of all this legal work he has also undertaken a war against an enormous system of human slavery in the south known as the peonage system.

Mr. Moody has won the first battle in his campaign, but there are many more to be fought. The peonage system, it is believed, keeps hundreds of men in actual serfdom, and the attorney general is trying to uproot the evil, and has his officials at work securing evidence against those who play the part of slave owners in a number of states. The victims of this peonage system are not all colored men, although a majority are. In a recent statement made to the department of justice by one of its agents, white men are shown to be the slaves.

This case came to light in South Carolina, and the men were Italians. They had been engaged in New York, but when they arrived in South Carolina they discovered they were to work in a phosphate mine. They refused to do so, but the master said they could not abandon the work, as they owed for their transportation, and must work out that debt. Guards were stationed over them, and in the face of weapons they were compelled to work out this alleged debt. One of the men escaped and made known the terrible condition of his comrades, which led to the interference of the government.

Fireless Cook Stoves.

ARMY authorities are very much interested in a report recently made by George H. Murphy, a United States consular clerk at Frankfort, Germany. The report is regarding what is called "fireless cook stoves," and the army officers are investigating the subject, with the idea that they might be adopted in the army. These stoves are in use in German households, and are guaranteed to save worry, work and fuel, and never to scorch the food. They never blacken the pots and do away with all objectionable odors.

According to Mr. Murphy's description these stoves or "hay boxes" are merely air-tight chests lined with felt or paper and packed with hay or straw. The close fitting lid is covered with a cushion of some sort to exclude the air. An old trunk or even a large valise may be pressed into service for a "hay box." The process of using is even simpler than that of construction. The vegetables or meats are started cooking in the ordinary way over a fire, and then transferred in the pot to the box, care being taken that the lid of the cooking utensil is not removed while the change is made.

"In general," says Mr. Murphy, "it will be found that two or three minutes of actual boiling on the fire is amply sufficient for vegetables, while roasted meat requires 20 to 30 minutes. Most articles should remain tightly closed in the box for two or three hours, although they can be left there to keep hot for ten or 12 hours, if necessary. Rice, dried beans, lentils, dried fruit, etc., should first be well soaked in cold water. After being allowed to boil for some two to five minutes, one or two hours in the box will prepare them thoroughly for the table. Cauliflower and other soft vegetables should merely be brought to a boil and then placed for an hour or two in the box. Compared to the old way of cooking the saving of fuel by the use of the "hay box" is very apparent. It cooks while you sleep.

The Ideal Husband.

The real ideal husband should be a busy man and one whose day is very full. Men are not happy without plenty of work; and a man who has no outlet for his energy elsewhere bestows it on his household, with generally unfavorable results.—Lady St. Helier, in Leisure Hour.

The most popular fiction writer in England is Silas K. Hocking, of whom little or nothing is known in the United States. He was once a Methodist minister.

NORWAY VOTES DISSOLUTION.

SO DECIDES UNANIMOUSLY BY A LARGE REFERENDUM BALLOT.

Result Surpasses the Most Sanguine Expectation. It is Declared that Norway will Remain a Monarchy.

Christiania, Aug. 11.—The Norwegian people in a referendum taken yesterday pronounced in favor of the dissolution of the union of Sweden with remarkable though not unexpected unamity. Of 450,000 votes 320,000 cast ballots.

While the full result will not be known for some hours, up to midnight returns showed that about one person in three thousand voted against the dissolution.

The weather was favorable and there were scenes of the greatest enthusiasm everywhere. Thousands of women who did not have the right of franchise signed petitions in the streets endorsing the dissolution.

In Christiania and other cities, the total population turned out, everyone wearing long streamers of the national colors and pictures of Premier Michelson.

One of the members of the cabinet said to the Associated Press last night:

"The result surpasses the most sanguine expectations. The next official step will be taken after the storthing meets on Aug. 21, when the result of the plebiscite will be communicated to Sweden through the Swedish cabinet and the rigsdag.

"The storthing will repeat the request that the rigsdag declare the riksakt inoperative and the union dissolved. The storthing will also express a willingness to negotiate concerning the details of the dissolution. It is the earnest desire of Norway to conclude the dissolution amicably.

"Norway will never retract, but everything will be done to meet the wishes of Sweden in other directions. Norway must remain a monarchy, the people do not desire a republic."

ASSAULTED ON ROAD.

Train Dispatcher Costello Held Up Near Chisholm and Dangerously Hurt.

Duluth, Minn., Aug. 14.—Thomas M. Costello, a train dispatcher on the Great Northern at Kelly Lake, Minn., while driving with a Miss Barrett of Hibbing from Chisholm to Meyers' mine Saturday evening, was assaulted and perhaps fatally injured by an unknown man, who held the couple up on a lonely road on the outskirts of Chisholm.

The assailant rushed out from a clump of bushes and grabbed the horse by the bridle. Calling upon Costello to surrender, and the demand not being complied with, the man hurled a large rock, striking Costelly in the head, crushing the skull. He was rendered insensible and the girl, taking the reins, whipped up the horse and escaped to Chisholm, where the injured man was placed in charge of a physician.

Friends Furnish Bail.

Mankato, Minn., Aug. 12.—Judge Cray, when he issued the bench warrant for the arrest of Alfred A. Buck, the defaulting cashier of the Mapleton State bank, fixed the bail at $5,000, and Mr. Buck's friends expect to furnish the required bond in a few days. One of them has offered to put up cash bond for the entire amount.

Mr. Buck is very anxious to secure his liberty so that he can go to work. He has been offered a position at Mapleton which he intends to accept.

Landslide.

Winnipeg, Man. Aug. 14.—At three o'clock yesterday a large landslide came down about half a mile west of Spences Bridge in British Columbia sweeping the Thompson river over the entire village and leaving nothing but ruin in its path.

Fifteen Indians are reported missing and twelve are injured.

Wrecked.

Cleveland, Ohio, Aug. 14.—The fast eastbound passenger train on the Nickel Plate road collided with a west bound freight train early yesterday at Kishman, Ohio, near Vermillion resulting in the death of twelve persons while at least twenty-five others were injured, eight of whom will probably die.

Outbreak.

Shanghai, Aug. 14.—Soo Chow reports that the anti-American boycott is assuming a political character.

An anti-foreign outbreak is feared.

Only the northern Chinese authorities are sternly repressing the movement.

The Viceroy of Nankung apparently is undecided what to do.

DEFECTIVE PAGE

THE SUNBEAM.

BY W. G. HUNT.

Published every Friday, at Sunbeam, Red Lake County Minnesota.

Subscription $1..00 per year.

With about all the land in this locality taken up by actual settlers we will soon be enjoying all the conveniences of the older settled parts of the state, such as daily mail service, telephone lines aud next year a railroad.

Some one of you farmers that want your crops insured against loss by hail should make inquiry of ex-senator Stephens about that state hail insurence that he was so sure he would get three years ago when he was running for office.

While the settlers on these lands have to pay for them at the government price they have no contest caseses to fight and big lawyer fees to pay. One farmer who had een in a contest case for a number of years where he used to live, made the remark to us the other day, that this place seemed like heven, where you never will hear of a contest lawyer.

Olberg Journal: Minnesota is probley in line for an other congressional district, as a result rom increase in population. Now Northern Minnesota has shown good gains while the southern nd central portions have shown loss or barely kept even, and is therefore intitled to the new congressional district, which will in all probablity be inserted in the Sixth, Eighth and Ninth districts.

Senator Moses E. Clapp, in an interview with one of the reservation settlers from up this way, t the Thief River Falls fair, last week. expressed the opinion that there was no prospect of getting any reduction in the price paid for these lands, and hat it was doubtful if there ould be any extension of the me of payment, as it was a difcult matter to get the bill thru ongress to open the land, and hat body now considered the atter as having been disposed f, and they only have one way f looking at it and that is, if ou did not want the land at the rice and on the terms that you bought it, Why did you buy it?.

Shevlin seems to have caught e county seat fever from Thief iver Falls and are trying to ove the county seat of Clearater county to their town, but seems that Bagley has been training with Red Lake Falls nd have learned the block blow. ow it's up to Shevlin to send a presentative to Thief River alls, (Iver Krohn would be the est one to send) and have him ain with Ira C. Richerdson, on e Fitzsimmons hook blow, and andamus proceedings.

AT THEIR OLD GAME.

Some of them mutual insuran companys should be driven t of busjness in this State and me of their employes sent to e penitentiary where they beng. The Minnesota State Mual Insurenee company takes e lead of them all in methods at are dark. as they seem to ep a man by the year to beat rmers out of their insurance at meet with a loss. We pubh the folowing from the Pioer Press of Aug. 8th which exains one of their latest trantions.

"A suit brought by Samul Mil against the State Mutual re Insurence company of St. ul to recover $1. 040 for a fire s has been transferred to Ramy county from St Louis coun on a change of venue.

Miller alleges that his dwelling house, furniture, barns, horses, cattle and farm machinery were insured by the defendant company against damage by fire in the sum of $1, 615, and that on May 5, last, one of the barns was struck by lightning, resulting in a fire in which his loss amounted to $1, 040.

On May the 12, it is alledged E J. Lawles. an adjuster, visited Miller and offered to pay him $371.50 for the personal property destroyed and to rebuild the barns. This compromise was accepted on the condition that the barns be compleated before haying time. Haying time now is passed and it is alledged the company has failed to rebuild the barns or to do so, and also refuses to pay more than $71.50, the amount of a premium note given by the plaintiff. The plaintiff demands a settlement in full for the loss".

HUTTON'S ONE RECIPE.

It Included a Paper Cutter, Ink Eraser and Rubber Bands.

Perhaps the most ingenious and the most original of all schemes for procuring autographs was from a lady in a western town. She was raising funds for the building and support of a public library, and she had conceived the idea of issuing a volume to be called "The Authors' Recipe Book." Authors from all over the country, the most distinguished of authors—always authors with a capital A—had been good enough to send her a list of the favorite dishes of their own construction, with their method of making them

The cookbook was one of the many forms of literature to which the recipient had never turned his attention. He had no more idea of cooking than he had of milking a cow or of harnessing a horse or of setting a hen or of building a dynamo. He did not even care what was cooked for him so long as it contained none of the ingredients of tripe and none of the essence of tomato. But he was asked to contribute a paper, which she would have reproduced in facsimile; stating what he could prepare most to his liking upon a kitchen range or in a chafing dish, with his manner of procedure. This quite nonplused him until he bethought himself of one particular and peculiar delicacy in the evolution of which he could safely trust his reputation as an expert. In reply, for which he received no thanks, he said:

"Take a long paper cutter; attach to the same by means of rubber bands, and securely, an ink eraser; insert the ink eraser firmly into a marshmallow plug and hold the same over a student's lamp or study fire until the marshmallow begins to sizz, drops into the ashes, puts out the light or burns your hand. And eat while hot!"

He has never seen a copy of "The Authors' Recipe Book!"—Laurence Hutton in Critic.

BULGING GUN BARRELS.

The Ruin That Is Wrought by Careless Handling.

I have sold guns for ten years, and in that time four of them have had their barrels bulged, one by snow, one by dirt, one by sand and one by something else getting into it. One man crawling through a fence got a little snow in the muzzle. He could not remove it with his finger, so concluded to wait and shoot it out, which he did, but he found a bulge like a pullet's egg on the end of the barrel. Another got some earth in the muzzle and shot it out, and he, too, found the same kind of a bulge on the end of his gun. Another fired his gun at ducks, which knocked him over on his back and fairly got away from him. When he picked up the gun he found a narrow raised band around the barrel fourteen inches from the muzzle. In this case a wad had probably lodged there. This customer thinks the manufacturers ought to give him a new set of barrels. I tell him if the barrels had not been good ones it would have been a burst instead of a bulge, which might have maimed or killed him. Another man lying on a point brought down a duck with a broken wing which scurried for the water. The man ran and struck the duck with the muzzle of the gun and in so doing got sand in it. He blew most of it out and shot out the rest of it. Well, after that shot he found a little blister two inches from the muzzle about the size of a man's little finger.

Moral.—Do not shoot obstructions of any kind out of your gun if you value your life or gun.—Uncle Dan in Amateur Sportsman.

Something Wanted.

A bachelor, old and cranky, was sitting alone in his room. His toes with the gout were aching, and his face was o'erspread with gloom, no little ones' shouts to disturb him—from noises the house was free. In fact, from cellar to attic 'twas as still as still could be. No medical aid was lacking; his servants answered his ring, respectfully answered his orders and supplied him with everything. But still there was something wanted, which he could not command—the kindly words of compassion, the touch of a gentle hand. And he said, as his brow grew darker and he rang for the hireling nurse "Well, marriage may be a failure, but this is a jolly sight worse."

A Caustic Tongue.

Years ago a prominent citizen of Chicago, who at that time was president of one of its leading clubs, in introducing another prominent citizen as a speaker at a club banquet dwelt in highly complimentary terms on the latter's efforts to bring about political reforms. "Gentlemen," he said, "no one in this city exerts a more powerful influence for good than does Mr. Blank when he is sober." Then in great confusion and amid an awed silence he hastened to explain that Mr. Blank exerted, as he had intended to say, a powerful influence when he was in earnest.

At the banquet given at the opening of the present Board of Trade building the elder Carter Harrison made a flamboyant speech congratulating himself on having been born in the same year that the steam locomotive was invented. He was followed by the late Emery Storrs, who said that, most appropriately, Carter Harrison and the locomotive were born in the same year since both of them had been blowing off steam ever since.

It was Emery Storrs who said that a fellow lawyer reminded him of a beautiful house with massive portals and impressive cornices, which, when you opened the front door, landed you immediately in the back yard.

Beyond Reason.

There be two individuals who cannot be reasoned with—a girl in love and a man who is determined to run for an office.—New Orleans Picayune.

Love is never afraid of overwork.—Chicago Tribune.

Her Endurance.

"How can you scold all the time?" was asked of the woman with five stepchildren and an indolent husband.

"I can't just explain it, but I know that I'm blessed with wonderful powers of endurance."

Deacon and Elder.

Morrison—What is the matter, Dumley? You look terribly mystified. Dumley—No wonder. I was talking with Jinkins just now. We were speaking of the Joneses, and he said that the elder was the younger and the deacon the elder. I can't get at the rights of the thing to save me.—Boston Transcript.

LEGAL PAPERS Drawn At This Office, By W. G. Hunt Notary Pnblic.

The Preacher's Error.

In the early days of Springfield a preacher bought some sausage for lunch one Sunday and took it to church with him. He carried the sausage in the back pocket of his coat, and a dog, catching the scent, followed him. Every few feet the preacher would kick backward at the dog without looking around. Arriving at church the preacher began the services, and the dog lay down behind the altar.

A few minutes later one of the deacons stole quietly up behind the preacher, intending to hand him a sheet of paper, and pulled his coat tail. Without glancing back the preacher gave one vicious kick and sent the deacon rolling down the altar steps on to the dog, which set up a terrible howling. The preacher, still looking straight ahead, said:

"My friends, this thieving scoundrel has been trying to rob me ever since I made a purchase at the butcher shop before coming here."

When the preacher discovered what he had done he dismissed the congregation and went outside to kick the dog.—Sedalia (Mo.) Democrat.

A Water Candlestick.

A glass of water makes a fine emergency candlestick. Weight one end of the candle with a nail just large enough to hold the candle in the water so that the water touches its top edge but does not touch the wick, and then light the candle. It will burn until the last vestige of wick is gone and the flame will not flicker. The melted tallow that runs down but serves to hold the candle more stationary.—Blacksmith and Wheelwright.

Two Views.

"A man's vote is too precious to be sold," said the patriot.

"Perhaps," answered Senator Sorghum, "although a number of people of my acquaintance regard it as too valuable to be given away."—Washington Star.

A Secret Society.

Carrie—I've got a dandy idea for a girls' secret society. Belle—A secret society! Do you think it would be practical? Carrie—Surely. We wouldn't keep secrets; we'd swap them.—Puck.

LOCAL PARAGRAPHS.

Do your Notary Public business at the SUNBEAM office.

Applications to make final proof written free at this office.

We had rather a damp trip to Kratka and return in yesterdays rain storm.

A. W. Shosten, of High Landing made this office a pleasent call to-day.

Another heavy rain storm yesterday reduced the mud to usal thinness.

This months moon is bottom side up, but it must be getting about emtied out now.

Andrew Ellingson received another cargo of goods Sunday, on the ship "Dan Patch."

There will be an excursion on the gasolen launch "Dan Pach", from High Landing to big oak, and return next Sunday.

George Singer will soon commence the erection of a store building at Rhoda. The lower part to be used for a store and the upper part for a hall to lease for entertainments.

The farmers in this locality have almost an inexhanstible supply of hay land, which comes handy this wet year If they loose one days mowing by rains, they go on the next forty and cut a fresh supply.

George Singer and William A. Swanson drove down to Thief River Falls Tuesdaday, returning Wednesday. They report the roads as being out of sight, for mud.

John Rodniski, Mike Kolski and Theadore Hyland of Deer Park, made this office a pleasent ca'l Tuesday evening. Mr. Rodneski made arrangements to have his Rodny store advertised in THE SUNBEAM, in the future.

Edward T. Emmerson, of Kratka recived the first premium for the best sample of flax at the Thief River Falls fair last week, and was a close second on oats. How is that for the new end of the county.?

Andrew Ellingson the High Landing merchant can not sell you new eyes, but he can fit up your old eyes with glasses so you can see as good as you ever did. Give him a trial.

Mrs. Knut Austin went down to Crookston this week to take her little girl to the doctor, as she was quite seriously ill. Knut is keeping bachelors hall during their absence and when asked how he liked it?, said. "Oh it aint so bad, I get along allright, washing the dishes is the worst part of it."

The Longest Novel.

The "Story of the Eight Dogs" is the longest novel that has ever been published. Fortunately, perhaps, it is written in Japanese, so no one will get himself the task of reading it. It contains 106 volumes, several hundred characters and numerous dogs, all of which are successfully disposed of by the time the last chapter is reached. Just imagine reading through that—one book that would last a lifetime!

True Heroism.

The hero fears not that if he withhold the avowal of a just and brave act it will go unwitnessed and unloved. One knows it—himself—and is pledged by it to sweetness of peace and to nobleness of aim, which will prove in the end a better proclamation of it than the relating of the incident.—Emerson.

She Reasoned It Out.

Ethel—Mamma, if a little boy is a lad, why isn't a big boy a ladder? Mamma—For the same reason, I suppose, that, although a little doll is a doll, a big doll is not a dollar. Ethel (reflectively)—That's so. My big doll was $2.—Kansas City Journal.

His Hard Luck.

Benevolent Old Lady (to one of the unemployed)—Poor man! What have you done to your hand? Unemployed—Broke my knuckles, mum, knockin' at people's doors askin' for work.

In order to love mankind we must not expect too much of them.—Helvetius.

Sweeping.

"I was just telling my daughter," said Mrs. Nexdore, "that it's a shame for her to play the piano on Sunday." "Huh!" exclaimed Mrs. Peppery, "why Sunday especially?"

APPLICATIONS AT LILLO.

If you live in the town of Equality or Johnson you can make your application to make final proof, at Lillo, and have your notice published in the paper published nearest your land.

LAND OFFICE BUSINESS.

U.S. Commissioner L. G. Browning with office located at Thief River Falls, is prepared to take homestead entries final proof etc., within the Crookston U. S. Land District.

Office in News building, three doors south of the post office.

FROM DEER PARK,

During the past week several small showers of rain have come, just enough to nicely delay haying half a day at a time.

C.W Johnson is building a very substancial yard around his house. Charles says he intends to make things shine around him in the future.

There was another party over at Torgus Lofthus place on Saturday evening, last. We under stand all that went enjoyed themselves fairly well.

M.E. Hyland says his harvest at Gully awaits him, as his barley and oats are ready to cut.

A Knutson turned some of his stock into Knute Olsons pasture while he goes back to his farm near Fosston to harvets.

George Singer has been on the sick list for the past fiew days but does not get well very fast and now says he will go and see a doctor.

Knute Olson left for his Eden farm last Friday to look after his harvesting.

Small children here have been having an attact of colds and fever spells the past fiew days

C.W. Johnson and Sam B. Swanson were among those that took in the dance at Lufthus last Saturday night from here.

We understudd that Rhoda is to have a new barber shop. What next we wonder?

Mrs G. Larson and her two little boys, Swan and Andy and family visited at Mr. and Mrs. W.A. Swansons Sunday.

We never saw prairie chickens so scarse at this time of the season. Have seen but one covey of young ones this season. If nothing happens we think we can handle this bunch without any outside aid.

M.E. Hyland sold a fresh milch cow to Mike Kolski last week for the round sum of $4 00.

What Won the Girl.

It was in a subway train. On the lap of a woman, apparently her mother, sat a girl of some eighteen months. Next to them was another mother with her two-year-old son. Each woman petted the other's child, and the boy liked the attention and laughed and pranced. The girl maintained a straight face. She did not fret, nor apparently did she want to cry, but if the word can be used in the case of one so young she was bored. The petting of her own mother and of the other woman clearly had no effect. Then the little boy entered the lists. Edging up to the child, he put his arms around her neck and said, "I love 'oo!" Then it was that there broke over the baby's face the first smile that had appeared since the long subway ride from Harlem began. And as for the mothers, the usual and natural comments as to prescience followed.—New York Tribune.

Letters of Marque.

Letters of marque and reprisal, as they were called, were first issued in the time of Edward I. to give leave to retaliate beyond the marches or limits of a country for wrongs suffered at the hands of a power nominally at peace. In this first instance they were aimed at Portugal. About a hundred years later two Hanse towns in Mecklenburg, wishing to relieve their prince, who was beleaguered in Stockholm, issued letters of marque—thieves' letters, as the sufferers called them—to all the rascals of the Baltic, authorizing them to victual the besieged city. This done, they turned themselves into a confederacy of sea robbers known as Victualing brothers, or St. Vitalius' brothers, and rendered the Scandinavian seas unsafe for half a century.

An authority on horses says the gray will live the longest and that roans come next in order. Blacks seldom live to be over twenty, and creams rarely exceed fifteen.

EVERYBODY WANTS A TIP.

Experience of an American Woman While Visiting Venice.

One of the things that most astonish you with regard to the working class Italian is the perfect frankness with which he shows his desire for a tip. No false modesty obscures it. You may sometimes fear that you will forget it. Let such fears forever rest. He won't let you. He will follow you, asking you if you have your parasol when he sees it in your hand or if you know the way out when he has just told it to you. The whole poor population of Venice is absolutely frank in its exhibition of a desire for any small sum of money the passerby may throw it. The children, one and all, make a demand for a soldino as a matter of course. It is a sort of greeting to every foreigner casually as a phrase of general usage.

Coming from the bath you fee the girl who has charge of the bathhouses. If you don't she has a dozen ways of making herself disagreeable next time you come. And do not allay your troubled anticipations by the thought she may not recognize you. One glimpse of a face fixes it in her memory for months. After that you fee the woman who takes care of your purse and jewelry. If you fee her enough she drags out from some inner recess a cheap mirror which distorts your countenance and allows you to look into it and see how truly hideous the human visage can be made to appear. Before the bath you have to fee the old woman who gives you your bathing suit. If you neglect her the next time you come she will give you a suit that doesn't fit you or is full of holes.

When you go out on the terrasse for a black coffee, which costs 10 cents, you fee the waiter. When you get into your gondola you fee the old man who draws it close to the steps with a hooked stick and offers you his withered old arm to lean on. When you get out of your gondola at the hotel you fee another old man with a hooked stick and a withered arm. And then at dinner, if you haven't just feed the waiter he will be cross, and up in your room afterward if the femme de chambre has not recently had a tip she will refuse to answer the bell.—San Francisco Argonaut.

WISDOM'S WHISPERS.

It's lucky we don't know how unlucky we may be.

It is difficult to take a woman by surprise in a love affair.

Some people are cranks simply because you can't turn them.

Some men secure all the glory attached to whatever part they assume.

A woman may know very little and yet have a way that carries conviction.

The want of refinement in a man cannot be corrected by the gloss of set phrases.

Some men take on an air of consequence to conceal the weakness of their position.

When a man can hide his thoughts in a smile he holds a powerful weapon of defense.—Philadelphia Bulletin.

Where He Made His Money.

Years ago a gentleman settled in the south of England and became very popular in the neighborhood. The county families could never discover how he had made his money, but were satisfied by his solemn assurance that it was not in trade. Nothing could exceed the ordinary gravity of his demeanor, which, indeed, caused him to be placed on the commission of peace, but now and then, without any apparent provocation, he would burst into such a laugh as no one ever heard before except in one place.

Where they could have heard it puzzled the county families for five and twenty years, but at last he was betrayed unconsciously by his own grandchild, who after a visit to a traveling circus innocently exclaimed, "Why, grandpa laughs just like the clown!" —James Payn.

Horses In the Time of Homer.

The horses used in Homer's time were war horses. The warriors were drawn in chariots. The art of riding was known, but it is alluded to as something unusual. Ulysses at the time of his shipwreck "bestrode a plank, like a horseman on a big steed." There are reasons for believing that the practice of riding was much later than that of driving, and the myth of the centaur, where, according to Shakespeare, "man is incorpsed and deminatured with the beast," probably originated at an early period when the appearance of a man on horseback was a novel sight.

A Snub For Moliere.

A remarkable incident is reported for a suburban theater in Paris. The play was "Tartuffe," and at the end of the fourth act the manager of the company came in front of the curtain and said, "Ladies and gentlemen, we shall not go any further with this piece, for the fifth act is unworthy of Moliere." How the audience took this announcement is not stated. Perhaps they went home and read the fifth act critically in the seclusion of the library.

Then He Sulked.

"Mrs. Guschley remarked to me that it must be pleasant to be married to a clever man," said Proudley's wife.

"And what did you say?" queried Proudley.

"I told her, of course, that I didn't know; that I had only been married once."

Doubting Dennis.

Judy—Will ye give me yer promise, Dennis, that ye'll love me forever? Dennis—Sure, an' Oi'd like to do that same, Judy, but Oi'm hardly of the opinion that Oi'll last as long as that.—New York Times.

The Hawaiian Death Prayer.

Upon the minds of such a people as the Hawaiians were, while under their ancient form of religion, it was but natural that superstition should gain a rooted hold. The most curious and effective belief to which they were made subject was that a man can be prayed to death, a belief that survives among the natives to the present day. For the success of the tragical death prayer it was necessary to obtain some hair or a piece of finger nail of the intended victim. A priest was then employed to use incantation and prayer for his destruction. Always informed of the doom that the priest was invoking upon him, the victim generally pined away and died.

There is a story that an Englishman in the service of Kamehameha I. having incurred the displeasure of a priest, the latter proceeded to "remove" him by the death prayer process. The Anglo-Saxon, however, set up an opposition altar in derision and jokingly proclaimed that he intended to pray the priest to death. Alarmed at the threat and overwhelmed at the failure of his own incantations, the sorcerer died, proving by his death his faith in his religion.

The Social Capital.

We do not think that either Washington or New York or any other city will ever become the social capital of the United States as London is the social capital of Great Britain. Washington will come much nearer to it than it does at present, but the country is too big to have a social capital. Hordes of people will come to New York to make money, to amuse themselves, to study, to live their lives in the least restricted atmosphere that the country offers, but only very rich people will come here to find and occupy a place in organized society. Pleasant people will always find pleasant playmates here. There is no lack of good company for everybody, that is companionable. But the charm of New York for people who still live elsewhere is not in its society, but in its shops and shows, its sunshine, its eating and its drinking. It is pleasant. It grows finer every day. When it is finished it will be a marvelous city, but hardly the social capital of the country.—Harper's Weekly.

A Finny Acrobat.

No two leaps of the tarpon are quite alike. As the tarpon comes out into day his jaws distend, his gills flap open, and the mullet bait flies out across the water for a hundred feet, while he retches at the hook, shaking his head angrily from side to side, like a horse that fights his bit. In midflight he will turn and cut into the stream with a head on dive that makes a perfect cleavage of the whitened water. His next emergence may be a back somersault and his third a long distance jump with no height to it, but a substantial gain in feet. With infinite spirit he will continue his play until absolutely worn out, when the spring and somersaulting lapse into a long, rolling stroke from side to side, showing the two foot dorsal filament, which waves and floats out behind, like some independent water creature.—Country Life In America.

The Knowledge That Pays.

If you glance round at the work of some of our big men you will be surprised to see how many have made their reputation by doing one small thing, but doing it well. If a man gets to the front in one narrow subject the world credits him with knowledge of all the rest. It is, however, even easier to acquire a large general knowledge than an advanced special knowledge of one narrow subject. The specialty must not be too narrow either. It is often said that the pursuit of knowledge has a nobility of its own. But what knowledge? No knowledge is worth obtaining for its own or any other sake unless it is or will probably be useful to man.—James Swinburne in Electrical Review.

Could Be Happy If We Wished.

If in a less fortunate time than ours, when the resources of mind and body were less varied and plentiful than they are now, men and women took delight in life, warmed both hands at its fire and filled their hearts with joy and gladness, may we not conclude that they were happy simply because they lived, as we might, in the right way, and put to their right uses that which was provided for them?—Christian Register.

Overeducated Hindoos.

There exists among India's educated classes a mad desire for professional vocations. Take a walk in certain streets in India, and you will observe a perfect panorama of signboard depicting professional callings, and the business houses are principally conspicuous by their absence.—Times of India.

Time to Begin.

Are you doing as much to brighten this world as a single sunbeam does? Are you scattering as much fragrance in the lives about you as is shed by one little violet? Do you refresh tired hearts as a drop of rain refreshes a drooping plant? If not, it is time to begin.—Detroit Free Press.

Cynical.

"Which do you think counts for the most in life, money or brains?"

"Well," answered Miss Cayenne, "I see so many people who manage to get on with so little of either that I am beginning to lose my respect for both."—Washington Star.

Wealth is something that enables a millionaire to stand up in meeting and say it is no disgrace to be poor.—Chicago News.

To have a perfect stomach a man or a woman must dine well and breakfast and sup simply.—Ladies' Home Journal.

The Camel as a Soldier.

The camel is a good soldier, says a London writer. It may be stupidity, and it may be bravery, but a camel is as steady under fire as a tower. The Persians mounted small cannon on the backs of their camels and called them zambwahs, or "little wasps." This fashion was adopted in India, and after the battle of Sobraon 2,000 of these artillery camels were captured. In the Indian mutiny the British had a camel corps of 150 beasts, and on the back of each camel sat a Scotch highlander in his kilt. In 1845 Sir Charles Napier had a camel corps in Sindh, and in one day he marched seventy-five miles, defeated a brigand chief and marched home again. In 1878 the British used camels against the Afghans, and the government paid for 50,000 camels that died in those campaigns. Many of these were driven to death by their owners in order that they might claim the government bounty.

Glass Eyes for Animals.

Glass eyes are now made for horses, cats and dogs, as well as for human beings. These animals use a larger eye than man, and several are ordered for them at the same time, as a new one is necessary about once in six months. The edges become roughened and produce irritation, from the acids of the secretions affecting the enamel.

Dog's Sudden End.

Peter McArthur, talking about a novelist who was arranging for the dramatization of a novel that he had not yet completed, remarked: "He is a good deal like a Canadian friend of mine who went hunting with a dog. The trip was all right for a time, but there came a sudden end when the dog undertook to jump over a deep well at two jumps."

Good Thing to Remember.

An eggshell is porous, and filth on it affects the meat.

NOT CENSUS QUESTIONS.

Were you ever happy, and who was to blame?

Are you black or white, and how do you account for it?

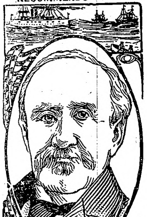
Do you eat patented breakfast foods or just plain sawdust?

Do you think that the high price of eggs is due to the foul-strike?

Did you ever hear a theater joke, and what did you take to remove the effects?

What is your age, and how many years is it since you celebrated that birthday?

Did you ever love your wife so much that you would like to eat her, and are you sorry that you have not done so?



COMMODORE NICHOLSON RECOMMENDS PE-RU-NA.

COMMODORE NICHOLSON.

COMMODORE Somerville Nicholson of the United States Navy, in a letter from 1837 R street, Northwest, Washington, D. C., says:

"Your Peruna has been and is now used by so many of my friends and acquaintances as a sure cure for catarrh that I am convinced of its curative qualities and I unhesitatingly recommend it to all persons suffering from that complaint."

Our army and our navy are the natural protection of our country.

Peruna is the natural protection of the army and navy in the vicissitudes of climate and exposure.

We have on file thousands of testimonials from prominent people in the army and navy.

We can give our readers only a slight glimpse of the vast array of unsolicited endorsements Dr. Hartman is constantly receiving for his widely known and efficient remedy, Peruna.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. S. B. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

PAXTINE TOILET ANTISEPTIC

FOR WOMEN

troubled with ills peculiar to their sex, used as a douche is marvelously successful. Thoroughly cleanses, kills disease germs, stops discharges, heals inflammation and local soreness, cures leucorrhœa and nasal catarrh.

Paxtine is in powder form to be dissolved in pure water, and is far more cleansing, healing, germicidal and economical than liquid antiseptics for all

RUMORED OF ROYALTY.

Earl Nelson, who is in his eighty-second year, is the only living peer who was a member of the house of lords when Queen Victoria came to the throne.

King Edward's reign has by no means brought joy to the heart of London tradespeople. A leading trade paper laments the fact that a great portion of the trousseau of Princess Margaret of Connaught was purchased in Paris.

There is something in the soft round cheek and the direct outlook of Princess Margaret's candid eyes that recalls the early portraits of the great queen, and there are traits of character that bear the same stamp, such as truthfulness, clear insight, earnestness of purpose, and last, not least, "saving common sense."

England's future king, Prince Edward of Wales, now 11 years old, possesses a child's habit of saying the unexpected thing. When visiting King Edward, the other day, the king asked him what he was studying, and the little prince said: "All about Perkin Warbeck." Asked who Warbeck was, the prince replied: "He pretended he was the son of the king, but he wasn't; he was the son of respectable parents."

There is a singular coincidence about the two English royal princesses named Louise. They are both the daughters of British monarchs, they are of very fair complexion and both married out of the blood royal. Each also selected Scottish peers—the dukes of Argyll and Fife—both of whom are as fair-skinned as their wives. Still further goes the coincidence, for neither of the royal duchesses has presented her husband with a male heir.

FACTS AND FIGURES.

St. Louis butts into the procession with a tax assessment roll of $469,000,000, an increase of $10,000,000 over 1904.

Only four per cent. of the men of the British army have a chest measurement of over 40 inches, and 20 per cent. between 38 inches and 40 inches.

New York state is about to receive from the federal government $118,585.84, interest and principal on an investment of $20,000 in equipping troops for the war of 1812.

At Cheboygan, Mich., is the largest sawdust pile in the world. It is a hill, 1,080 feet long, 875 wide, 3,625 in circumference, ranges from 20 to 50 feet in height, and covers 12 acres. It is the accumulation of one lumber company since 1877.

Camille Flammarion's new perpetual calendar starts the year at the vernal equinox, March 21. Every quarter should contain two months of 30 days and one month of 31 days. This would make 354 days. The same dates would occur on the same days of the week, and one calendar would last a lifetime.

Out of Order.

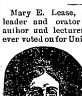
"I hate to have anything on my conscience, don't you?" she mused.

"I never have," he replied, quickly; "mine isn't working."—Detroit Free Press.

AMERICA'S BRIGHTEST WOMAN

Mary E. Lease Feels It Her Duty to Recommend Doan's Kidney Pills.

Mary E. Lease, formerly political leader and orator of Kansas, now author and lecturer—the only woman ever voted on for United States Senator, writes:



Dear Sirs: As many of my friends have used Doan's Kidney Pills and have been cured of bladder and kidney troubles, I feel it my duty to recommend the medicine to those who suffer from such diseases. From personal experience I thoroughly endorse your remedy, and am glad of the opportunity for saying so. Yours truly,

(Signed) MARY ELIZABETH LEASE.

Conviction Follows Trial

When buying loose coffee or anything your grocer happens to have in his bin, **how do you know what you are getting?** Some queer stories about coffee that is sold in bulk, could be told, if the people who handle it (grocers), cared to speak out.

Could any amount of mere talk have persuaded millions of housekeepers to use

Lion Coffee,

the leader of all package coffees for over a quarter of a century, if they had not found it superior to all other brands in

Purity, Strength, Flavor and Uniformity?

This popular success of LION COFFEE can be due only to inherent merit. There is no stronger proof of merit than continued and increasing popularity.

If the verdict of MILLIONS OF HOUSEKEEPERS does not convince you of the merits of LION COFFEE, it costs you but a trifle to buy a package. It is the easiest way to convince yourself, and to make you a PERMANENT PURCHASER.

LION COFFEE is sold only in 1 lb. sealed packages, and reaches you as pure and clean as when it left our factory.

Lion-head on every package.

Save these Lion-heads for valuable premiums.

SOLD BY GROCERS EVERYWHERE

WOOLSON SPICE CO., Toledo, Ohio.

GOPHER GOSSIP.

St. Paul.—Daniel Ferguson, seven years old, is killed by a street car.

St. Paul.—Pat Ebbs, a former pugilist, shoots holes in barroom mirrors.

Minneapolis.—The outing of the state editorial association is arranged.

Monticello.—The 12-year-old son of Mr. Mitchell of Salida died from sunstroke.

Minneapolis.—The state now has $3,000,000 loaned to school districts and municipalities.

Winona.—High water is causing much trouble to the sanitation sewage system of this city.

Brainerd.—It is estimated that 10,000 to 12,000 harvest hands will be needed in the Northwest.

Winona.—The Minnesota guardsmen will send a rifle team to the national contest at Seagirt.

St. Paul.—Attorney General Young rules that Food Commissioner Slater may appoint volunteer inspectors.

Minneapolis.—Fifty thousand dollars will bring the Grand Army encampment to Minneapolis next year.

Moorhead.—Ole C. Lund of Tansem fell while stacking hay, breaking his back and dying from his injuries. He was 60.

Two Harbors.—The Duluth & Iron Range road has received about 2,000 steel ties from the Carnegie steel works for experimental purposes.

Elk River.—Lightning set fire to the barn of the Mississippi and Rum River Boom company, and it was burned to the ground. Loss $15,000.

St. Paul.—Gertrude Heck, the five-year-old daughter of Mathias Heck, 395 Daly street, was seriously burned while playing with fire near her home.

Stillwater.—Ambrose Lee, a St. Paul workhouse prisoner, was released from the Como institution on a pardon issued by the state pardon board.

Rochester.—Rochester is to experiment and have a home coming and free street carnival this year, the date being for one solid week, Aug. 20 to Sept. 2.

St. Paul.—Governor Johnson came to the aid of the Aitkin high water sufferers with a check for $200. The money was sent to the general relief committee.

Hinckley.—Work on the new schoolhouse is being rapidly pushed and the building is expected to be ready for occupancy in time for the fall term.

Fort Snelling.—Private John Mastil, Company I, Twenty-eighth infantry, was accidentally drowned while rowing on the Mississippi river with two other soldiers.

Hastings.—The Farmers' Co-operative Elevator company has bought Elevator A in this city from the Miller Elevator company of Minneapolis for $6,500.

Delano.—Seven old couples live within Delano's borders who can boast of having been married over fifty years and have lived together during that period.

Minneapolis.—A well dressed young man, thought by the police to be an expert diamond thief, snatched a diamond from the jewelry counter in the New Store and after an exciting chase escaped.

Sauk Center.—George Truax, aged 31, was killed on the Great Northern tracks between here and Melrose. Truax had lived here nearly all his life, and for several years was in the livery business.

Minneapolis.—Despondent over his separation from his family, Xavier Tyaber, a weaver, shot himself while alone in his little shop at 1006 Main street northeast. His decomposed body was found by a friend.

Osakis.—Way freight, west bound, Conductor R. E. Landis, ran over a laborer whose name is supposed to be Don Axelman, said to have a brother in Dayton, Ohio, who attempted to catch the train at this station.

St. Paul.—Minnesota has furnished to its school districts, villages and other municipalities $3,000,000 in the last few years for the construction of new schoolhouses, drainage ditches, good roads and public buildings.

Duluth.—Mrs. Augustus Bretzner, wife of a business man of Sparta, came to Duluth and registered at a hotel as "Miss Maloney of Two Harbors," and in the night took a dose of morphine which caused her death in a hospital.

Mankato.—County Auditor Weaver has prepared a statement of the cost of the third trial of Dr. George Koch of New Ulm, showing an expense of $4,612, exclusive of attorneys' fees. This is the amount that Brown county will be obliged to pay.

St. Paul.—Elsie Mattson, 2 years old, 864 Maryland street, died as the result of drinking fly poison. Coroner A. W. Miller investigated the case and decided that death was due to accident. The child suffered great agony for several hours.

Minneapolis.—The first car of new-crop Minnesota wheat reached the city Aug. 8, coming from Kasota, consigned to the Van Dusen-Harrington company. Being the first lot in and grading choice No. 1 northern, it brought a high price, going at $1.06.

Duluth.—Mrs. H. Hendrickson, 80 years of age, residing east of Lake George, in Hubbard county, was returning home from a neighbor's when she became lost. A searching party was organized and it was not until the end of the sixth day of her absence that she was found.

Minneapolis.—Frank M. Crane, for whom a warrant was issued some time ago on a charge of grand larceny, has been arrested in Chicago and will be brought back.

Clotho.—The postoffice was entered by thieves, but only a small amount of change and stamps were secured. This is the second robbery of postoffices in this vicinity recently.

Owatonna.—A northbound freight upon the Rock Island road struck and killed the 19-months-old child of Mr. and Mrs. Frederick. The parents, who live between Medford and Clinton Falls, some seven miles north of this city, went into the field to work, taking the child with them.

UNDERSTOOD THE FEELING

But the Business Instinct Rose Supreme Over His Sense of Sentiment.

"Yes," said the artistic-looking man, "I spent three months in Rome, and I never tired of looking at the ruins of the Coliseum. I could have gone out there every day."

"Ruins, eh?" queried one of the other passengers in the train.

"Ruins, sir, with a history. When that Coliseum was erected Rome was in her glory. She was the greatest power on earth. She dominated all Europe. When Rome spoke kings trembled. When Rome sent forth her armies, nations crumbled. All these things came to me as I stood there and looked, and I felt, sir—I felt—"

"Yes, I can imagine how you felt."

"I stood there, and my mind went back hundreds of years, and I felt—"

"I've felt the same thing," broke in the other, "and you needn't try to describe it. Only last summer I went back to the home of my boyhood, and I stood there beside the old broken well where I used to drink from the bucket. Yes, I understand just how you felt; but when you got over it did you happen to ask if there was any market there for cotton hats? We've got a lot on hand, and if there's any chance of selling them over in Rome I'll ship 'em there."

The artistic man gave him a look of mingled sorrow and disgust, pulled a newspaper from his pocket, and began reading the latest war news.

Their First Cloud.

The young woman in the stern of the little boat had whispered softly the word, "Yes."

"But stay right where you are," she added, hastily. "If you try to kiss me you'll upset the boat."

"How do you know?" hoarsely demanded Jack, a horrible suspicion already taking possession of him.—Chicago Tribune.

Gratitude Well Expressed.

Sault St. Marie, Mich., Aug 14th.—Mr. C. L. Smith, painter and decorator, whose home is at 309 Anne street, this city, makes the following statement:—

"I was laid up with some kind of pains. Some said it was Lumbago, others Sciatica, and others again Rheumatism. A few of my friends suggested that it was lead poison, but whatever it was it gave me a great deal of pain, in fact, almost completely crippled me. I had to use two canes to walk about, and even then it was a very painful task.

"A friend advised me to try Dodd's Kidney Pills, and I began the treatment. After I had used the first box I was able to throw away one of the canes and was considerably improved. The second box straightened me up so that I could go about free from pain without any assistance, and very soon after I was completely cured, well and happy, without a pain or an ache. Dodd's Kidney Pills seemed to go right to the spot in my case, and they will always have my greatest praise."

Darwin Refuted.

Father—Yes, my son; according to Darwin, our ancestors were monkeys.

Kindergarten Geoffrey—But, papa, I don't believe that. I shall be an ancestor myself some time, and I'm not a monkey.—Judge.

WHAT TO DO IF CONSTIPATED

Summer—Bowel and Stomach Trouble

Q. What is the beginning of sickness?

A. Constipation.

Q. What is Constipation?

A. Failure of the bowels to carry off the waste matter which lies in the alimentary canal where it decays and poisons the entire system. Eventually the results are death under the name of some other disease. Note the deaths from typhoid fever and appendicitis, stomach and bowel trouble at the present time.

Q. What causes Constipation?

A. Neglect to respond to the call of Nature promptly. Lack of exercise. Excessive brain work. Mental emotion and improper diet.

Q. What are the results of neglected Constipation?

A. Constipation causes more suffering than any other disease. It causes rheumatism, colds, fevers, stomach, bowel, kidney, lung and heart troubles, etc. It is the one disease that starts all others. Indigestion, dyspepsia, diarrhea, loss of sleep and strength are its symptoms—piles, appendicitis, and fistula, are caused by Constipation. Its consequences are known to all physicians, but few sufferers realize their condition until it is too late. Women become confirmed invalids as a result of Constipation.

Q. Do physicians recognize this?

A. Yes. The first question your doctor asks you is "are you constipated?" That is the secret.

Q. Can it be cured?

A. Yes, with proper treatment. The common error is to resort to physics, such as pills, salts, mineral water, castor oil, injections, etc., every one of which is injurious. They weaken and increase the malady. You know this by your own experience.

Q. What then should be done to cure it?

A. Use the free coupon below at once. Mull's Grape Tonic will positively cure Constipation and in the shortest space of time. No other remedy has before been known to cure Constipation positively and permanently.

Q. What is Mull's Grape Tonic?

A. It is a Grape Compound that exerts a peculiar healing influence upon the intestines, strengthening the muscles of the alimentary canal so that they can do their work unaided. The process is gradual but sure. It is not a physic. It is unlike anything else you have ever used, but it cures Constipation, dysentery and bowel trouble. Having a rich, fruity grape flavor, it is pleasant to take. As a hot weather tonic it is unequaled insuring the system against diseases so fatal in hot weather.

Q. Where can Mull's Grape Tonic be had?

A. Your druggist sells it. The dollar bottle contains nearly three times the 50-cent size, but if you write to-day you will receive the first bottle free with instructions. This test will prove its worth.

WRITE FOR THIS FREE BOTTLE TO-DAY.

Good for ailing children and nursing mothers.

FREE BOTTLE COUPON.

Send this coupon with your name and address and druggist's name, for a free bottle of Mull's Grape Tonic for Stomach and Bowels to

MULL'S GRAPE TONIC CO., 147 Third Ave., Rock Island, Ill.

Give Full Address and Write Plainly.

The $1.00 bottle contains nearly three times the 50c size. At drug stores.

The genuine has a date and number stamped on the label—take no other from your druggist.

When a man sits at a girl's feet under a tree and plays a banjo to her, she thinks that is the way they would go on doing after they were married and had seven children.

CERTAINLY GRAND SAVING.

Unexpected Yet Eminently Satisfactory Result of a Trick on the Gas Meter.

Mr. Macpherson's gas bills were sore quarterly trials "Man, they're simply exor-r-bitant," he remarked one day to his friend MacTaggart.

But MacTaggart was a man of resource, and suggested a remedy.

"Ye see, it's this way," he said. "In the gas meter there are a lot o' wee wheels which revolve as the gas passes through, and so cause the amount consumed to be registered. Noo, every nicht when ye gang to bed and turn oot the licht, ye maun just blaw doon the pipe, and the wee wheels will revolve in the opposite direction and subtract from the amount of gas ye've been using. Man, ye'll find it a grand saving."

Mr. Macpherson practiced the remedy for exorbitant gas bills religiously during a month.

Then came the gas inspector on his usual round He examined the register, looked at the entry for the previous quarter, and then referred to his book. Again he looked from one to the other, and his air became one of the greatest perplexity.

"Whaur's the matter?" said Mr. Macpherson, who was standing by.

"Weel, Mr. Macpherson," said the gas inspector, "I dinna ken what's been happening to your gas meter, but I find the company owes ye exactly £1 15s 11d."

International.

"The agreement among Italy, Germany and Austria is called a driebund, isn't it?"

"Yes."

"Well, what's the pact between France and Russia called?"

"A moribund, I suppose!"—N. O. Times-Democrat.

FIFTEEN YEARS OF TORTURE

Itching and Painful Sores Covered Head and Body—Cured in a Week by Cuticura.

"For fifteen years my scalp and forehead was one mass of scabs, and my body was covered with sores. Words cannot express how I suffered from the itching and pain. I tried many doctors and treatments, but could get no help, and had given up hope when a friend told me to get Cuticura. After bathing with Cuticura Soap and applying Cuticura Ointment for three days, my head was as clear as ever, and to my surprise and joy, one cake of soap and one box of ointment made a complete cure in one week. (Signed) H. B. Franklin, 717 Washington St., Allegheny, Pa."

No Indication Yet.

"And are you going to make a musician of your boy?" asked the friend, as he patted the professor's baby on the cheek.

"I don't know yet," replied the musical man.

"Oh, no, of course you don't! I forgot, he hasn't any hair yet, has he?"—Yonkers Statesman.

To Destroy Slugs on Roses.

After much experimenting with insect powders, sprays, etc., I have learned from a florist a very simple and effective means of keeping rose bushes free from slugs. Use plenty of strong Ivory Soap suds around the roots and on the foliage. This will prevent insects and cause the plants to be perfectly healthy.

ELEANOR R. PARKER.

If milliners would confine their window displays to 98-cent hats, it would do much to induce bachelors to take a hand in the matrimonial game.

Thousands of Women

ARE MADE WELL AND STRONG

Success of Lydia E. Pinkham's Vegetable Compound Rests Upon the Fact that It Really Does Make Sick Women Well

Thousands upon thousands of American women have been restored to health by Lydia E. Pinkham's Vegetable Compound. Their letters are on file in Mrs. Pinkham's office, and prove this statement to be a fact and not a mere boast.

Overshadowing indeed is the success of this great medicine, and compared with it all other medicines and treatment for women are experiments.

Why has Lydia E. Pinkham's Vegetable Compound accomplished its wide-spread results for good?

Why has it lived and thrived and done its glorious work for a quarter of a century?

Simply and surely because of its sterling worth. The reason no other medicine has even approached its success is plainly and positively because there is no other medicine in the world so good for women's ills.

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womankind is not because it is a stimulant—not because it is a palliative, but simply because it is the most wonderful tonic and reconstructor ever discovered to act directly upon the uterine system, positively CURING disease and displacements and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures, and physicians who have recognized the virtue in Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due. If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience that it will effect a cure.

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhœa, falling, inflammation or ulceration of the uterus, ovarian troubles, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration, or the blues, should take immediate action to ward off the serious consequences and be restored to health and strength by taking Lydia E. Pinkham's Vegetable Compound. Anyway, write to Mrs. Pinkham, Lynn, Mass., for advice. It's free and always helpful.

SICK HEADACHE

CARTER'S LITTLE LIVER PILLS.

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER. They regulate the Bowels. Purely Vegetable.

SMALL PILL. SMALL DOSE. SMALL PRICE.

THE NEWS OF A WEEK CONDENSED

SUMMARY OF MOST IMPORTANT EVENTS AT HOME AND ABROAD.

THE WAR IN THE FAR EAST

Progress of Peace Negotiations Between Russia and Japan—Foreign and Domestic Items of Interest Told in Brief.

THE PEACE CONFERENCE.

All hope of peace is abandoned by the Russian and Japanese missions. Both are unyielding on vital demands. Europe and America may unite in urging the czar and the mikado to make concessions.

A break in the peace negotiations was narrowly averted when the Sakhalin issue was brought up. The discussion was postponed. Diplomats believe the envoys will be able to effect a compromise, as both powers seem anxious to conciliate.

Russia's attitude in the peace conference is attributed to pressure brought on the czar by the kaiser, who seeks to block Japan and England in their plan for controlling the far east by preventing peace.

Japan has redeemed every pledge by restoring Manchuria and the railroad to China, declares the Peking correspondent of the London Times.

A London Times correspondent says there now is no possibility of the present conference concluding peace. There is no common ground on indemnity, Sakhalin, interned ships or limitation of naval power questions.

YELLOW FEVER SITUATION.

The New Orleans yellow fever record to date is: Deaths, 176; total cases, 1146.

Eleven cases of yellow fever have been discovered at Mississippi City, Miss., and it is said the presence of the fever there has been kept a secret since July 20.

Two cases suspected to be yellow fever are reported in Indiana, at Crawfordsville and near Michigan City.

New Orleans quarantine threatens to delay the opening of oyster season. A famine is in prospect. The grain export business is affected. The scourge is spreading.

Dr. Egan, secretary of the Illinois board of health, is apprehensive of conditions in the south, and believes extraordinary precautions will be necessary to keep yellow fever out of southern Illinois.

MISCELLANEOUS.

Czar Nicholas issued a manifesto calling for the election of a popular assembly in Russia, but continues to retain his autocratic power.

Federal supervision of insurance was the subject of a conference at Sagamore Hill between President Roosevelt and a number of leading insurance officials. It is expected that in his next message to congress the president will recommend the enactment of legislation providing for federal supervision.

A mass of limestone weighing thousands of tons, slid from a side of the quarry of mill A of the Lehigh Portland Cement company at Ormrod, Pa., burying 27 men, of whom 12 were killed and 6 injured.

Thirteen bodies have been recovered from the train which plunged through a draw into the Elizabeth river, near Norfolk, Va. Five persons are still missing.

A destructive tornado passed north of Wellfleet, Neb., destroying barns, crops, stock and stacks of hay. On one farm 26 head of horses were killed, and on another 56 head of cattle perished.

Frank Ward, foreman of a yard gang at the Pueblo (Col.) steel works, caused the death of his daughter Frances, aged 16, by forcing her to swallow a quantity of poison, and then committed suicide by the same drug.

Henry D. Davis, of Cleveland, O., was elected grand worthy president of the Fraternal Order of Eagles by the grand aerie in session in Denver, Col.

The Chicago men, who went to Plymouth, Mass., to see George L. Marsh, failed to identify him as the man wanted in Chicago in connection with the murder of William Bate in November last.

Scared by the escape of steam on a boat on a river in Alaska, six Indians jumped overboard and were drowned.

The known movements of money in the week's bank statement indicates a loss in excess of $6,000,000 cash by the New York institutions, of which $5,000,000 was in shipments to the interior.

Ambassador Tower has been asked to represent the United States at the international earthquake conference in Berlin.

Wong Kai Kah, Chinese imperial trade commissioner, comes to the United States to discuss the boycott and proposed a new exclusion treaty.

While trying to rescue Frederick Churchill, who had waded beyond his depth when in bathing in the Mississippi river, near St. Louis, Miss Stella McMullen, of Festus, Mo., lost her life and Churchill was also drowned before assistance could reach them.

Mrs. Anne Woodall, who has just died at Newport, Ky., aged 95 years, was a native of England, where, soon after her marriage, she and her husband rode on the first steam railroad and witnessed the coronation of Queen Victoria.

A passenger train on the Rome, Watertown & Ogdensburg railroad at Philadelphia, Jefferson county, N. Y., struck and killed Mr and Mrs. Charles H. Cross, of that village, and their daughter, Mrs. Chauncey Welch, of Chicago.

Leon Jacerwitz, formerly a noted Russian musician, died in the Dayton, O., state hospital, aged 66 years. While touring the United States with an opera company 30 years ago, Jacerwitz lost his mind, and with it went all knowledge of music.

Secretary Wilson upholds the 28-hour stock car law, saying changes already made are lenient.

Eight gambling houses in Milwaukee belonging to the trust were raided by District Attorney McGovern, over 150 inmates being locked up.

Hugh Watt, an English financier and former member of parliament, has been arrested, charged with having offered a detective $25,000 to assist him in the murder of his former wife, who involved him in a scandal by her divorce suit.

Federal Judge Baker at Indianapolis decides that a public service corporation cannot give an option for the purchase of its plant in its charter and that a municipality has no power to enforce it.

The body of a man done to death as the result of a labor feud was found in a New York park. It had 32 stab wounds.

The people of all classes in Arizona are waging a strenuous campaign against the joint statehood plan, and declare the attempt to merge their territory with New Mexico is extremely unjust.

R. G. Dun & Co.'s weekly trade report shows general prosperity in business circles.

Infernal machines of a deadly character were sent to Jacob H. Schiff, the rich banker, and to the offices of M. Guggenheim's Sons in New York.

Webb Jay, autoist, was perhaps fatally injured when his car at Buffalo left the track and landed in a creek.

The daughter of a French opera singer, starving, watched beside the bed of her dying father in New Orleans, and after her parent's death attempted suicide because she was penniless and alone.

Foreign trade in July was the heaviest on record, with large gains in both imports and exports over a year ago.

Joseph A. Thompson, brother of a multi-millionaire and a near relative of the Thaw family, of Pittsburg, committed suicide, leaving a letter accusing his brother of allowing him to starve.

Thomas W. Lawson has been sued with others in legal fight over possession of copper stocks said to be worth $6,000,000.

The government's drawing for homesteads in the Uintah Indian reservation of Utah, 160-acre sections which are said to be worth from $5,000 to $10,000, was begun at Provo, Utah, 2,000 persons winning.

Chairman Shonts denies that work on the Panama canal was stopped because of lack of funds, but says it was due to the necessity for doing preliminary work that had been neglected.

Walter P. Kraft, of Chicago, 23 years old, an Equitable Trust company clerk, is a fugitive, charged with stealing $20,000 from his employers to speculate.

Returns in Norway show 368,200 votes for separation and 184 against.

John P. Mockler, a leading grocer of Cairo, Ill., and a colored employe, were killed by contact with a live wire in the former's store.

With $10,000 in checks and cash belonging to Charles A. Stevens & Brothers, of Chicago, Gus Bobbs, a young employe of the firm, disappeared.

The reciprocity convention ended its Chicago session with the formation of a permanent organization to crusade for tariff revision under a dual schedule.

E. H. Conger, ambassador to Mexico, will be sent to China as the president's special envoy to overcome the boycott of American goods.

The Dramatic Order of Knights of Khorassan, which has been in convention in Detroit for three days, decided to hold its next session in two years at Colorado Springs.

Forest supervisors' examinations will be held under the direction of the civil service commission commencing about October 6 and lasting throughout the month in several of the western states.

A telegram received from Batavia, Dutch East Indies, reports an ugly outbreak of Achinese rebels, who attacked the Dutch post at Rambong, killing two officers and 22 men.

Confirmation of the report that the Marshall islands were visited by a hurricane and tidal wave on June 30 has been received. One hundred lives were lost.

The navy department has been advised that James E. Smith, seaman gunner, under instructions at the torpedo station, was drowned while diving without a diving suit for a torpedo.

Rev. C. Lindell, pastor of the Swedish Lutheran church at Vasa, Minn., fell dead in a drug store.

From recent estimates made in California of the citrus crop for next year indications point to a record breaker. That there will be upwards of 35,000 carloads is certain, and the aggregate may reach 40,000 cars.

A dispatch to Honolulu by wireless telegraph from Hilo says that Hana, the Hawaiian wife of Kailua, a Chinese, gave birth to one child on last Thursday, two on Sunday, one on Monday, two on Tuesday morning and one on Tuesday night. All are dead.

An appeal to congress for the protection of postmasters in the conduct of post offices has been resolved upon by the Wisconsin Postmasters' association's convention.

Walter Stimpson, a well-known athletic authority and expert on rowing matters, died at Cambridge, Mass., after a long illness. For 14 years he was president of the New England Association of Amateur Oarsmen.

Mrs. Media Wells, a widow, shot and killed William Burch, to whom she was engaged to be married, at her home in Hutchinson, Kan., and then killed herself by firing three shots into her breast.

Never before, it is said, has such activity been witnessed in the erection of steel mills, furnaces and shops as is now being done in Pittsburg and the Monongahela valley.

Three children of Enos Adkins, living on a small branch of Guyan river, near Ranger, W. Va., were drowned in a flood which swept that section.

John Jebeles in a fit of jealousy fatally shot Miss Lela McBride, aged 22, at Auston, Ala., and then fired a bullet into his own brain, dying instantly.

An attempt was made on the life of the empress of China as she was passing through the northwest gate of the city to her summer palace. Her assailant was dressed as a soldier, and was bayonetted by the guard.

Two men were killed, two fatally injured and eight others seriously injured in a collision of a Baltimore & Ohio Southeastern passenger train and a street car at Winton place, a suburb of Cincinnati.

An official account of the disturbances at Bielostok, Russian Poland, confirms the report that 40 persons were killed. Jews opened fire on the troops, who replied with volleys.

The police at Granmichele, Sicily, fired on strikers who were stoning them, killing seven and wounding a number of others.

A score of persons were more or less seriously injured in St. Louis as the result of a violent wind and rainstorm.

Secretary of Agriculture Wilson will ask congress to amend the law requiring the unloading and feeding of live stock each 28 hours.

A census bulletin prepared by Prof. W. F. Wilcox, of Cornell, declares that the birth rate in the United States has been steadily declining since 1860.

The United Verde copper mine of Jerome, Ariz., for a controlling interest in which Senator Clark, of Montana, paid $26,800, now earns for its owners $600,000 a month.

Four persons were killed in one day while climbing the Alps.

Booker T. Washington, in a convention of negroes in Washington, declared the south is the place for the black man.

Vice President Fairbanks was orator of the day at the dedication of a monument to Ethan Allen, at Burlington, Vt.

The stable attached to the summer home of Craig Biddle, at Radnor, Pa., was burned. All of the horses and carriages were saved. The loss is $40,000.

Bjornstjerne Bjornson criticises the action of the Norwegian storthing and declares for a republic.

The coroner at Cleveland, O., in his official decision, says the night telegraph operator at Mentor, O., threw the switch that caused the wreck of the Lake Shore Twentieth Century Limited, in which 19 persons lost their lives.

Delegates from all sections of the country talked at the first day's session of the big Chicago trade convention in favor of a plan for reciprocity as a cure for the evils of American commerce.

The annual report of the interstate commerce commission says 10,046 persons were killed and 84,155 injured in railway disasters in the United States during 1904.

Mrs. Harvey McPherson Null, charged with murder in the first degree in having, it is alleged, poisoned her husband, a well-to-do farmer, and H. C. Kelley, a farmhand, charged with aiding and abetting her in the crime, have been arrested at Pratt, Kan.

President Roosevelt, in a letter to the convention of the National Negro Business league in New York, says self-help is the hope of the black man and the solution of the race problem.

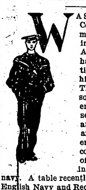
Dispatches received at the state department from China show that Shanghai is the only place where the boycott against American goods has assumed anything like a serious aspect. At Canton the movement has made some headway, but at other points it has not been successful.

WASHINGTON GOSSIP

SOME INTERESTING CHATTER FROM NATIONAL CAPITOL.

PAY IN NAVIES OF WORLD

American Jackies Get More Than Those of Other Navies—Cleaning the Capitol Building—New Electric Lights.

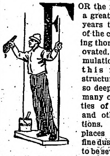


WASHINGTON.—Compared with men of other navies in the world the American jackies have a pretty good time and receive high compensation. The pittance that some of the foreigners receive for their services is pitiful, and then the allowances made to the enlisted men do not compare with those of the enlisted men in the United States navy. A table recently prepared by the English Navy and Record gives the following cost of maintenance of an enlisted man in four of the big navies of the world: In the United States navy it is $565; in the English navy, $500; in the French navy, $350, and in the Russian navy, $250, or only half that in the English navy and less than half that in the United States navy. Under the head of maintenance is included pay, clothing, food and allowances.

An estimate of the pay received by men and petty officers in the American navy can be formed by taking the pay roll of one of the battleships. There is the Maryland, for instance, which is one of the latest battleships to go into commission. She has 731 enlisted men, of whom 25 per cent. are petty officers. The lowest wage paid is $19 a month and the highest $75.47. Seven of these petty officers receive more than $75 a month. There are 17 more who get over $70 and less than $75; four who receive more than $60 and less than $70; 25 more than $50 and less than $60; 33 more than $40 and less than $50; 184 more than $30 and less than $40, and 139 more than $25 a month.

No foreign battleship can compare with that record for the pay of its enlisted force, and this does not include the extra pay and allowances such as are received by seamen in charge of holds, qualified gun pointers, who get from $2 to $10 to their regular pay and five dollars a month to the gun captains. A man on the retired list of the navy gets three-fourths of his active pay, and it is possible for enlisted men to obtain homes with better facilities than the average wage worker in other lines.

Renovating the Capitol.



FOR the first time in a great number of years the rotunda of the capitol is being thoroughly renovated. The accumulation of dust in this magnificent structure has been so deep as to hide many of the beauties of the fresco and other decorations. In some places the black, fine dust was found to be several inches in depth. All this accumulation had to be scraped away before the work of painting the huge dome could begin. Ever since congress left the capitol last March a force of men have been at work on the rotunda, and a more thrilling sight than a half dozen painters and cleaners at work sitting on frail seats suspended by ropes from the upper part of the dome could not be imagined. It makes one dizzy to look up and see those workmen with nothing between them and the floor of the dome, 180 feet below, except a slight board attached to two ropes suspended from the rim of the dome.

The sight of these workmen was a fascinating one, despite its blood-chilling character. The thousands of tourists that thronged to this old building during the summer have carried with them a memory as thrilling as those who witness the most daring mountain climbing feats. A misstep or an unsound strand in the rope meant a horrible death for these workmen. The renovation of the dome has worked a great change in its appearance. Always impressive, the new fresh coat of paint has given it added beauty. The historical paintings around the base have all been refreshed and the circle of frescoes under the first gallery which are intended to illustrate the great events in the history of the country now stand out more distinctly.

The dome is to be further improved by 3,000 incandescent lamps which will illuminate it. Heretofore this has been a ghostlike place at night, when only a few faint gas jets supplied the light. The new lamps will be arranged in four rows, the first will light up the mural painting at the top of the dome and the other rows will be so arranged that only the light effect will be seen, the lamps themselves will be concealed.

Scrubbing Statues.

A PRACTICE which some artists rated as little less than vandalism has not been followed of late in the care of public buildings and statues in Washington. A few years ago some bright genius with a love for cleanliness conceived the idea of scrubbing the allegorical figures and statues about the capitol. The celebrated statue of Washington, by Greenough, which stands in the plaza immediately facing the capitol was the first dark tinge to this piece of marble, and it was assuming the charm of an old world antiquity, but the gentlemen of the scrubbing brush in charge of the capitol decided to make the statue "as good as new."

Every particle of weather stain was religiously scrubbed off and the heroic, half-nude effigy of the Father of His Country stood out as white and glistening as the day it came from the sculptor's hands. Then the thrifty housekeeper started the work on the numerous marble figures that ornament the front of the capitol and scraped away lichen, stain and all discolorations until, to his satisfaction at least, these groups stood forth as clean as parlor ornaments. This process was an offense to the esthetes, who believe that the charms of outside statuary is always heightened by the work of the elements. This spasm of cleanliness, however, has passed, and the capitol statues are now allowed to accumulate the evidence of age. There was even a proposition to paint the statue of Freedom on top of the dome, but that sacrilege was prevented and the splendid bronze figure with the green stain of time upon it remains untouched.

The desire for freshly scrubbed surfaces strikes the custodian of the Treasury building every once in a while and men are put to work to scrape the dark stains from the Corinthian pillars that line the exterior of that building. They have never been able to go over the entire building and usually get tired of their job, or the money runs out, after one side has been scraped; so that the fine old building presents a rather incongruous appearance with one side clean and white and the other three showing dark weather stains.

The Cabinet Makers.

EXTRA
CHANGE IN CABINET

WHEN all other forms of amusement fail in Washington, political speculators turn to cabinet making. There is scarcely a fortnight passes that new gossip does not crop out about cabinet changes. President Roosevelt at first was a trifle sensitive about these rumors and speculations, and was disposed to give semiofficial denial to them, but now they are a source of considerable amusement to him. It delights him to spring a surprise upon the public and especially upon the newspaper men in regard to new appointments in the cabinet. He still chuckles over the way he kept the secret of the selection of Charles J. Bonaparte for the navy portfolio. He announced this selection one evening to a group of newspaper correspondents and smiling at their looks of surprise, he remarked: "Well; you will admit that for once the president 'scooped' the press."

There is one member of the cabinet that the political gossips have taken out of it a score of times, but who is still firmly fixed. This is Secretary of the Interior Hitchcock, who has held his place for over six years. Since the death of President McKinley no mention of a cabinet reconstruction has been complete without the prediction that Mr. Hitchcock would resign. There have been many changes and with the exception of Mr. Hitchcock and Secretary Wilson and Secretary Hay those who served in the McKinley cabinet have all returned to private life and pursuits. Mr. Hitchcock's work in the unearthing of land frauds and the prosecution of those engaged in them make him one of the most valuable members of the cabinet, and one on whom President Roosevelt relies for honest administration.

Secretary of Agriculture Wilson gives promise of breaking all records in holding place in a president's cabinett. On March 5th last he entered upon his ninth year as secretary of agriculture. It is believed to be unprecedented in the history of the government that a cabinet officer should serve through two terms in the same position and enter upon a third term. In all probability Mr. Wilson will round out 12 years as the head of this very important department of the government.

WINDSTORM HITS SEVERAL CITIES.

ST. CLOUD AND SAUK RAPIDS, MINN., ARE HIT THE HARDEST.

Heavy Damage to Personal Property During the 22 Minutes of Wind and Rain. In St. Paul a Woman Dies of Fright.

St. Cloud, Minn., Aug. 21.—At 5:15 o'clock yesterday afternoon the worst storm that this section has experienced for several years swept over this city and Sauk Rapids, just across the river. In many respects the storm resembled a cyclone. The wind blew a terrific gale, and hail stones weighing from three to four ounces fell, the rain descending in torrents.

Two people were injured during the storm, John Welm and William Stremmel. Welm was thrown from a buggy, sustaining a double fracture of the leg and a broken nose. Stremmel was standing on the sidewalk and several panes of glass struck him on the head, cutting his scalp slightly.

The storm lasted just twenty-two minutes, but in that time many thousands of dollars worth of damage was done to the residences and crops in the surrounding territory.

It is estimated that 1,000 panes of glass were broken, from 1,000 to 1,500 shade trees uprooted, and one hundred to three hundred sheds and small houses blown down in the two towns.

The heaviest individual loss will probably be sustained by the Sauk Rapids branch of Julius Neil Lumber company. The mill in that city, which, with the yards, is one of the largest in this part of the state, was badly damaged. Nearly one-third of the company's lumber piles were blown down, the lumber being carried either towards this city or swept down the Mississippi river.

The electric lighting and street railway plant is completely demoralized, and it will take several days before the damage can be repaired.

Most of the crop losses will be sustained in Stearns and Benton counties, the former will probably suffer the most damage because the storm swept from the northwest through the south extremities of these counties. Every shock of wheat standing will have to be reshocked, as most of the grain was laid flat.

The total rainfall during the short duration of the storm is estimated at 3 2-6 inches.

St. Paul, Aug. 21.—Fear that the storm of last evening would be a repetion of the tornado of a year ago caused the death at 8;10 last night of Mrs. Marie Gieselman, 521 East Sixth street, at the home of her son-in-law Adolph G. Krahmer, 401 Hope street.

Crushed to Death.

Two Harbors, Minn., Aug. 21.—Chas. W. Kurlin, employed at the Stephenson mine to keep the railroad tracks in the ore pit free from obstructions, was thrown beneath a dinky train and met instant death. Three cars passed over his body. He had been riding on a car and evidently fell under the wheels when he stepped off. He was of German descent, 25 years of age and single.

Anton Painko, an Italian, 32 years of age, was killed by being caught and crushed under a carload of earth.

Oscar Blomfalt, a Scandinavian, was killed at the Mahoning mine by being crushed between the cars.

Held as Peons.

Cincinnati, Aug. 21.—Laura, Reno, and Fenn Corey, girls aged 17, 16 and 15 years, who have been traveling about the country selling secular literature, in the service of J. F. Bahler, an aged blind man, ran away from him in this city and secured work in Newport, Ky., across the river.

They told their new employers they were virtually slaves to the old man, who was given all of their earnings.

The children are of the family of D. S. Corey, up to ten years ago a resident of Redwood Falls, Minn., and later of Whichta, Kan.

Saved the Train.

La Crosse, Wis., Aug 21.—Observing by mere chance that the tracks on the Dubuque division of the Milwaukee road had been undermined by a storm near Lansing, south of here, William Bates, a camper, saved the southbound passenger train from being dashed into the river, by rushing up the track frantically wavidg his shirt, which he stripped off for want of more more suitable signal.

Prairie Fires Predicted.

Pierre, S. D., Aug. 21.—The rains of this summer have brought such a heavy growth of grass to the prairie that it is almost a certainty that there will be prairie fires this fall. The country west of the Missouri contains many new settlers who never went through the experience of prairie fires, and who accordingly are apt to be careless about starting them.

THE SUNBEAM.

BY W. G. HUNT.

Published every Friday, at
nbeam, Red Lake County
nnesota.

ubscription $1.00 per year,

)o not allow your money to sleeping in the bank, while time of making the second yment on your land is passing, as it will not pass you twice.

The 46th annual State Fair, at mline, which opens on Sep nber 4th, will have more than usal number of attractions at s fair. Dan Patch, the fastest ceing horse in the world will to beat his own record on opening day of the fair.

The Minneapolis Daily News esented it,s many readers with ir second annual anniversary ition last week. The News is coming to be recogenized as e of the best daily papers pub hed in the twin Cities. When went to look up the latest ws, from among all our other changes we invariably pick The Daily News.

What our Deer Park corespon- nt says about the amount of ad work done in their town, as mpared with other towns is idoubtly correct, but the other wns were handicapped by not ing organized until the road orking season was over, but it they will have to bustle if ey retain the belt next season.

Those that have been circula- ig the report that it did not ke any differenc whether you ade your second payment on ne or not, that you would not ose your land on this reserva- n, had better seek new pastu- s to talk through his hat in be- re anyone finds out that they ve lost their homes by taking ch advice.

There is such a large number of ople mixed up about distance these lands that we have de- ded to employ a good land at- rney that is an expert on dis nce to assist to straighten mat- rs out. Some of the people are f the opinion that it is nearer om Kratka township to Thief iver Falls than it is to this lace, but it is not, as the town f Kratka joins this town on the est and we are just one and one alf miles from the line. And ere are others that seem to be f the opinion that section 8, 151 2, is a goodeal nearer to town- hips 149,150,151, and 152, range 0, than they are to section 29, ownship 153 range 40, but they re not by a "jug full". A little istance is not much to kick a- out but we have noticed that was always given careful con ideration when just the right x to gore was injured by it.

We have no objectinon to any f our exchanges copying im- portent news items from our olumn, providing they are given credit, but we do object to the wholesale thievery of some of the papers, without giving any cred t. On August 4th, we published letter written by congressman Steenerson, to W. A. Swanson, f Deer Park township, explain- ing the necessity of the home- steaders making their payments when due, the original letter be- ing on file in this office. The arti- le was copyed by a number of ur exchanges as original news matter, and The Plummer Pio- neer falls into line and copied the article and credited it to the Thief River Falls News. Of course the Pioneer could have published the news one week be- fore they did by giving credit where credit was due. but it is a little better to give a thief credit for what he stole than it is to become a party to the trans- action,

WHY TRAVEL ABROAD?

An American Should Give His First Study to His Home Land.

When Payne wrote "There's No Place Like Home," he gave poetic expression to the love he bore toward the ingle nook more precious than "temples or palaces." What flowers of rhetoric could approach in power of assertion these five little monosyllabic words, "There's No Place Like Home"—to gainsay which were impossible!

It is the great privilege of Americans to be able without hyperbole to apply them to travel, for what is there in any part of the habitable globe more fraught with interest, instruction, education, refreshment of mind and body and uplifting of soul than nature has provided, with hand so lavish, for the delectation of those having the good fortune to dwell in this goodly land?

Would he see a Riviera? We have several on the shores of the azure waters both of the gulf and the Pacific, far distancing that laved by the Mediterranean.

Does he pine for snow capped mountains? Let him repair to the plains whence Pike's Peak, Mount Logan and our other great elevations rear their hoary summits into cloudland.

Would he witness a majestic cataract? There is but one without a rival, the imperial Niagara—in the chain of our great lakes, most turbulent of links.

Neither Nile, Niger nor Ganges, great rivers though they are, are comparable to our own Mississippi, well named "The Father of Waters." Our peerless Hudson excels in picturesque effects the vaunted Rhine.

What of the beauties of the Golden Gate, on whose shores sits enthroned queenly San Francisco, pronounced peerless among cities by a much traveled European prince of imperial blood?

Where is there, even in miniature, anything to vie with that earthly paradise, the valley of the Yosemite; what to compare with the deep and rugged gorge through which passes to the sea the impetuous Colorado river?

The Mammoth Cave of Kentucky, one of the world's wonders, is as yet but partially explored.

Why, then, travel abroad, while all these and vastly more than can be enumerated remain unseen at home?

"Are not Abana and Pharpar, rivers of Damascus, better than all the waters of Israel?" said Naaman the Syrian of old when ordered by the prophet to betake himself to the Jordan for healing. Who can help admiring his pride of country and robust patriotism? Most worthy are they of emulation.

Be it for health or recreation, there is no grander travel field than that we have at home.—Travel.

The Rainy Day.

A well known artist recently received a letter from a chap who has regularly made it a practice to borrow money of him. In this letter the chap who is always in financial difficulties surprised his correspondent by saying:

"This time I have decided to reverse the usual order of things, and, instead of borrowing from you, I inclose herewith $50, which I am going to ask that you will lay aside for me for a rainy day."

But the artist couldn't find any remittance in the letter. He searched for it on the floor, under the table—in fact, everywhere he thought he might have dropped it. Then quite accidentally he turned over the sheet on which the letter was written and discovered this postscript:

"I've just looked out of the window and find it's raining like the very deuce!"—Collier's.

A Story of Sir Robert Ball.

Sir Robert Ball, the noted British astronomer, on one occasion went to a remote town in Ireland to lecture on his favorite topic. Arriving at the station, he looked for the expected conveyance, but found none. After all the other passengers had disappeared a man stepped up and said, "Maybe you're Sir Robert Ball?" On receiving an affirmative reply the man hastily apologized, saying, "Sure, your honor, I'm sorry I kept you waiting, but I was tould to look for an intellectual gintleman." Sir Robert thought that under the circumstances it would be better not to inquire what was the man's idea of intellectuality.

Old Time Railway Travel.

Third class passenger coaches in England used to be coupled on next to the engine. The travelers came in for terrible treatment when any accident occurred. At times the engine was driven tender first, in which case frozen hands could be warmed at its smokestack. The passengers were packed, seventy of them, into a truck eighteen feet in length by seven and a half in width. There was no roof and not, as a rule, proper protection at the sides.

Marital Persiflage.

"I must confess," remarked Mrs. Crabbe, "I don't believe there ever was a really perfect man." "Well," replied Mr. Crabbe, "Adam would have been perfect, I suppose, if Eve had only been made first." "How do you mean?" "Well, she would have bossed the job of making Adam."—Philadelphia Press.

The Thing to Do.

Johnson—He said I was an addle pated jackass. What do you advise me to do about it? Jackson—See a good veterinary.—Leslie's Weekly.

Something Lacking.

"I can shave myself as well as any barber."

"Ah, but you can't talk to yourself while you're doing it!"

Nothing raises the price of a blessing like its removal.—Moore.

Ivory From the Graves of Elephants.

As a species of rejoinder to the charge that the present consumption of ivory is threatening the elephant with extinction, it has recently been stated that 85 per cent of the supply of ivory is obtained from "elephant cemeteries"—spots met with here and there in the jungle, where elephants have resorted for centuries to die. W. L. Distant, editor of the Zoologist, points out that very few of these spots seem to have been discovered by travelers, and scarcely any record of them is to be found in books of travel.

Mrs. Roosevelt's Secretary.

Miss Isabel Hagner, private secretary of Mrs. Roosevelt, has a fortune ample for all the frivolities of Newport and Tuxedo or for division of her life between Fifth avenue and Belgrave square, but she prefers to follow the useful career she mapped out for herself when with a thinner purse she entered semipublic life. When Miss Hagner came into a handsome inheritance recently she gave no sign of intention to leave her present post.

Duplicates.

Smythe—Remember when Chatto was married last year how he kicked about the duplicate wedding presents? Browne—Yes. Smythe—Well, that sort of luck seems to follow him. He had a somewhat similar complaint yesterday. Browne—What was it? Smythe—Duplicate birthday presents. That is to say, twins.

Woes of Wealth.

"Wealth has its penalties," said the philosopher.

"Yes," answered Mr. Cumrox. "It's pretty hard for a man to have to go guessing through a French menu when he would rather have pork and beans."—Washington Star.

The Poor Printer.

One of Browning's remarks is characteristic. He once said to Dr. Knight that "all the unintelligibility of 'Sordello' is due to the printers. They would change my punctuation and not print my commas, semicolons, dashes and brackets."

The Cause.

Caller—What makes you say sister is fond of me, Bobby? Bobby—Sister!—New Orleans Times-Democrat.

A man who cannot explain his ideas is usually the dupe of his imagination in thinking he has any.—Bulwer.

The Same Thing.

A New York paper asks, "Will man become obsolete?" Don't most of them get married?—Columbus Enquirer-Sun.

THIS SPACE BELONGS TO THE RODNY STORE.
John has, Dry Goods, Clothing, Boots and Shoes.
A full and complete line of groceries.
Best brands of flour, at lowest market price.
......00......
Call and see me for bargains, at Rodny post office and store.
JOHN RODNISKI Proprietor.

NEW STORE.

I wish to call your attention to the fact, that I have a choice and well selected stock of groceries, which I am selling at reasonable prices. New settlers, who are in need of groceries can be supplied, at THE KUEHNEL POST OFFICE AND STORE, and save going long distance's to tthe city.

MISS A. KUEHNEL. PROP., and postmaster. Sec. 20 T. 153 R. 40.

Make Your Applications TO Make Final Proof On Your Homesteads At This Office.

We have had a number of years active experience in making applications and publishing final proofs, which you can get the benefit of by doing business with us.

LEGAL PAPERS Drawn At This Office, By W. G. Hunt Notary Pnblic.

He Sent Another.

A few years ago a well known lawyer remitted in settlement of an account to the publisher of a paper a two dollar bill, which was returned with the brief statement:

"This note is counterfeit; please send another."

Two months passed before hearing from the lawyer again, when he apologized for the delay, saying:

"I have been unable until now to find another counterfeit two dollar bill, but hope the one now inclosed will suit, professing at the same time my inability to discover what the objection was to the other, which I thought as good a counterfeit as I ever saw."—Philadelphia Ledger.

Deacon and Elder.

Morrison—What is the matter, Dumley? You look terribly mystified. Dumley—No wonder. I was talking with Jinkins just now. We were speaking of the Joneses, and he said that the elder was the younger and the deacon the elder. I can't get at the rights of the thing to save me.—Boston Transcript.

The Longest Novel.

The "Story of the Eight Dogs" is the longest novel that has ever been published. Fortunately, perhaps, it is written in Japanese, so no one will set himself the task of reading it. It contains 106 volumes, several hundred characters and numerous dogs, all of which are successfully disposed of by the time the last chapter is reached. Just imagine reading through that—one book that would last a lifetime!

True Heroism.

The hero fears not that if he withhold the avowal of a just and brave act it will go unwitnessed and unloved. One knows it—himself—and is pledged by it to sweetness of peace and to nobleness of aim, which will prove in the end a better proclamation of it than the relating of the incident.—Emerson.

She Reasoned It Out.

Ethel—Mamma, if a little boy is a lad, why isn't a big boy a ladder? Mamma—For the same reason, I suppose, that, although a little doll is a doll, a big doll is not a dollar. Ethel (reflectively)—That's so. My big doll was $2.—Kansas City Journal.

LOCAL PARAGRAPHS.

Do your Notary Public business at the SUNBEAM office.

It has not raind for the last four days.

Applications to make final proof written free at this office.

Dan Sulliyan is haying north from High Landing this week.

Look out for a dry fall, and be sure to protect your hay stacks from prairie fires.

Alfred Eve shipped ten head of steers down to Thief River Falls on the Dan Patch boat on Monday last.

Walt Mc Andrees left for Cavalier N. Dak, last Monday, where he will run a threshing machine seperator during the threshing season.

We have added a large number of subscribers to our list the past week of people we like to have there, viz; reservation farmers.

The two large lake steamers: Jas. Anderson and Jas. Mehan, passed here Monday on their way from Red Lake, to Thief River Falls.

Post master T. S. Jacobson, of High Landing informs us that a contract is being let by the government to carry mail from Anton post office via, Brunkeburg post office to his office.

James Colman came down from his claim on Pea Soup island on Monday evening, but only stopped for an overnight visit with his sister Mrs. A Eve, and left for Bensen Minnesota Tuesday morning, where he will run a thrashing machine during the season.

There was a mi sunderstanding about where the excursion boat was to start from last Sunday, and while the boat was puffing up the river from High Landing, Mr. and Mrs. A. Spoklie, Mr. Stilivns people and Miss Kuehnel was waiting for them two miles below that place.

As the season for light frosts, is nearly with us again it would be weil for people to know, that they can save their gardens for some time by building fires near them so the smoke will pass over them during the night that frost is expected. Of course this is a little extra work but it assists you get returns for your labor hoeing during the summer.

If the moskuitos get into your sleeping room don't begin to "cuss" them, as they are used to that and do not mind it, but build a little smudge in the room, then light your lamp and go out in the next room with the light leaving your door open and all the moskuitos will follow you, return to your room and close your door, and you can go to bed and sleep, while they are having their party in the next room.

UP RED LAKE RIVER.

An excursion party up the Red Lake River as far as Dead Head island, was had on the Dan Patch last Sunday, by Mr and Mrs. A, Ellingson, Mr, A. W. Shosten and family Mr. T. S. Jacobson and family, Ole Overum and family, Mr. B. Peterson and family, Mr. B. Kyeste and wife. Sijot Sigurdson and his two daughters. Mr. J. Holem, Miss Sophia Jacobson, and others from High Landing. Peter Hunstad, of Kratka and ye editor of this place were also members of the party. The seenery is only such as would make a stock raiser smile, as it is hay. Every bend of the river you go around you come in sight of more hay. The banks of the river above High Landing are low and there are some of the finest meadow lands along its banks that we have seen in northern Minnesota, but we are not going to say any more about it in this article.

The excursionests stopped at the store and residence of Mr, Hanson on section 1 in Deer Park township, who has a very nice place on the bank of the river, but has no passable summer road at preasent, and depends on the boats for a wagon and the river for a road. We returned to High Landing about 9'o clock in the evening all very well pleased with their up river trip.

DON'T READ THIS

Do you want a daily paper? We will send you the Minneapolis daily News, daily, (except sunday) and the SUNBEAM, one year for $1.50,c. The News is one of the best dailys published in the twin cities. Send in your subscription soon, as this offer wont continue long.

APPLICATIONS AT LILLO.

If you live in the town of Equality or Johnson you can make your application to make final proof, at Lillo, and have your notice published in the paper published nearest your land.

LAND OFFICE BUSINESS.

U.S. Commissioner L. G. Browning with office located at Thief River Falls, is prepared to take homestead entries final proof etc., within the Crookston U. S. Land District.

Office in News building, three doors south of the post office.

FROM DEER PARK.

More rain Less hay.

Muzzle your mad dogs or kill them.

Charles Swanson was over to Equality last week, for another load of movables.

Mrs. Taarbjoo Smedjau is visiting friends and relatives here this week.

Mrs. Torbjon Rome is assisting Mrs. W. A. Swanson at present with house work.

Your corespondent took a trip over into Garnes and Equality last Suuday, and was surprised to see how wet it was over there.

They say black rust is now existing in the fields south of the clearwater.

George Singer is still on the sick list, and was at Tief River last week to see the doctor.

Knut Olson returned from Eden last Tuesday with a load of siding and is now busy fixing up his house for the winter.

Harvest hands are leaving for Dakota this week. Several have left and more are to follow

It is surprising to see how much wild oats and mustard there is in the flax fields on the road to Thief River.

There is more road work done in Deer Park township than all the other towns put togeather, between here and Thief River. That sounds bad but it's true.

Post master Hunt, of Sunbeam, advises us that the daily mail rout would soon be in order Another step foward.

C. W. Johnson bought another ox on Friday last, of A. Christianson.

Henry Strosberg is busy now days, building his large dwelling house on his homestead here.

Some of the fellows that bought land on the reservation last summer are quite disappointed now and seem to think that the government has done them up to a "fare you weil" on this land deal, Evidently they have forgot, that there was no call made on them to buy it in the first place.

Hans Quam returned from a trip out to Lakota N. Dak. last Friday. He reports that crops looks elegent out there, altho black rust seems to be plentiful, but no bad results are looked for as the grain is farther ahead than usal at this time of the year. Mr. Quam says that threshing will be in order by September 1, and he is going out there at once to get his machine in shape for the falls run.

Subscribe for The Sunbeam.

The Verdict.

Records of the ancient city of Gorgeana, founded in 1640, better known at the present time as York Harbor, Me., contain many quaint and unusual stories of the early life of the town.

At the entrance to York harbor a bold promontory known as Stage neck extends some distance into the sea, from which formerly in stormy weather a temporary light in the form of a lantern hoisted upon an upright pole was displayed as a warning to mariners.

One dark winter night a sloop was wrecked on these rocks. A survivor on being questioned about the catastrophe said:

"The vessel struck, turned over on her side, and the skipper and another barrel of whisky rolled overboard."

The local coroner was summoned, and this somewhat startling verdict was returned:

"We find that the deceased fell from the masthead and was killed. He rolled overboard and was drowned. He floated ashore and froze to death, and the rats eat him up alive!"—Harper's Weekly.

Lobster Mortality High.

A lobster lays thousands of eggs, most of which hatch, but few ever live to grow up. This is not the fault of the mother, for she carries them about with her for nearly a year and with admirable instinct guards them as she does her own life. When the young are set free her duty is done, for they must then shift for themselves. Though hardly larger than mosquitoes, being about one-third of an inch long, the little ones leave their parents on the bottom and swim toward the light—to the surface, where from one to two months, if fortune favors them, they lead a free, roving life. The open sea is a poor nursery for such weaklings, which become the sport of every storm and the prey of numberless hungry mouths. Out of a brood of 10,000 it would be a rare chance for more than one or two lobsters to reach maturity or finally to end their career in the kitchen or the chafing dish.—St. Nicholas.

Imprisoned In the Wind.

Butterflies may be imprisoned and uninjured in the midst of a whirlwind. Gales in a genuine typhoon are so terrible that the stoutest ships can scarcely hope to weather them, but there is a spot at the very center of the storm where something like a dead calm prevails. From the outer edge of the disturbance, which may be 300 miles across, the wind velocity increases toward the center until within a few miles of that point there comes a sudden lull. There the rain ceases and the sky often clears. In this little calm area, which sailors call "the eye of the storm," a group of butterflies has frequently been imprisoned, and their dainty, delicate forms are as safe in this aerial cage as if hovering in sunny meadows, but as helpless as in a collector's bottle.

Coffee and Smoke In Spain.

Even of wine, so cheap and abundant in Spain, the natives seem to use very little. They are frightfully intemperate, however, in their use of tobacco and coffee. They drink coffee at all hours and apparently every hour. The clerk who takes his morning cup at 9 has another at his desk an hour later, purchased from a street vender. The business men passing through the streets pause while a fellow who carries hot coffee, hot milk, sugar and spoons harnessed upon him serves them on the sidewalk.

If the Spaniard does not smoke in his sleep it is his only respite from the habit.—Rosary Magazine.

Stale Bread Bag.

A traveler says that a curious weakness of grownup Moors is the love of eating newly baked bread. The caid of Azemmoor, in Morocco, discovered that old bread was thrown away as waste. To waste food is a serious offense in the eyes of a Moslem. The caid of Azemmoor therefore issued a bylaw prohibiting the baking of bread upon one day in each week. The citizens, he declared, must eat up the bread already baked, and he fixed Wednesday as the "bitalah," or holi-

The Korean Wife.

In Korea the rooms of a wife or mother are the sanctuary of any man who breaks the law. Unless for treason or for one other crime he cannot be forced to leave those rooms, and so long as he remains under the protection of his wife's apartments he is secure from the officers of the law.

Bound to Be Comfortable.

An author who had been jailed for debt wrote to his wife: "Do me the favor to send me my Shakespeare, my nightgown and slippers, my pipe and all letters asking for autographs and containing stamps. I want to be comfortable and at peace with the world."—Atlanta Constitution.

A Slow Photographer.

Irate Female—Look here! Do you mean to tell me that I have got such an ugly looking nose as that? Photographer—But my apparatus cannot lie, madam. Irate Female—Then, for goodness' sake, go and get one that can.

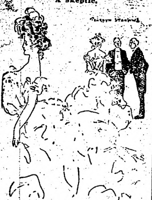
Cynical.

"Which do you think counts for the most in life, money or brains?"

"Well," answered Miss Cayenne, "I see so many people who manage to get on with so little of either that I am beginning to lose my respect for both."—Washington Star.

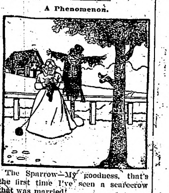
An authority on horses says the gray will live the longest and that roans come next in order. Blacks seldom live to be over twenty, and creams rarely exceed fifteen.

A Skeptic.



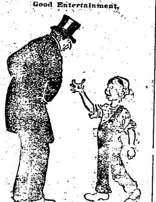
Smith—Do you believe in dreams? Jones—No. I married one.—Leslie's Weekly.

A Phenomenon.



The Sparrow—My goodness, that's the first time I've seen a scarecrow that was married!

Good Entertainment.



"If yer'll give me 10 cents, mister, I'll show yer where our cat's havin' a fit."—San Francisco Examiner.

The Wickedness of Growing Old.

Here are the three deadly symptoms of old age: Selfishness, stagnation, intolerance.

If we find them in ourselves we may know we are growing old, even if we are on the merry side of thirty. But, happily, we have three defenses, which are invulnerable. If we use them we shall die young if we live to be a hundred. They are: Sympathy progress, tolerance.

The first is the hardest to most of us, because our own little prison of the actual is so immensely important to us. There is no denying the fact that when you have a toothache yourself it is hard to have to consider other people's aches. But it can be done, though it generally involves physical effort, for we must bestir ourselves and act. The mere feeling of sympathy expressed by action is a poor, useless thing, but the soul, determined not to grow old, can force the body to such physical effort, though there is no denying that it is hard work.—Harper's Bazar.

Toothache.

Toothache is something to be dreaded. Until a dentist can be consulted and the exact cause of the disturbance located and professionally treated it is an excellent thing to moisten the finger and, after dipping it into some bicarbonate of soda, rub it on the gum round the sore tooth. It is also a relief to mix a teaspoonful of this bicarbonate of soda in half a glass of warm water and rinse the mouth with some every little while, holding a little in the mouth for a few seconds so that it penetrates all the crevices. The soda, being an alkali, serves to neutralize the acids in the mouth, which are often the cause of toothache.

Knew the Crowd.

A street preacher in a west of Scotland town called a policeman who was passing and complained about being annoyed by a certain section of the audience and asked him to remove the objectionable ones.

"Weel, ye see," replied the cautious officer, "it would be a hard job for me tae spot them, but I'll tell ye what I'd dae if I were you."

"What would you do?" eagerly inquired the preacher.

"Just gae round wi' the hat!"

His Line.

"Yes," said the lecturer, "I'm dealing in furniture these days."

"How is that?" asked a listener.

"Making one night stands under a lecture bureau, with the help of the time tables."—Baltimore American.

When to Cut Weeds.

She—When should a young widow discard her weeds? He—Oh, I don't know, but I suppose she should cut them out just as soon as she wants to raise a second crop of orange blossoms.—Baltimore Herald.

Decision of character will often give to an inferior mind command over a superior.—Wirt.

The Camel as a Soldier.

The camel is a good soldier, says a London writer. It may be stupidity, and it may be bravery, but a camel is as steady under fire as a tower. The Persians mounted small cannon on the backs of their camels and called them zambwaks, or "little wasps." This fashion was adopted in India, and after the battle of Sobraon 2,000 of these artillery camels were captured. In the Indian mutiny the British had a camel corps of 150 beasts, and on the back of each camel sat a Scotch highlander in his kilt. In 1845 Sir Charles Napier had a camel corps in Sindh, and in one day he marched seventy-five miles, defeated a brigand chief and marched home again. In 1878 the British used camels against the Afghans, and the government paid for 50,000 camels that died in those campaigns. Many of these were driven to death by their owners in order that they might claim the government bounty.

A Man to Be Avoided.

ARE YOUR KIDNEYS WEAK?

Thousands of Men and Women Have Kidney Trouble and Never Suspect It.

To Prove What the Great Kidney Remedy, Swamp-Root, Will Do for YOU, Every Reader of This Paper May Have a Sample Bottle Sent Absolutely Free by Mail.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys begin to get better they will help all the other organs to health. A trial will convince anyone.

Didn't Know I Had Kidney Trouble

I had tried so many remedies without their having benefited me that I was about discouraged but in a few days after taking your wonderful Swamp-Root I began to feel better.

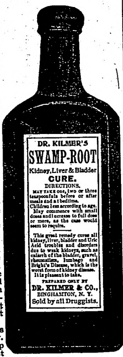
I was out of health and run down generally; had no appetite, was dizzy and suffered with headache most of the time. I did not know that my kidneys were the cause of my trouble, but somehow felt they might be, and I began taking Swamp-Root, as above stated. There is such a pleasant taste to Swamp-Root, and it goes right to the spot and drives disease out of the system. It has cured me, making me stronger and better in every way, and I cheerfully recommend it to all sufferers.

Gratefully yours,

MRS. A. L. WALKER, 331 East Linden St., Atlanta, Ga.

Weak and unhealthy kidneys are responsible for many kinds of diseases, and if permitted to continue much suffering and *fatal results are sure to follow.* Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless and irritable. Makes you pass water often during the day and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back, joints and muscles; make your head ache and back ache, cause indigestion, stomach and liver trouble, you get a sallow, yellow complexion, make you feel as though you had heart trouble; you may have plenty of ambition, but no strength; get weak and waste away.

The cure for these troubles is Dr. Kilmer's Swamp-Root, the world-famous kidney remedy. In taking Swamp-Root you afford natural help to Nature, for Swamp-Root is the most perfect healer and gentle aid to the kidneys that is known to medical science.



DR. KILMER'S
SWAMP-ROOT
Kidney, Liver & Bladder
CURE.
DIRECTIONS.
MAY TAKE one, two or three teaspoonfuls before or after meals and at bedtime.
Children less according to age.
May commence with small doses and increase to full dose or more, as the case would seem to require.
This great remedy cures all kidney, liver, bladder and Uric Acid troubles and disorders due to weak kidneys, such as catarrh of the bladder, gravel, rheumatism, lumbago and Bright's Disease, which is the worst form of kidney disease.
It is pleasant to take.
PREPARED ONLY BY
DR. KILMER & CO.,
BINGHAMTON, N. Y.
Sold by all Druggists.

(Swamp-Root is pleasant to take.)

How to Find Out

If there is any doubt in your mind as to your condition, take from your urine on rising about four ounces, place it in a glass or bottle and let it stand twenty-four hours. If on examination it is milky or cloudy, if there is a brick-dust settling, or if small particles float about in it, your kidneys are in need of immediate attention.

EDITORIAL NOTICE.—So successful is Swamp-Root in promptly curing even the most distressing cases, that to prove its wonderful merits you may have a sample bottle and a book of valuable information, both sent absolutely free by mail. The book contains many of the thousands upon thousands of testimonial letters received from men and women cured. The value and success of Swamp-Root is so well known that our readers are advised to send for a sample bottle.

In writing to Dr. Kilmer & Co., Binghamton, N. Y., be sure to say that you read this generous offer in this paper.

Swamp-Root is pleasant to take and you can purchase the regular fifty-cent and one-dollar size bottles at the drug stores everywhere. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

COUPON.

Please write or fill in this coupon with your name and address and Dr. Kilmer & Co. will send you a **Free Sample Bottle of Swamp-Root the Great Kidney Remedy.**

AND JOHN GOT HIS PLACE.

His Better-Half Was to the Fore and Brought Things Her Way.

Three hundred motormen, gatemen, etc., were in the line in and near the offices of the Interborough Railway company trying to get their old jobs back when a large and square-jawed wife led her husband past them all. No one dared resist her, says the New York World, though many of the men had been waiting for hours.

"My husband wants to go back to work," said the woman. "He's a platform man at the ——th station," she explained.

"Been on strike?" asked Mr. Norris, one of Mr. Hedley's assistants.

"Not one minute. I wouldn't hear of such nonsense," said the woman, snapping her jaws.

"Report for duty every day?" asked Mr. Norris.

"Yes," snapped the lady. "John, you reported, didn't you?"

"No-o-o!" admitted the man, timidly.

"What!' cried the wife. "Then you disobeyed orders?"

"Yes," the poor man answered. "The fact is, the strikers wouldn't let me go up the stairs to the station. I tried every day, but they dragged me back."

"H'mph! I'd like to see 'em drag me," snorted the lady. "I'd just like to see 'em! Well, Mr. Superintendent, does John get back his position or don't he?"

Mr. Norris started as if he had touched the third rail.

"Er—oh—oh-yes, madam! Oh, certainly! Yes, yes, mere matter of form. Oh, yes! Go right back to work as soon as we examine him.'

All the waiting men grinned at John, who looked smaller than 30 cents' worth of radium.

WHAT DID THE CATCHER SAY?

Something the "Fans" Would Like to Know, But Will Never Learn.

It was the last half of the ninth.

The pitcher had gone up in the air, and the bases were as full as three goats, relates the Newark News.

The score was 5-4 in favor of the team in the field. A single would tie the score. A two-bagger would win the game.

Two men had flied out, and the man at bat had two strikes against him.

It was a crucial moment.

And, as we say, the pitcher was rattled.

Suddenly the catcher held up his hand. His right hand.

He removed his wire mask and stepped toward the pitcher, who advanced to meet him

With mouth close to the pitcher's ear the catcher whispered something. What it was no one heard but the pitcher, who returned to the box.

The ball shot true across the plate.

"Strike three!" cried the umpire. The pitcher had saved the day.

Now, then, the thing we want to know is this: What did the catcher say to the pitcher?

A Finder's Graft.

"I want you to put in your 'Lost and Found' column an advertisement like this: 'Wallet containing considerable sum of money and papers Finder will keep money return papers,'" said the man.

"Don't you think," suggested the clerk, "you had better add 'No questions asked?'"

"No, but you may say 'No questions answered.' I'm the finder."—Philadelphia Press.

Perpetual Fighting.

Franklin—Any man would fight for his colors.

Penn—Yes! I have seen lots of them struggling for the long green.—Philadelphia Telegram.

The Reason Why.

Drummond, Wis., Aug. 21st (Special)—Whole families in Bayfield County are singing the praises of Dodd's Kidney Pills and the reason why is given in experiences such as that of Mr. T. T. Wold, a well-known citizen here.

"I had such pains in my back that I did not know what to do," says Mr. Wold, "and as I came across an advertisement of Dodd's Kidney Pills, I sent for a box. That one box relieved me of all my pains. My wife also used them and found them just what she needed. I recommend Dodd's Kidney Pills as a sure cure for Backache and other Kidney Troubles."

Backache is one of the earliest symptoms of Kidney Disease. Dodd's Kidney Pills cure it promptly and permanently and prevent it developing into Rheumatism, Dropsy, Diabetes or Bright's Disease.

In a recent sermon on "Other Worldliness," Ian Maclaren said that it is "the unbroken and intolerable sameness of life which takes the heart out of many people."

SORE HANDS, SORE FEET.

Itching, Burning Palms and Painful Finger Ends—Complete Cure by Cuticura.

One Night Treatment: Soak the hands or feet on retiring, in a strong, hot, creamy lather of Cuticura Soap. Dry, and anoint freely with Cuticura Ointment, the great skin cure and purest of emollients. Wear, during the night, old, loose kid gloves, or bandage lightly in old, soft cotton or linen. For red, rough and chapped hands, dry, fissured, itching, feverish palms, with brittle, shapeless nails and painful finger ends, this treatment is simply wonderful, a single treatment affording the most grateful relief, and pointing to a speedy, permanent and economical cure. In no other ailment have Cuticura Soap and Cuticura Ointment been more effective.

Judiciously managed, promises will sometimes do more for a man than performance. Now, for instance, there's politics.—Puck.

SICK HEADACHE

NEWS OF MINNESOTA.

Mosquitoes.

St. Paul.—Residents of Minnesota need not worry over mosquitoes, according to a communication received from the United States bureau on public health received by Dr. H. M. Bracken, secretary of the Minnesota board of health.

Mosquitoes are in Minnesota, according to the Washington officials, solely by the sufferance of the residents of the state. The householder who is troubled with these pests needs only to empty the tubs, buckets, cans, flower pots and vases about his house once in forty-eight hours and see that pools of stagnant water are filled up or covered with coal oil.

"Mosquitoes breed only in water; if the breeding places are destroyed, there will be no mosquitoes," says the Washington officials.

The Census.

St. Paul—Almost two million persons were found in Minnesota by the state census of 1905. The official count is 1,975,871.

Ramsey county's figure was so much larger than expected that calculations were upset. Two weeks ago the total was placed at approximately 1,954,000. That was before the remarkable results of the dragnet campaign in the capital city were known or suspected.

Some of the northern counties just reported also surpassed expectations. The result is extremely gratifying to Secretary of State Hanson and George F. Wright, director of the census, who have had the matter in charge.

Ladies' Relay Race.

Hamline.—One of the exciting events of the Minnesota state fair this year will be the ladies' relay race, which will go on during the entire week—four miles a day for six days. Each rider will use four horses a day, changing at the end of each mile in front of the grand stand. Fleet horses and skilled riders from Montana and other western states have been entered. The fair is held during the entire week, Sept. 4-9. Half rates have been made by the railroads.

Dan Patch, the fastest harness horse in the world, is to go against his world's record of 1:56 on Monday, opening day, only.

Red Letter Day.

St. Paul.—Sunday, Sept. 10, will be a red letter day for Congregationists of St. Paul, for on that day they will entertain seventy of the most prominent ministers of denomination, who will stop over on the return from Seattle to the East. The ministers are the commissioners of the American board of foreign missions. They will come on a special train, arriving early in the morning and departing late in the evening of the same day.

Drowned.

Duluth.—Gray Holston, twenty-three years of age, the son of Mr. and Mrs. D. E. Holston of this city was drowned in Duluth harber. He was one of a sailboat and fell overboard during a sudden squall, which required the attention of everyone on board to manage the craft.

The young man could not swim, and, weighed down with heavy clothing, he was unable to save himself. He came to the surface but once.

Rebel Money.

Minneapolis.—A man who is evidently is unaware of the fact that the war of the Rebellion is a thing of the past has been busy for the last few days passing confederate currency on unsuspecting Northeners. Two complaints have already reached police headquarters and it is thought several more will be received as the man is working with reckless abandon and seems to be determined to make the most of his opportunities.

Killed by Paris Green.

Owatonna.—A man named Pishkey, living in the outskirts of the city, prepared some paris green and spread it over his potato patch. Some of the poison was blown into a pasture in which were some cows belonging to Edward Manthey. The cows ate freely of the grass and as a result several of them were made sick of which one died.

News Notes.

Hastings—The second annual street fair and carnival will be held Sept. 27 to 30.

South St. Paul—Jason Wilson, a section crew, committed suicide by cutting his throat.

Minneapolis—The graves in the old St. Anthony cemetery one the east side are being picked over and over these days by chickens.

Minneapolis—The labor market has been swept clean of able-bodied, desirable men, and there is an enormous demand at present for laborers of any description.

Mankato—The Duluth, St. Cloud, Glencoe and Mankato railway seems assured, at least so far as the portion of it between Albert Lea and Mankato is concerned, a distance of fifty-four miles.

St. Paul—The week ending Saturday Aug. 12, was a banner week for the public baths. There were more than 40,030 bathers during the week, the income amounted to $1,131.14 and there were no accidents.

Erhard — A boy named Herman Schultz, was arrested at Breckenridge on the charge of raising bills, and has been bound over to the grand jury, bail being fixed at $500.

Owatonna — At the conclusion of Miss Wilder Johnson's trial for poisoning in the municipal court Judge Newhall bound the defendant over to the grand jury on $1,000 bail.

TOLD OF THE TITLED.

The empress of Russia's favorite scent is violet.

The shah of Persia could sell his ornaments and precious stones for more than $35,000,000.

On the recent official celebration of his birthday, King Edward conferred on his chef, M. Menager, the Victorian medal.

Sir Alfred Jones contemplates building in the center of London a large hotel, in which every luxury of bed and board will be provided for two dollars a day.

The Marquis of Ely owns a country seat originally designed as a stable. It was made over into a hunting lodge and has entirely lost any suggestion of its former uses.

The late Baron Alphonse de Rothschild's favorite way of answering impertinent questions regarding investments was: "If you want to dine well take such and such a stock, but if you want to sleep well take some other."

A retired army lieutenant has been arrested at Nauplia, Greece, owing to having predicted some weeks ago that M. Delyannis, the premier, would be assassinated June 13, which was the actual date of the crime. He says the murder was foretold to him in a dream.

In spite of his years, King Leopold of Belgium is one of the most daring of men. Not only is he given to riding in an automobile at tremendous speed, but he also employs as a chauffeur one Marcel, who is a pronounced anarchist. He has been warned against the man by the police of Belgium, France and Germany, but he pays no heed to their counsel.

A FEW OF THE BEST.

Benners—"Do you ever go on the merry-go-round?" Jenners—"No; I am on the water wagon now."

Guest—"Don't you like to have company to dinner?" Truthful Tommy—"No'm. We have more to eat, but I don't get as much of it."

Friend—"Are you sure Mr. Pinkey loves you?" Mrs. P.—"Well, he must when he loans me his razor to open a can of tomatoes with."

The Lover—"You see, ma and pa are opposed to me, but the girl isn't." Friend—"You're all right. You're going to be elected by an overwhelming majority."

"Can you float alone?" asked the athletic girl, as they paddled out to sea. "I don't know," murmured the young financier, absently. "How large a loan do you mean?"

A three-year-old boy upset a box of baking powder. His sister set him on a chair and told him to be good. After sitting there awhile he said: "Are you satisfied? I am."

"Have you ever considered the debt of gratitude you owe your country?" "Yes," answered Senator Sorghum. "But it doesn't bother me. A debt of gratitude can't foreclose any mortgages."

IN EVERYDAY LIFE.

A man should pay for his wedding suit before ordering a divorce suit.

Most people would rather preach half a day than practice half an hour.

If a man doesn't wind up his bad habits his health will soon run down.

Trusts that should be encouraged are those of grocers, butchers and bakers.

It is better to be everything to somebody than something to everybody.

Some men waste a lot of time trying to convince others that they are truthful.

Incomplete.

Jones—What did you think of the Louvre gallery?

Smith (just back)—Oh the pictures are pretty good, but there are no jokes underneath them.—N. Y. Sun.

WRONG SORT.

Perhaps Plain Old Meat, Potatoes and Bread May Be Against You for a Time.

A change to the right kind of food can lift one from a sick bed. A lady in Welden, Ill., says:

"Last Spring I became bed-fast with severe stomach trouble accompanied by sick headache. I got worse and worse until I became so low I could scarcely retain any food at all, although I tried every kind. I had become completely discouraged, had given up all hopes and thought I was doomed to starve to death, till one day my husband trying to find something I could retain brought home some Grape-Nuts.

"To my surprise the food agreed with me, digested perfectly and without distress. I began to gain strength at once, my flesh (which had been flabby) grew firmer, my health improved in every way and every day, and in a very few weeks I gained 20 pounds in weight. I liked Grape-Nuts so well that for 4 months I ate no other food, and always felt as well satisfied after eating as if I had sat down to a fine banquet.

"I had no return of the miserable sick stomach nor of the headaches, that I used to have when I ate other food. I am now a well woman, doing all my own work again, and feel that life is worth living.

"Grape-Nuts food has been a godsend to my family; it surely saved my life and my two little boys have thriven on it wonderfully." Name given by Postum Co., Battle Creek, Mich.

There's a reason.

A WOMAN'S ORDEAL

DREADS DOCTOR'S QUESTIONS

Thousands Write to Mrs. Pinkham, Lynn, Mass., and Receive Valuable Advice Absolutely Confidential and Free

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions in regard to her private ills, even when those questions are asked by her family physician, and many continue to suffer rather than submit to examinations which so many physicians propose in order to intelligently treat the disease; and this is the reason why so many physicians fail to cure female disease

Mrs. T. C. Willadsen

This is also the reason why thousands upon thousands of women are corresponding with Mrs. Pinkham, at Lynn, Mass. To her they can confide every detail of their illness, and from her great knowledge, obtained from years of experience in treating female ills, Mrs. Pinkham can advise women more wisely than the local physician.

Read how Mrs. Pinkham helped Mrs. T. C. Willadsen, of Manning, Ia. She writes:

Dear Mrs. Pinkham:—

"I can truly say that you have saved my life, and I cannot express my gratitude in words. Before I wrote to you telling you how I felt, I had doctored for over two years steady, and spent lots of money in medicines besides, but it all failed to do me any good. I had female trouble and would daily have fainting spells, backache, bearing-down pains, and my monthly periods were very irregular and finally ceased. I wrote to you for your advice and received a letter full of instructions just what to do, and also commenced to take Lydia E. Pinkham's Vegetable Compound, and I have been restored to perfect health. Had it not been for you I would have been in my grave to-day."

Mountains of proof establish the fact that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for restoring women's health.

Looking Ahead.

Ezry—I hear your son had a chance to go to work over in Grubbtown.

Eben—Yes, but he didn't accept it. When he gits married an' his children grow rich an' cultured, he don't want none o' the other society people sneerin' at 'em becuz their daddy had to work fer a livin'.—Detroit Tribune.

Not Dollars.

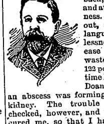
"I understand Binksnap cleans up a thousand a week."

"Yes, collars. He runs a laundry."—Cleveland Plain Dealer.

LOST 72 POUNDS.

Was Fast Drifting Into the Fatal Stages of Kidney Sickness.

Dr. Melvin M. Page, Page Optical Co., Erie, Pa., writes: "Taking too many iced drinks in New York in 1895 sent me home with a terrible attack of kidney trouble. I had acute congestion, sharp pain in the back, headaches and attacks of dizziness. My eyes gave out, and with the languor and sleeplessness of the disease upon me I wasted from 194 to 122 pounds. At the time I started using Doan's Kidney Pills an abscess was forming on my right kidney. The trouble was quickly checked, however, and the treatment cured me, so that I have been well since 1896 and weigh 188 pounds."



Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists. Price, 50 cents per box.

PAXTINE TOILET ANTISEPTIC

FOR WOMEN

troubled with ills peculiar to their sex, used as a douche is marvelously successful. Thoroughly cleanses, kills disease germs, stops discharges, heals inflammation and local soreness, cures leucorrhœa and nasal catarrh.

Paxtine is in powder form to be dissolved in pure water, and is far more cleansing, healing, germicidal and economical than liquid antiseptics for all

THE SUNBEAM.

VOL. V. SUNBEAM, RED LAKE COUNTY, MINNESOTA, FRIDAY, SEPT. 1, 1905. NO. 22.

THE NEWS OF A WEEK CONDENSED

SUMMARY OF MOST IMPORTANT EVENTS AT HOME AND ABROAD.

THE WAR IN THE FAR EAST

Progress of Peace Negotiations Between Russia and Japan—Foreign and Domestic Items of Interest Told in Brief.

THE PEACE CONFERENCE.

President Roosevelt is said to have advised the czar that Japan's demands are reasonable and that Russia, having been defeated in war, should accept them.

Japanese envoys submitted a plan for Russia to pay cash for the return of a part of Sakhalin, in lieu of an indemnity, but M. Witte spurned the offer.

The president's plan for the peace compromise is reported to be that Russia should pay Japan for the recession of Sakhalin, thereby dodging the indemnity issue.

YELLOW FEVER SITUATION.

The New Orleans yellow fever record to date is: Deaths, 226; total cases, 1,600.

If all houses are properly disinfected and screened, there are reasonable hopes of a complete cessation of yellow fever in New Orleans on or before October 1, is the message of hope given by Surgeon White.

A case of yellow fever has been discovered in Crockery township, Ottawa county, ten miles from Grand Rapids, Mich. The patient is Godfrey Limburg, a telephone lineman who left New Orleans recently.

Yellow fever is declared beyond control at points on Bayou La Fourche and it is believed there are more than a thousand cases in Louisiana.

Yellow fever has invaded Illinois, a negro from Louisiana being found critically ill with the disease near Brownsville.

The Arkansas state board of health has instituted a strict quarantine against the entire state of Louisiana.

MISCELLANEOUS.

President Roosevelt made a descent in Long Island sound, on board the submarine torpedo boat, Plunger. At one time the little boat was submerged for 50 minutes, and in that time was put through all of the submarine feats of which she is capable. The president expressed his delight at the novel experience.

There is good reason for stating that a new Anglo-Japanese treaty of alliance has been signed.

Escaping from her niece, who was taking her back to her home in Texas, after an illness, Mrs. Laura Oxford, aged 32, jumped from a train that had stopped on the Eads bridge at St. Louis and was drowned in the river.

A petition by Mrs. Clara S. Hay, widow of the late Secretary John Hay, for the probate of Mr. Hay's will was filed in Washington in the probate court. Mr. Hay left property real and personal to the value of more than $250,000.

The Equitable Life Assurance society has joined with the state of New York in asking for a full investigation in court of its directors and officers and their alleged wrongdoings in managing the moneys of the society.

A fire destroyed the entire business section of Lotts, a small town in Iowa. The loss is estimated at $30,000.

Judge John R. Carey died in Duluth, Minn., after a long illness, aged 75 years. He was one of the most widely known and highly honored pioneers of that region.

At Grayling, Mich., Mrs. Naomi Aldrich, of Frederic, Mich., was bound over for trial before the circuit court charged with having poisoned her two little sons, aged six and eight years, with arsenic.

The American Bar association adopted a resolution advocating national control of the insurance business.

Former Assistant Statistician Holmes of the department of agriculture has been indicted by a grand jury for the cotton leak scandals.

Freight officials of the western trunk railroads have agreed on a uniform rate on corn and wheat, to take effect October 1.

Poultry shippers ask the interstate commerce commission to stop alleged discrimination on the part of railroads.

Mail advices in London give details of a massacre of Jews by Cossacks in Bialistok. Thirty-eight innocent persons were killed.

The report of Chief Wilkie shows that secret service men have nearly eradicated counterfeiting.

The census of babies in Greater New York shows that 59,196 were born last year, and that they comprise a large percentage of the city's population.

A member of the Italian colony in New York presented the pope with a robe valued at $5,000 and $3,500 in cash the gift of Gotham Italians.

Russian export grain trade is paralyzed because the government uses so many trains for military purposes.

According to a report issued by the census bureau, the birth rate in the United States is steadily growing smaller.

A trusted bank clerk in Paris, France, stole $200,000 by manipulating the institution's books, then chartered steam yacht and fled with an actress.

Sir Thomas Lipton announces he wants to contest again for the America's cup, but declares such a course would be useless under the present New York Yacht club rules.

The three traction companies of Chicago will pay taxes on $36,025,770, an increase in valuation of about $104,000.

Lieut. Gov. Sherman, of Illinois, apparently will be a candidate to succeed Shelby M. Cullom in the United States senate.

George R. Peck, of Chicago, was elected president of the American Bar association.

L. P. Morton, Bishop Potter, W. K. Vanderbilt and others are forming a new insurance company. Cheaper policies are promised.

Ellen Glenn, a girl who became notorious by masquerading in male attire, was arrested in Lapeer, Mich., for a $2,500 forgery.

A South African expert has started for Kentucky, confident of finding diamond mines there.

A contract for $15,000,000, awarded to a Pittsburg concern, is the largest ever given to one firm in the United States for railroad construction.

Southern Illinois, southern Indiana, western Missouri, and all of Kentucky and Tennessee were shaken by a severe earthquake. Thousands were panic stricken.

Edwin S. Holmes Jr., Moses Haas and Frederick A. Peckham have been indicted by a federal grand jury in connection with the investigation into the cotton crop report leak scandal, and the latter was arrested and placed in jail in Saratoga county, New York, in default of bail.

Johann Hoch, the condemned Chicago wife murderer, has again escaped hanging through a supersedeas issued by Justice Magruder. The Illinois supreme court will review the case at the October term.

France announces that a military demonstration will be made against Morocco unless the sultan promptly yields to the demands for the release of the French-Algerian citizen, a merchant named Beuzian, who was unjustifiably arrested.

An international bank, with a capital of $1,000,000, is being formed in New York for the purpose of carrying on banking operations between the United States and Hungary, and to handle accounts of emigrants to this country.

The plant of the Canada Machinery company, at Point Edward, Ontario, was destroyed by fire. Estimated loss, $125,000.

The business section of Stevenville, Mont., was swept by fire. With the exception of two buildings, one entire block was burned. Loss, $100,000.

The First national bank of Collinsville at Collinsville, a small town 30 miles south of Bartlesville, I. T., was robbed and the thief escaped with $1,200.

An important deal has just been closed in San Francisco, contracts having been signed for the shipment of 1,500,000 feet of redwood to New York city. It is the largest single shipment of redwood ever made direct to New York.

By a terrific explosion of giant powder at Paris, 51 miles from Bakersfield, Cal., Mrs. A. W. McRae, wife of a prominent mining man, her son George and Oscar Duclose, another mine owner, were instantly killed.

Gov. Pardee, of California, was elected president of the National Irrigation Congress.

At Philadelphia the Chicago National league team defeated the Philadelphia club after 20 innings of sensational playing by a score of two to one.

James McKinney, of Aledo, was nominated to succeed B. F. Marsh, deceased, by republicans for the Fourteenth Illinois district.

A loss of more than $500,000 was caused by a fire in the stores of the extensive plant of the Bush Terminal Warehouse company, at the foot of Forty-fourth street, Brooklyn, started by lightning during a terrific storm.

Dr. John F. Russell of the post graduate hospital, New York, has found a cure for consumption in the juice of common table vegetables.

Nine lives are reported lost in a cloudburst which wiped out two mining towns near Trinidad, Col.

Diamonds are becoming more difficult to find and prices are steadily advancing in all the markets of the world.

Germans are appealing for free entry of cattle into the country in order to secure lower meat prices.

King Oscar no longer opposes the acceptance of the Norwegian throne by Prince Charles, according to authoritative reports in Stockholm.

Mayor Dunne's traction expert, A. B. Du Pont, reports that 264 miles of municipal railway can be built and put in operation by 1908, costing $25,000,000, and netting the city of Chicago $4,000,000 a year.

William Traverse Jerome, district attorney of New York, has been picked by the nominating committee of the Citizens' Union as candidate for mayor.

The irrigation congress in session at Portland, Ore., adopted resolutions urging the federal government to increase its support in reclamation of arid lands.

Catholics in national conference commended state aid for parochial schools and government aid for Indian missions.

The receiver for the defunct Continental Finance company, in Chicago, an alleged get-rich-quick concern, reports that there is $1,216 for distribution among the creditors.

President Harper of the University of Chicago told the graduating class that plans are made for buildings and improvements to cost $6,000,000.

The United States government building at the Louisiana purchase exposition, erected at a cost of $500,000, has been sold to a wrecking company for $10,500. The steel trusses in the structure alone cost $100,000.

The estate of D. P. Morgan was robbed of $44,000 through forgeries committed by clerk of the estate, at Morristown, N. J., who confesses he lost the money in playing the races.

General Corbin in his report recommends more centralization in the government of the Philippines.

Laws against physicians who compound prescriptions are urged by Illinois druggists.

An employe of the Santa Fe railroad in Chicago issued irregularly to friends more than $3,000 in transportation.

Guye Earle Howett, a Chicago boy, enlisted in the navy, committed suicide on training ship at Norfolk, Va.

The estate of the late Col. Jacob L Greene of Hartford, who was president of the Connecticut Mutual Life Insurance company and a foe of graft all his life, is found to be worth only $50,000 instead of about $1,000,000 as was commonly supposed.

An electric storm of remarkable severity, accompanied by a high wind visited Atlanta, Ga. One young man named James McDaniel, was killed by lightning.

Ben F. Elbert, a prominent Iowa capitalist, met death in a small river south of Des Moines, Ia., while driving. His team ran away and jumped off the bridge into the stream. Elbert was drowned before assistance reached him.

A report has been received at Buenos Ayres of the foundering of the British bark Bidston Hill. The report states that 18 of the crew were drowned.

Fire in a livery stable at Oroville, Cal., caused a loss of $50,000, the death of one man, John Preston, and minor injuries to several others.

David T. Stubbs, cashier of the Citizens' Gas & Electric company of Council Bluffs, Ia., has been found short in his accounts and was arrested on a charge of embezzling $1,875 of the company's funds.

Vice Admiral Rojestvensky, in a letter to his family, says he expects to have fully recovered from the wounds received in the battle of the Sea of Japan by the middle of September.

Between 200 and 300 leading members of the bar, representing nearly every state in the country, were present at the first sessions of the twentieth annual meeting of the American Bar association at Naragansett Pier, R. I.

Hope Young was convicted at Digby, Ill., of the murder of her ward, Minnie Alice Ward Young, and sentenced to death.

Zelda E. Stewart and John Chartress, of Chicago, were picked up on Lake Michigan after drifting 41 hours in a skiff.

On the Stringtown pike, two miles below Constance, Ky., Louis Wrightman probably fatally shot his brother, Jacob Wrightman, and Jacob's wife, as the result of an old family quarrel.

Mrs. S. E. Mize, of New York, was murdered in a Chicago street by a highwayman whom she resisted.

Daughters of Temperance are to ostracize all friends who use intoxicating liquor or keep it in their homes.

Anthony Fiala, leader of the Ziegler polar expedition, arrived at Hull, England, and tells of years of hardship.

A Michigan judge has an invenion to stop the rocking of boats, thus preventing seasickness.

The storthing of Norway passed resolutions asking Sweden to recognize the act dissolving the union.

The Lake Shore and New York Central will spend $12,000,000 in improving their train service.

Action was begun to test the validity of a trust amounting to $1,000,000, in which the Catholic university at Washington, D. C., is beneficiary.

Russians decline to open their purses to the czar; the subscriptions to the latest internal loan amounting to only $100,000 in Moscow.

A celebration in honor of Admiral John Paul Jones will be held in Washington in April.

A mass meeting in Moscow condemned the proposed form of a douma as announced in the czar's recent manifesto.

A St. Louis chemist, seeking a consumption cure, was killed by an explosion in his laboratory.

WASHINGTON LETTER

SECRETARY ROOT IS REMARKABLY YOUNG LOOKING.

"UNCLE JOE" IS INCENSED

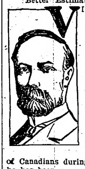
Hospitality That Counts a Good Deal in Legislation—President Disapproves of Growing Bureaucracy in Navy Department.

WASHINGTON.—Secretary of State Root did not stay in Washington long enough to warm his desk chair after taking oath of office. Nevertheless he is secretary of state and the country feels easier. The people are perfectly content that he should go away off to Labrador to get a complete rest from a hard year's labor in his profession, gain that physical tone that is so necessary to a public man and come back like a young man of 30 to take up diplomatic and state puzzles with a zest.

Mr. Root is the youngest looking man there ever has been in the public service, and he will come back from the wilds of Labrador looking little more than half his age. There was a general approval throughout official circles when Mr. Root was named by Mr. Roosevelt as premier of his administration. No one had guessed this able statesman, who had a little over a year before resigned from the cabinet because he wanted to get back into the profession of law, where he could earn a competence before he grew too old. Few believed that, with all the enormous fees he had won in that short time, that he had acquired a sufficient fortune with which to return to public life. But it appears that within that time Mrs. Root has fallen heir to several millions, and her distinguished husband can follow the bent of his ambition in a political way.

"I guess I was bitten by the diplomatic bug during our trouble in China over the Boxer uprising," said Mr. Root the other day, when he admitted that he wanted to be secretary of state. Mr. Root conducted much of the diplomatic business of that period, Secretary Hay being absent from Washington. He ran both the war and state departments, and his promptness and decision counted for much.

Better Estimate of Canada.



VICE PRESIDENT Fairbanks seemed to strike a popular chord in his address at Sault Ste. Marie a few days ago when he spoke of the similarity of purposes between the United States and Canada and the harmony that existed between the two countries. Mr. Fairbanks has seen a great deal of Canadians during the seven years he has been a member of the high joint commission whose object has been the settlement of a few troublesome questions between the countries. The vice president, as everyone knows, is not given to the expression of very decided views on any subject, but he said the other day to a friend:

"It would be a good thing if the people of the United States had a closer knowledge of their neighbors to the north. Let them go up into the broad wheat lands of that mighty country stretching west from Winnipeg to the Rockies and they will find a pretty good lot of Americans there." This opinion is agreed to by a group of Washington correspondents who recently made a tour of Canada from Montreal to Victoria, spending a week in the great northwest wheat field. The people met by the Washingtonians and what they are accomplishing were revelations.

Some of these newspaper men had never gotten rid of their school geography ideas that a few miles above the international boundary began the reign of eternal snow and ice. They knew, of course, that the Canadian Pacific railway ran clear across Canada, but without a practical view of what this railroad had accomplished they could not realize the possibilities and greatness of the country. When they found good farmers from the United States raising as high as 40 bushels of wheat to the acre as far north as Edmonton they reformed their ideas of geography and their estimate of Canada.

A Strict Economist.

UNCLE JOE" CANNON, the genial speaker of the house of representatives, declares it is all a double blanked lie about his washing his fingers in the public drinking glass on the platform table at the Portland exposition and sneaking a piece of ice out of the pitcher with which to cool his fevered brow. This being a lie, so also was the companion story that the wife of the president of the exposition reprimanded him and told him that a man of his age and position ought to have better manners, or words to that effect. The whole story is declared by "Uncle Joe" to have been a fabrication which did a great injury to a refined, gentle lady. He does not care for "fakes" about himself, but his native southern chivalry—he was born in North Carolina—simply resents the slightest affront to a lady.

The speaker was in Washington a few days ago and took a look around. He was so many years at the head of the house committee on appropriations and has been speaker of the house, that he feels a semi-paternal interest in everything the government does in the way of spending money. His paternal instincts prompts him to teach economy, and above all strict adherence to the letter of the laws making appropriations. He was not particularly well pleased, then, to find that congressional restrictions had been ignored in digging foundations for the new agricultural department building, and that they had been established in conformity with the plans of the trio of landscape architects whom the senate employed some years ago, instead of following the directions of the law that the new building should be where the present one stands.

Congressman "Joe" Sibley.

SPEAKER CANNON growled at this evasion of the will of congress, muttered a few remarks that might be interpreted to mean a good many things, among others some difficulty for the sponsors for the department building when they come before congress for more money next winter. Then he whirled away in a "red devil" automobile, caught a fast train and hurried to the cool shores of Lake Champlain, where Congressman "Joe" Sibley awaited him in a beautiful summer cottage and soon made him forget the annoyances he had encountered in Washington.

Congressman Sibley is the rich oil man and stock raiser of Pennsylvania, who has been a republican, a prohibitionist, a populist, a democrat, and then a republican again, but who is the most universally liked man in the house of representatives. And why should he not be popular? His three big touring car automobiles are at the command of his friends. He gives on an average two sumptuous banquets each month during sessions of congress in the marble mansion on K street built and occupied by the late John Sherman. These dinners cost about $25 a plate, and Sibley is not niggardly with his invitations. He has a swift yacht on Lake Champlain and a summer home where his congressional cronies are entertained in royal style.

Sibley's popularity is not confined to his own side of the house, but all the democratic leaders are his guests at some time during the session, and the influence he can exert in a social way counts for a good deal in legislation. Sibley can speak on the floor, but his big-hearted hospitality is his greatest card.

THINKS PEARY IS DOOMED.

Maine Sailor Who Started with the Explorer Deserts in Consequence.

South Paris, Me.—Because he does not think that Lieut. Peary's arctic steamer, the Roosevelt, will come back from its trip in search of the north pole, and believes that none of those on board will ever again be heard from, Stephen Morse, who shipped on the vessel before it left New York, has deserted and returned to his home in Maine.

Morse is one of the best seafaring men that ever shipped before a mast, and has never been frightened by any seas he has encountered. After sailing in the Roosevelt, however, from New York to Sydney, C. B., he was not enthusiastic about continuing the trip.

He believes that the ship will be made unseaworthy before reaching the point where Perry intends to establish winter quarters next September.

A Question of Price.

Freelance—Here's an article on the Chicago girl's foot.

Editor—Do you expect me to pay for it at space rates?—Judge.

COMMITS SUICIDE WHILE IN CHURCH.

W. R. OWENS, OF SUBLETTE, ILL., KILLS HIMSELF AT DIVINE WORSHIP.

The First Baptist Church of Minneapolis is the Scene of the Tragedy. Services had Just Closed when Act was Done.

Minneapolis, Aug. 28.—As the last strains of the organ were dying out after the service at the First Baptist church last night an old man, unknown to any in the congregation, jumped to his feet, pulled a revolver out of his pocket, and placing it against his breast pulled the trigger.

The bullet passed directly through his heart, and without a sob the unfortunate man fell forward on his face in the aisle, blocking the passage of the worshipers that were leaving the church after the service.

The shot caused a great commotion in the church. Women fainted and men turned pale when they saw the bleeding form on the floor. Some of the more stout hearted ran to lift the prostrate form, but the man was dead and human aid was of no avail. The blood oozing from the wound in his breast spread slowly over the carpet.

One man ran out and notified police headquarters. The coroner was called, but he could only confirm that the man was dead, a fact that was only too apparent.

In his pockets were found a draft on the First National bank of Sublette, Ill., for $700 made out in favor of W. R. Owen. It is therefore thought that that is the man's name. Besides the check were found a gold watch, a twenty dollar bill and $3,36 in change, a tobacco pouch and some keys. He was apparently about sixty years of age and fairly well dressed.

Dr. Owen spent most of Saturday at the Nicolett hotel, although he had not registered. He had a valise at the desk. Apparently he seemed worried over something and did not care to secure a room. His grip was opened by an officer and it is thought from letters found in it that he had experienced some little family difficulty.

ALMOST LYNCHED.

Two Minneapolis Boys Try Hard As Amateur Lynchers and Almost Kill Comrade.

Minneapolis, Aug. 28.—Saturday was "Red Indian" day for Donald Gibbons and Oscar Johnson, two Minneapolis boys residing at 1372 Spruce place. The boys made up their minds that it was a good season for lynching. Having arrived at that important conclusion they looked around for a victim. Several little boys, including Raymond Carciofini, 1325 Nicolett avenue, were playing near the would-be hangmen.

Raising an Indian war whoop, young Gibbons and Johnson, accompanied by a visitor from the country, swooped down upon Carciofini, who attempted to seek safety in flight, but was detained by the barbs of a wire fence through which he was crawling.

Gibbons and Johnson fell up Carciofini and bound him, tying his arms to his side and securing his hands. Carciofini screamed lustily, but no one came to his assistance.

A moment later a noose was slipped over his head. Then the three "Indians" laid hold of the rope and began pulling. That had the desired effect and the cries grew faint. A little later they were lost in an inarticulate moan.

Carciofini was rapidly being suffocated. Johnson and Gibbons continued dragging their victim across the vacant lot heedless of his condition. They were carrying the thing out in true lynching style. When they saw Rev. W. B. Riley approaching the boys fled.

The Carciofini bonds were undone and he was set at liberty. He was weak from pain and his neck was cut and bruised by the rope and the muscles of the neck and back were badly strained.

More Boycott.

Seattle, Wash., Aug. 28.—Advices received by a large milling company of this city from its agent in Hong Kong state that the Chinese boycott of American goods has completely paralyzed the flour trade between Pacific coast points and Chica.

No sales have been made since July 15, and all orders for September shipments have been cancelled.

Approves Lynching.

Dallas, Tex., Aug. 28.—The burning at the stake of Tom Williams, for attacking a white woman, has been commended at the state convention of negro Baptists in session here. Every law-abiding negro was said to be in favor of lynch law in cases of that kind.

DEFECTIVE PAGE

THE SUNBEAM.

BY W. G. HUNT.

Published every Friday, at
ınbeam, Red Lake County
ınesota.

Subscription $1.00 per year.

Every farmer should take a ily paper and take a little time ch evening to read it. While u may say you have not got ne to read, the other fellow is king the time and making a od living out of what you loose not being up to date.

Those that are of the opinion, at governor Johnson will be alected will find out their mis- ke after the next election, as was elected before by well qu fied republican voters, who ll not repeat the dose.

Owing to our being located on e frontier, we do not just under- and what the meaning is of e boom for Hon. Halvor Steenson for governor. We may be mewhat prejudiced, owing to r admiration for the integrity d ability of our preasent con essman, but it seems to us, that would be almost a calamity to is district to loose his services congress at the preasent time. owever if Mr. Steenerson gets to the governor race we are go g to be along pushing, and we lieve that John H. Johnson ould discover that he was in a ce when he was opposed by e tall congressman from the inth.

We have noticed that when a an was rather "shy" in the atter of improvement and resi- ence or a homestead, that he kes to get away from home as r as possiable to make his ap lication to make final proof, so s to have the publication made ithout any of his neighbors nowing about it. In view of this act it is surpriseing to us, that hey do not go to the Fisher Bulletin and have their appli ations made out and published n that paper, as they have no circulation up this way and no one would know anything about it. It is hadly as safe to publish in the Plummer Pioneer, as they have one subscriber at High Landing who has a habit of letting his paper lay around and some one might see it, but go to Fisher and you will be all right, as it is as easy to certify to the general land Office that the Bulletin is the paper published nearest to the land as it would be to say that the Pioneer or some paper published at Thief River Falls was the nearest, as one statement would be about as correct as the other.

Fosston Tirteen Towns: The Sunbeam scents a strong odor of "graft" about the person who is circulating a petiton to congress among the Red Lake homesteader praying for an extension of time in which to make payments upon their land and "touching" each of the signers for fifty cents. Our senator and con tressman understand the situation and will do all in their power to aid the settlers in securing this importent consession, and furthur petitoning will have no affect on the outcome. That these settlers urgently require an extension of time in which to make payments is apparent to any one who will consider their condition. Another year at least should be granted them to enable the home makers to get a start with their places. Unless this is done, many of them, unable to earn the money for the payments will be compelled to sacrifice their land upon which much hard labor has been preformed by them, and also the precious capitol already invested. Strict enforcement of payments according to the law now governing these lands is bound to cause hardship to many a worthy industrious homesteader and his family.

The Early Use of Skates.

Holland is said to be the home and birthplace of skating, and without doubt skating was first practiced there and in the far north. In a country of lakes and canals the necessity of walking and running on ice must have been felt from the earliest days. In Holland they show the bone skates which were found in one of the mounds of which a Friesland village was built. The skates were fastened to the feet by straps passed through holes which were made in the bones. A Danish historian mentions the sport in 1134. The bone skates were also first used in England. A writer in his account of the amusements of the young people of London in the twelfth century mentions the fact that it was usual for them to fasten the leg bones of animals under the soles of their feet by tying them around their ankles; then, taking a pole shod with iron, they pushed themselves forward with great rapidity by striking this pole into the ice.

Aunt Chloe and the Dinner.

Mrs. McJarvis had invited a number of friends to dinner, but the cook left her on the morning of the appointed day without a moment's notice, says the Chicago Tribune.

In this emergency she hunted up an old friend of the family, Aunt Chloe, wife of Uncle Ephraim, and asked her to take the cook's place.

"I'll cook de dinnah, missis," said Aunt Chloe, "if you'll give me wot's left."

Mrs. McJarvis agreed, and within a few hours the dinner was well under way.

Later in the day she visited the kitchen.

"Why, Aunt Chloe," she said, "I have only five persons to entertain, and you are cooking everything there is in the house! What is that?"

"I want to make sho', missis," said auntie, "dat dere'll be sum'n lef'."

London's First Omnibus.

The first London omnibus was really much more gorgeous than its successor of today. It was an imposing vehicle, beautifully decorated and painted, with accommodation for twenty-two passengers inside, and was drawn by three handsome bays, driven by a smart coachman in livery, and its conductor was gay in a blue cloth uniform, like a midshipman. This conductor, by the way, was the son of a naval captain and spoke French so well that it was quite common for the poke bonneted young ladies from Paddington to ride as far as the city and back with the object of improving their French by chatting with him. The fare from the Yorkshire Stingo, at Paddington, to the Bank was a shilling; halfway, sixpence, and newspapers and books were provided for the passengers.—London Globe.

Care of Harness.

Take the harness to a room where you can unbuckle it and separate the parts completely. Wash each part well in lukewarm water to which has been added a little potash. Scrub well with a brush until all the grease and dust have been removed. Work the pieces well under the hand until they become supple. It won't do to oil until it becomes so. Let the parts dry in a place where they will do so slowly. When just moist, oil. For this purpose use cod liver oil. It is the best for the purpose. Besides, if you were to use neatsfoot the rats and mice are your enemies at once, while they will not touch a harness oiled with cod liver oil. Give a good dose of oil to all parts, then hang up to dry. When dry, rub well with a soft rag.

A Russian Sentry.

In 1859 the Russian emperor saw a soldier in the middle of a grass plot in the palace grounds. Why was there a daily guard, relieved at stated intervals? No one knew. Curiosity was aroused, and at last a veteran was discovered who remembered hearing his father say that the Empress Catherine—she died in 1727—once saw a snowdrop in bloom at that point unusually early and asked that a guard be stationed there to protect it. And there a sentinel remained for at least 132 years; no one knew how much longer.

For Sore Throat.

Those subject to sore throat will find the following preparation simple, cheap and highly efficacious when used in the early stage: Pour a pint of boiling water on thirty leaves of the common sage and let the infusion stand for an hour; add vinegar sufficient to make it pleasantly acid and honey to taste. The mixture should be used as a gargle twice a day. There is no danger if some of it is swallowed.

Disappointment on Both Sides.

"You said the house was only five minutes' walk from the station," complained the victim. "To say the least, I'm disappointed in you."

"And I'm disappointed in you," replied the agent. "I thought you were a very rapid walker."—Philadelphia Press.

Setting Him Right.

"You think a good deal of your husband, don't you?" asked the visiting relative.

"You have the wrong preposition," answered Mr. Meekton's wife, with the cold tones of the superior woman. "I think for him."

The Backbone.

When asked by her teacher to describe the backbone a Norborne schoolgirl said, "The backbone is something that holds up the head and ribs and keeps one from having legs clear up to the neck."—Norborne Leader.

The coldest inhabited country is Werchojansk in eastern Siberia. The daily mean temperature of the entire year is 2.74 degrees below zero.

Liquid Metal Polish.

Take eight ounces of Spanish whiting, which must be perfectly free from grit, and put in one quart of gasoline. Shake up the whiting and gasoline thoroughly. You will notice the whiting settles immediately, leaving the liquid as clear as water. To remedy this and, further, to make it a better polishing agent, add to each quart of the mixture thirty-two drops of oleic acid—no more, no less. Shake again and the whiting will not settle. Apply to gold, silver, nickel, brass, glass or any kind of metallic surface with a piece of cotton flannel, rubbing well. Polish with a piece of same cloth.—Blacksmith and Wheelwright.

Waterproofing Dress Goods.

One of the most important processes used for waterproofing dress materials is on the lines of the old alumina process. In this case the factor used is rosin dissolved in a large bulk of petroleum spirit. The fabrics to be proofed are passed through a bath of this solution and dried to drive off the solvent. Following this, the goods are treated by pressing with hot polished metal rollers. This last process melts the small quantity of rosin which is deposited on the cloth and leaves each single fiber with an exceedingly thin film of rosin on it.

The Longest Novel.

The "Story of the Eight Dogs" is the longest novel that has ever been published. Fortunately, perhaps, it is written in Japanese, so no one will set himself the task of reading it. It contains 106 volumes, several hundred characters and numerous dogs, all of which are successfully disposed of by the time the last chapter is reached. Just imagine reading through that—one book that would last a lifetime!

True Heroism.

The hero fears not that if he withhold the avowal of a just and brave act it will go unwitnessed and unloved. One knows it—himself—and is pledged by it to sweetness of peace and to nobleness of aim, which will prove in the end a better proclamation of it than the relating of the incident.—Emerson.

She Reasoned It Out.

Ethel—Mamma, if a little boy is a lad, why isn't a big boy a ladder? Mamma—For the same reason, I suppose, that, although a little doll is a doll, a big doll is not a dollar. Ethel (reflectively)—That's so. My big doll was $2.—Kansas City Journal.

He Wanted That Wine.

General Sir E. Hamley is cited as the authority for a good anecdote about Bismarck. Hamley was sitting close to the chancellor at luncheon, with the old Emperor William not far off.

Bismarck, talking rather loudly, described the old monarch as being generous, but very forgetful. Hamley got nervous, as he thought the emperor would hear. "For instance," continued Bismarck, "I pleased him the other day, and he asked me what he could do for me. I said, 'Give me a dozen of that Tokay you have in your cellars,' and he said he would. "But," added Bismarck, raising his voice still higher, "he hasn't done it." Here Hamley hastily broke in, "I beg your pardon, but I am really afraid the emperor will hear you." "I want him to hear me!" roared Bismarck. "That's just what I want." And a smile broke over the face of his imperial master.—"Fifty Years of Fleet Street."

Tiger Story From India.

A man living in a village near Lucknow is reported to have had an extraordinary adventure in the jungle. He had gone in search of two buffaloes that had gone astray when he was attacked by a tiger.

He was unarmed except for a heavy stick, with which he fought until overcome by loss of blood, when he sank unconscious. At this moment the two buffaloes appeared. One of them stood over the wounded man, while the other snorted and tossed his head.

The man recovered consciousness and staggered to his feet, when the tiger made another spring at him. The beast was, however, received on the horns of one of the buffaloes and was so badly wounded that it turned tail and slunk away.—London Express.

Forests and National Prosperity.

As a living example of the consequences of deforestation we need simply look to Spain, a country which centuries ago was rich in timber and agricultural products, a proud seafaring nation of world conquerors. Spain's decadence dates from the time when her timber supply became exhausted, her shipbuilding relaxed and her barren, unprotected soil ceased to bear fruit.—Forum.

A Long Way Around.

A man with a large family of daughters on his hands may profit by the following suggestion: An old lady who had several unmarried daughters fed them largely on a fish diet because, as she ingeniously observed, "fish is rich in phosphorus, and phosphorus is useful in making matches."

Her First Dinner.

"Yes," said Newliwed, "my wife and I are housekeeping now. She prepared our first dinner last night with her own fair hands."

"How was it?" asked Bacheller.

"Well, the nuts and raisins were fine."—Philadelphia Ledger.

A False Report.

"I have been told," said Mrs. Oldcastle, "that your daughter has been doing some wonderful things in pyrography."

"Oh, no," replied her hostess, "she ain't been there at all. The last letter we had from her she was in Pittsburg and thought she'd go right through to Washington."—Chicago Record-Herald.

Both Could Do.

Mrs. Truit—My husband is a sort of jack of all trades; he can do almost anything. Mrs. Gayboy—And mine is a sort of jack of clubs; he belongs to fifteen different societies and can do almost anybody!—Detroit Free Press.

Cause and Effect.

Mifkins—Wasn't Benedict's death rather sudden and unexpected? Bifkins—Well, it was sudden, but not necessarily unexpected. His wife had just graduated from a cooking school.—Chicago News.

Adversity is sometimes hard upon a man, but for one man who can stand prosperity there are a hundred who will stand adversity.—Goldsmith.

DEFECTIVE PAGE

LOCAL PARAGRAPHS.

We are just above water now, and it is raining to-day.

Do your Notary Public business at the SUNBEAM office.

The best brands of flour for sale at the High Landing store.

Salt and smoked meats always on hand, and for sale cheap, at the High Landing store.

Applications to make final proof written free at this office.

Edward Singer post master at Rhoda was a visitor at Kuehnel on Sunday, and made this office a pleasent call.

If you like fish and can't catch any out of the river, Ellingson will sell them to you cheap, at the High Landing store.

It seems to bad to see the hay that will go to wast in this locality, while there so many people not so fortuinatly situated who could cut and use it.

The reservation farmers have no straw piles to turn their stock to and must depend entirely on hay to feed their stock, and it takes lots of it.

Town clerk T.S Jacobson was a passenger on the Dan Patch boat Mondy to Thief River Falls, returning home yesterday.

Miss. O'Riley, of German Town, was exchangeing lady bachelor ideas, on farming and homesteading with Miss. Kuehnel at her residence, on Sunday last.

Mrs. Walt Mc'Andrees and Mrs Dan Sullivan rowed up the Red Lake River to High Landing on Sunday last, to visit the new store at that place.

Miss A Kuehnel left for Thief River Falls yesterday morning. and may go to Crookston. Miss Spoklie her assistant will attend the post office durning her absence.

J. Holum, of High Landing made the second payment on his homested by telephone from Thief River Falls last week. He was to late to reach the land office in time, so sent the money through the banks by telephone. It was a little expensive but he got thare in time to save his land.

We shall send to all of our old subscribers a statement of the amount of their subscription due this paper, as some of them may wish to discontinue it, for the reason that we have changed our location from Gully to this place, and they want to quit square.

County surveyor J. K. Wood and another gentelman from Grand forks was one day to late in making their second payment on their homesteads. They offered payment the sixty first day after it was due but the Land Office could not eccept their money after the sixty days.

"And while they went to buy, the bridegroom came: and they that were ready went in with him to the marriage; and the door was shut".

Newly established post offices must annoy the postal clerks for some time, until they get them located. Evry time we get mail at this office we wonder how some of it reaches us by the way it is adressed. On the 21st of July there was a letter droped in the Fosston post office in a plain envlope, with no return marke on it adressed, with a lead pencil, W. G. Hunt, Steenerson Minn. The letter reached us at our address, at Sunbeam Minnesota, on August 10th, after having been in a number of post offices and well coverd with post marks and notations such as "try Red Lake Falls", "No such person here" "via plummer". The fellow who guessed Plummer struck the right place as that is on the mail line to Sunbeam. We assure the postal clerks the letter was from a friend and we enjoyed reading it, if it was a long time on the road, and it is a credit to the good guessing qualities of the railway mail clerks, that it finally reached the right party.

Dan Sullivan will leave for Crystal N. Dak, tomorrow. He will be accompined as far as St. Hilaire by his daughter Abbie, who is going to school at Moorhead.

DON'T READ THIS

Do you want a daily paper? We will send you the Minneapolis daily News, daily, (except sunday) and the SUNBEAM, one year for $1.50,c. The News is one of the best dailys published in the twin cities. Send in your subscription soon, as this offer wont continue long.

APPLICATIONS AT LILLO.

If you live in the town of Equality or Johnson you can make your application to make final proof, at Lillo, and have your notice published in the paper published nearest your land.

LAND OFFICE BUSINESS.

U.S. Commissioner L. G. Browning with office located at Thief River Falls, is prepared to take homestead entries final proof etc., within the Crookston U. S. Land District.

Office in News building, three doors south of the post office.

FROM DEER PARK.

Tor Moen left for his old place in Eden last Saturday for a few days stay down there.

Some of the farmers around here have finished haying.

Sam B. Swanson left for Park River N. Dak. last Sunday for to take in the thrashing season.

Gundiek Holom, of Kratka passed this way in rout to Equality on a business deal.

Another "soaker" fell on last Saturday forenoon, which will delay haying and harvest

Johnny, the Rodney store keeper and p.m., says he will have all kinds of calico on hand next week.

Mrs Knute Olson has been on the sick list this week.

Aslack Nesland and his sister made Thor Moen and family a short visit last Wednesday.

Last week was an exception in the weather line. We did really have five days of sunshine, which made the farmers smile.

A Christianson and wife transacted business at the Rodney store last Saturday.

Thor Skreland the "saw off" bachelor of Grit was up this way last Friday on a business trasaction. Thor reports Equality and Garnes as being nothing but mud and water out there.

Charles Swanson left for Brooks on a business trip last Saturday, will return in a few days.

Mrs Taarbjor Smedjan left for her home in Equality last Saturday, after a weeks visit at her daughters here, Mrs. Chas. Swansons.

Just arrived, last Thursday, at the home of Mr. and Mrs. W. A. Swanson, a baby girl of nine pounds. This young lady will have the honor of being the first to get her name in the birth register of Deer Park township.

Mrs. T. G. Rohe who for some time past has been assisting Mrs. W. A. Swanson with her household work left for her home in Garnes last Sunday.

Benny Rustad and his brother's Thro and Johnnie have been haying here for the past week, returned to Garnes Wednesday, to finish up their harvest over there.

Mrs. Tobias Olson, Mrs. Pete Mrs. Frank Lundee, and Mrs. Sijur Stoless, were among those that transacted business at the Rodney store Saturday.

Beyond Reason.

There be two individuals who cannot be reasoned with—a girl in love and a man who is determined to run for an office.—New Orleans Picayune.

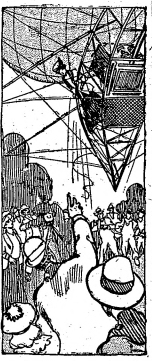
Love is never afraid of overwork.—Chicago Tribune.

Runaway Airship

Brave Woman Posed In Car of Dirigible Balloon For Picture.

The Ship Broke From Moorings, and She Was Carried on an Unexpected Flight Toward the Sky.

To Mrs. George W. Heaton of Oakland, Cal., has befallen an adventure such as never before befell a woman. A very few women perhaps have gone skyward in a balloon without any intention of doing so, but not before has a woman soared away to the clouds on account of a breaking rope in an airship, says the San Francisco correspondent of the Cincinnati Commercial Tribune.



THE ROPE HOLDING THE AIRSHIP HAD PARTED.

When a ground line parted at Idora park, Oakland, Mrs. Heaton, who had gone up a few yards to pose for a photograph, found herself being whisked up to the sky in a skeleton car under a great gas bag, with no idea of the workings of the motor and with merely knowledge enough to reach for the line controlling the valve which would permit the gas to escape and bring her back to earth. But she found the line was gone.

How Mrs. Heaton tore at the gas bag with her teeth, found that the light gas would not exude at a hole in the underside of the bag and how she swung herself out of the car and hand over hand along a bamboo rod in order to tip the great bag so that the gas would escape at the hole is thrillingly told in her own words in the account which follows:

"For over a year my husband had been engaged in perfecting his dirigible balloon. The present finished example of the latest thing in air boats was completed only a short time ago. A few weeks ago he made his first flight.

"While the experiment was not an entire success, his faith and mine rose at what he has been able to do in it despite unforeseen difficulties which can be obviated in the future. Friday afternoon was the date set for my husband's second trial of the California Messenger.

"My husband told me that some one wanted to take some snapshots at the machine as it hovered a few feet above the ground, and he asked me if I would not like to be the first woman aeronaut to be photographed in an airship. I readily consented.

"I understand the operation of the machine fairly well except the engine, which it was not necessary for me to touch in the experiment to follow. So my husband gave me only a few simple instructions about operating the rudder and the other steering apparatus.

"I climbed into the car and rose easily above the treetops. Sand ballast in the car kept the huge affair at exactly a uniform height from the ground, and I maneuvered it to my intense delight.

"It was exhilarating and novel. I seemed literally to be flying. It was simplicity itself, and I did not hesitate to show the world that a woman might be a pioneer aeronaut quite as well as a man. But—that inevitable 'but.'

"It seems the photographer was not satisfied with the picture secured at the height I was sailing and asked that the machine be brought to a standstill nearer the ground. So I directed the ship down. It obeyed my command, and I felt satisfied with myself as an aeronaut. 'Snap' went the camera. The picture was taken, and I prepared to get down and out.

"Almost at that very instant I heard an agonized 'My God!' from Mr. Heaton.

"I peered over the side of the car and saw—well, I saw the world and all that it holds dear to me receding. I saw my two little girls, one scarce past babyhood, with a tight hold of her father's hands, gazing up with glances I do not care to see on their little faces again.

"The rope holding the airship to the earth had parted.

"My husband shouted, but his voice was drowned by the murmurs of horror from the lips of those who had come to be entertained. The whirring of the little engine behind me completed the blur of sound.

"I strained my ears to catch the directions I knew my husband was shouting, but I could make out nothing of what he said. You remember, I did not understand how to operate the engine.

"Still, I did not realize the danger. I thought even if the engine is running too slowly to be serviceable I can when I like pull the rope and let out enough gas to land me easily and safely. Strange, too, I did not realize how high the balloon had taken me. There was no sense of motion.

"Meanwhile, I tried my hand at steering the machine. It obeyed beautifully. I steered where I willed, in every direction but downward. I circled high above the heads of the horrified people below, who knew better than I how near to death I was. The removal of the ballast prevented the downward dive. The ship was too buoyant to obey. I turned for the rope connecting with the exhaust valve. But there was no rope. It was gone. The ropeless, disconnected valve hung there at the rear of the gas bag forty feet away.

"Above my head was the supply valve, through which the gas is pumped in in filling. I opened it. Then I remembered that gas rises and could no more escape from a hole beneath than an air bubble may escape from a nearly filled bottle.

"I did a curious thing. I stuck my head inside the gas bag. Hydrogen is not poisonous, I remembered, and I might be able to tear a hole higher up within the balloon.

"Then it was that the inspiration came to which undoubtedly I owe my life. You must know that the supply valve of which I spoke is at the end of the tube, about a foot long, fitted exactly in the middle of the bag and just above one's head. I tried to tear the tube from the balloon.

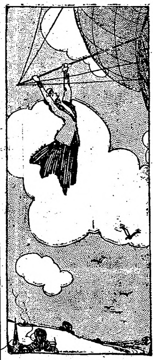
"I could not. The silk was too tough. But I had my teeth and with the determination born of a last hope succeeded in starting a rent. In another instant I had ripped off the supply tube.

"I thought my troubles were over and walked hastily to the end of the cage car in order to tip the balloon so that in the upward rush some gas would escape at the aperture.

"Again I was disappointed. The removal of the ballast had added so much to the buoyancy of the balloon that my weight at the far end of the car did not disturb the Messenger from its level by so much as half an inch. The gas would not pour out till that bag was tipped from its horizontal line.

"Extending beyond the car, above it and to the length of the protruding end of the bag run two light bamboo poles—frail bamboo poles; beneath them—nothing.

"If I could get out on one of those poles I could divert the angle of the bag safely. But what could I stand upon? Nothing. I hung on the bamboo pole at the deflated end of the balloon, gripping like death. How I ever swung hand over hand back into the car I shall never know.



"I HELD ON TO THE POLE."

"I did it, however, and ran to the other end of the car. I got out on the engine as far as I could.

"Those below who saw me say that the machine came down with a dizzying rush for about 800 feet. Then she righted herself at nearly a level and floated the rest of the way to Mother Earth with half her gas gone.

"My husband and friends, who, breathless, had followed my career through the air, had traveled in conveyances in the direction the airship took and arrived on the spot by the time I swung out of the car and ran from the settling balloon.

"My little daughter Myrtle cried out to her father, 'Papa, I told you mamma would come back.'

"But mamma does not expect to come back if ever again she gets as near to heaven as she was on that bright afternoon."

Notice for Publication.

First Pub. Sept 1st, 1905

Depatment of the Interior. Land Office, at Crookston Minn. August 29th, 1905.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim and that said proof will be made before the Register and Receiver of U. S. Land office at Crookston, Minn. on October [illegible] 1905, viz:

[illegible]

[illegible] for the S. E. ¼ Sec. [illegible] Tp. 152 N. R. 46 W.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:

[illegible] William A. Swanson, John Polion [illegible] of Rhoda Minn. William G. Hunt, of Sunbeam Minn.

[illegible] Register.

Just Help Himself.

He—If I tried to kiss you would you call for help? She—Would you need it?—Smart Set.

Ideas From Nature.

Walking on the outskirts of Bolton one autumn evening, a clever young man became interested in watching the seeds falling from a sycamore tree. He observed that they acquired a rotary motion before reaching the ground; and, inquiring into the cause, he found that the two wings were slightly turned in opposite directions, which caused them to revolve in falling. The idea of making a screw propeller on this principle at once occurred to him.

Galvani, a natural philosopher of Italy, was dissecting a dead frog one day while a pupil was making experiments in electricity by his side. He observed that the muscles of the frog, being exposed, gave signs of motion whenever the nerves came in contact with the scalpel. Galvani discovered the existence of a new principle in this phenomenon and originated the [illegible] known by the [illegible] galvanism.

DEFECTIVE PAGE

CLEMENTINA GONZALES, OF CENTRAL AMERICA, RESTORED TO HEALTH. PE-RU-NA THE REMEDY.

Miss Clementina Gonzales, Hotel Provincia, Guatemala, C. A., in a recent letter from 247 Cleveland Ave., Chicago, Ill., writes:

"I took Peruna for a worn-out condition. I was so run down that I could not sleep at night, had no appetite and felt tired in the morning.

"I tried many tonics, but Peruna was the only thing which helped me in the least. After I had taken but a half bottle I felt much better. I continued its use for three weeks and I was completely restored to health, and was able to take up my studies which I had been forced to drop. There is nothing better than Peruna to build up the system."---Clementina Gonzales.

Address The Peruna Medicine Co., of Columbus, Ohio, for instructive free literature on catarrh.

YARNS, NEW AND OLD.

A Scotch Dominie, after telling his scholars the story of Ananias and Sapphira, asked them: "Why does not God strike everybody dead that tells a lie?" After a long silence one little fellow exclaimed: "Because there wouldna be nobody left."

A newly arrived immigrant who had seen the sign "Shoes repaired while you wait" opened a barber shop and put a card in his window which bore the legend: "A good shave while you wait." And the novelty of his announcement really attracted customers. The wags enjoyed jollying him, and he actually builded better than he knew.

Hume, the historian, found himself one day at a social dinner, next to Lord John Russell. In the course of conversation, his lordship said: "What do you consider the object of legislation?" "The greatest good to the greatest number." was Hume's answer. "And what do you consider the greatest number?" continued Lord John Russell. "Number one, my lord," was the historian's prompt reply.

Why Did She Cry?

"Why, Bessie, your eyes look as if you'd been crying!"

"So I have been, mother."

"Where have you been, dear? To a funeral?"

"No; to a wedding."—Yonkers Statesman.

OUST THE DEMON.

A Tussle with Coffee.

There is something fairly demoniacal in the way coffee sometimes wreaks its fiendish malice on those who use it.

A lady writing from Calif., says:—"My husband and I, both lovers of coffee, suffered for some time from a very annoying form of nervousness, accompanied by most frightful headaches. In my own case there was eventually developed some sort of affection of the nerves leading from the spine to the head.

"I was unable to hold my head up straight, the tension of the nerves drew it to one side, causing me the most intense pain. We got no relief from medicine, and were puzzled as to what caused the trouble, till a friend suggested that possibly the coffee we drank had something to do with it, and advised that we quit it and try Postum Coffee.

"We followed his advice, and from the day that we began to use Postum we both began to improve, and in a very short time both of us were entirely relieved. The nerves became steady once more, the headache ceased, the muscles in the back of my neck relaxed, my head straightened up, and the dreadful pain that had so punished me while I used the old kind of coffee vanished.

"We have never resumed the use of the old coffee, but relish our Postum every day as well as we did the former beverage. And we are delighted to find that we can give it freely to our children, also, something we never dared to do with the old kind of coffee." Name given by Postum Co., Battle Creek, Mich.

Postum Coffee contains absolutely no drugs of any kind, but relieves the coffee drinker from the old drug poison.

There's a reason.

NEWS OF MINNESOTA.

Lower Rates.

Minneapolis.—An announcement of the most vital, widespread and immediate importance to the farming interest of the northwest was made by the Great Northern railroad, the management of which decided to make a sweeping reduction in grain carrying rates.

This reduction of rates ranges from 5 cents per hundred, from the most distant points to a half cent from points nearest the Twin Cities and the head of the lakes. From Williston, distant from the head of the lakes 616 miles, the reduction is 5 cents. On the Granville branch, the Towner branch, the line from Rugby to Sarles, the rates are cut three cents. This covers an immense stretch of country, much of it recently under cultivation, in North Dakota.

From Minot to the head of the lakes, from Grand Forks and Fargo and Hillsboro, on the Hannah line, running north from Larimore, on the Neche line and the St. Vincent line, the reduction is 2 cents per hundred. On the St. John's line, running from Churches Ferry, and the Walhalla line it is 3½ cents, and from Larimore it is 1½ cents. Other roads have met this rate.

State Fair.

Hamline.—The promise for the Minnesota state fair this year is brighter than ever before. Special pains have been taken in all the preparations, which were commenced immediately after the close of the fair of 1904, and the months of careful work over details seem about to be crowned with unusual success. From Monday morning, Sept. 4 till 11 o'clock Saturday night, Sept. 9, the state fair grounds, midway between St. Paul and Minneapolis, will be crowded with exhibits and gay crowds of visitors. This has become the holiday week of the year for thousands of Minnesota people—a custom which is becoming more and more popular each season.

This year's fair is being developed along the lines which have proven so successful in the past; and indications a short time before the fair point to larger and better exhibits in every department.

The fair will be opened on Monday morning Sept. 4 with an address by Senator Dolliver of Iowa. In the afternoon of the same day, Dan Patch fastest harness horse in the world will make a sensational mile on the race track in an effort to lower his pacing record of 1:56. Dan Patch will appear on Monday only.

Rush For State Land.

St. Paul.—Extensive advertising of Minnesota lands, and the fact that the state sells them on forty years' time with a payment of but 15 per cent, are doing wonders toward attracting settlers.

"Inquiries being received for state land literature are tremendous," said S. G. Iverson, state auditor. "Last week alone our office received 875 inquiries for lands to be sold this fall. They came from every part of the United States and many from Canada, Missouri, Indiana and Pennsylvania furnish a large number of the letter writers.

Oats For the Philippines.

Minneapolis.—Bidding against Seattle and San Francisco exporting houses, on a government contract for 6,000,000 pounds of oats—the government specifications being figured in pounds, not bushels — Minneapolis landed a big contract for shipment to to the Philippines. The W. P. Devereux company made the deal. This quantity would make two good trainloads of oats of 65 cars each, or about 130 carloads in all.

No More Slips.

Issuance of "slips" by elevators in place of regular receipts for grain is to become a thing of the past. The state railroad and warehouse commission has issued a circular letter declaring that the law in this regard is to be strictly enforced hereafter. The letter calls attention to the fact that the issuance of anything but the regular receipt for grain is a misdemeanor. The commissioners maintain that the old custom of issuing "slips" has caused an endless amount of litigation.

News Notes.

Stillwater—A windstorm broke up several log rafts in the St. Croix and a million feet of timber came down upon the bridge.

Owatonna—The city council has voted to call a special election on Sept. 26, at which time the question as to whether the city will issue $16,000 bonds for a new city hall will come up.

Minneapolis—Richfield is to have a new school house. School district No. 6, by a vote of 91 to 49, decided to issue bonds to the amount of $5,000 for a new school building.

Minneapolis—Lightning struck the chimney of Mrs. Walter Lang's residence at Red Rock, and Mrs. Lang and her small son and Mr. and Mrs. A. E. Hull were knocked from their seats.

Winona—The annual retreat of the Catholic clergy of the Winona diocese opened in the young ladies' seminary with almost every priest in the diocese in attendance.

La Crescent—One of John Welch's cream separators blew up. Edward Selks and Benjamin Lipps sustained serious injuries about the arms and body, while others escaped as though by a miracle.

St. Paul.—Miss Marie Obermauer has interested Governor John A. Johnson and Labor Commissioner W. H. Williams in a plan to supply domestic servants for limited periods.

DICTATES OF FASHION.

Some Notes on Dame's Decrees That Are Followed at Tail-End of the Season.

A coffee colored pongee is a useful thing to buy for an outing. It is made with full skirt laid in three or four deep tucks around the foot. There are embroidered dots in navy blue and there is a deal of English eyelet work. Big holes are profusely embroidered in blue wash silk. A deep blue silk petticoat is worn underneath the dress, letting the color show through. The waist is a mass of tucking and navy blue embroidery.

Chiffon hats are scarce and apparently nobody seems to care, but chiffon and maline are used with charming effect when combined with straw and lace. Plateaux are among the most favored styles, as they admit of so many artistic curves and angles. Some are built on frames, others where the placque effect is desired on a bandeau. Horsehair, crin, chip, milan, lace braids, besides muslin and linen are among the materials employed for the plateau hat.

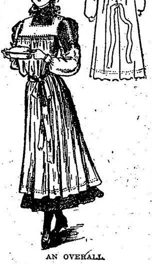
A smart little frock seen lately was a sort of old rose taffeta. The skirt just escaped the ground and was gathered just once at the waist line, most of the gathers being at the back and only a few at the front. Six inches above the deep hem of the skirt was a three-inch, flat puff of the silk, bordered on each edge with an inch-wide double plaiting of the silk, and eight inches above this was another similar puffing. The top looked like a bolero with sleeves; it was really one of the shaped capes, so cut that the side sections fall in deep points over the arms and in at each side.

One of the newest devices in the way of lingerie ought to be widely adopted. This is none other than a silk flounce, India or taffeta, to button on a white petticoat at the knee. In the shops a few of these, with triple pinked flounces, are to be purchased, but the more satisfactory ones of chiffon taffeta have been made to order. The advantages of the attached ruffle are first of all coolness, and the lightness which comes of dispensing with one petticoat. The economy of the fashion is another strong recommendation. One may have several matching flounces to one petticoat.

TO SAVE THE DRESS.

This Sensible Garment Is Recommended for the Young Girl at Studio or Cooking Class.

Holland or linen should be used for this overall, which will be found very useful for girls taking cookery lessons; or it is suitable for studio wear. It has a deep square yoke, which is in double material. The skirt part, which is full, is honeycombed at the top, and is set between the double edge of yoke. The foot is turned up with a hem two inches wide, and is machine-stitched twice. Into the armholes of the yoke straps are fixed, two long and two short into each. These are stitched at the edge, and have buttons sewn on the ends.



AN OVERALL.

The full sleeves are gathered into straight wristbands, and at the top are cut into four points in which are worked buttonholes to fasten to the buttons on straps. The back is fastened by buttons and buttonholes, and a sash of ribbon or the material is tied round the waist.

Material required: 3 yards 36 inches wide.

The Eyebrows.

Tonic ointment for scant eyebrows: Two ounces of red vaseline, one-eighth ounce of tincture of cantharides, 15 drops of oil of lavender. Mix and apply twice a day until the growth has been sufficiently stimulated. This will not do for the eyelashes. Any oily substance will cause the eyes to become inflamed.

Retard Gray Hair.

Daily scalp massage and a good tonic, such as eau de quinine, will put your hair in better condition and may check gray growth. Brush out the dandruff with a stiff brush, penetrating to the scalp, once a week, but do not use the fine comb unless you are skillful with it.

Some Girls.

Some girls look trimmer in a simple waist ribbon than others look in the latest highfaluting and expensive belts.

Boston Slang.

Emersonia—Henrietta is getting real slangy.

Waldonette—Is that so?

"Yes; we differed about something yesterday, and she actually wished me to make a wager. 'Lucre converses!' she said."—Houston Chronicle.

Who Knows?

British Tourist—I say, what makes you Americans talk with their noses?

American—I say, what makes you Britishers talk with your don't-you-knowses?—Chicago Journal.

Of course we all know what ought to have happened to the ailing small boy whose mother gave him ten cents to go to the drug store to get a dose of castor oil and who spent it for an ice cream soda.—Boston Globe.

Lesson for Women.

Jersey Shore Pa., Aug. 28th (Special)—"Dodd's Kidney Pills have done worlds of good for me." That's what Mrs. C. B. Earnest of this place has to say of the Great American Kidney Remedy.

"I was laid up sick," Mrs. Earnest continues, "and had not been out of bed for five weeks. Then I began to use Dodd's Kidney Pills and now I am so I can work and go to town without suffering any. I would not be without Dodd's Kidney Pills. I have good reason to praise them everywhere."

Women who suffer should learn a lesson from this, and that lesson is "cure the kidneys with Dodd's Kidney Pills and your suffering will cease." Woman's health depends almost entirely on her kidneys. Dodd's Kidney Pills have never yet failed to make healthy kidneys.

Corn is growing so rapidly that it sounds like the farmer's wife's new silk dress.—Minneapolis Journal.

BABY CAME NEAR DYING

From an Awful Skin Humor—Scratched Till Blood Ran — Wasted to a Skeleton—Speedily Cured by Cuticura.

"When three months old my boy broke out with an itching, watery rash all over his body, and he would scratch till the blood ran. We tried nearly everything, but he grew worse, wasting to a skeleton, and we feared he would die. He slept only when in our arms. The first application of Cuticura soothed him so that he slept in his cradle for the first time in many weeks. You don't know how glad I was. One set of the Cuticura Remedies made a complete and permanent cure. (Signed) Mrs. M. C. Maitland, Jasper, Ontario."

WORKING WOMEN

Their Hard Struggle Made Easier—Interesting Statements by a Young Lady in Boston and One in Nashville, Tenn.

Miss Frankie Orser
Miss Pearl Ackers

All women work; some in their homes, some in church, and some in the whirl of society. And in stores, mills and shops tens of thousands are on the never-ceasing treadmill, earning their daily bread.

All are subject to the same physical laws; all suffer alike from the same physical disturbance, and the nature of their duties, in many cases, quickly drifts them into the horrors of all kinds of female complaints, ovarian troubles, ulceration, falling and displacements of the womb, leucorrhœa, or perhaps irregularity or suppression of "monthly periods," causing backache, nervousness, irritability and lassitude.

Women who stand on their feet all day are more susceptible to these troubles than others.

They especially require an invigorating, sustaining medicine which will strengthen the female organism and enable them to bear easily the fatigues of the day, to sleep well at night, and to rise refreshed and cheerful.

How distressing to see a woman struggling to earn a livelihood or perform her household duties when her back and head are aching, she is so tired she can hardly drag about or stand up, and every movement causes pain, the origin of which is due to some derangement of the female organism.

Miss F. Orser of 14 Warrenton Street, Boston, tells women how to avoid such suffering; she writes:

Dear Mrs. Pinkham:—

"I suffered misery for several years with irregular menstruation. My back ached; I had bearing down pains, and frequent headaches; I could not sleep and could hardly drag around. I consulted two physicians without relief, and as a last resort, I tried Lydia E. Pinkham's Vegetable Compound, and to my surprise, every ache and pain left me. I gained ten pounds and am in perfect health."

Miss Pearl Ackers of 327 North Summer Street, Nashville, Tenn. writes:

Dear Mrs. Pinkham:—

"I suffered with painful periods, severe backache, bearing-down pains, pains across the abdomen; was very nervous and irritable, and my trouble grew worse every month.

"My physician failed to help me and I decided to try Lydia E. Pinkham's Vegetable Compound. I soon found it was doing me good. All my pains and aches disappeared, and I no longer fear my monthly periods."

Lydia E. Pinkham's Vegetable Compound is the unfailing cure for all these troubles. It strengthens the proper muscles, and displacement with all its horrors will no more crush you.

Backache, dizziness, fainting, bearing down pains, disordered stomach, moodiness, dislike of friends and society —all symptoms of the one cause—will be quickly dispelled, and it will make you strong and well.

You can tell the story of your sufferings to a woman, and receive helpful advice free of cost. Address Mrs. Pinkham, Lynn, Mass.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

Considerable.

THE NEWS OF A WEEK CONDENSED

SUMMARY OF MOST IMPORTANT EVENTS AT HOME AND ABROAD.

THE WAR IN THE FAR EAST

Progress of Peace Negotiations Between Russia and Japan—Foreign and Domestic Items of Interest Told in Brief.

The Peace Terms.

Peace has been concluded by the plenipotentiaries at Portsmouth, N. H., under the following terms:

Recognizing Japan's preponderating influence in Korea, but Japan to observe its territorial integrity and preserve the "open door" policy.

Mutual obligations to evacuate Manchuria, to restore Chinese sovereignty, and for the "open door" principle.

Russia surrenders to Japan its Liaotung leases, including Port Arthur and Dalny.

Railway from Quanchontze to Port Arthur and Newchwang to be surrendere to China, with limitation of the privileges obtained in 1896 by Mr. Rothstein and Prince Uhktomsky.

Agreement to divide Sakhalin, the surrender of which island Japan at first demanded.

Japan to have fishing rights on the Siberian coast.

The following demands were withdrawn by Japan:

For remuneration of Japan for cost of war (indemnity).

For surrender to Japan of interned warships.

For limiting Russia's naval power in the east.

The emperors of Russia and Japan have agreed to an armistice.

YELLOW FEVER SITUATION.

The New Orleans yellow fever record to date is: Deaths, 271; total cases, 1,878.

Yellow fever is reported to be sweeping the sugar plantations of Louisiana, where hundreds of Italians are quartered, over 60 cases being found.

The surgeon general of the army received a telegram stating that the mayor of Pensacola, Fla., has officially announced that yellow fever has broken out in Pensacola.

Investigation of the bayous and lakes of Jefferson parish, 25 miles from New Orleans disclosed 35 cases of yellow fever.

Two doctors have been sent to fight the yellow fever in an infected strip 40 miles long in Barataria Bayou, La.

MISCELLANEOUS.

President Roosevelt is highly gratified over the successful ending of the peace conference, and has received congratulatory messages from all over the world.

Emperor Nicholas sent a cordial message of congratulation to the president on his triumph as a peacemaker.

The czar failed to thank M. Witte or to make any acknowledgement of his services in the peace conference. The success of the envoy arouses the fear of the court clique that is opposed to him that he may become too powerful.

The Russian press talks of a new war with Japan as soon as the losses in the last conflict are recouped. Criticism of Roosevelt also is expressed.

The acceptance of peace terms breeds intense anti-government agitation in Tokio.

The war party in St. Petersburg, in which the enemies of Witte are active, endangers peace by urging the czar to reject the terms agreed upon by the envoys in the Portsmouth conference and continue the war.

Beals C. Wright, of Boston, defeated Holcombe Ward, of Orange, N. J., holder of the national lawn tennis singles championship, in three straight sets, the score being 6-1, 6-2, 11-9.

All records of prices of New York stock exchange seats were broken by the sale of a seat for $83,000, which, with the initiation fee, makes the price $84,000.

The Southern Lumber Manufacturers' association has announced a general advance of one dollar per thousand feet on pine.

The spread of cholera from two localities on the river Weichel to 29 cases in 12 localities extending from the Baltic to the river Warthe, 150 miles south, and its appearance in Hamburg, has given an unpleasant thrill to the people of Germany.

Aeronaut Baldwin, of Losantiville, Ind., was blown to shreds with his balloon at a height of 2,000 feet. He was giving an exhibition at Greenville, O., of the use of dynamite from a balloon for war purposes.

Gus Bobbs, who is alleged to have stolen $10,000 in cash and checks from Charles A. Stevens & Bros., of Chicago, on August 17, was arrested in Seattle, Wash.

Several fatal cases of cholera are reported in Prussia and the disease threatens to become epidemic

Fire in the planing mills of the White Pine Lumber company at Priest river, Idaho, destroyed the entire plant with 8,000,000 feet of lumber, together with about 25 residences. Loss, $275,000.

James McMenamin, the first chief of the Kansas City fire department, is dead, aged 76 years.

The new 16,000-ton battleship Vermont, built for the United States government by the Fore River Shipbuilding company, was successfully launched at Quincy, Mass.

Brig. Gen. William H. Carter was relieved from the command of the department of the Visayas in the Philippines and assigned as head of the department of the lakes at Chicago in an order issued recently.

Members of the advisory board of Panama canal engineers will receive $5,000 compensation and $15 a day for expenses.

The Illinois congressmen in favor of a deep waterway from Chicago to the Gulf of Mexico will urge a liberal appropriation for the project.

The University of Chicago may confer an honorary degree on Sergius Witte, the Russian peace ambassador.

The Nebraska supreme court issued an alternative writ commanding that the reserves of fraternal organizations be spread on the tax books.

The city of Chicago will receive on real estate alone more than $700,000 increase in taxes over last year.

Francisco Tamagno, the famous tenor, died at Varese, Italy, leaving a fortune of $1,500,000.

The Depew Improvement company took up its mortgage given the Equitable Life Assurance society, paying $293,850.82, principal and interest.

Chicago bank clearings for August broke all records for this period of the year, the increase over some month a year ago being $93,869,390.

Mrs. Elizabeth Hunt, of Brooklyn, celebrated her one hundred and fifth birthday by making a journey to Meriden, Conn.

A great strike of both anthracite and bituminous coal miners next spring is feared. John Mitchell is said to count on joint action by the men and an entire stoppage of the coal supplies.

Investigation reveals 20,000 names of dead on the Philadelphia gang's election rolls.

A series of earthquake shocks, the most severe ever experienced in that section, were felt at Portsmouth, N. H. Buildings trembled perceptibly, dishes were shaken from shelves, and in many cases people rushed in terror from their houses into the street.

Edward R. Ladew, one of the most prominent leather manufacturers in the United States, died at his home at Glencove, N. Y., aged 50 years.

It is officially reported that 20 cholera cases and six deaths have occurred in West Prussia, near the Weichsel river.

The ancient crater in the Island of Stromboli is in full eruption, and is ejecting a heavy mass of lava. Dense smoke hangs over the island. Panic prevails in the villages around the volcano, and the villagers are leaving.

Mount Vesuvius is in full eruption and is throwing out an enormous mass of lava.

The rear coach of a South Carolina & Georgia railroad train turned over at Reynolds street crossing in Augusta, Ga. Two men were killed.

Mrs. Emma Lyons was killed and Sigmund Glessler was fatally injured by falling from a bridge to the rocks at the bottom of St. Mary's river at Fort Wayne, Ind. It is believed they were leaning against a rotten rail which broke.

The Commercial associaton of Chicago is preparing for a grand municipal convention in that city next year, which will be attended by thousands of city officials throughout the country.

A New York syndicate will buld a 40-story hotel, which will be the highest in the world and most magnificent.

The Interstate Commercial Law association plans to hold a convention in Chicago in October to discuss new legislation for the regulation of railroad rates.

Morocco has yielded to the demand of France for the release of a French-Algerian merchant held as a prisoner when the ultimatum was delivered from Paris.

Lack of patronage forced New York's famous "sanctified saloon," the Subway Tavern, dedicated by Bishop Potter, to close its doors.

Bishop Arnett, of the African Methodist Episcopal church, has resigned.

Paul Morton has cut off the pension of $25,000 paid to Mrs. Henry B. Hyde, widow of the founder of the Equitable.

Burglars stole a 400-pound safe containing jewels worth $20,000 from a summer home in Connecticut without arousing any of the 13 occupants of the house or the three watch dogs.

President Roosevelt is receiving thousands of letters from all portions of the country asking him to intervene for the protection of Niagara falls.

The interstate commerce commission has begun an investigation of the equipment of freight trains, with a view of demanding increased use of air brakes.

An earthquake in Italy caused a panic. Two persons were killed and 100 injured.

The total eclipse of the sun was the object of observation by many astronomers and laymen.

Delegates from ten states to the special meeting of the supreme council, Royal Arcanum, at Put-in-Bay, O., threaten to disrupt the lodge unless the recent advance in assessment rates is repealed.

Japan will get $75,000,000 from Russia through China in payment for the Chinese and Eastern railroad.

Secretary of the Navy Bonaparte ordered the court-martial of Commander Lucien Young and Ensign Charles T. Wade because of the explosion on the Bennington.

Murdered for their money and cremated in the building where they lived, to hide the evidence of the crime, was the fate of Phillip H. Ross and his wife, a young couple who have been living near Kerrystown, Wash.

A runaway electric car left the rails at the foot of a steep grade at Los Angeles, Cal., turning completely over and crashed into the stone curbing. One passenger was killed and eleven injured.

Fire which broke out in the hardware store of Finkler & Harrison, at Princeville, Ill., totally destroyed six business houses and caused a property loss of $50,000.

As the result of a conference between the president and J. P. Morgan at Oyster Bay the Chinese Development company held a meeting in New York and ratified the sale of the Hankow railroad back to China.

The new Hamburg-American line steamer Kaiserin Auguste Victoria, was launched at Stettin, Prussia the German empress breaking a bottle of champagne on her bow.

The comptroller of the currency has issued a call for the condition of national banks at the close of business August 25, 1905.

Chicago business and financial circles were shocked by the death of Samuel A. McLean Jr., president of the National Packing company, one of the youngest, best known and most popular men connected with the packing industry in the United States.

A bomb was exploded in the French boulevard at Odessa. Two revolutionaries were injured and were taken to the military hospital, where they died.

The Chinese boycott against American goods is declared to have been decreasing since early part of the month, when it reached its greatest strength. Chinese merchants are fined for violating the boycott and are made to sign an agreement to cease buying American goods.

Coal operators in the anthracite region declare they will resist the demands of the miners' union, which, if granted, would mean an increase in the price.

Mrs. George J. Gould, who was hurt during a fight with peasants while on an automobile tour in Europe, returned to New York so badly injured that she is unable to walk.

A horse belonging to Wallace Jamieson, dropped dead in the road at Bellefontaine, O., from fright at the sight of the first automobile it had ever seen.

The American steamship Peconic encountered a fierce gale off the coast of Florida. Twenty of the crew of 22 were drowned.

C. J. Jordan, a telephone lineman, was killed by a live wire at St. Joseph, Mo. He was working on top of a pole at the time. His wife lives in St. Louis and his parents in New York.

Brig. Gen. Carter reports that the Vasayas islands are still in a condition of revolution.

San Diego, Cal., is expected to become the greatest seaport on the Pacific when the isthmian canal is completed.

The statehood constitutional committee at Muskogee, Ind. T., agreed on the name of Sequovah for the name of the commonwealth. It was also decided to make prohibition a part of the organic law, and to issue bonds for $25,000,000.

Abraham Lincoln's birthplace, a 110-acre farm, was sold at auction at Hodgenville, Ky., to R. J. Collier, of New York, who probably bought as an investment. The price paid for it, $3,600, is not more than it would bring for farming purposes.

Rufus H. Pitcher, supposed to be one of the last surviving veterans of the Black Hawk war, is dead at the home of his son in Custer, S. D. He would have been 101 years old on September 15.

W. F. Franks, a druggist at Sidnaw, Mich., was hit by a foul tip at a ball game. His skull was fractured and death followed in a few hours.

The national gallery at Berlin, Germany, has bought Mensel's "Court Ball Supper" of Emil Meiner, of Dresden, for $40,000.

Releasing his grasp on a trapese attached to a parachute as the latter opened to the wind 1,200 feet above the ground, John Williams, 38 years old, was dashed to his death at Red House park, near Cahokia, Ill.

Two men were fatally and three seriously burned by the bursting of a ten-inch steam pipe at the Danville (Ill.) electric light plant.

Jesse T. Wilson, of Indiana, has been appointed by President Roosevelt to be second assistant secretary of the interior.

The Massachusetts socialist party state convention nominated former Representative James F. Carey, of Haverhill, for governor.

William Barbour shot and instantly killed Etta Denney after a quarrel over a love affair at Huntington, W. Va. He then shot and killed himself.

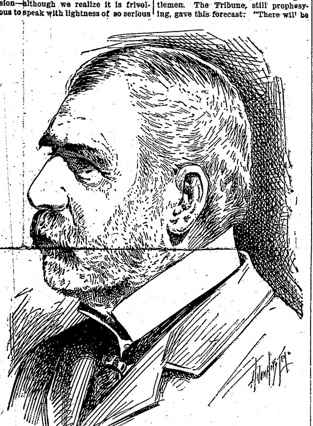
RECIPROCITY AIRED

IMPRESSIONS AT NATIONAL CONFERENCE AT CHICAGO.

A PORTENTOUS GATHERING

Not Greatly Heralded, But Largely Attended by Delegates from New England to Texas—Some Local Assertions.

Chicago.—The past week was marked by the presence of an unusual number of strangers in the town; delegates come with "reciprocity ax to knock down the high tariff wall." Of the 600 delegates gathered from the four quarters of the country, it is needless to say all did not bear the same kind of ax, there was not perfect unanimity as to the manner of wielding the weapon. But concerning the pros and cons of reciprocity, of dual tariff, a centralized power of attack or a loose, large body, word was flashed across the country days ago, "stand-patter" and ardent reciprocity man know what arguments were employed, what forensic utterances made. Let us deal more or less in the gossip of the occasion—although we realize it is frivolous to speak with lightness of so serious a matter as a national meeting for the consideration of reciprocity of trade.



CHAIRMAN STEPHEN B. PACKARD.

It seemed to us before the delegates arrived the town was as a whole ignorant of the portentiousness of the conference; the papers had not advertised the coming assemblage to the usual extent, there was not that flutter of excitement attendant on western hospitality. But when the delegates arrived, 600 strong, the citizens began to realize something was doing over there at the Illinois theater, on Jackson boulevard.

Groups of men stood on the pavement outside, in busy, eager talk, within crowds of other busy, eager men debated the old question, some with warmth, some with convincing coolness

The Chicago papers handled localisms gleefully; we were treated the two days of the conference to newspaper men's pen pictures and barbs of wit. The day after the opening the Record-Herald thus spoke of the national character of the gathering: "New England joined hands with Texas yesterday, and all sections of the country met on common ground under the name of the National Reciprocity conference, to inaugurate a new era in American trade. . . . Texas, in the picturesque phaseology of the wild west—full of meaning as well as in the classic precincts of Boston—sounded the keynote in characteristic metaphor—'the standpatters are standing pat on a bob-tail, and this convention is here to call the hand.' The gentleman that gave utterance to the picturesque words was S. H. Cowan, counsel for the Cattle Growers' association of the Lone Star state.

Speaking of the diversity of interests represented, the paper went on to say: "The eastern manufacturing interests and trade organizations that are in close touch with international commerce, the representatives of the section where cotton is king, the cattle men from the ranges of the southwest, sheep breeders from Idaho and the western steppes, miscellaneous stockmen from the Mississippi valley, with its diversified industries embracing everything in agriculture and the mechanic arts—all these breathed the common sentiment that tariff revision must and shall be had."

Perfect accord, as we mentioned, of course, did not obtain. The Chronicle gives an illustration in point: "The difficulties that lie in the path of the reciprocity men were shown at the conference in this city the other day when a free hide man from Massachusetts stepped on the toes of a live stock man from Nebraska. Of course, the free hide man wanted reciprocity with everybody who had hides to sell so that he and the interests for which he spoke could get the raw materials for boots and shoes at lowest prices. Equally of course the live stock man wanted reciprocity with Germany and all other countries which maintain high tariff against our meats, but he objected seriously to permitting outsiders to bring their hides to this country and sell them untaxed in competition with his own."

The Tribune, prophesying, said: "Stock raisers, millers, exporters, users of raw material and manufacturers, with the last in the minority, today start a programme of 'raising cain with the tariff.'"

Politicians were not numerous, it was distinctly not a meeting of these gentlemen. The Tribune, still prophesying, gave this forecast: "There will be present some politicians, but they will be scarcer than the manufacturers. The conference presents a troublesome question to the republican leaders of the west. Some have dodged it. Others have found it 'impossible to be present.' Still others will come and listen. A few propose to talk.'"

Stephen B. Packard of Iowa, who was made permanent chairman of the conference, made declaration: "I am a farmer and represent the farmer." He spoke of the fact that the farmer, unorganized, has not been represented; and humorously referred to an added tariff war in these words: "This business of heroism in sacrificing one's wife's relations does not please him (the farmer) highly when he considers himself the relation."

Gov. Cummings was a very prominent figure at the conference, was one of the few men able to put through changes after E. N. Foss, of Boston, chairman of the resolutions committee, had reported the resolutions to the conference. Edward Rosewater, the Omaha editor, who with Gov. Cummings spoke prior to discussion over the resolutions, said flatly that he did not believe in the dual tariff remedy, was whole-heartedly for reciprocity; Gov. Cummings, whilst asserting the conference should take no steps interfering with the reciprocity idea, announced he was willing to stand for the dual tariff as an expedient which would procure immediate results. When the first proposition of the resolutions was presented, the governor succeeded in having the wording changed to commit the conference at least partly to the view that "dual tariff is an expedient and reciprocity cure."

Senator Cullom was one of the politicians that accepted invitation to speak before this, to the politicians, rather doubtful assemblage. Mayor Dunne and the governor of Illinois were present as a matter of courtesy, and as a matter of policy, probably, spoke only words of welcome and in broad generalizations.

JOHN MATHEN

A HITCH IN THE PEACE COUNCIL

NOW SEEMS POSSIBLE UPON A HINT THAT JAPAN HAS REBELLED.

Two Cable Routes to Mikado's Empire Mysteriously Cut. Misunderstanding at St. Petersburg Regarding Military Strength.

Portsmouth, N. H., Sept. 2.—The only possible hitch on the horizon of the peace conference, according to reports current here, which, however, are not officially confirmed, arises out of an evident misunderstanding over the question of the neutralization of the island of Sakhalin.

According to the Japanese, the understanding reached on Tuesday, contemplated a mutual obligation on the part of the two countries not to fortify their respective possessions on the island.

At St. Petersburg, however, there seems to have been an assumption that the agreement involved freedom of action upon the part of Russia in this respect in the northern Sakhalin, which an obligation on the part of the Japanese not to fortify or use for strategic purposes, the portion owned by her before 1876, which is to be retroceded in the present treaty.

It is expected on both sides, however, that the hitch, if it realy exists, as reported, will shortly be straightened out and it is believed that one of the subjects of last night's conference related to this point.

Cable communication between Baron Komura and his government was interrupted for the greater part of the day, but a message is said to have been received late last night.

Baron Komura and Mr. Takahira were in conference for a long time last night. It is understood to be the present intention of the Tokio government not to make public the conditions of peace until the ratification of the treaty has been exchanged.

The official explanation is that this is the "regular diplomatic method of proceedure," but among the Japanese correspondents considerable suspicion has been aroused by the fact that until now their cablegrams giving terms of peace have not passed the censor.

They do not hesitate to say the government is anxious about the effect of public opinion when it becomes known that Japan has waived her demand for indemnity.

BUNCOED.

A Sauk Rapids Farmer is Beaten Out of $2,500 by an Old, Old Game.

St. Cloud, Minn., Aug. 31.—A smooth swindler, masquarading as C. M. Sprague, president of the First National bank of Sauk Center, has defrauded Edward Clifton of Sauk Rapids, a retired farmer, out of $2,500, through the old tin-box scheme.

First approaching Clifton on the question of buying one of his farms, the stranger later unfolded a plan to make both wealthy. Part of the agreement was that Clifton was to deposit $2,500 in a tin box along with the stranger's $15,000, and was to have possession of the box for a stated period. The stranger kept the key, which appeared fair enough under the circumstances.

Some of Clifford's friends heard of the transaction and induced him to open the box, which was found to contain a stone and a note telling the dupe that he should not have been so easy.

Drowned.

Red Wing, Minn., Sept. 2.—In view of several hundred persons who were unable to help him, and with but a single desparing cry for aid, George W. Hauenstein, an old resident and prominent jeweler of Red Wing, was drowned in the Mississippi river. The tragic death of Mr. Hauenstein brought to a sudded end a program of launch races which had attracted to the scene a large crowd of people.

Coal Strike Feared.

Indianapolis, Sept. 2.—The closing of every coal mine in the country—bituminous as well as anthracite—and a stoppage of the coal supply next spring, now is declared more than probable.

Both sides seem preparing for the fray, and all signs point to a desperate struggle besides which the great anthracite strike will pale into insignificance.

Will Agree.

Copenhagen, Sept. 2.—It is expected that the negotiations between Norway and Sweden will soon result in a full agreement on the subject of the dissolution of the union.

Well-informed persons presume that Sweden will give up her claim for the razing of the fortresses on the Norwegian frontier, being satisfied if the forts are not armed.

DEFECTIVE PAGE

THE SUNBEAM.

BY W. G. HUNT.

Published every Friday, at Sunbeam, Red Lake County Minnesota.

Subscription price $1.00 per year in advance. If not paid in advance $1.50

There are some of the Japanees soldiers that are so sorry peace came between Russia and Japan, before they got a chance to get killed, that they will commit suiside. A nation possessing that kind of soldiers is hard nation to war against.

There will undoubtedly be a railroad built from Thief River Falls to Duluth next year, as the Duluth South Shore & Atlantic railway company have secured a big loan for that purpose and we may expect to see the dirt begin to move on the new line as soon as spring opens.

The editorial game laws are stated in a newspaper exchange to be as follows: Book agents may be killed from Oct. 1 to Sept. 1: spring poets from March 1 to June 1: scandel mongers from April 1 to Feb. 1: umbrella borrowers from Aug. 1 to Nov 1: also from Feb 1 to May 1. In addition every man who accepts a paper for two years and on being presented with a bill says, "I never ordered it", may be killed on the spot without reserve or relief.

If all years were as wet as this one, there is no use to deny the fact that a large number of the settlers who bought land on the Red Lake River paid $4,00, and upwards per acre for water instead of land. River bottom land is liable to overflow at times but it goes away again soon and the land can be used, but this river has stayed over the bottom land all summer and made it absolutely worthless, either for pasture or meadow lands. A large number of the farmers are of the opinion, that if that six mile lo[illegible] on this side of Thief River Falls was shortened up for about five miles it would allow the water to get out and the river would go down.

Jewish Sabbath and the Romans.

The disdain of the Romans for the Jewish Sabbath because it was not accompanied by any tumult or noisy and joyful demonstrations perpetuated itself throughout all ages. Rutelius, who was the prefect of Rome under Honorium, says in speaking of the Jews: "They are very much attached to the old Sabbath, but their heart is colder than their religion. The seventh day of every week is consecrated to a shameful idleness, in memory of the rest to which their God gave himself up after he was harassed by fatigue." Juvenal does not love the Sabbath, which, according to him, is also a sad feast, for he relates that the kings of Palestine celebrate that day barefooted. Juvenal meant perhaps to designate here by "festa Sabbata" the day of Atonement and the fast of the ninth of Ab—anniversary of the destruction of the temple at Jerusalem. During these two days the Jews remained in fact barefooted.

Juvenal has no great affection for the Jews. He has an aversion for those who observe the Sabbath, that live isolated and who do not mingle with the Romans. He dislikes them because they have a peculiar religion and special laws, and he reproaches them for despising the Roman laws.—Menora.

The Gallows Plant.

During the middle ages the botanists, or old "herbalists," gave currency to many curious stories concerning the growth, form, etc., of mandrake or May apple, which finally resulted in its being given the name of "gallows plant." The pseudo scientists of that time declared that mandrake would grow in no other place except upon which some terrible crime had been committed. The roots were formerly supposed to bear a strong resemblance to the human form.

Mind Reading.

"Perhaps smoking is offensive to you, Miss Smith?"

"On the contrary, I like the smell of a good cigar."

Without a moment's hesitation he threw away the weed he was smoking. Something in her manner rather than her words led him to suspect that she was a judge of cigars.—Chicago Tribune.

Hindoo Nose Key.

"It is considered an insult and extremely indelicate in India to refer to a woman's nose ring, but so many ask me, 'What is that flower they hold in their mouth?' that I must tell what I shouldn't," says Edmund Russell. "It is the badge of wifehood, even more sacred than our wedding ring—set always with the costliest and most beautiful jewels a woman possesses and the last she will part with. A ruby with two pearls is the favorite, as symbolizing a heart between two guardians of purity. This is somewhat going out of fashion under English influence. The Somaji ladies and Zoroastrian sisters do not wear them, but every orthodox Hindoo woman has her pak chabi, or 'nose key,' as it is also called, usually two, one of precious jewels and costly pearls; the other a little plain gold safety pin, which is slipped in just as the great circle is being drawn out, for the nose must never for a moment be left free."—Jewel Crafts of India.

Cold Blooded Man.

"Man is the coldest-blooded animal there is," said a well known doctor. "Man's low temperature," the doctor went on, "is responsible for more than half his ailments. Your normal temperature is 98½ degrees F. It is only when you have a bad temperature that you get as warm as any of the lower animals—that is so say, when you are in a high fever, with a temperature of 102, you are at the normal heat of the cat, the dog, the ox, the rat, and so on. In the coolest of seas the porpoise is never cooler than 100 degrees. The bat, the rabbit, the guinea pig, the hare and the elephant likewise are all cool at 100 degrees. The hen has the highest temperature of all the lower creatures, and it is a good deal warmer, too, when a chicken. Its temperature then is as high as 111, but age and experience cool its blood by 3 degrees."—New York Globe.

The Old Japanese Mail.

In the days before the ports of Japan were opened to foreigners, before telegraphs, railroads and electricity had found their way into the island empire, the infrequent mails were carried by post runners, who wore the merest apology of a loin cloth and blue and white rags around their heads. They wore for the most part an elaborate suit of tattoo, with a red star on each shoulder, the mark of their calling. The letters were incased in a waterproof package and secured to the end of a bamboo pole. With this over his shoulder and a pair of fragile sandals on his feet the runner started on his long journey, making from 75 to 100 miles per day. The distance they covered seems incredible, but the men were trained to speed and had remarkable endurance.

Hill of the Poison Plant.

[illegible] mountain of Sandook-Phu, which means in the Tibetan language "the hill of the poison plant," or aconite. This plant is so abundant and so deadly in its effects that all sheep and cattle passing over the mountain are muzzled by their drivers. An English traveler saw at its foot great heaps of discarded bamboo muzzles. Curiously enough, only those cattle that are newly imported from the plains are fatally affected. The natives believe that the sheep of the district learn to shun the youngest leaves, which are the most virulent. A more likely explanation is that they grow habituated to the drug by taking it in small quantities.

Royal Night Bodyguards.

For more than 400 years a body of men known as the Monteros de Espinosa have enjoyed the exclusive privilege of watching over the slumbers of the kings and queens of Spain. They are bound by tradition to be natives of Espinosa and to have served with distinction in the army. One of these is on guard at the door of the bedroom of each royal personage in the palace, and the others, armed with huge halberds and wearing felt soled shoes, tread silently all through the night along the corridors and halls. Their service begins at midnight and ceases at 7 in the morning.

Crass Ignorance.

An east side kindergartner was about to give her class a lesson, with "The Kitten" as the subject. She began by saying: "Our lesson this morning will be all about the kitten. Now, can any little boy or girl tell me which grows on the kitten, fur or feathers?"

A dead silence followed for a minute, when one little boy said in a loud voice: "G-o-o-d gracious! Hain't you never seen a kitten?"—Life.

An Exception.

A New York banker tells the story of two Irishmen who discussed the "nationality of the American states." Said Pat, "Faith an' be jabbers if this grate counthry ain't overrun wid th' Irish, an' yit out of all th' states in th' Union not wan has an Irish name." "Sure an' yer wrong," replied Mike. "What's the matter wid O'Regon?"

Ancestors.

"My ancestors," said the man whose name happened to be Endicott, "came over in the Mayflower."

"And mine," observed the man whose name was Adams, "were the original occupants of the garden of Eden."—Chicago Tribune.

Enthusiasm.

Nothing is so contagious as enthusiasm. It is the real allegory of the tale of Orpheus; it moves stones; it charms brutes. Enthusiasm is the genius of sincerity, and truth accomplishes no victories without it.—Bulwer.

To make knowledge valuable you must have the cheerfulness of wisdom.—Emerson.

BOATING ON THE NILE.

The Best Pilots Run Aground Two or Three Times a Day.

Navigation on the Nile is not so complicated a matter as upon the north Atlantic, writes Alonzo Clarke Robinson in Outing. To run at full speed upon a sand bar is an occurrence of such frequency as hardly to elicit a comment from the passengers. The crew take more interest because they are obliged to push the boat off again with poles, and this entails a great amount of shouting and some work. The Nile below the first cataract is a fairly broad, muddy river, flowing between deposed banks varying from six to eight to twenty to thirty feet in height. Its surface is interrupted everywhere by sand spits and islands upon which are to be seen thousands of birds. The channel, if such it can be called, winds from one side to the other and changes completely with every flood; hence even the best pilots run aground two or three times a day. It is, of course, impossible to proceed at night, and each day's voyage comes to an end wherever darkness happens to overtake one. The boat's nose is simply run plump on the bank, two men leap out and drive stakes to which to make fast, and there you are for the night. A very simple and effective method, without any ostentation and requiring very little knowledge of mathematics; it has also the advantage of variety. Sometimes one finds oneself alone beneath the wonderful Egyptian moon lighting up the river, the distant cliffs and the silent, empty plain, or perhaps one stops near some little native village, in which case the bank is lined with silent, curious figures, who crouch for hours wrapped in their white cloth coverings. Once we tied up beside a lonely brick kiln. The sight was a weird one. The red flare of the furnace, fed with sugar cane, cast intermittent flashes of light into the night, in and out of which moved black half naked natives, while overhead was the cloudless, star lit sky of Egypt.

OUR INAUGURAL OATH.

It Is the Shortest and Simplest Taken by Any Ruler.

The oath of office taken by the incoming president of the United States is the shortest and the simplest required of any ruler on earth. It is prescribed by the constitution and is as follows:

"I do solemnly swear (or affirm) that I will faithfully execute the office of president of the United States, and, to the best of my ability, protect, preserve and defend the constitution of the United States."

This oath is slowly repeated by the president elect after the chief justice of the supreme court, in the presence of the public upon a platform erected in front of the main door on the eastern side of the capitol. While the oath is being repeated the president elect and the chief justice face each other and hold with their right hands between them a Bible furnished by some person interested or especially procured for the occasion, which becomes the property of the president after it has been appropriately inscribed and sealed by the chief clerk of the supreme court.

At the close of the oath the president elect bows his head and kisses the open page of the book, and it has been customary for him or for his wife or a friend to select some appropriate passage at which the book shall be opened and the verse upon which he shall press his lips. Sometimes, when those interested forget or neglect to choose a passage, the Bible is opened at random, but the clerk of the supreme court is always careful to note and mark the exact place where the lips touched the page.—Chicago Record-Herald.

The Horseshoe Legend.

Here is an explanation of the old horseshoe superstition: St. Dunstan was a skilled farrier. One day while at work in his forge the devil entered in disguise and requested Dunstan to shoe his "single hoof." The saint, although he recognized his malign customer, acceded, but caused him so much pain during the operation that Satan begged him to desist. This St. Dunstan did, but only after he had made the evil one promise that neither he nor any of the lesser evil spirits, his servants, would ever molest the inmates of a house where the horseshoe was displayed.

A Servile House of Lords.

When King Henry VIII.'s name was spoken in his presence in the house of lords every peer prostrated himself with Asiatic servility. An entry in the records of the house gives the substance of a speech delivered by the chancellor on Jan. 16, 1541, in which the king's goodness and wisdom are extolled, and it tells us that whenever his majesty was mentioned, "which happened often," all the lords prostrated themselves, bowing to the ground as one man.

Force of the Future.

Cut off the future, and man is the most timid of creatures. The demons and dragons are too terrible for him to face and attack. But spread before him the illimitable future, and he will dare all things, certain of victory at last. Any night, however filled with weeping, can be endured by one who knows that joy is coming in the morning.

Time Had Passed.

"I always forget how times flies when I'm enjoying myself," said Mr. Staylate. "I hope you won't hesitate to tell me when it's time to go."

"Gracious!" replied Miss Patience. "It's too late now. You should have mentioned that several hours ago."—Philadelphia Public Ledger.

J. K. WOOD

COUNTY SURVEYOR, &

CIVIL ENGINEER.

Will give all orders for Surveying prompt attention.

Office at Thief River Fallss

Minnesota.

DR. J. OHNSTAD,

PHYSICIAN AND SUGEON.

(Successor to Dr. McAchran.)

All calls promptly attended; day or night.

Office in Capenter & Webster Building North.

McIntosh, Minnesota.

STEPHEN SINGER,

NOTARY PUBIC, POLK CO.,

All business promptly attended too: Application for Marriage Licenses; Contest papers Affidavits; etc., drawn.

GULLY, POLK CO., MINNESOTA.

Notice for Publication.

First Pub. Sep. 1st, 1905

Depatment of the Interior, Land Office, at Crookston Minn. August 29th, 1905.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim and that said proof will be made before the Register and Receiver of U. S. Land office at Crookston, Minn., on October 10th, 1905, viz:

George Singer.

H. E. No. 569, Red Lake Series, for the S. E. ¼ Sec. 17 Tp. 152 N. R. 40 W.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:

Edward Singer, William A. Swanson, John Polbrook, of Rhoda Minn. William G. Hunt, of Sunbeam Minn.

R. J. McS[illegible] Register.

A Small Favor.

Young Wife (time, midnight)—Quick! Quick! Wake up! I hear some one downstairs!

Husband (sleepily)—What do they seem to be doing?

Wife—Hark! Hear that? They are in the pantry. I heard my cake box rattle.

Husband (wearily)—Tell them to please not to die in the house.—New York Weekly.

Seasonable Inquiry.

"Allow me, Mr. Bifkins," said the hostess to a late arrival, "to introduce Captain de Jones, a man who has faced death in a score of battles."

"Pleased to meet you, captain," said Bifkins. "By the way, are you a military or football captain?"—Cleveland Plain Dealer.

Not For General Circulation.

"Say, pa, when I'm a man won't I have to obey you nor ma any more?"

"No, but you'll have a boss then who will make you wonder why you ever thought we were hard to deal with. You needn't tell your ma, however, that I told you."—Chicago Record-Herald.

As It Should Be.

He had just proposed, but his poverty was too much of a handicap.

"A man without money," she said, "might as well walk back and sit down."

"Oh, of course," he rejoined. "He naturally wouldn't be in a position to ride back."—Brooklyn Eagle.

Anxious.

"I hear that your wife has run away from you?"

"Yes. I've offered a reward for her capture, dead or alive."

"How much?"

"Ten dollars alive and a thousand dollars dead."—Judge.

In the Hands of Experts.

"Figures don't lie, do they paw?"

"No, my son, but if you will examine the campaign text books you will find that they can tell two entirely different and contradictory kinds of truths."—Chicago Tribune.

Two Views of It.

"He admits that he isn't succeeding in business as rapidly as he had expected."

"Which means that he is failing even more rapidly than his friends expected."—Philadelphia Press.

No Trace.

Patience—They say there are microbes in kisses.

Patrice—Yes, but isn't it a lucky thing that they don't leave any marks?—Yonkers Statesman.

Willing to Oblige.

"I may as well tell you, young man," said Miss Spooner's father, "that I always close up the house and turn out all lights by 10 o'clock."

"Don't bother tonight, sir," replied Jack Nervy. "I'll attend to that for you."—Philadelphia Press.

Matinee Accessories.

George—Did you have a good time? Gertie—Oh, lovely, lovely! George—Was the play good? Gertie—No, but I had on my new hat and had a box of delicious caramels with me.—Cincinnati Commercial Tribune.

LEGAL PAPERS Drawn At This Office, By W. G. Hunt Notary Pnblic.

Forests and National Prosperity.

As a living example of the consequences of deforestation we need simply look to Spain, a country which centuries ago was rich in timber and agricultural products, a proud seafaring nation of world conquerors. Spain's decadence dates from the time when her timber supply became exhausted, her shipbuilding relaxed and her barren, unprotected soil ceased to bear fruit.—Forum.

A Long Way Around.

A man with a large family of daughters on his hands may profit by the following suggestion: An old lady who had several unmarried daughters fed them largely on a fish diet because, as she ingeniously observed, "fish is rich in phosphorus, and phosphorus is useful in making matches."

Her First Dinner.

"Yes," said Newliwed, "my wife and I are housekeeping now. She prepared our first dinner last night with her own fair hands."

"How was it?" asked Bacheller.

"Well, the nuts and raisins were fine."—Philadelphia Ledger.

The Longest Novel.

The "Story of the Eight Dogs" is the longest novel that has ever been published. Fortunately, perhaps, it is written in Japanese, so no one will set himself the task of reading it. It contains 106 volumes, several hundred characters and numerous dogs, all of which are successfully disposed of by the time the last chapter is reached. Just imagine reading through that one book that would last a lifetime!

True Heroism.

The hero fears not that if he withhold the avowal of a just and brave act it will go unwitnessed and unloved. One knows it—himself—and is pledged by it to sweetness of peace and to nobleness of aim, which will prove in the end a better proclamation of it than the relating of the incident.—Emerson.

She Reasoned It Out.

Ethel—Mamma, if a little boy is a lad, why isn't a big boy a ladder? Mamma—For the same reason, I suppose, that, although a little doll is a doll, a big doll is not a dollar. Ethel (reflectively)—That's so. My big doll was $2.—Kansas City Journal.

LOCAL PARAGRAPHS.

Do your Notary Public business at the SUNBEAM office.

The best brands of flour for sale at the High Landing store.

Peter Hunstad, of Kratka, is mowing hay for Alfred Eve this week.

The farmers in the vicinity of Gully are busy thrashing a bumper crop this week.

Salt and smoked meats always on hand, and for sale cheap, at the High Landing store.

Applications to make final proof written free at this office.

With a fiew more fair days the roads between here and McIntosh will be in good passiable condition.

If you like fish and can't catch any out of the river, Ellingson will sell them to you cheap, at the High Landing store.

James O'Brien, Simon and Peter O'Tool left for Crystal N Dak. this week to put in the thrashing season.

We just returned from Crookston this morning after a three days absence, which accounts the small amount of local news this week.

Knut K. Austin and E. T. Emerson, of Kratka went to Crookston Monday to make final proof on their homesteads Tuesday.

Stephen Singer has so far recoverd from the typhoid feaver that he will be able to leave the Fosston Hospital this week, after a six weeks confinment.

Peter and Erick Hedin and C. W. Nelson, of Kratka went to Crookston Wednesday to make final proof on Erick Hadiens homestead in the town of Kratka

George and Edward Singer, W. A. Swanson and ye editor went to Crookston Wednesday to make final proof on Edward Singers and W.A. Swansons homesteads. They went by way of McIntosh, returning home today.

Egyptian Styles of Writing.

The Egyptians had four separate and distinct styles or forms of writing—the hieroglyphic, the hieratic, the enchorial and the Coptic. The hieroglyphic was probably in use as early as the year 4000 B. C. and at first was made up entirely of pictures. About the year 2000 B. C. the hieratic form or style was introduced. In this the picture hieroglyphics were greatly simplified, finally developing into forms purely linear. The enchorial form of writing was in use among the Egyptians from about the year 700 B. C. until about the year 200 A. D. and was still a further simplification of the earlier forms, which finally developed into the alphabetic form known as the Coptic.

The Horse's Failing.

Hans, the ruralist, was in search of a horse.

"I've got the very thing you want," said Bill Lennox, the stableman—"a thoroughgoing road horse, five years old, sound as a quail, $175 cash down, and he goes ten miles without stopping."

Hans threw his hands skyward.

"Not for me," he said, "not for me. I wouldn't gif you 5 cents for him. I live eight miles out in der country, und I'd haf to walk back two miles."—Norman Voice.

Getting Specific.

Bifferly—When you and your wife were first married you used to call each other "birdie," didn't you? McSwat—Yes. Bifferly—Do you still do it? McSwat—Well, I call her a parrot and a magpie, and she usually refers to me as a jay.—Exchange.

The Self Possessed Bride.

One is in the habit nowadays of seeing brides absolutely self possessed, almost jocose, laughing and smiling and nodding to their friends. Mothers and sisters never cry nowadays at parting.—Lady Violet Greville in Graphic.

Oddities.

Because a man cannot hear a dew drop is no sign that he is deaf, nor is it a sign of blindness because he never saw a horse fly, a board walk, a stone fence, a dog's pants, a rope walk or a clam bake.

Her Abilities.

"Do you believe there is anything in mind reading?"

"If there isn't, my wife's an awful good guesser. She never has to wait for me to do any confessing."—Chicago Record-Herald.

The Kiss Feminine.

Brother—Which one of those Penton girls is it that you don't like? Sister—Ssh! Some one might hear [illegible] when the crowd comes up I'll kiss her twice.—Illustrated Bits.

EARN FROM $75 TO $150 PER MONTH.

We want at once, young men for Brakemen and Firemen.

Experience unnecessary.

Positions secured as soon as competent. Instruction by mail.

Cut out cupon and send with stamp for full particulars. Give name, age, and post office address, with No. of R.F.D. route.

Northern Railway Correspondence School.

[illegible] 4th st.
Minneapolis, Minn.

DON'T READ THIS.

Do you want a daily paper? We will send you the Minneapolis daily News, daily, (except sunday) and the SUNBEAM, one year for $1.50,c. The News is one of the best dailys published in the twin cities. Send in your subscription soon, as this offer wont continue long.

APPLICATIONS AT LILLO.

If you live in the town of Equality or Johnson you can make your application to make final proof, at Lillo, and have your notice published in the paper published nearest your land.

LAND OFFICE BUSINESS.

U.S. Commissioner L. G. Browning with office located at Thief River Falls, is prepared to take homestead entries final proof etc. within the Crookston U. S. Land District.

Office in News building, three doors south of the post office.

Contrasted Types.

The outspoken romance of the German is sometimes trying to those of a different habit. The author of the traveling notes called "From a Holiday Journal" describes a young girl whom she met at a German bath, a pretty, doll-like creature, named Marie, who knew how to sit still and do nothing all day long.

Presently it was discovered that Marie had a lover. She disclosed the fact boldly.

"My brautigam is young, handsome, rich," she said proudly, looking up to a tall English girl of seventeen. "And have you not a bridegroom too? Or did you never have one?"

The English girl had never before felt the humiliation caused by the lack of a bridegroom. So she shamefacedly confessed that some one liked her, only this spring, but—

"But you do not love him," interrupted the German girl in loud but very bad English. "Oh, I love my treasure so! I love him so!"

The English girl shuddered and blushed to the roots of her hair. The words had been distinctly spoken and had evidently proved very amusing to a party of English in the vicinity.

"Oh," she implored, "would you mind saying 'like' instead of 'love' next time? We never say 'love' in English. We have no such thing!"

How She Died.

A minor poet who talked of his lady's person being "curiously mix'd" would not be enthusiastically reviewed nowadays. But so startlingly beautiful was the lady in question, one Susanna Perwich, who died of rheumatic fever at Hackney on July 3, 1661, "in the flower of her age," that these lines in praise of her have not only been preserved, but they have even escaped classification with nonsense verse. This explanation is, perhaps, necessary before quoting the inspired account of her death:

Behold, damp sheets
Cling close about her in the bed,
At which she, waking, said, "I'm dead!"
Shall I the careless maid go blame
And tell her what a horrid shame
It is that by her negligence
So choice a one is lost from hence?

—London Chronicle.

Dancing.

It is quite usual after a ball to find that the action of the heart shows traces of fatigue, particularly in delicate young women, who complain of a vague sensation of uneasiness, sadness and even of pain and are, in a word, in a peculiar condition that is not yet disease, nor is it health—much nearer the former than the latter. Diseases caused by dancing are commoner in women than in men. The most frequent are laryngitis, particularly in women who talk a great deal while dancing; colds, bronchitis and sometimes pneumonia and pleurisy. Dancing should be absolutely forbidden in all cases of consumption, which may assume a very rapid form from this cause. It is counter indicated as well in all cases of heart trouble.

No Further Delay.

Abner Slopoak (desperately)—M-may I name the day? Jemima Jones (decisively)—No! Abner Slopoak (in alarm)—Why? Jemima Jones (frankly)—Because, if you put it off as long you did your proposal, we never will be married. I'll name the day myself!—Cleveland Leader.

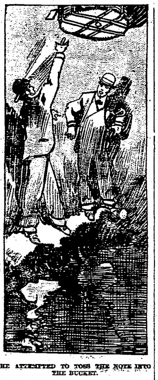
You will never get on the [illegible] by waiting for the world to [illegible].—Atlanta Constitution.

Left In A Mine

Two Englishmen Had Harrowing Adventure at Foot of a Shaft.

Water In the Bottom of the Boring Forced Them to Leave Bucket and Take Refuge on a Ledge of Clay

To face death by drowning in the icy waters of a cavern a thousand feet under ground, to feel a narrow strip of ground affording temporary safety crumbling away inch by inch into the black waters lapping at their feet, to see their only hope of rescue dangling just an inch above their outstretched hands and finally to be saved after hope was gone was the experience of Hon. Howard Wyndham and his companion, Sir Charles Berkeley of London, in the Mohegan mine at Victoria, says the Denver Times.



HE ATTEMPTED TO TOSS THE NOTE INTO THE BUCKET.

Hon. Howard Wyndham is the son of Sir Charles Wyndham, who owns or controls nearly all of the large London theaters. He has been ranching in Wyoming for the past twenty years and visited Denver to attend a dinner in honor of a friend.

Accompanied by Sir Charles Berkeley, who came from England a few months ago with a view of investing in Colorado mines, Mr. Wyndham went to Victor to inspect the Mohegan mine, which is operated through the Ajax workings. Sir Charles had never been down in a mine before and displayed some nervousness after getting in the bucket. The engineer lowered away, and the bucket shot down to the lowest workings. Just as they were nearly at what they thought was the bottom of the shaft Sir Charles, leaning over the edge, saw by the feeble light of the miner's lamp he held in his hand the glimmer of water but four feet from the bottom of the cage in which they were being lowered.

"The mine is flooded," he shouted and sprang to the bell rope to signal the engineer to stop the descent. In his excitement he pulled the rope too hard, and it parted after giving the bell in the engine room a faint tinkle. The engineer did not know whether it was a signal or not and after waiting a few minutes again began to lower the cage, but this time very cautiously, expecting another ring if a signal had been meant. Slowly the bucket sank in the water until it rushed over the edge. The men in it, not knowing whether the water was two feet deep or a hundred feet deep, felt it creeping up their bodies and sending an icy chill through their veins. Just as it reached their chins Mr. Wyndham, who had been holding his light above his head to keep it from the water as long as possible, saw a ledge on the side of the cavern.

He called his companion's attention to it, and, getting out of the bucket, they swam the few strokes necessary to gain it and secure a footing. During the passage over Sir Charles' lamp went out, but Wyndham managed to hold his in safety. Scarcely had they gained a footing when to their dismay the cage shot upward and disappeared from view. Sir Charles became wildly excited. "It's a plot to sell the mine to me," he screamed. "They intend to keep me down here until I buy it. I have read about these Cripple Creek miners and the deeds they have been guilty of. Help!"

Mr. Wyndham tried to quiet his companion, although at heart he felt that the situation was desperate, for he had noticed during the few moments they had stood on the ledge that it was not rock, but yellow clay, and that pieces of it were breaking away and falling with a sullen splash into the waters a few inches beneath them.

"We will be rescued soon," he said. "[illegible] will send the cage down in a few moments." Even as he spoke they saw it descending. Sir Charles hailed it with a shout. "No more mines for me," he said. But, to his horror, the bucket stopped when its bottom was just an inch below their outstretched hands. Then it started on its upward journey, the engineer believing that they were exploring some drift. In a few moments the bucket came down again and stopped, as before, just out of reach. Mr. Wyndham had an inspiration. Drawing out a notebook, he scribbled a note to the engineer telling him of their plight and requesting him to lower the bucket as far as it would go. He attempted to toss this note in the bucket, but it fell short into the water. Three more times the bucket descended, and each time the attempt to get the note in failed. But the sixth time it came down the note fell in the bucket, and as it did so the light went out and they were left in the darkness.

Sir Charles lost all hope. "It's useless," he said. "The engineer will never look in the bucket. We might as well make up our minds to die. I can feel this ledge breaking away under us, and it will only be a matter of a few minutes until we are swimming around blindly in that pool like a rat in a well, only to sink to the oozy bottom when our strength gives out. I wish I had never heard of the accursed mines of Colorado."

As he said this something struck the water with a splash, and, reaching out his hand, Mr. Wyndham felt the edge of the bucket. In a few moments they were at the top of the shaft and in the open air again.

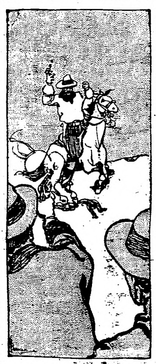
BOB BRYANT'S BAD CAREER

All the Crimes In the Calendar Charged to Him—Shot In Resisting Arrest.

Bob Miller, alias Bob Smith, Bob Bryant, a noted murderer and horse thief, was shot and killed recently two miles west of Wilburton, I. T., by James Davis, a deputy United States marshal, and Mr. Love, a posse man. Miller had been scouting in various parts of the territory for three years and was wanted in Jacksboro, Tex., where, it is alleged, he killed a deputy sheriff. A reward of $800 was offered for Miller by the Texas authorities some time ago.

The presence of Miller in the vicinity of Wilburton became known, and Deputy Davis lay in wait for him. As the desperado came up he was commanded to surrender. Instead he made an effort to shoot, and the officers shot him dead. The body was taken to Texas.

Miller was a native of Jack county, Tex., and belonged to a family noted for bravery and foolhardiness. He was a man of strong determination and force of character. It is a fact worthy of note that if one of Miller's gang ever was captured he never turned state's evidence. The gang took refuge in the Kiamitia mountains near Wilburton more than a year ago and openly defied officials to take their stronghold. An occasional dash was made over the surrounding country, horses were stolen and men robbed, and the bandits rode back to their mountain refuge, laughing in the faces of officers who pursued them so desperately.



THE OFFICERS SHOT HIM DEAD.

James Davis, known to be a fearless officer, was transferred from Colbert to Wilburton recently for the express purpose of breaking up the Miller gang. His first coup resulted in the death of the outlaw chief, and now the Miller gang is no more. The crimes charged to Miller would make a dime novel hero shudder, almost every offense in the category of lawlessness having been laid at his door.

The Physical Evils of Temper.

Would you be well? Then control your temper. Do you not know that fits of passion, this giving way to the worst that is in you, does you not only moral and mental but actual physical harm? Temper invariably interferes with the process of digestion. It carves ugly lines on your face. It wears upon the tissues and leaves us physically and mentally exhausted as well as morally weaker after such indulgence.—St. Louis Post-Dispatch.

The Hindoo Strong Man.

The Hindoos tell wonderful stories of the feats of Bhima, who was their strong man. Among the wonders credited to Bhima are the following: Pursued by a tiger, his mother when nursing Bhima let him drop. The force of the impact shattered in a thousand pieces the rock on which he had fallen, but the boy was none the worse. When he quarreled with other boys he gathered them up, ten or fifteen at a time, and plumped them into the nearest pond. His cousins hid themselves in a tall banyan to jeer at him, but he tore it from the ground without effort. He snapped his bonds like Samson, and a hungry cobra's fangs could not penetrate his skin. His triumph, however, was the defeat of Bakasura, who "consumed a cart load of food at a sitting and used palmyra trees for toothbrushes."

How the Condor Is Caught.

Many birds cannot fly straight up. They must rise at a very gentle incline. They must get onward motion before their wings can get full effect of the air. It is said that the mode of taking the condor is to build a pen, say, forty or fifty feet in diameter and six feet high and put a carcass in the middle of it. The condor alights, but cannot again rise at an angle which will take him over the fence. Many heavy bodied, short winged ducks rise from the water at so small an angle that they must use both feet and wings for thirty or forty feet in order to get onward motion enough to give effectiveness to their wings by coming in contact with larger masses of still air.

DEFECTIVE PAGE

FEVER'S AFTER-EFFECTS

Did Not Disappear Until the Blood Was Renewed by Dr. Williams' Pink Pills.

Typhoid fever is sometimes called nervous fever. During the course of the fever the nerves are always profoundly disturbed, and when it is over they are left so sensitive that the patient has to be guarded against all excitement. In the tonic treatment then demanded, regard must be paid not only to building up flesh but also to strengthening the nerves. A remedy that will do both, make sound flesh to repair waste and give new vigor to feeble nerves, is the most convenient and economical. Such a remedy is Dr. Williams' Pink Pills for Pale People.

One proof of this is the experience of Mr. Charles Worth, of East Vassalboro, Maine. He says: "I had a severe attack of typhoid fever late in the fall which left me very weak and debilitated. My heart palpitated, my breathing became difficult after the least exertion and there was numbness in both hands. I suffered in that way for fully six months. As I did not grow out of it, did not in fact see the slightest improvement as time passed, I decided to use Dr. Williams' Pink Pills as I knew of some cures they had effected in cases like mine.

"Almost as soon as I began taking them I could see decided improvement and after keeping on with them for several weeks I was completely well. I consider Dr. Williams' Pink Pills a most valuable remedy, and I am in the habit of recommending them to others afflicted as I was."

When the nerves ache and tremble it means that they are starving. The only way to feed them is through the blood, and the best food is Dr. Williams' Pink Pills. They are absolutely guaranteed to be free from opiates or other harmful drugs. They are sold by all druggists, or may be obtained directly from the Dr. Williams Medicine Co., Schenectady, N. Y.

Let Your Grocer Bring Your Breakfast

A little fruit—a jar of cream—and Egg-O-See.

Worry not about cooks or cooking—we've done all that for you—for Egg-O-See is **flaked whole wheat**—cooked exactly right.

Strong in its sweet simplicity. Pure in its natural flavor of perfect **flaked whole wheat**—Egg-O-See is nature's food.

An Egg-O-See breakfast makes your dinner and supper taste better.

Back to Nature—Eat Egg-O-See. Don't worry about meals, their cooks—or their cooking—Eat Egg-O-See—for nothing else by any other name is the same—or nearly as good—and try it **now**—for your grocer sells Egg-O-See.

The Price or
Quality of
Egg-O-See
has never
been changed

If you can find a grocer who does not sell EGG-O-SEE, send us his name and ten cents, mentioning this periodical, and we will send you a full-sized package prepaid. Address, THE EGG-O-SEE CO., Quincy, Ill.

In Pacific Coast and Rocky Mountain territory, the price is 15 cents; two packages for 25 cents.

LEARN TELEGRAPHY AND RAILROAD ACCOUNTING

$50 to $100 per month salary assured our graduates under bond. You don't pay us until you have a position. Largest system of telegraph schools in America. Endorsed by all railway officials. Operators always in demand. Ladies also admitted. Write for catalogue.

MORSE SCHOOL OF TELEGRAPHY
Cincinnati, O., Buffalo, N. Y., Atlanta, Ga., La Crosse, Wis., Texarkana, Tex., San Francisco, Cal.

MEDICAL MENTION.

Bright red spectacles, accompanied by internal doses of calomel, form a new German specific agent against seasickness.

According to Prof. Behring, "the milk fed to infants is the chief cause of consumption." He would insist on the pasteurization of all milk.

Remarkably favorable results are said to have followed the hypodermic injection of sea water in 24 tuberculosis patients by Dr. Fournol at a Paris hospital.

Perhaps it is not wise to prophesy a time when enzymic diseases shall lose all their terror by reason of the discovery of effective antidotes to the poisons to which their ravages are generally due. It is reasonable, however, to look forward to the time when the terror of these diseases, namely, diphtheria, typhoid fever, typhus and kindred scourges, shall be reduced to a minimum.

An English physician declares that it is better to keep scarlet fever patients at home, where the germs die out gradually in the fresh air, than to send them to a hospital, where they are in the midst of dozens of other cases in all stages of the disease. On their return to school, the germs are called into activity by the foul air in the room, and the disease is spread to others by coughing, etc.

Dr. G. C. Franklin, the new president of the British Medical association, in an address to the association at Leicester, pointed out the danger of overspecialization in medicine. The development of the specialist, he said, was inevitable, and he feared might tend to produce a narrower type of medical man, but on the whole the development had so far been beneficial both for the public and the profession.

INVENTIVE INGENUITY.

A Pittsburg man has invented a machine that will make and bake 40 pies a minute.

Among the latest inventions patented is a contrivance which, fitted to an ordinary sewing machine, will fan and massage the operator while she is working.

An Italian engineer has invented a successful elevator for raising sunken vessels. It consists of compressed air chambers of canvas and wire, each equal to a lifting capacity of 60 tons; and it is possible to attach as many of these as may be necessary.

Silicon, the most abundant metal in the world, but hitherto little known because of the difficulty of separating it from oxygen, has now been made obtainable in quantities to meet any demand by the electric furnace. It gives to steel valuable electrical properties, and is expected to assume importance in iron alloys.

Greater contrast in photographs is claimed for a new single lens, which causes the picture to stand out in relief as under the two lenses of a stereoscope. The lense is convex-concave, so that the axes of the rays from different parts of the picture meet in the eye, and the focal length should equal that of the camera taking the photograph.

A novel method of getting rid of black smoke and at the same time turning it to use is adopted in some Belgian factories. The smoke is driven by fans into a porous receptacle, over which flows a stream of petroleum or similar liquid. The smoke is thus caught and turned into gas that gives great heat, and can be used for running gas engines.

A poor laboring man in Denmark has made a new invention in life-saving. He impregnates clothes with a substance which will keep a shipwrecked person afloat for several days without losing its property. A coat, a vest, a traveling rug—in fact, any piece of wearing apparel impregnated with the stuff is enough to keep anyone above water. The invention has been successfully demonstrated.

GEOGRAPHICAL JOTTINGS.

The Malay states produce about seven-tenths of the world's supply of tin.

Bengal is the most populous and productive province in all British India.

Barley grows wild in the mountains of Himalaya, where it is apparently indigenous.

Near the Panama canal exists gold mines abandoned by Spain centuries ago. They will soon be reopened.

Aden is the only fortified point between Egypt and Bombay, and is regarded as an outpost of the Indian empire.

The principality of Lichtenstein, situated between Austria and Switzerland, is the only country in Europe without an army.

Sea turtles are caught in very large numbers on Ascension island. They each weigh between 500 and 800 pounds, and 50 shillings is their average price.

The soil of Siberia at the close of the summer is found still frozen for 56 inches beneath the surface, and the dead that have lain in their coffins for 150 years have been taken up unchanged in the least.

Gheel, in Belgium, is a town of fools. Imbeciles are sent there to an asylum, but, instead of being shut up and deprived of the pleasures of liberty, they are allowed to enjoy themselves like reasonable beings.

Roumania appears to be the most illiterate country in Europe. The last census shows that in a population of about 6,000,000 nearly 4,000,000 can neither read nor write, and that only a little over 1,000,000 have any education at all.

The British museum took its start from a bequest of Sir Hans Slocum, who had collected a large number of works of art, specimens of natural history, curiosities, books and manuscripts, at a cost of about £50,000. The collection was given to the British government in 1753.

Wealth in Hot Weather.

Between showers big crops are ripening. Sunshine is minting cereal gold.

STRONGER THAN MEAT.

A Judge's Opinion of Grape-Nuts.

A gentleman who has acquired a judicial turn of mind from experience on the bench out in the Sunflower State, writes a carefully considered opinion as to the value of Grape-Nuts as food. He says:

"For the past 5 years Grape-Nuts has been a prominent feature in our bill of fare.

"The crisp food with the delicious, nutty flavor has become an indispensable necessity in my family's everyday life.

"It has proved to be most healthful and beneficial, and has enabled us to practically abolish pastry and pies from our table, for the children prefer Grape-Nuts and do not crave rich and unwholesome food.

"Grape-Nuts keeps us all in perfect physical condition—as a preventive of disease it is beyond value. I have been particularly impressed by the beneficial effects of Grape-Nuts when used by ladies who are troubled with face blemishes, skin eruptions, etc. It clears up the complexion wonderfully.

"As to its nutritive qualities, my experience is that one small dish of Grape-Nuts is superior to a pound of meat for breakfast, which is an important consideration for anyone. It satisfies the appetite and strengthens the power of resisting fatigue, while its use involves none of the disagreeable consequences that sometimes follow a meat breakfast." Name given by Postum Co., Battle Creek, Mich.

There's a reason.

NEWS OF MINNESOTA.

A Grand Chance.

A golden opportunity presents itself to the homeseeker in the sale of Minnesota state lands. Approximately 260,000 acres will be sold under the state laws of Minnesota and the terms on which this land is sold are such as to permit a man of small means to secure for himself a home of his own. The lands will be sold at public auction to the highest bidder. But 15 per cent of the purchase price needs to be paid at the time of sale. The balance may run for forty years at 4 per cent annual interest if desired. Bear in mind that the settler is dealing with the State of Minnesota and that the title to all state land is perfect, makes this an uncommon offer. The lands owned by the state of Minnesota are distributed particularly in the northern part of the state, some in rich wheat fields in the western portion of the state, and in the main, will grow anything that is indigenous to the soil, and this section is admittingly the most perfect dairying country in the United States. S. G. Iverson, the state auditor and land commissioner has charge of these sales and the locations of the lands, as well as specific terms of sale will be gladly furnished by him.

People Get Benefit.

Duluth.—The prices of kerosene and gasoline were reduced one-half a cent a gallon as a result of the recent decision of the state railroad and warehouse commission in ordering a reduction in shipping rates. The cut in prices mean a saving of $140,000 to the people of the state in the course of a year.

The state commission ordered shipments of oil in less than car lots be entered as fourth instead of third-class freight by the railroads. This reduction in rates resulted in a cut of half a cent a gallon on coal oil and gasoline throughout the state. The annual consumption of these products in Minnesota amounts to about 28,000,000 gallons, and it is from this the saving of money as a result of the warehouse commission's action is computed at $140,000 a year.

Fatalities.

Minneapolis.—The percentage of fatal accidents in factories, mills and workshops in Minnesota is increasing to a rather remarkable extent, according to a report issued by Labor Commissioner W. H. Williams, covering the accidents of the last six months.

Mr. Williams reports that 439 accidents occurred during the six months, and that of these forty-one, nearly 10 per cent, were fatal. The percentage of fatal accidents in 1004 was 6.02 per cent.

No reason is known for the increase in fatalities, and an investigation will probably be made. One of the objects of receiving reports on accidents is to enable the bureau to keep in touch with conditions in the factories, mills and workshops and to ascertain whether the laws of the state regarding the safeguarding of machinery are complied with.

Everlasting Ice Cream.

Minneapolis.—The state dairy and food commission has a sample of ice cream that possesses wonderful merits. It tastes deliciously, melts in the mouth almost as easily as butter, looks enticing, and retains all its splendid qualities just as well in a leather satchel as on a block of ice. It is the kind of product the housewife can buy a week before she gives an ice cream party or ladies' aid societies can keep what is left over from one ice cream social until the time time rolls around for a similar function.

J. G. Fowler, food inspector of the department, purchased this wonderful ice cream from one of Minneapolis most popular parlors. It was a composition of gelatin, starch and custard.

An Old Relic.

Red Wing.—Bernt Eide, while destroying the old sidewalk of the Schref property on Sixth street, found a relic of the time of the revolutionary war. While digging a few inches below the surface of the ground his attention was attracted by a glimmering bit of yellow lying partly buried in the dirt. Stooping over, he picked up a rare locket of old gold. Upon one side were some unknown designs, probably the motto or mark of some secret society, and on the opposite side appeared the name of "Horace Wilder" and the date "1776."

News Notes.

St. Paul—Charles Eckblade, suffered a fracture of his right thigh and and two ribs while at work in the American Hoist & Derrick works.

Winona—Frank A. Johnson, the bachelor capitalist of Winona, who has been a familiar figure on the streets of this city for a number of years, died at St. Mary's hospital in Rochester.

St. Paul—The residence of Timothy Foley, was damaged by fire to the extent of $7,000. The loss is covered by insurance amounting to $40,000.

Rushmore—Rushmore has voted to have a fourth room added to its school which will give the children of the vicinity regular high school work.

Dodge Center—During a storm lightning struck the dome of the public school house, shattering it somewhat, but doing no serious damage to the building.

Mankato—County Auditor Weaver has forwarded to Brown county the expense account of the third Koch trial, which foots up, exclusive of attorney hire, to $4,634.50.

St. Paul—Young men giving the names of William Jounson and J. Giroux, were shot while attempting, it is alleged, to break into the saloon of R. Connolly, Jackson and Acker streets.

THE WAITER WAS CURIOUS.

Poked His Hand Into a Bag of "Crab-Apples" with Disastrous Result.

Four men, two of them carrying a big potato sack between them, walked into the Hotel Vendig cafe, at Twelfth and Market streets, shortly before closing time the other night, and sat down at one of the tables. The bag was carefully deposited in a corner, relates the Philadelphia Press.

A German waiter took the order with one eye on the sack. Finally his curiosity got the better of him.

"Dot is a big bag, ain't it?" he said. "Vot is in him?"

"Apples, Fritz," said one of the men. "Take some home to the children."

The waiter accepted the invitation and plunged his hand into the sack. He brought it out again in a hurry, with a hard-shell crab clinging to one of his fingers.

Two hundred brothers and sisters of the first crab promptly took advantage of the open mouth of the bag to crawl to liberty. They backed out of the sack with a rush and took possession of the cafe, nipping everything in reach. Several seized trouser legs and shoestrings and held fast.

Heroic waiters made a sortie with brooms and swept the crustaceans back into the bag and tied it up securely.

"Say, please," demanded the German waiter, sucking vigorously at his injured finger, "vot kind of abbles do you call dose?"

"Crab-apples," said the four men, in chorus.

Sure Cure at Last.

Monticello, Miss., Sept. 4 (Special).—Lawrence County is almost daily in receipt of fresh evidence that a sure cure for all Kidney Troubles has at last been found, and that cure is Dodd's Kidney Pills.

Among those who have reason to bless the Great American Kidney Remedy is Mrs. L. E. Baggett, of this place. Mrs. Baggett had dropsy. Dodd's Kidney Pills cured her.

"I was troubled with my kidneys," Mrs. Baggett says in recommending Dodd's Kidney Pills to her friends, "my urine would hardly pass. The Doctors said I had Dropsy. I have taken Dodd's Kidney Pills as directed, and am now a well woman."

Dodd's Kidney Pills cure the kidneys. Cured Kidneys strain all the impurities out of the blood. That means pure blood and a sound, energetic body. Dodd's Kidney Pills are the greatest tonic the world has ever known.

What's the use of worrying about whether or not we shall know each other in heaven? Few of us really know each other here.—N. Y. Times.

A CLEAR COMPLEXION

A Simple Home Treatment for Blackheads, Red, Rough and Oily Skin and Disfiguring Humors.

If you are afflicted with pimples, blackheads, red, rough or oily skin, or disfiguring humors, you will find this simple home treatment most agreeable, speedily effective and economical. Gently smear the face with the great emollient skin cure, Cuticura Ointment, but do not rub. Wash off the ointment in five minutes with Cuticura Soap and hot water, and bathe freely. Repeat this morning and evening and you will soon be rewarded with a skin soft, white and clear. Cuticura Soap, the best toilet and complexion soap in the world, assisted by Cuticura Ointment, will preserve, purify and beautify the complexion and keep the skin in a healthy condition, preventing blackheads, pimples, eruptions or the return of eczema and other skin troubles. Used as a shampoo it cleanses the scalp of crusts and scales, removing dandruff and promoting the growth of the hair. For red, rough hands, itching palms and painful finger ends, Cuticura Soap and Ointment achieve marvelous results, often in a single night.

Speaking of sure things, there is, in addition to death and taxes, the rent collector.—Chicago Daily News.

The Splendid Passenger Service of the Nickel Plate Road

has become popular because of the care and attention shown patrons of this line. Colored Porters in uniform are in attendance on both 1st and 2nd class passengers. Ladies traveling alone or accompanied by children are shown special attention. Excellent Dining and Sleeping Car Service, and no excess fares charged on any train. All trains depart from La Salle Street Station, Chicago. For full information regarding tickets, rates, routes, sleeping car space, etc., call on or address J. Y. Calahan, General Agent, 111 Adams St., Chicago.

Consistency is a jewel that has no value at the pawnbroker's.

Ward Seminary, Nashville, Tenn., by being a model of the educated Christian home and by its thorough faculty and course of instruction prepares girls for life. Write at once for Book of Information.

Many a man who owns an automobile ought to be pushing a wheelbarrow.

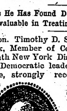
Do not believe Piso's Cure for Consumption has an equal for coughs and colds.—J. F. Boyer, Trinity Springs, Ind., Feb. 15, 1900.

We would all be reformers if results were sure on the morrow.

SENATOR SULLIVAN

Says He Has Found Doan's Kidney Pills Invaluable in Treating Sick Kidneys.

Hon. Timothy D. Sullivan, of New York, Member of Congress from the Eighth New York District and one of the Democratic leaders of New York State, strongly recommends Doan's Kidney Pills. Senator Sullivan writes:



It is a pleasure to endorse a remedy like Doan's Kidney Pills, having found them of greatest value in eliminating the distress caused by sick kidneys, and in restoring those organs to a condition of health. My experience with your valuable remedy was equally as gratifying as that of several of my friends. Yours truly,
(Signed) TIMOTHY D. SULLIVAN.

HOW TO TELL A STATESMAN

Not Only a Man Who Makes Speeches, But a Man Who Makes Good Ones.

The late Horatio G. Herrick, of Lawrence, for many years high sheriff of Essex county, always took a keen interest in the Lawrence schools, and was for a long time chairman of the school committee. Visiting the Saunders school soon after the death of Garfield, relates the Boston Herald, Sheriff Herrick spoke to the pupils of the life of the late distinguished statesman, and thus asked, genially:

"Now, can any of you tell me what a statesman is?"

A little hand went up, and a little girl replied:

"A statesman is a man who makes speeches."

"Hardly that," answered Mr. Herrick, who loved to tell this story. "For instance, I sometimes make speeches, and yet I am not a statesman."

The little hand again went up, and the answer came, triumphantly:

"I know; a statesman is a man who makes good speeches!"

FREE—DON'T MISS THIS.

A Cure for Stomach Trouble—A New Method, by Absorption—No Drugs.

Do You Belch?

It means a diseased Stomach. Are you afflicted with Short Breath, Gas, Sour Eructations, Heart Pains, Indigestion, Dyspepsia, Burning Pains and Lead Weight in Pit of Stomach, Acid Stomach, Distended Abdomen, Dizziness, Colic.

Doctor Brigham Says

MANY PHYSICIANS PRESCRIBE

Lydia E. Pinkham's Vegetable Compound

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womankind is not because it is a stimulant, not because it is a palliative, but simply because it is the most wonderful tonic and reconstructor ever discovered to act directly upon the generative organs, positively curing disease and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue of Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due.

If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience it can be relied upon to effect a cure. The following letter proves it.

Dr. S. C. Brigham, of 4 Brigham Park, Fitchburg, Mass., writes:

"It gives me great pleasure to say that I have found Lydia E. Pinkham's Vegetable Compound very efficacious, and often prescribe it in my practice for female difficulties.

"My oldest daughter found it very beneficial for uterine trouble some time ago, and my youngest daughter is now taking it for a female weakness, and is surely gaining in health and strength.

"I freely advocate it as a most reliable specific in all diseases to which women are subject, and give it honest endorsement."

Women who are troubled with painful or irregular menstruation, bloating (or flatulence), leucorrhœa, falling, inflammation or ulceration of the uterus, ovarian troubles, that bearing-down feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, at Lynn, Mass., for further free advice. No living person has had the benefit of a wider experience in treating female ills. She has guided thousands to health. Every suffering woman should ask for and follow her advice if she wants to be strong and well.

W. L. DOUGLAS
$3.50 & $3.00 SHOES FOR MEN
W. L. Douglas $4.00 Gilt Edge Line cannot be equalled at any price.

W.L.DOUGLAS SHOES ALL PRICES
BEST IN THE WORLD

THE SUNBEAM.

MINNESOTA HISTORICAL SOCIETY.

VOL. V. SUNBEAM, RED LAKE COUNTY, MINNESOTA, FRIDAY, SEPT. 15, 1905. NO. 24.

SUMMARY OF A WEEK'S EVENTS

MOST IMPORTANT HAPPENINGS AT HOME TOLD IN CONDENSED FORM.

LATE FOREIGN DISPATCHES

Interesting Items of News Gathered from All Parts of the Globe and Outlined in the Briefest Manner Possible.

PEACE CONFERENCE.

The treaty of peace between Russia and Japan was signed by the representatives of the two empires at 3:47 p. m., September 6. On the instant of the consummation of the great historical act a salute was fired at the United States navy yard on Kittery Point.

Russia and Japan agreed to exchange ratification of the peace treaty at Washington.

According to the terms of an alleged secret agreement between the czar and mikado Japan will receive an indemnity of $500,000,000 from the Slav ruler's private funds.

M. de Witte was the guest of honor at a dinner given by Col. Harvey in New York. The czar's plenipotentiary paid President Roosevelt a glowing tribute.

The Tokio municipality has passed a resolution denouncing the peace terms and favoring the abandonment of the peace treaty.

DISTURBANCES IN TOKIO.

Tokio mobs attacked E. H. Harriman and other Americans. The crowds destroyed Christian churches, police stations and the home of a cabinet minister. The people demand the rejection of peace treaty. Martial law has been declared and national troops called into service to quell the disorder.

Two persons were killed and 500 injured in fierce rioting in the streets of Tokio, resulting from popular anger over what is considered an ignominious peace. Signs of revolution, however, are lacking.

Japanese mobs became active in Kobe, where a statue of Marquis Ito was dragged through the streets. Order has been restored in Tokio under martial law. The government decided to yield to popular clamor and publish the peace terms.

The Japanese cabinet, in which Komura is foreign minister, and which ordered the concession to Russia, may be thrown out, and the envoy may be censured by the diet.

YELLOW FEVER SITUATION.

The New Orleans yellow fever record to date is: Deaths, 298; total cases, 2,142.

Yellow fever, though checked in New Orleans, spreads with alarming rapidity in the northern part of Louisiana.

Yellow fever is spreading steadily along the gulf coast.

A physician of standing in New Orleans was arrested for failure to report two yellow fever cases.

Improved sanitation in all the built-up parts of the city will be the inevitable result of the yellow fever invasion of New Orleans.

MISCELLANEOUS.

An earthquake in southern Italy killed 400 persons, injured 600, left thousands homeless and destitute, destroyed 25 towns and caused an enormous property loss.

The emperor of China has extended to President Roosevelt his congratulations upon the success of the president's efforts to establish peace between Russia and Japan and "to promote the welfare of mankind."

Tartars massacred 1,500 Armenians at Baku. Russian troops were surrounded after a day's fighting, in which they killed or wounded 1,000. The oil industry is wiped out.

The Russian army in Manchuria is still without official orders from St. Petersburg to cease its warlike activities, and the situation is intense. The soldiers are waiting for an armistice to be declared.

President Roosevelt by telegraph took summary action in the case of Frank W. Palmer, public printer, and head of the government printing office at Washington, by removing him from office. Oscas J. Ricketts has been placed in harge temporarily.

Gov. McLane, of New Hampshire, formally announced a gift to the state by the Japanese plenipotentiaries of $10,000, to be divided among the charities of New Hampshire.

Corporal James Tanner was elected commander-in-chief of the Grand Army of the Republic by the national encampment. Minneapolis was chosen as national encampment city in 1906.

John Mitchell, president of the United Mineworkers, announces he will back the miners in their demand for an eight-hour day and recognition of the union.

Brig. Gen. Carter advises more severe punishment for deserters from the army.

The Chinese government has ordered 10,000 tons of flour from Minneapolis milling interests.

Maj. Charles R. Miller, of Cleveland, O., has been elected commander-in-chief of the United Spanish War Veterans.

Alonzo A. Lewis, an employe in an undertaking establishment in Indianapolis, Ind., killed his divorced wife, Nora Lewis, with a razor, and then slashed his own throat, inflicting wounds which will prove fatal.

Rear Admiral Charles J. Barclay has been placed on the retired list of the navy on account of age, after 46 years continuous service.

Judge William L. Penfield has been designated by the president to make an investigation of the trade relations between the countries of South America and those of Europe with a view to improving American commerce with the countries lying to the south of the United States.

While trying to save his two children, a son and a daughter, both under ten years of age, from a fire in a crowded tenement building in New York, Antonio Coletto and both children were suffocated by smoke.

Morris Busch, contractor, and Robert Charlton, inspector at the Schuylkill arsenal, are to be tried for conspiracy to defraud the government.

The drivers' strike is not allowed to interfere with transportation of mail through the streets of New York.

An explosion of eight gallons of gasoline in Newark, N. J., killed one woman, injured five persons and caused big damage.

Two boys, six and seven years old, robbed a bank at Youngstown, O., of $700, but were caught after a chase.

Solicitor Penfield's trip to South America, under direction of the president, is expected to result in a better trade understanding with Brazil.

The printers' strike now on in Chicago is to be extended at once to all other western cities where the eight-hour day is not already in operation.

Mayor Jones, of Covington, Ind., promptly shot and killed a man who threatened to take his life.

Unfairness in the awarding of a $50,000,000 concession by Chairman Shonts of the Panama canal commission is charged by unsuccessful bidders.

The treasurer of the New York Life Insurance company admitted to the legislative inquisitors that securities worth more than $6,000,000, assets of the concern, were hidden from the public, and made over to a trust company by office boys, who signed notes.

Charles F. Pfister, of Milwaukee, began a $500,000 suit for conspiracy against District Attorney McGovern, his assistants and the editor and directors of the Milwaukee Free Press, declaring they plotted to ruin him because of political differences.

A home for the members of the Letter Carriers' association who may become victims of the great white plague will be erected at Colorado Springs, Col.

Dr. Menecns, Sr., one of the best-known physicians in the south, died at his home in Nashville, Tenn., aged 83. Dr. Meneens was a member of the confederate congress.

Steve Davis, a negro, 20 years old, was burned at the stake near Howard, Tex., for assaulting Mrs. S. H. Norris. He was identified and confessed.

Two persons were killed, one of them a girl 16 years old, when a building at Grand and Mott streets, New York, collapsed.

Two dead and probably 50 injured is the record of a train collision on the Western New York and Pennsylvania division of the Pennsylvania lines, near Newcastle, Pa.

Fire of unknown origin destroyed the business portion of Forest Port, N. Y., entailing a loss of about $500,000.

The total amount disbursed for pensions for the fiscal year ending June 30 last was $141,142,861.

Roberts Jacobs, 21 years old, of Detroit, Mich., was drowned while canoeing in the Ossipee river, at Cedar Falls, Me. He was paddling down stream, when the swift current swept the canoe over a high waterfall.

A fast passenger train on the Pennsylvania railroad ran into a party of five workingmen at Homewood, Pa. Three men were killed and the other two were seriously injured.

The total amount of money paid for pensions since the foundation of the government is $3,320,860,022, and of this amount $3,144,395,405 has been paid on account of the civil war.

Morocco yielded to French demands by apologizing and paying an indemnity for the arrest of an Algerian citizen, thus adjusting a threatening situation.

The Swedish and Norwegian dissolution commissioners adjourned to receive further instructions from their respective governments.

The Berlin police admit inability to keep cholera from the city and urge citizens to adopt sanitary measures.

An official of the Mutual Life Insurance company admitted that officers of the company have made personal profits by bond transactions of the concern, at the legislative investigation in New York.

Many college men attended the dedication of a monument to the founders of Granville, O.

Reports at the national G. A. R. encampment in Denver show the order's ranks to be steadily growing smaller.

China will demand large indemnity from Russia and Japan for damages sustained during the war.

Fifty-five branches of the National Association of Post Office Clerks bolted the convention at Cedar Rapids, Ia. The split is due to a charge that the smaller cities in the association were not getting a square deal.

The United Typothetae of America, in session at Niagara Falls, decided to fight the eight-hour day demanded by the typographical union. Open shops are to be the rule.

China paid J. Pierpont Morgan $2,090,000 as the first installment for an American railroad concession.

Los Angeles electors endorsed a scheme to turn the course of the river, bringing it 240 miles into the city.

A Paris official says that the Anglo-Japanese defensive alliance is greatly strengthened since the ending of the far east war.

Public Printer F. W. Palmer practically has been ousted from office. It was learned authoritatively that President Roosevelt had demanded Mr. Palmer's resignation, to take effect on the 15th inst.

The Vienna municipal council proposes to perpetuate the memory of President Roosevelt's success in restoring peace by renaming a street Theodore Roosevelt strasse.

At the state fair in St. Paul, Minn., Mr. and Mrs. F. R. Seventhal, of Eau Claire, Wis., fell from the upper car of a Ferris wheel to the ground, a distance of nearly 100 feet. Mrs. Seventhal was instantly killed and her husband was so badly injured that he may not live.

Dr. David E. Salmon, chief of the bureau of animal industry, department of agriculture, has tendered his resignation, and it has been accepted, to take effect on October 1.

A Russian imperial order has been issued dismissing Rear Admiral Nebagatoff and the captains of three warships which were surrendered to the Japanese in the battle of the Sea of Japan. All four officers are deprived of their rank.

Judge Reuben C. Lemmon, one of the most prominent members of the bench and bar of northern Ohio, died in Toledo, aged 80 years.

Brig. Gen. Thomas T. Crittenden, colonel of the Sixth Indiana during the war, died at East Gloucester, Mass.

In attempting to cross the tracks of the Pennsylvania railroad at Mount Union, Pa., Charles Madden and his six-year-old son were struck by an express train and instantly killed.

The shah of Persia, before leaving St. Petersburg, donated $2,500 for the relief of the Russian wounded.

Gen. Chaffee and staff, who are in France to witness the army maneuvers, were the recipients of high official honor.

Fifteen thousand veterans participated in the G. A. R. parade at Denver, though many of the old soldiers were exhausted and compelled to drop out of line before the end of the route.

The University of Pennsylvania has received from the estate of the late Prof. Maxwell Sommerville $60,000.

John D. Rockefeller entertained American press humorists at his summer home near Cleveland.

Earnings of the American Hide and Leather company are $200,000 larger than last year.

The federal authorities may be asked to take up the case of a Pontiac (Mich.) man imprisoned in a Panama dungeon.

Twenty soldiers were killed in the latest anti-Semitic riots at Kisheneff.

Three masked men held up a gambling room in New York, secured $8,200 from the till and escaped.

Francis Bowes Stevens, Jr., grandson of Commodore Stevens, committed suicide by shooting at Westbury, L. I.

Charles F. Pfister sued a Milwaukee newspaper for libel, growing out of embezzlement charges.

Tartars are in full control of the region about Baku, Caucasia. Entire villages were massacred. Soldiers used artillery, but were defeated. The oil industry is ruined. Fighting is increasing.

Officials of big life insurance companies testified before the New York legislative committee that the so-called mutualization is a myth. Presidents are paid salaries of $100,000 and minor officers from $75,000 down.

Cholera in the heart of Hamburg, far from the emigrant station, causes great alarm, and the area of infection in Germany widens.

Three hundred drivers of United States mail wagons struck at New York for higher wages and because they claim the bosses have failed to keep agreement.

Chicago packers under indictment for an alleged conspiracy in restraint of trade have been given until September 18 to complete the preliminary pleas in their cases.

Four persons were killed and 21 injured in a rear-end collision at Brush, Col., on the Chicago, Burlington & Quincy railway, between a passenger and a freight train, both westbound.

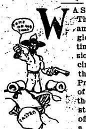
The tug Shamrock was struck by the steamer Richardson off Mamaise Point, Lake Superior, and sank immediately. Capt. Charles Richardson and an engineer, name unknown, were drowned.

WASHINGTON LETTER

PRESIDENT CASTRO OF VENEZUELA DANGEROUS FREAK.

DARES THE UNITED STATES

More Care in Supervision of Naval Athletics—Boom Which Location of British Embassy Gave to Real Estate.



WASHINGTON. — There is much amusement, mingled with just a tinge of apprehension, in official circles here over the antics of President Castro of Venezuela. In the language of a state department official Castro is a freak, but a somewhat dangerous one. The defiance which this little South American demagogue has cast at the United States and his threats to buy a navy and send it into the gulf at New Orleans and his boast that he can bring the United States to terms are all very amusing, but trouble may be brought about by his very boasting and arrogant manner.

Castro has really gone to work to get some sort of navy and has just bought $2,000,000 worth of guns in France and Germany with which to fortify his sea ports. It is also reported that he intends to make a tour of the adjoining republics, Bolivia, Peru and Chile with the avowed purpose of arousing them in opposition to the United States. This is all a chimerical dream on the part of this adventurer, but the United States may yet be compelled to administer to him a good, sound spanking. There is ample excuse for interference in the treatment which Castro has given the New York and Bermudez Asphalt company which has been cheated out of the concession for which it paid well. It is not likely, however, that the United States will send any warships to Venezuela to settle the claims of a private corporation. It is certain if Castro continues in his insulting course and any American citizen should be maltreated or denied rights he is entitled to then the United States will step in and give Venezuela a good trouncing.

Castro has shown some shrewdness in the purchase of his munitions of war, as he has made these purchases from countries that have claims against Venezuela and he doubtless counts on the buying of a bill of military goods as a sure way to check any disposition on the part of these powers to press the claims of their citizens. He has bought vessels from England and guns from France and Germany.

Secretary Bonaparte Hard at Work.

SECRETARY of the Navy Bonaparte is a lawyer of high ability and when he buckles down to a case he is apt to go to the bottom of it. He has been very much worked up over occurrences in the navy since he took charge and the evidences there have been of an undue amount of red tape in the transaction of naval business and also of the interference of bureaucrats.

The first knowledge Secretary Bonaparte had of the death of young Cohen on board the Yankee, which resulted from participation in a boxing bout came through the public press. This angered the new secretary who is of the opinion that such important events should be immediately communicated to him and that he should be the judge as to whether all its horrors and uncertainty as to its responsibility. A court-martial is to be held which may develop where the responsibility lies for vessels getting into the condition of the Bennington. It is said that a quiet investigation has revealed a very unsatisfactory condition of engines and boilers in a number of other vessels of the navy.

An Opinion on Women Employees.

A recent bulletin of the census office seems to prove the contention that women are gradually displacing men in certain lines of work. In the government departments in Washington this is to a great extent true, as a large percentage of employes are of the fair sex. There are some chiefs of bureaus and departments here who contend that the employment of women is to a great extent a matter of sentiment and not one of good business principles. A large number of women appointed to office here have secured their places through influence with politicians who favor them for the purpose of providing a livelihood for some needy but necessary constituents. The chief of a bureau employing perhaps the largest number of women in the service has this to say regarding them:

"If the work of the government was done by men alone there would be better results at perhaps one-third the cost. I am not now dealing in guesswork, but from actual experience covering many years. I know I should be called all sorts of names and subjected to all kinds of criticism if I should say so over my own signature, but there can be no question that the presence of so many women in the departments here exercises a wholly demoralizing effect that is reflected in the scandals with which the public has been edified of late years.

"I say flatly that woman is out of her sphere in industrial and official life. I do not mean to contend that there are not some admirable women earning their bread both in private concerns and in the government, but we are talking of generalities. I have myself in my bureau two women who perform efficient service and more than earn their salaries, although they receive $1,600 per annum. There are others getting $1,200 a year who would not be receiving more than six dollars a week at the outside at any department store in the city and they are not worth a penny more to the government.

Permanent Diplomatic Homes.

REAL ESTATE

THE German government is the last to secure a permanent diplomatic home in Washington. It has purchased a site for its embassy just opposite the property that was purchased two years ago by the French government for its new embassy and both of the sites overlook Sheridan circle which is on the outer edge of the ultra-fashionable northwest section of the city. The location of these two embassies in that section will attract society there and in a few years that will be the fashionable center of the city. The history of the location of the British embassy will doubtless be repeated in the building of those of France and Germany.

Some 20 years ago Great Britain purchased a large lot of ground on Connecticut avenue in a section which at that time was anything but attractive. Nearby were negro settlements and just beyond were marshes and swamps. The property, however, seemed to be adapted to the wants of Great Britain, she obtained a title to it and erected a substantial building which is now one of the interesting sights of Washington.

New Residence for German Embassy.

THE property which the German government has bought stands at a considerable height above the street and is shaded by magnificent trees. It will be one of the most beautiful diplomatic residences in Washington. It is proposed to erect a splendid stone structure of the style of Frederick the Great, reproducing perhaps in general outline the famous "Sans Souci" castle, or the new castle at Potsdam. The plans and all the details have not yet been completed, nor has it been decided just how much money is to be expended on the new house and grounds. Baron Speck von Sternberg, the German ambassador, has discussed with the authorities in Berlin the plans of the embassy and a decision will be reached as to the arrangement of the house and its cost. It is probable that soon after his return construction work will begin.

The present home of the embassy on Massachusetts avenue has been found entirely inadequate to meet the needs of the ambassador. The dining room is so small that it will not accommodate more than 20, which proves a severe tax upon the hospitality of the embassy, as it makes necessary a constant series of small dinners. When Emperor William's brother, Prince Henry, was here some three years ago he was entertained in the house and saw for himself how small the quarters were. It is understood that he reported to the emperor the condition of affairs and the latter has taken a keen interest in the subject of a new embassy.

WAS THERE A SECRET TREATY

BETWEEN THE CZAR AND THE MIKADO COVERING AN INDEMNITY?

Such is Whispered Among the Diplomatic Circles of New York and Finds Credence in Many Other Quarters.

New York, Sept. 11.—It is known perfectly well at the Japanese legation here that a secret treaty has been made betwen the czar of Russia and emperor of Japan, despite the usual diplomatic denials.

These facts concerning the treaty, the way by which it was reached, and its purposes, can be stated on the highest authority: The kaiser advised the czar to make a secret treaty when they met on their yachts, the Hohenzollern and Polar Star, in the Baltic sea. Intermediaries in the negotiations were the Japanese minister in London and the German ambassador at St. Petersburg. King Edward helped the making of the treaty. It provides that the czar of Russia—the czar, not the empire—shall pay $500,000,000 indemnity to the Japanese in five years, less the amount which Russia will pay the Japanese for her care and maintenance of Russian prisoners, $100,000,000, as provided in the treaty of Portsmouth.

It is reported also that Russia agrees in the treaty to give Japan a free hand in China, though this point is not so certain as the other. The compact was made without the knowledge even of Baron Komura and Mr. Witte. The czar and the emperor of Japan bound themselves solemnly to secrecy about the treaty. Cable dispatches state that when Martens took the steamer from New York Friday he admitted that a secret treaty is in existance. Martens, one of the most astute of diplomats, never would have dared to make such an acknowledgment without his sovereign's permission. It is more than likely that Martens was ordered to drop a hint about the treaty, and thus, as will be soon seen, relieve the emperor of Japan from a most embarrassing position at home.

Godzeyadani, Manchuria, Sept. 11.—At 1 o'clock Saturday afternoon a Japanese commissioner bearing a white flag and escorted by fifty soldiers, arrived at a post near the railroad and handed to the Russian officers who went to meet him, a letter from Field Marshal Oyama to Gen. Linevitch, congratulating him on the conclusion of peace and begging him to appoint Russian plenipotentiaries to arrange an armistice.

Hurled to Death.

Minneapolis, Sept. 11.—John Accola met a terrible death at the central power house of the Twin City Rapid Transit company shortly after noon Saturday. The noon whistle calling the men to work had just sounded, and Accola ascended the engine gallery to attend to his duties as oiler. The engineer had not yet returned, and there was no one in the engine room at the time. Shortly after the man entered the room the attention of the workmen was attracted by a terrible cry which sounded through the building, and when they rushed to the room they found Accola, his form and face bearing evidence to a horrible death. The oiler had evidently been caught in one of the huge wheels of the plant and been hurled to the floor with such violence that his skull was fractured.

Crushed to Death.

Winona, Minn., Sept. 11.—Crushed to death beneath the wheels of a traction engine was the horrible death of Ludwig Larson, a farmer residing near Pigeon Falls, Wis. Mr. Larson, who is 38 years of age and had a wife and two children, was employed about the threshing outfit. The engine was about to be attached to the thresher and moved to another setting. It had to be backed down a slight elevation to make the connection. Mr. Larson was holding the tongue of the thresher and was about to attach it to the engine, when control of the engine was lost. The heavy machine backed down upon Larson before he could get out of the way, throwing him to the ground. One of the wheels passed over his body, crushing his hips and abdomen.

Oil Prospectors on Ground.

Pierre, S. D., Sept. 11.—The oil talk in this city is bringing prospectors from several oil regions. One company has closed a contract by which it is to begin work within thirty days, and a member of the firm has left for Chicago to secure the drilling aparatus with which to begin active operations.

Collison.

Wayzata, Minn., Sept. 11.—A Great Northern extra freight train collided with an extra stock train wrecking caboose and two stock cars on the stock train, and demolishing the engine on the freight. The crews all escaped but many hogs were killed.

THE SUNBEAM.

BY W. G. HUNT.

Published every Friday, at Sunbeam, Red Lake County Minnesota.

Subscription price $1.00 per year in advance. If not paid in advance $1.50

The republican party should not build on the hope, in this state, that Gov. Johnson will not be a candidate for re-election, on the democratic ticket, but should prepare to defeat him by nominating a good clean man against him.

We do not want to see a man nominated for governor on the republican ticket next year that is so thundering popular that about one half the party can not get along without him, while the balance are after him with sharp sticks.

The Plummer Pioneer claims THE SUNBEAM has been reaching them with ufailing irregularity, which is the reason they copy from other papers articles originating in this paper. Maybe you are right Chas., as we did cut you off our X list after failing to recieve three numbers of your paper in succession, but you are on the list now and our paper will make you weekly visitations as long as we continue to receive yours.

The Olberg Journals Steenersons governor boom received a dash of cold water last week, by the positive annoucement of Mr. Steenerson that he was not and would not become a caudidate for that position. The Journal was undoubtly sincere in his effort to land the governorship for the popular congressmen from the ninth, but any attempt to carry the matter any further will be looked upon by friends of Mr. Steenerson as an effort to side track him as a candidate for re-election to the position that he now holds and will be promptly resented as such.

The reservation settlers who bought land at the Thief River sale in 1904 made a remarkable good showing in making their second payment, as there was only about twenty out of the entire number who bough land at that sale that lost it by not making their second payment, and some of these was only one day behind, owing to a mistake, in in dates. The payments of the Crookston sale comes due next month and those who bought at that sale should prepare to meet their second payment within sixty days after it is due if they expect to keep their land

After hearing numerous complaints from differen settlers on these lands, it is an agreeable change to visit the home of Henry Arnt, who lives on section 19 in this Township. Mr. Arnt bought his land last summer and built him a large and substancial farm residence last fall and moved his family into it, where they came to make their home. This spring they did not loose any time making complaint or inquries about a reduction in the price or an extension of the time of payment for their farm, but the entire family went to work, breaking, grubbing, and making garden, and now they have one the finest crops of flax and oats that we have seen this season. Of all kinds of vegetebles they have plenty for their own use and some for sale. "I never have farmed in as good a country as this", says Mr. Arnt. "Just look at my crops and all raised on new breaking. I am well satisfied with my farm and shall make it my home and I expect to pay the government for the land just as I agreed to when I bought it".

LOST THEIR LAND.

Our sympathy goes out to the settlers on thease lands who did not make their second payment in time to save their homes from being forfited, and we set colums of type warning them of their danger but as might have been expected there were some over twenty who lost their land. This kind of people always have been in the world and we suppose there always will and there is no use to try to legislate for their bernefit, for if the old ship of zion was going to cross the river of jorden at a certain time and they knew that all that did not get on board weuld be lost, there would be some get left and be petitioning Knute Nelson for an extension of time.

Oxford Examinations.

When John Scott, the future Lord Chancellor Eldon, took his B. A. at Oxford in 1770 he was examined in Hebrew and in history. His own pen has recorded this noteworthy "exam." It consisted of two questions, one in each subject. The Hebrew question ran, "What's the Hebrew for 'place of a skull?'"—the history, "Who founded the University of Oxford?" The candidate, of course, replied, "Golgotha" and "Alfred the Great," though he had his misgivings touching the truth of the second answer, a fiction which has since been scattered to the winds by those two highly distinguished Oxonians, Professor Freeman and J. R. Green.

Raw Animals.

With a heart attuned to "nature study" a little Hungarian girl in the Canadian northwest exclaimed: "Yah, teacher. It's certain beautiful on our prairie, where the birds and the small sheep run about raw."

Care of Harness.

Take the harness to a room where you can unbuckle it and separate the parts completely. Wash each part well in lukewarm water to which has been added a little potash. Scrub well with a brush until all the grease and dust have been removed. Work the pieces well under the hand until they become supple. It won't do to oil until it becomes so. Let the parts dry in a place where they will do so slowly. When just moist, oil. For this purpose use cod liver oil. It is the best for the purpose. Besides, if you were to use neatsfoot the rats and mice are your enemies at once, while they will not touch a harness oiled with cod liver oil. Give a good dose of oil to all parts, then hang up to dry. When dry, rub well with a soft rag.

A Russian Sentry.

In 1859 the Russian emperor saw a soldier in the middle of a grass plot in the palace grounds. Why was there a daily guard, relieved at stated intervals? No one knew. Curiosity was aroused, and at last a veteran was discovered who remembered hearing his father say that the Empress Catherine—she died in 1727—once saw a snowdrop in bloom at that point unusually early and asked that a guard be stationed there to protect it. And there a sentinel remained for at least 132 years; no one knew how much longer.

For Sore Throat.

Those subject to sore throat will find the following preparation simple, cheap and highly efficacious when used in the early stage: Pour a pint of boiling water on thirty leaves of the common sage and let the infusion stand for an hour; add vinegar sufficient to make it pleasantly acid and honey to taste. The mixture should be used as a gargle twice a day. There is no danger if some of it is swallowed.

Disappointment on Both Sides.

"You said the house was only five minutes' walk from the station," complained the victim. "To say the least, I'm disappointed in you."

"And I'm disappointed in you," replied the agent. "I thought you were a very rapid walker."—Philadelphia Press.

Setting Him Right.

"You think a good deal of your husband, don't you?" asked the visiting relative.

"You have the wrong preposition," answered Mr. Meekton's wife, with the cold tones of the superior woman. "I think for him."

The Backbone.

When asked by her teacher to describe the backbone a Norborne schoolgirl said, "The backbone is something that holds up the head and ribs and keeps one from having legs clear up to the neck."—Norborne Leader.

The coldest inhabited country is Werchojansk, in eastern Siberia. The daily mean temperature of the entire year is 2.74 degrees below zero.

Hamlet at Singapore.

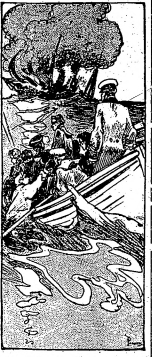
I saw "Hamlet" played and adapted for Malays at Singapore. It was sung instead of spoken, and mostly to English tunes. Hamlet addressed the ghost to the tune of "Her Golden Hair" and killed Polonius to "Listen to the Band." Polonius addressed his son to "That's English, You Know," and, with the king and queen, sang "Mary Was a Housemaid" to other words. The ghost scene included three ghosts, two clowns and a bottle of whisky.

A Story of Shipwreck

Chance Meeting of Two Survivors of a Famous Disaster.

How One Passenger on the Steamship Swam to Safety and Saved Life of a Negro. A Friend In Need.

Shipwrecked thirty-three years ago, two of the eleven survivors of the steamship Missouri, which was burned and sank at sea with more than a hundred of her passengers and crew, met here accidentally and under singular circumstances for the first time since that disaster, writes the Ocean Grove (N. J.) correspondent of the New York Herald.



MR. TUNNELLE WAS ALLOWED TO CLIMB ABOARD.

One survivor is W. F. Tunnelle, a banker of Georgetown, Del.; the other is a negro member of the Missouri's crew, who came near furnishing a meal for the other ten starving men in the steamship's open boat. It had been discussed which one should die to save the others, and several of the crew decided it should be Charles H. Glascow, the only negro in the party. Through the pleading of Mr. Tunnelle and other passengers the negro's life was spared.

When Mr. Tunnelle walked into the dining room of an **Ocean Grove** hotel where he has been spending his summers for several years there was a new head waiter, an aged negro, who showed him to his seat and then lingered a moment. Gazing intently at Mr. Tunnelle, he said:

"I know you. You saved my life once, sir."

Mr. Tunnelle looked puzzled, and the negro continued:

"Don't you know me, sir? I am Glascow, who was wrecked with you on the steamship Missouri."

In November, 1872, the Missouri sailed from New York for Nassau, Bahama islands, carrying many passengers and a full crew. Three days out from New York and while in a rough sea off Cape Hatteras a cry of fire was raised. In a few moments there was a panic. A rush was made for the boats, and in lowering them several were smashed. In a gale of wind the ship was quickly enveloped in flames.

Scores perished on board, while others jumped into the sea and were drowned. Among the latter was L. F. Cleveland, a brother of former President Cleveland.

Driven by the flames to the stern of the ship, Mr. Tunnelle eagerly scanned the water for a boat and, seeing one pulling away, plunged overboard. It was the ship's smallest boat, and the ten men aboard were all it could comfortably hold. Mr. Tunnelle, however, swam to its side, and Captain Culmer, in charge, insisted that his friend, Mr. Tunnelle, be allowed to climb aboard.

Rowing away from the burning ship, the men in the boat started off in the direction in which they believed land would be found. They had no compass, food or water. For six days they struggled without seeing a ship or glimpse of land, and the ugly mutterings of the crew that one must sacrifice his life that the others be saved grew until it was only by the display of his revolver that Captain Culmer kept them in check.

Open threats were made to kill the negro, as his life was not valued as highly as the others. When Glascow heard these threats he became terror stricken and begged for his life. Captain Culmer had just decided they would all die together before he would allow any one to be slain when land was sighted.

Great Relief.

"So the jury gave Dolly $50 a week alimony?"

"Yes. She says it feels so good not to be dependent on a man for one's income."—Kansas City Independent.

Notice for Publication.

First Pub. Sep. 1st, 1905

Department of the Interior. Land Office, at Crookston Minn. August 29th, 1905.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim and that said proof will be made before the Register and Receiver of U. S. Land office at Crookston, Minn., on October 10th, 1905, viz:

George Singer.

H. E. No. 569, Red Lake Series, for the S. E. ¼ Sec. 17 Tp. 152 N. R. 40 W.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:

Edward Singer, William A. Swanson, John Polbrook, of Rhoda Minn, William G. Hunt, of Sunbeam Minn.

R. J. MONTAGUE, Register.

The Early Use of Skates.

Holland is said to be the home and birthplace of skating, and without doubt skating was first practiced there and in the far north. In a country of lakes and canals the necessity of walking and running on ice must have been felt from the earliest days. In Holland they show the bone skates which were found in one of the mounds of which a Friesland village was built. The skates were fastened to the feet by straps passed through holes which were made in the bones. A Danish historian mentions the sport in 1134. The bone skates were also first used in England. A writer in his account of the amusements of the young people of London in the twelfth century mentions the fact that it was usual for them to fasten the leg bones of animals under the soles of their feet by tying them around their ankles; then, taking a pole shod with iron, they pushed themselves forward with great rapidity by striking this pole into the ice.

Aunt Chloe and the Dinner.

Mrs. McJarvis had invited a number of friends to dinner, but the cook left her on the morning of the appointed day without a moment's notice, says the Chicago Tribune.

In this emergency she hunted up an old friend of the family, Aunt Chloe, wife of Uncle Ephraim, and asked her to take the cook's place.

"I'll cook de dinnah, missis," said Aunt Chloe, "if you'll give me wot's left."

Mrs. McJarvis agreed, and within a few hours the dinner was well under way.

Later in the day she visited the kitchen.

"Why, Aunt Chloe," she said, "I have only five persons to entertain, and you are cooking everything there is in the house! What is that?"

"I want to make sho', missis," said auntie, "dat dere'll be sum'n lef'."

London's First Omnibus.

The first London omnibus was really much more gorgeous than its successor of today. It was an imposing vehicle, beautifully decorated and painted, with accommodation for twenty-two passengers inside, and was drawn by three handsome bays, driven by a smart coachman in livery, and its conductor was gay in a blue cloth uniform, like a midshipman. This conductor, by the way, was the son of a naval captain and spoke French so well that it was quite common for the poke bonneted young ladies from Paddington to ride as far as the city and back with the object of improving their French by chatting with him. The fare from the Yorkshire Stingo, at Paddington, to the Bank was a shilling; halfway, sixpence, and newspapers and books were provided for the passengers.—London Globe.

The Kaiser's Stirrup Cup.

Here is the recipe, given in the Westminster Gazette, of the kaiser's favorite preparation when he goes out hunting:

White beer, sugar, citron peel, ginger, spices, the yolk of at least a dozen eggs, Rhine wine, Madeira, old Santa Cruz rum. All this after being thoroughly stirred is placed on a fire and slowly heated, several large pats of butter being added to the concoction while it is warm.

Deacon and Elder.

Morrison—What is the matter, Dumley? You look terribly mystified. Dumley—No wonder. I was talking with Jinkins just now. We were speaking of the Joneses, and he said that the elder was the younger and the deacon the elder. I can't get at the rights of the thing to save me.—Boston Transcript.

THIS SPACE BELONGS TO THE RODNY STORE.
John has, Dry Goods, Clothing, Boots and Shoes.
A full and complete line of groceries.
Best brands of flour, at lowest market price.

LEGAL PAPERS

Drawn At This Office, By W. G. Hunt Notary Pnblic.

Forests and National Prosperity.

As a living example of the consequences of deforestation we need simply look to Spain, a country which centuries ago was rich in timber and agricultural products, a proud seafaring nation of world conquerors. Spain's decadence dates from the time when her timber supply became exhausted, her shipbuilding relaxed and her barren, unprotected soil ceased to bear fruit.—Forum.

A Long Way Around.

A man with a large family of daughters on his hands may profit by the following suggestion: An old lady who had several unmarried daughters fed them largely on a fish diet because, as she ingeniously observed, "fish is rich in phosphorus, and phosphorus is useful in making matches."

Her First Dinner.

"Yes," said Newliwed, "my wife and I are housekeeping now. She prepared our first dinner last night with her own fair hands."

"How was it?" asked Bacheller.

"Well, the nuts and raisins were fine."—Philadelphia Ledger.

The Longest Novel.

The "Story of the Eight Dogs" is the longest novel that has ever been published. Fortunately, perhaps, it is written in Japanese, so no one will set himself the task of reading it. It contains 106 volumes, several hundred characters and numerous dogs, all of which are successfully disposed of by the time the last chapter is reached. Just imagine reading through that one book that would last a lifetime!

True Heroism.

The hero fears not that if he withhold the avowal of a just and brave act it will go unwitnessed and unloved. One knows it—himself—and is pledged by it to sweetness of peace and to nobleness of aim, which will prove in the end a better proclamation of it than the relating of the incident.—Emerson.

She Reasoned It Out.

Ethel—Mamma, if a little boy is a lad, why isn't a big boy a ladder? Mamma—For the same reason, I suppose, that although a little doll is a doll, a big doll is not a dollar. Ethel (reflectively)—That's so. My big doll was $2.—Kansas City Journal.

LOCAL PARAGRAPHS.

Do your Notary Public business at the SUNBEAM office.

The best brands of flour for sale at the High Landing store.

Applications to make final proof written free at this office.

C. Swenson commenced haying on his Deer Park farm last Saturday.

Wm.Swanson will run the new threshing seperator for Ben K. Kvestad. They will thrash in the towns of Lambert and Equality.

Albert Spokely has his entire farm fenced in pasture and has quite a a large number of steers in it that would sell for stall fed beef in any market.

Nels M. Bolstad, the Gully merchant who went to Hot Springs for his health this summer is reported to be gaining nicely, and his friends hope that he will fully recover.

Andrew Ellingson was a pasenger down the river on Saturday last on the "Dan Patch",on his way to Plummer on a business trip,returning Thursday.

P. A. Rustad of Garnes is being treated at the Grand Forks hospital for some stomach trouble. It was expected that an operation would have to be had, but we have not learned if it was had or not.

We had the pleasure of meeting two of our Gully friends at Crookston last week, John A. Bourman and E. M.Presser, who were on their way to N. Dak. to take in the threshing season.

John Myrland while out hunting prairie chickens last sunday accidently shot and killed his hunting dog. The dog had located a covey of chickens and the first one that got up he took a shot at, but missed the chick and got the dog.

The contract to carry the U. S. mail from Anton to High Landing three times a week was let to Mr.Olson, who has been carrying the mail from Thief River to Anton, and will now extend his line to Brunkeberg and High Landing.

We received a letter from our old friend Andrew Johnson. of Meadows Clearwater county,last week,who has been traveling extensively in the western states, this summer looking for a new location, saying that he had returned home satisfied that northern Minnesota was good enough for him.

It is surpriseing what a large ammount of grain there is standing in the fields in the towns of Equaiity, Garnes, and Lambert. the lands being so wet that the farmers can not get onto them with binders at all. We noticed several binders mired and left in the fields, and the farmers cutting grain with the old fashioned craddle.

Advertisements are out for bids for carrying the U. S. mail from Sunbeam to Lillo, by way Rhoda and Rodney post offices Service to commence Oct. 10th,. Full particulars about roads and conditions will be given at this office, or at Rhoda or Lillo

Miss Lillie Johnson aged 16 years, died at her home in this township on September 6th, of consumption The remains were taken to Park Rapids for burial, where she has a mother buried who died from the same disease several years ago.

On our going down to McIntosh last week we wondered why it was that in as old a settled town as Equlity that thare had been no apparent effort made to fix some of the terriable mire holes in the roads. On our return home we nearly mired our team in front of a mans house, and were told that the chairman of the town lived there. Then we said. "There lives one cause of no mud holes being fixed in this town, right over there."

A sad incident has occured in Polk Co. A man stopped a good newspaper because it printed something he did not like. Now the man is dead and the paper still comes out every Thursday. Be warned.—Fisher Bulletin. There were some queer people living in Polk county. We knew one man down there nerely five years ago who was afraid to advertise to make final proof in a certain newspaper, because he thought it would not be published six weeks. He died a year ago last Auguest, and the paper gave him a good send off, and comes out every Friday, just the same

EARN FROM $75 TO $150 PER MONTH.

We want at once, young men for Brakemen and Firemen.

-Experience unnecessary.

Positions secured as soon as competent. Instruction by mail.

Cut out cupon and send with stamp for full particulars. Give name, age, and post office address, with No. of R.F.D. route.

Northern Railway Correspondence School.

45-s. 4th st.
Minneapolis, Minn.

DON'T READ THIS.

Do you want a daily paper? We will send you the Minneapolis daily News, daily, (except sunday) and the SUNBEAM, one year for $1.50,c. The News is one of the best dailys published in the twin cities. Send in your subscription soon,as this offer wont continue long.

APPLICATIONS AT LILLO.

If you live in the town of Equality or Johnson you can make your application to make final proof, at Lillo, and have your notice published in the paper published nearest your land.

LAND OFFICE BUSINESS.

U.S. Commissioner L. G. Browning with office located at Thief River Falls, is prepared to take homestead entries final proof etc., within the Crookston U. S. Land District.

Office in News building, three doors south of the post office.

England's First Organ.

Elfeg, bishop of Winchester during the reign of Alfred the Great, is reputed to have procured an organ for his cathedral. It was the largest instrument then known, having 400 pipes divided among ten keys, supplied by wind from twenty-six pairs of bellows and requiring the services of no fewer than seventy blowers. Judging from this, the Winchester organ either came from Germany or was built upon a German model, for in that country, until much later, the wind was provided by a species of treadmill arrangement whereon the blowers gripped a bar, each working two pairs of bellows, like those of our smiths, with their feet.—London Queen.

Splitting Paper.

Very often it is worth knowing how to split a sheet of paper. Suppose you had an article which was printed on both sides and you desired to paste it in your scrapbook. You would paste it between two sheets of stout paper and, when nearly dry, draw these apart. You will have half of the printed sheet on each, and by the use of moisture you can readily detach them.

Three of Them.

One word in the English language in which the vowels occur in regular sequence is "facetious." Is there another?—Rochester Post-Express.

Ever hear of the word "abstemious?"—Cleveland Leader.

What is the matter with "arsenious?"—New York Tribune.

Autobiographies.

All autobiographies are lies. No man is bad enough to tell the truth about himself during his lifetime, and no man is good enough to tell the truth to posterity in a document which he suppresses until there is nobody left alive to contradict him.—George Bernard Shaw.

Woke Him Up.

Bashful Beaumont—Er — I — er — dreamt I—er—kissed you last night. What's that a sign of?

Modest Maiden—Well, it's a sign that you're more sensible asleep than awake.

They Fall Short.

Foreigner—Are the earnings of your household servants large as a rule? American—No; not nearly so large as their pay.—Pittsburg Post.

He who knows only his own side of the case knows little of that.—Mill.

Corks For Bottle Stoppers.

The application of cork as a bottle stopper for liquid vessels is said to be of great antiquity. The earliest record extant of its use in Europe is that mentioned by Horace, who asserts that the Romans had cork as stoppers for their wine amphorae. Certain of the uses of cork were known to the ancient Greeks and Egyptians, but whether they used cork for stopping the mouths of their liquid vessels history does not say. It was not, however, until the year 1760 that the Spaniards first commenced to work their cork woods with some degree of regularity for the making of corks. Although perhaps corks were more or less in use from the time glass bottles were first invented, which Beckmann asserts to have been in the fifteenth century, yet it was not until two and a half centuries later that the Spaniards began to prepare cork for bottle stoppers, which they did in a forest situated at the northeast of the Tigueras, on the Muge. The cork industry has since gradually risen to be one of the first magnitude, its chief center in Spain being in Catalonia.

What the Teacher Must Do.

Knowledge is good, but wisdom is better. The college valedictorian, trained to take knowledge in rather than to impart it, may have much of it with but little wisdom. He may be able, as a teacher, to drill boys and girls in Greek and Latin declensions and cram them with facts, useful or valueless, but if he cannot produce in them what Spencer calls "pleasurable excitement" and interest he is a failure. His would be the sort of teaching that harps upon obedience and discipline and endeavors by force of rule and rod to oblige the pupil to study and learn. The will cannot be forced, but the real teacher knows well that it can be led. He remembers the remark of Rousseau that "the teacher's province is less to instruct than to guide;" that "he must not lay down precepts, but teach his pupils to discover them." This was the way of that great teacher, Agassiz, certainly.—Arthur Gilman in Atlantic.

The Small Mouthed Bass.

The small mouthed bass fully deserves his reputation for being vigorous and gamy from infancy. He is extremely pugnacious by nature and has fighting tactics peculiarly his own which for strength, activity and craft are unequaled. I once took a bass four inches long on a spoon hook, the bowl of which was more than two inches long. This bass does not hesitate to tackle that terror of all other fish—the fierce and voracious pickerel. With his first dorsal fin rigidly set up, he lays off some ten or twenty feet and then makes a rapid dash right into and under the "long face," forcing him to clear out at once or ripping him so badly that he is hors de combat. The fact has been established that bass introduced into a pond containing pickerel will ultimately destroy the latter. The same fate awaits other fish, including trout.—Outing.

Wind Superstitions.

The Finns of Norway long entertained a traditional belief in the power of controlling the winds by a small rope with three knots tied in it. This popular superstition gave rise to the curious industry of making and selling these wind controlling ropes with magical knots to mariners and fishermen. It was believed that by unloosing the first knot a favorable breeze was secured, the second raised a strong gale and if the third knot was untied it would prove the prelude to a tempest. According to Ranulph Higden, the witches of the Isle of Man had a similar ancient practice of selling winds to sailors.

Apt.

Douglas Jerrold had a way of putting pat names to things. One of his remarks is given by George Hodder in "Manners of My Time." Jerrold was at a party one night where a doctor, who was tall and thin almost to emaciation, had for a partner a lady who was short and square in build. Turning to a bystander, he remarked, "There is a mile dancing with a milestone."

When Labor Did Not Tell.

A home missionary who visited Sing Sing prison took occasion to have a heart to heart talk with one of the convicts.

"Don't you know, my friend," said he, "that crime never brings success? It is only achieved by hard labor."

"I did six months of it at a stretch once, and I didn't come out no richer than I went in."

He Was Spurned.

"Believe me," said old Gotrox, "although I'm an old bachelor I'm sure I could learn to be a good husband. You know, a man is never too old to learn."

"Nor too old to yearn, perhaps," replied Miss Pechis; "also I'm sorry to say you're not too old to spurn."—Philadelphia Press.

Always Something Lacking.

Love is like a waltz. It never quite fulfills all one expects of it. Either the man's lead is too fast or too slow, his hold too light or too loose, he stumbles over your gown or steps on your feet, and if everything else is right it is the wrong man.—Life.

Blunt.

A Scotchman once took dinner at a house and regarded the meal as inadequate. As he was leaving his host asked him when he would dine with him again. "Now," was the startling reply.

A good cause needs not to be patroned by passion, but can sustain itself upon a temperate dispute.—Browne.

POINTED PARAGRAPHS.

The easier people make money the easier they want to make it.

Among the many mysteries of childhood is why grown people cry when they are glad.

There are some people who think they have discharged their full duty to you by praying for you.

What do you use most during the day? Do you use the little white lie almost as much as your shoes?

When a man makes one mistake he usually follows it up with three or four before he recovers his balance.

Don't be conceited; get any map of the United States, and do you find any mark on it to show that you are on earth?

Every one admits that rich people are not happier than the poor, or as happy, yet every one is striving to become one of the miserable rich.—Atchison Globe.

Two Ways of Doing Business.

I have seen in London only one office where there is any real enthusiasm. And the employees seldom have any interest in the business beyond drawing their salaries. In most of the factories, and even in the offices, they are taught a certain round of duties, and they are allowed to do nothing else. They seldom suggest improvements for fear of losing their places, where in America they'd soon lose their places if they didn't make suggestions. Here it's the firm in its private offices and everybody else doing as little as possible and never stepping out of the rut they're put in, and there it's everybody working together, coats off, and the head of the concern glad to listen to the office boy and to do as he says if it means results.—Vanity Fair.

Ancient Eggs In China.

A German epicure comes to the rescue of the Chinese in regard to their alleged habit of eating rotten eggs. The eggs, he says, are simply preserved in lime until they get a consistency like that of hard butter and they taste somewhat like lobster. He declares them one of the choicest delicacies he has ever eaten. He thinks there are no better cooks in the world than the Chinese. When he went to live among them his friends predicted he would starve, but he had a good time and gained weight—more than he wanted to.

Balky Steam Boilers.

According to an engineer, though there may be every reason present why a steam boiler should steam there are occasions when it simply will not. It refuses duty and sulks without any cause that can be detected. On such occasions every one takes a hand at the fires, but the result is the same—no steam or only enough to keep three-quarters speed. Marine and stationary boilers are both thus afflicted. There are "good days" and "bad days" in the performance of each.—Chicago News.

Get Busy.

The successful man is usually busy, and the busy man is usually successful. The young man, whatever his vocation, who has not learned to economize his time and keep busy has not got the lesson most essential to a prosperous, useful and happy life.—Chicago Tribune.

A Great Combination.

"You and your husband have lived together twenty-five years and never had a quarrel? What's the secret?"

"No secret at all. I'm too good natured to quarrel, and he's too indolent."—Exchange.

Veils In Churches.

During the tenth century no woman was allowed to appear at church without a veil. It had to be a real veil, too, covering and concealing the features in order that the prayers and meditations of the men might not be disturbed by the contemplation of feminine loveliness. There was a tradition that the origin of the custom was in an order from a great French saint. When a young man he met a little girl with features so noble and beautiful that, although he was many years her senior, he immediately fell in love with her because she resembled a young lady to whom he had been engaged years before, but who died in his arms. The man and the child separated, and he became a priest. Many years later he saw her in the congregation just as he was entering the pulpit to preach, and the sight disturbed him to such an extent that his sermon was a failure, and he ordered all the women thenceforth to wear veils.

The Korean Wife.

In Korea the rooms of a wife or mother are the sanctuary of any man who breaks the law. Unless for treason or for one other crime he cannot be forced to leave those rooms, and so long as he remains under the protection of his wife's apartments he is secure from the officers of the law.

Bound to Be Comfortable.

An author who had been jailed for debt wrote to his wife: "Do me the favor to send me my Shakespeare, my nightgown and slippers, my pipe and all letters asking for autographs and containing stamps. I want to be comfortable and at peace with the world."—Atlanta Constitution.

A Slow Photographer.

Irate Female—Look here! Do you mean to tell me that I have got such an ugly looking nose as that? Photographer—But my apparatus cannot lie, madam. Irate Female—Then, for goodness' sake, go and get one that can.

To Clean Plaster Ornaments.

Clean plaster ornaments by dipping in cold starch, brushing the powder off lightly when dry.

Birds In Attack.

Birds display great skill and cunning in the chase, the attack and in guarding themselves from injury during the struggle for supremacy. The secretary bird is the inveterate enemy and untiring pursuer of the snake. All sorts, even the most venomous, he hunts with a zest that is at once interesting and amusing. The snake flees from its foe, who follows, watching every opportunity for a blow. When the reptile turns the bird uses one of his wings as a shield and strikes with his foot. The snake buries its fangs in the wing, but leaves the poison in the plumage, and the bird escapes unhurt. Repeated blows from the powerful claw confuse and disable the snake, and at last it falls, to be at once dispatched by thrusts of the sharp beak into its head. The bird then tosses his victim into the air and, catching it as it falls, swallows it.

Gilding Without Gold.

One more proof that all is not gold that glitters is found in the fact that much of the gold lettering seen on signs, and also much of the gilding of picture frames, has no gold whatever about it. Among laymen the opinion prevails that all such decoration requires the actual use of gold leaf, but the reality is different, and a substitute that defies detection has been widely used for some time. The exact effect of gold is secured by using a leaf of either silver or aluminium under yellow paint. The metal backing gives the required luster, and the paint gives the required color. This method cannot be used in all cases, because the paint is of peculiar quality and requires putting on with an even thickness. For this reason it is generally applicable only to flat surfaces. Parts of a gilded picture frame which are molded into waving surfaces generally require genuine golf leaf to cover them.—Philadelphia Record.

DEFECTIVE PAGE

DISFIGURING HUMOR.

Brushed Scales from Face Like Powder—Doctor Said Lady Would Be Disfigured for Life.

CUTICURA WORKS WONDERS.

"I suffered with eczema all over my body. My face was covered; my eyebrows came out. I had tried three doctors, but did not get any better. I then went to another doctor. He thought my face would be marked for life, but my brother-in-law told me to get Cuticura. I washed with Cuticura Soap, applied Cuticura Ointment, and took Cuticura Resolvent as directed. I could brush the scales off my face like powder. Now my face is just as clean as it ever was.—Mrs. Emma White, 641 Cherrier Place, Camden, N. J., April 25, '05."

Fifty per cent. of what is termed "hard luck" is simply a blend of laziness and poor judgment.—Chicago Tribune.

STOP, WOMAN!

AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers a great many years.

You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides a man does not understand—simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice.

When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."

Positive, Comparative, Superlative.

"I have used one of your Fish Brand Slickers for five years, and now want a new one, also one for a friend. I would not be without one for twice the cost. They are just as far ahead of a common coat as a common one is ahead of nothing."

(Name on application.)

THE PRINCE OF BUTLERS.

His Resourcefulness Saved His Mistress in an Awkward Situation.

The late Thomas Coldwell, the inventor of the lawn mower, was a great admirer of witty and alert persons.

At a dinner in New York Mr. Coldwell said of a famous millionaire:

"This man, through hard luck, once had to work as a butler. He made an excellent butler. Let me give you an instance of the sort of work he did.

"His mistress was giving a dinner party of 12 covers on a certain evening. One of the courses consisted of scalloped oysters in silver shells. The set of silver shells was broken—there were only 11. The mistress, therefore, told the butler that she would not eat any oysters, and thus there would be just enough to go around.

"The butler, when the oyster course came, placed before the lady one of the shells. To his horror, she did not decline it. Calmly she let it rest before her. If she started to eat it, one guest would be short of oysters. What was the matter with her, anyhow?

"The butler watched her nervously. She took up her fork. She was actually about to plunge it into the dainty shell. Then the man, ever alert and ready, flew to her side and bent over her respectfully:

"'Pardon me, madam,' he murmured, 'but you said I was to remind you that the doctor forbade your eating oysterds on any account.'"

Where Music Doesn't Charm.

The office boy who thinks that he can make himself popular by whistling all the latest tunes to his employer while he works hasn't tact enough even to be appointed ambassador to England.—Somerville Journal.

In the course of an address to students on one occasion Lord Kelvin, the great British scientist, uttered this epigram: "The end of education is twofold—first, to help man to earn a living, and, second, to make his life worth living."

"Education," said Uncle Eben, "ain' no benefit to a young man if it stahts him recitin' Shakespeare when he ought to be mixin' de whitewash."—Washington Star.

Every man wants to measure himself by what he is going to do, but the world insists on measuring him by what he has done.—Chicago Record-Herald.

Cure to Stay Cured.

Wapello, Iowa, Sept. 11th; (Special).—One of the most remarkable cures ever recorded in Louisa County is that of Mrs. Minnie Hart of this place. Mrs. Hart was in bed for eight months, and when she was able to sit up she was all drawn up on one side, and could not walk across the room. Dodd's Kidney Pills cured her. Speaking of her cure Mrs. Hart says:

"Yes, Dodd's Kidney Pills cured me after I was in bed for eight months, and I know the cure was complete, for that was three years ago, and I have not been down since. In four weeks from the time I started taking them I was able to make my garden. Nobody can know how thankful I am to be cured or how much I feel I owe to Dodd's Kidney Pills."

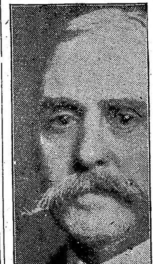
This case again points out how much the general health depends on the Kidneys. Cure the Kidneys with Dodd's Kidney Pills and nine-tenths of the suffering the human family is heir to will disappear.

After the rock-the-boat season is over the thought-it-was-a-deer season will open in the northern woods.—Chicago Chronicle.

Ward Seminary, Nashville, Tenn., offers your girl a first-class education at cost. Patrons get the profit. You can't get so much for the money elsewhere. Write at once for Book of Information.

I do not like to deal with men whose lives are devoted to getting money.—Edison.

LIEUT. F. S. DAVIDSON.



PE-RU-NA STRENGTHENS THE ENTIRE SYSTEM.

F. S. Davidson, Ex-Lieut. U. S. Army, Washington, D. C., care U. S. Pension Office, writes:

"To my mind there is no remedy for catarrh comparable to Peruna. It not only strikes at the root of the malady, but it tones and strengthens the system in a truly wonderful way. That has been its history in my case. I cheerfully and unhesitatingly recommend it to those afflicted as I have been."—F. S. Davidson.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. S. B. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

NEWS OF MINNESOTA.

Change in Grades.

St. Paul.—Numerous changes were made by the state board of grain appeals at its annual joint meeting.

The first discriminates against scoured or manipulated wheat, and is one which will be a great benifit. The new rule reads: "Wheat scourned or otherwise manipulated will not be considered in grading same.

Another important change is that relating to the pouring of grain into test kettles. It has been found that grain poured into the middle of the kettle is heavier then wheh poured against the sides. The new rule therefore is: "Manner of testing wheat, flax, barley and rye shall be tested after it is cleaned. The test kettle shall be placed where it cannot be jarred or shaken. From scoop, bag or pan hold two inches from top of kettle, pour into middle of same at moderate speed until running over, striking off in a zigzag manner with the edge of beam held horizontal."

Another important rule has been made concerning rye, providing that hereafter rye must be tested after it has been cleaned, instead of before cleaning. This will give the farmer a better showing to weight.

Rejected spring wheat is done away with and made No. 4, making now six grades in all.

No. 1 rye is advanced from 55 to 56 pounds, and No. 2 from 52 to 54, still leaving it one pound below the Wisconsin inspection, an advantage for the Minnesota department. No change was made in the standard on flax, although requestst were filed, as the present standard was deemed satsifactory.

To stop the practice of mixing dirt with barley by eastern agents after it left Minnesota inspection, the rule regarding feed barley is changed. Strong requests came in along this line from Duluth. The new rule reads: "Feed Barley—No. 1 feed barley must test not less than forty pounds to the measured bushel, and be reasonably clean. No. 2 feed barley shall include all barley which is for any cause unfit for the grade of No. 1."

Growth of Cities.

St. Paul.—Minnesota has sixty-four incorporated cities as compared with with forty-one in 1895, and but eight of the cities show a loss in population since the last state census ten years ago, according to figures announced by the state census bureau.

The cities showing a loss are Blue Earth, Chaska, Hastings, Jordan, Le Sueur, Northfield, Waterville and Winona.

St. Paul has increased its population during the last ten years the most rapidly of all the large cities. The percentage of St. Paul's increase is 40.6, Minneapolis 35 6 and Duluth a little over 9 per cent.

Some of the smaller cities have made a remarkable growth. Eveleth has grown from 734 in 1895 to 5,331 in 1905.

Virginia also has made good progress, and Pipestone in the south has increased from 1,668 in 1895 to 2,865 this year.

The seventy-one incorporated villages show a total population of 100,609, as against 62,513 in 1896, a gain of 38,096, or about 60 per cent. Chatfield, Glencoe, Kasson, Lanesboro, Spring Valley and Winnebago City are the only villages showing a decrease in population.

There are 135 municipalities in the state having a population of more than 1,000, as compared with 103 ten years ago.

Good Showing.

Applicants for teachers' certificates made a better showing this year than any previous year, according to the compilations of state examination papers made by J. W. Olsen, superintendent of public instruction. The percentage of those who passed this year is 52 82, as compared with 48 per cent last year. The number of examination papers written were 31,929.

Grammar proved to be the great stumbling block this year; 50.4 per cent failed in that subject. Usually it is mathematics that the applicants show deficiency in. The results in penmanship were the best in the total aggregate of applicants. Only 40 failed, compared with 4,477 who passed.

News Notes.

Hamline—Minesota's finest state fair opened with an attendance of 63,699, the greatest on record.

St. Paul—Over 6,000 marched in the Labor day parade.

St. Paul—The one-day-old baby of Mr. and Mrs. Milo Goodrich, was accidentally smothered to death. Coroner A. W. Miller made an investigation and decided that death was due to accident.

Minneapolis—John Ternes was instantly killed as a result of the collapse of a 50-foot scaffold.

Minneapolis—That the house breakers and flat robbers are still flourishing in the city can be seen from the number of complaints that reach police headquarters regarding petty thefts and attempted burglaries.

Royalton—The accidental discharge of a gun in the hands of Stephen Pasterick may be the cause of Ralph Skinner loosing his arm. These two and another boy were hunting prairie chickens near the village when the accident occured.

Minneapolis—From estimates gathered at many of the employment offices in the city it is figured that 634 men were shipped in one day to work elsewhere.

Duluth—Held up by an old she bear and a half-grown cub, the passengers of two Woodland cars were given a taste of Western frontier life.

Impertinent Poet.

"Why," said Mrs. Oldcastle, "did your daughter break her engagement to that handsome young poet?"

"He insulted us," replied her hostess, as she carelessly ran her fingers through the pages of a $3,500 copy of "Squints and Glances." "In a poem he wrote about her he said she had lambent eyes, and Josiah just wouldn't stand for that, because it was an insinuation about us gettin' rich in the meat business."—Chicago Record-Herald.

"Education," said Uncle Eben, "ain' no benefit to a young man if it stahts him recitin' Shakespeare when he ought to be mixin' de whitewash."—Washington Star.

Of Interest to Ladies.

The New York Millinery Trade Review in an editorial says that no Jobbing or Manufacturing Center of Millinery Goods has made such rapid strides as Milwaukee. This is principally due to the progressive firm of Blumenfeld, Locher & Brown Co. The Trimmed Hats and Tailored Hats produced by this firm have been recognized as standard by all of the leading dealers of the United States, being of artistic workmanship, elegant design, dependable quality, and at the same time can be sold at such prices that they can be purchased by any lady. See that the Hats you look at have the Monogram B. L. B. Co. on the label and insist that your dealer show such hats to you. You can make no mistake when you buy one of them. They are all guaranteed style.

A stable disposition together with horse sense generally gives a man a pretty good position in the human race.—Puck.

I am sure Piso's Cure for Consumption saved my life three years ago.—Mrs. Thos. Robbins, Norwich, N. Y., Feb. 17, 1900.

I do not like to deal with men whose lives are devoted to getting money.—Edison.

In Temptation's Way.

"This is the first time you have been to prayer-meeting in a long time," said the pastor of a colored congregation.

"I had to come," replied Mr. Erastus Pinkley. "I needs strength'nin'. I'se got a job whitewashin' a chicken coop an' buildin' a fence around a watermelon patch."—Washington Star.

The Splendid Passenger Service of the Nickel Plate Road

has become popular because of the care and attention shown patrons of this line. Colored Porters in uniform are in attendance on both 1st and 2nd class passengers. Ladies traveling alone or accompanied by children are shown special attention. Excellent Dining and Sleeping Car Service, and no excess fares charged on any train. All trains depart from La Salle Street Station, Chicago. For full information regarding tickets, rates, routes, sleeping car space, etc., call on or address J. Y. Calahan, General Agent, 111 Adams St., Chicago.

Billville Baby.

"Bless his heart!" exclaimed the fond mother, as the squalling baby rolled on the floor; "Molly, run out an' kill a rattlesnake an' git a rattle for him!"—Atlanta Constitution.

Chicago, September 2, 1905.—With the conclusion of peace negotiations at Portsmouth, and the early ratification of a treaty between Russia and Japan, the Chicago & North Western is understood to have ordered rushed to completion a large order for new equipment for the Overland Limited, their crack every-day-in-the-year train between Chicago and San Francisco. This in expectation of a large volume of traffic to and from the Pacific Coast, due to the immediate commercial expansion that is anticipated.

Resourceful Woman.

He—What did you do with that tainted money your uncle gave you?

She—I salted it down, of course.—Detroit Free Press.

A WOMAN'S SUFFERINGS.

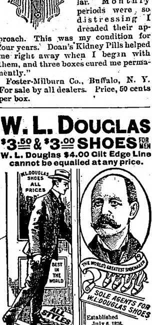
Weak, Irregular, Racked With Pains—Made Well and 36 Pounds Heavier.

Mrs. E. W. Wright of 172 Main Street, Haverhill, Mass., says: "In 1898 was suffering so with sharp pains in the small of the back and had such frequent dizzy spells that I could scarcely get about the house. The urinary passages were also quite irregular. Monthly periods were so distressing I dreaded their approach. This was my condition for four years. Doan's Kidney Pills helped me right away when I began with them, and three boxes cured me permanently."

Foster-Milburn Co., Buffalo, N. Y. For sale by all dealers. Price, 50 cents per box.

W. L. DOUGLAS $3.50 & $3.00 SHOES FOR MEN

W. L. Douglas $4.00 Gilt Edge Line cannot be equalled at any price.



W.L.DOUGLAS SHOES ALL PRICES
BEST IN THE WORLD
ALL STYLES
THE WORLD'S GREATEST SHOEMAKER
SOLE AGENTS FOR W.L.DOUGLAS SHOES
Established July 6, 1876.

W. L. DOUGLAS MAKES AND SELLS MORE MEN'S $3.50 SHOES THAN ANY OTHER MANUFACTURER.

$10,000 REWARD to anyone who can disprove this statement.

W. L. Douglas $3.50 shoes have by their excellent style, easy fitting, and superior wearing qualities, achieved the largest sale of any $3.50 shoe in the world. They are just as good as those that cost you $5.00 to $7.00—the only difference is the price. If I could take you into my factory at Brockton, Mass., the largest in the world under one roof making men's fine shoes, and show you the care with which every pair of Douglas shoes is made, you would realize why W. L. Douglas $3.50 shoes are the best shoes produced in the world.

If I could show you the difference between the shoes made in my factory and those of other makes, you would understand why Douglas $3.50 shoes cost more to make, why they hold their shape, fit better, wear longer, and are of greater intrinsic value than any other $3.50 shoe on the market to-day.

W. L. Douglas Strong Made Shoes for Men, $2.50, $2.00. Boys' School & Dress Shoes, $2.50, $2, $1.75, $1.50

CAUTION.—Insist upon having W. L. Douglas shoes. Take no substitute. None genuine without his name and price stamped on bottom.

WANTED. A shoe dealer in every town where W. L. Douglas Shoes are not sold. Full line of samples sent free for inspection upon request.

Fast Color Eyelets used; they will not wear brassy.

Write for Illustrated Catalog of Fall Styles.

Constipation

Endangers Life

Deal With the Honest Druggist

When you ask your druggist for Mull's Grape Tonic, a cure for Constipation, Stomach and Bowel Trouble, and he tries to sell you something else which he claims is just as good that is substitution or dishonesty. It is an insult to your intelligence. He does it for profit and not because he cares about your health. No honest druggist will do it.

Stop a moment and reflect before you permit him to mislead you. He is willing to endanger your life and health for the sake of a few pennies. Is he a safe man to trade with? Deal with the Honest druggist who will promptly supply you with what you know you want, and that which you call for.

Until Mull's Grape Tonic was put on the American market there was no cure for Constipation and Stomach trouble. Your Doctor will tell you as much. He knows that a physic won't cure Constipation. Some remedies may act as laxatives and physics, but you and I know from experience that physics are dangerous, that they weaken, that they not only fail to cure but make us worse until finally they lose effect entirely which means paralysis of the Bowels and death by Typhoid Fever, Appendicitis, Stomach, Heart, and Lung Trouble, Rheumatism, Dropsy, Kidney and Bright's Disease, etc.

There are honorable druggists in most every locality, men who will promptly supply you with Mull's Grape Tonic and not try to sell you something else, but should there be no such druggist there we will send you the Tonic direct from this factory without additional expense to you.

If you have Constipation and want to try Mull's Grape Tonic and have never used it, we will send you or any of your friends, who suffer with this affliction, a free bottle. Send us name and address at once while we are giving the first bottle free; we want to prove to you, at our expense, the truth of the claims we make for this valuable remedy.

Use the coupon below at once while we are giving the remedy away. Free to all who have never used it.

FREE GRAPE TONIC COUPON

Send this coupon with your name and address and your druggist's name, for a free bottle of Mull's Grape Tonic, Stomach Tonic, Constipation Cure and Blood Purifier, to MULL'S GRAPE TONIC CO., 147 Third Ave., Rock Island, Ill. Give full address and write plainly. The $1.00 bottle contains nearly three times the 50c. size. At drug stores. The genuine has a date and number stamped on the label—take no other from your druggist.

THE SUNBEAM.

VOL. V. SUNBEAM, RED LAKE COUNTY, MINNESOTA, FRIDAY, SEPT. 22, 1905. NO. 25.

SUMMARY OF A WEEK'S EVENTS

MOST IMPORTANT HAPPENINGS AT HOME TOLD IN CONDENSED FORM.

LATE FOREIGN DISPATCHES

Interesting Items of News Gathered from All Parts of the Globe and Outlined in the Briefest Manner Possible.

RIOTING IN THE CAUCASUS.

A holy war has been proclaimed in the Caucasian districts of Zangezur and Jebrail, where Tartars are massacreing the Armenians without distinction of sex or age.

In a clash between social democrats and Cossacks in Tiflis 23 were killed and 50 wounded and many others trampled to death.

Reports received in St. Petersburg state that the rioting in Baku is increasing and that the troops have fired upon the mobs, killing 17 workingmen.

Russia has sent more troops to the Baku district in an effort to prevent further strife between Armenians and Tartars.

YELLOW FEVER SITUATION.

The New Orleans yellow fever record to date is: Deaths, 323; total cases, 2,413.

Dr. Charles Chassignac, of New Orleans, gave up a practice worth $18,000 a year to go as a volunteer to Tallulah, La., where yellow fever is beyond control.

President Roosevelt will visit New Orleans in October, as planned, despite the yellow fever.

New Orleans authorities are disappointed over the increase in yellow fever cases, fearing the people are becoming careless in sanitary precaution.

At least five persons afflicted with genuine yellow fever arrived in Cincinnati over the Queen & Crescent line. They have been isolated.

MISCELLANEOUS.

The battleship Mikasa, the central figure in Japan's victorious navy as Togo's flagship, was destroyed by fire and the explosion of one of her magazines at Sasebo, and five men were killed, 251 are missing and 243 were wounded.

Patrick A. Collins, mayor of Boston, died at Hot Springs, Va. The immediate cause of his death was a hemorrhage of the bowels. Mr. Collins was one of the nation's leading democrats. He served six years in congress and was United States consul general at London from 1893 to 1897. He was the presiding officer of the national democratic convention of 1888.

According to the police estimate of casualties during the recent rioting in Tokio, 338 constables, 16 firemen and two soldiers were wounded. Among the mob and bystanders nine were killed and 487 were wounded.

The town of Monte Rosso, Italy, an almost inaccessible place of 3,000 inhabitants, was destroyed by an earthquake. It is believed that hundreds of lives have been lost.

Vice President Perkins told the legislative committee that the New York Life donated $48,000 to the republican campaign fund last fall. The transaction was hid from the finance committee. He admitted that the $800,000 over night sale was to fix the books.

Marquis Ito denies that the recent riots in Tokio were directed against Americans. He says there is not a semblance of ill feeling against Americans or President Roosevelt.

Joseph Ramsey, Jr., president of the Wabash railroad, made a public declaration in Pittsburg that he expects to beat George J. Gould in the contest for the control of the property.

Necessity for United States intervention in ehalf of the Albers brothers, imprisoned in Nicaragua, is said in Washington to be past.

Descendants of Kosciusko, the Polish hero who aided in the American revolution, claim that the site of Chicago was granted him by congress, and will present a bill of 425,000,000 marks.

A syndicate of New York capitalists made $1,400,000 by the sale of contract rights to the stock of the Cincinnati, Hamilton & Dayton railroad.

A girl suicide in a New York hotel was identified by her father as Ella Berry, of West Bedford, Mass., who killed herself because of the shame following a false story concerning her.

Railroads hope to forestall rate legislation by concessions as to private car lines and terminals and thus defeat the program of President Roosevelt.

Judge T. J. Simmons, chief justice of the supreme court of Georgia, died in Atlanta.

Bud Rogan, the Tennessee negro giant, is dead at his home in Gallatin. Rogan was eight feet nine inches tall. His hands were 12 inches in length, and feet 16½ inches.

Envoys of Gen. Linevitch and Field Marshal Oyama signed an armistice ordinance.

The post office department notified magazines published in 11 states that they must pay third-class rates for mailing their publications to Canada.

Panama canal engineers will wait to determine the relative cost between the lock and sea level methods of constructing the canal before deciding on plans.

Gen. Frederick D. Grant, in his annual report to the war department, blames the abolishing of the canteen as responsible for trouble in governing soldiers.

An automobile containing members of the party accompanying Gov. R. B. Glenn, of North Carolina, plunged over a bridge at Winchendon, Mass., injuring four men. Gov. Glenn was in a car directly behind, and only the prompt action of the chauffeur avoided a collision between the two cars.

According to preliminary figures of Iowa's state census, the state had a total population January 1, 1905, of 2,207,372. This is a loss of 30,481 since the census of 1900, when the state was accredited with a poplation of 2,231,583. Practically all of the larger cities and counties showed gains. The loss was almost entirely in rural sections.

Judge C. C. Garret, who had just resigned as chief justice of the First district court of appeals at Galveston, died at his home in Brenham, Tex., aged 59.

Lightning struck the Hax-Smith Furniture company's wholesale house during a severe electrical storm at St. Joseph, Mo., and it was totally destroyed. Loss, $200,000.

Ex-Auditor Sherrick, of Indiana, was formally arrested in Indianapolis, charged with embezzlement of the state's funds. He waived examination and was bound over to the grand jury under bonds of $15,000. Investigation of the securities whicht were placed in the hands of the governor tends to show that they are of sufficient value to protect the state.

Joseph Gibson, from Stewartville, Mo., was picked up east of Tyler in a manled condition, and is supposed to have been blown off a freight train during a tornado which visited that section.

The explosion of a fuse, followed by a fire in a building of the Climax Fuse company, at Avon, Conn., caused a panic among 20 employes in the building and resulted in the death of seven and injuries to 11.

The sultan of Morocco ordered additional troops to Tangier to protect foreign ministers in case of possible uprisings.

Chief of Police Collins, of Chicago, received six anonymous letters threatening to dynamite his home and kill his family if he continues his crusade on the thieves and gamblers of the city.

W. J. Bryan, in a letter to President Roosevelt, urges him to lead the nations to permanent peace.

The American cable in the Pacific is to be extended from Manila to Japan and China under a concession granted to the Mackay company.

Gen. Nelson A. Miles may be the gubernatorial candidate of the Massachusetts democrats, Gov. Douglas having declined to run again.

A platform pledging the enactment of a law abolishing the giving of passes by railroads in the state was adopted by the Nebraska republican convention.

The internal revenue department rules that patent medicine makers and sellers must pay liquor dealer's tax.

Denmark has invited European powers to intervene in the quarrel between Norway and Sweden.

Walter W. Jüntgen, former bookkeeper of the wrecked Edgar county national bank of Paris, Ill., was indicted by the federal grand jury at Danville, Ill., for making false entries and abstracting funds from the bank.

Komura is threatened with assassination on his return to Japan.

The Russo-Japanese armistice protocol was made public. The czar is to send no more troops south of Harbin or the mikado north of Mukden.

A meeting held in Yokohama to protest against peace was followed by an attack on the police and troops have arrived from Tokio to preserve order.

An official of the Mutual Life Insurance company declared at the investigation in New York that banks control absolutely the underwriting syndicates, and that insurance companies are unable to buy their bonds at first prices in the open market.

Fire in the plant of the Featherstone Foundry & Machine company in Chicago caused a loss of over $150,000.

President Roosevelt exonerated Chairman Shonts of the $50,000,000 graft charges in the award of a Panama hotel contract.

President Roosevelt soon will issue a second call for a conference of the powers to make radical changes in The Hague treaty. The purpose is to make war difficult.

Otto Sarge, aged 15; Esther Sarge, aged nine; and Fritz Strate, aged nine, of New Kensington, Pa., were smothered to death by the caving of a sand bank in which they were playing.

A large portion of the business section of Grangeville, Idaho, was destroyed by fire, causing a loss estimated at $250,000. Over 40 buildings were destroyed.

Four men were killed, six seriously injured and a dozen more stunned by a bolt of lightning which wrecked a crowded poultry exhibition tent at the county fair in Indianola, Ill.

The democratic state central committee of Wisconsin met in Milwaukee, when the resignation of A. F. Warden, as state chairman, was formally received and accepted.

Charles Johnson and George Oliver, miners, were killed by a premature blast in the Hartford mine at Negaunee, Mich.

Three storms, which attained the velocity of a typhoon, have swept Korea. The town of Gensan was flooded and at Seoul many people were drowned and many buildings destroyed.

At its closing session in Nashville, Tenn., the great council of Red Men accepted the invitation of Dallas, Tex., to meet there next year.

Vice Admiral Rojestvensky has completely recovered from the wounds which he sustained at the battle of the Sea of Japan.

Peter Vieau, the oldest native Milwaukeean and brother-in-law of Solomon Juneau, died at his home at Muskego Center, Wis., at the age of 86 years.

Samuel Hisle, a negro on trial at Manchester, Ky., charged with assaulting Mrs. Jasper Case, a white woman, was sentenced to be hanged.

On the Ninth avenue elevated railroad, New York, a car crowded with early morning workers, on their way down-town, pitched headlong into the street. Twelve persons were killed.

Employes say the isthmus canal will cost $1,000,000,000 and take 20 years to complete.

Western Union directors adopted a resolution to stop furnishing racing news to the bookmakers and poolrooms.

Jonathan Reed, "the hermit of the cemetery," died near New York, after 12 years of watching at his wife's tomb.

Sixty passengers were injured, nine seriously, by the overturning of a trailer attached to a traction car bound from Pittsburg, Pa., for Homestead, near the Glenwood bridge. It is expected that all of the injured will recover.

Norway denies that mobilization of conscripts has been ordered on the Swedish frontier. A settlement is expected.

The board of consulting engineers is strongly in favor of a lock canal for Panama, and its attitude dooms the plan for a sea level ditch.

Thomas French, a boy of East Orange, N. J., who amused himself by sending infernal machines through the mails and setting fire to buildings, was captured and confessed.

Luke J. Cooney, Jr., of Chicago, is plaintiff in a suit at Kalamazoo, Mich., said to involve an estate of $500,000. Handwriting experts have been summoned to testify as to an $80,000 check which it is charged was raised from $8,000.

The murderer of a girl hanged himself in North Dakota after leaving a note confessing the crime for which another man was executed.

A United States warship is to take Minister Merry to the Nicaraguan coast to investigate the imprisonment of W. S. Albers, an American citizen.

An official of the New York Life Insurance company admitted at the investigation in New York that the company furnishes the money required for syndicate deals, but gives half the profits to banks.

Lambert Naegele, for 12 years editor of the Montana Staats Zeitung, published at Helena, founder of the Minneapolis Freie Presse, veteran of the civil war and survivor of the New Ulm (Minn.) Sioux massacre, died in Seattle, Wash., aged 73 years.

William F. Powell, United minister to Hayti, announces his intention of tendering his resignation to President Roosevelt at once. He gives as his reason for resigning the prevalence of revolutions, riots and fever in Hayti.

Three young civil engineers in the employ of the Delaware, Lackawanna & Western railroad were killed by a work train while returning to Cortland, N. Y., on a handcar.

For the first time in Iowa, in many years, death warrants have been issued from the governor's office for the execution of two murderers, one Joseph Smith, Friday, April 13, 1906; the other Louis Busse, April 20, 1906. Busse murdered his wife. Smith is a negro who killed a woman with whom he was boarding.

A movement is on foot to give President Roosevelt a cordial popular reception on his return to Washington September 30 from his summer home at Oyster Bay.

A woman who registered as Mrs. Brown at the Miller House, a small hotel in Memphis, Tenn., was burned to death in a fire which destroyed that building.

Fire that started from the explosion of a lamp at Clement, Okla., destroyed the entire east side of the main business street. Loss, $60,000.

President Roosevelt has announced that until he returns to Washington on September 30 he will receive no callers at Sagamore Hill except those who may come on urgent official business.

A report from the Japanese headquarters say that in the direction of Hsingching Gen. Madrikoff with about three regiments opened an attack on Susban on Monday, September 11, but was immediately repulsed by the Japanese.

WASHINGTON GOSSIP

NOW HAVE A CENSOR OF PICTURE POST-CARDS.

HUNDREDS ARE DESTROYED

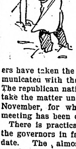
Congressmen Often Have to Go Down Into Their Pockets to Furnish "Records" to Constituents—Diplomat and Cabinet Member.

WASHINGTON. —At the head of the dead letter office of the post office department is an old newspaper man, James Rankin Young, who finds himself today the Anthony Comstock of the administration. In addition to his other duties, Mr. Young has to pass on the admissibility to the mails of the post cards which have become the rage within the last two years, or since congress authorized their use in the mails. This form of souvenir and mailing card has been utilized as a means to pander to the desire for the risque and racy in pictures and some of the specimens are too indecent to pass through the mails.

Instructions have been given postmasters throughout the country to refuse the worst of these cards admission and to send them to the dead letter office, where they are finally passed upon by Mr. Young and his assistants. It is a little difficult to tell just where the proper line should be drawn, but a large number of these post cards are are so manifestly unfit for mailing that the work of the censors is cut out for them. As high as 3,000 of these souvenirs have been confiscated and destroyed in one day. The bulk of the objectionable cards come from abroad, principally from Paris, where ideas of propriety are not formed on wholesome American lines.

Mr. Young, who acts as chief censor in the interest of public morality, is an old-time newspaper man and a brother of the late John Russell Young, the noted diplomat, traveler and writer. Forty years ago Mr. Young was a member of the press gallery here and for many years was chief correspondent of Horace Greeley's New York Tribune. He was a member of congress for two terms from Philadelphia.

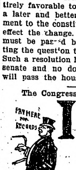
To Change Inauguration Day.



THERE is a decided step already taken toward a change in the date of inauguration day. The governors of 41 states have joined in a movement to postpone the presidential inauguration from March 4 to a later date, probably April 30. The district commissioners have taken the matter up and communicated with the various governors. The republican national committee will take the matter under consideration in November, for which time a special meeting has been called.

There is practical unanimity among the governors in favor of a change of date. The almost invariable bad weather on the 4th of March, the sickness and discomfort that attend that day and the frequent deaths of prominent men resulting from exposure while in attendance on the inaugural functions have created a sentiment entirely favorable to a postponement to a later and better date. An amendment to the constitution is required to effect the change. A joint resolution must be passed by congress, submitting the question to the several states. Such a resolution has twice passed the senate and no doubt is felt that it will pass the house this year.

The Congressional Records.



IN A CORNER of the old Hall of Representatives, or what is known as "Statuary Hall" in the big capitol building, there is railed off a space large enough to accommodate a desk and table. In this extemporized office is found a small, dapper little man, keen-eyed, pleasant-mannered, who is probably the most sought after person in the capitol. This is "Andy" Smith, or more formally, W. A. Smith, the congressional record clerk. His unique duties have been in the growth of years and he is indispensable to the senators and representatives. Mr. Smith arranges for the printing in pamphlet form of speeches which the congressional orators desire for mailing throughout their districts and the country.

Each senator is allowed 87 and each representatives 59 copies of the Congressional Record for free distribution. Mr. Smith keeps the list of the persons or libraries to whom the Records are mailed and can in a moment tell whether any congressman has or has not used his quota. When his number is exhausted a senator or member must pay the usual price for any he sends out in excess. This price varies according to the size of the Record. During the last days of congress, when day and night sessions are held, the Record is sometimes quite bulky, running up to 175 pages or more. To send a large number of these big publications to his constituents is quite a costly matter to the congressmen, but so popular is the Record in some districts that many of the statesmen have to go down in their pockets to pay for those they have to send out in addition to their free quota.

Assistant Secretary of Treasury.

CASTLE OF SOCIETY

AMONG the "Roosevelt Young Men" in important public positions and who are making their mark in the government service is James B. Reynolds, assistant secretary of the treasury. Mr. Reynolds is another newspaper man who has been coaxed into the government work and, like all of his colleagues who have been transferred to that field, he is "making good." He is a stout, roly poly man, with a pleasant, smiling face, a joke always on the end of his tongue, but with a good supply of active gray matter located under his smooth brown hair, which is accurately parted in the middle.

Mr. Reynolds is only 35 years old, but his 15 years of life since he left college has been crammed full of useful experiences and he has taken hold of the management of the big customs service which comes under his department in a way that has won the encomiums of Secretary Shaw and President Roosevelt. When Mr. Reynolds graduated from Dartmouth college he went into journalism and for two years was a Washington correspondent. He had a natural bent for politics—clean politics—state and national, and was made secretary of the Massachusetts republican state committee, a permanent position as the annual election of a governor in the Bay state makes political campaigns a permanent institution there.

Mr. Reynolds has long been the chief lieutenant of Senator Lodge, the republican leader of Massachusetts, and the latter was instrumental in having him placed in his present important post. President Roosevelt likes Reynolds' energetic, but good-natured way of doing things, and has felt amply justified in selecting him for assistant secretary of the treasury.

Reported Changes.

CABINET OFFICE

THE dog days are responsible for a good deal of gossip of changes in the cabinet and the diplomatic corps. Some of the gossip is based on more or less fact, but a part of it is simply "hot air." The president likes to read these forecasts of changes he is alleged to have in contemplation and he likes still further to cause surprise in newspaper row when he really does make a change. He likes to line up a few of the newspaper boys in his office and, after chaffing them about various rumors that have been published broadcast, to tell them of some appointment he really has made and which none of them had guessed. He will then smile his widest and chuckle: "Well, I scooped you boys on that appointment, did I not?"

Ambassador Meyer, now at St. Petersburg, where he has done signal service in furthering the president's peace programme between Russia and Japan, is now said to be slated for the navy portfolio. Secretary of the Navy Bonaparte is to be transferred to the head of the department of justice when Attorney General Moody retires, and Ambassador Meyer is to take his place, according to the latest semi-authoritative gossip. It was generally understood when Bonaparte went into the cabinet that his assignment to the navy department was only temporary. He is a lawyer of high ability whom the president wants to conduct the important suits for the government. He is known as the enemy of grafters and violaters of anti-trust and railroad laws.

There is little credence given the oft-repeated story that Postmaster General Cortelyou is to succeed Mr. Shaw as secretary of the treasury. Mr. Cortelyou fits the position he now holds

NORWAY AND SWEDEN ARE

STILL WRANGLING OVER THE QUESTION OF FRONTIER FORTIFICATIONS.

Delegates at Karlstad Hold Session on the Sabbath. Riksdag May Approve Negotiations but the Storthing will not.

Karlstad, Sept. 18.—The Norwegian and Swedish delegates sat in conference yesterday from noon until 3 o'clock and from 5 until 7, at which time they adjourned until today.

The question of fortifications is still being discussed and some unforseen difficulties have appeared. It is expected that the discussions will be concluded Wednesday and the preliminary result will then be submitted to the riksdag and the storthing.

The riksdag's approval of the results of the negotiations is sure, but that of the storthing is doubtful, especially if the Norwegian delegates yield on the questions concerning the forts.

Christiania, Sept. 18.—Peace between Sweden and Norway being assured, a quiter feeling prevails here.

News from Karlstad, however is still awaited with the keenest interest and there is anxiety to learn the details of the compromise. The press is unanimous in hoping for a speedy settlement of the questions.

There are some misgivings entertained that peace may have been bought too dearly, but all the newspapers express relief that peace has been secured, provided it is on an enduring basis.

The Aftenposten says there are still some difficulties to be overcome, but that they cannot, according to human calculation, lead to a rupture.

Shows Decrease.

Des Moines, Sept. 18.—According to preliminary figures of Iowa's state census, completed by Secretary Davidson of the executive council, the state had a total population on January 1, 1905, 2,201,372. This is a loss of 30,481 since the census of 1900, when the state was accredited with a population of 2,231,853. Twenty-two of the ninety counties showed increase in population, while the remainder showed decreases. Practically all of the large cities and counties showed gains. The loss was almost entirely in rural sections. All of the census authorities who have studied this year's statistics have agreed that the loss was due to the enlargement of Iowa farms and attendant immigration of Iowans to districts where cheaper lands were available.

Cyclonic.

Tyler, Minn., Sept. 18.—A storm of cyclonic nature struck here Friday afternoon. The grand stand and one barn at the fair grounds were leveled to the ground, but as the citizens are all working, the buildings will be in shape when the fair opens on the 30th. Joseph Gibson, from Stewartville, Mo., Mo., was picked up east of town in a mangled condition, supposed to have been blown off a freight train.

Perjured Voters.

Chicago, Sept. 18.—Initial steps for a total disfranchisement of citizens of Chicago were taken by United States Attorney Morrison. Non-compliance with the law on the part of clerks and judges of the circuit and superior courts, which passed upon the eligibility of candidates for citizenship, is alleged.

Was a Success.

Huron, S. D., Sept. 18.—The South Dakota state fair closed Friday with a snug surplus of cash in the treasury after all expenses are paid. Exhibits and attendance exceeded expectations, and the management is delighted with the results.

Threw Pepper.

Chicago, Sept. 18.—William Grace, capitalist and contractor, is lying at 107 Pine Grove avenue, suffering intense agony as a result of the alleged efforts of Mrs. Augusta Dahlberg to blind him by throwing cayenne pepper in his face.

Bomb Thrown.

New York, Sept. 18.—A bomb was thrown against the front of Casino P. Liotta's barber shop, in Flushing avenue, Brooklyn. The explosion blew in the front doors and windows and tore up a portion of the floor.

Killed by Explosion.

Pinconning, Mich., Sept. 18.—By the explosion of an alleged defective boiler in the stave mill of Edward Jennings five men were killed and eight or ten injured, two of them so seriously that they will probably die.

Russian Losses.

St. Petersburg, Sept. 18.—The Russian losses in ships at Port Arthur Vladivostok and the sea of Japan, according to official statistics published this morning amount to $113,000,000.

DEFECTIVE PAGE

THE SUNBEAM.

Subscription price $1.00 per year in advance. If not paid in advance $1.50

Kaiser William is said to have said that Japan was afraid of America. He forgot to mention what foreign power is'nt.–Duluth News Tribune.

The Thief River Falls logging company never thought of buying all the boats on the Red Lake river, so as to control all traffic on the river, until after governor Johnson sent up a man to investigate and he soon "put them on."

Who says advertising does not pay? A North Carolina girl advertised for a husband. The cost of the advertising and weeding outfit amounted to $38. After seven months hubby dies leaving his buxum widow a life insurance policy for $10,00.-Thirteen Tows.

Should there be no railroad built through here next season about the only way for the farmers to get their grain to market next season would be by floating it down the Red Lake River on barges. The swift current would carry them down the river and a small gasolien boat could tow them up the river when they were not loaded.

The terriable accident at the state fair grounds, on September 5th, by which one lady lost her life and her husbaud recived serious injury by being thrown from a Ferris wheel had ought to be a warning to the management of fairs not to allow death traps to be set up to imperil the lives of patrons, to inrich the owners of infernal machines.

The Crookston Journal has been sued for $10.00 damage by Robert Purvis, of Crookston for criminal libel. Had the Journal used the same amount of space to boost Mr. Purvis up in business and presented a bill for it, they would have undoubtly been told that no one paid any attention to what was in a newspaper.

There is much discussion as to whom belongs the honor of being called "father of of drainage," the claims being made for the late E. G. Valentine, Judge Frank Ives, A. M. Greeley and others. There's credit enough for all. The more fathers it had the better its chances. Let all be fathers of drainage, and something will be accomlished.–Duluth Evening Herald,

We are fully satisfied that this is a good corn country, not from the observations of others but by corn growing. This spring we recived, with some other garden seeds sent out by congressmen Steenerson, a package of sweet corn, which we planted on a well prepared piece of ground about May 15th. That corn soon came up and it kept a comming with a vigor that astonished the natives. By August 15th, it had grown so tall that it obstructed the view of the stem boats on the river and we cut the tops off as far down as where the ear was formed. It did not get fit for use until this week, and two or three ears will make a meal for a large family. We have named it the "Steenerson corn", and shall save some seed from it for next year. We have not decided if it is the quality of the corn or the land that is responsible for the remarkable groath of this corn, but shall make inquiry of others, who got seed from the same source and endevor to find out.

HALF COIN WAS LUCKY TRINKET

It Saved Life of Sailor In Navy Who Was Victim of a Joke.

"See this?" said W. H. Leukhart, chief machinist's mate in charge of the naval recruiting station in the postoffice building at Minneapolis, Minn., says a correspondent writing from that city to the Cincinnati Commercial Tribune. He held up what appeared to be half a silver coin.

"Well, a chum of mine in the navy has the other half, and it saved his life once. It's a coin of Colombia. We were doing duty on the isthmus of Panama and stopped in at a little fruit shop.

"The coin is only worth about a fifth of a cent, but what we bought did not come to that, and the old woman in charge of the shop took out a knife and cut the coin in two.

"It struck us as so absurd that we gave her another coin and kept that as a souvenir. We punched holes in the halves and strung them on our watch chains.

"About a year after that we were cruising in the Canary islands, and some of the Spanish dons at Las Palmas invited the officers to a grand ball. When we landed we saw a curious procession making its way out of the town. What struck us as particularly peculiar was that the captain of the company walked in the rear of his soldiers. As soon as we met some of the natives they explained that he was the head executioner and that the job was a hereditary one.

"Although he is in command of a company, he has to walk in the rear, and whenever he goes into a cafe to eat the proprietor smashes the plates as soon as he has finished.

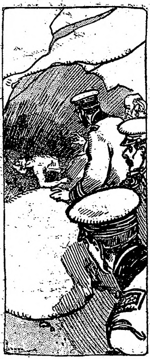
"We followed the procession to witness the peculiar execution. Finally we came to a deserted place and found that the method of execution was to place the victim in a chair, where a steel band is placed around his neck. With the turn of a screw the band is tightened.

"After the execution we thought it would be a good chance to take a picture of one of the fellows, and my chum got in the chair. We tightened up the band a little bit and took the picture.

"Somebody then decided that we had better leave him there a little longer, and we strolled away to the grand ball.

"It was so interesting that we forgot the poor fellow for a couple of hours, and when we hurried back he was gone.

"We did not worry any, supposing that he had gone back to the ship. The next morning, however, he was nowhere to be found, and we went on shore to search for him. Just as we were giving up in despair I noticed an old native sitting on the roadside. Around his neck was a string, and on the string was the half coin.



HE WAS STRIPPED, AND HIS HAIR HAD TURNED WHITE.

"You can imagine that I grabbed the native and sent one of the boys for somebody that could talk the lingo. It seems that the natives who live in the Atalyan caves are supposed to take away the victims of the execution and bury them in caves. They get whatever is on the person.

"We started the old fellow up on the jump and pushed him up the hills on the end of our walking sticks. He led us by little paths and lanes through the mysterious caves and finally came to one that had a great stone rolled up against its mouth.

"We got at that in a hurry. Lying on a heap of bones was the lieutenant in a dead faint. He was stripped, and his hair had turned white. We shook him up and gave him some brandy, and in a little while he came around.

"That fellow had an awful lot of nerve. He declared that he knew we would get him out, but that we were an awful long time doing it. He thought the whole thing was a joke. As he had been one of the ringleaders in all the stunts on board ship, he took the whole thing in good part.

"It seems that he had dozed off and, being one of the sleepers that you can't wake up with an ax, never quivered until the natives had left him in the cave for some hours."

WE

TAKE

Richard Ohn, Prop.

Gully.

Minn.

The King of Bardsey.

About a mile distant from the Rocky promontory of Braich-y-Pwll, the extreme westerly point of north Wales, is the island of Bardsey, the home of a singularly isolated community. The island is the property of Lord Newborough and was a favorite resort of the old baron, grandfather and predecessor in the title of the present peer. At that period the island was even more remote and out of the way than at present. Communication with Pwllheli was infrequent and uncertain. Consequently the Bardsey folk formed an entirely independent community, forced by circumstances to conduct their own affairs without special reference to the laws of the country. Lord Newborough instituted the office of "king." selecting from the islanders one of superior parts and character, he invested him with the general authority which he himself possessed as landlord, bidding the rest to obey his ruling, abide by his decisions in case of dispute and in general respect his authority. Partly in jest, partly to strengthen his vicegerent's position, he conferred upon that worthy the title of "king of Bardsey" and bestowed upon him a crown, a treasure and an army. The "crown" was a gorgeous diadem of brass, wondrously embossed and wrought; the "treasure" a silver casket brought from Italy, and the "army" a wooden figure painted to represent a soldier.

Grotesque African Customs.

Tattooing is almost universally practiced by both sexes of the natives of Africa. It is, however, very roughly done and is altogether inferior to the tattooing of the Maoris of New Zealand and other Pacific races. The method of operation is simply to make a slit in the skin and then rub in charcoal. Among the less pleasing feminine ornaments must be reckoned the nose buttons of the Wa Yao and the frightful pelele, or lip ring, of the Anyanja. The nose button is a circular disk of ivory or burnished lead let into one side of the nostril. Ugly as is the effect produced by this, it is yet a thousand times less hideous than the pelele, which consists of a round, flat piece of ivory or wood fixed in a slit in the upper lip. The slit is gradually increased by the insertion of successive plugs, each a little larger than the preceding one, until it can accommodate a full sized pelele, which sticks out an inch or more in front of the face, rendering the appearance of the wearer scarcely human.

Brides Priced.

To us it seems a curious whim on the part of our ancestors of the eighteenth century that in their marriage announcements they should so often choose and with such seeming complacency to enlighten the world with regard to the amount of fortune received with the brides. Here are two cases in point: "Mr. James Coutts of Jeffry's Sq., merchant, to Miss Peagrum of Knightsbridge. £30,000." "W. Smith, gentleman, of the 2d Troop of Horse Guards, to Mrs. Ann Gardiner, a maiden lady, aged, 'tis said, near 70, with a fortune of £20,000."—Chambers' Journal.

Most Deadly of Insults.

Fweddie—That creature actually told me to mind my own business, y' know.

Cholly — The impertinent wretch!

Fweddie—Positively insulting! As if to insinuate, don't y' know, that I had a business!—Cleveland Leader.

J. K. WOOD

GULLY, POLK CO., MINNESOTA.

Notice for Publication.

First Pub. Sep. 1st.1905

Depatment of the Interior, Land Office, at Crookston Minn. August 29th, 1905.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim and that said proof will be made before the Register and Receiver, of U. S. Land office at Crookston, Minn. on October 10th.1905, viz:

George Singer.

P. E. No. 569, Red Lake Series, for the S. E. ¼ Sec. 17 Tp. 152 N. R. 40 W.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:

Edward Singer, William A. Swanson, John Polbrook, of Rhoda Minn. William G. Hunt, of Sunbeam Minn.

R. J. MONTAGUE, Register.

PLUM PUDDING.

Plain Directions For Making This Christmas Luxury.

Place in a vessel one pound of beef kidney suet, very dry, free from fibers and chopped very fine; one pound of seeded Malaga raisins; one pound of currants, cleaned and washed in plenty of water; one pound of bread crumbs sifted through a sieve; a quarter of a pound of lemon peel chopped very fine; one pound of powdered sugar, four tablespoonfuls of flour; a quarter of an ounce of nutmeg and allspice, a pint of brandy and six eggs.

Mix the whole well together. Dip a strong cloth in cold water and wring it out to extract all the moisture. Spread it open on a table and butter it liberally with butter softened to the consistency of cream. Dredge over with sifted flour and shake the cloth to remove any excess of the flour that failed to adhere to the butter. Lay in the center of the cloth the prepared mixture. Form it in the shape of a ball and raise up the edges of the cloth, bringing the four ends together all around, so as to inclose the preparation well, then tighten and tie firmly.

Have on the fire a high saucepan three-quarters full of water. When this boils plunge in the plum pudding and let it cook for three hours. Then remove it and have it stand for five minutes before cutting the string. Undo the cloth carefully and invert the pudding on a hot dish. Sprinkle it with sugar. Pour over some brandy or rum and set it on fire. Serve immediately with hard sauce.—St. Louis Post-Dispatch.

Duplicates.

Smythe—Remember when Chatto was married last year how he kicked about the duplicate wedding presents? Browne—Yes. Smythe—Well, that sort of luck seems to follow him. He had a somewhat similar complaint yesterday. Browne—What was it? Smythe—Duplicate birthday presents. That is to say, twins.

Woes of Wealth.

"Wealth has its penalties," said the philosopher.

"Yes," answered Mr. Cumrox. "It's pretty hard for a man to have to go guessing through a French menu when he would rather have pork and beans."—Washington Star.

The Poor Printer.

One of Browning's remarks is characteristic. He once said to Dr. Knight that "all the unintelligibility of 'Sordello' is due to the printers. They would change my punctuation and not print my commas, semicolons, dashes and brackets."

The Cause.

Caller—What makes you say sister is fond of me, Bobby? Bobby—Sister!—New Orleans Times-Democrat.

A man who cannot explain his ideas is usually the dupe of his imagination in thinking he has any.—Bulwer.

He Sent Another.

A few years ago a well known lawyer remitted in settlement of an account to the publisher of a paper a two dollar bill, which was returned with the brief statement:

"This note is counterfeit; please send another."

Two months passed before hearing from the lawyer again, when he apologized for the delay, saying:

"I have been unable until now to find another counterfeit two dollar bill, but hope the one now inclosed will suit, professing at the same time my inability to discover what the objection was to the other, which I thought as good a counterfeit as I ever saw."—Philadelphia Ledger.

Forests and National Prosperity.

As a living example of the consequences of deforestation we need simply look to Spain, a country which centuries ago was rich in timber and agricultural products, a proud seafaring nation of world conquerors. Spain's decadence dates from the time when her timber supply became exhausted, her shipbuilding relaxed and her barren, unprotected soil ceased to bear fruit.—Forum.

A Long Way Around.

A man with a large family of daughters on his hands may profit by the following suggestion: An old lady who had several unmarried daughters fed them largely on a fish diet because, as she ingeniously observed, "fish is rich in phosphorus, and phosphorus is useful in making matches."

Her First Dinner.

"Yes," said Newliwed, "my wife and I are housekeeping now. She prepared our first dinner last night with her own fair hands."

"How was it?" asked Bacheller.

"Well, the nuts and raisins were fine."—Philadelphia Ledger.

The Longest Novel.

The "Story of the Eight Dogs" is the longest novel that has ever been published. Fortunately, perhaps, it is written in Japanese, so no one will set himself the task of reading it. It contains 106 volumes, several hundred characters and numerous dogs, all of which are successfully disposed of by the time the last chapter is reached. Just imagine reading through that—one book that would last a lifetime!

True Heroism.

The hero fears not that if he withhold the avowal of a just and brave act it will go unwitnessed and unloved. One knows it—himself—and is pledged by it to sweetness of peace and to nobleness of aim, which will prove in the end a better proclamation of it than the relating of the incident.—Emerson.

She Reasoned It Out.

Ethel—Mamma, if a little boy is a lad, why isn't a big boy a ladder? Mamma—For the same reason, I suppose, that, although a little doll is a doll, a big doll is not a dollar. Ethel (reflectively)—That's so. My big doll was 98.—Kansas City Journal.

* * * * * * *

LOCAL PARAGRAPHS.

The sun shines bright today, fine weather is comming.

Do your Notary Public business at the SUNBEAM office.

The best brands of flour for sale at the High Landing store.

Applications to make final proof written free at this office.

We have not had rain since 9'o clock last night and then only a light shower.

Mrs. A. W. Shosten and Miss Kuehnel were chashing berries down toward Kratka yesterday.

P. Sullivan has just compleated harvesting a fine crop of oats raised on new breaking.

The Red Lake River is the highest it has been this summer, at the preasent time. Look out below it's comming.

The U. S. will take our mail carring job off our hands october 10th, and we are glad to be rid of it.

Potatoes are said to be rotting in the ground. Better dig them out of the ground and put them in a dry place.

Alfred Eves boys are doing a big stroke of business trapping musk rats along the banks of the Red Lake river.

Nels Ostvolden caught two large timber wolves in the northern part of this township last week, in traps that he had set out for them.

If it is as rainy weather out in Dakota as it is here, those that went out there to work in thrashing will put in a large part of their time looking at it rain.

Mrs. Dan Sullivan arrived home to day from a two weeks visit with relatives at St. Hilair. She came up the river on the "Dan Patch" boat from Thief River Falls.

We have a potato from our garden which weighs one pound and twelve ounces, There may be larger potatoes raised in this locality but we have not seen them.

P. Sullivan arrived home from Crystal N. Dak. on last Saturday, where has been assisting brother Thomas in harvest and threshing. He reports that they have just finished threshing a good crop.

Thirteen Towns: Stephen Singer, of Gully, who has been confined at the Fosston Hospital for the past six weeks with a severe attact of typhoid feavor was so far recovered that he was able to leave for home Tuesday.

There was two new school districts organized at the last session of the board of County Commissioners No. 35 and 37, but whether this district is 35, or 37 or neither of them, we have not learned, but will find out as soon as we can get a letter to Red Lake Falls, and return.

If you have been delayed by bad weather getting your haying done it is better to keep cutting until you get enough hay for your stock. as hay cut at this time of the year is better than a snow bank to turn your stock to when it is 40 degrees below zero next January.

We wish to call the attention of our readers to the advertisement of the Gully flourin mills in an other colum of this paper, and we assure our readers that they will get first class flour at this mill, as we used it for a number of years and know whereof we speak

The petition of Anton Skog et al to change the name of the town of Kratka to Oak Grove, was laid on the table by the board of County Commissioners it being found that there was an Oak Grove in Anoka county. Why not stick to your first name "skunk town". we don't think there is an other town in the state of that name

LESS THAN ONE CENT A Day, will bring the news of the news of she world to your home by subscribeing for the Duluth Evening Herald, which is sent by mail for 25 cents per mont. The Herald is considered one of the leading papers of the North west, prints on an avrage of more than fourteen pages daily, and the entire Asso iated Press reports. If you want to keep poted "Read The Herald." Duluth Weekly Herald, $1 per year; six monthe 59 cents; three months; 25 cents.

EARN FROM $75 TO $150 PER M NTH.

We want at once, young men for Brakemen and Firemen.

Experience unnecessary.

Positions secured as soon as competent. Instruction by mail.

Cut out cupon and send with stamp for full particulars. Give name, age, and post office address, with No. of R.F.D. route.

Northern Railway Correspondence School.

45-s. 4th st.

Minneapolis, Minn.

APPLICATIONS AT LILLO.

If you live in the town of Equality or Johnson you can make your application to make final proof, at Lillo, and have your notice published in the paper published nearest your land.

LAND OFFICE BUSINESS.

U.S. Commissioner L. G. Browning with office located at Thief River Falls, is prepared to take homestead entries final proof etc., within the Crookston U. S. Land District.

Office in News building, three doors south of the post office.

FROM DEER PARK.

Ben Kviste returned from Crookston last Wednesday after shipping his thrashing rig down to McIntosh, where he entends to put in the fails run.

Thor Moen and his son Torgrn and Andress Christianson left for North Dakota last Thursday to put in the fall threshing out there.

Charles Swanson and John Stalmo left for Dakota last week.

M. E. Hyland was up from his Gully farm last week to see how things looked up this way.

There was a heavy frost at Gully September 4th. none here at all.

Ben Kvistie and ye scribe returned from McIntosh last Thusday.

Chicken hunters are feeding plenty of moskuitoes and getting a stray chicken, once in a while.

Miss Annie Olson, of Garnes is assisting Mrs. W. A. Swanson at preasent as assistant cook.

From reports in the papers we see that nearly all the harvest is done, but for facts we need not go far from our own country to see thosands of acrs of grain going to waste that can not be cut at all.

Mike Kolsei returned from Devils Lake N. Dak. last Wednesday. He reports crops good out there, but to much rain.

More rain, ground softer than ever. Thousands of bushels of grain will now go to waste in Red Lake county.

Everett Southmayd, of McIntosh one the most presperous merchants of that town, thinks he has now discovered how to deal those mail order houses a "knock out blow". Mr. Southmayd simply asks you to hand him the order that you are about to send and he will fill it for you at the same price, with the same goods, and throw in the freight charges free.

Her Endurance.

"How can you scold all the time?" was asked of the woman with five stepchildren and an indolent husband.

"I can't just explain it, but I know that I'm blessed with wonderful powers of endurance."

SOO WANTS A DULUTH LINE.

Crookston Times: The Soo track-layers are expected to reach Serls by next Tuesday and a mixed train service will be inaugruated between Thief River Falls and that point. Tracklaying from the Kenmere end of the line was started ten days or two weeks ago, and the track is now compleated 70 miles east of Kenmere. A prominent official of the company yesterday stated that it was expected that the line would be completed by the middle of November.

Asked regarding other extensions of the Soo this official stated that the Soo would do nothing more with extensions until a line had been compleated to the head of the lakes.

Big, Big Words.

"Those who are accustomed to ridicule present day scientists because of their fondness for big words," said the etymologist, "will find them much more moderate in the connection of words than the old timers.

"For instance, I have just come across the account of a scientific treatise published in the seventeenth century that contains words even much more cumbersome than its title, which, by the way, is 'Panzoologicomineralogia,' a good mouthful surely, yet the meaning is easily ascertained when the word is reduced to its component parts.

"The list of long titles that were then favorites would cause the modern book clerk a spasm, yet the list could be gone into indefinitely. A play in blank verse published in the latter part of the seventeenth century had as its alluring title 'Chrononhotonthologos,' and this was the opening sentence:

"'Aldeborontiphoscophornio, Where left you Chrononhotonthologos?'

"If the modern mouthing actor can hardly get simple Anglo-Saxon words over the footlights, how could he get along with that morsel?"—New York Herald.

Great Writers Not Correct Writers.

There is not a single great author in our literature in whose works numerous errors have not been pointed out or thought to be pointed out. They are charged with violating rules involving the purity if not the permanence of the language. A somewhat depressing inference follows from the situation thus revealed. The ability to write English correctly does not belong to the great masters of our speech. It is limited to the obscure men who have devoted themselves to the task of showing how far these vaunted writers have fallen short of the ideas of linguistic propriety entertained by their unrecognized betters. As a result of these critical crusades there is no escape from the dismal conclusion that the correct use of the language is not to be found in the authors whom every one reads with pleasure, but is an accomplishment reserved exclusively for those whom nobody can succeed in reading at all.—Professor Thomas R. Lounsbury in Harper's Magazine.

Squirrels Are "Handy."

The handiness of the squirrel is something extraordinary in the animal world. He sits up on his hind paws and uses the fore paws in many ways just as a man does. He strikes with it and wards off a blow from another, and squirrel quarrels rarely go further than attempts to cuff each other like children. A lady who lives in our county and who is the protector of squirrels in that region told me that she had contrived a little rack to be filled with nuts, so that they came to the opening singly, one dropping into the place as another was taken out; and this was fixed by her window so that she could watch the squirrels come. One day a squirrel took the last nut and was quietly eating it on the window bench when another came and, finding none in the rack, went up to the eating squirrel and gave him a deliberate box on the ear and went away.—W. J. Stillman in Century.

Two Kinds of Reading.

If we make the pages of our books merely a sort of pleasant maze in which to set our minds to wandering during idle hours we in reading shall have acquired a pastime that is usually harmless. But there is a vast difference between such a way of spending our time and the reading that teaches us to think as the greatest and wisest men and women have thought. Words stand in our minds for certain ideas or images. From what we read we learn to make these plain or hazy, clearly drawn pictures or carelessly executed sketches, and thus our powers of thinking are directly trained by our method of reading.—St. Nicholas.

Magnet Power.

The lifting of massive iron and steel plates weighing four, six and twelve tons by magnetism is now done every workday in a number of large steel works. The magnets are suspended by chains from cranes and pick up the plates by simple contact and without the loss of time consequent to the adjustment of chain and hooks in the older method. It is also found that the metal plates can be lifted by the magnets while still so hot that it would be impossible for the men to handle them. A magnet weighing 800 pounds will lift nearly five tons.

Great Grief and Head Shaving.

Among the ancients shaving the head was a very common mode of expressing great grief or sorrow. Sometimes it was done by the priest or some other religious functionary formally cutting off the hair, sometimes by violently plucking it out by the roots. In extreme cases among men the beard as well as the hair was either cut off or plucked out. The idea seems to have been that mourners should divest themselves of that which under ordinary circumstances was considered most beautiful, ornamental and becoming. Lucian—and he is not the only one of the ancient writers by any means who gives points on this queer mourning custom—says that the Egyptians expressed their intense sorrow by cutting off the hair upon the death of their god Apis and that the Syrians acted in the same manner at the death of Adonis.

Olympiodorus remarks concerning Job i, 20, that the ancients, among whom long hair was regarded as an ornament, cut it off in times of mourning, but that those who commonly wore it short suffered it upon such occasions to grow long.

Irish Surnames.

There is a magnificent sonority in the names of MacGiollanioholmoge, MacGulshenan, MacOiraghty, O'Dooyarma, O'Howley, O'Quigley, O'Mulcloby and O'Mulmoghery. Many of the names are extinct, but a large proportion are still in evidence, and, what is more, in nearly every case the families bearing them are to be found in the same localities formerly inhabited by them—Dohertys in Donegal, Driscolls in Cork, Macdermotts in Connaught, Meaghers in Tipperary and O'Sullivans in Cork and Kerry. It is a notorious fact that many of the families which have come to be regarded as typically Irish are of alien extraction. Thus the Plunketts are of Danish origin, the Burkes, Dillons, Roches, Husseys and all the tribe of Fitz are Anglo-Norman, while the Mitchells are English.—London Spectator.

A Tooth.

A tooth is a living structure. Inside of each tooth is a cavity filled with pulp, which gives it life. Nerves and blood vessels connect this pulp with the general system and circulation of the body. The ivory surrounding the pulp is covered over by a surface of enamel. Both ivory and enamel are harder than any other bones, because they contain a greater quantity of bone earth. Enamel on the tops of the teeth is one-sixteenth of an inch thick. It consists of little six sided prisms placed side by side and held together by an exquisitely fine cement. The pulp of the tooth becomes diseased and toothache follows. Tartar is a secretion made by three glands in the mouth, full of small, living organisms, which assimilate matter in the saliva and deposit it on the teeth in the shape of phosphate of lime.

Living Mummies.

Living mummies exist in Tibet, near Gyangtse, at a spot the name of which in English may be rendered as "the Cave of Happy Misery." There are about twenty small caves in the solid rock, each built up in front with stones and mortar. They have padlocked doors, tiny drains and small holes just sufficient for a man to pass his hand through. In these cells men are buried for life with the idea of thus "attaining merit." Once interned they are, in extreme cases, never seen again by mortal eye. Even the hand which they stretch forth from the small hole for their daily dole of food is covered by a glove. They speak to no one and no one speaks to them. Even their death is only made known when they fail for several days to stretch out the hand for food.

Persian Way of Eating Watermelon.

"The ordinary Persian bill of fare sounds something like the banquets described in fairy tales," said a man who has spent some time in the orient. "While traveling in that country I found that the best overture to a wayside repast is a watermelon, not cut in slices, as is done in this country, but eaten like an egg, one end being cut off and the contents eaten with a wooden spoon, the roseate fluid trickling all the time to the bottom and affording a fragrant drink when the first course is over."

The Potato.

The potato is one of the most valuable plants we have. Besides being one of the most necessary articles of food, it has a variety of other uses. A great quantity of the starch used in our laundries is made from it, and after the starch has all been separated from the pulp what is left is used in the manufacture of boxes. From the stems and leaves of the plant a fluid that produces sleep is made. In many places bread, cake and puddings are made of potato flour.

Enlightened.

Mother—Why aren't you and George as good boys as your little brother?
Young Hopeful—I s'pose it's 'cause you'd had more experience bringin' up boys when you commenced on him.—Home Notes.

Something For Him to Do.

"I am willing to do anything," said the applicant for work.

"All right," said the hard hearted merchant. "Please close the door behind you when you go out."

The Foolish and the Lazy.

The fool doesn't know a good thing when he sees it; the lazy man doesn't seize a good thing when he knows it.—Philadelphia Record.

To prevent writer's cramp, use the scissors instead of the pen. Lots of newspaper men are never affected by writer's cramp.—Boston Transcript.

The Englishman's Morning Tub.

Until the beginning of the seventeenth century English princes and other babes were immersed three times in the font when christened. The last Prince of Wales who was submitted to this ordeal appears to have been Arthur, the son of Henry II., who died in 1502 at the age of sixteen. The abolition of the practice was strongly objected to upon sanitary grounds by Sir John Floyer, a celebrated physician, who died in 1734. "Immersion," he says, "would prevent many hereditary diseases," and "the English will return to it when physic has given them a clear proof that cold baths are both safe and useful." So our morning tub is the outcome of royal immersion.—London Mail.

You will never get on the sunny side by waiting for the world to turn round.—Atlanta Constitution.

A Dream With a Moral.

A rich lady dreamed that she went to heaven and there saw a mansion being built. "Whom is that for?" she asked of the guide.

"For your gardener."

"But he lives in the tiniest cottage on earth, with barely room for his family. He might live better if he did not give away so much to the miserably poor folks."

Farther on she saw a tiny cottage being built. "And whom is that for?" she asked.

"That is for you."

"But I have lived in a mansion on earth. I would not know how to live in a cottage."

The words she heard in reply were full of meaning. "The Master Builder is doing his best with the material that is being sent up."

Then she awoke, resolving to lay up treasure in heaven.—Chicago Post.

DEFECTIVE PAGE

Wanted the Kiss.

George—I'd step over where you are and kiss you, only I'm afraid of upsetting the boat.

Dolly—Oh, George, don't you think that I can swim!—Town Topics.

Got Enough.

"Ferdy actually went hunting!"

"The idea! Did he bag anything?"

"Yes—the knees of his trousers. He'll never go again."—Cleveland Leader.

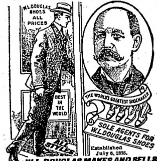
GOOD BLOOD FOR BAD

Rheumatism and Other Blood Diseases are Cured by Dr. Williams' Pink Pills.

"In the lead mines I was at work on my knees with my elbows pressed against rock walls, in dampness and extremes of cold," said Mr. J. G. Meukel, of 2975 Jackson avenue, Dubuque, Iowa, in describing his experience to a reporter, "and it is not surprising that I contracted rheumatism. For three years I had attacks affecting the joints of my ankles knees and elbows. My ankles and knees became so swollen I could scarcely walk on uneven ground and a little pressure from a stone under my feet would cause me so much pain that I would nearly sink down. I was often obliged to lie in bed for several days at a time. My friends who were similarly troubled were getting no relief from doctors and I did not feel encouraged to throw money away for nothing. By chance I read the story of Robert Yates, of the Klauer Manufacturing Co., of Dubuque, who had a very bad case of rheumatism. I decided to try Dr. Williams' Pink Pills for Pale People, the remedy he had used. In three or four weeks after beginning to use the pills, I was much better and in three months I was well. The swelling of the joints and the tenderness disappeared, I could work steadily and for eight years I have had no return of the trouble. My whole family believe in Dr. Williams' Pink Pills. Both my sons use them. We consider them a household remedy that we are sure about."

What Dr. Williams' Pink Pills did for Mr. Meukel they are doing for hundreds of others. Every dose sends galloping through the veins, pure, strong, rich, red blood that strikes straight at the cause of all ill health. The new blood restores regularity, and braces all the organs for their special tasks. Get the genuine Dr. Williams' Pink Pills at your druggists' or direct from the Dr. Williams Medicine Co., Schenectady, N.Y.

W. L. DOUGLAS
$3.50 & $3.00 SHOES FOR MEN
W. L. Douglas $4.00 Gilt Edge Line cannot be equalled at any price.



W.L.DOUGLAS SHOES ALL PRICES
BEST IN THE WORLD
ALL STYLES
THE WORLD'S GREATEST SHOEMAKER
SOLE AGENTS FOR W.L.DOUGLAS SHOES
Established July 6, 1876.

W.L.DOUGLAS MAKES AND SELLS MORE MEN'S $3.50 SHOES THAN ANY OTHER MANUFACTURER.

$10,000 REWARD to anyone who can disprove this statement.

W. L. Douglas $3.50 shoes have by their excellent style, easy fitting, and superior wearing qualities, achieved the largest sale of any $3.50 shoe in the world. They are just as good as those that cost you $5.00 to $7.00—the only difference is the price. If I could take you into my factory at Brockton, Mass., the largest in the world under one roof making men's fine shoes, and show you the care with which every pair of Douglas shoes is made, you would realize why W. L. Douglas $3.50 shoes are the best shoes produced in the world.

If I could show you the difference between the shoes made in my factory and those of other makes, you would understand why Douglas $3.50 shoes cost more to make, why they hold their shape, fit better, wear longer, and are of greater intrinsic value than any other $3.50 shoe on the market to-day.

W. L. Douglas Strong Made Shoes for Men, $2.50, $2.00. Boys' School & Dress Shoes, $2.50, $2, $1.75, $1.50

CAUTION.—Insist upon having W.L.Douglas shoes. Take no substitute. None genuine without his name and price stamped on bottom.

WANTED. A shoe dealer in every town where W. L. Douglas Shoes are not sold. Full line of samples sent free for inspection upon request.

Fast Color Eyelets used; they will not wear brassy.

Write for Illustrated Catalog of Fall Styles.
W.L. DOUGLAS, Brockton, Mass.

IMPORTANT FACTS FOR COW OWNERS

The mechanical Cream Separator has become a vital feature of every home dairy just as of every butter factory.

Its use means much more and much better cream and butter, as well as saving of water, ice, time and room.

The difference in results is not small but big. Few cows now pay without a separator. Dairying is the most profitable kind of farming with one.

98% of the creamery butter of the world is now made with De Laval machines, and there are over 500,000 farm users besides.

NEWS OF MINNESOTA.

Olmstead Wins.

Hamline.—Olmstead county receives the big end of the money for the best county exhibit, according to the state fair judges. The county was given a total of 1,100 points out of a possible 1,200. Houston comes second with 1,043.

In potatoes, culinary vegetables and fresh fruits Olmstead was far ahead of the others, while in tame grass, native grass and forage plants the county was tied with some of the others for first place. Wabasha got the greatest number of points for threshed grains, Houston first for grains in sheaf, the latter county being tied for first with Morrison on stock vegetables and also on arrangement.

Fully 300,000 people attended Minnesota's great annual exposition this year and the record made is a high one for coming years to meet. The number of tickets taken up was 273,054, but this does not include the army of 3,000 or more people who slept on the grounds all night, nor the other thousands who were admitted through the gate without tickets. Every day was a big day, the smallest attendance being on Thursday, when the turnstile count was 35,000. Time was when Wednesday and Thursday were the only days which brought out satisfactory crowds, but the people of the state have been educated to the fact that the fair is a six-day exposition, and that it is fully as attractive on Monday and Saturday as on any other day.

Poor Care of Cows.

St. Paul.—E. K. Slater, state dairy and food commissioner, reckons that the farmers of Minnesota are losing approximately $30,000,000 a year just because they do not take proper care of their cows.

In a series of tests conducted by the state department it was learned that one Minnesota cow in 1903 produced 476.2 pounds of butter, as compared with 166 pounds produced by the average cow. If the 435,740 cows which furnished milk to Minnesota creameries in 1903 produced as much butter as the best cow, the total would have been 207,412,240 pounds, instead of 72,266,348. This was a loss of 135,145,892 pounds, or butter worth $27,029,178.40.

Mr. Slater estimates that the total production of butter this year will approximate 80,000,000 pounds, so that if all cows produce as much this year as the best cow did in 1903, the saving to Minnesota farmers will be about $30,000,000.

Want Model Returned.

Minneapolis.—After nearly three years at Eue Claire, Wis., the full-sized model of the historic viking ship of Gokstad is to be returned to its former place in the Minneapolis public library, if an agitation started by the Norwegian Society of America is successful.

The model is of great value, being an exact reproduction of the viking ship unearthed at Gokstad, Norway, some twenty years ago. It was loaned three years ago to some persons in Eue Claire, to be used in a street parade, and has never been returned. Resolutions condemning those responsible for the loaning of the ship were adopted by the executive board of the Norwegian Society of America.

Plenty of Bears.

Duluth.—Five bears, one of them was an old one, and two cubs were shot and one cub was captured on the edge of Duluth's residence section.

Mrs. W. H. Sanford shot a half-grown bear that climbed a telephone pole in front of her house on East Fourth street. C. A. Waldriff, at Duluth Heights shot an old bear and cub that were investigating his pig pen. Arnold Fitzer captured a cub weighing thirty-five pounds in a yard on East Fifth street.

It is believed that these and other bears that have invaded the city of late were attracted by bee hives in a yard on East First street.

State Makes Loans.

The state board of investment, consisting of the governor, the state auditor and the state treasurer, at its monthly meeting approved loans to the amount of $173,960. Most of these were to school districts and a few villages, counties and townships. This makes a total of nearly $700,000 loaned by the state during the year.

Regarding the funds available for making the loans, State Auditor Iverson said that there is now on hand in the trust fund $192,000 available for this purpose and in seven or eight weeks there will be $250,000 or $300,000 more.

News Notes.

St. Paul—The state board of equalization raises the valuation of blooded horses.

Mizpah—Another black bear came on Main street, and after being turned back was shot at the edge of the village.

Cokato—Ben Brown sold his 260-acre farm here to Carlson Bros. of Chicago for $15,000, including crops and stock. This is the largest deal made here in many years.

Northfield—Gov. John A. Johnson delivered an address at the opening of Carleton college. The college chapel was filled to overflowing, many of the parents of the students and citizens attending.

St. Paul—T. D. O'Brien, insurance commissioner, thinks that the Northwestern National Life Insurance company of Minneapolis has a perfect right to substitute its own policy contracts for those of the old Northwestern National Savings association of Iowa, which it absorbed, when the parties holding the former Iowa company's contracts request the change.

Made to Order.

A small girl was taken violently ill from an over indulgence in unripe fruit. Her mother telephoned for the nearest doctor, whose telephone number proved to be surprisingly appropriate to the occasion, "Eight-one-two-Green."—Lippincott's.

Already Proved.

"Is the prosoner going to plead insanity as his defense?" asked the judge.

"Judging from his selection of counsel," whispered a barrister, who had failed to get the brief, "I should say he was!"—Stray Stories.

The theory that the scarcity of servant girls is due to their all having become novel writers probably originated with some one who was trying to account for the quality of current fiction.—Kansas City Journal.

Could Get No Rest.

Freeborn, Minn., Sept 18th (Special).—Mr. R. E. Goward, a well-known man here, is rejoicing in the relief from suffering he had obtained through using Dodd's Kidney Pills. His experience is well worth repeating, as it should point the road to health to many another in a similar condition.

"I had an aggravating case of Kidney Trouble," says Mr. Goward, "that gave me no rest day or night, but using a few boxes of Dodd's Kidney Pills put new life in me, and I feel like a new man.

"I am happy to state I have received great and wonderful benefit from Dodd's Kidney Pills. I would heartily recommend all sufferers from Kidney Trouble to give Dodd's Kidney Pills a fair trial, as I have every reason to believe it would never be regretted."

Dodd's Kidney Pills make you feel like a new man or woman, because they cure the Kidneys. Cured kidneys mean pure blood, and pure blood means bounding health and energy in every part of the body.

Never marry for money unless you can't get it any other way.

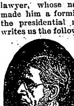
Piso's Cure for Consumption is an infallible medicine for coughs and colds.—N. W. Samuel, Ocean Grove, N. J., Feb. 17, 1900.

Nonsense is the sense that differs from our own.

U. S. SENATOR TOWNE

Credits Doan's Kidney Pills With a Gratifying Cure.

Hon. Charles A. Towne, Ex-U. S. Senator from Minnesota, brilliant orator, clever business man, brainy lawyer, whose national prominence made him a formidable candidate for the presidential nomination in 1904, writes us the following:



"Gentlemen: I I am glad to endorse Doan's Kidney Pills. The remedy was recommended to me a few months ago when I was feeling miserable; had severe pains in the back; was restless and languid; had a dull headache and neuralgic pains in the limbs and was otherwise distressed. A few boxes of the pills effectually routed my ailment and I am glad to acknowledge the benefit I derived.

(Signed) CHARLES A. TOWNE.

SHE NEVER "BOARDED."

Railway Term Carried with It a Suspicion of Base Insinuation.

"It was in the Boston subway that this occurred," said a Providence business man, according to the Journal, and frequently journeyed to the Hub, "and I was an interested observer. I don't know whether you'd call it an accident or a tragedy. I suppose the woman in the case regarded it as a tragedy.

"In alighting at that station near the Common, where I also happened to get off, a blundering, awkward hulk of a passenger who was all feet stepped on her, and made her skirt look as though it had been through a mangler.

"She was in a state of mind, of course, and no one could blame her; but the worst was yet to come. An alert official, notebook in hand, hurried up to her, anticipating trouble for the road.

"'Where did you board, madam?' he inquired.

"'Board!' she ejaculated indignantly, with a rising inflection, and speaking so that she could be heard above ground. 'I never boarded in my life.'"

CUTICURA PILLS

For Cooling and Cleansing the Blood in Torturing, Disfiguring Humors —60 Chocolate Pills 25c.

Cuticura Resolvent Pills (chocolate coated) are the product of twenty-five years' practical laboratory experience in the preparation of remedies for the treatment of humors of the skin, scalp and blood, with loss of hair, and are confidently believed to be superior to all other blood purifiers, however expensive. Complete external and internal treatment for every humor may now be had for $1.00, consisting of Cuticura Soap to cleanse the skin, Cuticura Ointment to heal the skin, and Cuticura Resolvent Pills to cool and cleanse the blood. A single set is often sufficient to cure.

People taint themselves for money, but the money isn't tainted. Even if it were, it would take off the taint to apply it to a good purpose.—Brooklyn Eagle.

Interesting to Students.

The schools and colleges will soon open for the fall term, and there will be many self-reliant young men and women who will be looking for a good way to earn their expenses. The Four-Track News, the great illustrated monthly magazine of travel and education, appeals to intelligent readers, and students will find it easy to secure subscriptions for it. The terms to persons soliciting subscriptions are extremely liberal, and offer a very generous margin of profit. It will pay any one interested to write to the publisher, George H. Daniels, 7 East 42nd Street, New York, for full particulars.

A practical politician is one who can induce the other man to put up the expenses of the campaign.—Atlanta Journal.

The Splendid Passenger Service of the Nickel Plate Road

has become popular because of the care and attention shown patrons of this line. Colored Porters in uniform are in attendance on both 1st and 2nd class passengers. Ladies traveling alone or accompanied by children are shown special attention. Excellent Dining and Sleeping Car Service, and no excess fares charged on any train. All trains depart from La Salle Street Station, Chicago. For full information regarding tickets, rates, routes, sleeping car space, etc., call on or address J. Y. Calahan, General Agent, 111 Adams St., Chicago.

Next to a good cook the most important thing in your house is to get along with your wife.—Philadelphia Inquirer.

Tired, Nervous Mothers

Make Unhappy Homes—Their Condition Irritates Both Husband and Children—How Thousands of Mothers Have Been Saved From Nervous Prostration and Made Strong and Well.

Mrs. Chester Curry
Mrs. Chas. F. Brown

A nervous, irritable mother, often on the verge of hysterics, is unfit to care for children; it ruins a child's disposition and reacts upon herself. The trouble between children and their mothers too often is due to the fact that the mother has some female weakness, and she is entirely unfit to bear the strain upon her nerves that governing children involves; it is impossible for her to do anything calmly.

The ills of women act like a firebrand upon the nerves, consequently nine-tenths of the nervous prostration, nervous despondency, "the blues," sleeplessness, and nervous irritability of women arise from some derangement of the female organism.

Do you experience fits of depression with restlessness, alternating with extreme irritability? Are your spirits easily affected, so that one minute you laugh, and the next minute you feel like crying?

Do you feel something like a ball rising in your throat and threatening to choke you; all the senses perverted, morbidly sensitive to light and sound; pain in the ovaries, and especially between the shoulders; bearing down pains; nervous dyspepsia, and almost continually cross and snappy?

If so, your nerves are in a shattered condition, and you are threatened with nervous prostration.

Proof is monumental that nothing in the world is better for nervous prostration than Lydia E. Pinkham's Vegetable Compound; thousands and thousands of women testify to this fact.

Mrs. Chester Curry, Leader of the Ladies' Symphony Orchestra, 42 Saratoga Street, East Boston, Mass., writes:

Dear Mrs. Pinkham:—

"For eight years I was troubled with extreme nervousness and hysteria, brought on by irregularities. I could neither enjoy life nor sleep nights; I was very irritable, nervous and despondent.

"Lydia E. Pinkham's Vegetable Compound was recommended and proved to be the only remedy that helped me. I have daily improved in health until I am now strong and well, and all nervousness has disappeared."

Mrs. Charles F. Brown, Vice-President of the Mothers' Club, 21 Cedar Terrace, Hot Springs, Ark., writes:

Dear Mrs. Pinkham:—

"I dragged through nine years of miserable existence, worn out with pain and nervousness, until it seemed as though I should fly. I then noticed a statement of a woman troubled as I was, and the wonderful results she derived from Lydia E. Pinkham's Vegetable Compound, I decided to try it. I did so, and at the end of three months I was a different woman. My nervousness was all gone. I was no longer irritable, and my husband fell in love with me all over again."

Women should remember that Lydia E. Pinkham's Vegetable Compound is the medicine that holds the record for the greatest number of actual cures of female ills, and take no substitute.

Free Advice to Women.

Mrs. Pinkham, Lynn, Mass., invites all sick women to write to her for advice. Mrs. Pinkham's vast experience with female troubles enables her to tell you just what is best for you, and she will charge you nothing for her advice.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

Suffered 23 Years from Constipation and Stomach Trouble

Wilbert Thompson never knew a well day—he had been constipated all his life—many doctors treated him, but all failed to even help him—his health failed rapidly and on January 21, 1903, Mrs. Thompson asked us to suggest a treatment for her husband. We thought the case too serious and recommended that a specialist be consulted—but he also failed to help the patient—NOW HE IS WELL.

MR. and MRS. WILBERT THOMPSON,
801 Main St., Peoria, Ill.;
MULL'S GRAPE TONIC CURED HIM.

Mull's Grape Tonic Cured Him

Mrs. Thompson first wrote us as follows: "My husband, aged 23, suffers from sharp pains in his stomach and sometimes thinks it is his heart. Let me know by return mail what causes the pain, if you can. Mr. Thompson has been treated by several doctors, but they have given him up."

We promptly advised that a first-class specialist be consulted. We quote: "We want to sell Mull's Grape Tonic, because we know it will cure constipation, but 50c. a bottle is no object to us when a human life is at stake, and if your husband's case is as serious as you state, we suggest you consult a reliable specialist, not the advertising kind, promptly." At the same time, knowing that Mull's Grape Tonic could do no harm, we advised its use until a physician could be consulted. January 25th, Mrs. Thompson wrote that a physician had been consulted. He diagnosed the case as being chronic constipation and dyspepsia. His treatment was followed faithfully, but there was no perceptible improvement in Mr. Thompson's health. Then he began taking Mull's Grape Tonic and on September 3, 1903, we received the following letter from Mrs. Thompson:

"You will remember that I wrote to you last January in regard to my husband's health. It is four months since he quit taking Mull's Grape Tonic for constipation, which he suffered from since birth. He took just 24 bottles of it and is perfectly cured. He is much stronger and has gained considerably in flesh. I cannot thank you enough for Mull's Grape Tonic. 'It is worth its weight in gold.' Just $12 cured him and he has spent hundreds of dollars with doctors who did him no good. It did all you claimed it would."

Very respectfully yours, MRS. W. H. THOMPSON, 801 Main St., Peoria, Ill.

Mr. Thompson stopped taking Mull's Grape Tonic in June, 1903. He has been completely cured and has taken no other medicine since that date. Almost two years and no return of the disease, should prove a permanent cure.

It Will Cure You--Begin Today

CONSTIPATION

Stomach Troubles, Indigestion, Dyspepsia, Blood Poison, Skin Diseases, Sores, Sudden Bowel Trouble, Diarrhea, Cholera, Etc.

No one whose bowels are healthy and active contracts these complaints. Invariably they are the result of Constipation which means decayed, poisoned and dying bowels or intestines. Check diarrhea and you are liable to fatal blood poison—a physic makes you worse. There is only one right course and that is to treat the cause. Revive and strengthen the bowels and intestines. We will prove to you that Mull's Grape Tonic cures Constipation and all these terrible Stomach and Bowel troubles because it cleanses the Blood and makes the intestines practically new. It feeds the starved condition and brings them back to life—nothing else will.

LATE FOREIGN DISPATCHES

Interesting Items of News Gathered from All Parts of the Globe and Outlined in the Briefest Manner Possible.

THE INSURANCE PROBE.

John A. McCall, president of the New York Life Insurance company, testifying in the legislative inquiry, declared that Alton B. Parker, as chairman of the democratic state committee, never refused a dollar of corporation money for campaigns. Mr. McCall admitted that Andrew Hamilton, the company's legislative and tax agent, had a fund of $235,000 for which he gives no account except to the president.

Alton B. Parker issued a statement in which he declares that neither directly nor indirectly did he solicit money from any corporation in the campaign of 1904.

President Roosevelt, after a conference, decided to assail in his next message, the policy of accepting campaign contributions from life insurance companies and similar concerns. He also urges that the republican national committee return the money illegally given it.

Vice President Perkins admitted to the legislative committee that the New York Life paid Morgan six per cent. on $800,000 purchase money in an overnight "sale" of bonds previous to the report to the commisisoner. He also acknowledged "selling" $1,275,000 New Orleans bonds for $937,000 a year later.

A cable dispatch has been received from Andrew Hamilton, who is in France, to the effect that the $1[illegible]0,000 received by him from the New York Life Insurance company, in March, 1904, was not used for influencing state legislation.

President Morton ordered suit to recover more than $1,000,000 which he says was paid without authority under the old Equitable regime on loans for which the society should not be held responsible.

The financial secretary of the Equitable told the legislative committee that Hyde and other trustees had taken immense sums from the treasury for speculation without an accounting.

YELLOW FEVER SITUATION.

The New Orleans yellow fever record to date is: Deaths, 341; total cases, 2,605.

The Illinois health board ordered St. Louis physicians to cease examining passengers at Sparta, Ill., and Missourians threaten to establish quarantine on the bridge connecting the two states.

New Orleans is preparing for President Roosevelt's visit, not anticipating trouble with quarantine regulations.

Believing, after a conference with Dr. White, that the fever situation is under control, President Wilson recommends to the New Orleans school board that the public schools be opened on October 2.

MISCELLANEOUS.

Two Cuban leaders and four others were slain and 25 persons injured in a political riot at Cienfuegos. Congressman Villuendas is among the victims. A train load of guards has been sent to preserve order. The tragedy stirs the island.

Miss Alice Roosevelt has received rich gifts from royalty approaching $100,000 in value during her tour in the far east.

Thomas H. Davies, of the firm of Thomas H. Davies & Co., Chicago, was arrested and his offices raided as a bucket shop. Liabilities are estimated at $17[illegible],000.

A fresh wave of indignation has swept over Japan at the knowledge that the island agrees in the peace terms not to fortify Soya straits.

The dispute between France and Venezuela has reached a crisis and a joint naval demonstration by France and the United States is suggested.

H. Francis Allen, 70 years old, a wealthy retired merchant of Plainfield, N. J., has been sued by Joseph B. Harkins, 23 years old, who alleges alienation of his wife's affections.

Trade shows a distinct gain for the week in comparison with the same time last year, crop reports are reassuring, and evidences of continued activity are noted in almost every department of industry.

Former Congressman and former Governor of Virginia Charles T. O'Ferrall is dead. Gov. O'Ferrall had been in failing health for over a year.

An agent of the czar is reported negotiating in England for a new fleet.

Joseph L. Naar, editor and publisher of the True American, of Trenton, N. J., died as the result of a stroke of apoplexy. Mr. Naar was about 60 years old, and was one of the leading democratic editors of the state.

The powers are watching negotiations between Russia and Germany which are expected to result in a treaty of mutual defense. A new triple alliance is predicted.

Federal officials in Chicago declare no leniency will be shown indicted packers and that the accused will not be permitted to escape jail by pleading guilty.

It is said that the fining of packers by Chicago courts in the rebate cases will be used by the railways as an argument against rate legislation, it being argued that the success of the government shows that it has enough power.

Rufus Binyon (colored), who murdered his stepdaughter at Ran, in 1900, was executed at Ardmore, I. T. This was the first legal execution ever held in that district.

The number of direct memorials to the Emperor of Japan from different associations and individuals condemning the peace treaty and asking that it be not ratified exceeds 40.

A Kentuckian upon his arirval home after an absence of several days grasped his six-year-old daughter by the chin to kiss her, lifting her head back. The little one sank to the ground dead. A physician found that her neck had been broken by her father.

Audubon Boy equaled the world's record for pacing, held by Star Pointer, at the Readville (Miss.) trotting park, traveling an exhibition mile in 1:59¼.

Peoria, Ill., has been selected as the meeting place of the National Rural Mail Carriers in 1906.

Dr. Francisco Garcia Calderon, formre president of Peru, is dead.

A mail train on the Pennsylvania railway struck a buggy, near Winamac, Ind., instantly killing Miss Minnie Enyart, 14 years old, and slightly injuring her sister, Miss Blanch Enyart.

Francis H. Peabody, member of the Boston banking firm of Kidder, Peabody & Co., died suddenly of heart disease at his home at Beverly Cove, Mass. He was 71 years of age.

Capt. W. Boismann, a prisoner of war and commander of the Russian battleship Peresviet, has died at Matsuyama.

Four officials of Schwarzschild & Sulzberger, the packing firm, pleaded guilty in Chicago to indictments charging them with conspiracy to accept railroad rebates. They were fined a total of $25,000, which was at once paid.

Five men were killed and eight others seriously injured in a collision between a pay train and a combination passenger and milk train on the Philadelphia, Harrisburg and Pittsburg branch of the Philadelphia & Reading railroad at Roush's curve, at Mount Holly Springs, Pa.

The project for granting the Russian people the right of assembly for political discussion is completed and awaits the action of the czar, who, it is expected, will put the reform into effect next week.

President Roosevelt will send a formal note to the czar expressing America's approval of the plans for a peace conference.

Shortage of cars at Chicago blocks the movement of wheat in the northwest.

Calabria province, Italy, was shaken by more earthquakes and torrential rains add to the suffering of the people.

China reports a large increase in customs receipts, adding greatly to the nation's resources.

The town of Sutera, in Sicily, was partly buried by the caving-in of mines, and many persons were killed or injured.

President Roosevelt and naval experts will ask congress to provide for three new battleships of 18,000 tons displacement, with cruisers, torpedo boats, and other small craft. The plans include an increase in the enlisted force to 40,000 men.

Several Norwegian newspapers are opposing the offer of the throne to Prince Charles of Denmark and demand that the people be given opportunity to choose between monarchy and republic.

A mob of 10,000 clamored before the doors of the banking house of Schiff & Co., Chicago, when a run on the institution was started by a rumor that Schiff is a bankrupt and has fled.

The committee to consider a change in the date of the president's inaugural called a meeting for November 9.

Dispatches from the famine districts of Andulasia, Spain, say that entire trains of emigrants are leaving to embark for South America. Many families are abandoning their homes and farms. Some villages in Galacia have been totally deserted.

Cuba has apologized to the United States for an insult to the coat of arms, blaming political foes of the Palma administration.

The commissioner of pensions reports the work of his bureau as being nearly abreast of the applications, which show no dimunition in number.

Col. H. V. Speelman, of Cincinnati, was chosen commander-in-chief and Peoria, Ill., was selected as the next place of meeting at the encampment of the Sons of Veterans at Chattanooga, Tenn.

Members of congress urge taxing alcoholic medicines as a means of providing needed revenue to the government.

The Russian and Japanese squadrons, commanded respectively by Rear Admiral Jensen and Vice Admiral Kamimura met in Koruiloff bay September 16 and the admirals arranged the terms of the naval armistice.

King Alfonso signed the treaty of general arbitration between Spain and Belgium.

On Beatty's ridge, in Switzerland county, Ind., George Ford, who is believed to be insane, cremated his wife and three children by setting fire to the house in which they were asleep. All four perished in the flames.

Two young children of Albert Bresthaupt, Violet, aged 11, and Harry, aged nine, were smothered to death by the cave-in of a playhouse they were digging in the side of a hill on their father's farm near Traverse City, Mich.

Ole Hagen, a farmer, and Andrew Gilbertson were instantly killed by the explosion of a threshing engine boiler on a highway near Newmarket, Minn.

Thousands of Italians celebrated in Rome the papacy's fall from temporal power and decorated the graves of many of the patriots.

Rev. Paul Matthews, dean of the Cincinnati cathedral, was elected bishop-coadjutor of the Protestant Episcopal diocese of Milwaukee.

An anti-peace meeting in Tokio called on the Japanese cabinet to repudiate the peace treaty or resign.

Former Alderman Murphy testified before a Milwaukee grand jury that he was offered money and immunity if he would give testimony against Charles F. Pfister.

James J. Hill, speaking at a Minnesota fair, said government control of railways would ruin farmers of the northwest.

The republic of Panama has opened negotiations with Costa Rica looking toward annexation by the older nation. America probably will not oppose.

It can now be stated definitely that the exchange of the ratification of the treaty of peace between Japan and Russia will take place in Washington shortly after the treaty has been ratified by the respective sovereigns.

Mrs. Charles Walcott, one of the oldest women on the American stage, was stricken with paralysis at her home near Rhinebeck, N. Y. She is 70 years old.

William H. Hunt, former president of the defunct Pan-American bank, was sentenced, in Chicago, to serve an indeterminate term in the penitentiary at Joliet, and to pay a fine of $298 as punishment for receiving deposits after he knew his bank to be insolvent.

The Carnegie library at Portland, Ind., has been closed owing to lack of funds to support it, and it is probable that Mr. Carnegie will be asked to take back the library, which was erected with his gift of $15,000.

Frank Wood, a saloonkeeper at Ballentine, Mich., killed his wife in a quarrel Her body was cut to pieces with a knife and she must have fought desperately.

Two men were killed and over 40 persons more or less injured in a railroad accident near Harney, Nev., on the Oregon Short Lone division of the Southern Pacific.

Ross J. Alexander, Indian commissioner under the second Cleveland administration, died at Bridgeport, Conn., of Bright's disease.

At Wausaukee, Wis., Joseph Crambeau, seven years old, a confirmed firebug, burned his infant sister to death in her cradle while left to care for her. His mother saved the home and rescued the boy.

Frank D. Reed, former cashier of the bankrupt German-American bank of Sidney, O., was found not guilty by a jury of the charge of embezzlement upon which he was indicted.

Disastrous fires in the mountains of Rowan county, Ky., destroyed thousands of valuable trees.

Dr. Thomas John Barnardo, of London, the well-known founder and director of philanthropic institutions by which over 55,000 orphan waifs have been rescued, trained and placed out in life, is dead.

The action of the czar in inviting a second peace conference at The Hague is declared without intent to take credit from President Roosevelt. The latter is said to have cordially accepted the move of Nicholas.

The Minot national bank, of Minot, S. D., closed its doors because of bad loans.

Emperor Nicholas has issued invitations to the powers for a second peace conference at The Hague. President Roosevelt yielded the honor of summoning the governments to the initiator of the first meeting and it is believed that the call, made in secret, already has been delivered.

The weather bureau reports that the past week has been generally favorable for crops, although in the central west rain has damaged the corn to some extent.

Gov. Hanly, of Indiana, in a public speech, charged Sherrick, the dismissed auditor, with squandering the money of the state in drink and gambling and with being an active agent of railroads.

The Des Moines Capital appeals to Iowa republicans to get together for Secretary Shaw for the presidency.

The coal operators, it is announced, will refuse the eight-hour day demand made by the miners.

As the result of four fires inquiry will be made into an alleged plot to destroy the forts in New York harbor.

WASHINGTON GOSSIP

NATION'S CAPITAL A CHILLY PLACE TO HEROES.

A HISTORIC OLD TAVERN

Odd Bits of Information from Uttermost Parts of Earth in Present Consular Reports.

WASHINGTON—The citizens of Washington, as a rule, are the most undemonstrative lot in the country. They are most phlegmatic in sentiment. It has been frequently remarked that noted men and heroes who have received the most enthusiastic receptions in other parts of the country have met with only a Chautauqua salute in the national capital. The cause of this seeming indifference undoubtedly lies in the fact that great men are as common in Washington as blackberries. You could not throw a stone on Pennsylvania avenue without striking some distinguished character.

Despite this apathetic air the people of Washington propose to wake up and show the country that they are not indifferent to their own distinguished citizens, among whom they always claim the president of the United States. They now propose to give Mr. Roosevelt a fitting reception upon his return to the capital on September 30. They do not intend to have the garish display that other cities might get up for such an occasion, but the plan is to have the citizens assemble by the thousand along Pennsylvania avenue from the railroad station to the white house and applaud the president as the latter drives from the train to his official home. There will be no military display and no firing of cannon, but just such a reception as the recherche populace of this ultra conservative town might be expected to give. The Chautauqua salute was first discussed, but a compromise has been suggested which is likely to be adopted and that is to use small American flags instead of handkerchiefs in waving the salute.

There will be no speeches at this reception much to the regret of the honorable commissioners who are gifted in this line. It is remembered that two years ago when a similar demonstration was gotten up to welcome the president home from a western tour, the official orators drew up before the executive as he alighted and prepared to deliver a formal speech of welcome. Mr. Roosevelt waved them aside, sprang into his carriage and at once entered upon the drive to the white house. There will be no wasted efforts on oratory this time.

The Prince at Newport.

THERE will be a gay old time at Newport the latter part of this month, or early in October, when Admiral Prince Louis of Battenburg with the second British North Atlantic squadron visits that noted resort. To have a member of a royal family and especially of the British royalty as a guest "in their midst" is a sensation that will bring the Newporters back to their summer haunts. The time of Prince Louis' visit will be after the regular Newport season closes, but arrengements are already being made to reopen some of the most fashionable and gay houses on the island. The royal guest will not want for entertainment and his staff of naval officers will be given a sample of genuine American hospitality.

Officials of the navy department will welcome all social attentions that can be accorded the British sailor men. They desire to have returned to the latter some of the courtesies that have been showered upon American officers abroad. To avoid an embarrassing contretemps, the ceremonies of reinterring the body of John Paul Jones have been postponed from this September 23 to April 24 of next year. The first date had been selected as it was the anniversary of the greatest exploit of the intrepid Jones when he whipped the Serapis with the Bon Homme Richard. Unfortunately this date would fall about the time Prince Louis visits this country and it might have been just a little embarrassing to him to have that little affair of the revolution recalled. The date next April is the anniversary of the captures of the British ship Drake by Commodore Jones and will answer just as well for the ceremonies at Annapolis when the remains of "The Father of the American Navy," as he is known, are laid to rest for all time.

Memento of George Washington.

ONE by one the old landmarks and historical places about Washington are removed or changed but one interesting old tavern seems destined to remain for some time as a memento of George Washington's time. An attempt was recently made to sell the historic building but no one appeared to bid what it was worth and it has been taken out of the market. This is an old frame building in West Washington, or what is better known as Georgetown, and is said by antiquarians to be what was once the famous Suter tavern. One hundred and fourteen years ago Suter was host to General Washington and Mr. Jefferson at this old building. The "Father of his Country" often refreshed himself at Suter's tavern when he was engaged in securing for the government the land that eventually became the District of Columbia. He spoke very highly of the food and drink to be obtained at the old hostelry.

Suter was a Scotchman and imported his whiskey directly from his native land. He got his rum from Jamaica and his brandy from the London docks. In spite of the ascetic look on Thomas Jefferson's face, the original democrat was a judge of good living and of good liquors. When he was minister to France he visited the celebrated wine vineyards of Europe and selected choice vintages for his own cellar in America. His tribute to old Suter was therefore worth something when he said: "No man on the Atlantic coast can bring out a better bottle of Madeira or sherry than old Suter."

Washington frequently met with the commissioners who laid out this city at the Suter tavern. In his notes is found a memorandum of a day in March, 1791, when he left Bladensburg, some eight miles out, and reached Suter's before eight o'clock in the morning. "A few miles out of town," he says, "I was met by the citizens of the place and, escorted in by them, dined at Suter's tavern, where I also lodged."

Editor of the Consular Reports.

BUSINESS WORLD

MAJOR JOHN M. CARSON, for over 30 years one of the best known of the corps of Washington correspondents, now at the head of the bureau of manufacturers, in the department of commerce and labor, has brought his old newspaper and editorial instincts into service in editing the daily consular reports which have become so valuable to the business world. Our consuls have developed the writing habit to a greater extent than formerly and are encouraged by the state department to send in reports on all matters of general business interest as well as the odd and interesting things they run across in their duties. Maj. Carson takes these reports and with a trained mind is able to extract from them the paragraphs that are of especial value to American readers. He has also changed the form of the daily publication so that it conforms to some extent with the daily newspaper in makeup, the arrangement of heads, subheads, etc. The pamphlet is still of the mallaole size, 6x9, but it has been very much improved in typographical appearance and in the readable character of its contents.

Some queer bits of news come out in Maj. Carson's little publication. News from the uttermost parts of the earth appears and the land of mythology and ancient history is made to contribute to the daily melange. A recent contribution came from the far off land of Mesopotamia, a name that brings up Sunday school days and scriptural jaw breakers. We are informed by the correspondent from that land of dim history that great improvements are going on there, just as we might hear of developments in the wheat country of Canada. We are told that "rational methods of farming" have been introduced during the past ten years in Vilajet Mossul, on the middle Tigris. The Bedouins are giving up their nomadic habits and are becoming an agricultural people. They are leaving the neighboring steppes and are becoming permanently domiciled upon the land. There are railroads, steam boats, electric cars, etc., in this land of romance. This is a sample of the news gathered by the manufactures bureau from the ends of the earth.

BOMBS THROWN IN CHINA

WU TING FANG FORMER AMERICAN MINISTER SLIGHTLY INJURED.

Four Chinese Officials are Killed and Twenty Hurt by the Explosion. The Assassin was Completely Blown to Pieces.

Pekin, Sept. 25.—At the Pekin railway station yesterday, as the train carrying one of the four missions ordered abroad to study foreign political methods was leaving, a bomb was exploded inside a private car, killing four minor officials and wounding over 20 other persons.

The wounded include Prince Tsai Tohe, who heads the most important mission, and Wu Ting Fang, former minister to the United States, both of whom received slight injuries.

The perpetrator of the outrage, who was in the car, was blown to pieces.

The affair has created a profound sensation and causes apprehension regarding the safety of members of the court and leading officials of the government.

The government offices and the railways are now strongly guarded.

A dispatch from Pekin, Aug. 29, said that the missions were appointed to study foreign systems of government because the dowager empress intended to issue a decree at the new year for the establishment of a parliament twelve years hence.

Washington, Sept. 25.—When the dispatch containg an account of the explosion of a bomb in a private car was shown to Sir Chung Liang Cheng, the Chinese minister here last night said:

There are two parties in China, the new reform party, which is desirous of having the people and government profit by the adoption of whatever is found good in occidental civilization and methods, and the party that you call anarchists in this country,

The leaders of the latter are really devoid of any principles, whether of government or anything else; envy and jealousy being the motives that actuate their actions.

TAPPED THE WIRES

And Got $3,800 From a Gettysburg Bank, But Was Soon Afterward Arrested.

Sioux Falls, S. D., Sept. 23.—Charged with being the principal in an ingenious wire tapping scheme by which $3,800 was secured from a bank at Gettsburg, S. D., B. H. Dunham was arrested here. A telegraph operator, who had acted as Dunham's accomplice, gave to the police the information that led to Dunham's arrest.

Dunham, who is also known as D. O. Miles, is charged with presenting himself a cattle buyer of Miles City, Mont. He is charged with having applied to the Gettysburg bank for $3,800, giving a Chicago bank as reference, and asking that the Chicago concern be wired as to his financial standing. His accomplice, it is charged, stationed himself several miles from town, tapped the wire and intercepted the Chicago message.

Four hours later the wire tapper sent a reply, ostensibly from the Chicago bank and of such a character that the money was paid to Dunham by the Gettsburg bank. The arrest of Dunham followed immediately.

Wheat Above Estimate

Pierre, S. D., Sept. 25.—The census bureau has completed crop figures on wheat and corn production of the state for 1904 showing the wheat yield of the state for that year to have been, outside of macaroni, 24,182,085 bushels. Last January Secretary Robinson in his crop estimates placed the yield of the state for that year at 24,150,000 bushels. The facts as shown by the census figures are gratifying to him, as they so nearly approach his estimate. The corn yield for the year is shown to have been 39,449,963 bushels.

Stevens Bill.

Washington, Sept. 25.—While the suggestion of Representative Tawney of Minnesota that the house should await action of the senate on the railroad rate question has attracted some attention here, present indications are that the two houses will take up the subject concurrently this winter.

Representatives Esch and Townsend have been working on their bill, incorporating in their measure, it is understood some of the provisions of the Stevens' private car bill already introduced.

Butte is Fire Swept.

Butte, Mon., Sept. 25.—Fire causing a loss estimated at about a million dollars yesterday consumed the entire business portion of Butte lying between the Shodair block and Renshaw alley on the south side of West Park street, and half destroyed the public library.

DEFECTIVE PAGE

THE SUNBEAM.

BY W. G. HUNT.

Published every Friday, at Sunbeam, Red Lake County Minnesota.

Subscription price $1.00 per year in advance. If not paid in advance $1.50

Charles Town has discovered a new method for the keeping of his name continualy before the public, as ex- U.S. Senator from Minnesota. He now has his picture at the head of an advertsetment for pills.

When the Soo gets their line through from Thief River Falls to Duluth and a new city starts to build up out this way, near the center of the county, we will be ready to get into the county seat removel deal, so as to get the county seat where it would best accomidate all the people.

If the logs that belong below Thief River Falls were sorted out and sent on down the river to where they belong, it would help some to give the water an opportunity to get out and relieve the continual floods on the upper end of the river.

President Roosevlet is requested to try and settle the strike that is on tap of the anthracite coal miners in Pennsylvania We wonder if he could not be prevaild upon to settle the county seat war, between Red Lake and Thief River Falls

Where are we at? Has this nation become a nation, of "grafters"? About the first hedline you read in the daily papers of the preasent time informs you that another grafter has been caught The latest graft that is to be envestigated is the graft from the prize fighters. by the legislature of Califonia to allow prize fighting in that state.

It is certainly enough to make a farmer discouraged to see his crop going to waste that he has worked hard through the spring to plant. A farmer who has his horses mired in the mud near his barn, and his grain standing in the field three weeks after it is fit to be cut, with his farm turned into a mire hole, by excessive rains, must be in a state of mind that would make him insane to the extent of not being responsiable for a crime accidently committed in the heat of passion.

DRAINAGE AND DAMS.

There was a big flood in Kansas and Missouri a few days ago, but it has already abated. The water ran down hill. That is the way it has. We do things better up here. When there is a flood we dam up the outlet and keep it on hand.—Duluth News Tribune.

That is just what has been done with the Red Lake River above Thief River Falls this season. While there has been an abatement to the high water below that point and on the Clearwater river, the people living on the Red Lake river above The Falls have had a continuative flood all summer. It easy to locate the cause by going down to Thief River Falls and seeing that log jam, which is from two to five miles long and is kept there in the main channel of the river from spring until fall daming up the outlet provided by nature for the water to run through and keeping the river continuolsly at high water mark.

What is the use for the state of Minnesota to appropriate large sums of money to drain and reclaim wet lands and make them fit for farming and then allow a corporation to dam up a river and turn thousands of acre's of good agricultural and meadow lands into a swamp, and making it absolutely worthless.

RAILROAD NEXT YEAR.

Tuesday the 19th will see the Soo line west compleated as far as Sarles N.D, which is the end of the first division. At this time a mixed train will be put on for service betwaen Thief River Falls and Sarles. The work on the last division is being pushed along at r rapid rate and will be compleated in a few weeks.

Soo officials have given it out that there will not be any more extensions of that road until they have a direct line to the head of the lakes. which means that next year will see a line from Thief River Falls to Duluth. Crookston Times.

Led All the Guests.

In the days of King George III. of England the Persian ambassador to his court demanded, but was denied, precedence over all other foreign representatives. He refused to go to court, causing it to be reported abroad that he was ill. He met the prince regent at the house of the Lady Salisbury of the time. "I am very sorry to offend your royal highness by not going to court," he said. "Now, sir, my sovereign, he tell me I go first; your people say I must go last. Now, this very bad for me when I go back to Persia." So saying, he made a significant pass toward his head, expressing decapitation. The prince tried to appease him. "But, sir, you still angry with me. You have not invited me to your party tomorrow night." The prince explained that it was only a children's party, but the ambassador might come if he chose. He did choose, for he went and, being the only ambassador there, led all the guests, thus scoring heavily for Persia, which made him comfortable about the neck again.

Two Kinds of Reading.

If we make the pages of our books merely a sort of pleasant maze in which to set our minds to wandering during idle hours we in reading shall have acquired a pastime that is usually harmless. But there is a vast difference between such a way of spending our time and the reading that teaches us to think as the greatest and wisest men and women have thought. Words stand in our minds for certain ideas or images. From what we read we learn to make these plain or hazy, clearly drawn pictures or carelessly executed sketches, and thus our powers of thinking are directly trained by our method of reading.—St. Nicholas.

Magnet Power.

The lifting of massive iron and steel plates weighing four, six and twelve tons by magnetism is now done every workday in a number of large steel works. The magnets are suspended by chains from cranes and pick up the plates by simple contact and without the loss of time consequent to the adjustment of chain and hooks in the older method. It is also found that the metal plates can be lifted by the magnets while still so hot that it would be impossible for the men to handle them. A magnet weighing 300 pounds will lift nearly five tons.

Duplicates.

Smythe—Remember when Chatto was married last year how he kicked about the duplicate wedding presents? Browne—Yes. Smythe—Well, that sort of luck seems to follow him. He had a somewhat similar complaint yesterday. Browne—What was it? Smythe—Duplicate birthday presents. That is to say, twins.

Woes of Wealth.

"Wealth has its penalties," said the philosopher.

"Yes," answered Mr. Cumrox. "It's pretty hard for a man to have to go guessing through a French menu when he would rather have pork and beans." —Washington Star.

The Poor Printer.

One of Browning's remarks is characteristic. He once said to Dr. Knight that "all the unintelligibility of 'Sordello' is due to the printers. They would change my punctuation and not print my commas, semicolons, dashes and brackets."

The Cause.

Caller—What makes you say sister is fond of me, Bobby? Bobby—Sister!—New Orleans Times-Democrat.

A man who cannot explain his ideas is usually the dupe of his imagination in thinking he has any.—Bulwer.

Against Her Principles.

"Don't you think," asked Mrs. Oldcastle, "that everybody is affected more or less by environment?"

"Yes," replied Mrs. Packenham, "if they're foolish enough to take such things, but I always turn down my glass and never touch it."—Chicago Record-Herald.

Hadn't Tested It.

He—It's impossible to please everybody in this world, isn't it? She—I don't know. I never tried it.—Detroit Free Press.

Beyond Reason.

There be two individuals who cannot be reasoned with—a girl in love and a man who is determined to run for an office.—New Orleans Picayune.

Love is never afraid of overwork.—Chicago Tribune.

An Indian's Advice.

The following is a statement made by a full blood who is well posted on Indian affairs: "Government safeguards have been the bane of the Indian. Instead of being taught to rely upon himself he has been encouraged to be dependent. The government should have pushed him off to his own resources long ago, as a cow does her calf when it is old enough to rustle for itself. The government should have given the Indian 160 acres, together with a mule and a plow, in the beginning and enjoined him to 'root, hog, or die.' Turn him loose. Let him go and work out his own salvation. Sentiment and misguided philanthropy will never save him. He must save himself."—Kansas City Journal.

Gondola Willie.

When Emperor William was younger he used to sound alarms at odd hours and turn up all available army corps to march past or maneuver when they least expected it. On one such occasion the garrison included a detachment of submarine crews, and the emperor came along accoutered as an admiral.

He was standing among a group of shivering officers when one veteran took him for some other worthy sailor. He slapped him on the back.

"I see that Gondola Willie has fished up the aquarium this morning," he observed pleasantly.

They attribute the cessation of sudden alarms to that incident.

Jupiter's Big Red Blotch.

In 1878 something happened on Jupiter which caused a red blotch to appear in his southern hemisphere near one of the great belts that cross his disk like huge bands of colored clouds. It was 30,000 miles long and 8,000 miles broad, yet, after all, only a little patch on the mighty disk! It has remained ever since, sometimes brightening to almost the crimson hue of fire and sometimes fading nearly to invisibility, yet always, even when faintest, certifying its presence and its power by keeping the area originally covered by it clear of all other objects.—Success.

Not For General Circulation.

"Say, pa, when I'm a man won't I have to obey you nor ma any more?"

"No, but you'll have a boss then who will make you wonder why you ever thought we were hard to deal with. You needn't tell your ma, however, that I told you."—Chicago Record-Herald.

As It Should Be.

He had just proposed, but his poverty was too much of a handicap.

"A man without money," she said, "might as well walk back and sit down."

"Oh, of course," he rejoined. "He naturally wouldn't be in a position to ride back."—Brooklyn Eagle.

A Caustic Tongue.

Years ago a prominent citizen of Chicago, who at that time was president of one of its leading clubs, in introducing another prominent citizen as a speaker at a club banquet dwelt in highly complimentary terms on the latter's efforts to bring about political reforms. "Gentlemen," he said, "no one in this city exerts a more powerful influence for good than does Mr. Blank when he is sober." Then in great confusion and amid an awful silence he hastened to explain that Mr. Blank exerted, as he had intended to say, a powerful influence when he was in earnest.

At the banquet given at the opening of the present Board of Trade building the elder Carter Harrison made a flamboyant speech congratulating himself on having been born in the same year that the steam locomotive was invented. He was followed by the late Emery Storrs, who said that, most appropriately, Carter Harrison and the locomotive were born in the same year since both of them had been blowing off steam ever since.

It was Emery Storrs who said that a fellow lawyer reminded him of a beautiful house with massive portals and impressive cornices, which, when you opened the front door, landed you immediately in the back yard.

Oxford Examinations.

When John Scott, the future Lord Chancellor Eldon, took his B. A. at Oxford in 1770 he was examined in Hebrew and in history. His own pen has recorded this noteworthy "exam." It consisted of two questions, one in each subject. The Hebrew question ran, "What's the Hebrew for 'place of a skull?'"—the history, "Who founded the University of Oxford?" The candidate, of course, replied, "Golgotha" and "Alfred the Great," though he had his misgivings touching the truth of the second answer, a fiction which has since been scattered to the winds by those two highly distinguished Oxonians, Professor Freeman and J. R. Green.

Forests and National Prosperity.

As a living example of the consequences of deforestation we need simply look to Spain, a country which centuries ago was rich in timber and agricultural products, a proud seafaring nation of world conquerors. Spain's decadence dates from the time when her timber supply became exhausted, her shipbuilding relaxed and her barren, unprotected soil ceased to bear fruit.—Forum.

A Long Way Around.

A man with a large family of daughters on his hands may profit by the following suggestion: An old lady who had several unmarried daughters fed them largely on a fish diet because, as she ingeniously observed, "fish is rich in phosphorus, and phosphorus is useful in making matches."

Her First Dinner.

"Yes," said Newliwed, "my wife and I are housekeeping now. She prepared our first dinner last night with her own fair hands."

"How was it?" asked Bacheller.

"Well, the nuts and raisins were fine."—Philadelphia Ledger.

Balky Steam Boilers.

According to an engineer, though there may be every reason present why a steam boiler should steam there are occasions when it simply will not. It refuses duty and sulks without any cause that can be detected. On such occasions every one takes a hand at the fires, but the result is the same—no steam or only enough to keep three-quarters speed. Marine and stationary boilers are both thus afflicted. There are "good days" and "bad days" in the performance of each.—Chicago News.

Get Busy.

The successful man is usually busy, and the busy man is usually successful. The young man, whatever his vocation, who has not learned to economize his time and keep busy has not got the lesson most essential to a prosperous, useful and happy life.—Chicago Tribune.

A Great Combination.

"You and your husband have lived together twenty-five years and never had a quarrel? What's the secret?"

"No secret at all. I'm too good natured to quarrel, and he's too indolent." —Exchange.

THE SUNBEAM.

BY W. G. HUNT.

Published every Friday, at Sunbeam, Red Lake County Minnesota.

Subscription price $1.00 per year in advance. If not paid in advance $1.50

Charles Town has discovered a new method for the keeping of his name continualy before the public, as ex. U.S. Senator from Minnesota. He now has his picture at the head of an advertsement for pills.

When the Soo gets their line through from Thief River Falls to Duluth and a new city starts to build up out this way, near the center of the county, we will be ready to get into the county seat removel deal, so as to get the county seat where it would best accomidate all the people.

If the logs that belong below Thief River Falls were sorted out and sent on down the river to where they belong, it would help some to give the water an opportunity to get out and relieve the continual floods on the upper end of the river.

President Roosevlet is requested to try and settle the strike that is on tap of the anthracite coal miners in Pennsylvania We wonder if he could not be prevaild upon to settle the county seat war, between Red Lake and Thief River Falls

Where are we at? Has this nation become a nation of "grafters"? About the first hedline you read in the daily papers of the preasent time informs you that another grafter has been caught The latest graft that is to be envestigated is the graft from the prize fighters. by the legislature of Califonia to allow prize fighting in that state.

It is certainly enough to make a farmer discouraged to see his crop going to waste that he has worked hard through the spring to plant. A farmer who has his horses mired in the mud near his barn, and his grain standing in the field three weeks after it is fit to be cut, with his farm turned into a mire hole, by excessive rains, must be in a state of mind that would make him insane to the extent cf not being responsiable for a crime accidently committed in the heat of passion.

DRAINAGE AND DAMS.

There was a big flood in Kansas and Missouri a few days ago, but it has already abated. The water ran down hill. That is the way it has. We do things better up here. When there is a flood we dam up the outlet and keep it on hand —Duluth News Tribune.

That is just what has been done with the Red Lake River above Thief River Falls this season. While there has been an abatement to the high water below that point and on the Clear-water river, the people living on the Red Lake river above The Falls have had a continuative flood all summer. It easy to locate the cause by going down to Thief River Falls and seeing that log jam, which is from two to five miles long and is kept there in the main channel of the river from spring until fall daming up the outlet provided by nature for the water to run through and keeping the river continuolsly at high water mark.

What is the use for the state of Minnesota to appropriate large sums of money to drain and reclaim wet lands and make them fit for farming and then allow a corporation to dam up a river and turn thousands of acre's of good agricultural and meadow lands into a swamp, and making it absolutely worthless.

RAILROAD NEXT YEAR.

Tuesday the 19th will see the Soo line west compleated as far as Sarles N.D, which is the end of the first division. At this time a mixed train will be put on for service betwaen Thief River Falls and Sarles. The work on the last division is being pushed along at r rapid rate and will be compleated in a few weeks.

Soo officials have given it out that there will not be any more extensions of that road until they have a direct line to the head of the lakes. which means that next year will see a line from Thief River Falls to Duluth. Crookston Times.

Led All the Guests.

In the days of King George III. of England the Persian ambassador to his court demanded, but was denied, precedence over all other foreign representatives. He refused to go to court, causing it to be reported abroad that he was ill. He met the prince regent at the house of the Lady Salisbury of the time. "I am very sorry to offend your royal highness by not going to court," he said. "Now, sir, my sovereign, he tell me I go first; your people say I must go last. Now, this very bad for me when I go back to Persia." So saying, he made a significant pass toward his head, expressing decapitation. The prince tried to appease him. "But, sir, you still angry with me. You have not invited me to your party tomorrow night." The prince explained that it was only a children's party, but the ambassador might come if he chose. He did choose, for he went and, being the only ambassador there, led all the guests, thus scoring heavily for Persia, which made him comfortable about the neck again.

Two Kinds of Reading.

If we make the pages of our books merely a sort of pleasant maze in which to set our minds to wandering during idle hours we in reading shall have acquired a pastime that is usually harmless. But there is a vast difference between such a way of spending our time and the reading that teaches us to think as the greatest and wisest men and women have thought. Words stand in our minds for certain ideas or images. From what we read we learn to make these plain or hazy, clearly drawn pictures or carelessly executed sketches, and thus our powers of thinking are directly trained by our method of reading.—St. Nicholas.

Magnet Power.

The lifting of massive iron and steel plates weighing four, six and twelve tons by magnetism is now done every workday in a number of large steel works. The magnets are suspended by chains from cranes and pick up the plates by simple contact and without the loss of time consequent to the adjustment of chain and hooks in the older method. It is also found that the metal plates can be lifted by the magnets while still so hot that it would be impossible for the men to handle them. A magnet weighing 300 pounds will lift nearly five tons.

Duplicates.

Smythe—Remember when Chatto was married last year how he kicked about the duplicate wedding presents? Browne—Yes. Smythe—Well, that sort of luck seems to follow him. He had a somewhat similar complaint yesterday. Browne—What was it? Smythe—Duplicate birthday presents. That is to say, twins.

Woes of Wealth.

"Wealth has its penalties," said the philosopher.

"Yes," answered Mr. Cumrox. "It's pretty hard for a man to have to go guessing through a French menu when he would rather have pork and beans."—Washington Star.

The Poor Printer.

One of Browning's remarks is characteristic. He once said to Dr. Knight that "all the unintelligibility of 'Sordello' is due to the printers. They would change my punctuation and not print my commas, semicolons, dashes and brackets."

The Cause.

Caller—What makes you say sister is fond of me, Bobby? Bobby—Sister!—New Orleans Times-Democrat.

A man who cannot explain his ideas is usually the dupe of his imagination in thinking he has any.—Bulwer.

Against Her Principles.

"Don't you think," asked Mrs. Oldcastle, "that everybody is affected more or less by environment?"

"Yes," replied Mrs. Packenham, "if they're foolish enough to take such things, but I always turn down my glass and never touch it."—Chicago Record-Herald.

Hadn't Tested It.

He—It's impossible to please everybody in this world, isn't it? She—I don't know. I never tried it.—Detroit Free Press.

Beyond Reason.

There be two individuals who cannot be reasoned with—a girl in love and a man who is determined to run for an office.—New Orleans Picayune.

Love is never afraid of overwork.—Chicago Tribune.

An Indian's Advice.

The following is a statement made by a full blood who is well posted on Indian affairs: "Government safeguards have been the bane of the Indian. Instead of being taught to rely upon himself he has been encouraged to be dependent. The government should have pushed him off to his own resources long ago, as a cow does her calf when it is old enough to rustle for itself. The government should have given the Indian 160 acres, together with a mule and a plow, in the beginning and enjoined him to 'root, hog, or die.' Turn him loose. Let him go and work out his own salvation. Sentiment and misguided philanthropy will never save him. He must save himself."—Kansas City Journal.

Gondola Willie.

When Emperor William was younger he used to sound alarms at odd hours and turn up all available army corps to march past or maneuver when they least expected it. On one such occasion the garrison included a detachment of submarine crews, and the emperor came along accoutered as an admiral.

He was standing among a group of shivering officers when one veteran took him for some other worthy sailor. He slapped him on the back.

"I see that Gondola Willie has fished up the aquarium this morning," he observed pleasantly.

They attribute the cessation of sudden alarms to that incident.

Jupiter's Big Red Blotch.

In 1878 something happened on Jupiter which caused a red blotch to appear in his southern hemisphere near one of the great belts that cross his disk like huge bands of colored clouds. It was 30,000 miles long and 8,000 miles broad, yet, after all, only a little patch on the mighty disk! It has remained ever since, sometimes brightening to almost the crimson hue of fire and sometimes fading nearly to invisibility, yet always, even when faintest, certifying its presence and its power by keeping the area originally covered by it clear of all other objects.—Success.

Not For General Circulation.

"Say, pa, when I'm a man won't I have to obey you nor ma any more?"

"No, but you'll have a boss then who will make you wonder why you ever thought we were hard to deal with. You needn't tell your ma, however, that I told you."—Chicago Record-Herald.

As It Should Be.

He had just proposed, but his poverty was too much of a handicap.

"A man without money," she said, "might as well walk back and sit down."

"Oh, of course," he rejoined. "He naturally wouldn't be in a position to ride back."—Brooklyn Eagle.

J. K WOOD

A Caustic Tongue.

Years ago a prominent citizen of Chicago, who at that time was president of one of its leading clubs, in introducing another prominent citizen as a speaker at a club banquet dwelt in highly complimentary terms on the latter's efforts to bring about political reforms. "Gentlemen," he said, "no one in this city exerts a more powerful influence for good than does Mr. Blank when he is sober." Then in great confusion and amid an awed silence he hastened to explain that Mr. Blank exerted, as he had intended to say, a powerful influence when he was in earnest.

At the banquet given at the opening of the present Board of Trade building the elder Carter Harrison made a flamboyant speech congratulating himself on having been born in the same year that the steam locomotive was invented. He was followed by the late Emery Storrs, who said that, most appropriately, Carter Harrison and the locomotive were born in the same year since both of them had been blowing off steam ever since.

It was Emery Storrs who said that a fellow lawyer reminded him of a beautiful house with massive portals and impressive cornices, which, when you opened the front door, landed you immediately in the back yard.

Oxford Examinations.

When John Scott, the future Lord Chancellor Eldon, took his B. A. at Oxford in 1770 he was examined in Hebrew and in history. His own pen has recorded this noteworthy "exam." It consisted of two questions, one in each subject. The Hebrew question ran, "What's the Hebrew for 'place of a skull'?" —the history, "Who founded the University of Oxford?" The candidate, of course, replied, "Golgotha" and "Alfred the Great," though he had his misgivings touching the truth of the second answer, a fiction which has since been scattered to the winds by those two highly distinguished Oxonians, Professor Freeman and J. R. Green.

THIS SPACE BELONGS TO THE RODNY STORE.

LOCAL PARAGRAPHS.

Pay up your back subscripion.

Do your Notary Public business at the SUNBEAM office.

The best brands of flour for sale at the High Landing store.

Applications to make final proof written free at this office.

A new hall is to be built at High Landing to be leased for for public entertainments.

The big steam boat, Christina passed by here today, on her way to Red Lake Agency.

The new road screapers for this township arrived last Wednesday, on the Dan Patch.

Albert Eves boys caugh one of those highly prefumed, striped backed animals in their traps this week, and he let the whole neighborhood know about it.

Daniel Sullivan Jr, wss a passenger on yesterdays "Dan Patch" down the river on his way to St. Hilair, where he will attend school the coming winter.

There has not been any killing frost here up to the preasent time and thoes that are short of hay can improve this chance to cut it.

We mentioned last week, that the river was very high and advised people below to look out for high water, but we have snce learned that the logging company's have got the river damed up with logs down toward Thief River Falls so it can not get out and will keep our flood on hand until it evaporates.

There has been a number of floatn islands went down the Red Lake river the past week, some containing about a quater of an acre of bog. It looks as if the river had discovered that it was not big enough to handle the increased business of this seasons output of water and is going to enlarge its self.

If you desire to come up from Thief River Falls to High Landing it would be better to walk than hire a livery, according to our Deer Park corespondent, as you would have to walk or wade through the mud holes, and you may as well walk on the dry part of the road to and save the cash paid for livery hire.

Miss O'Riley and Miss Kate Daily, of German town were visiting Miss Kuehnel Sunday. They said that the town 154-40 was just being organized and Miss O'Riley was given the honor of choosing the name for it, as she was the first actual resident lady farmer to settle in the township. Miss Daily also has a homestead up there and expects to do a big farming business in the future.

T. S. Jacobson, of High Landing while on his way from Kratka to his place, on last Tuesday see a lively scrap between two dogs and a wolf. When he first noticed them coming toward him he took them to be all dogs, but when they came nearer he see it was one wolf and two dogs, that were chasing him, but the wolf always managed to make his get away, as the dogs were only of the bird dog breed who are not much at wolf hunting.

We have a cat that is a famous hunter, that has some trouble to dispose of her surplus game, after we gave away her kittens about two month ago But she has now found a market for all the surplus game she can catch, as a warm friendship has grown up between her and our pet dog "Bounce", and as soon as he hears "Topsys" peculiar call, which indicates game, he runs to meet her and takes the whatever it is, while she will pur and express approvel in all the eloquence of cat language, and woe be to the strange dog that comes near them at this time, as that cat will jump right on his back and commence to transact business with him with all four of her feet.

LESS THAN ONE CENT A Day, will bring the news of the news of the world to your home by subscribeing for the Duluth Evening Herald, which is sent by mail for 25 cents per mont. The Herald is considered one of the leading papers of the North west, prints on an avrage of more than fourteen pages daily, and the entire Associated Press reports. If you want to keep poted "Read The Herald." Duluth Weekly Herald, $1 per year; six monthe 59 cents; three months, 25 cents.

EARN FROM $75 TO $150 PER MONTH.

We want at once, young men for Brakemen and Firemen.

Experience unnecessary.

Positions secured as soon as competent. Instruction by mail.

Cut out cupon and send with stamp for full particulars. Give name, age, and post office address, with No. of R.F.D. route.

Northern Railway Correspondence School.

45-s. 4th st.
Minneapolis, Minn.

APPLICATIONS AT LILLO.

If you live in the town of Equality or Johnson you can make your application to make final proof, at Lillo, and have your notice published in the paper published nearest your land.

LAND OFFICE BUSINESS.

U.S. Commissioner L. G. Browning with office located at Thief River Falls, is prepared to take homestead entries final proof etc., within the Crookston U. S. Land District.

Office in News building, three doors south of the post office.

FROM DEER PARK.

A fiew sunshine days at last.

Flax cutting is now in progress here.

Hunters are soarser than chickens at preasent.

Leaves are beginning to fall from the oaks and underbrush.

Miss Annie Olson and Sigrud Vatendahl was on a shopping transaction to Radney on Friday last.

Some of the old Equality and Garnes farmers are pulling out for N. Dakota to thrash, as their crops have all gone to waste on account of wet weather.

Ben Kviste has been putting up hay here the past week.

Wolves are howling worse than ever and several of them have been seen here the past week.

Yes we agree with editor Hunt on the corn growing question growing question here, or any thig els in the line of farm products have given good returns.

Some of the farmers aroud here are still haying as the grass is good yet.

E. K. Gjernes, who lives in the township of High Landing had the misfortune to step on a rusty nail and is badly laid up with a sore foot.

A Thief River Liverymen is apt to have a bunch of trouble on his hands before long. Some time ago an old lady hired a livery rig in Thief River to take her up to High Landing and paid a good stiff price for the trip, and all went well until they came to the bad mud holes, then Mr. Liverman simply ordered his customer off and said that she would have to wade through them, while he set in the buggy and road over himself. This proceeding was continued until all the bad mud holes had been crossed the old lady being wet and all over mud. This was a nice way to treat an old lady of about sixty years of age, in a cold fall day, she is at preasent suffering from a bad cold. Her husband is in N. Dak. but says that he will see that th's Liverymen will get all that is comming to him in line of damages and just punishment.

NOTICE TO PAY UP.

We have been sending out statements of their subscription accounts to a large number of our old subscribers, the past week, as we must colect some of the money due us on thease old accourts this fall. Now do not rush to the post office and tell the post master to notify us to stop sending that darnd paper, when you are owing a subscription bill, but pay up and then stop it, if you do not want the paper.

Plummer Pioneer: An exchange says: "A newspaper publisher in Ohio recently brought suit against 45 men who would not pay their subscription and obtaind judgement in each case for the full amount of the claim. Of course, 28 of them made affidavit that the owned no more than the law allowed thus preventin attachment. Then under desisions of the suprem court they were arrested for petit larceny and bound over in the sum of $3000 each. All but six gave bonds, while six went to jail. The new postal law makes it larceny to take a paper and refuse to pay for it."

Eyeglasses and Romance.

It is curious to observe that even the greatest realists do not venture to bestow eyeglasses on their heroines. It is rather odd, too, seeing how many charming women do in real life wear them and are not debarred by them from the most dramatic careers and the most poignant emotions. but while the modern novelist has bestowed eyeglasses on everybody else he has not yet had the hardihood to put them on the nose of his heroine. Why?—Mrs. John Lane in London Outlook.

Incarnate Umbrellas.

We English, of course, get what we call hardened to horrible climatic changes. Nevertheless I am convinced that our solemnity of demeanor is generated by our gray skies, our piercing east winds, our heavy, yellow fogs and our slushy roads and pavements. The waterproof face is the direct result of a firmament of lead. Many of us English people look like incarnate umbrellas.—London Queen.

Good Reason.

Marie, who never knew her lessons, was speaking of one of her little schoolmates, who always stood at the head of her classes. "I should like to be the father of such a little girl," said Marie's papa, wishing to point a moral. "No, you wouldn't, papa," said Marie. "Why not?" asked papa. "Because her father has been dead two years," said Marie.

One Sided.

Mr. T.—I think I shall give up my business, my dear. I might as well have some enjoyment out of my money. Mrs. T.—Oh, not yet, Samuel! But when one of us dies I intend to give up housekeeping and see a little of the world.—Illustrated Bits.

A Reflection.

Daisy—Why was Maude Oldgirl so angry about her photographs? Didn't they flatter her? Maisie—Oh, they were as pretty as the artist could make them, but on the back of each one it said, "The original of this picture is carefully preserved."

Strategy.

The minister who had difficulty in keeping his parishioners' eyes fixed on him during the sermon solved the difficulty by placing a large clock directly behind him.—Liverpool Mercury.

The Difference.

Freddie—What's the difference between being sick and an invalid? Cobwigger—An invalid, my boy, is one who makes those around him sick.—Harper's Bazar.

In the Hands of Experts.

"Figures don't lie, do they paw?"

"No, my son, but if you will examine the campaign text books you will find that they can tell two entirely different and contradictory kinds of truths."—Chicago Tribune.

Two Views of It.

"He admits that he isn't succeeding in business as rapidly as he had expected."

"Which means that he is failing even more rapidly than his friends expected."—Philadelphia Press.

No Trace.

Patience—They say there are microbes in kisses.

Patrice—Yes, but isn't it a lucky thing that they don't leave any marks?—Yonkers Statesman.

Hamlet at Singapore.

I saw "Hamlet" played and adapted for Malays at Singapore. It was sung instead of spoken, and mostly to English tunes. Hamlet addressed the ghost to the tune of "Her Golden Hair" and killed Polonius to "Listen to the Band." Polonius addressed his son to "That's English, You Know," and, with the king and queen, sang "Mary Was a Housemaid" to other words. The ghost scene included three ghosts, two clowns and a bottle of whisky.

Big, Big Words.

"Those who are accustomed to ridicule present day scientists because of their fondness for big words," said the etymologist, "will find them much more moderate in the concoction of words than the old timers.

"For instance, I have just come across the account of a scientific treatise published in the seventeenth century that contains words even much more cumbersome than its title, which, by the way, is 'Panzoologicomineralogia,' a good mouthful surely, yet the meaning is easily ascertained when the word is reduced to its component parts.

"The list of big titles that were then favorites would cause the modern book clerk a spasm, yet the list could be gone into indefinitely. A play in blank verse published in the latter part of the seventeenth century had as its alluring title 'Chrononhotonthologos,' and this was the opening sentence:

"'Aldeborontiphoscophornio, where left you Chrononhotonthologos?'

"If the modern mouthing actor can hardly get simple Anglo-Saxon words over the footlights, how could he get along with that morsel?"—New York Herald.

Great Writers Not Correct Writers.

There is not a single great author in our literature in whose works numerous errors have not been pointed out or thought to be pointed out. They are charged with violating rules involving the purity if not the permanence of the language. A somewhat depressing inference follows from the situation thus revealed. The ability to write English correctly does not belong to the great masters of our speech. It is limited to the obscure men who have devoted themselves to the task of showing how far these vaunted writers have fallen short of the ideas of linguistic propriety entertained by their unrecognized betters. As a result of these critical crusades there is no escape from the dismal conclusion that the correct use of the language is not to be found in the authors whom every one reads with pleasure, but is an accomplishment reserved exclusively for those whom nobody can succeed in reading at all.—Professor Thomas R. Lounsbury in Harper's Magazine.

Squirrels Are "Handy."

The handiness of the squirrel is something extraordinary in the animal world. He sits up on his hind paws and uses the fore paws in many ways just as a man does. He strikes with it and wards off a blow from another, and squirrel quarrels rarely go further than attempts to cuff each other like children. A lady who lives in our county and who is the protector of squirrels in that region told me that she had contrived a little rack to be filled with nuts, so that they came to the opening singly, one dropping into the place as another was taken out, and this was fixed by her window so that she could watch the squirrels come. One day a squirrel took the last nut and was quietly eating it on the window bench when another came and, finding none in the rack, went up to the eating squirrel and gave him a deliberate box on the ear and went away.—W. J. Stillman in Century.

Plant a Tree.

When eating a good pear or apple save the seeds and plant them either in a flower pot, where they will germinate before long, or else directly in the garden, when they will come up next spring. To prevent their loss the place must be covered as a mark. It takes a number of years before they bear fruit, but to see the progress of growth from year to year is always interesting. People often think it is not worth while for them to plant trees. They will not live to have fruit of them and so neglect it entirely. But some one will enjoy the harvest. It is just the individual egotism which causes so much unhappiness and affects all classes of society in many ways.—Hartford Times.

Great Heads and Little Wit.

Great men are usually said to have great memories, but it does not follow that all who have great memories are great men. I remember an idiot in Ohio who was a great curiosity many years ago. He knew the whole Bible by heart from beginning to end, and if any verse was read or repeated to him he could tell exactly in what book and chapter it was to be found and its verse number in the chapter. He was considered a great marvel in this particular, but in every other he was a mental imbecile and could not be trusted even to feed himself.—St. Louis Globe-Democrat.

For a Shave de Luxe.

"Let me give you a tip for which I think you will be grateful," said a local barber in one of the downtown shops the other day. "Always maintain a pleasant feeling and a slight smile if possible when in a barber's chair for the purpose of being shaved. When the face is in a smile and the muscles are relaxed it is very much easier for the barber to run over it with a razor. This is especially applicable to persons who have a tough and wiry beard."—Washington Star.

A Mean Trick.

A Huntsville man has a book on the cover of which is a picture of a man yawning. Whenever his wife begins to lecture him he gets out the book and reads it in front of her. She sees the picture and has to stop talking to yawn. Finally she becomes too tired to talk.—Kansas City Star.

Most Deadly of Insults.

Freddie—That creature actually told me to mind my own business, y'know!

Cholly—The impertinent wretch!

Freddie—Positively insulting! As if to insinuate, don't y'know, that [illegible] business!—Cleveland Leader.

The Englishman's Morning Tub.

Until the beginning of the seventeenth century English princes and other babes were immersed three times in the font when christened. The last Prince of Wales who was submitted to this ordeal appears to have been Arthur, the son of Henry II., who died in 1502 at the age of sixteen. The abolition of the practice was strongly objected to upon sanitary grounds by Sir John Floyer, a celebrated physician, who died in 1734. "Immersion," he says, "would prevent many hereditary diseases," and "the English will return to it when physic has given them a clear proof that cold baths are both safe and useful." So our morning tub is the outcome of royal immersion.—London Mail.

You will never get on the sunny side by waiting for the world to turn round.—Atlanta Constitution.

A Small Favor.

Young Wife (time, midnight)—Quick! Quick! Wake up! I hear some one downstairs!

Husband (sleepily)—What do they seem to be doing?

Wife—Hark! Hear that! They are in the pantry. I heard my cake box rattle.

Husband (wearily)—Tell them to please not to die in the house.—New York Weekly.

Seasonable Inquiry.

"Allow me, Mr. Bifkins," said the hostess to a late arrival, "to introduce Captain de Jones, a man who has faced death in a score of battles."

"Pleased to meet you, captain," said Bifkins. "By the way, are you a military or football captain?"—Cleveland Plain Dealer.

SAPIENT SENTENCES.

It is wonderful what civilization hasn't done for mankind.

If good clothes made a man all tailors would be millionaires.

Men who occupy lowly place have the advantage of a good running start.

Sympathy for the under dog should not lead us to sympathize with the wrong.

The best way to prepare for the big tasks is to faithfully perform the little ones.

Wireless in New Zealand.

The New Zealand postmaster general hopes, with the cooperation of Australia, to have wireless telegraphy established across the Tasman sea within 12 months. The cost will be £28,000.

DEATH SEEMED NEAR.

How a Chicago Woman Found Help When Hope Was Fast Fading Away.

Mrs. E. T. Gould, 914 W. Lake Street, Chicago, Ill., says: "Doan's Kidney Pills are all that saved me from death of Bright's Disease, that I know. I had eye trouble, backache, catches when lying abed or when bending over, was languid and often dizzy and had sick headaches and bearing-down pains. The kidney secretions were too copious and frequent, and very bad in appearance. It was in 1903 that Doan's Kidney Pills helped me so quickly and cured me of those troubles and I've been well ever since."

In Use For Over Thirty Years

The Kind You Have Always Bought

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

LOOKING FOR A NAME.

And She Wanted a "Sweetly Pretty" One for Her New Baby Boy.

The scene is a drug store, in a busy part of Broadway. When the action opens a pretty woman is demurely turning over the leaves of the city directory, relates the New York Tribune.

Enter an irascible old man, who wants to find the address of a fellow who owes him money. He stands and waits impatiently, filling in the time by coughing suggestively.

A business man in a hurry follows. He wants to know where John Brown lives. It is in the next street, but he has forgotten the number. He falls in line.

Then a man who seeks some city official, but knows nothing of his office, except that it closes within a few minutes, joins the ranks of the waiters.

Half a dozen others who wish to consult the directory gather around. Still the woman placidly turns leaf after leaf over, without evident intention to decide whether the name she seeks is Brown, Jones or Walker.

When there are fully half a score fuming, impatient people in line, enter a newspaper reporter. His mission will positively admit of no delay, so he politely offers to assist the woman, suggesting that his experiences may tend to save time and lessen her labor. When he asks her what she seeks, with a sweet smile of thankful appreciation, she says:

"Oh! Thank you. You are very kind. I am trying to find a really sweetly pretty name for my new boy baby!"

Jumping at a Conclusion.

"Another one of those lobbyists approached me to-day with an insulting proposition," said Congressman Graphter.

"Oh! John," exclaimed his wife, "then you can afford to buy me that sealskin sacque now, can't you?"—Philadelphia Ledger.

SALT RHEUM ON HANDS.

Suffered Agony and Had to Wear Bandages All the Time—Another Cure by Cuticura.

Another cure by Cuticura is told of by Mrs. Caroline Cable, of Waupaca, Wis., in the following grateful letter: "My husband suffered agony with salt rheum on his hands, and I had to keep them bandaged all the time. We tried everything we could get, but nothing helped him until he used Cuticura. One set of Cuticura Soap, Ointment and Pills cured him entirely, and his hands have been as smooth as possible ever since. I do hope this letter will be the means of helping some other sufferer."

One doctrine which is common to all satirists of society is that the age they write in is the worst of all known ages, the lowest point of degeneration yet reached.—N. Y. Times.

The Erie Railroad has arranged for the immediate expenditure of $225,000 for the installation of the most modern and efficient railway signal that has yet been put on the market. It is known as the Hall Electric Semaphore Normal Clear System, and is operated by stationary storage batteries. The line between Bergen, N. J., and Middletown, a distance of 63 miles, is to be equipped at once. For the first 32 miles, the signals will be put two-thirds of a mile apart; for the rest of the distance, about one and one-third miles apart. It will require five power plants for charging the batteries, which will be located at Rutherford Junction, Ridgewood Junction, Suffern, Oxford and Middletown. The line to be protected has two and four tracks at different places, and is the most congested part of the Erie System. Hitherto a manual block, which is a tower with signals operated by a towerman, has been used as a block protection, but it has been deemed best to install an automatic system for further protection, and to accelerate the movement of trains. The new system will be extended over the entire line in the future.

The average wage-earner who has paid his rent, the grocer's bill, and bought a few tons of coal, needs no definition of an "irreducible minimum."—Washington Post.

The Splendid Passenger Service of the Nickel Plate Road

has become popular because of the care and attention shown patrons of this line. Colored Porters in uniform are in attendance on both 1st and 2nd class passengers. Ladies traveling alone or accompanied by children are shown special attention. Excellent Dining and Sleeping Car Service, and no excess fares charged on any train. All trains depart from La Salle Street Station, Chicago. For full information regarding tickets, rates, routes, sleeping car space, etc., call on or address J. Y. Calahan, General Agent, 111 Adams St., Chicago.

There is no telling what a day may bring forth. A man may be happy to-day and married to-morrow.

There Is Money

in taking subscriptions to the Four-Track News, the great illustrated monthly magazine of travel and education. A quick seller. Very liberal terms. Large profits. Agents wanted everywhere. Write George H. Daniels, Publisher, 7 East 42nd Street, New York, for full particulars.

One theory is that Baku is referred to as "the Black town" by reason of its large Tar-tar population.

INGENUITY EXTRAORDINARY

Boat Adrift Is Recovered in a Manner That Was Truly Remarkable.

"Yes," said the narrator of the story, according to the Chicago Tribune, "we got into the boat and rowed out to the island, eight miles away, and then we climbed up the hill to get the view. Along about noon we went back to the beach and to our consternation discovered that the boat had become loose from its moorings and had drifted across the bay to the other side."

"Wasn't that awful!" exclaimed the girl with the sympathetic eyes.

"Yes. There we were, eight miles from the mainland, with no means of communicating with our friends."

"Terrible!" said the girl with the dropstitch waist.

"What were we to do?"

"What, indeed?" echoed the girl with the fluffy psyche knot.

"Eight miles from the mainland, the day drawing to a close, no food, no shelter, and no way of getting word to our friends. How were we to get that boat over the yawning waste of water that separated us from shelter and comfort?"

"But you are here now, so you must have got the boat at last," said the girl with the calm, self-controlled expression.

"Well, after sizing up the situation, we sat down and talked it over."

Six Doctors Failed.

South Bend, Ind., Sept. 25th (Special).—After suffering from Kidney Disease for three years; after taking treatment from six different doctors without getting relief Mr. J. O. Laudeman, of this place, found not only relief, but a speedy and complete cure in Dodd's Kidney Pills. Speaking of his cure, Mr. Laudeman says:

"Yes, I suffered from Kidney Trouble for three years, and tried six doctors to no good. Then I took just two boxes of Dodd's Kidney Pills, and they not only cured my kidneys, but gave me better health in general. Of course I recommended Dodd's Kidney Pills to others, and I know a number now who are using them with good results."

Mr. Laudeman's case is not an exception. Thousands give similar experiences. For there never yet was a case of Kidney Trouble from Backache to Bright's disease that Dodd's Kidney Pills could not cure. They are the only remedy that ever cured Bright's Disease.

He Was Stingy.

Harduppe—Closefist likes nothing better than to have some fellow ask him for a loan.

Borrower—Is that so?

"Yes; it gives him so much pleasure to refuse."—Philadelphia Record.

Piso's Cure cannot be too highly spoken of as a cough cure.—J. W. O'Brien, 322 Third Ave., N., Minneapolis, Minn., Jan. 6, 1900

As to the secret of success, it may be said that nothing has ever been more extensively advertised.—Puck.

IN THE BEST OF HEALTH SINCE TAKING PE-RU-NA.

MRS LENA SMITH

IN POOR HEALTH.
PAINS IN BACK.
SICK HEADACHES.
PE-RU-NA CURED.

Mrs. Lena Smith, N. Cherry street, cor. Line, Nashville, Tenn., writes:

"I have had poor health for the past four years, pains in the back and groins, and dull, sick headache, with bearing down pains.

"A friend who was very enthusiastic about Peruna insisted that I try it.

"I took it for ten days and was surprised to find that I had so little pain.

"I therefore continued to use it and at the end of two months my pains had totally disappeared.

"I have been in the best of health since and feel ten years younger. I am very grateful to you."

Catarrh of the internal organs gradually saps away the strength, undermines the vitality and causes nervousness. Peruna is the remedy.

ESTABLISHED 1879.
Minneapolis. { WOODWARD & CO., GRAIN COMMISSION } DULUTH.
Orders for Future Delivery Executed in All Markets.

NEWS OF MINNESOTA.

Crop Bulletin.

Minneapolis.—The rain was heavy in the northern districts on the night of the 13th or early morning of the 14th which delayed threshing in that section for several days. The frequent rains have developed threshing in all sections. Shock threshing is nearing completion and threshing from the stack is progressing nicely except in northern counties. Efforts were still being made to cut the long overripe grain in the flooded districts of the northern counties until the heavy rain of the 14th, when cutting was generally abandoned. Spring wheat is yielding well in most localities. Corn has ripened rapidly during the week and much of it is cut; all will be out of danger of frost in another week. A good crop is generally reported. Potatoes are being gathered in southern counties but are not a good crop, except in southwestern counties; rotting is generally reported, and some blight has occurred in east central counties. Plowing is in progress but some fields are still too dry to plow. Rye seeding is in progress. Pastures are still good in southern counties. Apples are being gathered and a fairly good crop is reported.

Much Water.

Duluth.—Because of the greatest rainfall ever known in one season in northern Minnesota, the great reservoirs of the upper Mississippi now hold in storage more water than they have ever previously contained at this time of year.

So says Major C. M. Derby, United States engineer in charge of the reservoir system. He intimates this may necessitate emptying the reservoirs during the winter, which would create unusually heavy winter waterpower.

Said Major Derby:

"The amount of water now on hand in the reservoirs is greater than ever before at this time of the year. The river, however, is now steadily falling and the reservoirs may have to be heavily drained before Nov. 15, when navigation closes. The water has fallen at St. Paul from 14 feet 8 inches, July 11, to 5 feet 7 inches today. If it approaches three feet on the gage, the reservoirs will be opened more so as to maintain a flow of 6,000 cubic feet a second, as is necessary to maintain a three-foot cubic measure."

Timber Sales.

An informal meeting of the state timber board was held at which it was decided to dispose of 75,000,000 feet of pine timber at sales during next month. Dates for the sales will be determined at another meeting of the board. Owing to the absence of Governor John A. Johnson the board could not take any action on the matter.

The timber to be sold is on land which will be sold at public auction Oct. 17 in Lake, St. Louis, Beltrami, Itasca and Hubbard counties. All of the cruisers are now reporting as to the timber upon the lands which is to be offered for sale and a complete list will be sent out soon.

State Auditor Iverson predicts that the sale of nearly 500,000 acres of land which will be held next month promises to be very successful. From the interest displayed in all parts of the state it is thought that there will be plenty of buyers for the state land.

Women Must Go Dry.

Minneapolis — Saloonkeepers will not be permitted to serve liquors to women or to have women in their places of business under any pretext. Positive orders to that effect covering the remainder of the present administration were issued by the mayor through his license inspector. The penalty threatened for violation of this rule is a strict enforcement of the Sunday closing law against those who may offend. At the beginning of the present administration an order was issued forbidding all wineroom business, and a large proportion of the saloonkeepers accepted it as final. Some few dealers in the down-town district have continued to serve female patrons, and the new order is to make them understand that the practice will no longer be tolerated.

News Notes.

Minneapolis—On Sept. 18 there were 776 cars of grain received here.

Ada—The public school building at Ada, which was destroyed by fire last year, has been replaced by a much larger building.

Perham—The 2-year-old daughter of Albert Voelz, who lives south of here, was drowned in a creek near the house. The water was less than two feet deep.

Bemidji—R. J. Rofidal, postmaster at Gemmel, has been arrested, charged with conducting a blind pig.

St. Paul—Louis Steiger, aged 9, is probably fatally injured and Joseph Sprich, aged 13, is seriously hurt as the result of playing with gunpowder.

Duluth—The first long-distance electric line out of Minneapolis promises to be built northward to Duluth, bringing this city into much closer touch with Minneapolis than now.

Minneapolis—John Devine, slayer of William Wallace, withdrew his plea of not guilty before Judge Brooks and pleaded guilty to manslaughter in the first degree.

Hastings—This city accepted $9.000 from the executrix, Mrs. Maria Lotts, in lieu of the bequest of $10.000 by her husband, Rudolph Lotts, thereby releasing the estate from all liability.

Preston—A matrons' silver medal contest was held here under the auspices of the W. C. T. U. The contestants all came from Spring Valley and the judges awarded the medal to Mrs. Orinda Thayer.

HOW A FRIENDSHIP GREW

The Story

Whether Hand Sapolio got a more enthusiastic welcome in homes where Sapolio was an old and tried friend, or where it was a stranger, is a question. Where women had come to rely on Sapolio for rapid, thorough cleaning in every part of the house except the laundry, they commenced without loss of time, to avail of this new prize. Grubby little hands, and stained, work-worn older ones, whitened, softened, and smoothed out as if by magic, callous spots disappeared, and complexions cleared. Children ceased their strenuous objections to the scrubbing up process, because it became a

Do you want a clear and healthy Skin?

pleasure. It freshened up the hands after dish-washing, removing the most disagreeable feature of that necessary task. It was found to keep delicate baby skins from chafing better than salve or powder, and the crowning note in the song of delight came when an adult member of the family used it in a full bath, and realized that a Turkish Bath at a cost of one dollar was outdone by a small fraction of the little, ten-cent, velvety cake.

But, strange though it may seem, there were people who had not learned to prize Sapolio. To these the advertising of Hand Sapolio came as a surprise. Sapolio, a scouring soap, adapted for the hands, the face, the general toilet? Impossible, it would be horrid. Who ever heard of such a use? Finally a bold shopper carried home a cake. Does it look like kitchen Sapolio? No one is sure, and a cake of that is bought, and comparison made. Behold a family using both the Sapolios for every conceivable purpose, and comparing notes! After easily and quickly cleansing a greasy pan with Sapolio, Jane thought the other would be gritty, and was astonished at the smooth, dainty lather. Another was certain it would harden the hands and could scarcely realize how soft and "comfy" they felt after the washing.

Then began the excitement of adventure; what would the new soap NOT do? A girl tried a shampoo. Her hair, pretty, soft and silky "went up" perfectly, with none of the unmanageableness that generally exists for a full week after the usual process. A man used the delightful lather for shaving, and felt no need for cold cream afterwards. A pimply face was treated to a daily bathing with the full suds, and promptly became clear. Tartar on the teeth yielded to it, and feet that had a tendency towards hardening of the skin regained their natural condition, till another family had joined the chorus of friendly acclaim. And so it is everywhere, those who know the "elder brother" welcome the new-comer for the sake of the first known, and those who meet both for the first time are plunged into a whimsical worry as to which they could better spare if they had to make a choice.

THE FIRST STEP away from self-respect is lack of care in personal cleanliness: the first move in building up a proper pride in man, woman, or child is a visit to the bathtub. You can't be healthy, or pretty, or even good, unless you are clean. Use **HAND SAPOLIO**. It pleases everyone.

THE DISTRICT SCHOOL
OF SPOTLESS TOWN
CLASS IN ALGEBRA

Let housewife equal X plus E; X+E
Let E the sign for Sapolio be; E
For dirt let minus X be had; −X
Then all these symbols we will add.
The X and minus X drop out EE
(As anyone can see no doubt)
And leave what must the housewife please—
The happy symbol we call ease.

WHY TAKE DAINTY CARE of your mouth and neglect your pores, the myriad mouths of your skin? HAND SAPOLIO does not gloss them over, or chemically dissolve their health-giving oils, yet clears them thoroughly by a method of its own.

TRY HAND SAPOLIO.

Its steady use will keep the hands of any busy woman as white, untanned and pretty as if she was under the constant care of a city manicure. It is truly "The Dainty Woman's Friend," in the suburbs or on the farm.

Those ugly dark brown streaks on the neck, arising from tight collars, and the line where the sunburn stops, can be wiped out by the velvety lather of HAND SAPOLIO. It is, indeed, "The Dainty Woman's Friend."

PITHY PASSAGES.

One of the unsatisfactory things of this world is a sensible love letter.

It is a good plan never to run yourself down. Others will cheerfully do it for you.

It takes nerve for a widow with children who are married for the second time to be jealous of her husband.

Many people seek their own good, and then persuade themselves that it is for the good of others.

Doctors hate each other rather fiercely, but when there are two brass bands in a town the people know what real enmity is.

TRAINS CRASH IN ST. PAUL YARDS

GREAT WESTERN STOCK TRAIN DASHES INTO A SOO PASSENGER

Engine Strikes Sleepers with Such Force They are Thrown Over a Twenty Foot Embankment. Mrs. Clara N. Cross is Killed.

St. Paul, Oct. 2.—One dead, nine seriously injured and ten suffering from slight cuts and bruises is the result of one of the worst railroad wrecks which ever occurred in St. Paul.

A train of thirty-five cattle cars on the Chicago Great Western road broke away from the control of the crew and struck the Soo passenger train No. 7 just as it was pulling out of the yards at 9:30 yesterday morning headed for Minneapolis. Striking the second sleeper of the passenger, the engine of the cattle train ripped two of the sleepers from the pasrenger train and hurled them over a retaining wall 18 feet high into a gully 20 feet below.

Refusal of the airbrakes on the Chicago Great Western cattle train to work is generally accepted as the cause of the collision.

The Soo passenger pulled into the St. Paul union depot at 9:30 a. m. from Montreal, thirty minutes late.

At 9:35 it was pulled out of the St. Paul union depot for Minneapolis, over the main tracks of the Northern Pacific. It had cleared the main section of the yards and was nearing a point where the track upon which it was running leads to an inside double track, over which it was to run to Minneapolis.

The engineer of the cattle train applied the air and found that it was not working. He whistled frantically for brakes as he felt his train thundering the open switch where it must inevitably strike the swiftly approaching train.

Engineer Dan Haney of the Soo saw the danger, and with one supreme effort he put for the switch, hoping, it is thought, to clear it before the mad freight telescoped his train. He failed.

The first sleeper overturned by the freight engine made a revolution and a half before it landed in the pit of the gully, and the second made a complete revolution, loading in the gully upon its roof.

Penned in like cattle the passengers were unable to stir. Some of them were burried under the seats, others were jammed beneath the huge timbers of the floors.

Mrs. Clara Norton Cross who was the only person killed was returning from a visit in Dakota.

Mrs. Cross was found half buried beneath the broken glass and other debris.

E. S. Martin and J. P. Wilkinson, of Minneapolis are seriously injured may be fatally.

Mrs. Henry Deutsch was also seriously injured likewise S. H. Morris. A score of others were injured but will recover.

KILLED IN QUARREL.

George Constance, a Farmer Near Twin Brooks, S. D., Is Killed—Self-Defense is Pleaded.

Mibank, S. D., Oct. 2.—George Constance, a German farmer, forty years old and who lived fine miles north of Twin Brooks, was killed by being stabbed in the temple by a pitchfork in the hands of Sietse Boekhout, who gave himself up and declares he acted in self defense.

Constance and his brother John, who live on the same farm with Boekhout says they were intoxicated. They came to the barn where he was at work, and an old quarrel was revived. George Constance rushed at Boekhout, according to the prisioner, and he threw up the fork in self-defense. One of them penetrated Constance's brain. Boekhout immediately went to the neighboring farm, where Deputy Sheriff Cross happened to be, and gave himself up. He was taken to Milbank and was given a hearing. Boekhout is twenty-seven years old and married. He came from Holland two years ago.

Used Red Pepper.

St. Cloud, Minn, Oct. 2.—Sprinkling red pepper and oil cloves behind them in their flight, two reformatory inmates baffled the pursuit of bloodhounds and made their escape. They had secured a piece of steel from which they fastened a saw and cut one of the bars to the window. Then breaking another bar they made an aperture large enough to admit of the passage of their bodies through the window. Their escape was discovered within twenty minutes and the bloodhounds of the institution were put on their track. Scarcely had the hounds hit the trail when they began to sneeze violently from the inhalation of the pepper and the trail was lost in the outskirts of Sauk Rapids.

GOVERNMENT WINS AGAIN.

Indicted Packers Ordered by Judge in Chicago to Appear for Trial.

Chicago, Sept. 30.—The packers indicted in the federal cases for violation of the Sherman anti-trust law suffered another sweeping defeat Friday when Judge Humphrey, in the United States district court, sustained the demurrer of United States District Attorney Morrison to the plea in abatement filed some time ago by the packers.

The packers must now stand trial in the federal court on the indictments charging them with violating the anti-trust laws. The court ordered the defendants to appear in court Thursday and plead guilty or not guilty to the charges made by the government that they conspired in the transaction of their business to the injury of fair competition.

One of the main points set up by the defense was that Judge Bethea, who received the indictments, was not acting legally because of a change in the boundary lines of the judicial districts. Judge Humphrey said he had found by the congressional records that Judge Bethea, in the opinion of the court, was legally sitting.

Judge Humphrey also held that the grand jury which returned the indictment was legally drawn.

UNFIT TO RULE.

Secretary Taft Says Independence for Filipinos Is Impossible for Years.

San Francisco, Sept. 28.—The Pacific Mail Steamship company's liner Korea, Capt. Zeeder, arrived Wednesday from the orient, beating the trans-Pacific record by several hours. Among her passengers were Secretary of War Taft and most of the members of a party which left with him for the far east on the Manchuria on July 8, last.

That the people of the Philippine islands are growing restive and that a strong party of young men is being formed to demand immediate independence, was the news brought back from the orient by Secretary Taft. In this connection the war secretary made the plain statement that independence for the islanders is not to be thought of for a generation at least, the people being as yet incapable of governing themselves.

Secretary Taft spoke optimistically, however, of the progress being made by the islanders under American rule. In two years, he said, Manila had become a new city and thoroughly modern. All this had been done in spite of the agricultural depression caused by natural conditions.

SUES FOR HEAVY DAMAGES

Manufacturers of Peruna Demand $250,000 of Publishers of Ladies' Home Journal.

Chicago, Sept. 30.—Claiming that it has the original of a testimonial which the Ladies' Home Journal recently declared to be fraudulent, the Peruna Drug Manufacturing company, makers of a widely-known proprietary medicine, has brought suit in the superior court of Chicago for $250,000 damages. The Curtis Publishing company, of Philadelphia, is named as defendant.

The testimonial in question is one which the Ladies' Home Journal declared that Congressman George H. White, of South Carolina, never gave, backing up its statement by an undated letter from Mr. White. In its declaration the Peruna company denies that the testimonial is fraudulent, and asserts it has two original letters from Congressman White, which were given in good faith as testimonials to the merit of the remedy. Mr. White's denial, the Peruna company claims, was secured through misunderstanding.

This is the second suit for large damages filed against the Ladies' Home Journal since it began its crusade against "patent medicines."

Noted Lawyer Dead.

New York, Sept. 28.—Wheeler H. Peckham, the noted lawyer, died suddenly here Wednesday in his office on Broadway. Apoplexy is thought to have caused his death. Mr. Peckham was born in Albany, N. Y., and was 73 years old. He was appointed federal district attorney in 1884, and in 1894 was appointed to the federal supreme court by President Cleveland. The senate refused to confirm his nomination.

Naval Officer Dies.

Boston, Sept. 30.—Capt. James Russell Selfridge, ordnance officer at the Charlestown navy yard, died of apoplexy Friday. Capt. Selfridge was a member of a family well known in the United States navy for many years. His father was the late Rear Admiral Thomas O. Selfridge, and a brother is Rear Admiral Thomas O. Selfridge (retired), now a resident of Washington.

Big Order for Flour.

Seattle, Wash., Sept. 27.—An order for 180,000 barrels of flour, to be delivered immediately, has been placed with a local flour mill by Vladivostok flour merchants. This is the largest single order ever placed on the Pacific coast.

CLEVELAND PLAIN DEALER

TYPHOON AT MANILA.

Buildings Destroyed and Thousands Homeless—Scores of Lives Are Lost.

Manila, Sept. 30.—Reports now coming in from places along the path of the recent typhoon, in the island of Luzon and the southern islands, indicate great loss of life and property. In the waters surrounding Samar and other islands many coasting vessels and island transports have been wrecked. The coast guard cutter Leyte is a complete wreck and 11 Americans and 24 natives were drowned. At the town of Sorsogon, 15 natives were drowned. The loss on hemp plantations is estimated at $1,000,000. The army transport Juan Rodriquez is ashore at Legaspi.

In the interior of the island of Samar thousands of natives are homeless and the same report comes from many of the other smaller islands. The army posts in the southern islands have been destroyed. The civil and military authorities are rushing aid to the suffering people in the form of supplies of food and shelter. Owing to the destruction of the telegraph system, reports received from other points are very meager.

CHILDREN BURN TO DEATH.

Five Perish at Fort Dodge, Ia., as Result of Gasoline Stove Explosion.

Fort Dodge, Ia., Sept. 28.—Five children were burned and asphyxiated in the fire which destroyed the home of Frederick Adamson early Wednesday morning.

The dead: Edna, aged ten; Thomas, aged eight; Clarence, aged six; Ernest, aged three, all children of Adamson, and Raymond, the three-year-old son of David Secord, a laborer.

The father had gone to work and the mother was visiting a neighbor, leaving a gasoline stove burning in the meantime. The Secord youngster toddled up the stairs and awakened the four sleeping children, and they were all playing in their night gowns when the stove exploded. A number discovered the fire, but could do nothing, and it was with difficulty that the mother was restrained from throwing herself in the flames. The children made no effort to leave, covering their heads with their night clothes. Firemen were unable to enter until they had flooded the house with water. When they were reached the children were found dead.

FORGER SECURES $360,000.

Prominent Bank in New York City Beaten by a Clover Swindler.

New York, Sept. 29.—The National City bank was recently victimized by a clever forger, the details of whose scheme came out Thursday. The forger presented a bogus check bearing the name of a well-known stock exchange firm and received in return securities valued at about $360,000. Pearl & Co., stockbrokers at No. 27 Williams street, recently negotiated a one-day loan for $300,000 with this institution. On Wednesday a check for the amount of the loan, plus $37.50 for the one-day's interest, was presented at the bank by a stranger, who received the security deposited by Pearl & Co. for their loan. The bank on which the brokers' check was drawn is one with which Pearl & Co. never had an account, so the forgery was not discovered until the check had passed through the clearing-house exchange, when it was promptly branded as fictitious.

Millionaire Kills Himself.

New York, Sept. 30.—William R. Travers, a millionaire man of leisure, son of the celebrated wit and Wall street operator, William R. Travers, committed suicide Friday by shooting himself through the head in his apartments in Madison avenue. The suicide is inexplicable, Mr. Travers being in the prime of life, in fair health and the possessor of a large fortune. Mr. Travers married Miss Lily Harriman, a sister of Mrs. W. K. Vanderbilt, Jr. The couple separated three years ago, Mrs. Travers going to Paris to live.

ROBBERS AND POSSE FIGHT.

Former Escape After Blowing Open Bank Vault and Stealing $10,000 at Eldorado, Ill.

Cairo, Ill., Sept. 29.—A posse of citizens in Eldorado, Ill., early on Thursday fought a rifle and revolver battle with a band of burglars who had blown open the vault in the bank of C. B. Burnett & Sons. The thieves escaped with between $8,000 and $10,000. The posse now is on their trail with bloodhounds. The bank is in a substantially built brick structure, with heavy iron bars over the windows. Few persons are abroad in Eldorado after midnight, and there is no police protection. The last passerby, a railroad employe, saw a light burning in the bank, and the vault undisturbed. Less than two hours afterward, however, the village was awakened by a terrific explosion. Burnett and his sons, who live nearby, were the first to reach the scene. They were armed with revolvers, and saw several men running from the front door of the bank. The thieves detected them, and in a moment the two parties were fighting desperately. Before many shots had been fired reenforcements came for the bankers. The other residents were armed with shotguns and rifles, and two even carried axes. The rescuers were running in a band down the main street when the burglars fled firing as they ran. The posse, in the darkness, fired at the flashes of light made by the weapons of the robbers. The hunt continued in this manner for nearly half a mile.

Deputy sheriffs have been summoned to lead in the search and bloodhounds from this city have taken the field.

A FIENDISH DEED.

Texas Woman and Her Four Children Murdered by Unknown Brutes.

Edna, Tex., Sept. 29.—Mrs. A. J. Conditt and four children, a daughter of 13 and three boys from six to ten years old, were murdered in cold blood at their home near here Thursday. The mother and daughter were assaulted and their bodies brutally disfigured. A baby about two years old was the only one left alive. All of them seemed to have been murdered with some blunt instrument, their heads were crushed and their throats cut with a knife or razor. The girl and mother were killed in the house, the boys were killed about 100 yards away. Mr. Conditt was working in the rice fields. A negro boy about 12 years old was plowing in a field near the house at the time of the killing and heard the children screaming. He saw a man running after a woman, who was running around the house. Being afraid to go to the house, he ran to a neighbor's and told what he had seen. The party informed, ran to the place and found the five members of the family killed. Officers were informed at once and the entire county is out in posse in search of the murderer. It is supposed there were two of them. Dogs have been sent for.

Iowa Bank Fails.

Des Moines, Ia., Sept. 28.—The Arispe savings bank, at Arispe, Ia., has closed its doors and a state examiner is in charge. At a meeting of the directors it was determined to make an assessment on the stock sufficient to pay off all depositors. The bank has been under the management of Cashier D. W. Stevenson. Bad loans and litigation are blamed for the failure. The bank is capitalized at $10,000, and deposits at the time of closing business were in the neighborhood of $22,000.

Gen. Stoessel Stricken.

Moscow, Sept. 29.—Lieut. Gen. Stoessel, who commanded the Russian forces at Port Arthur, is suffering from a stroke of paralysis, which affects his entire left side. The general's recovery is hoped for.

Shaw to Retire.

Des Moines, Ia., Sept. 27.—Secretary of the Treasury Leslie M. Shaw will leave the cabinet February 1, 1906. He makes the definite announcement in a letter to the Polk County Republican club.

WASHINGTON LETTER

MAN AT HEAD OF COMMISSARY DEPARTMENT OF ARMY.

MORALITY AT ARMY POSTS

Gen. Weston Declares Notorious Taggart Case Puts Army Life in False Light—A Gadfly in Congress.

WASHINGTON.—There are few more popular officers in the United States army than Brig. Gen. John F. Weston, familiarly known among his army associates and thousands of friends as "Jack" Weston. There will be general approval of his promotion to the general staff with rank of major general, which is said to be slated for next month. Gen. Weston is now at the head of the commissary department of the army and has a most enviable record as the most efficient commissary general of recent years. He is a great favorite of President Roosevelt, who first met him at Santiago, Cuba, during the Spanish war.

Gen. Weston was then only a lieutenant colonel, but was chief of commissary in Shafter's army, and proved himself a hustler who did not hesitate to cut red tape when emergency demanded. Col. Roosevelt had come into Santiago to get supplies for his men, and ran across Weston while the latter was wrestling with boxes and barrels in the commissary stores. Col. Weston was dressed in a very dirty pair of duck trousers and a shirt, and was throwing boxes around like a roustabout.

While the future president and Weston were talking, a driver of a team passed by with a suspicious bulge about his waist. Weston stopped him and asked him what he had under his shirt.

"Oh, that's all right, partner," responded the driver.

Weston called to a soldier and put the driver under arrest. "I do not arrest you for having stolen those canned tomatoes that I see under your shirt, but because you called me partner,'" said Weston who, having gratified his humor, immediately set the driver free because, he said: "We are too badly in need of drivers."

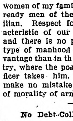
Concerning Garrison Life.

GEN. WESTON is a Kentuckian by birth and an Irishman by descent, and possesses all the wit and gallantry characteristic of both. He is very much disgusted with the revelations that have been made in the notorious Taggart divorce suit in Ohio, and in discussing that affair the other day said:

"So far from being typical of the garrison life in the army, the conditions brought to light by the Taggart divorce scandal are a libel on the family of every man in the barracks. Beyond one or two exceptions, I never knew of a whisper against the honor of a married woman in the army. The man who would depart from the highest standard of personal honor could not remain in the army.

"I want to say that there is no place in the world where a woman's honor is more safe than in the environments of an army post. There are no men more upright, no men more chivalrous, no men to whom I would sooner trust the women of my family than the rough and ready men of the west—army or civilian. Respect for women is a characteristic of our American manhood, and there is no place where that fine type of manhood is seen to better advantage than in the rough western country, where the post life of the army officer takes him. The public should make no mistake about the standards of morality of army posts.

No Debt-Collecting Agency.



SECRETARY of the Navy Bonaparte does not propose to make his department a debt collecting agency. He has issued orders similar to those in effect in the other departments which prevents civilian employes being harrassed by bill collectors during office hours. The order is not intended to act as a protection to dead-beats, but is for the purpose of maintaining order and efficiency in the clerical force.

This order states that the department will take no cognizance of a complaint against an alleged creditor so far as the complaint is concerned beyond acknowledging receipt of his communication. Persons claiming to be creditors and collectors of debts or claims will be denied access to employes during the hours of public business or while the employes concerned are on duty.

In connection with this a warning is sounded to the clerks that they must discharge their honest debts as the department will not permit itself to be used as a shelter for dead-beats. The order states that the department does not consider one who fails without justification, to pay his just debts a person suitable for public employment. Upon receipt of a complaint of non-payment of debt it will be referred to the proper chief of a bureau for a report in writing from the employe concerned, and the conclusions reached by the department will be made part of the clerk's official record.

Since these orders have gone into effect in other departments there has been a perceptible improvement in the financial standing of government employes. Business men generally agree that the government clerk is their best paying patron, and while he generally lives up to the salary he receives there are fewer delinquents in the matter of bill paying among the government clerks than in any other class in Washington.

Ex-Senator Pettigrew.

RUMORS reach Washington that Ex-Senator Pettigrew, of South Dakota, has it in mind to try again for a seat in the senate. For many years Pettigrew was one of the gadflys in congress. He came to the senate originally as a republican, but of the free silver variety, and always maintained an independent position. He was a thorn in the side of the managers of the United States senate, no matter what party was in control. He was probably as thoroughly a hated man as any who has sat in the senate in recent years, but at the same time he had many loyal friends, and he was always a power to be reckoned with.

Mr. Pettigrew is naturally a political schemer and conspirator, and it was the delight of his life to frustrate the carefully laid plans of senate leaders. All sorts of criticism and charges were made, but no one was ever able to place his finger on anything dishonorable or dishonest in Mr. Pettigrew's senatorial career. He was simply not liked. He would sit all hunched down in his chair pulling strips of paper to pieces and scattering them on the floor and glancing furtively from under a pair of shaggy eyebrows while the two sides of the senate were endeavoring to reach an agreement regarding the disposition of some measure. When everything seemed to be running smoothly and an agreement about to be declared, Pettigrew would unlimber his long legs and, straightening up his more than six feet of body, would, in a whining, querulous tone inject himself into the proceedings and spoil whatever game was going on.

There is now quite a fight on in South Dakota against Senator Gamble, and Pettigrew is shrewdly trying to manipulate matters so as to secure the legislature for himself. If he should come back to Washington he would at least liven up the sessions of the senate, for there was scarcely a day of his last four years of service in which he did not start a row of some kind.

A Picturesque Character.

GOVERNORSHIP
CONGRESS
SOUTHERN CUSTOM

ONE of the political traditions of the south and southwest seems to be that when a man leaves congress to accept the governorship of his state he cannot again ask to be sent back as a member of the national legislature. Ex-Gov. Dockery, of Missouri, may not be bound by this tradition, as reports have it that he expects to run for congress in his old district next year and come back to the house where he served for many terms. His district went republican last year, and the democrat, Mr. Dougherty, who succeeded him, has since died; so that the ex-governor has a tolerably clear field if he wants the nomination. The district is normally democratic and Mr. Dockery would probably be elected.

His election would bring again to Washington a rather picturesque character. Mr. Dockery was one of the typical southern members who insist on the wearing low cut vests and slouch hats. He was a good deal of an economist, and was regarded as a "watch dog of the treasury" while here. He was an associate of "Uncle Joe" Cannon on the house committee on appropriations and aided the latter in his war upon extravagance. On the floor of the house Mr. Dockery was an effective debater, and when warmed up on a subject would pull his coat sleeves to his elbows, get red in the face, pound his desk and give other evidences of his emphatic earnestness.

hat "Missent", is getting to monotonous between Crook- post office and Sunbeam. This e has been established long ugh so a plainly directed let- had ought to come from the of Crookston to this place, hout being missent, if the ks ever look at a postal guide.

 professor has discovered a ng some ancient ruins what uposed to be the eleventh com- ndment. The text is as fol- s."Emas rof yltpmorp tceyap t sselnu repapswen a daer tlahs uoht". The command- nt is easily translated by beg- ing at the end of the sentence reading backward.

he encreased popularity of President Roosevelt, which ans strength with the people, ce congress adjourned last ing, will be of good service him when congress convens in. He may be able by it to mand some legislation denied him at the last session. There ll no doubt be a strong con t, mostly with the senate, to tain laws in regard to railway ffic and rates especially. The ople are with the president, on s imoportent question and the ople of this congressional dis- t are fortunate in having r. H. Steenerson down there help him.

The envestigation into the ethods of the New York Life surance company does not dis- ose any low down methods of e style of the State Mutual surance company of St. Paul, ho have two kinds of agents. e kind go arround and take e insurance and the other kind arround and inform any of eir policy holders, who meet ith a loss, that the company do ot pay losses but will return to ou the amount you paid for our policy. This seems to be a retty good "graft", for if you on't meet with a loss you pay em in full, and if you do meet ith a loss, they don't pay you.

KEEP THE FARM.

If you have not got the cash o make your second payment n your land, that you bought of he government, on which you ave valuable improvements, you ad better make your applica- ion to make final proof in time o you can make a loan to make our payment. You should at- end to this now and not wait ntil your payments are about ue and then begin to move fter it is to late to get the money o make your second payment efore the sixty days are out, and he Land office door is shut.

Those who faild to make their second payments before their sixty days were out, that bought land at the first sale have all em- ployed attorneys and are living in a sea, of expense and uncer- tainty, and don't know whether they will get their land or not, and we are of the opinion that they would gladly exchange po- sitions with those who made a loan to make their payment and made final proof on their land.

With the almost certainty of a railroad being built through here next season and the big advance in the value of this land, no settler should run the risk of loosing his home and the money already paid, when he can save it by making a loan to pay for his land and get time to pay, after he gets his farm improved.

BOATING ON THE NILE.

The Best Pilots Run Aground Two or Three Times a Day.

Navigation on the Nile is not so complicated a matter as upon the north Atlantic, writes Alonzo Clarke Robinson in Outing. To run at full speed upon a sand bar is an occurrence of such frequency as hardly to elicit a comment from the passengers. The crew take more interest because they are obliged to push the boat off again with poles, and this entails a great amount of shouting and some work. The Nile below the first cataract is a fairly broad, muddy river, flowing between deposed banks varying from six to eight to twenty to thirty feet in height. Its surface is interrupted everywhere by sand spits and islands upon which are to be seen thousands of birds. The channel, if such it can be called, winds from one side to the other and changes completely with every flood; hence even the best pilots run aground two or three times a day. It is, of course, impossible to proceed at night, and each day's voyage comes to an end wherever darkness happens to overtake one. The boat's nose is simply run plump on the bank, two men leap out and drive stakes to which to make fast, and there you are for the night. A very simple and effective method, without any ostentation and requiring very little knowledge of mathematics; it has also the advantage of variety. Sometimes one finds oneself alone beneath the wonderful Egyptian moon lighting up the river, the distant cliffs and the silent, empty plain, or perhaps one stops near some little native village, in which case the bank is lined with silent, curious figures, who crouch for hours wrapped in their white cloth coverings. Once we tied up beside a lonely brick kiln. The sight was a weird one. The red flare of the furnace, fed with sugar cane, cast intermittent flashes of light into the night, in and out of which moved black half naked natives, while overhead was the cloudless, star lit sky of Egypt.

OUR INAUGURAL OATH.

It Is the Shortest and Simplest Taken by Any Ruler.

The oath of office taken by the incoming president of the United States is the shortest and the simplest required of any ruler on earth. It is prescribed by the constitution and is as follows:

"I do solemnly swear (or affirm) that I will faithfully execute the office of president of the United States, and, to the best of my ability, protect, preserve and defend the constitution of the United States."

This oath is slowly repeated by the president elect after the chief justice of the supreme court, in the presence of the public upon a platform erected in front of the main door on the eastern side of the capitol. While the oath is being repeated the president elect and the chief justice face each other and hold with their right hands between them a Bible furnished by some person interested or especially procured for the occasion, which becomes the property of the president after it has been appropriately inscribed and sealed by the chief clerk of the supreme court.

At the close of the oath the president elect bows his head and kisses the open page of the book, and it has been customary for him or for his wife or a friend to select some appropriate passage at which the book shall be opened and the verse upon which he shall press his lips. Sometimes, when those interested forget or neglect to choose a passage, the Bible is opened at random, but the clerk of the supreme court is always careful to note and mark the exact place where the lips touched the page.—Chicago Record-Herald.

The Horseshoe Legend.

Here is an explanation of the old horseshoe superstition: St. Dunstan was a skilled farrier. One day while at work in his forge the devil entered in disguise and requested Dunstan to shoe his "single hoof." The saint, although he recognized his malign customer, acceded, but caused him so much pain during the operation that Satan begged him to desist. This St. Dunstan did, but only after he had made the evil one promise that neither he nor any of the lesser evil spirits, his servants, would ever molest the inmates of a house where the horseshoe was displayed.

A Servile House of Lords.

When King Henry VIII.'s name was spoken in his presence in the house of lords every peer prostrated himself with Asiatic servility. An entry in the records of the house gives the substance of a speech delivered by the chancellor on Jan. 16, 1541, in which the king's goodness and wisdom are extolled, and it tells us that whenever his majesty was mentioned, "which happened often," all the lords prostrated themselves, bowing to the ground as one man.

Force of the Future.

Cut off the future, and man is the most timid of creatures. The demons and dragons are too terrible for him to face and attack. But spread before him the illimitable future, and he will dare all things, certain of victory at last. Any night, however filled with weeping, can be endured by one who knows that joy is coming in the morning.

Beyond Reason.

There be two individuals who cannot be reasoned with—a girl in love and a man who is determined to run for an office.—New Orleans Picayune.

Love is never afraid of overwork.—Chicago Tribune.

An Indian's Advice.

The following is a statement made by a full blood who is well posted on indian affairs: "Government safeguards have been the bane of the Indian. Instead of being taught to rely upon himself he has been encouraged to be dependent. The government should have pushed him off to his own resources long ago, as a cow does her calf when it is old enough to rustle for itself. The government should have given the Indian 160 acres, together with a mule and a plow, in the beginning and enjoined him to 'root, hog, or die.' Turn him loose. Let him go and work out his own salvation. Sentiment and misguided philanthropy will never save him. He must save himself."—Kansas City Journal.

Gondola Willie.

When Emperor William was younger he used to sound alarms at odd hours and turn up all available army corps, to march past or maneuver when they least expected it. On one such occasion the garrison included a detachment of submarine crews, and the emperor came along accoutered as an admiral.

He was standing among a group of shivering officers when one veteran took him for some other worthy sailor. He slapped him on the back.

"I see that Gondola Willie has fished up the aquarium this morning," he observed pleasantly.

They attribute the cessation of sudden alarms to that incident.

Jupiter's Big Red Blotch.

In 1878 something happened on Jupiter which caused a red blotch to appear in his southern hemisphere near one of the great belts that cross his disk like huge bands of colored clouds. It was 30,000 miles long and 8,000 miles broad, yet, after all, only a little patch on the mighty disk! It has remained ever since, sometimes brightening to almost the crimson hue of fire and sometimes fading nearly to invisibility, yet always, even when faintest, certifying its presence and its power by keeping the area originally covered by it clear of all other objects.—Success.

Not For General Circulation.

"Say, pa, when I'm a man won't I have to obey you nor ma any more?"

"No, but you'll have a boss then who will make you wonder why you ever thought we were hard to deal with. You needn't tell your ma, however, that I told you."—Chicago Record-Herald.

As It Should Be.

He had just proposed, but his poverty was too much of a handicap.

"A man without money," she said, "might as well walk back and sit down."

"Oh, of course," he rejoined. "He naturally wouldn't be in a position to ride back."—Brooklyn Eagle.

Olaf Pravick, Tom Tweeten, Nels Berg, Lars Bredden, all of Kratka Minn.

R. J. MONTAGUE, Register.

He Sent Another.

A few years ago a well known lawyer remitted in settlement of an account to the publisher of a paper a two dollar bill, which was returned with the brief statement:

"This note is counterfeit; please send another."

Two months passed before hearing from the lawyer again, when he apologized for the delay, saying:

"I have been unable until now to find another counterfeit two dollar bill, but hope the one now inclosed will suit, professing at the same time my inability to discover what the objection was to the other, which I thought as good a counterfeit as I ever saw."—Philadelphia Ledger.

Webster's Tiresome Habit.

Senator Hoar in his "Reminiscences" says that Daniel Webster had a tiresome habit in his public speeches of groping after the most suitable word after this fashion: "Why is it, Mr. Chairman, that there has gathered, congregated, this great number of inhabitants, dwellers, here; that these roads, avenues, routes of travel, highways, converge, meet, come together here?" When the speech was printed all the synonyms but the best one would be left out.

The Radny Store:

THIS SPACE BELONGS TO THE RADNY STORE.
John has, Dry Goods, Clothing, Boots and Shoes.
A full and complete line of groceries.
Best brands of flour, at lowest market price
00
Call and see me for bargains, at Radny post office and store.
JOHN RADNIECKI, Proprietor.

NEW STORE.

I wish to call your attention to the fact that I have a large and well selected stock of groceries, which I am selling at reasonable prices. New settlers, who are in need of groceries can be supplied, at THE KUEHNEL POST OFFICE AND STORE, and save going long distances to the city

MISS A. KUEHNEL, Prop. and postmaster. Sec. 20 T. 153 R. 40.

Forests and National Prosperity.

As a living example of the consequences of deforestation we need simply look to Spain, a country which centuries ago was rich in timber and agricultural products, a proud seafaring nation of world conquerors. Spain's decadence dates from the time when her timber supply became exhausted, her shipbuilding relaxed and her barren, unprotected soil ceased to bear fruit.—Forum.

A Long Way Around.

A man with a large family of daughters on his hands may profit by the following suggestion: An old lady who had several unmarried daughters fed them largely on a fish diet because, as she ingeniously observed, "fish is rich in phosphorus, and phosphorus is useful in making matches."

Her First Dinner.

"Yes," said Newliwed, "my wife and I are housekeeping now. She prepared our first dinner last night with her own fair hands."

"How was it?" asked Bachelor.

"Well, the hands are [illegible] fine."—Philadelphia Ledger.

A Snub For Moliere.

A remarkable incident is reported at a suburban theater in Paris. The play was "Tartuffe," and at the end of the fourth act the manager of the company came in front of the curtain and said: "Ladies and gentlemen, we shall not go any further with this piece, for the fifth act is unworthy of Moliere." How the audience took this announcement is not stated. Perhaps they went home and read the fifth act critically in the seclusion of the library.

Then He Sulked.

"Mrs. Guschley remarked to me that it must be pleasant to be married to a clever man," said Proudley's wife.

"And what did you say?" queried Proudley.

"I told her, of course, that I didn't know; that I had only been married once."

Doubting Dennis.

Judy—Will ye give me yer promise, Dennis, that ye'll love me forever?

Dennis—Sure, an' Oi'd like to do that same, Judy, but Oi'm hardly of the opinion that Oi'll last as long as that.—New York Times.

What's the matter with this weather for October.

The best brands of flour for sale at the High Landing store.

Applications to make final proof written free at this office.

Miss Auguste Kuehnel made a business trip to Thief River Falls Tuesday, returning Thursday.

Walt McAndrees is running a thrashing separator at Backoo, N. D. at a salery of $6 per day.

Jack Dunn arrived home from N. D. last Sunday, having finished harvest and thrashing out there.

Our Deer Park corespondent has gone out threshing this week but he will soon be back, with a load of news.

Miss Lena Homme is clerking at the Kuehnel store this week during the absence of Mis Khehnel at Thief River.

The rear of the log drive on the Red Lake river passed by here Tuesday. with twelve river rats floating down stream on logs.

Kittle O. Runstrand and A. W. Shosten, of High Landing were passengers on the "Dan Patch" Monday going down to Thief River Falls.

Mr. Mrs Wm. Swanson, of Deer Park, had the sad misfortune to loose their four weeks old baby girl by death, on Sturday morning, last.

The Dan Patch, boat, came up from Thief River Falls on Sunday with a cargo of goods for Andrew Ellingson, the High Landing merchant

Ben K. Kvistie went down to McIntosh Sunday, to start threshing on Monday. He was accompenyed by W. A. Swanson, of Deer Park, who will run his separator for him.

P. C. Wolde returned home from his Espely farm on Sunday last. where he has been harvesting his crop. He brougt 11 head of cattle with him to his farm and home in this township.

The first school meeting in this district No 37, will be held at the residence of Alfred Eve, on next Thursday Oct. 12th, at 2 o'clock P.M. Don't forget to come, and tell your neighbor to come.

The friends of P. A. Rustad, of this township and Garnes, will be pleased to learn that he has entirely recoverd his usal health, from the stomach trouble that he has had all summer.

Chas Swanson writes from N. D. that the weather is fine out there and he is loosing no time on account of bad weather. He is getting $9 a day for himself and team, which counts up quite fast for a homesteader stake.

Stephen Singer has had his flour store house, at Gully broken into at two different times, of late and flour stolen. He is on the look out for the thief and if he is caught he will not need to "hustle" flour for a number of years, as the state will provide for him, as breaking into a building is burglary and is punishable by a long term in the pen. at Stillwater,

Andrew Christianson had the misfortune to get mixed up in a runaway accident on his arrival at Devils Lake, to work in threshing. He hired out to a man that was drunk, (on Devils Lake water as Dakota is a prohibition state) and when they started to leave town the team ran way and threw them out and broke Mr. Chaistiansons arm, and he will be laid up all the fall. He returned to his home in Deer Park township Monday. As is usal in such cases the man that was drunk and responsible for the accident did not get hurt in the least while the sober one got his arm broke.

Mayor Drew, of McIntosh has been rounding up the blind pigs, at that place, but he seemed to have got the wrong pig by the ear, in his first attempt.

There seems to be some people of the opinion that it is their neighbors business to look out for their stock, judgeing from the reckless manner they have of turning their rattle out.

When you are ready to make appication to make final proof you should speak to four of your neighbors for witnesses, then be sure to bring your homestead reciept with you and we can do the rest.

LESS THAN ONE CENT A Day, will bring the news of the news of the world to your home by subscribeing for the Duluth Evening Herald, which is sent by mail for 25 cents per mont. The Herald is considered one of the leading papers of the North west, prints on an avrage of more than fourteen pages daily, and the entire Associated Press reports. If you want to keep poted "Read The Herald." Duluth Weekly Herald, $1 per year; six monthe 50 cents; three months, 25 cents.

EARN FROM $75 TO $150 PER MONTH.

We want at once, young men for Brakemen and Firemen.

Experience unnecessary.

Positions secured as soon as competent. Instruction by mail.

Cut out cupon and send with stamp for full particulars. Give name, age, and post office address, with No. of R.F.D. route.

Northern Railway Corresponpondence School.

APPLICATIONS AT LILLO.

If you live in the town of Equality or Johnson you can make your application to make final proof, at Lillo, and have your notice published in the paper published nearest your land.

LAND OFFICE BUSINESS.

U.S. Commissioner L. G. Browning with office located at Thief River Falls, is prepared to take homestead entries final proof etc., within the Crookston U. S. Land District.

Office in News building, three doors south of the post office.

A Vegetable Caterpillar.

In New Zealand and Australia they have an animal vegetable oddity which cannot be equaled by any other animate or inanimate object upon the earth's surface. It is the queerest of the many antipodean wonders and paradoxes and for the want of a better name has been called the "bulrush caterpillar" or "vegetable worm." The native Tasmanian name for the oddity is aweto-hotete. The aboveground portion of this vegetable worm is a fungus of the order sphaeria, which grows to a height of six or eight inches. When pulled up by the root this fungus is found to consist of a large caterpillar, showing head, segments and breathing holes—every detail of the grub being perfectly preserved. On examination the interior of the caterpillar is found to be composed of a "punky" looking substance, really the root of the fungus, which has cremated every fiber of what was once a living, breathing creature's anatomy. In all the instances which Buckland records, the sphaeria had made its attack in the fold of skin between the second and third segments of the caterpillar and had replaced all the animal substance of the creature's body with a hard brown vegetable growth resembling the fungoid growths on blackberry and other vines.

Monster Beds.

Though the beds of the royal personages of England were elaborately carved and hung with rich curtains even so late as the Tudor period, it is recorded that King Henry VIII.'s bed contained only straw beneath all its finery. A curious order exists as to precautions to be taken against the possibility of intended mischief to the royal person in the making of the bed, for the usher was to search the straw through with a dagger, "that there be none untruth therein, and to tumble over on the down bed for the better search thereof." The bed of Henry VIII. was nearly eleven feet square, and of even more generous dimensions is the great bed to which Shakespeare refers in a well known passage in "Twelfth Night," which was twelve feet square. This "great bed of Ware" has been a marvel for centuries.

NOTICE TO PAY UP.

We have been sending out statements of their subscription accounts to a large number of our old subscribers, the past week, as we must colect some of the money due us on thease old acccourts this fall, Now do not rush to the post office and tell the post master to notify us to stop sending that darnd paper, when you are owing a subscription bill, but pay up and then stop it, if you do not want the paper.

CUSTOMS IN MOROCCO.

The Scene at the Slave Market in Marrakish.

"From time to time we are taking our meals in the open air," writes a traveler to Morocco. "I see the shepherd boys staring at us from a respectful distance. To them we must seem no better than savages. In the first place, we sit on chairs and not on the ground. We cut our bread, which, as every true believer knows, is a wicked act and defies Providence, since bread is from Allah and may be broken with the hand, but never touched with a knife. Then we do not know how to eat with our fingers, but use knives and forks and spoons, that after mere washing are common property. We do not have water poured out over our fingers before the meal begins—the preliminary wash in the tent is invisible and does not count—and we do not say 'Bismillah' before we start eating. Our daily bathing seems to puzzle them greatly. I do not notice that little Larbi and his brother Kasem ever tempt the sea to wash or drown them. Yet they look healthy enough and are full of dignity."

Vividly delineated, too, by the same writer are the scenes in the slave market at Marrakish. "The various booths where the salesmen keep their slaves, of all ages and both sexes, are carefully screened from sight until the market opens. Then one at a time these booths empty themselves of their contents and men, women and children are marched around the inclosure, the auctioneer crying out the latest bid, and the slave owner pointing out the best features of his articles for sale.

"They are all gorgeously attired and decked out to show them off to the best advantage. One by one the youngest and the fairest and the fittest are chosen until at the end of the long, hot day only a few aged and weary and worn are left. They have tramped round and round the market all day long, but they are old and therefore not wanted."

A GREEDY CORMORANT.

He Devoured Two Pounds of Stones as Part of a Meal.

When I was a keeper in the National Zoological park in Washington I observed a remarkable example of the well known greediness of the cormorant.

Four little cormorants came to the zoo and were placed in a cage in which dogs had once been kept. Outside was a pebbly yard in which the dogs had exercised. The cormorants waddled about this yard and seemed to be having a fine time until one morning I noticed that one of them was sitting on the ground unable to rise. He did not waddle up to get his meal of whole fish, each usually about half as long as his own body, and as the others came rushing toward me to get their share I knew that he was ill. I went into the cage and lifted him up. What was my amazement to hear something grating and clanking inside of him! And he seemed surprisingly heavy. I at once called the head keeper, who decided to investigate by means of a surgical operation.

He took out two pounds of stones, one of which was four inches long, two and a half inches wide and about half an inch thick! The poor chap seemed to feel relieved. In a few days he became convalescent, ate his food regularly and seemed to be doing well. Then that hooked bill reached under the feathers and tore out some of the surgeon's stitches, which were undoubtedly irritating, as the wound was beginning to heal. As a result of this interference the wound opened, and, as the weather was hot, the patient died five days after the operation.—St. Nicholas.

Coffee and Smoke in Spain.

Even of wine, so cheap and abundant in Spain, the natives seem to use very little. They are frightfully intemperate, however, in their use of tobacco and coffee. They drink coffee at all hours and apparently every hour. The clerk who takes his morning cup at 9 has another at his desk an hour later, purchased from a street vender. The business men passing through the streets pause while a fellow who carries hot coffee, hot milk, sugar and spoons harnessed upon him serves them on the sidewalk.

If the Spaniard does not smoke in his sleep it is his only respite from the habit.—Rosary Magazine.

State Bread Day.

A traveler says that a curious weakness of grownup Moors is the love of eating newly baked bread. The caid of Azemmoor, in Morocco, discovered that old bread was thrown away as waste. To waste food is a serious offense in the eyes of a Moslem. The caid of Azemmoor therefore issued a bylaw prohibiting the baking of bread upon one day in each week. The citizens, he declared, must eat up the bread already baked, and he fixed Wednesday as the "bitamit" or well-

Restoring Faded Ink.

Faded ink on old documents, papers, parchments, etc., may be restored so as to render the writing perfectly legible. The process consists in moistening the paper with water and then passing over the lines a brush which has been wetted with a solution of sulphide of ammonia. The writing will immediately appear quite dark in color, and this color in the case of parchment will be preserved. On paper, however, the color will gradually fade again, but on a fresh application of the sulphide of ammonia it will reappear. Writing executed in ordinary ink which has been rendered illegible by age may be restored by carefully moistening it with an infusion of galls or a solution of ferrocyanide of potassium slightly acidulated with hydrochloric acid. Care must be taken to apply the liquid so as to prevent the ink from spreading.

Sandy's Initiation.

A Scottish gillie was invited by the laird to take a pull at his flask after gaffing the first fish of the day.

"I canna trink oot a bottle," protested the gillie, with a frown of disapproval.

"Aweel, try, Sandy," said the laird encouragingly. And Sandy tried—tried so thoroughly that the laird gazed in mingled awe and admiration as the whisky gurgled and gurgled out of the flask down the swarthy throat until, with scarce a heel tap left in it, the "pocket pistol" was handed back to the owner.

"Hoot, Sandy, maybe ye were richt; maybe ye canna trink oot of a bottle," gasped the laird, with a mighty sigh, "but, eh, mon, ye'd soon learn!"—Baily's Magazine.

Benefits of Proper Breathing.

The habit of slow, measured, deep breathing that covers the entire lung surface is of more value and importance than you will ever believe until you have tried it, and when you have established the habit of breathing in this manner you will say some remarkable things in its favor. It will reach all points of your physical system. All the benefits that occur from a healthy condition of the blood will in a greater or less degree be yours, for the manner and completeness with which the inspired air comes in contact with the blood in the lungs are of the utmost importance to every vital process.—Christian Work and Evangelist.

Hissing In the Theater.

Formerly there was no hissing in the theater. The benevolent audience were content to yawn and fall asleep. The invention of hissing is no older than 1680 and took place at the first representation of "Aspar," a tragedy of Fontenelle, so we are told by the poet Roi in his "Brevet de la Calotte." A farce was produced in Bannister's time under the title of "Fire and Water." "I predict its fate," said Bannister. "What fate?" whispered the anxious author at his side. "What fate?" said Bannister. "Why, what can fire and water produce but a hiss?"

Liquid Metal Polish.

Take eight ounces of Spanish whiting, which must be perfectly free from grit, and put in one quart of gasoline. Shake up the whiting and gasoline thoroughly. You will notice the whiting settles immediately, leaving the liquid as clear as water. To remedy this and, further, to make it a better polishing agent, add to each quart of the mixture thirty-two drops of oleic acid—no more, no less. Shake again, and the whiting will not settle. Apply to gold, silver, nickel, brass, glass or any kind of metallic surface with a piece of cotton flannel, rubbing well. Polish with a piece of same cloth.—Blacksmith and Wheelwright.

Waterproofing Dress Goods.

One of the most important processes used for waterproofing dress materials is on the lines of the old alumina process. In this case the factor used is rosin dissolved in a large bulk of petroleum spirit. The fabrics to be proofed are passed through a bath of this solution and dried to drive off the solvent. Following this, the goods are treated by pressing with hot polished metal rollers. This last process melts the small quantity of rosin which is deposited on the cloth and leaves each single fiber with an exceedingly thin film of rosin on it.

The Verdict.

Records of the ancient city of Gorgeana, founded in 1640, better known at the present time as York Harbor, Me., contain many quaint and unusual stories of the early life of the town.

At the entrance to York harbor a bold promontory known as Stage neck extends some distance into the sea, from which formerly in stormy weather a temporary light in the form of a lantern hoisted upon an upright pole was displayed as a warning to mariners.

One dark winter night a sloop was wrecked on these rocks. A survivor on being questioned about the catastrophe said:

"The vessel struck, turned over on her side, and the skipper and another barrel of whisky rolled overboard."

The local coroner was summoned, and this somewhat startling verdict was returned:

"We find that the deceased fell from the masthead and was killed. He rolled overboard and was drowned. He floated ashore and froze to death, and the rats eat him up alive!"—Harper's Weekly.

Her Endurance.

"How can you scold all the time?" was asked of the woman with five stepchildren and an indolent husband.

"I can't just explain it, but I know that I'm blessed with wonderful powers of endurance."

In Praise of Cockneys.

Cockneys are the best natured people under the sun. It is notorious that a big London crowd is of all crowds in the world the most harmless and the easiest to manage. But see them also in their ordinary collections, outside the gallery door of a popular theater or crowding in the carriages of an excursion train—what fun and kindness and wholesome give and take! A deliberately rude or offensive cockney is hardly to be met.—G. S. Street in Pall Mall Gazette.

The Mortality List.

Manager (of great exposition)—What alarms me is our mortality list. Assistant—Mortality list? Why, it's next to nothing at all! "I know better than that. More than one-third of the people that come through the turnstiles are deadheads."

Lobster Mortality High.

A lobster lays thousands of eggs, most of which hatch, but few ever live to grow up. This is not the fault of the mother, for she carries them about with her for nearly a year and with admirable instinct guards them as she does her own life. When the young are set free her duty is done, for they must then shift for themselves. Though hardly larger than mosquitoes, being about one-third of an inch long, the little ones leave their parents on the bottom and swim toward the light—to the surface, where from one to two months, if fortune favors them, they lead a free, roving life. The open sea is a poor nursery for such weaklings, which become the sport of every storm and the prey of numberless hungry mouths. Out of a brood of 10,000 it would be a rare chance for more than one or two lobsters to reach maturity or finally to end their career in the kitchen or the chafing dish.—St. Nich-

LOSS OF APPETITE

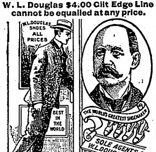
Cold Sweats, Twitching Nerves and Weakness Cured by Dr. Williams' Pink Pills.

Nature punishes every infraction of her laws, and careless habits easily lead to the condition described by Mr. William Browne, of No. 1019 Lincoln street, St Joseph, Mo. Mr. Browne is an expert tinner in the employ of the National Biscuit Co. He gives the following account of a trying experience:

"In the spring of 1902," he says, "while I was regularly working at my trade, I grew somewhat careless in my habits of eating and drinking, and finally found that my appetite was fickle, a bad taste lingered in my mouth, my nerves twitched and were beyond my control, my kidneys were out of order and cold sweats would break out over my body at odd times. Perhaps, while I stood talking with some one, this trembling of the limbs, and profuse sweating, and a severe chill would seize me. I became alarmed at my condition and, having read an endorsement of Dr. Williams' Pink Pills, I got a box and began to use them. They helped me at once. After I had used one box the twitching of the nerves, the trouble with the stomach and the cold sweats stopped and have not reappeared, and my appetite is good. I have told all my friends that Dr. Williams' Pink Pills cured me and I recommend them to everybody."

Dr. Williams' Pink Pills cured Mr. Browne because nothing can strengthen the nerves except good rich, red blood—and Dr. Williams' Pink Pills actually make new blood. They don't act on the bowels. They don't bother with mere symptoms. They drive from the blood the cause of anæmia, indigestion, nervous disorders, general weakness and the troubles of growing girls and women.

The pills are guaranteed to be free from opiates or harmful drugs. Sold by all druggists, or by the Dr. Williams Medicine Company, Schenectady, N. Y.



W.L.DOUGLAS SHOES ALL PRICES
BEST IN THE WORLD
ALL STYLES
THE WORLD'S GREATEST SHOEMAKER
SOLE AGENTS FOR W.L.DOUGLAS SHOES
Established July 6, 1876.

W. L. DOUGLAS

$3.50 & $3.00 SHOES FOR MEN

W. L. Douglas $4.00 Gilt Edge Line cannot be equalled at any price.

W. L. DOUGLAS MAKES AND SELLS MORE MEN'S $3.50 SHOES THAN ANY OTHER MANUFACTURER.

$10,000 REWARD to anyone who can disprove this statement.

W. L. Douglas $3.50 shoes have by their excellent style, easy fitting, and superior wearing qualities, achieved the largest sale of any $3.50 shoe in the world. They are just as good as those that cost you $5.00 to $7.00—the only difference is the price. If I could take you into my factory at Brockton, Mass., the largest in the world under one roof making men's fine shoes, and show you the care with which every pair of Douglas shoes is made, you would realize why W. L. Douglas $3.50 shoes are the best shoes produced in the world.

If I could show you the difference between the shoes made in my factory and those of other makes, you would understand why Douglas $3.50 shoes cost more to make, why they hold their shape, fit better, wear longer, and are of greater intrinsic value than any other $3.50 shoe on the market to-day.

W. L. Douglas Strong Made Shoes for Men, $2.50, $2.00. Boys' School & Dress Shoes, $2.50, $2, $1.75, $1.50

CAUTION.—Insist upon having W. L. Douglas shoes. Take no substitute. None genuine without his name and price stamped on bottom.

WANTED. A shoe dealer in every town where W. L. Douglas Shoes are not sold. Full line of samples sent free for inspection upon request.

Fast Color Eyelets used; they will not wear brassy.

FINANCIAL FINDINGS.

The Bank of Italy's note circulation is $11,500,000 above last July.

The French national debt on January 1 last amounted to $5,869,428,846, by far the heaviest on any country on the globe.

The report of the British mint claims gold coinage in 1904 of $55,210,000, compared with $50,720,000 in 1903, and an average for the preceding ten years of $31,811,000. Much of the new gold went to South America and Egypt.

It is estimated that $14,000,000 will be spent this year on the Pacific coast for the salmon pack, an increase of about $2,000,000 over last year. Between 4,000,000 and 5,000,000 cases will be packed this season as against 3,000,000 last year. The price averages $3.50 a case.

More than $15,000,000 of gold from the Alaskan and Klondike fields has already been deposited in the United States treasury this season, and, based on the output of prior years, it is probable that some $7,000,000 or $8,000,000 additional will be received before the close of navigation.

On April 30, 1904, after three months of war, the Japanese postal savings banks had 3,638,290 depositors with $15,500,000 to their credit. One year later, and that a war year, the depositors had increased to 5,035,161 and the deposits to $20,673,000. This increase, under the circumstances, of 1,396,871 depositors and $5,173,000 deposits is remarkable.

Total payment by government to New York banks for the day, $5,689,000; payment by banks to government, $5,017,000. Balance on the day's transactions, $672,000 paid by government to banks, against $1,191,000 similarly paid a week ago. Included in the foregoing summary is $300,000 deposited by banks with the sub-treasury for payment at interior points.

MEDICAL MENTION.

Soda, in a two-per-cent solution, is recommended by Prof. Esmarch, of Gottingen as the best means of disinfecting eating utensils.

Twenty-five per cent. of the students at Finland's university are women; but only half of these pass the examinations. Those that do are mostly in the medical department.

Headache and other ills of over crowded rooms are found by Dr. Paul of Breslau, to be due to retention of the heat by the body, even 15 per cent. of carbon dioxide doing no harm in a regulated temperament.

Somnoforme is the name of a new anesthetic tested at the Bordeaux school, Paris, which, when properly administered, is said to leave no after effects. It is composed of chloride of ethyl, chloride of methyl and bromide of ethyl.

Three human lungs—one white, one black and one gray—form an instructive exhibit in an Edinburgh museum. The first came from an Eskimo, who breathed the pure air of the arctic regions; the second, from a coal miner, who inhaled much coal dust, the third, from a town dweller, kept in city dust and smoke.

Some of the leading Italian physicians have held for some time that iodine, properly transformed, could be used as a cure for tuberculosis. Prof. Levi, of Milan, believes he has discovered the most suitable process for using it, but he refuses to make any positive statement until he has accumulated more proof of the efficacy of his method.

A LITTLE VARIETY.

The most successful way to love a woman is just to keep on telling her so.

France last year produced 76 ships of 123,600 tons, and Italy 16 ships of 58,662 tons.

One farmer at Greely, Colo., this year has raised 57,360 pound of cabbage on a single acre of ground.

Romaine Daurignac, brother of Mme. Humbert, the famous French swindler, varied his time while in prison between writing a novel and making baskets.

A remarkable little vessel for use on the Ganges river in India, called the Rattler, has been built to carry bullion for paying natives on tea plantations on the rivers Ganges and Hooghly. It is fitted with a strong room to carry thrte tons of bullion.

NOTICED IT.

A Young Lady from New Jersey Put Her Wits to Work.

"Coffee gave me terrible spells of indigestion, which, coming on every week or so, made my life wretched until some one told me that the coffee I drank was to blame. That seemed nonsense, but I noticed these attacks used to come on shortly after eating, and were accompanied by such excruciating pains in the pit of the stomach that I could only find relief by loosening my clothing and lying down.

"If circumstances made it impossible for me to lie down, I spent hours in great misery.

"I refused to really believe it was the coffee until finally I thought a trial would at least do no harm, so I quit coffee in 1901 and began on Postum. My troubles left entirely and convinced me of the cause.

"Postum brought no discomfort, nor did indigestion follow its use. I have had no return of the trouble since I began to drink Postum. It has built me up, restored my health and given me a new interest in life. It certainly is a joy to be well again." Name given by Postum Co., Battle Creek, Mich.

Read the little book, "The Road to Wellville," in each pkg.

NEWS OF MINNESOTA.

Made Money.

Hamline.—This year's state fair has come out $39,643.33 ahead of the fair of 1904.

This is demonstrated by the financial statement made up at the meeting of the state fair directors at the fair grounds. This year's total receipts were $238,200.05—$32,390.38 more than the receipts of 1904. The total disbursements this year were $149,876.62, which is $7,252.95 less than last year.

The directors authorized Secretary Randall to next season employ two men instead of one, as was the case this year, in beautifying the grounds with flower beds and general park improvements. The secretary was also authorized to employ men for making general repairs on the various buildings which needed attention. A new live stock pavilion will be erected.

State Loses.

Duluth.—Judge Homer B. Dibell of district court decided the "Silver mineral lease case," holding that there was no fraud in the issue, and that all mineral leases are valid under the constitution. The case arose out of the controversy in the campaign for governor a year ago, and the decision is a complete vindication of the administration of Robert C. Dunn as state auditor. The court found that no one in his office was interested in the leases. Mr. Dunn testified that no one had made prior application for the lease, and the lease was regularly issued. It was claimed that the mineral lease in this case was issued in the interest of George A. Flinn and I. C. Patterson, who were clerks in the auditor's office, and that one Pearl H. Smith made application prior to Mabel Evans.

Grain Fight.

Duluth.—The Wisconsin-Minnesota grain inspection fight is on in earnest. The plans of the Wisconsin commission to bring matters to a showdown were put in force with the issuing of a warrant for the arrest of one of the Minnesota inspectors. The complaint was sworn to by Commissioner Andrew and charged Russell Gray with inspecting grain in Superior without consent of the Wisconsin grain commission. Gray was arrested at Great Northern Elevator "A" by a constable. He was subsequently arraigned in municipal court and through his attorney demanded an examination. He was released on $100 bail.

Held Up.

Minneapolis.—Carl K. Foss of Sergeant, Minn., was held up, at the point of a revolver, in the Great Western railroad yards and robbed of $20 in cash. He was walking through the yards alone when two men, with handkerchiefs tied over their faces, ran out from behind a box car and covered him with their revolvers. He was ordered to deliver and he did so to the extent of $20. The robbers left his railroad ticket back home and the next morning he boarded a train that took him away from a city of vice and turmoil.

Will Withdraw.

Duluth.—The state railroad and warehouse commission, in order to remove any ground for complaint and out of a desire to prevent any possibility of violating the laws of Wisconsin, has decided to withdraw all grain inspection at Wisconsin wharves or elevators. Commissioner C. F. Staples, while on a trip inspecting a crossing at State Line, near Duluth, took occasion to look into the grain inspection here, and the commission sent a letter to Governor Johnson, informing him of the complete withdrawal of inspection from the Superior wharves.

Must Not Hunt.

Duluth.—Chief of Police Troyer has issued an order prohibiting the hunting of bears within the city limits of Duluth. The order was issued with the intention of putting a stop to the indiscriminate rifle practice on bears in the First and Second wards, which endangers the lives of citizens. Every fall there is an influx of bears from the north woods into Duluth. During the last three weeks, thirteen of the animals, with large timber wolves, have been killed along the street car line leading to Lake Side.

Reelected.

St. Paul.—Without exception the general officers of the state organization of the W. C. T. U. were re-elected at the morning meeting of the annual convention which was in session at Minneapolis. They are: Mrs. Bessie Laythe Scoville, president; Mrs. Kate Kercher, vice president; Mrs. Ella F. Hendricks, corresponding secretary; Mrs. Belle M. Welsh, recording secretary, all of Minneapolis, and Mrs. Delia R. Mandigo of St. Paul treasurer.

News Notes.

Minneapolis—Inquiry was received on change here from the Pacific coast for price on a round lot of 100,000 bu. of oats to go to Japan.

Stewartville—The first frost of the season did some damage to garden stuff. Corn is beyond harm, and will be the best crop in several years.

Minneapolis.—John Anthony was instantly killed and three of his fellow workmen were seriously injured at Hennepin avenue and Twenty-eighth street while trying to dodge a broken trolley wire that had fallen upon a crowded work car.

Winona—Joseph Thompson, watchman in the sand pit above Fountain City, was instantly killed by a Burlington train near Fountain City. He leaves parents living at Coatburg, Ill.

Winona—S. W. Hamilton, capitalist, land owner and the most extensive sheep dealer in the Northwest, died at a hospital here.

MUSCLES HE WOULD USE.

Medical Student Shows Eminent Qualifications for the Naval Service.

A bright, stalwart young man, who had just graduated from a medical college, applied for an examination to enter the United States navy. He was directed to appear before a medical board composed of old naval surgeons.

After a careful and lengthy examination, Col. W. C. Gorgas, the president of the board, asked, rather abruptly: "Doctor, suppose you were called to see a man who had been blown up, what is the first thing you would do?"

With emphasis he replied: "Wait till he came down, sir."

Col. Gorgas looked at him keenly and continued: "Suppose, for your impertinent answer, I should kick you, what muscles would I bring into play?"

"The flexors and extensors of my arm, for I should knock you down."

"You'll pass," said the colonel, with a smile.

Cured Her Rheumatism.

Deep Valley, Pa., Oct. 2nd (Special.)—There is deep interest in Green county over the cure of the little daughter of I. N. Whipkey of Rheumatism. She was a great sufferer for five or six years, and nothing seemed to do her any good till she tried Dodd's Kidney Pills. She began to improve almost at once, and now she is cured and can run and play as other children do. Mr. Whipkey says:

"I am indeed thankful for what Dodd's Kidney Pills have done for my daughter; they saved her from being a cripple perhaps for life."

Dodd's Kidney Pills have proved that Rheumatism is one of the results of diseased Kidneys. Rheumatism is caused by Uric Acid in the blood. If the Kidneys are right there can be no Uric Acid in the blood and consequently no Rheumatism. Dodd's Kidney Pills make the Kidneys right.

When a girl begins to persuade a young man that he ought to economize she usually means that he should stop spending money for cigars and save up to buy her a diamond ring.—Detroit Free Press.

SKIN PURIFICATION.

Cuticura Soap, Ointment and Pills Cleanse the Skin and Blood of Torturing Humors — Complete Treatment $1.00.

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of scalp, as in scalled head; the facial disfigurement, as in pimples and ring worm; the awful suffering of infants, and anxiety of worn-out parents, as in milk crust, tetter and salt rheum—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment and Pills are such stands proven by the testimony of the civilized world.

The barbers and printers played a game of ball at Hiawatha the other day. The barbers won by a close shave, and the printers set 'em up.—Kansas City Journal.

Announcement is made by the Rock Island-Frisco Systems of the inauguration of a daily through tourist car St. Louis to Los Angeles, via Frisco Line to Medora, Kansas, thence Rock Island-El Paso Line to California.

This provides an entirely new tourist car route to the Golden State, and with the installation of this car the Rock Island has no less than ten through tourist lines between the East and California. These cars start from Chicago, St. Louis, St. Paul and Minneapolis and run through via either the Rock Island's Southern Route by way of El Paso, or Scenic Route by way of Colorado. This frequent and comprehensive service is provided with a view to adequately meeting the demand for tourist accommodations under the very low rates effective in September and October.

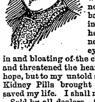
Give a man all he wants to eat and drink, and he will find it easy enough to preach to others upon the duty of abstinence.—Boston Transcript.

Do not believe Piso's Cure for Consumption has an equal for coughs and colds.—J. F. Boyer, Trinity Springs, Ind., Feb. 15, 1900.

"Thank fortune," said the acquitted boodler, fervently, "the technicality is mightier than the 'pen!'"—St. Louis Globe-Democrat.

A DESPAIRING WOMAN.

Weak, Nervous and Wretched from Wasting Kidney Troubles.



Mrs. Henry A. Reamer, Main and Garst Streets, South Bend, Ind., says: "When I began using Doan's Kidney Pills I was so weak I could hardly drag myself across the room. I was wretched and nervous, and had backache, bearing-down pain, headache, dizziness and weak eyes. Dropsy set in and bloating of the chest choked me and threatened the heart. I had little hope, but to my untold surprise Doan's Kidney Pills brought me relief and saved my life. I shall never forget it."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

OPERATIONS AVOIDED

Two Grateful Letters from Women Who Avoided Serious Operations.—Many Women Suffering from Like Conditions Will Be Interested.

Margrite Ryan

Margret Merkley

When a physician tells a woman, suffering from ovarian or womb trouble, that an operation is necessary it, of course, frightens her.

The very thought of the operating table and the knife strikes terror to her heart. As one woman expressed it, when told by her physician that she must undergo an operation, she felt that her death knell had sounded.

Our hospitals are full of women who are there for ovarian or womb operations!

It is quite true that these troubles may reach a stage where an operation is the only resource, but such cases are much rarer than is generally supposed, because a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after the doctors had said an operation must be performed. In fact, up to the point where the knife must be used to secure instant relief, this medicine is certain to help.

The strongest and most grateful statements possible to make come from women who, by taking Lydia E. Pinkham's Vegetable Compound, have escaped serious operations.

Margrite Ryan, Treasurer of St. Andrew's Society, Hotel English, Indianapolis, Ind., writes of her cure as follows:

Dear Mrs. Pinkham:—

"I cannot find words to express my thanks for the good Lydia E. Pinkham's Vegetable Compound did me. The doctor said I could not get well unless I had an operation for ovarian and female troubles. I knew I could not stand the strain of an operation and made up my mind I would be an invalid for life. Hearing how Lydia E. Pinkham's Vegetable Compound had saved other women from serious operations I decided to try it, and in less than four months I was entirely cured; and words fail to express my thankfulness."

Miss Margret Merkley of 275 3d Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham:—

"Loss of strength, extreme nervousness, severe shooting pains through the pelvic organs, cramps, bearing down pains, and extreme irritation compelled me to seek medical advice. The doctor, after making an examination, said that I had ovarian trouble and ulceration, and advised an operation as my only hope. To this I strongly objected—and I decided as a last resort to try Lydia E. Pinkham's Vegetable Compound.

"To my surprise the ulceration healed, all the bad symptoms disappeared, and I am once more strong, vigorous and well, and I cannot express my thanks for what it has done for me."

Ovarian and womb troubles are steadily on the increase among women—and before submitting to an operation every woman should try Lydia E. Pinkham's Vegetable Compound, and write Mrs. Pinkham at Lynn, Mass. for advice.

For thirty years Lydia E. Pinkham's Vegetable Compound has been curing the worst forms of female complaints, all ovarian troubles, inflammation, ulceration, falling and displacement of the womb, leucorrhœa, irregularities, indigestion and nervous prostration. Any woman who could read the many grateful letters on file in Mrs. Pinkham's office would be convinced of the efficiency of her advice and Lydia E. Pinkham's Vegetable Compound.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

MULL'S GRAPE TONIC

WONDERFUL

Blood, Stomach and Bowel Remedy

FREE.

Will You Accept It and Be Cured or Reject It and Be Miserable Unto Death.

Until Mull's Grape Tonic was brought to America there was no cure for Constipation and Stomach Troubles.

It is now the internationally famous remedy for these ills. The world's greatest cure for Constipation and Stomach Troubles, Impure Blood, Run down, and bad health generally. The Blood, Stomach and Bowels, are strangely subject to the curative power of Mull's Grape Tonic.

Mull's Grape Tonic has cured thousands, not hundreds, my reader, but thousands of fellow sufferers who now know the pleasures of perfect health.

Men, women and children in every state and neighborhood throughout the whole country bear willing witness to the marvelous curing qualities of this sovereign remedy, Mull's Grape Tonic.

Mull's Grape Tonic is in truth a boon to mankind. Mull's Grape Tonic is peculiarly the relief and cure for decaying intestines and Bowels, Impure Blood, Diseased Stomach and digestive organs which afflict nine-tenths of the human race.

Constipation and its attending ills: A run down system and general bad health, Rheumatism, Colds, Fevers, Stomach, Bowel, Kidney, Lung and Heart Troubles, Indigestion, Dyspepsia, Diarrhea, loss of sleep and strength, Piles, Fistula, Appendicitis, Womanly Troubles, Dizziness, Impure Blood, Bad Complexion, etc., yield at once to the wondrous cure of Mull's Grape Tonic.

This free bottle offer is made alike to one and all, Fathers, Mothers, Brothers, Sisters, Wives and Children, and to every one, to you my suffering reader, and to the ailing ones of your friends and acquaintances, who will even try, to be well and strong again.

Nowhere now in all the world can any sufferer say, "I have no hope, no help, no friend to aid me in my silent misery." There is a help. There is a cure. There is a friend. There is a way. The help is Mull's Grape Tonic. Mankind's best friend, and the way is free. Mull's Grape Tonic is free, nothing to pay, nothing asked, only that you be willing to try to be yourself again and test for yourself at our cost, free, the marvelous merit of this sovereign cure. When you send your name and address, tell us simply that you want a bottle of Mull's Grape Tonic, the great Stomach and Bowel remedy, free. You will receive the bottle without one cent of cost. Every penny of the expense is ours. Simply fill out and mail this coupon at once.

The genuine has a date and number stamped on the label—take no other from your druggist.

VOL. V. SUNBEAM, RED LAKE COUNTY, MINNESOTA, FRIDAY, OCT. 13, 1905. NO. 28.

A WEEK'S NEWS IN CONDENSED FORM

RECORD OF MOST INTERESTING EVENTS TOLD IN BRIEFEST MANNER POSSIBLE.

HOME AND FOREIGN ITEMS

Information Gathered from All Quarters of the Civilized World and Prepared for the Perusal of the Busy Man.

THE INSURANCE PROBE.

The payroll of the Mutual Life Insurance company was laid bare in the investigation in New York, showing President McCurdy gets $150,000 a year and that many relatives hold fat jobs.

President McCall, of the New York Life Insurance company, when asked what action his company would take with relation to the refusal of the insurance commissioner of Nevada to allow it to do business in that state under present conditions, said the company would fight to the death.

President McCall declares the New York Life has spent $1,103,920 in five years fighting blackmailing bills in legislatures. He said the big companies are hounded in every state in the union.

Senator Armstrong, chairman of the New York legislative insurance investigating committee, says that the committee will devote some time to fraternal insurance before it finishes its labors.

District Attorney Jerome, of New York, stated he would ask for a special grand jury to investigate the big life insurance companies. The son of the president of the Mutual Life was paid $1,705,681 in commissions, besides a salary of $30,000.

Germany and other European countries may bar the big New York life insurance companies from doing business because of revelations as to graft.

Insurance Commissioner Davis, of Nevada revoked the license of the New York Life company in that state because of alleged corrupt management.

James H. Hyde notified the New York insurance investigators that he will not appear voluntarily as a witness, and attacked the legality of the inquiry.

THE DOUGHERTY SCANDAL.

Newton C. Dougherty, bank president and educator of national reputation, was indicted by a Peoria, Ill., grand jury for alleged school fund peculations, which may reach $500,000.

A total of 13 indictments have thus far been returned against Newton C. Dougherty, city superintendent of schools and president of the Peoria, Ill., national bank. Ten of them are for embezzlement and three for forgery.

Because of the complications arising from the forgery indictments returned against Newton C. Dougherty, the Peoria national bank, of which he was president, has been closed.

MISCELLANEOUS.

A strong movement is on foot in both countries to bind Great Britain and Russia by a new treaty.

President Roosevelt favors a bond issue of $130,000,000 to pay expenses of building the Panama canal.

The Illinois state food commission has taken steps looking to the prosecution of dealers who refill stamped butter tubs with butterine and an inferior quality of butter.

Dudley Buck, the famous organist and composer, has severed the ties that bind him to his native land, and henceforth will live in Europe, according to reports reaching New York.

Two students suffered broken legs, a score of ribs were fractured and other severe injuries inflicted in the annual fight between the freshmen and sophomores of the University of Wisconsin at Madison.

The convention of bankers of the country in Washington next week is expected to be an event of national importance. Elaborate preparations are being made for the entertainment of the men of millions.

Members of the interstate commerce law convention charge the railroads with making plans to pack the coming gathering to defeat rate action.

Chicago banks drew liberal amounts of currency from New York as a result of the money movement to the west.

Americans and Europeans are buying Manitoba wheat. The export trade in oats is enormous.

Weekly trade reviews report continued activity, the absence of speculative operations being an encouraging feature of the situation.

The president will back the modified Esch-Townsend rate bill.

"David Harum," the novel written by the late Edward Noyes Westcott, of Syracuse, N. Y., netted the author's estate about $125,000.

Justice James Madison Barker, of the supreme judicial court of Massachusetts, died of heart disease at the Union club, in Boston.

Gen. Gomez, who is in New York, accuses President Palma, of Cuba, of using fraud and force and appealed to the United States to end reign of anarchy on the island.

Massachusetts republicans in state convention in Boston declared for tariff revision and nominated a ticket headed by Curtis Guild, Jr.

Charles E. Hughes, chief inquisitor for the insurance investigation, was nominated for mayor of New York by the republican convention, but declares he will not run.

President Roosevelt orders legal action which will break up the railroad monopoly of the bridges and terminals at St. Louis as the first blow in the war on railroads.

A Vancouver dispatch says a terrific gale, which swept the coast, is believed to have resulted in the drowning of at least 30 Japanese fishermen, who were out on the Gulf of Georgia fishing for salmon.

The navy department has designated the armored cruiser West Virginia as the vessel which will carry the president from New Orleans to Hampton Roads on his return from the southern trip.

A cave-in occurred at the Vermont Slate company's quarry about two and a half miles from Granville, N. Y. Ten men were killed.

William Stuckermolt was convicted of wife murder by a jury at Quincy, Ill. He beat her to death with a hammer while she was tied to her bed with ropes. Punishment was fixed at life imprisonment.

Ten buildings in the little town of Carlton, Minn., were burned. Loss, $50,000.

Horace T. Connett, for 50 years a prominent resident of St. Joseph, Mo., fell from a dam into a pond of water and was drowned. He was 74 years old.

When the Leland line steamship Anglian sailed from Boston for London, she had nearly 200,000 bushels of oats and corn beneath her hatches.

Dr. Joseph Huyett, said to be the oldest physician in Illinois, having practiced in Milan, Ill., for 57 years, died at his home in that city.

Democrats of New York city adopted resolutions praising President Roosevelt for his work in ending the Russo-Japanese war, at the convention which named George B. McClellan for mayor.

Famine in ice threatens Chicago and the whole middle west, and dealers say the prices may be raised.

Athletic contests at the vatican were inaugurated, when 250 took part in various games.

Secretary Root promised Baron Rosen to make response accepting the czar's proposition for reconvention of The Hague peace conference.

Earnings of the Illinois Central railroad for the fiscal year ended June 30 are reported as equivalent to 10.66 per cent. on the stock.

The St. Petersburg municipality refused to offer honor to Count Witte, blaming him for events making a peace treaty necessary.

Representative Townsend, having obtained the president's consent to his amended freight rate bill, announces the measure will be pushed.

The National Civic Federation commission to investigate municipal ownership organized at New York by electing M. E. Ingalls president.

The proposed treaty between Cuba and Great Britain is vigorously opposed by American interests.

Mrs. E. D. Rand, mother-in-law of Prof. George D. Herron, bequeathed $200,000 to found a school for socialism in New York.

Three children were burned to death, their parents rescued and taken in a dying condition to a hospital, five other tenants sent to hospitals suffering from burns, and two firemen hurt in a fire in a four-story flat house in Brooklyn, N. Y.

A Paris professor who discovered anti-diphtheria serum announces he has found a cure for consumption, which he will give to the world next August.

Louis Carmichael, the man that history gives credit for the nomination of Horace Greeley for the presidency in 1872, was found dead in a barn at Sydney, N. Y. He was 83 years old.

James A. Radcliffe, a Brooklyn financier, challenged President Castro to fight a duel over the Orinoco company's concession in Venezuela.

A reduction of bail for Henry A. Leonard, the young man who stole $359,000 worth of securities from the National city bank last week, from $25,000 to $10,000 has been made.

After an idleness of about two years, the plant of the Carnegie Steel company, in Columbus, O., has resumed operations.

Joseph Ramsey, Jr., was removed from the presidency of the Wabash Railroad company at a special meeting of the board of directors held in New York city. F. A. Delano was elected as his successor. Mr. Ramsey has been engaged in a contest with Mr. Gould for the control of the road.

J. M. Childers, jailer of the La Crosse county, Wisconsin, jail, who was convicted of assisting in the escape of two members of the notorious Eddie Fay gang of post office robbers, was sentenced to a term of 15 months in the house of correction.

Burglars entered the Bank of Springfield, S. D., and blew open the door of the vault. The marauders took all the cash there was, $5,200.

W. R. Hearst was nominated for mayor of New York by a municipal ownership massmeeting.

Earnings of the American Shipbuilding company for the last fiscal year were reported at the stockholders' annual meeting as $1,594,450, an increase of $521,275 over the preceding year.

The international tuberculosis congress, now in session at Paris, may decide to hold its next meeting in Chicago.

Illinois Methodists in the Rock river conference denounced unions and declared for open shop on account of the printers' strike.

President Roosevelt took the first step in the strenuous campaign which he will wage during the winter for railway rate legislation by conferring with Mr. Townsend regarding the details of a new bill.

Gassaway Davis, favorite nephew of Henry G. Davis, of West Virginia, and heir presumptive to $10,000,000, after working as a fireman at the Homestead steel works, has disappeared, and his relatives are searching frantically for him.

Secretary Bonaparte declares Maryland's proposed constitutional amendment will disfranchise many white voters.

England is said to be ready for an agreement with Russia over Constantinople. Germany is eager for an alliance with Russia and France.

Fire in the lumber district of Rhinelander, Wis., destroyed property valued at $600,000 and rendered 400 people homeless. Two big lumber yards and about 75 small dwelling houses were burned. About 40,000,000 feet of lumber was destroyed.

The Russian government has received a large number of replies to the peace conference invitations, all of which are favorable. The announcement of the program and the date for the meeting of the conference will be sent out as soon as all the replies are received.

Fire, which did damage to the extent of $110,000, destroyed an entire block of wholesale houses in Portland, Ore.

A terrific explosion of gas under the floor of the county commissioner's office at the courthouse in Cincinnati, O., killed George Zimmerman, chief clerk of the commissioners, and Russell Blair, an assistant clerk. Two other men were injured.

Relatives of a young student lost in a Colorado abyss, unable to recover body, are building a tomb over it.

Pat Crowe denies absolutely the alleged confession published in Butte, and refutes the statement that he said young Cudahy plotted with him to extort money from Mr. Cudahy, senior.

The peace treaty passed the privy council at Tokio. It is expected that the formality of the emperor's signature will follow shortly.

Nearly every city in western Wisconsin and eastern Minnesota, especially those bordering on the Mississippi river, are suffering from an ice famine. Continued warm weather, coupled with a small harvest of ice last winter is the cause.

Capt. Josiah Hall, one of the few remaining early pioneer mining men of the Lake Superior copper district, died at Calumet, Mich.

Dr. Thomas Patterson, the treasurer of Edgefield county, South Carolina, was suspended by the governor of the state for alleged defalcation of the county's money, amounting to $5,000.

Representatives of 28 central Michigan breweries met at Grand Rapids, Mich., and formed a cooperative brewing company, representing about $6,000,000 capital.

Russia will soon put on the market a new bond issue for $360,000,000.

The home of Paul Baux, two miles west of Danville, Ill., was destroyed by fire as the result of using coal oil to kindle the fire. Charles Baux, two years old, was burned to death, and Mrs. Paul Baux was fatally burned.

Chief Wilkie, of the United States secret service, has announced the discovery of a new counterfeit $10 United States ("Buffalo") note. It is of the series of 1901.

Gen. Jose Miguel Gomez, head of the liberal party in Cuba, landed in New York and declared that liberty is dead on the island. He blames the Palma government for political murders and says the United States is responsible for the condition of affairs.

President Roosevelt will go to New Orleans despite the yellow fever epidemic. He will leave Washington October 18, and will visit St. Augustine, Fla., Mobile, Birmingham, Tuskegee and Little Rock, reaching New Orleans October 26.

The Union cotton mill, of Union, S. C., one of the largest concerns of the kind in the south, which has lost $800,000 during the year by speculation in cotton, has been attacked in court by creditors, who apply for the appointment of a receiver.

Growth of the trust companies and their freedom to loan practically without restriction was declared to be a grave danger to the country by New York bankers at a meeting of clearing house officials.

WASHINGTON LETTER

A MILITARY MAN ACTING SECRETARY OF WAR.

THE AMERICAN PARTY WHIP

A Well-Dressed Populist—Report Favoring Restoration of Army Canteen—Recreation for Employes in the Canal Zone.

WASHINGTON.—It is not generally known that the man who has been acting secretary of war for the past three months is a soldier of practical experience. Robert Shaw Oliver, who wears the title of "general" on account of his position in the New York militia, is a regular army officer, who gave up his career as a military man away back in 1869 because of the almost hopeless outlook for promotion. He was about to attain his captaincy, after having seen hard fighting in the civil war, but took the advice of a friend and resigned. Had he remained in the service he would undoubtedly have been a major general to-day.

The argument advanced to him and which led to his resignation was put to him in this way: "There is a big hump ahead in the army. You will grow old as captain of a company of men. You may reach the rank of major, and if you stay in the army you will likely die as a major. A business career offers more attractions. Should there be hostilities you can get back in the army again with just as good a rank as though you served continuously."

Sometimes Gen. Oliver regrets that he did not remain in the army, especially when he sees a brother officer, a captain in the Eighth cavalry when Oliver was a first lieutenant in the same, now on the retired list as a lieutenant general. This officer is Gen. S. B. M. Young, the predecessor of Gen. Chaffee in command of the army. But Gen. Oliver has had many consolations for the sacrifice of his military ambitions. He came of a military family, especially on his mother's side. She was a Shaw in a line that has been famous in New England for three or four generations. Gen. Oliver still shows his military training in an erect carriage, a direct, almost abrupt, manner, and is a remarkably handsome and well preserved gentleman.

Mr. Tawney Wishes to Retire.

REPRESENTATIVE James A. Tawney, of Minnesota, who has been the republican "whip" of the house for several congresses, expresses a desire to give up that distinction and retire to the ranks. This position is one conferred by party caucuses, and Mr. Tawney, on account of his activity, tact and loyalty to the leadership of the party, has been chosen again and again to attend to this work.

The position of "party whip" has descended to the American house from the British parliament, where the "whip," who has the power of arranging pairs, is second only to the speaker of the house of commons in importance. In the American house of commons the "whip" looks after pairs, but, in addition, has important political duties to perform. When there is a measure to be voted on that is known as a party measure it is his duty to see that all the members of his party are in attendance and that none loses his vote through failure to arrange a pair with the opposition. Mr. Tawney has been very successful in his manageemnt of party matters on the floor of the house, and has frequently saved his party from defeat.

Probably the best work Mr. Tawney ever did was in connection with the passage of the Porto Rican tariff bill. The republicans only had a majority of 15 in the house, and there were six of these opposed to the bill, and there were four republicans absent without pairs. By skillful work and staying up all night prior to the final vote, Mr. Tawney succeeded in pairing the absent members and securing the consent of the republicans opposed to the measure to remain unpaired, and as a result the bill passed by a majority of nine. Mr. Tawney feels that he has earned the right to retire from this trying position, and wants to abdicate in favor of some other republican in the next house.

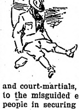
Col. James Hamilton Lewis.

THE other day Washington was brightened by a visit from Col. James Hamilton Lewis, now of Chicago, but at one time a member of congress from the state of Washington. The genial Lewis, whose aureole whiskers have been the theme of poets and writers since he first made his bow as a public character, has thousands of friends throughout the country, but in no city does he count more than he does in the nation's capital. He is an example of a man turning ridicule into political and professional capital, and through excessive notoriety securing opportunity to display the real talents of which he is possessed.

Col. Lewis' advent in congress is still one of the cherished reminiscences of the house. He came here as a populist in the ranks with Jerry Simpson and men of that kind. He was too shrewd to appear on the opening day of congress and take the oath of office in company with 356 other members. Two days later he showed up, and when called on to subscribe to the oath he had an opportunity of attracting the attention of everyone as he walked down the center aisle, dressed in immaculate style, with his sunset whiskers brushed and flowing, trousers creased and his whole get up an impressive example of the sartorial art. The other populists in the house grinned, while the republicans and democrats sat amazed at this anomalous picture where they had been led to expect a man with hayseed in his hair and wearing a six dollar hand-me-down suit of clothes.

Col. Lewis counted on making a sensation, and he was not disappointed. From that day he was a marked figure in the house, and he never hesitated to inject himself into debate on subjects with which he was familiar. He was always thoroughly posted on his subject, and the late Speaker Reed on more than one occasion expressed his admiration for this aggressive sunburst from the great northwest. Col. Lewis' congressional career made him a national figure, which has been turned to good account in the pursuit of his profession of the law. He is now a corporation counsel for Chicago and is making more money than many of his old populistic colleagues ever dreamed of.

Drunkenness Among Soldiers.



MAJ. GEN. FREDerick D. Grant has raised his voice in favor of the restoration of the canteen to army posts. In his annual report just published he calls attention to the increase in drunkenness among soldiers and consequent desertions and court-martials, which he attributes to the misguided efforts of very good people in securing the abolishment of the army canteen. The soldiers now go outside the army posts and patronize the lowest saloons and resorts, where formerly they did the little drinking they felt like indulging in at the post under proper restrictions and regulations, and were more contented and better conditioned.

Maj. Harrod, of the Panama canal commission, advocates the establishment on the canal zone of the old army canteen, with its sale of beer and other light drinks. He does not advocate what might be classed as "wide open" saloons, but believes that canteens or clubs should be established, where men could go and enjoy innocent games of cards, billiards or bowling and, if so minded, could secure a limited amount of light drinks. Recreation and rational amusement for American employes, he thinks, would help solve the problem of making the canal zone habitable for Americans. In discussing his idea the other day Commissioner Harrod said:

"We have between 1,400 and 1,500 Americans employed on the canal work, and those are the ones for whom I am concerned, as their tastes vary precisely the same as those of an equal number in this country. I have talked with the other members of the commission and we agree upon the necessity for amusement for these employes. My idea is the army canteen, where an employe can go and find a bowling alley or a billiard table, and where he can have his glass of beer, but where he cannot play poker and cannot get whisky."

Charity.

"Remember," said the charity sharp, "he gives twice who gives quickly."

"In other words," rejoined the marble-hearted man, "he gives twice as much as the fellow who stops to think it over."—Chicago News.

THREATENS TO OUST THE NEW YORK LIFE

MISSOURI DEMANDS RETURN OF CASH AND OTHER CONCESSIONS.

THOMAS LAWSON PLANS BIG INSURANCE REFORM

Communicates with Several Governors—Asks Co-Operation in Setting Companies on Firm Basis—Minnesota Head Agrees.

Jefferson City, Mo., Oct. 9.—State Superintendent of Insurance W. D. Vandiver Saturday sent a communication to John A. McCall, of the New York Life Insurance company, demanding that the $148,702.50 campaign fund contribution be replaced in the treasury of the company, under penalty of revocation of the company's license to transact business in Missouri for failure to comply with the demand. In the communication Superintendent Vandiver also informs President McCall that the Missouri department of insurance will insist on a new president, vice president and financial committee for the New York Life Insurance company just as soon as the directors can possibly effect the reorganization.

Folk Receives Telegram.

A telegram was received by Gov. Folk from Thomas W. Lawson, of Boston, and was sent by Mr. Lawson in connection with a movement to form a committee including the governors of several states and other persons of prominence to secure restitution of funds alleged to have been wrongfully used by large insurance company officials and the punishment of those guilty of criminal action in connection therewith. Mr. Lawson's telegram follows: "Will you, with other governors and strongest representative men of the country, serve on a policyholders' protective committee of Equitable, New York Life and Mutual companies? Committee unfettered except it is to take possession of New York and Mutual and select directors and controllers who shall be pledged to obtain full restitution and full punishment of wrongdoers, also obtain restitution and punishment of Equitable wrongdoers. No expense to committee, nor need committee travel. Committee to represent no faction and obligated to no one except policyholders. It has been decided you should represent your section in this sacred duty. Kindly wire answer my expense. This is vital. You will not be bound until other members' names submitted to you."

Soon Will Announce Names.

The telegram was sent Friday. Mr. Lawson has declined to discuss the proposition. He said that the telegram outlined the plan sufficiently for present purposes. He also declined to make known the names of the persons to whom the telegram had been directed, although he said that many governors as well as leading civilians were among those addressed. It was his purpose, he said, as soon as possible to announce the names of those who had accepted the invitation to act upon the protective committee. As soon as the personnel of the committee was decided, he said, organization would be effected and a definite plan of action adopted.

Johnson Also Consulted.

St. Paul, Minn., Oct. 9.—Gov. Johnson is in receipt of a telegram from Thomas W. Lawson, asking him to be one, with other governors, of a protective committee for the policyholders to demand restitution of the money by the Mutual, New York Life and Equitable companies and to punish the guilty officials. Gov. Johnson replied to Mr. Lawson's telegram, accepting his proposition. Gov. Johnson said concerning his answer: "I am more than willing to aid Mr. Lawson in any reform of which he is the head, for I believe he is in earnest."

Confesses to Killing Girl.

Chicago, Oct. 9.—Dr. Oliver B. Hart, of Rogers Park, confessed Saturday that he gave ten-year-old Irene Klokow bromidia—chloral "knockout" drops—in such a quantity that would cause the death of a giant. In the presence of a score of witnesses he said he gave the girl at least 45 drops of bromidia in his futile attempt to resuscitate her after she had swallowed a large number of sugar-coated morphine tablets. He followed up the bromidia treatment with at least eight hypodermic injections of strychnia sulphate of 30 grains each.

Finds Son Murdered.

Helena, Mont., Oct. 9.—Because he had not heard from his son, Washon J. Oliver, en route overland from Canada to his southern mountain home, W. M. Oliver, a prominent citizen of southern Montana, came to Helena and informed the police that he believed his son had met with foul play. Investigation resulted in the finding of the murdered body near Wolf creek.

An Indian's Advice.

The following is a statement de by a full blood who is well sted on Indian affairs: "Government safeguards have been the bane the Indian. Instead of being ght to rely upon himself he has n encouraged to be dependent. e government should have pushed n off to his own resources long o, as a cow does her calf when it old enough to hustle for itself. e government should have given e Indian 160 acres, together with mule and a plow, in the beginng and enjoined him to 'root, hog, die.' Turn him loose. Let him and work out his own salvation. ntiment and misguided philanropy will never save him. He ust save himself."—Kansas City urnal.

Gondola Willie.

When Emperor William was unger he used to sound alarms at ld hours and turn up all available my corps to march past or maeuver when they least expected it. n one such occasion the garrison cluded a detachment of submarine ews, and the emperor came along coutered as an admiral.

He was standing among a group shivering officers when one veter n took him for some other worthy ilor. He slapped him on the back. "I see that Gondola Willie has shed up the aquarium this morng," he observed pleasantly.

They attribute the cessation of dden alarms to that incident.

Jupiter's Big Red Blotch.

In 1878 something happened on upiter which caused a red blotch appear in his southern hemisphere ear one of the great belts that cross is disk like huge bands of colored louds. It was 30,000 miles long nd 8,000 miles broad, yet, after all, nly a little patch on the mighty isk! It has remained ever since, ometimes brightening to almost he crimson hue of fire and someimes fading nearly to invisibility, et always, even when faintest, certiying its presence and its power by eeping the area originally covered y it clear of all other objects.—ıccess

Not For General Circulation.

"Say, pa, when I'm a man won't have to obey you nor ma any nore?"

"No, but you'll have a boss then who will make you wonder why you ever thought we were hard to deal with. You needn't tell your ma, however, that I told you."—Chicago Record-Herald.

As It Should Be.

He had just proposed, but his poverty was too much of a handicap.

"A man without money," she said, "might as well walk back and sit down."

"Oh, of course," he rejoined. "He naturally wouldn't be in a position to ride back."—Brooklyn Eagle.

Webster's Tiresome Habit.

Senator Hoar in his "Reminiscences" says that Daniel Webster had a tiresome habit in his public speeches of groping after the most suitable word after this fashion: "Why is it, Mr. Chairman, that there has gathered, congregated; this great number of inhabitants, dwellers, here; that these roads, avenues, routes of travel, highways, converge, meet, come together here?" When the speech was printed all the synonyms but the best one would be left out.

Brides Priced.

To us it seems a curious whim on the part of our ancestors of the eighteenth century that in their marriage announcements they should so often choose and with such seeming complacency to enlighten the world with regard to the amount of fortune received with the brides. Here are two cases in point: "Mr. James Coutts of Jeffry's Sq., merchant, to Miss Peagrum of Knightsbridge, £30,000." "W. Smith, gentleman, of the 2d Troop of Horse Guards, to Mrs. Ann Gardiner, a maiden lady, aged, 'tis said, near 70, with a fortune of £20,000."—Chambers' Journal.

You will never get on the sunny side by waiting for the world to turn round.—Atlanta Constitution.

TRICOLOR AND COCKADE.

Origin of the Historic Red, White and Blue of France.

Some seventy or eighty years before France was involved in the flames of the revolution—that is, at the epoch of the war of the succession when she was in close alliance with Spain and Bavaria—it was thought desirable to distinguish the allied soldiers by a cockade which combined the colors of the three nations—the white of France, the red of Spain and the blue of Bavaria.

To none of such incidents, however, would it be wise to attribute the origin of the historic tricolor and cockade adopted by revolutionary France. At the outset there seemed a likelihood that green, which Camille Desmoulins had popularized at the Palais Royal, would have become the national color, but men remembered in time that it was that of the livery of the Comte d'Artois, the most unpopular of the Bourbon princes, and it was thereupon discarded.

A proposition was then made to assume the colors of the city of Paris—blue and red, as Dumas reminds us in his "Six Ans Apres." To these was added the white of so many glorious memories, because it had been selected by the national guard—always faithful to the throne and its traditions.

Not until some months after the capture of the Bastille was the tricolor definitely adopted, when Bailly and Lafayette presented it to Louis XVI. in the great hall of the Hotel de Ville, and the convention issued a decree in which it was described as consisting of three colors—"disposees en trois bandes egales, de maniere que le bleu soit attache a la garde du pavillon, le blanc au milieu, et le rouge dottant dans les airs"—that is, in equal vertical sections, with the blue inward, the red outward and the white between.

This is the historic flag which Napoleon's legions, in conjunction with their eagles, bore victoriously from the Seine to the Elbe, the Tagus, the Borodino and the Danube, which they planted victoriously on the walls of almost every European capital.—All the Year Round.

RUSSIAN PROVERBS.

Spin flax if you canst not weave silk.

Dull silver is better than shining brass.

Even the stupid man is clever enough to make an excuse.

He who receives too much praise grows donkey's ears.

No brass is prouder than that which has lately been coined.

If thou sayest snow is dirty, what wilt thou say about chimney soot?

Eat the honey thou canst find; drink the vermuth thou canst not avoid.

When the avaricious man has sold his forest he wants to sell the trees.

Do not look too long at the holes in your coat, but put patches on them.

When the nightingale's voice was praised the cart horse began to neigh.

The bees gather wax and honey. The avaricious man asks that they should also prepare his mead.

"What a pity to lose my splendid boat!" cried the ferryman as he and his passengers were drowning.

Two Kinds of Reading.

If we make the pages of our books merely a sort of pleasant maze in which to set our minds to wandering during idle hours we in reading shall have acquired a pastime that is usually harmless. But there is a vast difference between such a way of spending our time and the reading that teaches us to think as the greatest and wisest men and women have thought. Words stand in our minds for certain ideas or images. From what we read we learn to make these plain or hazy, clearly drawn pictures or carelessly executed sketches, and thus our powers of thinking are directly trained by our method of reading.—St. Nicholas.

Magnet Power.

The lifting of massive iron and steel plates weighing four, six and twelve tons by magnetism is now done every workday in a number of large steel works. The magnets are suspended by chains from cranes and pick up the plates by simple contact and without the loss of time consequent to the adjustment of chains and hooks in the older method. It is also found that the metal plates can be lifted by the magnets while still so hot that it would be impossible for the men to handle them. A magnet weighing 300 pounds will lift nearly five tons.

Against Her Principles.

"Don't you think," asked Mrs. Oldcastle, "that everybody is affected more or less by environment?"

"Yes," replied Mrs. Packenham, "if they're foolish enough to take such things, but I always turn down my glass and never touch it."—Chicago Record-Herald.

Hadn't Tested It.

He—It's impossible to please everybody in this world, isn't it? She—I don't know. I never tried it.—Detroit Free Press.

Vegetables as Medicine.

If you are wakeful eat lettuce.

For affections of the skin and for yellow skin eat onions. Onions are also good for colds, coughs and scrofula.

For a torpid liver eat freely of asparagus.

For malaria and general breakdown eat cranberries.

If nervous and irritable eat plenty of celery.

For constipation eat fruits—ripe and healthy fruits. Fresh fruits are good, so are figs and dates. Raisins are beneficial.

SPORTING RIGHTS.

ly Source of Income of Many Titled English Families.

ere it not for the enormous sums d for fishing and shooting rights people of ancient names and y title would, in the most literal se, have no means of livelihood atever, and only the other day one the best known property agents of the west end of London drew up for he writer a list of a dozen people mixing in society of an exclusive kind, every penny of whose income is deved from the letting of sporting ights.

Nearly all the money thus expended has been made in commerce, and the agent referred to above showed documentary evidence proving that there are lots of men who do not mind paying as much as £100 for every deer, 3 for every trout and £20 every salmon they kill, plus the sport of killing them. One of the most remarkable features of this letting is the fact that only about one in every hundred of the owners of ancient sporting rights ever enjoys his privileges as a sportsman. He either prefers or is compelled to part with such privileges, and those who take advantage of them are nearly all people in business.

This renting of fishing and sporting has even extended down to comparatively humble people in the provinces. Many a small Yorkshire farmer is being kept, and well kept, not by his farming, but by the letting of some comparatively insignificant sporting right.—London Tit-Bits.

Ivory From the Graves of Elephants.

As a species of rejoinder to the charge that the present consumption of ivory is threatening the elephant with extinction, it has recently been stated that 85 per cent of the supply of ivory is obtained from "elephant cemeteries"—spots met with here and there in the jungle, where elephants have resorted for centuries to die. W. L. Distant, editor of the Zoologist, points out that very few of these spots seem to have been discovered by travelers and scarcely any record of them is to be found in books of travel.

Mrs. Roosevelt's Secretary.

Miss Isabel Hagner, private secretary of Mrs Roosevelt, has a fortune ample for all the frivolities of Newport and Tuxedo or for division of her life between Fifth avenue and Belgrave square, but she prefers to follow the useful career she mapped out for herself when with a thinner purse she entered semipublic life. When Miss Hagner came into a handsome inheritance recently she gave no sign of intention to leave her present post.

Deacon and Elder.

Morrison—What is the matter, Dumley? You look terribly mystified. Dumley—No wonder. I was talking with Jinkins just now. We were speaking of the Joneses, and he said that the elder was the younger and the deacon the elder. I can't get at the rights of the thing to save me.—Boston Transcript.

He Sent Another.

A few years ago a well known lawyer remitted in settlement of an account to the publisher of a paper a two dollar bill, which was returned with the brief statement:

"This note is counterfeit; please send another."

Two months passed before hearing from the lawyer again, when he apologized for the delay, saying:

"I have been unable until now to find another counterfeit two dollar bill, but hope the one now inclosed will suit, professing at the same time my inability to discover what the objection was to the other, which I thought as good a counterfeit as I ever saw."—Philadelphia Ledger.

The Hindoo Strong Man.

The Hindoos tell wonderful stories of the feats of Bhima, who was their strong man. Among the wonders credited to Bhima are the following: Pursued by a tiger, his mother when nursing Bhima let him drop. The force of the impact shattered in a thousand pieces the rock on which he had fallen, but the boy was none the worse. When he quarreled with other boys he gathered them up, ten or fifteen at a time, and plumped them into the nearest pond. His cousins hid themselves in a tall banyan to jeer at him, but he tore it from the ground without effort. He snapped his bonds like Samson, and a hungry cobra's fangs could not penetrate his skin. His triumph, however, was the defeat of Bakasura, who "consumed a cart load of food at a sitting and used palmyra trees for toothbrushes."

Oyster Stuffing.

A delicious oyster stuffing is made by taking two scant teacupfuls of stale breadcrumbs, one-half pint of oysters drained and cut in half. Season with salt, pepper, celery salt, one tablespoonful of butter, one-half teaspoonful of sweet cream to moisten the crumbs and one well beaten egg. Mix and fill the fowl or chicken. Garnish the bird before carving with fried oysters and parsley.

About the House.

Common whiting mixed with ammonia makes excellent silver polish.

Kerosene brightens brass ornaments and keeps them from tarnishing.

Use a knife to break an egg. The contents of the egg are more easily handled.

Hang up the clothes brushes and the whisk brooms. It needs but a few cents invested in nails and screw eyes.

Lamp wicks are not expensive. It is poor economy to strain the eyes and spend every morning filling lamps when time and eyes can be spared by throwing away the short, blackened wick.

Hamlet at Singapore.

I saw "Hamlet" played and adapted for Malays at Singapore. It was sung instead of spoken, and mostly to English tunes. Hamlet addressed the ghost to the tune of "Her Golden Hair" and killed Polonius to "Listen to the Band." Polonius addressed his son to "That's English, You Know," and, with the king and queen, sang "Mary Was a Housemaid" to other words. The ghost scene included three ghosts, two clowns and a bottle of whisky.

Forests and National Prosperity.

As a living example of the consequences of deforestation we need simply look to Spain, a country which centuries ago was rich in timber and agricultural products, a proud seafaring nation of world conquerors. Spain's decadence dates from the time when her timber supply became exhausted, her shipbuilding relaxed and her barren, unprotected soil ceased to bear fruit.—Forum.

A Long Way Around.

A man with a large family of daughters on his hands may profit by the following suggestion: An old lady who had several unmarried daughters fed them largely on a fish diet because, as she ingeniously observed, "fish is rich in phosphorus, and phosphorus is useful in making matches."

Her First Dinner.

"Yes," said Newliwed, "my wife and I are housekeeping now. She prepared our first dinner last night with her own fair hands."

"How was it?" asked Bacheller.

"Well, the nuts and raisins were fine."—Philadelphia Ledger.

We regret that an article written from Rhoda, came in to late for publication this week,

The steamer "Christiana" was on her way up to the Agency yesterday, passing here about 4 o'clock.

A 60 mile ride to McIntosh, and return this week. in a lumber wagon over a road that is so rough in some places that you have to hang on with both your hands and tie your feet down, to keep from being thrown out of the wagon has shaken about all the news out of us this week.

Bids are being asked for to carry mail from Sunbeam to Lillo, via Radha, and Rhoda, and return, three times a week. Bidders should have their bids ready to send to Washington by the 18th, so they will have time reach the department by the 24th of this month. Blanks for making bids can be had at Sunbeam post office

The first school meeting for this district was held at the residence of Alfred Eve, yesterday afternoon and the following was elected for officers to hold until the next anual election. Clerk, Miss Auguste Kuehnel. Tresurer P C. Wold. Director, Alfred Eve. A special meeting was called to meet at the store of Andrew Ellengson, at High Landing Oct 23rd, at 2 o'clock p.m.; to vote bonds for buiding a new school house

George Singer, Mrs. Singer, John Polbrook and W. G. Hunt, went down to Crookston on Monday last, where Mr Singer made final proof on his homestad before the U.S. Land office on Tuesday. They retuned Wednesday, excep George Singer who went to Fosston and Gully, to look after his business interests down there.

DIED. At his residence, at St Hilaire on Saturday morning last; of heart failure. James McAndrees. He has a brother W. A. McAndrees and a aister Mrs. Dan Sulivan living in this township and one sister Mrs. Simon O'Toole; liveing in the town of Kratka, who were notified and went down there on Sunday morning. Mr. McAndrees and O'Toole were working in N.D. threshing; but were notified in time for them to attend the funeral. We have not learned the particulars but understand that Mr McAndrees was considered to be in good health up to the time of his death, which came as a shock to his relatives and friends.

Anxious.

"I hear that your wife has run away from you?"

"Yes. I've offered a reward for her capture, dead or alive."

"How much?"

"Ten dollars alive and a thousand dollars dead."—Judge.

The Kaiser's Stirrup Cup.

Here is the recipe, given in the Westminster Gazette, of the kaiser's favorite preparation when he goes out hunting:

White beer, sugar, citron peel, ginger, spices, the yolk of at least a dozen eggs, Rhine wine, Madeira, old Santa Cruz rum. All this after being thoroughly stirred is placed on a fire and slowly heated, several large pats of butter being added to the concoction while it is warm.

No Further Delay.

Abner Slopdak (desperately)—M-may I name the day? Jemima Jones (decisively)—No! Abner Slopdak (in alarm)—Why? Jemima Jones (frankly)—Because, if you put it off as long as you did your proposal, we never will be married. I'll name the day myself.—Cleveland Leader.

When you are ready to make appication to make final proof you should speak to four of your neighbors for witnesses, then be sure to bring your homestead reciept with you and we can do the rest.

LESS THAN ONE CENT A Day, will bring the news of the news of the world to your home by subscribeing for the Duluth Evening Herald, which is sent by mail for 25 cents per mont. The Herald is considered one of the leading papers of the North west, prints on an avrage of more than fourteen pages daily, and the entire Associated Press reports. If you want to keep poted "Read The Herald." Duluth Weekly Herald, $1 per year; six mounthe 59 cents; three months, 25 cents.

EARN FROM $75 TO $150 PER MONTH.

We want at once, young men for Brakemen and Firemen.

Experience unnecessary.

Positions secured as soon as competent. Instruction by mail.

Cut out cupon and send with stamp for full particulars. Give name; age, and post office address; with No. of R.F.D. route.

Northern Railway Correspondence School.

45-s. 4th st.

Minneapolis, Minn.

APPLICATIONS AT LILLO.

If you live in the town of Equality or Johnson you can make your application to make final proof; at Lillo; and have your notice published in the paper published nearest your land.

LAND OFFICE BUSINESS.

U.S. Commissioner L. G. Browning with office located at Thief River Falls, is prepared to take homestead entries final proof etc., within the Crookston U. S. Land District.

Office in News building, three doors south of the post office.

Marketing in Paris.

Almost every woman in France does her own marketing, and ladies take their maid or cook along to carry some their purchases.

I am speaking of the average household. Rich or very chic people leave the marketing to the cook, who deals in stores which have regular deliveries, while in very wealthy households that all important personage, the chef, would not hear of any one interfering with his prerogative of selecting and ordering everything, and this able creator of sauces, of things savory, steaming or jellied, may even have his own coupe to take him to the Halles, the huge market that each day provides the provisions for all of Paris and its suburbs.

Servants love to go to market, for it is a custom with almost every store keeper to give them a cent on every franc spent, so you will find it next to an impossibility to make your cook deal where she does not receive her sou du franc, and in engaging a servant many will ask you, "Does madame do her own marketing?"—Good Housekeeping.

Coffee and Smoke in Spain.

Even of wine, so cheap and abundant in Spain, the natives seem to use very little. They are frightfully intemperate, however, in their use of tobacco and coffee. They drink coffee at all hours and apparently every hour. The clerk who takes his morning cup at 9 has another at his desk an hour later, purchased from a street vender. The business men passing through the streets pause while a fellow who carries hot coffee, hot milk, sugar and spoons harnessed upon him serves them on the sidewalk.

If the Spaniard does not smoke in his sleep it is his only respite from the habit.—Rosary Magazine.

Stale Bread Day.

A traveler says that a curious weakness of grownup Moors is the love of eating newly baked bread. The caid of Azemmoor, in Morocco, discovered that old bread was thrown away as waste. To waste food is a serious offense in the eyes of a Moslem. The caid of Azemmoor therefore issued a bylaw prohibiting the baking of bread upon one day in each week. The citizens, he declared, must eat up the bread already baked, and he fixed Wednesday as the "bitalah," or holi[illegible]

Raw Animals.

With a heart attuned to "nature study" a little Hungarian girl in the Canadian northwest exclaimed: "Yah, teacher. It's certain beautiful on our prairie, where the birds and the small sheep run about raw."

To have a perfect stomach a man or a woman must dine well and breakfast and sup simply.—Ladies' Home Journal.

NOTICE TO PAY UP.

We have been sending out statements of their subscription accounts to a large number of our old subscribers, the past week, as we must colect some of the money due us on thease old accounts, this fall, Now do not rush to the post office and tell the post master to notify us to stop sending that darnd paper, when you are owing a subscription bill, but pay up and then stop it, if you do not want the paper.

A Vegetable Caterpillar.

In New Zealand and Australia they have an animal vegetable oddity which cannot be equaled by any other inimate or inanimate object upon the earth's surface. It is the queerest of the many antipodean wonders and paradoxes and for the want of a better name has been called the "bulrush caterpillar" or "vegetable worm." The native Tasmanian name for the oddity is aweto-hotete. The aboveground portion of this vegetable worm is a fungus of the order sphaeria, which grows to a height of six or eight inches. When pulled up by the root this fungus is found to consist of a large caterpillar, showing head, segments and breathing holes—every detail of the grub being perfectly preserved. On examination the interior of the caterpillar is found to be composed of a "punky" looking substance, really the root of the fungus, which has cremated every fiber of what was once a living, breathing creature's anatomy. In all the instances which Buckland records, the sphaeria had made its attack in the fold of skin between the second and third segments of the caterpillar and had replaced all the animal substance of the creature's body with a hard brown vegetable growth resembling the fungoid growths on blackberry and other vines.

He Wanted That Wine.

General Sir E. Hamley is cited as the authority for a good anecdote about Bismarck. Hamley was sitting close to the chancellor at luncheon, with the old Emperor William not far off.

Bismarck, talking rather loudly, described the old monarch as being generous, but very forgetful. Hamley got nervous, as he thought the emperor would hear. "For instance," continued Bismarck, "I pleased him the other day, and he asked me what he could do for me. I said, 'Give me a dozen of that Tokay you have in your cellars,' and he said he would. "But," added Bismarck, raising his voice still higher, "he hasn't done it." Here Hamley hastily broke in, "I beg your pardon, but I am really afraid the emperor will hear you." "I want him to hear me!" roared Bismarck. "That's just what I want." And a smile broke over the face of his imperial master.—"Fifty Years of Fleet Street."

Tiger Story From India.

A man living in a village near Lucknow is reported to have had an extraordinary adventure in the jungle. He had gone in search of two buffaloes that had gone astray when he was attacked by a tiger.

He was unarmed except for a heavy stick, with which he fought until overcome by loss of blood, when he sank unconscious. At this moment the two buffaloes appeared. One of them stood over the wounded man, while the other snorted and tossed his head.

The man recovered consciousness and staggered to his feet, when the tiger made another spring at him. The beast was, however, received on the horns of one of the buffaloes and was so badly wounded that it turned tail and slunk away.—London Express.

Milk and Apples.

Though no one would think so from looking at a fluid glass of milk and a solid apple, the percentage of solids and water in apples and in milk is almost the same; apples being 85 per cent water, and milk 86 per cent.

There is more sugar in apples and more acid in milk. A diet of both apples and milk is one of the most wholesome and well balanced. The potash contents of both are high. They are the best for brain, bone and muscle nourishment, and in their effect upon the nerves they are soothing.

In skimming milk the cream removed lessens the fat percentage, and for older people or fat children the skim milk is equally desirable, in some cases better. In eating apples the skin, too, should be eaten. Pared apples are not so nutritious, as the ash contents of the apple skin are valuable to the human system.

Odd Animal Laws.

When a dog was unlawfully killed in countries differing so widely as Germany and Arabia the owner of the animal used to be indemnified in the following manner: The dog was hung up by the tail, with the point of its muzzle touching the ground, and the man who had committed the offense was obliged to pour over it corn or flour until the carcass was completely hidden by the heap. This heap then became the property of the man who owned the dog.

In Syria there was a specially curious variation, for if it were a street dog that was killed the flour was made into bread and given to its fellows. No doubt this arose from the value attached in those old parts to street dogs as scavengers. By the old Welsh laws of Howel the damages for killing an animal belonging to another were assessed in the same odd manner.

ANIMALS' WANDERINGS.

Country Mouse and Town Mouse Fable Has Foundation in Fact.

The fable of the country mouse and the town mouse has a foundation in fact. Mice occasionally migrate in large numbers when food grows scarce and travel considerable distances to fresh houses. Farmers in a part of Perthshire had a good reason to become aware of this fact when a couple of years ago vast swarms of mice invaded their cornfields at harvest time.

But the mouse only travels when it has to. The rat, on the contrary, seems to take a yearly outing, in very much the same fashion as do human beings. Rats are the most migratory creatures in the world. Troops of rats leave the towns at the end of summer and spend a month or two in the country, apparently in order to enjoy the change of food which the country affords at that time of the year in the way of fresh fruit and grain. Before the cold weather sets in they are all back again in their old quarters.

Reindeer migrate with the same regularity as swallows. They move south when winter sets in, but as soon as ever the snow begins to melt they travel steadily north, sometimes for as much as a thousand miles.

To end a holiday by deliberate suicide is so strange a phenomenon that for a long time naturalists looked upon the stories of the migration of the lemmings as an improbable fiction. Yet the facts are beyond dispute. At irregular intervals these ratlike creatures start out from their homes in the fastnesses of northern Scandinavia in huge droves numbering tens of thousands and travel steadily southward. Death pursues them in a hundred forms. Hawks and other birds of prey hover above them. Thousands are drowned in rivers. Yet the rest struggle on until they reach the sea. They do not stop. They plunge in, swim out and struggle on until at last their strength fails and they drown. Not one ever returns from this journey of death.—London Answers.

COTTON IN A FABRIC.

How to Tell if Worsted or Woolen Cloths Are Adulterated.

Worsted cloths are less often adulterated than woolens and are more easily detected. A cotton worsted is a lie on the face of it, for the cotton stands out with prominence. But often a cotton thread is twisted with a worsted thread, and to determine its presence it is only necessary to take the twist out of the thread and then examine its component parts.

Cotton, having a long staple, can be carded and combed with wool to be spun into worsted yarn. This is done to cheapen the cost of production. Cotton is carded and spun with wool and shoddy, not so much to cheapen the yarn, for cotton is generally as expensive as some shoddies, but is introduced to give strength or spinning qualities to the stock. In many cases the shoddy is of such short staple that it would not stand the drawing in spinning, and, as it would make the cost of the yarn too high to put in enough wool to give that lacking strength, cotton is put in for this purpose.

The percentage of cotton in a fabric can be determined in this manner: Take a small piece of cloth and weigh it. Now boil it for five minutes in a 5 per cent solution of caustic soda. Take out what is left, and, if any, it is all cotton. The wool will all be dissolved. The percentage of shoddy cannot be determined except by experience.

A cloth or yarn with shoddy in it is easily detected by its feel. Cloth made of all new wool is softer feeling than one containing shoddy, for the latter has lost that new, soft, springy feel peculiar to wool.—American Wool and Cotton Reporter.

Success Prolongs Life.

It is now well known that increased complexity of life with increased expenditure distinctly aids longevity. Luxury, "the fertile parent of a whole family of diseases," modifies it greatly, of course, but this is a manageable factor, says the London Chronicle. We have only to recall personal experience to realize the force of intellectual stimulation. The interest of sport will sustain men without fatigue for distances they otherwise could not traverse. The excitement of strife will often mask the presence of wounds. Self forgetfulness in all the walks of life, under the stress of love, chivalry or accepted duty, doubles human endurance. Success gives new vitality, new powers, and this is another name for new life.

No Notion of Real Trouble.

"I bet I get into more trouble than any man in this state," volunteered the young fellow who had come in the clubhouse. "Nothing in the trouble line overlooks me. Why, I'd be afraid to marry"—

"What! Ain't you married?" ejaculated the red nosed elderly party who was hovering over the gratis lunch. "Boy, you don't know what trouble is."—Louisville Courier-Journal.

Charity.

She—I'm glad we went. It was an excellent performance—and for such a charitable purpose. Her Husband—Yes, indeed! We all feel a thrill of satisfaction when we do something for charity and get the worth of our money at the same time.—London Tit-Bits.

Intended.

Bills—You made a funny break in congratulating the bride's father instead of the groom. Wills—No, I didn't. I've a daughter, too, and I know what they cost.—Chicago Journal.

Just as you are pleased at finding faults you are displeased at finding perfection.—Lavater.

In Praise of Cockneys.

Cockneys are the best natured people under the sun. It is notorious that a big London crowd is of all crowds in the world the most harmless and the easiest to manage. But see them also in their ordinary collections; outside the gallery door of a popular theater or crowding in the carriages of an excursion train—what fun and kindness and wholesome give and take! A deliberately rude or offensive cockney is hardly to be met.—G. S. Street in Pall Mall Gazette.

The Mortality List.

Manager (of great exposition)—What alarms me is our mortality list. Assistant—Mortality list? Why, it's next to nothing at all! "I know better than that. More than one-third of the people that come through the turnstiles are [illegible]."

Lobster Mortality High.

A lobster lays thousands of eggs, most of which hatch, but few ever live to grow up. This is not the fault of the mother, for she carries them about with her for nearly a year and with admirable instinct guards them as she does her own life. When the young are set free her duty is done, for they must then shift for themselves. Though hardly larger than mosquitoes, being about one-third of an inch long, the little ones leave their parents on the bottom and swim toward the light—to the surface, where from one to two months, if fortune favors them, they lead a free, roving life. The open sea is a poor nursery for such weaklings, which become the sport of every storm and the prey of numberless hungry mouths. Out of a brood of 10,000 it would be a rare chance for more than one or two lobsters to reach maturity or finally to end their career in the kitchen or the chafing dish.—St. Nick.

ALL STYLES
THE WORLD'S GREATEST SHOEMAKER
SOLE AGENTS FOR W.L.DOUGLAS SHOES
Established July 6, 1876.

W.L.DOUGLAS MAKES AND SELLS MORE MEN'S $3.50 SHOES THAN ANY OTHER MANUFACTURER.

$10,000 REWARD to anyone who can disprove this statement.

W. L. Douglas $3.50 shoes have by their excellent style, easy fitting, and superior wearing qualities, achieved the largest sale of any $3.50 shoe in the world. They are just as good as those that cost you $5.00 to $7.00—the only difference is the price. If I could take you into my factory at Brockton, Mass., the largest in the world under one roof making men's fine shoes, and show you the care with which every pair of Douglas shoes is made, you would realize why W. L. Douglas $3.50 shoes are the best shoes produced in the world.

If I could show you the difference between the shoes made in my factory and those of other makes, you would understand why Douglas $3.50 shoes cost more to make, why they hold their shape, fit better, wear longer, and are of greater intrinsic value than any other $3.50 shoe on the market to-day.

W. L. Douglas Strong Made Shoes for Men, $2.50, $2.00. Boys' School & Dress Shoes, $2.50, $2, $1.75, $1.50

CAUTION.—Insist upon having W.L.Douglas shoes. Take no substitute. None genuine without his name and price stamped on bottom.

WANTED. A shoe dealer in every town where W. L. Douglas Shoes are not sold. Full line of samples sent free for inspection upon request.

Fast Color Eyelets used; they will not wear brassy.

The public hasn't any heart to speak of, but it has a big, roomy eye.—Puck.

To Wash Black Stockings.

To prevent black stockings from assuming a greenish hue, wash as follows: Dissolve a liberal amount of Ivory Soap in a gallon of water as hot as the hands can bear. Wash through several suds of this preparation; rinse through two warm waters, adding to the last a tablespoonful of vinegar. Dry and press on the wrong side with a cool iron.

AWFUL NEURALGIA

Mr. Porter Thought He Should Go Mad But Dr. Williams' Pink Pills Cured Him.

"It seems like a miracle that Dr. Williams' Pink Pills should have cured my neuralgia," said Mr. Porter. "They are certainly a marvelous medicine and I am always glad to recommend them.

"For two years," he continued, "I had suffered almost unendurable pains in my head. They would start over my eyes and shoot upward most frequently, but they often spread over my face, and at times every part of my head and face would be full of agony. Sometimes the pains were so intense that I actually feared they would drive me mad.

"My eyes ached constantly and there was always a burning sensation over my forehead, but the other pains varied, sometimes they were acute, and again they were dull and lingering. I could not sleep. My temper was irritable and I got no pleasure out of life.

"I tried remedy after remedy, but finding no help in any of them, I became a despairing man. Even when I began to take Dr. Williams' Pink Pills I had no great hope of a cure.

"That was in December of 1903. To my surprise, a change in my condition took place right away. The pains grew less intense and the acute attacks were further apart, as I kept on using Dr. Williams' Pink Pills. The improvement began with the first box, and when I had used six boxes I stopped. My cure was complete and has lasted ever since."

Mr. Charles H. Porter lives at Raymond, N. H. He is one of many grateful people who have found that Dr. Williams' Pink Pills will cure diseases of the nerves that have stubbornly resisted every other remedy tried. Not only neuralgia, but sciatica, partial paralysis and locomotor ataxia yield to them. They are sold by all druggists, or may be obtained directly from the Dr Williams Medicine Co., Schenectady, N. Y.

Sentimental.

"She was a woman," said the poetical boarder, "whose beauty turned men's hearts to fire."

"And their necks to rubber, I suppose," added the prosy old bachelor.—Chicago Daily News.

SCREAMED AT NIGHT.

Baby Scratched Until Face Was Raw and Bleeding—Eczema Cured by Cuticura.

"For over two years my little baby girl suffered with a raw, itching and painful eczema on her head and face, the pain causing her to scream day and night, and my wife could get no rest. We tried several doctors, but without success. Unless we kept her hands tied she would scratch until her face was like raw beef. One cake of Cuticura Soap and two boxes of Cuticura Ointment completely cured her, healing her face without mark or blemish. (Signed) W. J. Morgan, Orchard Town, New Lambton, New South Wales, Australia."

Destiny has turned many a man down while he was waiting for something to turn up.—Success Magazine.

Announcement is made by the Rock Island-Frisco Systems of the inauguration of a daily through tourist car St. Louis to Los Angeles, via Frisco Line to Medora, Kansas, thence Rock Island-El Paso Line to California.

This provides an entirely new tourist car route to the Golden State, and with the installation of this car the Rock Island has no less than ten through tourist lines between the East and California. These cars start from Chicago, St. Louis, St. Paul and Minneapolis and run through via either the Rock Island's Southern Route by way of El Paso, or Scenic Route by way of Colorado. This frequent and comprehensive service is provided with a view to adequately meeting the demand for tourist accommodations under the very low rates effective in September and October.

Make most of the simple life while you can. The campaign will open soon.

NEWS OF MINNESOTA.

Cash For Schools.

St. Paul.—The distribution of special aid which the state gives to various classes of schools was begun by State Auditor Iverson and and J. W. Olsen. Most of the schools receive less than the law allows them because the appropriation is not large enough to give each the full amount. Therefore the appropriation has been divided proportionately among the schools. The same was done the past two years, and the deficiences for those years were provided for by the last legislature and will be paid at this time.

For the year ending July 1, 1905, 174 high schools each received $1,500, or a total of $208,650. This is $300 less than the full amount each high school may receive. For the year 1903 127 high schools receive a deficiency of $120 each, or $15,240. For the year 1904 151 high schools receive a deficiency of $175 each, or $26,425. The total amount distributed to high schools this year is $260,315

There are 148 graded schools which each receive $525 this year or a total of $77,700. There is no deficiency to be paid the graded schools for the past two years.

For the past two years 287 semi-graded schools each receive $230, or a total of $66,010. This is $20 less than the full amount that may be allowed each school.

Raised Valuations.

The packing houses fared badly at the hands of the state board of equalization. All of the large concerns doing business in the state had their assessments increased. Swift and company's assessment was raised 50 per cent of spite of the strenuous efforts of the company's attorney, Frank B. Kellogg. He protested against the assessment of the company franchise, on the ground that Swift & Co. has no franchise, and that is impossible to assess a manufacturing company upon a franchise. Attorney General Young was of the opinion that the license given to a foreign concern to do business in the state amounts to a franchise and the tax valuation was boosted 50 per cent. The matter will be fought out in the courts.

Fire Marshal's Report.

Duluth.—Fire Marshal Edward Peterson, made his first quarterly report of fires investigated by him. The fire marshal assumed his duties July 1, and up to Sept. 30 he had investigated 204 fires which had not been reported to him by chiefs of fire departments. Of these he found twelve of incendiary origin, but in no case had evidence enough for conviction been produced against any one. Five of these, he says appear to have been set to obtain insurance. The damage from these five was $2,040. The other seven appeared to have been set either in wantonness or for revenge. The total loss from these seven was $5,205 Fifty-six cases were reported as "cause unknown." The causes of fire reported are: Ashes, 3; adjoining fire, 4; cigar stubs, 1; children and matches, 13; carelessness, 9; electric wires, 6; gas jets, 7; gasoline, 17; lamps, 6; lightning, 11; matches, 3; sparks, 13; spontaneous combustion, 11; stove, flue and chimney, 26.

Badly Burned.

Ada.—A terrific gas explosion occurred at Twin Valley at the N. P. pumping station. Alfred Hawkins, who is in charge of the pump house, descended with a lantern into the well over which the house is built. As he proceeded he detected the presence of gas and he hurriedly retreated up the ladder, not soon enough, however, to prevent a terrific explosion, which completely wrecked the pump house. Mr. Hawkins was seriously burned, but it is thought he will recover. A barrel of gasoline had been emptied near the well and some it soaked into the ground and thence into the water.

Dairying.

Minneapolis.—The statistics relative to the number of creameries and cows in the city of Minneapolis that evidently emanated from the office of the state dairy and food department, caused a great deal of merriment in the office of Health Inspector Hall. It was stated in the morning papers that there were 41 wholesalers of milk and cream and 161 retailers in Minneapolis; that there were 353 herds aggregating 9,146 head. As a matter of fact there are between 12,000 and 15,000 cows within the city limits and about 700 persons engaged in the selling or retailing of milk and cream.

News Notes.

St. Paul—Butter score for the September contest of the state dairy and food department did not average as high as earlier in the season.

Springfield—Mr. and Mrs. H. Bendixen celebrated their silver wedding in their splendid new home.

Northfield—A horse driven by Mr. Wallace of Randolf was struck by a live wire and was instantly killed. A high wind had blown a limb across the wires and lowered them near to the street.

Washington — Clark W. Seedy was appointed postmaster at Westbrook, Cottonwood county. Minn., vice Martin A. Johnson, resigned.

Ada—A project is on foot to divide Norman county [forming a new county of the sixteen townships in the reservation which at present belong to this county.

Montgomery—The year-old son of Eli Gambold, whose home is on a farm near Lake Volney, six miles southwest of this place, fell into a tub of water and was drowned. The parents are nearly crazed, as he was their only child.

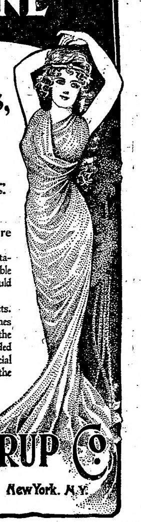
THE ONLY ONE



There is only One Genuine-Syrup of Figs,

The Genuine is Manufactured by the California Fig Syrup Co.

The full name of the company, California Fig Syrup Co., is printed on the front of every package of the genuine.

The Genuine– Syrup of Figs– is for Sale, in Original Packages Only, by Reliable Druggists Everywhere

Knowing the above will enable one to avoid the fraudulent imitations made by piratical concerns and sometimes offered by unreliable dealers. The imitations are known to act injuriously and should therefore be declined.

Buy the genuine always if you wish to get its beneficial effects. It cleanses the system gently yet effectually, dispels colds and headaches when bilious or constipated, prevents fevers and acts best on the kidneys, liver, stomach and bowels, when a laxative remedy is needed by men, women or children. Many millions know of its beneficial effects from actual use and of their own personal knowledge. It is the laxative remedy of the well-informed.

Always buy the Genuine– Syrup of Figs

PUTNAM FADELESS DYES

Color more goods brighter and faster colors than any other dye. One 10c package colors all fibers. They dye in cold water better than any other dye. You can dye any garment without ripping apart. Write for free booklet—How to Dye, Bleach and Mix Colors. *MONROE DRUG CO., Unionville, Missouri.*

Good, But Wrong Kind.

Minister (mildly)—I've been wanting to see you, Mr. Kurd, in regard to the quality of milk with which you are serving me.

Milkman (uneasily)—Yes, sir.

Minster (very mildly)—I only wanted to say, Mr. Kurd, that I use the milk for dietary purposes exclusively, and not for christening.—Stray Stories.

"Just Laughed."

Artist—Have you taken my picture to the exhibition?

Porter—Yes, sir. It seemed to please the gentlemen very much.

"What did they say?"

"Oh, they didn't say nothing; but they laughed that hearty."—Stray Stories.

None Too Tainted for Him.

"Would you refuse a tip from me if you knew it was tainted money?" asked the customer in the restaurant as he finished his meal.

"No, sir," replied the waiter; "I'd not refuse it, sir, even if you had run it through that piece of Camembert cheese, sir!"—Yonkers Statesman

Best in the World.

Cream, Ark., Oct. 9th (Special).—After eighteen months suffering from Epilepsy, Backache and Kidney Complaint, Mr. W. H. Smith, of this place, is a well man again, and those who have watched his return to health unhesitatingly give all the credit to Dodd's Kidney Pills. In an interview regarding his cure, Mr. Smith says:

"I had been low for eighteen months with my back and kidneys, and also Epilepsy. I had taken everything I knew of, and nothing seemed to do me any good till a friend of mine got me to send for Dodd's Kidney Pills. I find that they are the greatest medicine in the world, for now I am able to work and am in fact as stout and strong as before I took sick."

Dodd's Kidney Pills cure the Kidneys. Cured Kidneys cleanse the blood of all impurities. Pure blood means good health.

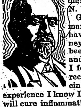
There would be fewer failures in the business world if there were fewer men ready to drop their business on the smallest provocation and discuss such questions as who was the father of the American navy.—Somerville Journal.

I am sure Piso's Cure for Consumption saved my life three years ago.—Mrs. Thos. Robbins, Norwich, N. Y., Feb. 17, 1900.

Isn't it awful when a woman keeps fixing her back hair at the theater and then when the performance is over to find that she has left her diamond ring on her dresser at home!—Cleveland Leader.

CONGRESSMAN GOULDEN.

Finds Quick Relief from Bladder Troubles Through Doan's Kidney Pills.



Hon. Joseph A. Goulden, member of Congress representing the 18th District of New York, also trustee of the Soldiers' Home at Bath, N. Y., writes:

Gentlemen: As many of my friends have used Doan's Kidney Pills and have been cured of kidney and bladder troubles, I feel it my duty to recommend the medicine. From personal experience I know Doan's Kidney Pills will cure inflammation of the bladder, having experienced relief the second day of using the medicine.

(Signed) J. A. GOULDEN.

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Revised.

"You don't give much heed to the admonition, 'blessed is the peacemaker.'"

"No," answered the nervous citizen. "The version for these rapid times should be 'blessed is the pacemaker.'"—Washington Star.

Advancing the Farmers' Interests.

Traveling agents and salesmen are now sent from the home offices of the Chicago packers into all South American and Asiatic countries. They are going into every land, no matter what language may be spoken or what money be used. They will exchange their goods for cowries or elephant tusks—anything to sell the product and get something in return convertible into money. It may seem odd to some folks, but traveling men, carrying cases with samples of American meat products, can be seen in the desert of Sahara, the sands of Zanzibar or in Brazil, "where the nuts come from." Great is the enterprise of the Yankee merchant. The greater the market, the greater the price and stability of the price of the product and all that goes to make it in its various stages.

Reasonable.

He that will keep a monkey should pay for the glasses he breaks.—Selden.

SICK HEADACHE

CARTER'S LITTLE LIVER PILLS.

MINNESOTA HISTORICAL SOCIETY.

THE SUNBEAM.

VOL. V. SUNBEAM, RED LAKE COUNTY, MINNESOTA, FRIDAY, OCT. 27, 1905. NO. 30.

A WEEK'S NEWS IN CONDENSED FORM

RECORD OF MOST INTERESTING EVENTS TOLD IN BRIEFEST MANNER POSSIBLE.

HOME AND FOREIGN ITEMS

Information Gathered from All Quarters of the Civilized World and Prepared for the Perusal of the Busy Man.

PRESIDENT'S SOUTHERN TOUR.

President Roosevelt captured Richmond, Va., by storm. He began his southern tour with a rousing welcome at the old confederate capital. He extolled the blue and the gray in his speech.

President Roosevelt was received everywhere in North Carolina by cheering crowds. He explained his railroad rate policy in his Raleigh speech.

President Roosevelt, in a speech to 75,000 persons at Atlanta, outlined the necessity of federal supervision over big corporations and condemned "law honesty." The greeting given by the people of Georgia was most enthusiastic.

THE INSURANCE PROBE.

Richard A. McCurdy, president of the Mutual Life Insurance company, makes the statement that he has no intention of resigning, that he was elected to serve until June and that nothing can or will drive him out.

McCurdy, Jr., testified in the New York insurance investigation that he allows himself $500 a week for expenses when traveling for the Mutual.

McCurdy admitted to the Armstrong committee that the Mutual has paid vast sums to lawyers, ex-state officials, newspaper men and others in efforts to influence legislation.

The New York investigators have decided to include the state department of insurance in their inquiry because of a suspicion that examiners are named by politicians in the interest of the big companies.

MISCELLANEOUS.

A terrific gale on the great lakes sent 30 vessels to the bottom and resulted in the loss of at least 12 lives.

Gov. Folk, of Missouri, commuted the sentence of Edgar G. Bailey, who was to have been hanged at Kansas City for murder, to imprisonment for 99 years.

Johnnie Goodson, a 11-year-old boy, who on August 18 shot and killed Hannah McQuade, a girl about 12 years of age, in Detroit, Mich., was acquitted on the charge of manslaughter by a jury in the circuit court.

The new brick works of the Hummelstown Brownstone company were destroyed by fire of unknown cause at Harrisburg, Pa. The loss is $50,000 with insurance of $40,000.

United States Senator Boies Penrose denied emphatically the rumors connecting him with loans from the Enterprise bank, at Allegheny, Pa. He says the charge is malicious and was made for political effect.

Commissioner Warner, of the pension bureau, has announced his intention of recommending the dismissal from the service of a number of employes who have been engaged in loaning money in the bureau at usurious rates.

Martin Barth died at his home in Gallatin, Tenn. Mr. Barth in 1848 was chief messenger of the old Atlantic and Ohio Telegraph company at Pittsburg, Pa., where Andrew Carnegie was given his first employment as a messenger boy.

Beside that other great actor, Garrick, and under the shadow of the statue of Shakespeare, as the interpreter of whose plays he won fame, the ashes of Sir Henry Irving were given burial in Westminster abbey.

The governor of Odessa, Russia, has issued an order to the police instructing them that in the event of disturbances they are to fire directly into the mobs without any preliminary volleys in the air.

The question of the friar lands purchase was practically settled at Manila when the commission paid the Dominican order $3,225,000, which is the last payment.

The Minnesota state board of health has issued a circular to county superintendents of schools forbidding the employment as teacher of any person suffering from tuberculosis, and debarring children sufering from that disease from admission to the schools.

The British public celebrated the centenary of Lord Nelson's death and cablegrams were received from Dewey and Togo.

The Bridgeport (Conn.) police found $9,000 more of plunder of the Adams Express $101.000 thief.

Weekly trade reviews show continued enormous demands on productive capacity and active retail distribution.

Chicago police have evidence that a wholesale traffic in American girls to recruit harems and brothels in China is carried on in Chicago.

Matthew Baldes, a farmer, is in jail at Orange City, Ia., charged with choking and beating his wife to death. Baldes strongly protested his innocence.

Samuel Gompers says he will make a strong fight against the employment of Chinese on the Panama canal.

Gov. Cummins announces that the tariff revision fight will come up in Iowa at an early date and that the revisionists will win.

The National Purity league is divided over a proposition made by delegates to the La Crosse (Wis.) meeting to form a new organization.

Mr. Landis says that investigation has revealed a sensational condition of extravagance and improvidence in public printing and says that congress is certain to take action.

The Pennsylvania's new car order brings that road's expediture for equipment for the year up to $26,000,000.

Jealousy, it is proved, caused the murder of Mrs. Clara A. McCluskey in her saloon in Chicago, the murderess being Mrs. Clara May Buckley, who has confessed.

The New York police have been ordered to arrest all women who appear unescorted on the streets of the tenderloin after ten o'clock at night.

A girl cashier in New York confessed that she has stolen $2,000 from her employers to supply money to her lover.

Edward George Cunliffe, the express clerk who stole $101,000 at Pittsburg, Pa., was arrested in Bridgeport, Conn. The police recovered $80,000 of booty, but the prisoner declares that he has burned the remaining $20,000.

The Australian house of representatives passed a resolution calling on King Edward to grant home rule to Ireland..

Vartanian, a naturalized American citizen, was sentenced to death in Turkey for killing an Armenian.

Federal officials strongly approve the president's order permitting them to discharge useless civil service employes.

American theatrical men are to meet and formulate plans for the erection of a monument to the memory of Irving.

Evidence of H. H. Rogers before the master in chancery in Boston is made public and shows that William Rockefeller and Rogers each made $3,560,000 profits in the Boston gas deal.

The trial of the first of the damage suits growing out of the Iroquois theater catastrophe is under way in Chicago.

Negotiations for a commercial treaty between the United States and Germany are to be opened as soon as Ambassador von Sternburg arrives from Berlin.

Payment of $130,000 by the asphalt companies to support the revolution in Venezuela is admitted.

The new order of the president forbidding cabinet members to talk to correspondents causes much comment in Washington.

Five roads entering the Union station in Chicago plan to construct a new depot and improved terminals to cost $25,000,000.

An imperial manifesto was issued in St. Petersburg proclaiming the ratification of peace between Russia and Japan.

Formal, but none the less hearty, expressions of thanks from the Russian and Japanese emperors to President Roosevelt for his services in the cause of peace in the far east, have been made public.

At Topeka, Kan., the report of the receiver shows the assets of the various properties of C. J. Devlin, who failed last July, to be $4,956,948, and the liabilities $4,592,208.

President Wilbur O. Carrier, of Carroll college, Waukesha, Wis., has announced a promised contribution of $35,000 by Ralph Voorhees, an eastern man, the fund to go towards the building of a girls' dormitory in connection with the college.

The supreme court of Nebraska handed down decisions sustaining the constitutionality of the anti-cigarette law, the inheritance tax law and the law to prevent desecration of the American flag.

The robbery of $10,000 worth of diamonds from the wife of George W. Hoadley at the Buckingham hotel, New York, has been announced by the police.

W. B. Smith, former president of the Western national bank, was indicted at Louisville, Ky., on charges of making false entries, misappropriation of the funds of a national bank and embezzlement. Smith's whereabouts is not known.

State Senator O. F. Berry, president of the Dime savings bank of Carthage, Ill., has been appointed receiver for the National bank of Peoria.

Dowager Queen Margherita, of Italy, has expressed her intention of visiting the United States next year with a 40-horse power automobile.

A Missouri Pacific freight train crashed through a bridge between Weeping Water and Nehawka, Neb., instantly killing Engineer B. F. Young and Fireman William Sheffield.

Record-breaking rains for October have fallen in central and southern Illinois. In some localities over ten inches of water has fallen within 48 hours.

The town of Strattonsville, Pa., was almost wiped out by fire. Loss, $50,000.

The failure of the Enterprise national bank of Allegheny, Pa., after the cashier's suicide involves state politicians, who are alleged to have borrowed $700,000 out of $800,000 of state funds on deposit.

Eight people were killed and 35 injured by a tornado in the village of Sorento, Ill.

John J. Kelly, clerk of markets, in the department of public service, was arrested on the charge of embezzling $7,700 of the city's money.

A New York court rejected the plea of Joseph Leiter that his wheat corner was a gambling transaction and ordered judgment for $67,767 in favor of his brokers.

Philadelphia was the scene of political riots when Senator Penrose was hooted and hissed and his meeting broken up. Negro mobs with revolvers terrorized the streets.

Attorney General Stead makes a new interpretation of the Illinois Central railroad's charter, showing that nearly $50,000 in back taxes is due the state of Illinois.

An official of the United Mine Workers declares all the bituminous miners will ask for more wages next spring.

The charge was made at the national purity conference at La Crosse, Wis., that British government agents at Hongkong permit the exportation of Japanese and Chinese girls for immoral purposes.

The board of engineers is divided as to the character of the isthiman canal to be built. The majority is in favor of the sea level plan, which may cost $300,000,000.

King Oscar wept over Sweden's separation from Norway while formally closing the special session of the riksdag.

Alfred Hamburger, son of a rich Pittsburg distiller, now retired, killed himself in Chicago after squandering $50,000 and making a failure in a business venture.

Tommy Murphy, of New York, was badly beaten by Terry McGovern at the National Athletic club, Philadelphia. It took McGovern only two minutes and two seconds to gain the victory.

The national encampment of the Union Veterans' union convened in Springfield, Ill., with 150 delegates present. Gen. A. M. Legg, of Washington, commander-in-chief, reported a large growth in membership, especially in the departments of Illinois, Maine and District of Columbia.

The entire business section of Alturas, Cal., was destroyed by fire, 27 business houses and two residences being consumed. Loss, $100,000.

Sergeant Patrick Egan committed suicide by jumping into the sea from the deck of the transport Sherman as it was entering San Francisco. Illness is believed to have caused his act.

Harry McGlasson, who conducted a boarding house at Frakerville, Ia., shot and killed his wife, a five-year-old daughter, a sister-in-law and himself. Jealousy is said to have been the cause of the deed.

The value of the concessions made by Russia to Japan and other rights gained by the latter in the Portsmouth treaty is now estimated at $650,000,000.

Baron Komura, the Japanese peace envoy to Portsmouth, was given a cold reception on his arrival in Tokio.

Peace was officially announced by the imperial government of Japan after the signature of the treaty with Russia.

Dr. Edward D. Eaton has resigned the presidency of Beloit college, Beloit, Wis., after successful service of many years. He will probably accept a call from a church at St. Johnsbury, Vt.

A through freight on the Big Four plunged into a washout and was wrecked near Hillsboro, Ill. Two tramps were killed.

In a tornado which passed over the country one mile west of Manford, Okla., two children of E. R. Anderson were killed.

T. C. Carson, president of the Johnson county savings bank and the Iowa City Electric Light company, at Iowa City, Ia., died in Philadelphia from injuries received falling off a street car.

In the federal court at Chicago, Judge Humphrey decided that the indicted packers must stand trial on charges of conspiracy to violate the Sherman anti-trust law, but they were discharged on counts in indictments against them based on the charge that they were in a monopoly.

Dr. Edward Janes James was formally installed as the president of the University of Illinois, at Urbana, Ill. The exercises were elaborate.

Masachusetts labor unions have decreased by 100 during the past year, according to an official report.

The interstate commerce commission's inquiry into charges of refrigerator car lines may result in lower tariffs. All sections of the country are interested.

A Denver, Col., grand jury indicted ten bankers on a charge of attempting to steal $1,750,000.

Chairman Shonts of the Panama canal commission, which landed in New York after a tour of the isthmus, reports that the work of sanitation is making great strides and no cases of fever have been reported this month.

Protesting his innocence to the last, John Rooney was hanged at Bismarck, N. D., for the murder of Harold Sweet on August 26, 1902. He walked onto the trap singing a song of his own composition.

President Roosevelt issued on order that civil service employes may be summarily discharged without trial whenever a superior decides the employe has been inefficient or guilty of misconduct in the presence of a superior.

WASHINGTON LETTER

JOHN MITCHELL A WELCOME GUEST AT WHITE HOUSE.

THE CLEAN MONEY CRAZE

May Have to Increase Force in Bureau of Engraving and Printing—The Washington Home of Old-Time Southerners.

WASHINGTON.—One of the visitors at the white house who has little trouble in getting an audience with the president is John Mitchell, president of the United Mine Workers. Mr. Roosevelt has never forgotten the loyal, honest aid that Mitchell gave him in that historic controversy in the fall of 1902, when the president intervened between the mine owners and mine workers and brought to a close the most expensive and dangerous strike ever inaugurated in the coal fields. The president was struck with Mitchell's honesty of purpose and sincere desire to act upon his own principle of a "square deal" to everybody. It is not too much to say that had the mine workers been represented by a man possessed of less common sense and fair-mindedness the result at that time would have been different.

John Mitchell is not a frequent visitor in Washington, but when he does come to this city he makes it a rule to pay his respects to the president, and he is always welcomed. For the first time he appeared as a politician a few weeks ago. He has made it a rule to keep out of politics and has frequently refused to use his influence with the president in favor of anyone seeking office, but a particular friend of his, who acted as his secretary during the coal strike, Mr. Louis Hammerling,, is seeking to be made an internal revenue collector in Pennsylvania, and has enlisted Mitchell's sympathies. He has asked the president to appoint Hammerling, and Mr. Roosevelt has jokingly asked Mitchell to get the republican leaders in the Keystone state to back his candidate. This is a task not much to Mitchell's liking, but the latter's position at the head of about 150,000 mine workers may get him a favorable audience with the "organization."

The president likes to talk with Mitchell on many subjects, particularly those relating to labor and labor unions, as he can get from him and from President Gompers, of the Federation of Labor, a more conservative idea of what the workingman wants than comes from the professional agitators. Both these labor leaders have implicit confidence in the president.

Secretary Root and the Press.

SECRETARY OF State Root has fallen into his duties naturally and gracefully. He has been welcomed back to the big state, war and navy building by many of the subordinate government officials who learned to admire his methods and direct business way when he was secretary of war. Mr. Root came to Washington with a good deal of the narrowmindedness of a New York lawyer, and it is admitted that the men on Manhattan island are about as provincial a set as is to be found in the United States. He brought with him a prejudice against newspaper men, having at times been the victim of writers who cared more for sensation and space than they did for absolute accuracy. He was very cold and distant for some months after he became head of the war deaprtment, but gradually he began to recognize the important part that newspaper men at the national capital play in national affairs, and he was not slow in acknowledging their position when he did recognize them.

When Mr. Root came to Washington this month and brought with him Mr. Bacon, first assistant secretary of state, he introduced the latter to a group of newspaper men and proceeded to instruct him as to how he was to treat the press. "These men can be of the utmost assistance to you and to the government if you give them your confidence," said the secretary. "Tell them everything that it is legitimate to make public, and if you tell them what they are not to publish you will find your confidence respected. Start right with the newspaper correspondents and your administration will be successful."

Mr. Root finds himself hampered by an act he did while secretary of war, and the other day laughingly admitted it. "Do you know," he said to a friend, "there is one act of my career as secretary of war I very much regret?"

"Is that so?" the friend inquired.

"Yes; while I was secretary of war," said Mr. Root, "I stole a room from the state department. I wish now I had that room back."

Dirty Dollar Bill.

THE demand for clean money is somewhat embarrassing to the treasury. Officials of that department claim that paper money is being used up too fast. It is being destroyed at the rate of about $2,000,000 a day. This is in response to the agitation for money that is not reeking with disease germs. When John Wesley Gaines, the strenuous congressman from Tennessee, discovered that there were several thousand dangerous germs lurking in a dirty dollar bill people all over the country began to insist on having brand, new, crisp currency.

Treasury officials take little stock in the germ theory, and question whether anyone has ever really suffered from a disease contracted in handling old bills. They cite the experience of the money counters in the treasury. Down in the basement of this building there are many women who have been counting money for the past eight or ten years and they handle the very worst bills in circulation. Currency that is not considered fit to remain in use is put up in bundles and sent to Washington for redemption. These bundles must be counted by the women and it is declared that not a single case is on record of disease contagion growing out of handling this money.

The national banks are complaining about the expense they are put to for the printing of new notes in response to this clean money craze. Within the past four years the volume of redemptions have doubled. In 1900 there was redeemed daily about $1,000,000, but now the redemptions run over $2,000,000 each day. It will be necessary to increase the force in the bureau of engraving and printing to keep up with the printing of new notes unless the secretary decides to prolong the life of a bank note and thus reduce the amount that is turned in for redemption.

Task of Signing Name.

IT IS difficult to judge of a man's character and appearance by his handwriting, although it is maintained by some experts that nothing is easier. The signature of Assistant Secretary of the Treasury Reynolds is ample proof that no one is able always to judge a man by the way he writes. That signature is a wonder. It resembles a Chinese puzzle in its angularity. It appears like a bunch of triangles fastened together. Mr. Reynolds is proud of his signature and defies anyone to counterfeit it. Its sharp angles would never in the world suggest the jolly, rotund form of the assistant secretary, who is the personification of good nature and good humor. He is just as genial in his character as he is in appearance, and that funny jumble of triangles which he calls his signature is by no means an index to that character.

Mr. Reynolds has the knack of dashing off that Chinese puzzle very readily, and that is the main desideratum in his daily routine of work. Like other assistant secretaries and high government officials, he has to spend two or three hours each day in attaching his name to vouchers, warrants and other important papers. The more rapidly he can sign his name the less irksome is this duty, and Mr. Reynolds has solved the problem. Secretary of the Treasury Shaw writes his name out in full, except he uses the initial for the middle name, but as there are only 11 letters in the whole signature it does not occupy very much time.

President Roosevelt signs his name in full to all documents, writing the "Theodore Roosevelt" in a rather small, straggling hand. When he was assistant secretary of the navy, however, he had so many papers to sign that it was a burden to spell his name in full; so he cut out the "Theodore" and used the initial "T."

"Just look at that," he said to a friend one day. "Isn't that the limit? T. Roosevelt! T. Roosevelt! Isn't that the worst? But I've got to write it that way or get pen paralysis."

A Man of His Word.

Mrs. Knicker—He used to say he would go through thick and thin for her.

Mrs. Bocker—Well, his excuses are both now.—N. Y. Sun.

That's What He Did.

"What in the world do you do with all your money, my son?"

"I give it up, dad!"—Yonkers Statesman.

MOSCOW ALL BUT CUT OFF

STRIKE STOPS THE TRAFFIC ON SEVEN OF THE NINE MAIN RAILWAY LINES.

Renewal of the Factory Strikes Not Improbable. The Grain Blockade is Becoming Quite Serious. Milk and Meat Famine.

Moscow, Oct. 23.—Traffic on seven of the nine main trunk arteries of commerce radiating from Moscow was completely paralyzed yesterday by the railway strike, and the commercial heart of Russia has been cut off from all communication with the rest of the empire, except with the narrow section to the northwestward, including St. Petersburg and the Baltic provinces.

Though the government has ordered the railroad battalions of the army to proceed to Moscow and take the places of the strikers for the purpose of restoring traffic, the revolutionists, by a sudden and unexpected blow, have shown their ability to lay their hands on the throats of the nation's commercial life.

The employes of four railroads struck, and only the lines running over the Nicholai road to St. Petersburg and over the Windau & Rybinsk road to Riga and other Baltic ports are open. Traffic is at a standstill on the Kazan line and on the line to Yaroslav and Archangel.

The strikers yesterday forced the employes of the general offices and financial departments of three lines, the Windau & Rybinsk, the Moscow & Voronesch, to quit work.

The city is already feeling the effects of a milk and meat famine and a few days' continuance of the strike will cause serious embarrassment and even suffering to the population.

An important developement was the strike on the Brestlitovsk road which runs to Smolensk, Minsk and Warsaw and carries international traffic from Moscow to Germany, Austria and other parts of Europe. Though the workers in the shops of this road struck yesterday, the trains continued to run until 5 o'clock in the evening when the engineers and firemen drew the fires and deserted the engines. Communication with points abroad, however is still open by St. Petersburg and Pskoff.

Operator is Robbed.

Hopkins, Minn., Oct. 23.—J. C. Ewing, night operator for the Milwaukee road, was slugged by an unknown man at 11 o'clock at night. He was left on the floor in unconscious condition. The robber secured $15 in cash and a revolver. The robber is supposed to have made his escape on the St. Louis Park car line. The operator was alone in his office when the man entered. When the operator asked the man what he wanted, the man hit the operator over the head with a iron bar. The man was described as about twenty-five yeers old, smooth-faced and wearing a gray cap and brown sweater. When the operator regained consciousness he telegraphed to the Minneapolis police.

Boy Robbers.

Sioux Falls, S. D., Oct. 23.—Perhaps the youngest persons ever sent to the penitentiary for postoffice robbery are Arthur G. Waldorf and John M. Bell, two boys who have been lodged in the Sioux Falls penitentiary to serve terms of two years each for the robbery on June 29 last, of the postoffice at Loomis, a little town in the central part of South Dakota. They pleaded not guilty. Bell was formerly a resident of Cherokee, Iowa, where his father served two terms as sheriff, while Waldorf claims Kirksville, Mo., as his home.

Two Accidents.

Royalton, Minn., Oct. 23.—Joe Stanek, 23 years old, of Swan River, eight miles west of here, was instantly killed by the accidental discharge of a shotgun. The boy was passing through a door with the muzzle of the gun toward him when it was discharged by the hammer coming through the door. The charge took effect just below the left eye, tearing away a portion of the head and killing instantly.

Ada, Minn., Oct. 23.—Willies Russell of Stephen, aged eleven years, while out hunting, accidentally shot himself, and died of the wound.

Burned to Death.

Bladen, Neb., Oct. 23.—Two children of Fred Piel, sixteen and four years of age, were burned to death, and their mother so badly burned that she cannot recover in a fire which destroyed their home.

Crazy Man.

New York, Oct. 23.—Thirty persons were driven from a coach of the Royal Blue Line express from Philadelphia to New York by another passenger, who suddenly became violently insane.

DEFECTIVE PAGE

THE SUNBEAM.

BY W. G. HUNT.

The string fiend is out again with a new story to the affect that you can not make application to make final proof on your homestead until after 14 months from the time you made filing. This is wrong as you can make application in time to get your six weeks advertiseing done before your 14 months are out.

A large number of our exchanges are complaining about the 'ack of advertiseing patronage by the local merchants. The trou'le is with the merchants in the small towns is they have the cart in front of the horse. They expect the newspaper to support the town, instead of the town supporting the newspaper.

HE IS GOOD TIMBER.

As there seems to be disposition on the part of the newspapers in the northern part of the state to name a candidate for the nomination for governor on the republican ticket next year, why not choose somsone on which we could all unite? If we can do that we can nominate and elect him with ease and the state would again be in the control of the republican party. Among the numerous candidates that have so far been favorable mentioned s likely timber to meet the demand of the party for a man to efeat Johnson, Elias Steenerson of Crookston is the most likely andidate that has been mentioned that could unite the party in he northern part of the state. The wounds of the last campaign are not all healed but are nly commencing to have a more ealthy look. but the least bit of riction may cause them to open p with a fresh flow of blood. In view of this fact it would ot be good politicts to boom a andidate for the nomination on e republican ticket who took n active interest in the nominaon and headed a County delegaon for R. C Dunn last year.

Mr. Steenerson certainly meets l the requirments of an ideal andidate, as he has the ability, nd backbone to make a good overnor, and as there has been me claims made the republican at defeated Johnson for the ext governor of Minesota would ve to have son on their name, also has that qualification.

King James' Books.

ome very fine binding was executed King James I., who during his ene life was an enthusiastic patron of ters and art. In some of his books thistle is introduced with heavy ner pieces, and the arms in the cen-. One fine piece of work, now in the itish museum, is in bright brown f, powdered with flower-de-luce. other folio in crimson velvet has the ms of England embroidered on both es with gold thread on a groundrk of yellow silk. The king's initials worked above. The lettering is in ther, and the boards are tied toher by red ribbon, constituting a al book in every particular. John son, in Scotland, and the Barkers, England, were appointed to be the g's binders, but there is little trace their work now extant.

nimal Having the Most Teeth.

he animal having the most teeth is great armadillo of south Central northern South America. It is a well known to most people that normal or average number of teeth mammals is thirty-two—sixteen ve and the same number below. great armadillo, however, is an extion, having from 92 to 100. He has n twenty-four to twenty-six in each of the upper jaw and from twentyto twenty-four in each side of the er jaw. Another peculiarity lies in fact that they are all molars or ders. They increase in size from t to back, instead of from the root, are wholly destitute of enamel.

Accent on the Operatic Stage.

No Englishman with daughters could do a rasher thing than permit them to take lessons from eminent professors with a view of going on the stage. The opera stage in England scarcely exists. At Covent Garden a woman who can speak good English can only get in by force of social influence, and abroad a foreigner has very great difficulty because she cannot speak or sing with a perfect accent. The foreign lady or gentleman comes across here and on occasion will venture to sing in English, and their mistakes bring nothing more than a smile to the faces of the audience. But let an English singer go to France or Germany, and something totally different happens.

In 1897 Tamagno sang at Monte Carlo before an audience which was mainly French. He mispronounced a word, and a peal of derisive laughter covered even his stentorian notes. In Brussels I heard an American tenor laughed at because some of his vowels were not quite pure—Brussels, where their French is the most villainous patois I have ever heard. In Germany I have heard both French and English artists laughed at because their accent was not absolutely correct.—London Saturday Review.

Russian Discipline.

General Dragomiroff, the Russian military expert, rose from the ranks and always dressed according to the army regulations for the common soldier. One day while driving about St. Petersburg in his carriage he noticed a soldier with hair longer than the regulations called for. He had the horses stopped, alighted and, taking off his hat, ordered the soldier to seize him by the hair. The soldier hesitated. He feared to lay violent hands on his general; besides, the hair was clipped too close to afford a hold for the hands. The general surveyed the soldier sternly for a few moments, then, twining his fingers in the latter's locks, he literally wiped up the street with him, the victim not daring to resist. Finally, having impressed the lesson thoroughly, he re-entered his carriage and drove on, ordering the soldier to follow. At the first barber's shop they came to he again alighted and had every vestige of hair shaved from the soldier's head, then turned him loose as a horrible example to his fellows.

Cynical.

"Which do you think counts for the most in life, money or brains?"

"Well," answered Miss Cayenne, "I see so many people who manage to get on with so little of either that I am beginning to lose my respect for both."—Washington Star.

Knew the Crowd.

A street preacher in a west of Scotland town called a policeman who was passing and complained about being annoyed by a certain section of the audience and asked him to remove the objectionable ones.

"Weel, ye see," replied the cautious officer, "it would be a hard job for me tae spot them, but I'll tell ye what I'd dae if I were you."

"What would you do?" eagerly inquired the preacher.

"Just gae round wi' the hat!"

His Line.

"Yes," said the lecturer, "I'm dealing in furniture these days."

"How is that?" asked a listener.

"Making one night stands under a lecture bureau, with the help of the time tables."—Baltimore American.

When to Cut Weeds.

She—When should a young widow discard her weeds? He—Oh, I don't know, but I suppose she should cut them out just as soon as she wants to raise a second crop of orange blossoms. —Baltimore Herald.

Decision of character will often give to an inferior mind command over a superior.—Wirt.

LEGAL PAPERS

Drawn At This Office, By W. G. Hunt Notary Pnblic.

About the House.

Common whiting mixed with ammonia makes excellent silver polish.

Kerosene brightens brass ornaments and keeps them from tarnishing.

Use a knife to break an egg. The contents of the egg are more easily handled.

Hang up the clothes brushes and the whisk brooms. It needs but a few cents invested in nails and screw eyes.

Lamp wicks are not expensive. It is poor economy to strain the eyes and spend every morning filling lamps when time and eyes can be spared by throwing away the short, blackened wick.

Oyster Stuffing.

A delicious oyster stuffing is made by taking two scant teacupfuls of stale breadcrumbs, one-half pint of oysters drained and cut in half. Season with salt, pepper, celery salt, one tablespoonful of butter, one-half teaspoonful of sweet cream to moisten the crumbs and one well beaten egg. Mix and fill the fowl or chicken. Garnish the bird before carving with fried oysters and parsley.

A Hat Story.

A Birmingham (Ala.) man told a somewhat remarkable hat story the other day, vouching for its truth by saying that he was the wearer of one of the hats. He walked into the dining room of an Atlanta hotel one day, putting his beside the one other on the hatrack. When he left the dining room he found that his hat had been taken and the other one left in its place. There was nothing to do but take it and be content. He came north, and at a hotel the hat swapping performance was again repeated. Some one took from the dining room hatrack the one taken by the story teller from the Atlanta hotel.

A few days later the Atlanta man recognized at the same hotel the hat he had lost. He took it. He went south a few days later and stayed at the hotel he had occupied on his former visit. One day when he entered the dining room there was only one hat on the rack. He placed his own beside it. When he left the dining room and picked up the one hat left he found it was the one he had lost there the year before.—New York Tribune.

LOCAL PARAGRAPHS.

Pay up your back subscription.

Do your Notary Public business at the SUNBEAM office.

Alfred Eve will strt for the city of Crookston to day, on a business trip.

The last three days has been extreamly cold for this time of the year

Stephen Singer has sold out his farming interests nere Gully and will remove to Rhoda and go into partneship with his brother Edward in the store at that place.

Even J. Sund, who filed on the S.W. ¼ of sec. 32 two weeks ago, returned Sunday on the Dan Patch boat, with lumber for his new house and has commenced building Wallace Grace is doing the carpenter work for him.

The school meeting at the store of Andrew Ellingson on Tuesday afternoon was well attended and an octive interest was taken by all to try and get school started in this district as soon as possiable, $800 bonds was voted and an effort will be made to float them for the purpose of building a school house.

The best brands of flour for sale at the High Landing store,

Applications to make final proof written free at this office.

FROM DEER PARK.

Land seekers are beginning to show up arround here.

M, E. Hyland left for his old home at Gully last Saturday to be absent a fiew davs.

C. W, Johnson the Rhoda barber returned from N. Dak. last week.

Chas Swanson returned from N. Dak last Sunday evening.

Miss Emma Vattendahl and olga olson called on old friends here last Sunday, returning to their home in the town of High Landing Monday.

Al. Ofthus returned home from N, Dak. last Saturday, after a couple of months threshing out there.

A large deer was seen here the other day.

A Christianson called on old friends out west on the Clearwater last Friday.

Rev. Mostue returned home to Winsor last Friday, after looking at some vacant land here. He held two religious services here and was well pleased with our country and may make his home here.

Two Repulsive Pictures.

In the atelier of Adolph William Bouguereau, the great French painter, there hung two terrible pictures. One represented a man dying in the desert, with the frightful form of the angel of death descending upon him. The other depicted Dante and Virgil in hell watching one victim madly gnawing at the throat of another. The two pictures failed because of their horror. "If I had stuck to such subjects as those," the artist used to say, "I should have starved long ago." He found a market for the beautiful.

Painful.

"What does Bifkins remind you of?"

"I hate to tell."

"Because it's a reflection on Bifkins?"

"No; on me."

"I don't understand."

"Well, I'll explain. Every time I see Bifkins he reminds me of a little bill I've owed him for over a year."—London Tit-Bits.

Solitude and the Crowd.

It is easy in the world to live after the world's opinion, it is easy in solitude to live after our own, but the great man is he who in the midst of the crowd keeps with perfect sweetness the independence of solitude.—Ralph Waldo Emerson.

It Would.

"But why won't your husband let us look up the coat of arms of his family?"

"Paw sez a coat of arms would look funny for a man that made his fortune in his shirt sleeves."—Houston Post.

Absolutely Effective.

Jack Younghusband—I'm only going down to the club, dear, so don't wait up for me if I'm late!

The Little Wife (sweetly)—No, darling. I'll come and fetch you!

LESS THAN ONE CENT A Day, will bring the news of the news of the world to your home by subscribeing for the Duluth Evening Herald, which is sent by mail for 25 cents per mont. The Herald is considered one of the leading papers of the Northwest, prints on an avrage of more than fourteen pages daily, and the entire Associated Press reports. If you want to keep poted "Read The Herald." Duluth Weekly Herald, $1 per year; six months 59 cents; three months, 25 cents.

APPLICATIONS AT LILLO.

If you live in the town of Equality or Johnson you can make your application to make final proof, at Lillo, and have your notice published in the paper published nearest your land.

LAND OFFICE BUSINESS.

U.S. Commissioner L. G. Browning with office located at Thief River Falls, is prepared to take homestead entries final proof etc., within the Crookston U. S. Land District.

Office in News building, three doors south of the post office.

Hints About Screws.

Where screws are driven into soft wood and subjected to considerable strain they are very likely to work loose, and it is often difficult to make them hold. In such cases the use of glue is profitable. Make the glue thick. Immerse a stick about half the size of the screw and put it into the hole. Then put in the screw and drive it home as quickly as possible. When there is an article of furniture to be hastily repaired and no glue is at hand, bore a hole, insert the stick, fill the rest of the cavity with pulverized rosin; then heat the screw sufficiently to melt the rosin as it is driven in. Where screws are driven into wood for temporary purposes they can be more easily removed by dipping them in oil before inserting. When buying screws, notice that the heads are small and well cut, that there are no flaws in the body or thread part and that they have gimlet points. A screw of good make will drive as easily into oak as others into pine and will endure having twice the force brought against it.

Pushing the Old Folks Aside.

When the babies are cross and a man would like a quiet retreat there is none for him. But in a few years, when the children are grown and he is in the way, the daughters and mother put their heads together and originate a den. There is no den for the mother because she gracefully eliminates herself by sitting in the kitchen or running over to a neighbor's. It is her natural disposition to hide in a corner or remove herself entirely, and it is not the natural disposition of the father; hence the den. It has a couch and some pipes and tobacco and the books which the neighbors haven't got around to borrowing as yet, though if father begins a story today the book will be found to be loaned out when he wants to finish it tomorrow. The den is a fashionable way of pushing the old man out. If there is one in your house, Mr. Man, don't be deceived.—Atchison Globe.

A Two Edged Cure.

A story is told of the wonderful cure from deafness of a patient who was recommended to hear a Wagner opera and to sit near the orchestra by the trombones. The physician accompanied his patient and sat beside him. Suddenly, while the crash of the instruments was at its loudest, the deaf man found he could hear. "Doctor," he almost shrieked, "I can hear!" The doctor gave no sign that he noticed the remark. "I tell you, doctor," repeated the patient in ecstasy, "you have saved me! I have recovered my hearing." Still the physician was silent. He had become deaf himself.—Harper's Weekly.

Hamlet at Singapore.

I saw "Hamlet" played and adapted for Malays at Singapore. It was sung instead of spoken, and mostly to English tunes. Hamlet addressed the ghost to the tune of "Her Golden Hair" and killed Polonius to "Listen to the Band." Polonius addressed his son to "That's English, You Know." and, with the king and queen, sang "Mary Was a Housemaid" to other words. The ghost scene included three ghosts, two clowns and a bottle of whisky.

An Innocent Gambler.

"Cheyenne was a wide open town in the old days, and every hotel and bar had its little faro game and roulette wheel and stud poker game," said a man who was there. "Our party was staying at the Inter Ocean hotel. A long, loose jointed Missourian ambled in one night and butted into the poker game. There were two or three card sharps at the table, and every citizen carried his shooting iron. This long Missourian looked rather easy, but before he had been playing an hour he was $1,500 to the good. John Chase, proprietor of the hotel, became interested and watched the game. In a few minutes he saw the Missourian turn a trick that was not exactly according to Hoyle, and he called the Missourian outside.

"'Now, see here,' said Chase. 'I want to warn you. You'd better be pretty careful. Those fellows are all professional gamblers and are armed to the teeth. You don't seem to realize what you're doing.'

"'Say,' replied the long Missourian, with a look of childlike innocence, 'are they cheating me?'"—San Francisco Chronicle.

Prevention Better Than Cure.

In these days, when most medical men are on the still hunt for miraculous cures, specifics in one or other form, it is easy to lose sight of, at least to fail to give sufficient attention to, the matter of the cause or causes of disease and of the means of prevention as well as of the really scientific because so often simple measures calculated so to help nature as to enable her to successfully perform a cure.

We all remember how the profession ransacked the entire earth for some medicament that should "cure" scurvy. No better illustration of what good old Dr. Oliver Wendell Holmes declared to be shameful to the profession could be given than the various "treatments" for scurvy till some thoughtful layman discovered the true cause of the disease to be lack of vegetable food. A rational supply of vegetables or fruit and fruit juices and a diminished ration of salt meat sufficed to render all the armies, navies and camp dwellers of the world "immune."—Health Culture.

Siberian Convicts.

Some interesting phases of Siberian life are described in Samuel Turner's book on that country. Of the exiles he writes: "When I told a Siberian friend that I carried a revolver as a protection against wolves I was promptly informed that I had much more reason to fear the human wolves I might encounter, and this, I found, was a general view of the case. About one-third of the criminal exiles escape all control. Armed with a stick, to which is attached a strong piece of cord or catgut, they will approach the unwary traveler from behind, throw the cord round his neck and quietly strangle him by twisting the stick, to rob him at their leisure of whatever he may possess or secure his passport in order to make their escape from the country."

A Siberian Wonder.

The scientists have for years been perplexed over the wonderful frozen well at Yakutsk, Siberia. As long ago as 1828 it was announced that the ground was frozen to an abnormal depth at the place referred to. In the summer of 1829 a Russian merchant set a gang of men to the task of ascertaining the depth of the frozen stratum. They gave up the job after digging some thirty feet in solidly frozen ground. The Russian Academy of Sciences took the matter in hand and between 1838 and 1844 dug to a depth of 382 feet and then abandoned the shaft because the earth was still frozen as hard as a rock. Natural cold could never penetrate to such a depth, and the phenomenon is still unexplained.

The Horse as a Jumper.

A horse can certainly jump higher than a man. There is at least one authentic case of a hunter clearing a seven foot paling, and a century or so ago a Mr. Bingham leaped his horse over the wall of Hyde park, which was six and one-half feet high on the inside and eight feet on the outside. The horse cleared this obstacle twice in rapid succession; and we are quite certain that no man who has ever lived could do it.—London Answers.

Coffee In Guatemala.

The laborers in the coffee plantations in Guatemala get only 8 to 20 cents (gold) a day. The capitalists get as profit 50 to 60 per cent of the market value. During harvesting time the coffee business gives employment to more than one-half of the population. A single coffee tree, under the most favorable conditions, has been known to yield twenty-five pounds of beans.

Work and Talk.

Generally speaking, it is true of women as of men that those who think most say least. Woman's talkativeness is the result of her sedentary occupation. Tailors, shoemakers and weavers —all men who sit close at their work— have, in common with women, not only hypochondriacal fancies, but also a tendency to great talkativeness.— Richter.

The Word Cigar.

The word cigar occurs in a German dictionary for the first time in 1813 and in the Dictionnaire of the French Academie in 1835. Kant used the word "ziggaro" in 1798. In Spain at the present day the word "cigarro" means a cigarette, for which the Spaniards have the word "pitillos." Their name for a cigar is "un puro."

Therein Is the Difference.

A meddler is a person who fails in his attempt. The meddler who succeeds is no meddler, but a hero.—Duluth Herald.

How to Tell if Worsted or Woolen Cloths Are Adulterated.

Worsted cloths are less often adulterated than woolens and are more easily detected. A cotton worsted is a lie on the face of it, for the cotton stands out with prominence. But often a cotton thread is twisted with a worsted thread, and to determine its presence it is only necessary to take the twist out of the thread and then examine its component parts.

Cotton, having a long staple, can be carded and combed with wool to be spun into worsted yarn. This is done to cheapen the cost of production. Cotton is carded and spun with wool and shoddy, not so much to cheapen the yarn, for cotton is generally as expensive as some shoddies, but is introduced to give strength or spinning qualities to the stock. In many cases the shoddy is of such short staple that it would not stand the drawing in spinning, and, as it would make the cost of the yarn too high to put in enough wool to give that lacking strength, cotton is put in for this purpose.

The percentage of cotton in a fabric can be determined in this manner: Take a small piece of cloth and weigh it. Now boil it for five minutes in a 5 per cent solution of caustic soda. Take out what is left, and, if any, it is all cotton. The wool will all be dissolved. The percentage of shoddy cannot be determined except by experience.

A cloth or yarn with shoddy in it is easily detected by its feel. Cloth made of all new wool is softer feeling than one containing shoddy, for the latter has lost that new, soft, springy feel peculiar to wool.—American Wool and Cotton Reporter.

Success Prolongs Life.

It is now well known that increased complexity of life with increased expenditure distinctly aids longevity. Luxury, "the fertile parent of a whole family of diseases," modifies it greatly, of course, but this is a manageable factor, says the London Chronicle. We have only to recall personal experience to realize the force of intellectual stimulation. The interest of sport will sustain men without fatigue for distances they otherwise could not traverse. The excitement of strife will often mask the presence of wounds. Self forgetfulness in all the walks of life, under the stress of love, chivalry, or accepted duty, doubles human endurance. Success gives new vitality, new powers, and this is another name for new life.

No Notion of Real Trouble.

"I bet I get into more trouble than any man in this state," volunteered the young fellow who had come in the clubhouse. "Nothing in the trouble line overlooks me. Why, I'd be afraid to marry"—

"What! Ain't you married?" ejaculated the red nosed elderly party who was hovering over the gratis lunch. "Boy, you don't know what trouble is." —Louisville Courier-Journal.

Charity.

She—I'm glad we went. It was an excellent performance—and for such a charitable purpose. Her Husband—Yes, indeed! We all feel a thrill of satisfaction when we do something for charity and get the worth of our money at the same time.—London Tit-Bits.

Intended.

Bills—You made a funny break in congratulating the bride's father instead of the groom. Wills—No, I didn't. I've a daughter, too, and I know what they cost.—Chicago Journal.

Just as you are pleased at finding faults you are displeased at finding perfection.—Lavater.

Anxious.

"I hear that your wife has run away from you?"

"Yes. I've offered a reward for her capture, dead or alive."

"How much?"

"Ten dollars alive and a thousand dollars dead."—Judge.

The word "measles" formerly meant leprosy.

Jury Subbing.

Mexico has an ingenious plan for facilitating verdicts in jury trials. Two supernumerary jurors are drawn to sit near the jury box and listen to the evidence and arguments. If any of the regular jury falls ill or is otherwise disqualified from going on, one of the "supes" takes his place. In this way they avoid what is often seen in American courts—a long trial rendered useless when it is nearly finished by the sudden illness or death of one juror.

Madrid's Night Watchmen.

Madrid still has the mediaeval night watchmen. They admit late comers to the apartment houses at night, but no longer sing out the hour or the condition of the weather. They still go by the name of "sereno," which they got from the fact that, as it seldom rains in Spain, their cries about the weather generally ended with that word ("las tres y sereno").

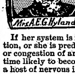
THE CHANGE OF LIFE

INTELLIGENT WOMEN PREPARE

Dangers and Pain of This Critical Period Avoided by the Use of Lydia E. Pinkham's Vegetable Compound.



Mrs A. E. G. Hyland

How many women realize that the most critical period in a woman's existence is the change of life, and that the anxiety felt by women as this time draws near is not without reason?

If her system is in a deranged condition, or she is predisposed to apoplexy or congestion of any organ, it is at this time likely to become active and, with a host of nervous irritations, make life a burden.

At this time, also, cancers and tumors are more liable to begin their destructive work. Such warning symptoms as a sense of suffocation, hot flashes, dizziness, headache, dread of impending evil, sounds in the ears, timidity, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude are promptly heeded by intelligent women who are approaching the period of life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound is the world's greatest remedy for women at this trying period, and may be relied upon to overcome all distressing symptoms and carry them safely through to a healthy and happy old age.

Lydia E. Pinkham's Vegetable Compound invigorates and strengthens the female organism, and builds up the weakened nervous system as no other medicine can.

Mrs A. E. G. Hyland, of Chestertown, Md., in a letter to Mrs. Pinkham, says:

Dear Mrs. Pinkham:—

"I had been suffering with falling of the womb for years and was passing through the change of life. My womb was badly swollen. I had a good deal of soreness, dizzy spells, headaches, and was very nervous. I wrote you for advice and commenced treatment with Lydia E. Pinkham's Vegetable Compound as you directed, and I am happy to say that all those distressing symptoms left me, and I have passed safely through the change of life a well woman."

For special advice regarding this important period women are invited to write to Mrs. Pinkham for advice. It is free and always helpful.

SOMETHING ABOUT SALT.

Salt is used all over the world much in the same way as water, animals and human beings alike craving for it. In some parts of Africa children will eat it in preference to sugar, and on the Gold Coast a handful of salt will purchase two slaves.

The Germans call salt "the gift of God," and used to believe that prayers were better answered when offered near salt. In the east salt is considered sacred; all oaths taken over it are inviolable, and when an Arab offers salt to a guest he guarantees his safety.

STRENGTHEN THE STOMACH

Dr. Williams' Pink Pills Really Cure Indigestion Instead of Merely Relieving Symptoms.

There are plenty of remedies by which you can relieve for the time heartburn, pain and gas on the stomach and can smother nervous sensations and induce artificial sleep. You can humor your stomach by giving it predigested food. But when you take your next meal all your trouble begins afresh.

There is only one sensible thing to do. Strengthen the stomach and do away with the necessity for drugs and artificial foods. The best remedy ever found for this purpose is the one that was used by E. E. Strong, of Capleville, Shelby county, Tenn.

"For years," he states, "I suffered greatly from indigestion. I tried many different remedies and some of them would relieve me for a time, but the trouble always came back. About six months ago I had an unusually severe attack, and while I tried everything I had ever heard of, I found that none of the ordinary remedies would reach the difficulty this time.

"One day I read in a Memphis paper how Dr. Williams' Pink Pills had cured a Michigan woman, a sufferer from chronic dyspepsia of a most stubborn type. I then tried the same remedy and it proved just as successful in my case. I took only three boxes, and was cured. I have not had the slightest symptoms of indigestion since."

The tonic treatment has a sound principle as its basis, and abundant success in actual use. Multitudes of cases that had defied all other remedies have been cured by Dr. Williams' Pink Pills. The pills actually make new blood and strike at the root of all diseases caused by bad blood. They contain no harmful stimulants or opiates. Every dyspeptic should read, "What to Eat and How to Eat." Write the Dr. Williams Medicine Co., Schenectady, N.Y., for a free copy.

NEWS OF MINNESOTA.

A Knotty Point.

St. Paul.—A demurrer to the complaint in the case of Charles Thompson and Anson R. Spear against the Minnesota Cold Storage company, in which the plaintiffs seek to recover 140 wild ducks seized by the state and stored in the defendant company's plant, was argued before Judge Hallam in the district court and taken under advisement.

The complaint alleges that on Sept. 29 last the plaintiffs shipped into this state 140 wild ducks from North Dakota which the state seized. A demand is made for the return of the birds, or a judgement for their value, which is placed at $320.

The Minnesota game laws prohibit any person from having in his possession more than fifty wild ducks, but the plaintiffs assert that the game was lawfully killed in North Dakota and became their property. Being their property, it was argued that the State of Minnesota cannot confiscate them on the ground that the number exceeds the number of birds which a person may have in his posession under the laws of this state. This, it was argued, applies only to birds shot in this state.

Site Selected.

Mankato.—Governor Johnson, State Auditor Iverson and Attorney General Young were at Minneopa, going over the ground proposed to be purchased for the Minneopa State Park provided for by the last legislature. They were joined at this city by a board of trade committee and several prominent citizens, and all were entertained at dinner at the railway grading camp. The state officials reviewed the grounds and the beautiful and romantic Minneopa falls, which greatly resemble the falls of Minnehaha, and expressed themselves surprised and delighted with what they saw. The work of the board of trade committee, Dr. J. W. Andrews, C. N. Andrews and Thomas Hughes, in selecting the land and conducting the negotiations for its purchase was approved, and the committee is requested to complete the transaction.

Horticultural

St. Paul.—The Minnesota State Horticultural society is one of the most vigorous organizations and one of the largest, if not the largest, horticultural society in the United States. It had a paid membership of 1,630 in the year 1904. It publishes its report as a monthly magazine with a total issue of about 500 pages yearly, and has ten volunteer experiment stations which report to it. These stations are affiliated with the central experiment station, which supplies them with material for experiment purposes. It pays out $350 in premiums at its two annual meetings, and always brings out a large display of fruits and flowers. It is making special efforts to encourage the growing of apple seedlings, believing the apple growing interests of this section will be very much improved by the introduction of new seedlings.

Suicide.

Minneapolis.—Frank Lindberg, who was found guilty in Judge Brook's court of having beaten and robbed Harry Durston in his room at the Minnesota house four weeks ago, cut his throat with a razor in the county jail, dying almost instantly.

It is the custom for prisoners to go to the jail office in the morning to get their own razors to shave with. William Doole, the ring-leader of the Warmelin safe-blowing trio, had brought his razor to his cell and laid it down while he stepped out of the cell to get some water. Lindberg, who had been watching his chance, ran in and seized the razor, and running to the toilet room, slashed his throath from ear to ear. The deed was discovered a moment later, but it was too late.

Teach Traveling Men.

St. Paul.—Dairy and Food Commissioner E. K. Slater is planning a convention of grocer's traveling men for a conference with the dairy and food department. The object of the conference with the dairy and food department is to give the salesmen definite information of what is wanted by the department to conform to the state pure food laws. Commissioner Slater found that the inspectors are continually asked advice by the traveling men whether this or that is legal and as to the proper labels and packages of goods. He then conceived the idea of the conference and recently wrote to a number of the wholesale grocers. He has received a number of replies, all faaorable to the move.

News Notes.

Wayzata—Fire destroyed the general store of Bodin Bros. at Mound Lake, Minnetonka.

St. Paul—W. C. Chapdelain, 62 East Eleventh street, who took a large dose of morphine died at the city hospital.

Mankato—The grand lodge of the Sisters of the sons of Herman of Minnesota met in Mankato.

St. Paul—The state board of investment approves applications for loans for loans amounting to $55,011.

St. Paul—Three shots in a week have been fired at the windows of Rice & Cymer, printers, 73 East Fifth street. No damage has been done except the breaking of a window pane. The police have been notified. The shots fired on separate days.

Ada—Several petitions are in circulation asking a pardon for Rev. Solem and his early release from the penitentiary. Solem pleaded guilty last July to a charge of assault, and was given a fifteen months' sentence.

Moorhead—What might have been a serious fire was discovered at the Dwight flour mills.

HIGH CLASS DRUGGISTS

AND — OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or officinal names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name—"Syrup of Figs"—or "Fig Syrup" and of some piratical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company—California Fig Syrup Co.—printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company—California Fig Syrup Co.—printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.

REGULAR BOSTON JOKE.

Professor of Geology Was Not in the Habit of "Reading Up" When He Read.

The professor had been summoned as an expert witness in a case involving the ownership of a tract of coal land, relates the Chicago Tribune.

"I will ask you, professor," said the attorney for the prosecution, "if the geological formation of this land corresponds with the published data pertaining thereto?"

"It does, sir," he answered.

"You have thoroughly read up the geology of the tract in question?"

"I have not."

"You have not?"

"No, sir."

"I ask the jury to notice that the witness flatly contradicts himself. Now, sir, if you haven't read up the geology involved in this case, why do you pretend to know anything at all about it?"

"Because, sir," said the professor, "in studying geological formations, it is my invariable custom to read down."

"Silence in the courtroom!" thundered the judge.

Good News for All.

Bradford, Tenn., Oct. 23rd (Special).—Scientific research shows Kidney Trouble to be the father of so many diseases that news of a discovery of a sure cure for it cannot fail to be welcomed all over the country. And according to Mr. J. A. Davis, of this place, just such a cure is found in Dodd's Kidney Pills. Mr. Davis says:

"Dodd's Kidney Pills are all that is claimed them. They have done me more good than anything I have ever taken. I had Kidney Trouble very bad and after taking a few boxes of Dodd's Kidney Pills I am completely cured. I cannot praise them too much."

Kidney Complaint develops into Bright's Disease, Dropsy, Diabetes, Rheumatism and other painful and fatal diseases. The safeguard is to cure your kidneys with Dodd's Kidney Pills when they show the first symptom of disease.

His One Complaint.

"Do they treat you well here?" asked the good woman who was trying to do a little missionary work behind the bars.

"Fairly well, ma'am," answered the burglar, who was enjoying a three years' vacation. "I have only one fault to find with the treatment they hand out."

"What is that?" queried the lady visitor.

"They refuse to let me carry a night key!" replied the prisoner.—Chicago Daily News.

Frequently when a piece of property is offered for a song a man discovers that the business world is not inclined to accept his singing at its face value.

RESTORED HIS HAIR.

Scalp Humor Cured by Cuticura Soap and Ointment After All Else Had Failed.

"I was troubled with a severe scalp humor and loss of hair that gave me a great deal of annoyance and inconvenience. After unsuccessful efforts with many remedies and so-called hair tonics, a friend induced me to try Cuticura Soap and Ointment. The humor was cured in a short time, my hair was restored as healthy as ever, and I can gladly say I have since been entirely free from any further annoyance. I shall always use Cuticura Soap, and I keep the Ointment on hand to use as a dressing for the hair and scalp. (Signed) Fred'k Busche, 213 East 57th St., New York City."

Biography is often only the gentle art of varnishing the truth.

Western Life Indemnity Company.

The Policy Holders' Committee at No. 77 Jackson Blvd., Chicago, will give complete information about the expenditure of $200,000.00 of company funds as commissions to Mr. Rosenfeld for the purchase of Life Insurance Company of Pennsylvania business made on or about February 20th, 1905, and the expenditure of $200,000.00 company funds on September 20th, 1905, to purchase 8,000 shares of stock in the Security Life and Annuity Company (par value $10.00 per share). Mr. Moulton, Mr. Rosenfeld and Mr. Moore, the Executive Committee, are now cited by Judge Kohlsaat to show cause why they should not be punished for contempt in making the last transaction. Make inquiry at once.

HERVEY B. HICKS, Chairman.

A man who is hunting for work doesn't need to carry a gun.

"Some men," said Uncle Eben, "is talked about because dey's great. An' some men seems great because dey manages to git talked about."—Washington Star.

Piso's Cure cannot be too highly spoken of as a cough cure.—J. W. O'Brien, 322 Third Ave., N., Minneapolis, Minn., Jan. 6, 1900.

When a girl is really in love she is hungry only between meals.

GREAT SONG WRITER.

Paul Dresser, the Popular Composer, Cured by Doan's Kidney Pills.

Paul Dresser of New York, author of "Banks of the Wabash" and many other great song hits, writes:

Gentlemen: I wish to recommend Doan's Kidney Pills, in the hope that my endorsement will be read by some of the many thousands of sufferers from kidney complaint. I was so wretched from this malady that I could not sleep, rest nor eat, and had a weak and aching back. Doan's Kidney Pills effectually cured me, and I wish that others may know.

NEWS OF A WEEK TERSELY OUTLINED

A SUMMARY OF THE MOST IMPORTANT EVENTS AT HOME AND ABROAD.

TOLD IN CONDENSED FORM

Complete Review of Happenings of Greatest Interest from All Parts of the Globe—The Latest Foreign Information.

THE RUSSIAN REVOLT.

The railroad system of Russia is almost completely tied up and socialists say, since troops cannot be transported, the government is at their mercy. Fifteen were killed in conflict at Ekaterinoslav and massacres took place in many cities in Russia.

The czar, under pressure of threatened revolution and plain talk from De Witte, consented to grant Russia a constitution. St. Petersburg is panic-stricken. The strike is spreading rapidly in all parts of the empire.

PRESIDENT'S SOUTHERN TOUR.

President Roosevelt, speaking at St. Augustine, Fla., declared that neither the plutocrat nor the mob will be allowed to rule the government. In speeches at Jacksonville he said success will crown the work on the Panama canal, and gave advice to negro students.

President Roosevelt spent a quiet day in St. Augustine, Fla., attending church in the morning and enjoying a plunge in the ocean in the afternoon.

All of Mobile turned out to welcome President Roosevelt, and after being presented with a peace medal he spoke to a crowd of 40,000 people.

President Roosevelt was enthusiastically received at Montgomery, Tuskegee institute, and Birmingham, Ala. He pleaded for clean citizenship, and pointed out the evils of lynching, declaring it the duty of whites to guard the rights of the negro.

President Roosevelt, speaking at Little Rock, Ark., urged that a stop be put to the practice of lynching and that the statutes be amended so as to prevent influential criminals from escaping.

President Roosevelt ended his southern tour with a day of remarkably enthusiastic demonstrations in New Orleans and left for Washington on the cruiser West Virginia.

MISCELLANEOUS.

Twenty-five persons were hurt in a collision between two cars on the Williamsburg bridge at New York.

Minister Squires is accused by Cuban newspapers of being a party to a conspiracy to annex the island to the United States.

Elliott Fitch Shepard of New York, a scion of the Vanderbilt family, has been sentenced to three months in jail by a French court for running down and killing a peasant girl with his automobile.

Freedom of the city was bestowed by London upon Gen. Booth of the Salvation Army in recognition of that organization's achievements.

Secretary Root in a letter says the Newfoundland fisheries dispute is not yet completely settled, and asks fishermen to be good-natured.

The practice of mothers riding in automobiles causes premature births, thereby aiding race suicide, St. Louis health officers contend.

The St. Paul road is to build its own line through to the Pacific coast.

Fear of tuberculosis led Mrs. James S. Handy, of Chicago, to kill herself.

National insurance of life and property is favored by some congressmen, who will introduce bills for that purpose at the coming session. A postal savings bank scheme will be included.

The eight-hour day is the issue in the Pennsylvania coal fields, and John Mitchell is pledged to it, but the sentiment in the union is divided.

The secretary of the interior has ordered the withdrawal from entry of 300,000 acres of land in the Cheyenne, Wyo., land district, with a view to creating a forest reserve.

The state bank at Rockham, S. D., was robbed. The safe was shattered by nitroglycerin and $3,000 in currency, besides valuable securities stolen.

The interstate commerce law convention in Chicago split into two gatherings on the question of indorsing President Roosevelt's rate revision policy.

The Russian transport Lena, which has been interned at Mare Island since last spring, has sailed from that navy yard for San Francisco. She has been released and will return to a Russian port.

Alice Roosevelt and party arrived in San Francisco and left for the east.

Clinton L. Heath, of Chicago, was awarded $10,000 damages in the circuit court at Kankakee, Ill., for injuries received in 1904 while employed as a switchman in the Fordham yards of the Illinois Central railroad.

The estimates for appropriations for the department of commerce and labor for the fiscal year ending June 30, 1907, aggregate $11,263,938, being $222,380 less than the amount appropriated for the department for the fiscal year ending June 30, 1906.

Edward G. Cunliffe, the Adams express robber, went into court in Pittsburg and pleaded guilty to two charges of larceny, representing a theft of $101,000. Sentence was suspended.

Two fast passenger trains on the Chicago, Rock Island & Pacific railway collided, head-on, at a point one mile south of Fairfield, Ia. Four persons were killed and between 15 and 20 injured.

The Sydney line steamer Drogher Moana was lost off New Zealand on September 20 and her crew of seven were drowned.

At Cannelton, Ind., Lutie Fishback, aged 11 years, shot her 13-year-old sister Maggie with a shotgun, blowing off the entire top of the head. The children had been playing with the gun thinking it was not loaded.

The Railroadmen's hotel, located a block below the Iron Mountain railroad depot in Hot Springs, Ark., was destroyed by fire. Six lives were lost.

The bodies of Isabelle Spivey (colored), aged 24 years, and her three children, Marie Louise, aged ten; Gladys, aged seven, and a boy of three years, were found in the burned ruins of their shanty at Asbury Park, N. J.

Judge Slemmons, in the county court at Peoria, Ill., sustained the motion to quash the indictment against O. J. Bailey, chairman of the finance committee of the school board, for malfeasance in office. In permitting N. C. Dougherty to carry on his alleged defalcations undisturbed. Bailey was discharged.

A. J. Whiteman was sentenced at Buffalo, N. Y., to serve eight years and five months in Auburn prison. He was convicted of defrauding the Fidelity Trust company, of Buffalo, by means of raised and forged checks.

Secretary Shaw told Nebraska bankers that there will be no financial legislation until the nonelasticity of our currency causes a panic, which may be soon.

The Norwegian government asks the storthing for complete power to negotiate with Charles of Denmark relative to taking Norway's throne.

The census bureau issued a report placing the number of bales of cotton ginned this year at a figure in excess of 4,000,000.

A St. Louis woman gave out plans for a new $1,000,000 university for study of the occult.

An American collector of customs was wounded and his native assistant killed in the Santo Domingo riots. It is feared that the bloodshed will fan the latent revolution.

A Pittsburg lawyer says that of the $2,500,000 resources of the failed Enterprise national bank of Allegheny only $40,000 was on hand when the institution was closed, and that collateral deposited to secure loans were rehypothecated.

Secretary Taft announces his cabinet position suits him and that he will not be a candidate for president.

Papers have been served on a woman Spiritualist to recover $1,000,000 which she is alleged to have obtained from Pierre Lorillard Ronalds, the dead New York clubman.

The headless body of a woman found in the Bronx river was identified by a New York merchant as his missing wife.

The semi-annual conference of the college of bishops of the Methodist Episcopal church, comprising the governing body of that denomination, began in Washington.

Ten firemen and several spectators were injured by an explosion of turpentine in a New York fire.

New York city inaugurated a new scheme in municipal ownership by opening the Staten Island ferry.

Maj. R. W. McClaughry, warden of the federal prison at Fort Leavenworth, Kan., has been ordered to deliver Frank C. Bigelow, the ex-banker, to the court in Milwaukee on November 20, to testify as a witness for the government in the case against Henry G. Goll, former cashier of the bank.

With masonic rites the body of ex-Congressman "Jerry" Simpson was laid to rest in Maple Grove cemetery, Wichita, Kan.

Charles A. Flammer announced his resignation as republican candidate for district attorney of New York, and appealed to the members of the party to support the candidacy of William Travers Jerome.

Since 1890 the value of Italy's foreign trade has risen from $440,000,000 to $700,000,000, and commercial exchanges with the United States from $32,000,000 to $76,000,000.

The corner stone of the Methodist hospital, to cost $300,000, was laid at Indianapolis, Ind.

The comptroller of the currency has been called upon by the department of justice to send a special examiner to make an investigation of the affairs of the Enterprise national bank of Allegheny, Pa.

The private bank of Harvey Hoag, of Barker, Niagara county, N. Y., was robbed by three men, who cut all the telephone wires entering the village and blew open the safe of the bank. They got away with about $3,000 in gold.

It is officially announced that King Edward has commanded that a special mission, headed by Prince Arthur of Connaught, be dispatched to Tokio early in 1906 to confer the Order of the Garter on the emperor of Japan.

King Edward has decided to immediately raise the British legation at Tokio to an embassy.

Burglars blew open the safe in the Bank of Ridgeville, Ind., stole $6,000, and after a running battle with a posse of citizens in which the cashier of the bank and two of the robbers were wounded the safe blowers escaped.

Rosaline Nerring, the oldest woman in Illinois, died in Chicago at the age of 104 years as a result of a fall down a stairway.

Eki Hioki, secretary of the Japanese legation at Washington, in a speech at Cleveland, denied that the mikado has designs on the Philippine islands.

Thanksgiving day promises to be lacking in feasts, as the prices of foodstuffs are going up alarmingly.

At a banquet of Chicago medical men a plan for a $2,000,000 home for doctors was given a substantial impetus.

Secretary of State Root will negotiate with Venezuela for a settlement of the French dispute. Differences with America are practically obviated.

To win a bet of 25 cents Patrick MacGrath, an intoxicated farmer, ran an engine into a work train on a siding at Hammond, Ind., demolishing several cars and injuring four laborers.

Brewers of Kansas City, Mo., refused beer to three Kansas towns, as a reply to Gov. Hoch's crusade, and 195 saloons are closed in consequence. The brewers hope to stir the people when taxes are increased by the loss of the liquor revenue.

Kipp Smith, of Seatonville, Ill., who shot and killed Belden Allen last January, has been found guilty of murder and given a verdict of 18 years in the penitentiary.

News from Washington, indicating that prosecutions of those responsible for the failure of the Enterprise national bank, of Allegheny, are to follow, resulted in the hurried payment of notes by Pennsylvania politicians.

Sir Thomas Lipton expects to again challenge for the America's cup in 1907.

The South Dakota supreme court has decided that the county seat of Walworth county shall be at Bangor. The citizens of Shelby one night went to Bangor, tore down the old county building and carted the records off to Selby. Bangor took the matter to court.

The rapid stripping of the forest has forced the railroads to adopt plans for planting trees to furnish the millions of ties which they use every year.

W. H. Harroun, charged with having forged $700,000 worth of bills of lading and obtaining money on them, was found guilty by a jury at St. Joseph, Mo., and the penalty fixed at five years in the penitentiary.

An indictment containing nine counts was returned by the federal grand jury at Louisville, Ky., against Sebastian Zorn & Co., T. G. Williams and James A. Bushfield, charging violation of the interstate commerce law in having illegally secured rebates on grain shipments, favoring certain shippers and districts and discriminating against others.

B. Frank Clyde, vice president of the William P. Clyde Steamship company, and millionaire clubman, was dragged under the wheels of a locomotive and instantly killed at Philadelphia.

A dispatch from Santiago, Chili, says that about 50 persons were killed and 500 wounded during the recent rioting there.

The czar has pardoned all the Japanese prisoners who, on account of infractions of the rules or attacks on the guards and other officers, were sentenced to imprisonment.

Mary Mable Rogers, under sentence of death in Vermont for killing her husband, has been granted leave to proceed on appeal before the supreme court of the United States as a pauper without payment of costs.

The trial of David E. Sherrick, indicted for embezzlement while auditor of Indiana, has been set for November 27 in Indianapolis. Willard S. Wickard, indicted with Sherrick, will not be tried until after the disposal of the Sherrick case.

Jerry Simpson, former congressman from Kansas and one of the most unique characters in American politics, is dead.

The receiver of the wrecked Pittsburg bank failed to find notes for $600,000 loaned to politicians.

Chilian malcontents started a revolt during the army's absence from the capital, and many were slain on the streets.

Mr. Isham Randolph, one of the members of the board of consulting engineers for the Panama canal, says the waterway will be completed before the year 1915.

The annual report of the treasurer of the United States shows that expenditures during the last two years have exceeded revenue by $64,000,000.

The cable ship Burnside returned to Seattle, Wash., for coal, reporting new and serious faults in the Alaskan cable between that city and Sitka of such a nature that all communication with Alaska is cut off until the Burnside can return.

WASHINGTON LETTER

SECRETARY BONAPARTE BESIEGED BY LETTERS.

FROM NEY'S DESCENDANTS

A Vigorous Son of Kentucky—Admiral Dewey's Energy—After Century of Delay Erect Memorial to Revolutionary Hero.

WASHINGTON.—Secretary of the Navy Bonaparte is paying the penalty of belonging to a royal family. He is a grand-nephew of Emperor Napoleon and the descendants of the great marshals who served under the latter are now appealing to him for assistance. Judging from the number of applications that he has received since his appointment as secretary of the navy made him known internationally, Mr. Bonaparte has come to the conclusion that all of the great Napoleon's marshals must have died poor. Scarcely a day passes that he does not receive a letter from some one in France stating that the writer has descended from one of Napoleon's generals, and as the emperor's grand-nephew is now a man of wealth and position the writer does not doubt that he will be only too glad to render a little assistance for the sake of the grand old days at Marengo and Austerlitz.

The secretary cannot undertake to respond to all these applications, but he has let it be known that his modest fortune would soon disappear if he gave even a trifle to each of the applicants. The majority of appeals for aid come from the descendants of Marshal Ney. The Ney family seems to have been very prolific, as members of it are popping up all over the republic of France. In their letters to the secretary they call attention to the great value of Marshal Ney's services to Napoleon and suggest that the secretary in memory of his distinguished grand-uncle, might feel like discharging part of the latter's debt to Ney by substantial financial remittances to the present members of the Ney family.

One of these letters is from a Ney who has served in the French army. He has sent the secretary a colored portrait of himself, showing that he is dressed in the brilliant French uniform, with baggy trousers of a bright red hue.

A White-Headed Soldier.

IT IS now Maj. Gen. "Jack Weston." The expected promotion has been made and the white-headed soldier, who will be 60 years of age in November, now goes into the line to do active service. It was at first thought that he would be appointed to the general staff, but there was no place for him there, so he will be assigned to command of a division with headquarters at St. Louis. Secretary Taft is not altogether in favor of the policy of putting men of Weston's age into the line, and, with the kindliest feelings for the veteran, he contested with the president over such an assignment. When the promotion was decided upon the secretary said to Weston:

"General, the president has been trying to make you a major general and I have been trying to prevent it. The president has won out, and I guess he is right about it."

"That's all right," responded Gen. "Jack." "I understand my age is in the way, but I am a pretty lively colt." Anyone to look at the active, rosy-cheeked Kentuckian, and who is acquainted with his record for hard work, can easily understand how the president persuaded Secretary Taft to waive the policy of not appointing old men to the line in Weston's case.

Gen. Weston is known as the "Charles O'Malley" of the army, as he fills the bill of Lever's Irish soldier hero in most particulars. He is a jolly, light-hearted, energetic, brave officer, and has years of usefulness before him. Only two years ago the army doctors concluded that he was a very sick man, and they thought they had discovered something wrong with his heart. They put him in the soldiers' home hospital and told him he must not take any violent exercise. Weston did not believe that there was anything the matter with his heart, and one day, when his attendants were at dinner, he jumped up, ran across a meadow and back at full speed and found to his satisfaction that there was not the slightest flutter of his heart. He went to his room, packed his grip and came back to his desk in the war department.

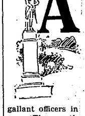
Not Retired on His Laurels.

ADMIRAL DEWEY is setting an example of activity that could well be followed by younger officers in the navy. He is still the naval hero of the present day, but he does not elect to retire on his laurels and rust out in private life. As president of the general naval board he is on duty every day at the department, and takes the keenest interest in everything pertaining to the improvement of the navy. The admiral is 68 years of age and could have retired four years ago if he had wanted to, but he says there is a lot of work that he can do and he proposes to devote his energies to the good of the navy.

Just now Admiral Dewey has been brought into the limelight by his persistent advocacy of big ships for the navy. He has studied the recent war between Russia and Japan with a view to learning lessons that can be applied to the United States navy, and he maintains that the first lesson of this conflict is the dominance of the big battleship in a naval encounter. He declares that the United States must keep abreast of all the great navies of the world, and as Great Britain has now laid down an 18,000-ton battleship it behooves this country to imitate her example and build a vessel of equal size.

Admiral Dewey believes that the defensive and offensive alliance between Great Britain and Japan makes it necessary for the United States to maintain a navy of the first grade. This alliance gives Great Britain and Japan virtual control of the seacoast from the Mediterranean to the northeasternmost point of the Asiatic coast. The United States must have a navy that will command respect in order to maintain the Philippines and protect her commercial interests in the orient. The admiral's views will be spread before congress at the coming session when the question of a big battleship is discussed.

Gen. Hugh Mercer.



AFTER 129 years this government is about to do proper honor to a distinguished revolutionary hero. A memorial is to be erected to the memory of Gen. Hugh Mercer, who is a close friend of Washington and one of the most gallant officers in the revolutionary war. The continental congress, 129 years ago, passed a resolution for the erection of a monument to this officer, but it is only now that this purpose is to be carried out, provision having been made by the last congress for the erection of a statue of Gen. Mercer at Fredericksburg, Va. A prominent sculptor has been given the contract for the memorial, and it will be finished within a year and appropriate dedicatory services will be held.

Gen. Mercer was a native of Scotland, and in the early days before the revolution, in fact, before the French and Indian war, he came to America and settled at Fredericksburg, where he became known as one of the ablest lawyers in that part of the country. He formed a friendship with George Washington when the latter was an officer in the colonial service, and engaged with him in the ill-fated Braddock expedition of 1755. He was severely wounded at Braddock's fields, near Fort Duquesne, and traveled on foot in that condition to Fort Cumberland, 160 miles east.

On the breaking out of the revolution, he was again associated with Washington, and was conspicuous for his gallantry in many an engagement particularly in the battles of Trenton and Princeton. In the latter engagement he received his death wound. The continental congress, in its enthusiasm over Gen. Mercer's gallantry, upon receiving news of his death in battle, passed a resolution for a memorial, but the necessary funds were not set aside to erect one. That oversight of more than a century ago has been remedied, and now the gallant Scotchman who gave his life for the United States will be honored for all time by a memorial fitting in sentiment and workmanship.

Still in the Land of the Living.

Terrence McGraw—Oi saw Norah O'Toole lasht wake wid a black band on her ar-rum. Faith, an' Oi didn't know she had losht her husband.

Pat McGinnis—Begobs! an' it musht be some other relative, fer Oi joost met her not an hour ago wid her eye in mournin'."—Judge.

Beware of Malaria.

To avoid malaria keep up your courage; also the mosquito netting.

RUSSIA IN THROES OF REVOLUTION

THE CZAR HESITATES IN THE MATTER OF ANNOUNCING CONTITUTION.

Disorder Increasing in all Parts of the Empire. Provisional Government Formed at Moscow to Take Control.

London, Oct. 30.—The correspondent of the Daily Chronicle at St. Petersburg sends the following:

"The court is in revolt against the emperor, who is vacillating between the counsels of his ministers to grant a constitution with Count Witte as premier, and the advice of the reactionaries to proclaim a dictatorship under Gen. Count Alexis Ignatieff, a member of the council of the empire.

"One of the most ominous factors in the situation is the feeling among the Finns. There are only 4,000 troops in Finland, the 6,000 reservists sent there having been brought back because they developed revolutionary leanings.

"Should the Finns revolt, the government could not reinforce the garrisons because every soldier is wanted here, and the navy is unreliable."

London, Oct. 30.—A dispatch to the Standard to Odessa, timed 7 p. m., Oct. 29, says:

"A collision between the military and a crowd of students and strikers occured an hour ago in Tyraspoloskaya street. The soldiers, without warning, fired point blank into the people, killing twenty and wounding sixty. The students are holding a stormy conclave at the university.

"It is reported from Kieff that three regiments have mutinied in the southwestern provinces and there are alarming reports here of the doubtful fidelity of three battallions of infantry."

St. Petersburg, Oct. 30.—While Sunpassed quietly without bloodshed in the Russian capital and while the city is outwardly calm, developments all indicate that a crisis is imminent.

A meeting of the munipal council was held last evening at which a deputation of thirty members of the strikers' committee appeared. In an impassioned speech the leader of the deputation presented the following demands of the workmen and affiliated organizations.

Although the streets are filled with troops and reinforcements are now pouring in from Finland, the government seems utterly powerless to cope with the situateon and many calm observers seem seriously to believe that the present regime is tottering to its fall.

First—A constitution and political liberty.

Second—That the city furnish food to the workmen.

Third—That the city refuse further supplies to the troops and police.

Fourth—That the troops be removed from the waterworks, or otherwise the strikers would cut the water supply.

Fifth—The immunity of the deputation from arrest.

UP TO GOV. JOHNSON.

Gouernor Must Send Evidence of Guilt to Washington—Embassy in England Acts.

Washington, Oct. 30.—Peter August Ecklund of Clay county, Minnesota, who is wanted there by the local authorities on a charge of embezzlement, and who has taken refuge in London, will soon be brought back to the United States.

Announcement was made at the state department that before any action would be taken in the case, that Gov. Johnson must make a request of the secretary of state that Ecklund be extradited. This request must be accompanied by evidence of Ecklund's guilt. The governor at the same time must nominate some officer to go to England to bring Ecklund back. This can be done either by a United States marshal or the sheriff of Clay county.

When these formalities have been attended to negotiations will then be opened up with the British government for the extradition of Ecklund.

Will Seed the Land.

Deadwood, S. D., Oct., 27.—Capt. Bullock of the forest reserve has an army of helpers composed of small boys who are gatheing pine cones for which they are paid 25 cents a bushel. It was decided a short time ago to seed over all the burnt districts of this reserve in order to produce new growth. This experiment was tried last spring on thirty acres of land near Roubaix and proved amply satisfactory. The thirty acres produced one seedling to each square foot. With so satisfactory results before their eyes, the forestry department decided to push the matter still further. Capt. Bullock has been collecting pine cones with the intent of seeding all the burnt districts of the Hills next spring.

DEFECTIVE PAGE

THE SUNBEAM.

BY W. G. HUNT.

Published every Friday, at Sunbeam, Red Lake County Minnesota.

Subscription price $1.00 per year in advance. If not paid in advance $1.50

Entered as Second-class matter August 30, 1905, at the post office at Sunbeam, Minn. under the Act of Congress of March 3, 1879.

McIntosh and Fosston are being pestered with sightless swine to such an extent that licensed saloons will be voted in at the the next election.

Fusion Reform will undoubtly give a goodeal of attention to passing laws to control the railroads during the next two years, and the railroads will of course spend millions of money to elect congressmen to represent their interests. Then it will be up to the people to use the ballot box to elect men for congress who have pronounced views on this importent question. We can not blame the railroads for looking out for their best interests, and the people had ought to look out for theirs.

Paganini's Cab.

The characteristic good nature of Paganini, the celebrated Italian violinist, is well illustrated by the following anecdote: One day while in Vienna he hired a cab to take him from the hall where he had added one more to his long list of triumphs to his lodgings. When Paganini awoke the next morning he found the cabman waiting for an interview. He, in fact, burst into Paganini's private apartment.

"What do you want?"

"Excellency, I come to solicit a favor of you—a very great favor. I am father of four children and have the honor to be your fellow countryman. You are wealthy, your fame is unequaled, and if you please you can make my fortune."

"What do you mean?"

"Well, authorize me to write in large letters at the back of my vehicle these two words: 'Paganini's Cab!'"

The musician consented, says Olga acster in an interesting volume entitled "Chats on Violins," and six months afterward the cabman was enjoying a comfortable income solely derived from Paganini's cab.

Masts and Rigging.

Each of the three masts of all but very small vessels consists of a number of sticks one above another. The "heel" of the topmast comes a little below the "head" of the lower mast and is secured by a "cap," a sort of iron band, and a bar, called a "fid." Above the topmast comes the topgallant mast and above that the royal mast.

The running rigging consists of ropes used in handling the yards and sails, and every rope has a distinguishing name. Halyards are ropes used to hoist yards and sails. Braces are ropes used to swing the yards around by.

To the beginner the names of ropes are apt to be very confusing. Old salts are fond of spinning a yarn about a [illegible] who wanted to go to sea until he heard that the fore topgallant studding sail boom tricing lining thimble block housing was the name of about the smallest bit of rope on board ship. Then he at once concluded that, such being the case, he could never expect to master the name of the largest rope and consequently decided to become a farmer.

Gypsies and Tartars.

Some ethnologists claim that the gypsies are of the same family as the Tartars. They are said to have appeared first in Germany in 1417 under the name of Tartars or Zegins and by a statute of Henry VIII were expelled from England in 1530. This not proving efficient to exterminate the race stronger measures were taken, described by Thomas Cromwell in a quaint letter still extant. "And in case ye shall here or knowe of any such Gipsians," he writes to "My Lorde of [illegible]ester," "that ye shal compell them to depart to the next porte of the see, and eyther without delaye uppon the first winds that shall conveye them, or if they shal in any wise breke that commaundment, to see them executed, without sparing uppon any commysion, license or placards that they may have or alledge for themselfes to the contrary."

A Fine Sense of Humor.

The Russian Emperor Ivan IV. once ordered one of his high court officials to procure for him a measure full of fleas, and when the poor man failed, through the friskiness of the insects in hopping out of the measure, had his head cut off and inflicted a fine of 7,000 roubles on the city of Moscow for its share in the failure. On other occasions he would wander away into the country with some boon companions and a few caged bears, and when he came to a peaceful village would let loose the bears and shriek with laughter as the villagers rushed for safety or fell victims to the hungry animals.

Notice For Publication.

First Publication Oct. 27th 1905.

Department of the Interior, Land Office at Crookston, Minn. Oct. 18th 1905.

Notice is hereby given that the following-named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before L. G. Browning, U. S. Commissioner for the District of Minnesota, at Thief River Falls Minn. on Dec. 4th 1905 viz:

Andrew T. Joppru.

H.E.No. 630 Red Lake Series, for the N.W.¼ Sec. 23 Tp. 154 N. R. 41 W.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:

John Holmgren, Oswold O. Oas, Han H. Jacobson, Owen Moris, all of Germantown Minn.

R. J. Montague, Register.

As It Should Be.

He had just proposed, but his poverty was too much of a handicap.

"A man without money," she said, "might as well walk back and sit down."

"Oh, of course," he rejoined. "He naturally wouldn't be in a position to ride back."—Brooklyn Eagle.

The Kaiser's Stirrup Cup.

Here is the recipe, given in the Westminster Gazette, of the kaiser's favorite preparation when he goes out hunting:

White beer, sugar, citron peel, ginger, spices, the yolk of at least a dozen eggs, Rhine wine, Madeira, old Santa Cruz rum. All this after being thoroughly stirred is placed on a fire and slowly heated, several large pats of butter being added to the concoction while it is warm.

LEGAL PAPERS

Drawn At This Office, By W. G. Hunt Notary Pnblic.

About the House.

Common whiting mixed with ammonia makes excellent silver polish.

Kerosene brightens brass ornaments and keeps them from tarnishing.

Use a knife to break an egg. The contents of the egg are more easily handled.

Hang up the clothes brushes and the whisk brooms. It needs but a few cents invested in nails and screw eyes.

Lamp wicks are not expensive. It is poor economy to strain the eyes and spend every morning filling lamps when time and eyes can be spared by throwing away the short, blackened wick.

Not For General Circulation.

"Say, pa, when I'm a man won't I have to obey you nor ma any more?"

"No, but you'll have a boss then who will make you wonder why you ever thought we were hard to deal with. You needn't tell your ma, however, that I told you."—Chicago Record-Herald.

Forests and National Prosperity.

As a living example of the consequences of deforestation we need simply look to Spain, a country which centuries ago was rich in timber and agricultural products, a proud seafaring nation of world conquerors. Spain's decadence dates from the time when her timber supply became exhausted, her shipbuilding relaxed and her barren, unprotected soil ceased to bear fruit.—Forum.

A Long Way Around.

A man with a large family of daughters on his hands may profit by the following suggestion: An old lady who had several unmarried daughters fed them largely on a fish diet because, as she ingeniously observed, "fish is rich in phosphorus, and phosphorus is useful in making matches."

Her First Dinner.

"Yes," said Newliwed, "my wife and I are housekeeping now. She prepared our first dinner last night with her own fair hands."

"How was it?" asked Bachelor.

"Well, the nuts and raisins were fine."—Philadelphia Ledger.

LOCAL PARAGRAPHS.

Pay up your back subscription.

Iudian summer is with us this week.

Do your Notary Public business at the SUNBEAM office.

The best brands of flour for sale at the High Landing store.

Applications to make final proof written free at this office.

There will be a social party at the residence of P. Sullivan this evening.

This is the time of year that Red Lake River is a sure divideing line, as there is to much ice for boats and not enough to cross on with safty

We are expecting a regular U. S. mail carrier to start carring the mail from this place to Lillo next week.

Use the preasent fine weather to fix up for the winter, as the colder weather will soon be on tap.

Hay will be selling at fancy prices before next spring, but the trouble is there is none for sale arround here.

Miss Auguste Kuehnel and Albert Sokley were at Crookston last Monday making final proof on their homesteads.

Thomas Sullivan was fortunate enough to get up his lumber for fixing up his house for the winter just before the close of navagation.

Will Arnt has been enlargeing and fixing up his house in a way that looks as if he was going to use it for something besids a bachelors hall

Miss Lucy McAndrees, of Spring Valley Minnesota has been visiting friends and relatives in this locality the past week.

Miss Auguste Kuehnel has commenced building extensive additions to her store building to make room for a large stock of dry goods, which she has ordered.

The "Dan Patch" is ice bound somewhere above here We have not learned the fate of her crew, but suppose her captain struck out across the country harpooning wolves,

A big prairie fire passed north of the river on Monday night, which caused a number of the settlers to turn out in the night to fight it, but no damage was done.

Miss Anme Spokley's father Gulbert Spokley and Gilbert Nash, of Neilsvill visited her on the claim last week. Mr. Spokley was well pleased with the appearance of the country up this way.

Albert Spokley will move his family to Thief River Falls next Monday, for the winter. They will be missed by their neighbors and friends, who hope they will return to the farm next spring.

County Surveyor J. K. Wood will survey some of the farms in this localit uext week, as some of the government corners can not be found, and they will have to be located or new ones established.

A. F. Lattimoe has a new post office established five miles east from High Landing and we understand he will put in a newspaper plant up there. Al. is a first class mechanic, but, that is the smallest part of successfuly running a country newspaper.

Andrew Ellingson has a new and neat newspaper that he is having issued at High Landing. He was going to try and publish land notices in it but found on looking the matter up that paper published at some outside place and issued here did not comply with the requirements of the law which is that the notice be published in the newspaper printed nearest the land.

LESS THAN ONE CENT A Day, will bring the news of the news of the world to your home by subscribeing for the Duluth Evering Herald, which is sent by mail for 25 cents per mont. The Herald is considered one of the leading papers of the North west, prints on an avrage of more than fourteen pages daily, and the entire Associated Press reports. If you want to keep posted "Read The Herald." Duluth Weekly Herald, $1 per year; six mouthe 50 cents; three months, 25 cents.

EARN FROM $75 TO $150 PER MONTH.

We want at once, young men for Brakemen and Firemen.

Experience unnecessary.

Positions secured as soon as competent. Instruction by mail.

Cut out cupon and send with stamp for full particulars. Give name, age, and post office address, with No. of R.F.D. route.

Northern Railway Correspondence School.

45-s. 4th st.
Minneapolis, Minn.

APPLICATIONS AT LILLO.

If you live in the town of Equality or Johnson you can make your application to make final proof, at Lillo, and have your notice published in the paper published nearest your land.

LAND OFFICE BUSINESS.

U.S. Commissioner L. G. Browning with office located at Thief River Falls, is prepared to take homestead entries final proof etc., within the Crookston U. S Land District.

Office in News building, three doors south of the post office.

Wouldn't Work Nowadays.

The Egyptians had a very remarkable ordinance to prevent persons from borrowing imprudently. An Egyptian was not permitted to borrow without giving to his creditors in pledge the body of his father. It was deemed both an impiety and an infamy not to redeem so sacred a pledge. A person who died without discharging that duty was deprived of the customary honors paid to the dead.

To Die In the Last Ditch.

The phrase "to die in the last ditch" is stated by an English authority in such matters to be an Americanism, originating during the civil war. In fact, it was first used by William, prince of Orange, who during the war with France was asked what he would do in case the troops of Holland were defeated in the field and who replied, "I will die in the last ditch."

Decidedly Friendly.

Ranter—I thought this paper was friendly to me.

Editor—So it is. What's the matter now?

Ranter—I made a speech at the banquet last night, and you didn't print a line of it.

Editor—Well? What further proof did you want of our friendship?

A Rare Case.

Sorroughs—I'm always expecting disaster, but still the unexpected happened to me once. Cheerfule—How was that? Sorroughs—When the calamity came nobody remembered to say, "I told you so."—Houston Chronicle.

The Only Sure Way.

"Say, old man," said the soulful young man, "what's the best way to find out what a woman thinks of you?" "Marry her," replied Peckham promptly.—Catholic Standard and Times.

Our greatest glory is not in never falling, but in rising every time we fall.—Pascal.

Oddly Marked Tombstone.

In an old graveyard in Maine the monument to the founder of a distinguished family is marked with the outline of a human leg. It is formed by black streaks in the granite running through the stone, for at the back there is another leg, but much smaller in dimensions. Nobody saw this blemish when the stone was set up. Not until years had passed did any one notice it. People concluded that the stonecutters, not wishing to go to the expense of quarrying out another block, so hid the leg with cement and stone dust that the actions of the storms of a dozen winters were necessary to expose the strangely formed disfigurement.

Old Time Railway Travel.

Third class passenger coaches in England used to be coupled on next to the engine. The travelers came in for terrible treatment when any accident occurred. At times the engine was driven tender first, in which case frozen hands could be warmed at its smokestack. The passengers were packed, seventy of them, into a truck eighteen feet in length by seven and a half in width. There was no roof and not, as a rule, proper protection at the sides.

Notice for Publication.

First Pub. Nov. 3rd, 1905.

Department of the Interior, Land Office at Crookston Minn. Nov. 1st 1905.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim and that said proof will be made before the Register and receiver of the U.S. Land office at Crookston Minn. on December 5th 1905 viz:

Gulbrand Granum.

Ernest L. Quist.

H.E. No. 371 385 Red Lake Series, for the N. W. ¼ Sec. 10 Tp. 153 N. R 41 W.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:

Lars Brandon, Albert N. Cunningham, Nels Ber, Thomas Tweden, all of Kratka Minn,

R. J. MONTAGUE, Register.

Hints About Screws.

Where screws are driven into soft wood and subjected to considerable strain they are very likely to work loose, and it is often difficult to make them hold. In such cases the use of glue is profitable. Make the glue thick. Immerse a stick about half the size of the screw and put it into the hole. Then put in the screw and drive it home as quickly as possible. When there is an article of furniture to be hastily repaired and no glue is at hand, bore a hole, insert the stick, fill the rest of the cavity with pulverized rosin, then heat the screw sufficiently to melt the rosin as it is driven in. Where screws are driven into wood for temporary purposes they can be more easily removed by dipping them in oil before inserting. When buying screws, notice that the heads are small and well cut, that there are no flaws in the body or thread part and that they have gimlet points. A screw of good make will drive as easily into oak as others into pine and will endure having twice the force brought against it.

Pushing the Old Folks Aside.

When the babies are cross and a man would like a quiet retreat there is none for him. But in a few years, when the children are grown and he is in the way, the daughters and mother put their heads together and originate a den. There is no den for the mother because she gracefully eliminates herself by sitting in the kitchen or running over to a neighbor's. It is her natural disposition to hide in a corner or remove herself entirely, and it is not the natural disposition of the father; hence the den. It has a couch and some pipes and tobacco and the books which the neighbors haven't got around to borrowing as yet, though if father begins a story today the book will be found to be loaned out when he wants to finish it tomorrow. The den is a fashionable way of pushing the old man out. If there is one in your house, Mr. Man, don't be deceived.—Atchison Globe.

A Two Edged Cure.

A story is told of the wonderful cure from deafness of a patient who was recommended to hear a Wagner opera and to sit near the orchestra by the trombones. The physician accompanied his patient and sat beside him. Suddenly, while the crash of the instruments was at its loudest, the deaf man found he could hear. "Doctor," he almost shrieked, "I can hear!" The doctor gave no sign that he noticed the remark. "I tell you, doctor," repeated the patient in ecstasy, "you have saved me! I have recovered my hearing." Still the physician was silent. He had become deaf himself.—Harper's Weekly.

Hamlet at Singapore.

I saw "Hamlet" played and adapted for Malays at Singapore. It was sung instead of spoken, and mostly to English tunes. Hamlet addressed the ghost to the tune of "Her Golden Hair" and killed Polonius to "Listen to the Band." Polonius addressed his son to "That's English, You Know." and, with the king and queen, sang "Mary Was a Housemaid" to other words. The ghost scene included three ghosts, two clowns and a bottle of whisky

Marital Persiflage.

"I must confess," remarked Mrs. Crabbe, "I don't believe there ever was a really perfect man." "Well," replied Mr. Crabbe, "Adam would have been perfect, I suppose, if Eve had only been made first." "How do you mean?" "Well, she would have bossed the job of making Adam."—Philadelphia Press.

The Thing to Do.

Johnson—He said I was an addle pated jackass. What do you advise me to do about it? Jackson—See a good veterinary.—Leslie's Weekly.

Something Lacking.

"I can shave myself as well as any barber."

"Ah, but you can't talk to yourself while you're doing it!"

Nothing raises the price of a blessing like its removal.—Moore.

[illegible] formerly meant [illegible]

The Early Use of Skates.

Holland is said to be the home and birthplace of skating, and without doubt skating was first practiced there and in the far north. In a country of lakes and canals the necessity of walking and running on ice must have been felt from the earliest days. In Holland they show the bone skates which were found in one of the mounds of which a Friesland village was built. The skates were fastened to the feet by straps passed through holes which were made in the bones. A Danish historian mentions the sport in 1134. The bone skates were also used in England. A writer in his account of the amusements of the young people of London in the twelfth century mentions the fact that it was usual for them to fasten the leg bones of animals under the soles of their feet by tying them around their ankles; then, taking a pole shod with iron, they pushed themselves forward with great rapidity by striking this pole into the ice.

Aunt Chloe and the Dinner.

Mrs. McJarvis had invited a number of friends to dinner, but the cook left her on the morning of the appointed day without a moment's notice, says the Chicago Tribune.

In this emergency she hunted up an old friend of the family, Aunt Chloe, wife of Uncle Ephraim, and asked her to take the cook's place.

"I'll cook de dinnah, missis," said Aunt Chloe, "if you'll give me wot's left."

Mrs. McJarvis agreed, and within a few hours the dinner was well under way.

Later in the day she visited the kitchen.

"Why, Aunt Chloe," she said, "I have only five persons to entertain, and you are cooking everything there is in the house! What is that?"

"I want to make sho', missis," said auntie, "dat dere'll be sum'n lef'."

London's First Omnibus.

The first London omnibus was really much more gorgeous than its successor of today. It was an imposing vehicle, beautifully decorated and painted, with accommodation for twenty-two passengers inside, and was drawn by three handsome bays, driven by a smart coachman in livery, and its conductor was gay in a blue cloth uniform, like a midshipman. This conductor, by the way, was the son of a naval captain and spoke French so well that it was quite common for the poke bonneted young ladies from Paddington to ride as far as the city and back with the object of improving their French by chatting with him. The fare from the Yorkshire Stingo, at Paddington, to the Bank was a shilling; halfway, sixpence, and newspapers and books were provided for the passengers.—London Globe.

Two Repulsive Pictures.

In the atelier of Adolph William Bouguereau, the great French painter, there hung two terrible pictures. One represented a man dying in the desert, with the frightful form of the angel of death descending upon him. The other depicted Dante and Virgil in hell watching one victim madly gnawing at the throat of another. The two pictures failed because of their horror. "If I had stuck to such subjects as those," the artist used to say, "I should have starved long ago." He found a market for the beautiful.

Painful.

"What does Bifkins remind you of?"

"I hate to tell."

"Because it's a reflection on Bifkins?"

"No; on me."

"I don't understand."

"Well, I'll explain. Every time I see Bifkins he reminds me of a little bill I've owed him for over a year."—London Tit-Bits.

Solitude and the Crowd.

It is easy in the world to live after the world's opinion, it is easy in solitude to live after our own, but the great man is he who in the midst of the crowd keeps with perfect sweetness the independence of solitude.—Ralph Waldo Emerson.

It Would.

"But why won't your husband let us look up the coat of arms of his family?"

"Paw sez a coat of arms would look funny fer a man that made his fortune in his shirt sleeves."—Houston Post.

Absolutely Effective.

Jack Younghusband—I'm only going down to the club, dear, so don't wait up for me if I'm late!

The Little Wife (sweetly)—No, darling. I'll come and fetch you!

Cynical.

"Which do you think counts for the most in life, money or brains?"

"Well," answered Miss Cayenne, "I see so many people who manage to get on with so little of either that I am beginning to lose my respect for both."—Washington Star.

Setting Him Right.

"You think a good deal of your husband, don't you?" asked the visiting relative.

"You have the wrong preposition," answered Mr. Meekton's wife, with the cold tones of the superior woman. "I think for him."

The Backbone.

When asked by her teacher to describe the backbone a Norborne schoolgirl said, "The backbone is something that holds up the head and ribs and keeps one from having legs clear up to the neck."—Norborne Leader.

The coldest inhabited country is Werchojansk, in eastern Siberia. The daily mean temperature of the entire year is 2.74 degrees below zero.

Position In Sleep.

According to Dr. Fischer of Berlin, the most effective position of sleep for obtaining intellectual rest is to keep the head low and the feet slightly elevated. Failing this, the body should at any rate be horizontal, so as to irrigate the brain well. The habit of sleeping with head low and feet high is, according to the doctor, a remedy for brain troubles and some internal maladies. It can be adopted gradually.

Oyster Stuffing.

A delicious oyster stuffing is made by taking two scant teacupfuls of stale breadcrumbs, one-half pint of oysters drained and cut in half. Season with salt, pepper, celery salt, one tablespoonful of butter, one-half teaspoonful of sweet cream to moisten the crumbs and one well beaten egg. Mix and fill the fowl or chicken. Garnish the bird before carving with fried oysters and parsley.

Veils In Church.

During the tenth cen[illegible] no woman was allowed to appear at ch[illegible] without a veil. It had to be a r[illegible] veil, too, covering and concealing the features in order that the prayers and meditations of the men might not be disturbed by the contemplation of [illegible] loveliness. There was a tr[illegible] that the origin of the custom was in an order from a great French saint [illegible] when a young man he met a little girl with features so noble and beautiful that, although he was many years her senior, he immediately fell in love with her because she resembled a young lady to whom he had been engaged years before, but who died in his arms. The man and the child separated, and he became a priest. Many years later he saw her in the congregation just as he was entering the pulpit to preach, and the sight disturbed him to such an extent that his sermon was a failure, and he ordered all the women thenceforth to wear veils.

DEFECTIVE PAGE

PARALYSIS CURED

Case Seemed Hopeless but Yielded to Dr. Williams' Pink Pills.

Mr. Kenney has actually escaped from the paralytic's fate to which he seemed a short time ago hopelessly doomed. The surprising report has been fully verified and some important details secured in a personal interview with the recent sufferer.

"The doctor," said Mr. Kenney, "told me that if I wanted to live any length of time I would have to give up work altogether, and he told my friends that the paralysis which had begun would in time involve my whole body."

"Just how were you afflicted at this time?" Mr. Kenney was asked.

"Well, I had first hot, and then cold and clammy feelings, and at times my body felt as if needles were being stuck into it. These sensations were followed by terrible pains, and again I would have no feeling at all, but a numbness would come over me, and I would not be able to move. The most agonizing tortures came from headaches and a pain in the spine.

"Night after night I could not get my natural sleep and my system was wrecked by the strain of torturing pains and the effect of the opiates I was forced to take to induce sleep. As I look back on the terrible suffering I endured during this period I often wonder how I retained my reason through it all.

"But relief came quickly when I was induced to try Dr. Williams' Pink Pills for Pale People. The very first box seemed to help me, and seven boxes made me entirely well. There can be no doubt about the thoroughness of my cure, for I have worked steadily ever since and that is nearly four years."

Mr. Kenney is at present employed by the Merrimac Hat Company and resides at 101 Aubin street, Amesbury, Mass. The remedy which he used with such satisfactory results, is sold by all druggists, or direct by the Dr. Williams Medicine Company, Schenectady, N Y.

Lester—We fell out.—N. Y. Times.

FUNNY

People Will Drink Coffee When It "Does Such Things."

"I began to use Postum because the old kind of coffee had so poisoned my whole system that I was on the point of breaking down, and the doctor warned me that I must quit it.

My chief ailment was nervousness and heart trouble.

Any unexpected noise would cause me the most painful palpitation, make me faint and weak.

I had heard of Postum and began to drink it when I left off the old coffee. It began to help me just as soon as the old effects of the other kind of coffee passed away. It did not stimulate me for awhile, and then leave me weak and nervous as coffee used to do. Instead of that it built up my strength and supplied a constant vigor to my system which I can always rely on. It enables me to do the biggest kind of a day's work without getting tired. All the heart trouble, etc., has passed away.

"I give it freely to all my children, from the youngest to the oldest, and it keeps them all healthy and hearty." Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Read the little book, "The Road to Wellville," in pkgs.

THE HALF-BACK AUCTION.

Honor of Alma Mater at Stake Prompts Bid That Gets the Player.

"What am I offered for this prime New England half-back?" asked the auctioneer briskly of the assembled managers and alumni, relates Puck. "Fresh from his prep. school! A fine line-bucker! Follows his interference like a leech! Weight, 170 stripped! Come, now!"

"Free tuition during his whole college course," cried the manager of the Yalevard eleven.

"Free tuition," repeated the auctioneer, "during his whole college course. Do I hear free board? Remember, gentlemen, he has a record of 60 touchdowns in one season. Do I hear it?"

"Free tuition and board for four years," shouted the Princylvania manager, "and we'll toss in the college agency for Doper's cigarettes."

The auctioneer waved his gavel in preparation for the final bang.

"Tuition, board and an agency," he shouted. "Do I hear free clothes? Remember, half-backs are scarce. This one is guaranteed for four full years and a postgraduate course. Going at tuition, board and an agency! Going—I am astonished—going—go—"

There was a rustle in the throng. A breathless man burst through.

"Free tuition, board, an agency," cried the newcomer, "free clothes, rent free in Vandergould hall, free text books, free trip to—"

"Gone!" shrieked the auctioneer. "He's yours. What name?"

"Manager Hale university. Last June by graduation we lost our whole back field and six of the linemen. The honor of our alma mater is at stake."

"Report for practice," he said to his purchase, "next Saturday morning in the gym lot."

YOU HAVE NO RIGHT

To Suffer from Constipation, Bowel and Stomach Trouble.

Q. What is the beginning of sickness?

A. Constipation.

Q. What is Constipation?

A. Failure of the bowels to carry off the waste matter which lies in the alimentary canal where it decays and poisons the entire system. Eventually the results are death under the name of some other disease. Note the deaths from typhoid fever and appendicitis, stomach and bowel trouble at the present time.

Q. What causes Constipation?

A. Neglect to respond to the call of Nature promptly. Lack of exercise. Excessive brain work. Mental emotion and improper diet.

Q. What are the results of neglected Constipation?

A. Constipation causes more suffering than any other disease. It causes rheumatism, colds, fevers, stomach, bowel, kidney, lung and heart troubles, etc. It is the one disease that starts all others. Indigestion, dyspepsia, diarrhea, loss of sleep and strength are its symptoms—piles, appendicitis, and fistula, are caused by Constipation. Its consequences are known to all physicians, but few sufferers realize their condition until it is too late. Women become confirmed invalids as a result of Constipation.

Q. Do physicians recognize this?

A. Yes. The first question your doctor ask you is "are you constipated?" That is the secret.

Q. Can it be cured?

A. Yes, with proper treatment. The common error is to resort to physics, such as pills, salts, mineral water, castor oil, injections, etc., every one of which is injurious. They weaken and increase the malady. You know this by your own experience.

Q. What then should be done to cure it?

A. Get a bottle of Mull's Grape Tonic at once. Mull's Grape Tonic will positively cure Constipation and Stomach trouble in the shortest space of time. No other remedy has been known to cure Constipation positively and permanently.

Q. What is Mull's Grape Tonic?

A. It is a Compound containing 40 per cent of the juice of Concord grapes. It exerts a strengthening, healing influence upon the intestines, so that they can do their work unaided. The process is gradual but sure. It is not a physic. It is unlike anything else you have ever used, but it cures Constipation, dysentery, stomach and bowel trouble. Having a rich, fruity grape flavor, it is pleasant to take. As a tonic it is unequaled, insuring the system against diseases. It strengthens and builds up waste tissue.

Q. Where can Mull's Grape Tonic be had?

A. Your druggist sells it. The dollar bottle contains nearly three times the 50-cent size.

Good for ailing children and nursing mothers. A Free Bottle to all who have never used it, because we know it will cure you.

124 FREE BOTTLE 11405

Send this coupon with your name and address and druggist's name, for a free bottle of Mull's Grape Tonic for Stomach and Bowels to

Poor Imitation.

Arrested for larceny, the cashier of a St. Louis restaurant claimed absent-mindedness in exculpation. He said that one morning while he was reading about the delicta of life insurance officials he unconsciously abstracted seven dollars from the till. The judge asked him why he did not take the entire contents.—Boston Budget.

She Thought of Him.

She—Oh, Mr. Borem, how do you do? I was talking to Mrs. Nexdore just now, and I couldn't help thinking of you.

He—And was she discussing me?

"Not exactly. She was commenting on the weather, and just asked me if I could imagine anything more tiresome and disagreeable."—Philadelphia Ledger.

Made an Awkward Transposition.

Knicker—So Jones got mixed in his excuses?

Bocker—Yes. He told his wife that he had been up all night with the baby, and his employer that he was detained in the office on business.—Harper's Bazar.

Head.

The man being out of his head, the surgeon proceeded forthwith to saw a hole in his skull.

"To enable him to get back in," whispered the unlearned onlookers, one to another, in awe.—Puck.

The Columbia Pattern.

"Oh, say, did you see that man steal up behind the quarter-back and hit him in the neck with a brick?"

"Yes, I saw him. He's our coach. Ain't he splendid?"—Cleveland Plain Dealer.

"If de world jedged a man by what he starts," said Uncle Eben, "instid o' by what he finishes, every page in de city directory would be full o' great men."—Washington Star.

NEWS OF MINNESOTA.

Sustained.

St. Paul.—Judge Lewis in the district court sustained the demurrers to the complaints in the suits brought by Samuel Berman and Aaron Berman against O. O. Rindal, C. N. Cosgrove and Franklin H. Griggs, to recover $5,000 damages in both cases for an alleged false arrest and imprisonment at the state fair grounds in 1903. The demurrers were based on the ground that here was an improper joinder of parties and cases of action.

The Bermans, who are brothers, claim that they visited the state fair grounds during the fair of 1903 and were arrested by the defendant Rindal, one of the special officers employed on the fair grounds, and imprisoned in the fair grounds jail on a charge of being pickpockets.

Suits based on the same grounds were brought against the state agricultural society but the supreme court held that the society is a part of the state government and cannot be sued. The present suits were then brought against O. O. Rindal, the special officer who made the arrest. C. N. Cosgrove, president of the society whose duty, the complaints allege it was to employ the peace officers on the fair grounds, and Franklin H. Griggs, attorney for the society.

Suicide.

Aitkin.—Dr. W. C. Arons, the bonesetter, convicted of bigamy and grand larceny and sentenced to six years in the penitentiary in Stillwater, committed suicide in his cell, blowing his head completely off with a 44-caliber Colt revolver.

Sheriff C. G. Haugen had just gone down town, leaving the jail in charge of Deputy Sheriff John Erickson, who, it seems was writing at his desk in the sheriff's office, when he heard the door by loud and continuous knocking on the inner door of the jail room. When the officer opened the door the doctor gave him a violent push against the back wall and immediately rushed to the sheriff's desk, and opened it, grasping a 44-caliber Colt revolver, turned upon the deputy, shouting: "Get out of my way," rushed back into his cell, placed the revolver to his head and scattered his brains all over the floor.

Must Pay.

St. Paul.—Attorney General Young says there is no way in which Stevens county can repudiate the bonds held by the state for payment of seed-grain loans. The county commissioners have stated that they do not intend to pay the loans, having been advised by the county attorney that such action is not necessary. The attorney general says the only point that can be raised is the constitutionality of the law under which the loans were made, and it is too late to make that defense, now that the loan has been made and the state has the bonds.

Prolific.

St. Cloud.—Luxemberg, a township in Stearns county, is in no apparent danger of depopulation by race suicide, according to the reports in the hands of the state census bureau. There are in the township 810 people, and as there are only 92 families the average number in each family is 8 79. There is no family with less than five members. One family has 15 members, two have fourteen, one, 13; three have 12; 6 have 11; sixteen have 10; 16 have nine members; twenty-four have 8 members, and twenty-three have 7. The census bureau officials say they have several other townships "nearly as good."

Tied Up.

Duluth.—An order restraining the Great Northern and Northern Pacific roads from moving cars of grain brought to Superior and inspected by the Wisconsin inspectors has been signed and is now in force. The order includes over 700 cars at present. Wisconsin claims that the inspection fees have not been paid and is holding the cars until the money is turned over. The roads are practically tied up as far as the grain movement is concerned.

Royalties.

Duluth.—The revenue to the state from royalties on its iron ore properties this year year gives promise of being a great record breaker. The state received $127,630 41 during the first three-quarters of the year, being on 474,263 tons of ore. The receipts for the third quarter alone amounted to $77,824 54 for 286,587 tons of ore. During the same quarter last year 181,663 tons were produced, and the state got $48,020.31.

News Notes.

St. Paul.—Frank Ryan, 3½ years old, is scalded severely by drinking from a tea kettle spout.

St. Paul—Three more timber suits have been started by Attorney General Young, on cases referred to in the reports of S. T. Johnson, former public examiner.

Mankato—The Northwestern Telephone Exchange company is constructing a farmers' line from here to Eagle Lake. Some twenty-five farmers have subscribed.

Ada—In the football game here Ada won from Grand Forks by a score of 22 to 0.

St. Paul—Miss Eleanor Adams, the young lady who was found unconscious at Cypress and Seventh streets, landed in the city hospital after a three hours' ride in the police ambulance. The woman suffered an attack of elipepsy.

Thief River Falls—Within twenty days a thoroughly equipped railroad 300 miles in length and extending from here to Kenmare, N. D., will be placed in direct communication with Minneapolis.

WANTED SIMPLE TUNES.

Those Classical Things on the Violin Were Too Much for Him.

A Westport fond father made his daughter mad and, incidentally, held up to view his lack of knowledge of violin music. His daughter is a violinist. A visitor was in the library, and the father suggested that his daughter play. She was willing, relates the Kansas City Times.

"Mary's been studying in the east," said her father, "and has just got home. I haven't heard her play much myself yet."

The girl's mother went to the piano in the next room, and the girl got her violin. For three or four minutes twanging from the two instruments was heard. Then there was a halt. It was there that the fond father made his mistake.

"Now play something simple, Mary," he said. "That was nice, but it's too classical for me."

The girl glanced through the door. Her face wore a look of disgust.

"I've been tuning, father," she said.

A Teacher's Testimony.

Hinton, Ky., Oct. 30th (Special).—It has long been claimed that Diabetes is incurable, but Mr. E. J. Thompson, teacher in the Hinton school, has pleasing evidence to the contrary. Mr. Thompson had Diabetes. He took Dodd's Kidney Pills and is cured. In a statement he makes regarding his cure Mr. Thompson says:

"I was troubled with my kidneys for more than two years, and was treated by two of the best doctors in this part of the state. They claimed I had Diabetes and there was little to be done for me. Then I started to use Dodd's Kidney Pills, and what they did for me was wonderful. It is entirely owing to Dodd's Kidney Pills that I am now enjoying good health."

Many doctors still maintain that Diabetes is incurable. But Diabetes is a kidney disease, and the kidney disease that Dodd's Kidney Pills will not cure has yet to be discovered.

"Keep your eyes wide open on the life-road," says a Billville philosopher, "but be sure that the fellow ahead of you don't blind you with the dust."—Atlanta Constitution.

WILD WITH ECZEMA

And Other Itching, Burning, Scaly Eruptions, with Loss of Hair—Speedily Cured by Cuticura.

Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales and soften the thickened cuticle; dry, without hard rubbing, and apply Cuticura Ointment freely, to allay itching, irritation and inflammation, and soothe and heal; and, lastly, take Cuticura Resolvent Pills to cool and cleanse the blood. A single set, costing but $1.00, is often sufficient to cure the most torturing, disfiguring skin, scalp and blood humors, with loss of hair, when all else fails.

Overexercise is ruining homes; underexercise is ruining digestions.—Brooklyn Eagle.

Go East via the Nickel Plate Road.

Lowest rates via the Nickel Plate Road and its eastern connections to all points in Eastern and New England States. Three elegant through trains daily to Cleveland, Buffalo, New York and Boston. Meals served in Dining Cars on the Individual Club Plan, at prices ranging from 35 cents to $1.00. Also service a la carte. Luxurious Sleeping Cars on all trains. No excess fare charged on any train on the Nickel Plate Road, and service as good as the best. For full information regarding rates, connections, sleeping car reservations, etc., address J. Y. Calahan, General Agent, 113 Adams St., Chicago, Ill.

If a man is well drilled, it augurs that he won't be bored.—Los Angeles Herald.

Omaha, Neb., Oct. 16.—It is reported from Casper, Wyo., that sales of town lots for the new town of Shoshone, located on the edge of the Wind River Reservation on the new line of The Chicago & North-Western Railway across the state from Casper, have been unprecedented.

Bidding for town lots runs high, and a large number have been disposed of within a short time. Buyers evidently figure on the growth of the city here when the Indian reservation is thrown open to settlement next June.

It takes more than a white tie to cover a black heart.—Chicago Tribune.

Do not believe Piso's Cure for Consumption has an equal for coughs and colds.—J. F. Boyer, Trinity Springs, Ind., Feb. 15, 1900.

Don't try to add to your stature by standing on your dignity.

SUFFERINGS UNTOLD.

A Kansas City Woman's Terrible Experience With Kidney Sickness.

Mrs. Mary Cogin, 20th St. and Cleveland Ave., Kansas City, Mo., says: "For years I was run down, weak, lame and sore. The kidney secretions were too frequent. Then dropsy puffed up my ankles until they were a sight to behold. Doctors gave me up, but I began using Doan's Kidney Pills, and the remedy cured me so that I have been well ever since, and have had a fine baby, the first in five that was not prematurely born."

Yours for Health
Lydia E. Pinkham

THE DISCOVERER

Of Lydia E. Pinkham's Vegetable Compound, the Great Woman's Remedy for Woman's Ills.

No other female medicine in the world has received such widespread and unqualified endorsement.

No other medicine has such a record of cures of female troubles or such hosts of grateful friends as has

Lydia E. Pinkham's Vegetable Compound.

It will entirely cure the worst forms of Female Complaints, all Ovarian Troubles, Inflammation and Ulceration, Falling and Displacement of the Womb, and consequent Spinal Weakness, and is peculiarly adapted to the Change of Life.

It has cured more cases of Backache and Leucorrhœa than any other remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels tumors from the Uterus in an early stage of development.

Irregular, Suppressed or Painful Menstruation, Weakness of the Stomach, Indigestion, Bloating, Flooding, Nervous Prostration, Headache, General Debility quickly yield to it. Womb troubles, causing pain, weight and backache, instantly relieved and permanently cured by its use. Under all circumstances it invigorates the female system, and is as harmless as water.

It quickly removes that Bearing-down Feeling, extreme lassitude, "don't care" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, Dizziness, Faintness, sleeplessness, flatulency, melancholy or the "blues" and headache. These are sure indications of Female Weakness, or some derangement of the Uterus, which this medicine always cures. Kidney Complaints and Backache, of either sex, the Vegetable Compound always cures.

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Sold by Druggists everywhere. Refuse all substitutes.

HOME AND FOREIGN ITEMS

Information Gathered from All Quarters of the Civilized World and Prepared for the Perusal of the Busy Man.

UPRISING IN RUSSIA.

Emperor Nicholas issued a manifesto giving to the Russian people civil liberty, the inviolability of person, freedom of conscience, speech and assembly, extended suffrage and a representative law-making body. To carry out these reforms Count Witte was named as premier-president. Disorders continue throughout the empire, but in St. Petersburg and Moscow there are signs of a weakening of the strike.

Anarchy in Odessa was checked by a proclamation of martial law, after 5,000 persons had been shot down. The revolt in Finland and violence in Warsaw continues. St. Petersburg workmen agreed to declare off the strike, after receiving a pledge that freedom of the press and amnesty to political prisoners will be proclaimed at once.

Massacre and pillage prevail in Odessa, Kishineff, Kieff and other cities of southern Russia, the loss of life being enormous. Order has been restored in St. Petersburg, where the strike has been raised, the censorship of the press abolished and a ukase granting amnesty to 15,000 political prisoners signed.

Arbitrary rule in Finland is ended. St. Petersburg ordered the governor general to reassemble the diet and restore constitutional government, checking a general strike which had been started.

Constantine Petrivitch Pobiednostseff, chief procurator of the Russian holy synod, has resigned.

Grave disorders, in which, it is reported, more than 40 persons were injured, occurred in Vienna as the result of a great socialist meeting in behalf of universal suffrage.

Effects of the Russian revolution are felt in Chicago, where banks and express companies accept remittances for the czar's domain only at sender's risk.

Grand Duke Michaelovitch, last of the czar's powerful officers, has been dismissed.

MISCELLANEOUS.

The Boston suit case mystery was further cleared up when one of two men arrested in New York made a confession, in which he says he and his companion disposed of the body by throwing it into the harbor. The police believe that Susan Geary died at a lying-in hospital.

Dr. Percy McLeod, of Boston, has been arrested in connection with the suit case mystery. He is held on the charge that he was the person who dismembered the body of Susanna Geary.

Fire at Hastings, Neb., destroyed a large department store building owned by ex-Senator Dietrich. The Stein company is the heaviest loser, $50,000. Several other buildings and stocks were damaged, the total being about $100,000.

Bradstreet's weekly report is most optimistic and predicts an exceptionally active winter's trade.

France is preparing a naval demonstration against Venezuela to enforce a settlement by Castro of French claims.

After a lively discussion in the cabinet President Roosevelt conceded the right of members to give out news regarding their departments.

Ohio officers claim to have positive proof that the fraternity candidate killed by a train was tied to the track as part of his initiation.

Prince Louis was given a reception by the president and Mrs. Roosevelt at the white house and later attended a dinner at the British embassy in Washington.

The fetes at the opening of the new harbor at Genoa, Italy, had a tragic ending when a cutter was run down by a mailship and three of the officers killed.

Land frauds were disclosed in Minnesota by a suit brought by the government to regain possession of valuable tracts.

The New York coroner, following an autopsy, says that Mrs. Todd, who was found dead beside the Reading tracks, near Philadelphia could not have been killed by a train.

Canadian publishing houses are importing many printers from England to work in place of strikers.

Saloons in Minneapolis must close on Sunday, according to a drastic order issued by Mayor David P. Jones, following a strenuous reform campaign.

Saloon passengers on transatlantic liners in the future will be inspected by federal doctors, like steerage travelers.

A son of William Waldorf Astor was forced to pay alien tax before being permitted to land in New York from England.

Chief of Police Collins, of Chicago, declares all nude statues on public view should be draped in the interest of morals.

The legislative committee intends to end the New York insurance investigation by January 1 and report to the legislature not later than February 1.

Arthur Foster Bowers, formerly city editor of the Tribune, died from paralysis at his home in New York city.

Dan Patch equaled the world's pacing record at Memphis, Tenn., going the mile in 1:59¼, equaling Star Pointer's time.

The contest for the typewriting championship of the United States was held in Madison Square garden, New York. There were 19 contestants. The winner of the first prize of $100 was Paul Munter, of New York, who wrote 2,000 words in 30 minutes.

Grant Williams (colored), who murdered James Dolan, and an unknown man in October, 1901, was hanged at South McAlister, I. T. Williams was so weak from tuberculosis that it was necessary to carry him to the scaffold.

A locomotive on the Houston & Texas Central railroad exploded near Ennis, Tex., killing two persons and fatally injuring a third.

The whaling steamer William Baylies, one of the vessels which escaped the grip of the Arctic ice, arrived in San Francisco with over 30,000 pounds of whalebone and the oil from 16 whales. The value of her cargo is estimated at $150,000.

Robbers wrecked the vault and safe of the Bank of Creighton, at Creighton, Mo., and escaped with $4,000.

Louis Theodore Levy, a distinguished French architect, with offices in New York, either fell or jumped from a window of a flat in San Francisco, and was crushed to death on the cement sidewalk, 40 feet below.

Ohio authorities found bloody ropes, cotton and chloroform rags near the spot where Stuart Pierson was killed by a train while being initiated into a Kenyon college fraternity. A murder charge will be made.

Secretary Wilson, of the department of agriculture, issued an order prohibiting acceptance of positions with private companies by government employes.

Celery for the holiday trade froze at Kalamazoo, inflicting damage to the extent of $10,000.

The American Breeders' association will hold its second annual meeting at Lincoln, Neb., on January 17, 18 and 19.

The United States will demand reparation from China for the murder of five American missionaries.

A committee representing the letter carriers of the United States waited on Postmaster Cortelyou and presented a memorial urging better pay for carriers. The postmaster general told the committee that he would give the memorial his fullest consideration.

A thousand retail druggists organized a syndicate in New York, with $200,000 capital, to manufacture certain drugs and to make purchases for members.

Senators Cullom and Dolliver will introduce the administration rate regulation bill in the United States senate early in the session and the fight will be waged first in the upper house of congress.

Homer Joslyn, 28 years of age, and Caitano Valente, 30 years old, miners employed in the gypsum mines at Oakfield, N. Y., were instantly killed by a cave-in.

Edward Brieske, aged 16 years, was killed by the accidental discharge of his shotgun while hunting ducks on Black river, at New Amsterdam, Wis.

Mistaken for a bear, John McAlister was shot and killed at Maple Ridge, Mich., by William Bridges, his brother-in-law.

Frank Aller, aged 18, who killed his father with a rolling pin during a fight in their home at Alton, Ill., was exonerated by a coroner's jury with a verdict of justifiable homicide.

It is stated on good authority that Emperor Francis Joseph has decided to grant universal suffrage in Austria.

The girls' dormitory of the South Kentucky college at Hopkinsville, Ky., was destroyed by fire. The loss is $30,000.

The president has issued his proclamation naming Thursday, November 30 next as a day of thanksgiving.

At Somerville, O., there was unveiled a monument to Gen. Phil Sheridan, the federal cavalry leader who turned defeat into victory by his famous and historic horseback ride from Winchester on October 19, 1864.

Mrs. Della George, probably the oldest resident in the state, is dead at Lancaster, N. Y., at the age of 108. Her husband served in the war of 1812.

The Sandborn bank, a branch of the German national bank, of Vincennes, Ind., was blown to pieces and robbed of $5,000. Included in what the robbers carried off was $2,000 in silver.

Mrs. John T. McNann was instantly killed and her husband perhaps fatally injured at Lead, S. D., in a runaway.

The Ludington (Mich.) post office was entered by burglars, who secured $700. The safe was wrecked by dynamite.

Hon. L. T. Neal died at Chillicothe, O., of acute Bright's disease. He was prominent in state democratic politics, being a candidate for governor at the late state convention.

A statement by T. Lee Clark, cashier of the defunct Allegheny bank, written a few hours before his suicide, charges W. H. Andrews with causing his ruin.

Dr. C. H. French, president of Huron (S. D.) college, announced that Ralph Voorhees, of New Jersey had given the college $100,000.

The corn crop in the southwestern portions of the belt is badly damaged by heavy rains, wet weather causing mold and decay.

Mrs. Henry T. Evans, wife of a director in the National Biscuit company, committed suicide in Chicago by hanging.

The boom of Speaker Cannon for the presidency was launched by Senator Hopkins at a Hoopeston (Ill.) banquet.

New treaty with China designed to end the hardships and abuses prevalent at present by providing for the examination of prospective immigrants at the port of departure abroad, instead of at the port of arrival, is sought by President Roosevelt, Secretary Metcalf and Commissioner of Immigration Sargent.

Constantine Andrew was crushed to death under a fall of rock in the mine of the Gallatin Coal company near Nashville, Ill.

The old union flag was struck throughout Sweden and the new Swedish ensign was hoisted to accompaniment of salutes, the ringing of church bells and parades of troops.

Five American missionaries have been murdered at Lienchow, China.

John Young, a pioneer of Wisconsin and ex-sheriff of Sauk county, dropped dead while transacting business in Baraboo, Wis.

C. D. Crawford, convicted of having murdered Heine Lundin in a box car at Elk River, Minn., must die December 5. Gov. Johnson fixed that date for the hanging.

An explosion occurred in the primer dry house of the Union Cap & Chemical company at Alton, Ill., causing the death of Foreman Anthone Beechy, who was terribly mangled. The explosion set off 10,000,000 gun and cartridge primers and blew the stone dryhouse to pieces.

Two men were killed and three seriously injured by an explosion in the Potomac electric power house in Washington, D. C.

The Farmers' national bank of Kingfisher, Okla., has been closed by the direction of the comptroller of the currency.

The total assessed valuation of jewelry in Mississippi is only $148,850. The total number of pistols assessed is 10,593, upon which there is placed a valuation of $80,563.60.

Joseph R. Carpenter shot himself in the railway offices of the Rock Island railroad in New York. He was a vice president of the Stickley Brothers' Furniture company, of Grand Rapids, Mich., and the eastern traveling representative for the firm. No reason for the deed is known.

W. O. Chadaeyne, of Buffalo, N. Y., has completed a motor cycle run from New York city to San Francisco in 47 days 23 hours and 50 minutes.

Cholera has broken out in Lodz, Russian Poland. A number of cases are reported in the most populous section of the town.

Gen. Tchertokoff, an aide-de-camp of Emperor Nicholas and formerly governor general of Warsaw, died suddenly in Paris.

President Roosevelt returned to Washington from his visit to the south, thus completing a tour of the entire nation during his term of office.

Charles J. Devlin, the widely known coal mine operator, who recently underwent bankruptcy with liabilities of $5,631,000, died at St. Elizabeth's hospital, Chicago, as the result of a stroke of paralysis.

The monthly statement of the public debt shows that at the close of business October 31, 1905, the debt, less cash in the treasury, amounted to $1,002,646,125, which is an increase for the month of $6,068,116.

James H. A. Brooks, a well-known manufacturer of Philadelphia, was killed, Michael G. Price, a business associate, and the wives of the two men were seriously injured in an automobile accident, near Absecon, N. J.

Rear Admiral Train, commander-in-chief of the American Asiatic squadron, and his son, a lieutenant, were attacked by a mob in China, and the son is held as a hostage, on account of the accidental shooting of a woman.

Thirteen persons were killed and 30 injured in the wreck of the Atchison, Topeka & Santa Fe passenger train, No. 1, which struck a loose rail, ditching five cars, one mile east of Blue River, which is the eastern limits of Kansas City, Mo.

The Norwegian storthing has decided to allow the people to vote on the proposition of calling Charles of Denmark to be king.

Lord Curzon, the retiring viceroy of India, was prostrated by fever as a result of exposure to the sun.

WASHINGTON LETTER

THE PRESIDENT NOT AT A LOSS FOR ADVISERS.

HE OCCASIONALLY REBELS

Mrs. Dewey a Brilliant Woman—Former President of Gridiron Club Who Became a Leader in Salvation Army.

WASHINGTON.—President Roosevelt does not lack for advisers on all subjects of public interest. Despite the fact that the majority of 80,000,000 of people in the United States have unquestioning confidence in Mr. Roosevelt's judgment and honesty of purpose, there are many thousands of self-appointed regulators who are willing to decide questions for him and to furnish him, gratis, with all sorts of information and advice. There have been few presidents who have been more willing to receive information and to listen to suggestions on public issues than Theodore Roosevelt, but at times the offers of advice become somewhat of a bore and the president is often annoyed, although at times considerably amused.

Everybody in the United States who has taken the trouble to read the president's utterances knows exactly where he stands on the question of giving the interstate commerce commission power to fix railway rates in case of disputes. The other day, however, two gentlemen called to pay their respects, and as soon as the introduction was over they began making arguments in favor of exactly the president's position. Mr. Roosevelt listened for a moment, and then nervously said:

"Now, gentlemen, that is all right, but please do not enter into a general argument on this question. If you have any specific suggestions to make I shall be very glad to hear them." The visitors had nothing of that sort to offer, and took their leave.

After they had gone out of the room the president turned to a friend and with a bored look on his countenance, declared: "Now, there are two of the nicest men in the world, I have no doubt, but they wanted to occupy a half hour of my time in convincing me that I am right. I know that I am right, and do not need their arguments to prove that I am."

McLean and the Washington Post.

WASHINGTON is just now on tiptoe of curiosity to learn what John R. McLean, the widely known proprietor of the Cincinnati Enquirer proposes to do with the Washington Post, which he has recently added to his newspaper properties. Mr. McLean now controls the Post, which was made a journal of national repute by the late Frank Hatton, whose policies were continued unchanged and brought to a high degree of success by Mr. Scott C. Bone, who become editor-in-chief as well as manager of the paper after Hatton's death. The property was owned by Beriah Wilkins, a former Ohio congressman and partner of Hatton, but Mr. Bone was the controlling force in making the Post one of the most widely quoted and influential journals in the country. Public men of all degrees sought the commendation of this newspaper.

Mr. McLean, during Wilkins' lifetime, acquired a small interest in the Post, and recently was able to purchase a half interest from Wilkins' heirs, so that with what he held before, he now controls the paper. He is one of the wealthiest men in Washington, having inherited the Cincinnati newspaper property from his father, which in itself is a mint, and virtually owning the Washington Gas company, which enjoys a monopoly of the gas lighting in this city. These two magnificent properties give him more money than he knows what to do with, so people are wondering what he wants with the Washington Post. They are inclined to believe that he has taken it as a new toy, and in his old age will have it to amuse himself with. Others are uncharitable enough to believe that he wants a personal organ in the national capital with which to further a great political ambition he is known to entertain at times.

Mr. McLean has dismissed the successful editor, Mr. Bone, and has assumed personal direction of his newspaper property. He says he proposes to show the young fellows that he is still a newspaper man, and he stays in the newspaper office as late as 12 and one o'clock each night, looking over proofs and directing the make-up of the sheet.

Some Capitol Gossip.

MR. M'LEAN is a man of social tastes and ambitions, and is regarded as one of the most companionable men and genial hosts in society here. His immense wealth gives him full opportunity to gratify every social wish so far as money can bring that gratification. He occupies an old-fashioned brick house within two squares of the white house, which was once the home of Secretary Fish, under the first Grant administration. He has enlarged it until, despite its rambling appearance, it affords facilities for splendid social entertainments. In the suburbs of the city he has a splendid country place of baronial magnificence, including a deer park, and it is there that some of the swellest functions in Washington society are held.

Baron Rosen, the new Russian ambassador, and Baroness Rosen were made the guests of Mrs. McLean as soon as they arrived in Washington, and they are entering Washington life under the wing of the wife of this wealthy American. This connection, it is presumed, will give the McLeans quite a social footing in the diplomatic corps, the goal to which all social ambitions in the fashionable set in Washington tend.

The McLeans came into considerable prominence in Washington when Admiral Dewey returned from his achievements in the orient to marry Mrs. Hazen, a sister of John R. McLean. This marriage with the most brilliant naval hero of modern times of course gave a wide reputation to the family. Mrs. Dewey is an exceedingly brilliant woman, of extraordinary intellectual gifts and she and her sailor husband have taken a high place in the social circles at the capital. It is one of the gossipy stories of society here that the hand of Mrs. Dewey was sought by an army officer as well as by Admiral Dewey, then but a commodore. This army officer was none other than Maj. Gen. Corbin, then adjutant general. Dewey's performance at Manila settled the matter, and Mrs. Hazen became Mrs. Admiral Dewey.

Administered by Newspaper Men.

THE affairs of the District of Columbia are administered by two newspaper men. These are Mr. Commissioner Macfarland and Mr. Commissioner West. There is another commissioner, but he is an army officer, and has to do with the engineering department of the district government, a place where technical knowledge is needed. West and Macfarland were at one time two of the best known Washington writers and correspondents. Macfarland was first selected by the late President McKinley and is now pretty well on in his second term of office. Mr. West was appointed by Roosevelt, and has just received a reappointment. So that the government by newspaper men continues.

These two men are both ex-presidents of the famous Gridiron club of Washington, probably the most noted dining organization in the world. Mr. Macfarland was president of this club some years ago, but being of an intensely religious temperament, he became impressed with the idea that it was incompatible with a full devotion to religious work to retain his membership in a dining club whose sole object was entertainment and fun. So he resigned, and soon after became a leader in the Salvation Army. He keeps up his religious work, being an ardent supporter of the Salvation Army and at the same time an elder in the Church of the Covenant, a Presbyterian church that is jocularly known as the "Church of the Government," because of the large number of government officials who worship within its walls.

Mr. West still retains his membership in the Gridiron club, and is prouder of it than he is of the position of commissioner of the District of Columbia, which entitles him to write "Hon." before his name. Mr. West is a democrat, as one of the commissioners must be of the minority party. He is one of the "safe and sane" democrats, and in the administration of affairs in the District has little or no occasion to think what his politics are.

The Navy Short of Men.

If the United States should go to war to-day there would not be half enough officers and men to handle the ships of the navy. Within a year ten fine, large ships will go into commission, carrying crews aggregating 7,000 men. They can only be manned by laying up vessels now in service, some of them very efficient craft which should be kept in commission. The discrepancy between material and personnel in the navy is daily growing greater.

Lineage.

Mrs. Oldblood—Do you go back to William the Conqueror?

Mrs. Newblood—No, but our boy is a quarterback.—N. Y. Sun.

BADGERS WHIP THE GOPHERS

IN THE ANNUAL GAME OF FOOTBALL ON NORTHUP FIELD IN MINNEAPOLIS.

More than 25,000 People Witness One of the Hardest Fought Contests ever Seen on Field. Wisconsin Won by 16 to 12.

Minneapolis, Nov. 6.—Wisconsin Saturday got the chance she has been waiting for during the past three years, and succeeded in regaining her lost prestige by defeating Minnesota at Northrop field in a game that will go down in football history. With the possible exception of the Minnesota-Michigan game of 1903, it was the fiercest battle ever played by a Minnesota eleven. Score—Wisconsin 16, Minnesota 12.

Taken all in all, Wisconsin narrowly outplayed Minnesota in all departments of the game, but the Minnesota spurts at times were wonderful. Neither team had the advantage all the way through. At first it seemed all Minnesota, and then Wisconsin seemed to have the call, while the men played like demons all the time.

Minnesota made the first touchdown after about two minutes play on football, aided by a Wisconsin fumble. The ball was steadily advanced down the field by Brush, Current and Ittner. With the ball on Wisconsin's thirty-six-yard line, Minnesota was penalized for offside, and Welsel punted to the Wisconsin team several times and seeming helpless, absolutely refused to obey Coach King's commands and pushed Clark back after he had gone out to relieve him. Minnesota, too, was plucky and game throughout, but had more time taken out and finished the game with three substitutes in the line. Wisconsin clearly out-punted Minnesota, but Larkin did some good work after he went in.

The Minnesota offense seemed irresistible at times, but the Wisconsin line always rallied at the right time, when Minnesota did not lose the ball on fumbles. Larkin was especially to blame in this respect. He was too anxious to the ball, and would start to run before the ball had landed, causing a fumble about half of the time. Minnesota should have tried more end runs and more kick plays.

The game was remarkably free from slugging and rough tactics of all kinds. Wisconsin and Minnesota both played as clean a game as was ever seen on the ground.

STRANGER SHOOTS BOY.

Child Was Driving Cattle Home When An Uuknown Man Fired On Him.

St. Cloud, Minn., Nov. 6.—A posse of angry Stearns county farmers is scouring the northern part of the county in search of an unknown stranger who without any apparent excuse shot the 7-year-old son of Mr. and Mrs. Frank Yurzek while the child was driving his father's cows home from the pasture. Frank, Jr. is receiving treatment in St. Raphael's hospital in this city.

The charge of shot entered the side of his head and face and if the boy survives he will blind in one eye and perhaps both.

The shooting occurred about 5 in the afternoon. The boy was in the pasture alone and was driving the cows when he noticed a strange man come out of the brush with a shotgun on his arm. Almost instantly the stranger raised the gun and fired.

MURDER MOST FOUL.

Mysterious Tragedy in Minneapolis is Most Sensational and Puzzling.

Minneapolis, Nov. 4—An unidentified man entered the home of James Brennan at 1:35 this morning and shot and killed two of the children and shot and seriously wounded two other children and Mrs. Brennan. The injured were taken to the city hospital. Their assailant escaped.

Mr. Brennan is a member of the Salvage corps, and was on duty at the time of the shooting. He was summoned home, and arrived shortly before the wounded were removed to the hospital. The mother and two injured children were in such a serious condition that the police were unable to get any details concerning the murder or the murderer.

Bank is Wrecked.

Ispeming, Mich., Nov. 6.—Four little children are dead, three persons probably fatally hurt and a dozen other people are injured as the result of an explosion here yesterday, which completely destroyed the Miners' National bank.

THE SUNBEAM.

BY W. G. HUNT.

Published every Friday, at Sunbeam, Red Lake County Minnesota.

Subscription price $1.00 per year in advance If not paid in advance $1.50

[illegible] August 30, [illegible] at Sunbeam Minn. [illegible] of Congress of March 3, 1879.

The Special Land Office Agent Layman says, that Minnesota homesteaders have not paid attention to the requirements of U.S.hon estead law. An inceptive right is vested in the settler. He must within six months after making his entry, establish his residence in a house upon the land, and must reside upon and cultivate the land continuously in accordence with law. Occosional visits to the land once in six months or oftener do not constitute a residence. The homestead party must actually iuhabit the land and make it the home of himself and family, as well as improve and cultivate it.-Crookston Journal.

The editor of a Kansas paper states that he picked up a Winchester rifle one day recently and started up the street to deliver the wepon to its owner. The delinquent subscribers got it into their heads that he was on the war path and everyone he met insisted on paying his subscription. One man wiped out a debt of ten year's standing. On his return to hie office he found a load fifteen bushels of corn, ten bushels of potatoes, a load of wood, and a barrel of turnips that had been brought in Will some one please loan us a Winchester for a day or two?—Crookston Press.

As we have heard a goodeal of talk from outside parties, that some of our newspaper brathern down the line are anxious to get rich by starting a new newspaper up here on the reservation, and we advise them to come on up and not loose this opprotunity of a life time to make a fortune, but what makes us smile is that by the time they get their new printing plant in and get a paper established all the 14 month fellows will have made made their final proof and they can sit down and live on what vegetables they can get on subscription for the next five years. So far as we are concerned we will extend the glad hand of welcome to any newspaper man that wants to put in a newspaper up this way, but advise them not to try any job sheet "dodger" games of publishing a paper in town and mailing it at some of the country post offices, for if that game will work there is more than one can play it, as we have enough type laying idle to put in a couple of braches and know right where to get more. If you want to get rich put in a paper up this way, but look out for that "all gone" feeling by the first of next April.

If Norway does not secure a king soon her people will conclude that they have no use for one Information comes from there that republicanism is growing rapidly in the country and the people are likely against the acceptence of a king should one be agreed upon by the storthing or asembly. There will certainly be a strong sentiment in the country in favor of a republican form of goverament, which would would give trouble to a king. The common people of Norway, who have friends an relatives in this country hear such favorable reports of the republican form of government, that they may adopt it in their own country and it will not be a mistake if they do.

Pnblic.

About the House.

Common whiting mixed with ammonia makes excellent silver polish.

Kerosene brightens brass ornaments and keeps them from tarnishing.

Use a knife to break an egg. The contents of the egg are more easily handled.

Hang up the clothes brushes and the whisk-brooms. It needs but a few cents invested in nails and screw eyes.

Lamp wicks are not expensive. It is poor economy to strain the eyes and spend every morning filling lamps when time and eyes can be spared by throwing away the short, blackened wick.

Not For General Circulation.

"Say, pa, when I'm a man won't I have to obey you nor ma any more?"

"No, but you'll have a boss then who will make you wonder why you ever thought we were hard to deal with. You needn't tell your ma, however, that I told you."—Chicago Record-Herald.

Marketing In Paris.

Almost every woman in France does her own marketing, and ladies take their maid or cook along to carry home their purchases.

I am speaking of the average household. Rich or very chic people leave the marketing to the cook, who deals in stores which have regular deliveries, while in very wealthy households that all important personage, the chef, would not hear of any one interfering with his prerogative of selecting and ordering everything, and this able creator of sauces, of things savory, steaming or jellied, may even have his own coupe to take him to the Halles, the huge market that each day provides the provisions for all of Paris and its suburbs.

Servants love to go to market, for it is a custom with almost every storekeeper to give them a cent on every franc spent, so you will find it next to an impossibility to make your cook deal where she does not receive her sou du franc, and in engaging a servant many will ask you, "Does madame do her own marketing?"—Good Housekeeping.

The best brands of flour for sale at the High Landing store.

Applications to make final proof written free at this office.

Walt McAndrees went down to Thief River and St. Hilair on a businees trip Thursday

John Poloni passed by here on his way to Thief River Falls for a load of lumber this morning.

Martain Hyland and Charle A Johnson made a flying business trip to Thief River and return on Thursday.

Miss Mary Galupeau of Thief River Falls is visiting Mrs. A. Eve this week.

There will be a basket social at the residece of Alfred Eve on next Monday evening to raise money for a school librairy. All are envited.

A neighborhood social dance was given at the residence of P. Sullivan on Friday evening last, and an enjoyiable fiew hours were passed in danceing and visiting.

County surveyor J. K. Wood done two days work here this week running out lines for the settlers. Mr. Wood is a rapid and accurate workmen and pushes the work along rapidly.

Mrs. Dan Sullivan gave a social party and dance at her residence on Tuesday evening, which was well attended and a very pleasent evening was passed by all. A dainty luncheon was served at 12 o'clock and the danceing kept up until near morning.

The Horseshoe Legend.

Here is an explanation of the old horseshoe superstition: St. Dunstan was a skilled farrier. One day while at work in his forge the devil entered in disguise and requested Dunstan to shoe his "single hoof." The saint, although he recognized his malign customer, acceded, but caused him so much pain during the operation that Satan begged him to desist. This St. Dunstan did, but only after he had made the evil one promise that neither he nor any of the lesser evil spirits, his servants, would ever molest the inmates of a house where the horseshoe was displayed.

A Servile House of Lords.

When King Henry VIII.'s name was spoken in his presence in the house of lords every peer prostrated himself with Asiatic servility. An entry in the records of the house gives the substance of a speech delivered by the chancellor on Jan. 16, 1541, in which the king's goodness and wisdom are extolled, and it tells us that whenever his majesty was mentioned, "which happened often," all the lords prostrated themselves, bowing to the ground as one man.

Force of the Future.

Cut off the future, and man is the most timid of creatures. The demons and dragons are too terrible for him to face and attack. But spread before him the illimitable future, and he will dare all things, certain of victory at last. Any night, however filled with weeping, can be endured by one who knows that joy is coming in the morning.

The Kaiser's Stirrup Cup.

Here is the recipe, given in the Westminster Gazette, of the kaiser's favorite preparation when he goes out hunting:

White beer, sugar, citron peel, ginger, spices, the yolk of at least a dozen eggs, Rhine wine, Madeira, old Santa Cruz rum. All this after being thoroughly stirred is placed on a fire and slowly heated, several large pats of butter being added to the concoction while it is warm.

No Further Delay.

Abner Slopoak (desperately)—M-may I name the day? Jemima Jones (decisively)—No! Abner Slopoak (in alarm)—Why? Jemima Jones (frankly)—Because, if you put it off as long you did your proposal, we never will be married. I'll name the day myself!—Cleveland Leader.

The word "measles" formerly meant leprosy.

Deacon and Elder.

Morrison—What is the matter, Dumley? You look terribly mystified. Dumley—No wonder. I was talking with Jinkins just now. We were speaking of the Joneses, and he said that the elder was the younger and the deacon the elder. I can't get at the rights of the thing to save me.—Boston Transcript.

LESS THAN ONE CENT A Day, will bring the news of the news of the world to your home by subscribeing for the Duluth Evening Herald, which is sent by mail for 25 cents per mont. The Herald is considered one of the leading papers of the North west, prints on an avrage of more than fourteen pages daily, and the entire Associated Press reports. If you want to keep poted "Read The Herald." Duluth Weekly Herald, $1 per year; six monthe 59 cents; three months, 25 cents.

EARN FROM $75 TO $150 PER MONTH.

We want at once, young men for Brakemen and Firemen.

Experience unnecessary.

Positions secured as soon as competent. Instruction by mail.

Cut out cupon and send with stamp for full particulars. Give name, age, and post office addrass, with No. of R.F.D. route.

Northern Railway Correspondence School.

45-s. 4th st.
Minneapolis, Minn.

APPLICATIONS AT LILLO.

If you live in the town of Equality or Johnson you can make your application to make final proof, at Lillo, and have your notice published in the paper published nearest your land.

LAND OFFICE BUSINESS.

U.S. Commissioner L. G. Browning with office located at Thief River Falls, is prepared to take homestead entries final proof etc., within the Crookston U. S. Land District.

Office in News building, three doors south of the post office.

Wouldn't Work Nowadays.

The Egyptians had a very remarkable ordinance to prevent persons from borrowing imprudently. An Egyptian was not permitted to borrow without giving to his creditors in pledge the body of his father. It was deemed both an impiety and an infamy not to redeem so sacred a pledge. A person who died without discharging that duty was deprived of the customary honors paid to the dead.

To Die In the Last Ditch.

The phrase "to die in the last ditch" is stated by an English authority in such matters to be an Americanism, originating during the civil war. In fact, it was first used by William, prince of Orange, who during the war with France was asked what he would do in case the troops of Holland were defeated in the field and who replied, "I will die in the last ditch."

Decidedly Friendly.

Ranter—I thought this paper was friendly to me.

Editor—So it is. What's the matter now?

Ranter—I made a speech at the banquet last night, and you didn't print a line of it.

Editor—Well? What further proof did you want of our friendship?

A Rare Case.

Sorroughs—I'm always expecting disaster, but still the unexpected happened to me once. Cheerfule—How was that? Sorroughs—When the calamity came nobody remembered to say, "I told you so."—Houston Chronicle.

The Only Sure Way.

"Say, old man," said the soulful young man, "what's the best way to find out what a woman thinks of you?" "Marry her," replied Peckham promptly.—Catholic Standard and Times.

Our greatest glory is not in never falling, but in rising every time we fall.—Pascal.

Oddly Marked Tombstone.

In an old graveyard in Maine the monument to the founder of a distinguished family is marked with the outline of a human leg. It is formed by black streaks in the granite running through the stone, for at the back there is another leg, but much smaller in dimensions. Nobody saw this blemish when the stone was set up. Not until years had passed did any one notice it. People concluded that the stonecutters, not wishing to go to the expense of quarrying out another block, so hid the leg with cement and stone dust that the actions of the storms of a dozen winters were necessary to expose the strangely formed disfigurement.

Old Time Railway Travel.

Third class passenger coaches in England used to be coupled on next to the engine. The travelers came in for terrible treatment when any accident occurred. At times the engine was driven tender first, in which case frozen hands could be warmed at its smokestack. The passengers were packed, seventy of them, into a truck eighteen feet in length by seven and a half in width. There was no roof and not, as a rule, proper protection at the sides.

Notice for Publication.

First Pub. Nov. 10th 1905.

Department of the Interior.

Land Office at Crookston Minn. Nov. 6th, 1905

Notice is hereby given that the following named settler has filed notic of his entention to make final proof in support of his claim and that said proof will be made before the register and receiver of the U. S. Land Office at Crookston Minnesota, on December 10th 1905 viz:

William H. Erb,

H. E. No. 587 Red Lake Series, for the N. E, ¼ Sec. 31 Tp. 152 N. R. 40 W.

He names the following witnesses to prove his continous residence upon and cultivation of said land, viz:

Rudolph H. Green, Charles G. Sall, Kernee [illegible], Thomas Veitch, all of G[illegible]rnes, Minn.

[illegible] Montague, Register

Paganini's Cab.

The characteristic [illegible] nature of Paganini, the celebrated Italian violinist, is well illustrated by the following anecdote: One day while in Vienna he hired a cab to take him from the hall where he had added one more to his long list of triumphs to his lodgings. When Paganini awoke the next morning he found the cabman waiting for an interview. He, in fact, burst into Paganini's private apartment.

"What do you want?"

"Excellency, I come to solicit a favor of you—a very great favor. I am father of four children and have the honor to be your fellow countryman. You are wealthy, your fame is unequaled, and if you please you can make my fortune."

"What do you mean?"

"Well, authorize me to write in large letters at the back of my vehicle these two words: 'Paganini's Cab!'"

The musician consented, says Olga Racster in an interesting volume entitled "Chats on Violins," and six months afterward the cabman was enjoying a comfortable income solely derived from Paganini's cab.

Masts and Rigging.

Each of the three masts of all but very small vessels consists of a number of sticks one above another. The "heel" of the topmast comes a little below the "head" of the lower mast and is secured by a "cap," a sort of iron band, and a bar, called a "fid." Above the topmast comes the topgallant mast and above that the royal mast.

The running rigging consists of ropes used in handling the yards and sails, and every rope has a distinguishing name. Halyards are ropes used to hoist yards and sails. Braces are ropes used to swing the yards around by.

To the beginner the names of ropes are apt to be very confusing. Old salts are fond of spinning a yarn about a lad who wanted to go to sea until he heard that the fore topgallant studding sail boom tricing lining thimble block mousing was the name of about the smallest bit of rope on board ship, when he at once concluded that, such being the case, he could never expect to master the name of the largest rope and consequently decided to become a farmer.

Gypsies and Tartars.

Some ethnologists claim that the gypsies are of the same family as the Tartars. They are said to have appeared first in Germany in 1417 under the name of Tartars or Zegius and by a statute of Henry VIII. were expelled from England in 1530. This not proving efficient to exterminate the race stronger measures were taken, described by Thomas Cromwell in a quaint letter still extant. "And in case ye shall here or knowe of any such Gipcyans," he writes to "My Lorde of Chester," "that ye shal compell them to depart to the next porte of the see, and eyther without delaye uppon the first winds that shall conveye them, or if they shal in any wise breke that cammaundment, to see them executed, without sparing uppon any commysion, license or placards that they may shewe or aledge for themselfes to the contrary."

A Fine Sense of Humor.

The Russian Emperor Ivan IV. once ordered one of his high court officials to procure for him a measure full of fleas, and when the poor man failed, through the friskiness of the insects in jumping out of the measure, had his head cut off and inflicted a fine of 7,000 rubles on the city of Moscow for its share in the failure. On other occasions he would wander away into the country with some boon companions and a few caged bears, and when he came to a peaceful village would let slip the bears and shriek with laughter as the villagers rushed for safety or fell victims to the hungry animals.

Marital Persiflage.

"I must confess," remarked Mrs. Crabbe, "I don't believe there ever was a really perfect man." "Well," replied Mr. Crabbe, "Adam would have been perfect, I suppose, if Eve had only been made first." "How do you mean?" "Well, she would have bossed the job of making Adam."—Philadelphia Press.

The Thing to Do.

Johnson—He said I was an addle pated jackass. What do you advise me to do about it? Jackson—See a good veterinary.—Leslie's Weekly.

Something Lacking.

"I can shave myself as well as any barber."

"Ah, but you can't talk to yourself while you're doing it!"

Nothing raises the price of a blessing like its removal.—Moore.

Her Endurance.

"How can you scold all the time?" was asked of the woman with five stepchildren and an indolent husband.

"I can't just explain it, but I know that I'm blessed with wonderful powers of endurance."

The Early Use of Skates.

Holland is said to be the home and birthplace of skating, and without doubt skating was first practiced there and in the far north. In a country of lakes and canals the necessity of walking and running on ice must have been felt from the earliest days. In Holland they show the bone skates which were found in one of the mounds of which a Friesland village was built. The skates were fastened to the feet by straps passed through holes which were made in the bones. A Danish historian mentions the sport in 1134. The bone skates were also first used in [illegible]. A wr[illegible] in his account of [illegible] amusements of the young people of [illegible] tions the fact that it was usual for them to fasten the leg bones of animals under the soles of their feet by tying them around their ankles; then, taking a pole shod with iron, they pushed themselves forward with great rapidity by striking this pole into the ice.

Aunt Chloe and the Dinner.

Mrs. McJarvis had invited a number of friends to dinner, but the cook left her on the morning of the appointed day without a moment's notice, says the Chicago Tribune.

In this emergency she hunted up an old friend of the family, Aunt Chloe, wife of Uncle Ephraim, and asked her to take the cook's place.

"I'll cook de dinnah, missis," said Aunt Chloe, "if you'll give me wot's left."

Mrs. McJarvis agreed, and within a few hours the dinner was well under way.

Later in the day she visited the kitchen.

"Why, Aunt Chloe," she said, "I have only five persons to entertain, and you are cooking everything there is in the house! What is that?"

"I want to make sho', missis," said auntie, "dat dere'll be sum'n lef'."

London's First Omnibus.

The first London omnibus was really much more gorgeous than its successor of today. It was an imposing vehicle, beautifully decorated and painted, with accommodation for twenty-two passengers inside, and was drawn by three handsome bays, driven by a smart coachman in livery, and its conductor was gay in a blue cloth uniform, like a midshipman. This conductor, by the way, was the son of a naval captain and spoke French so well that it was quite common for the poke bonneted young ladies from Paddington to ride as far as the city and back with the object of improving their French by chatting with him. The fare from the Yorkshire Stingo, at Paddington, to the Bank was a shilling; halfway, sixpence, and newspapers and books were provided for the passengers.—London Globe.

Two Repulsive Pictures.

In the atelier of Adolph William Bouguereau, the great French painter, there hung two terrible pictures. One represented a man dying in the desert, with the frightful form of the angel of death descending upon him. The other depicted Dante and Virgil in hell watching one victim madly gnawing at the throat of another. The two pictures failed because of their horror. "If I had stuck to such subjects as those," the artist used to say, "I should have starved long ago." He found a market for the beautiful.

Painful.

"What does Bifkins remind you of?"

"I hate to tell."

"Because it's a reflection on Bifkins?"

"No; on me."

"I don't understand."

"Well, I'll explain. Every time I see Bifkins he reminds me of a little bill I've owed him for over a year."—London Tit-Bits.

Solitude and the Crowd.

It is easy in the world to live after the world's opinion, it is easy in solitude to live after our own, but the great man is he who in the midst of the crowd keeps with perfect sweetness the independence of solitude.—Ralph Waldo Emerson.

It Would.

"But why won't your husband let us look up the coat of arms of his family?"

"Paw sez a coat of arms would look funn, fer a man that made his fortune in his shirt sleeves."—Houston Post.

Absolutely Effective.

Jack Younghusband—I'm only going down to the club, dear, so don't wait up for me if I'm late!

The Little Wife (sweetly)—No, darling. I'll come and fetch you!

Cynical.

"Which do you think counts for the most in life, money or brains?"

"Well," answered Miss Cayenne, "I see so many people who manage to get on with so little of either that I am beginning to lose my respect for both."—Washington Star.

Setting Him Right.

"You think a good deal of your husband, don't you?" asked the visiting relative.

"You have the wrong preposition," answered Mr. Meekton's wife, with the cold tones of the superior woman. "I think for him."

The Backbone.

When asked by her teacher to describe the backbone a Norborne schoolgirl said, "The backbone is something that holds up the head and ribs and keeps one from having legs clear up to the neck."—Norborne Leader.

The coldest inhabited country is Werchojansk, in eastern Siberia. The daily mean temperature of the entire year is 2.74 degrees below zero.

Position In Sleep.

According to Dr. Fischer of Berlin, the most effective position of sleep for obtaining intellectual rest is to keep the head low and the feet slightly elevated. Failing this, the body should at any rate be horizontal, so as to irrigate the brain well. The habit of sleeping with head low and feet high is, according to the doctor, a remedy for brain troubles and some internal maladies. It can be adopted gradually.

Oyster Stuffing.

A delicious oyster stuffing is made by taking two scant teacupfuls of stale breadcrumbs, one-half pint of oysters drained and cut in half. Season with salt, pepper, celery salt, one tablespoonful of butter, one-half teaspoonful of sweet cream to moisten the crumbs and one well beaten egg. Mix and fill the fowl or chicken. Garnish the bird before carving with fried oysters and parsley.

That Was Different.

Mrs. Tittle—What a beautiful world it must have been when there were only Adam and Eve in it! There was nobody to say nasty things about them. Mrs. Tattle—But, then, they had nobody to talk about. Mrs. Tittle—Well, I guess, after all, the world has improved since their time.—Boston Transcript.

A Dreadful Disappointment.

"They say he was disappointed in love."

"Yes. Her father failed in business just a week before the day set for the wedding."—Cleveland Plain Dealer.

The Bliss of Riches.

"Money," said the wise man, "does not bring happiness."

"Oh, yes, it does," said the still wiser man, "if you have just enough of it."—Chicago Tribune.

DEFECTIVE PAGE

GRATIFYING PRAISE.

Letter from Marcus Mayer, the Great Patron of Music and Drama.

Marcus R. Mayer, who brought to America Mme. Patti, Duse, Salvini, Coquelin and other famous singers and actors, writes:

Gentlemen: I wish as many suffering men and women as I can reach to know the excellence of Doan's Kidney Pills. I was greatly benefited by this remedy and know it cured several who had kidney trouble so badly they were agonized with pain in the back, head and loins, rheumatic attacks and urinary disorders. I am glad to recommend such a deserving remedy.

SPECIES OF BOOK COLLECTORS.

In this age of specialization even so simple a subject as book collecting is subdivided in a complex, scientific way.

Book collectors of the twentieth century fall naturally into these classes:

Bibliomane — An indiscriminate, emotional collector.

Bibliognoste—A learned collector, very expert in imprints, first editions and the technicalities.

Bibliotaphe—A cautious collector, who keeps his books always under lock and key in glass cases.

Bibliophile—A real lover of books; one who buys books only for the pleasure of reading them.

Origin of Phrase.

To "dance attendance" is an expression borrowed from the mediaeval custom which compelled a bride to dance at her wedding with anyone who asked her.

CONSTIPATION AND STOMACH TROUBLE CAN BE CURED

J. S. Janssen, President of the Milwaukee Retail Druggists' Association, Talks on the Dangers of Constipation and Stomach Trouble.

"Have you noticed the large number of cases of typhoid fever lately?" said Mr. J. S. Janssen to a Daily News representative. "To my notion typhoid fever, malarial fever, appendicitis and many kindred complaints are the result of constipation, which in many cases is allowed by the patient to run along without proper treatment. You will remember when you were a child and the doctor was called, his first prescription was a dose of castor oil! All physicians know the value of having the bowels thoroughly opened. People, when they grow up, allow constipation to become chronic through lack of attention. Constipation is the failure of the bowels to carry off the undigested food, which collects in the alimentary canal and there decays, generating poisonous disease germs. These germs find their way into the blood by means of which they are carried to every tissue. The fever thus created affects not only the lungs, kidneys, stomach, heart and nervous system, but in fact any organ of the body is liable to break down as a result. The blood becomes thin and watery. The sufferer loses in flesh and strength. Castor oil and pills will not cure an affliction like this. Something more than a laxative is needed. There are many physics on the market, and we sell a great many, having probably the most popular store of the kind in the city. I do not often talk about manufactured medicine, but the high esteem in which Mull's Grape Tonic is held by the drug and medical fraternities has impressed me and I know from actual experience right here in our store that Mull's Grape Tonic cures constipation and stomach trouble positively and permanently.

Mull's Grape Tonic is not a physic, but it immediately clears the bowels of the decaying food because of the peculiarly strengthening effects it exerts over the organs of the digestive system. As a tonic it is superior to the nauseating cod liver oil compounds. It builds flesh faster and creates strength quicker than any other preparation known to medical science.

The ingredients are positively harmless, made mainly from crushed grapes and fruits. Although a full bottle might be taken at once, no inconvenience would result. I only wish that people paid more attention to these little details, which in themselves in the beginning are of so slight importance, but which grew in magnitude until the most serious trouble and some deadly disease fastens itself on the constitution. There is really nothing easier to take than Mull's Grape Tonic. I hope you, through the influence of your paper, can bring the readers to a sense of the gravity of allowing constipation to become chronic.

WORK OF INVENTORS.

A new time-recording camera has been patented in England. By photographing an automobile in motion and a watch at the same moment, it is possible for policemen to produce absolute proof that a motorman has exceeded the legal speed limit.

It is reported from London that an inventor named Apostoloff has devised a new process of milling wheat by which the quantity of flour obtained is increased no less than 15 per cent. The quality, it is claimed, is improved at the same time.

A device has been patented in Australia whereby a number of radial of curved V-sectioned vanes of blades are disposed between the hub and rim of the wheel of a cycle for the purpose of assisting the propulsion of the vehicle by means of the air currents induced by the vanes.

An inventive genius has patented a detachable fur collar for overcoats, and some local clothing manufacturers think highly of it. It fastens over the permanent collar with flaps, and when adjusted it would puzzle an expert to detect its on and off feature. The economy herein presented is obvious.

An Italian scientist has invented a novel substitute for irrigation. He uses the fruit of the Barbary nopal, a fig tree which bears figs that are excellent reservoirs of moisture. In the spring the scientist digs a ditch about the foot of the tree he desires to protect from the coming drought and this ditch is filled with figs cut into thick pieces. A dense layer is made and beaten down. The mucilaginous pulp, covered with earth, stores up much moisture, which it gives off gradually, watering the tree sometimes for as long a period as four months.

OLD FASHIONED FARE.

Hot Biscuits, Griddle-Cakes, Pies and Puddings.

The food that made the fathers strong is sometimes unfit for the children under the new conditions that our changing civilization is constantly bringing in. One of Mr. Bryan's neighbors in the great state of Nebraska writes:

"I was raised in the south, where hot biscuits, griddle-cakes, pies and puddings are eaten at almost every meal, and by the time I located in Nebraska I found myself a sufferer from indigestion and its attendant ills—distress and pains after meals, an almost constant headache, dull, heavy sleepiness by day and sleeplessness at night, loss of flesh, impaired memory, etc., etc.

"I was rapidly becoming incapacitated for business, when a valued friend suggested a change in my diet, the abandonment of heavy, rich stuff and the use of Grape-Nuts food. I followed the good advice and shall always be thankful that I did so.

"Whatever may be the experience of others, the beneficial effects of the change were apparent in my case almost immediately. My stomach, which had rejected other food for so long, took to Grape-Nuts most kindly; in a day or two my headache was gone, I began to sleep healthfully and before a week was out the scales showed that my lost weight was coming back. My memory was restored with the renewed vigor that I felt in body and mind. For three years now Grape-Nuts food has kept me in prime condition, and I propose it shall for the rest of my days.

"And by the way, my 2½-year-old baby is as fond of Grape-Nuts as I am, always insists on having it. It keeps her as healthy and hearty as they make them." Name given by Postum Co., Battle Creek, Mich. There's a reason.

Read the little book "The Road to Wellville" in pkgs.

NEWS OF MINNESOTA.

Census Figures.

Minneapolis.—According to the figures compiled by the state census bureau, half the number of people living in St. Paul are natives of the state. Twenty-eight and four-fifths per cent are foreign born. The remainder, 21 1-5 per cent, were born in some other state of the Union. The figures for Minneapolis are 29 1-3 per cent foreign, 44 1-3 per cent are natives of the state, and 26 1-3 of some other state. Duluth has 41 4-10 per cent foreign born residents, 35 2-10 per cent Minnesota born, and 23 4-10 born in some other state. The percentage of people born in the United States is, in St. Paul, 71.2; in Minneapolis, 71, and in Duluth, 58 6. Of the foreign born population, Germans come first in St. Paul, and Swedes first in Minneapolis and Duluth. Swedes come second, Canadians third, Irish fourth and Norwegians fifth in St. Paul Swedes come first, Norwegians are second, Germans are third, Canadians fourth, and Irish fifth in Minneapolis. In Duluth, Canadians come second, Norwegians third, Finlanders fourth and Germans fifth. Minneapolis has forty-three born at sea and St. Paul has thirty-one.

Only a Dead Dog.

Duluth.—Early risers in the vicinity of Tenth avenue east and Twelfth street were puzzled to witness a well dressed couple walk slowly toward the ravine at the head of the avenue the other morning. The man carried a good sized box under his arm, and the woman, heavily veiled and apparently weeping leaned on his other arm. They disappeared over the side of the ravine and in half an hour returned without the box. One person investigated and discovered a little mound of earth carefully rounded. He telephoned the police and the police notified the health department. Inspector Salvo investigated officially and unearthed a small but expensive coffin. He opened it and discovered a dead dog in the silk lining. He reinterred the canine.

First Crime.

St. Paul.—Records of the first trial for a crime committed in the present boundaries of Minnesota have been found in the letters of Gen. Sibley. Maj. R. I. Holcombe, who is engaged in writing a history of the State of Minnesota, sound the record among the papers of Gen. Sibley. The trial was for the murder of Alfred Aitkin, son of A. Aitkin, for whom Aitkin county is named. The elder Aitkin had established a trading house at Sandy lake. In the winter of 1837-38 the Chippawas gave much trouble to the traders and missionaires in that region. They visited the trading post while Aitkin was absent and shot and killed his son Alfred, who had charge of the post. Then they forced the other attendents to give them all the goods they wanted on unlimited credit.

Lucky Man.

St. Peter.—A claim which he settled just seventeen years ago and which he had nearly forgotten will probably bring a fortune to Ole Estenson, a laboring man of this city. Back in 1888, while he was working with a crew of railway laborers in the northern part of the state, Estenson secured a homestead of 160 acres of what is now considered the richest mineral land on the Mesaba range. Utterly ignorant of the great value of iron ore within the boundaries of his claim, he remained on it only until he acquired title and then abandoned the property. He considered the land of so little value that he made no pretence of keeping up the taxes, but this does not seem to have materially affected his title, for a few days ago he received a letter from a mining concern offering him $20,000 for his interests.

Must Hang.

St. Paul.—The supreme court refuses to relieve C. D. Crawford, the Elk River box car murderer, of the sentence of death. He must hang on a date to be fixed by Gov. Johnson and the supreme court ruled that the errors which are alleged in the lower court are not sufficient to secure a new trial of the case. Crawford is now in the Hennepin county jail under sentence of death. The date for the hanging was fixed by Gov. Johnson in August, but E. S. Cary, attorney for Crawford, made a hard fight before the supreme court and secured a stay of execution, so that the case could be taken to the supreme court for review. The case was carried up on the ground that one of the jurors had been permitted to ask an improper question from a witness.

News Notes.

St. Paul—The Sons of Hermann tendered a banquet to William Foelsom, national president of the order.

New London—F. O. Anderson, a draymam of this place, was killed while driving down a hill with a load of wood. The front of the load gave way and he fell between the horses and the wagon. One wheel passed over his head, breaking the lower jaw bone and smashing his skull.

Red Wing—The jury in the case of the state vs. J. T. Prolow returned a verdict of murder in the third degree. Prowlow shot and killed Charles Zemke at the latter's saloon in Goodhue, Minn., Sept. 4.

Minneapolis—After steadfastly refusing for more than six months to eat and only kept alive by liquid nurishment forced into the system, Mrs. P. A. Stahl of Sioux Falls, S. D., died at the Bethesda hospital of starvation.

Minneapolis—Ethel Barrymore and her manager were stopped by a Minneapolis police man who says they violated the automobile ordinance.

HE WAS TOO PARTICULAR.

Wanted to Know Too Much and the Landlady Turned Him Down.

The popular and prosperous landlady of a flourishing boarding-house, who sometimes receives very unique letters about her rooms, submits this, written by a man, as a sample:

"Dear Madam: I wish to discover something about your house before making up my mind to go into it. Will you kindly tell me whether you have mostly old or mostly young people in your house? Do they stay up late at night to play cards and play on the piano? Are they people what might be considered lively? How many hot baths are taken on an average a day? I am very particular about my drinking water, and want to know whether you filter it and boil it. Which side of the table will you put my chair on? The doctor insists that I have as much sun as possible."

These and similar questions too numerous to be mentioned, says the Philadelphia Record, decided the landlady, and she wrote back to the inquiring young man that no rooms were to be had in her house.

Ask Your Neighbors.

Gelatt, Pa., Nov. 6th (Special).—Mrs. H. W. Sterns, a well respected residenc of Gelatt, tells in convincing words, what Dodd's Kidney Pills have done for her. She says:—

"I was a great sufferer from Rheumatism, caused through my Kidneys being out of order. I was subject to it for years. It would take me without warning, and while the attack lasted I was so lame I could not get around. So I had to send for Dodd's Kidney Pills. I took them for three days, but didn't feel much benefit, but on the fourth day I noticed a great change, the lameness in my back was gone, and the pains I used to suffer were less. I kept on with Dodd's Kidney Pills and now I am glad to say I have no lameness nor pains of any kind. I feel as if I didn't know what Rheumatism was. I shall never be without Dodd's Kidney Pills in the house, and I bless the day I first heard of them."

When a man has learned to get along without pride or prejudice he has mastered the greatest lessons in life.—Detroit Free Press.

ITCHING SCALP HUMOR.

Suffered Tortures Until Cured by Cuticura—Scratched Day and Night.

"My scalp was covered with little pimples and I suffered tortures from the itching. I was scratching all day and night, and I could get no rest. I washed my head with hot water and Cuticura Soap and then applied the Cuticura Ointment as a dressing. One box of the ointment and one cake of Cuticura Soap cured me. Now my head is entirely clear and my hair is growing splendidly. I have used Cuticura Soap ever since, and shall never be without it. (Signed) Ada C. Smith, 309 Grand St., Jersey City, N. J."

Of course, you can fool some people all the time, but when you consider what kind they are it hardly seems worth while.—Puck.

The average man is to be seen everywhere—except in a mirror.—Chicago Daily News.

A TRULY IDEAL WIFE

HER HUSBAND'S BEST HELPER

Vigorous Health Is the Great Source of the Power to Inspire and Encourage—All Women Should Seek It.

One of the most noted, successful and richest men of this century, in a recent article, has said, "Whatever I am and whatever success I have attained in this world I owe all to my wife. From the day I first knew her she has been an inspiration, and the greatest helpmate of my life."

Mrs. Bessie Ainsley

To be such a successful wife, to retain the love and admiration of her husband, to inspire him to make the most of himself, should be a woman's constant study.

If a woman finds that her energies are flagging, that she gets easily tired, dark shadows appear under her eyes, she has backache, headaches, bearing-down pains, nervousness, whites, irregularities or the blues, she should start at once to build up her system by a tonic with specific powers, such as Lydia E. Pinkham's Vegetable Compound.

Following we publish by request a letter from a young wife:

Dear Mrs. Pinkham:

"Ever since my child was born I have suffered, as I hope few women ever have, with inflammation, female weakness, bearing-down pains, backache and wretched headaches. It affected my stomach so I could not enjoy my meals, and half my time was spent in bed.

"Lydia E. Pinkham's Vegetable Compound made me a well woman, and I feel so grateful that I am glad to write and tell you of my marvelous recovery. It brought me health, new life and vitality."—Mrs. Bessie Ainsley, 611 South 10th Street, Tacoma, Wash.

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Ainsley it will do for every sick and ailing woman.

If you have symptoms you don't understand write to Mrs. Pinkham, at Lynn, Mass. Her advice is free and always helpful.

Twenty-Five Bushels of Wheat to the Acre

160 ACRE FARMS IN WESTERN CANADA FREE

means a productive capacity in dollars of over $16 per acre.

This on land, which has cost the farmer nothing, but the price of tilling it, tells its own story.

The Canadian Government gives absolutely free to every settler 160 acres of such land.

Lands adjoining can be purchased at from $6 to $10 per acre from railroad and other corporations.

Already 175,000 farmers from the United States have made their homes in Canada.

For pamphlet "Twentieth Century Canada" and all information apply to SUPERINTENDENT OF IMMIGRATION, Ottawa, Canada, or to the following authorized Canadian Government Agents:

RESULTS OF ELECTIONS.

New York reelected Mayor McClellan by a plurality of between 3,000 and 4,000. Jerome was reelected district attorney. Hearst claims fraud and will contest the election for mayor. The Weaver party carried Philadelphia by about 75,000 majority, while the republican candidate for state treasurer was defeated by a large vote. The result of the election for governor in Ohio is in doubt, with chances favoring Pattison, the democratic candidate. Republicans carried Chicago. Indianapolis elected a republican mayor. Massachusetts went republican by a large majority. The democrats elected their state ticket in Virginia and the city ticket in Louisville, while republicans were victorious in New Jersey, Rhode Island, Nebraska and Maryland. In the latter state the suffrage amendment, the alleged purpose of which was to disfranchise negro voters was defeated.

Democrats make a clean sweep in Ohio, electing their ticket, headed by John M. Pattison, for governor, by about 40,000 plurality, and gaining control of the legislature.

W. R. Hearst has opened his contest of McClellan's election as mayor of New York. The court took all ballots and ballot boxes out of the police hands. Many lawyers have been engaged. A reward of $15,000 is offered for proofs of election frauds.

Four missing ballot boxes of the New York election were found in the North river. Another was hidden in a barber shop. Hearst's claims are growing stronger.

The New York grand jury ordered indictments prepared for 12 persons accused of election frauds after listening to the evidence gathered by Attorney General Mayer. Arrests are expected, and Hearst declares he has evidence which should imprison several Tammany leaders.

W. R. Hearst has announced an additional reward of $10,000 for evidence for the arrest, conviction and imprisonment of the first Tammany district leader to be convicted of frauds against the ballot in the election, making a total of $27,000 offered by him as rewards for proof of crimes against election and registration laws.

THE TURMOIL IN RUSSIA.

Details of the recent outbreak in Russia only add to its horrors. It is shown that only a few towns in the empire escaped during the reign of terror. In Tomsk, Siberia, 600 persons were burned to death in a theater, and the "Black Hundred" and the police in Moscow butchered parading school children.

A massacre of Jews, similar to that which has occurred at Odessa, Kishinev and other centers, occurred at Ismail, Bessarabia. A mob marched through the Jewish quarter, killing every Jew who could be found Dragoons fired on the rioters, kiling 42 and wounding 114.

Russian prisons were opened and many affecting scenes resulted. Two men were released from Schlusselburg fortress after 20 years' incarceration.

The Russian Massacre International Relief association was formed and $56,800 eagerly contributed at a remarkable meeting of Jews in New York.

Russian sailors and soldiers at Cronstadt in revolt fought a fierce battle in the streets, in which at least 50 persons were killed and many times that number wounded.

All is quiet at Cronstadt. The mutinous sailors have all submitted and the leaders of several hundred have been deported from the island.

Except in the kingdom of Poland, where the rapidly growing nationalist movement and the state of tension among the proletariat will soon bring about the declaration of a state of war, Russia seems for the time being at least to be generally tranquil.

MISCELLANEOUS.

Dun and Bradstreet report the week's volume of business strong with increasing tendencies in all lines.

The total yield of corn in the United States during 1905 is estimated at over 2,707,000,000 bushels.

The federal government is considering plans to fortify Chicago and other lake ports.

Garfield Hines was shot and killed by his wife at Cairo, Ill, Mrs. Hines was arrested and placed in jail. She says her husband was attacking her with a knife.

Gen. Trepoff has been removed from the powerful position which he occupied, that of governor general of St. Petersburg and assistant minister of the interior.

President Hegeman, of the Metropolitan Life Insurance company, admitted before the New York investigating committee that his company made campaign contributions in 1896.

Despondent through ill health, Miss Fannie Baines, of Detroit, Mich., leaped to her death from the fifth story of the Boston store in Chicago.

Delegates of 14 southern states in conference at Chattanooga, Tenn., asked the federal government to take exclusive charge of quarantine regulations.

New York supreme court dismissed the suit of John R. Platt to recover $685,000 from Hannah Elias, finding no evidence that the money was extorted by coercion.

The Ramona hotel, a three-story structure of 300 rooms, filled with eastern tourists, largely women and children, was destroyed by fire at San Luis Obispo, Cal. Loss, $100,000.

Prince Louis of Battenberg says New York city would be at the mercy of a big naval fleet in case of war, and could be blown to atoms in a jiffy.

Confession to the robbery of $100,000 worth of gems from fashionable New York homes in the last two years was made by Harold Prescott, a painter. His profit on pawning the jewelry, Prescott said, was but little over $5,000.

Herman G. Norgaard, a member of the Clinton, Ia., school football team, died from an abscess of the brain, brought on by injuries received in a game at Harlan, Ia., two weeks ago.

The date of the second peace conference at The Hague has been tentatively fixed for May next.

It has been announced that a dividend of 50 per cent. would be paid creditors of the defunct Citizens' Savings bank of Lorain, O., which failed March 31.

Gov. Folk, of Missouri, sent out instructions to all of the state mine inspectors to enforce the eight-hour law, which the United States supreme court in the Cantwell case recently declared constitutional.

H. C. Hauge, at present charge d'affaires at Washington, has been appointed Norwegian minister at that capital.

The biggest shipment of potatoes that ever went east from California left Stockton for Texas, Arkansas and other Missouri river points. It consisted of a solid train of 35 cars, containing 9,450 sacks of potatoes, the aggregate weight being 1,134,000 pounds.

The federal grand jury, convened in St. Louis, returned an indictment against United States Senator Burton, of Kansas. It is stated that certain features in the former indictment against Senator Burton, which was quashed, were remedied in this new indictment.

Mrs. George Bowne, aged 60, was frightened to death in a struggle with a burglar in her home at Washington, N. J.

W. O. Carpenter, a member of the firm of Carpenter, Cook & Co., wholesale grocers, died at Menominee, Mich., He left a fortune estimated at anywhere from $5,000,000 to $10,000,000.

Prince Louis of Battenberg and the squadron of British warships were given a royal welcome in New York.

The New York Life Insurance company obtained a restraining order in the United States court in St. Louis, temporarily setting aside the order of W. D. Vandiver, Missouri superintendent of insurance, preventing the company from writing new business in the state.

Mayor Tom. Johnson, of Cleveland, O., has appointed a commission to prevent suicides. There have been 86 cases in that city in nine months.

Pig iron production in October was at a new high record, being in excess of 2,000,000 tons.

Utah Gentiles, encouraged by their success in the Salt Lake city election and the breaking of Smoot with the Mormon leaders, are laying plans to carry the state election.

Gen. Francis T. Sherman, a veteran of the war of the rebellion and postmaster of Chicago before the fire, died at his home in Waukegan, Ill., from dropsy, aged 79.

The railroads' count of immigrants arriving in this country shows an increase of 48 per cent. for 1905.

Comptroller of the Currency Ridgely admits that the present system of national bank supervision is inadequate and cannot prevent embezzlement by dishonest officials. He blames directors for apathy.

Jews have appealed to President Roosevelt to take the lead in inducing the powers to intervene to check massacres in Russia. They plan to raise millions of dollars for relief work.

Mayor Johnson, of Cleveland, declares for Gov. Folk, of Missouri, as the next candidate for president.

Chairman Shonts, of the Panama canal commission, derides enemies of the enterprise, and says work will begin July 1.

Attorney General Moody decided that Chicago packers are not immune from punishment on account of their voluntary testimony and ordered the cases to be pushed.

President Roosevelt has decided that no action can be taken by this government at present which will be of any benefit to the Jews of Russia.

Secretary Root is gradually changing the personnel of the state department office force, giving preference to men familiar with far east affairs.

At the vatican it is now considered very probably that the Most Rev. Francis Bourne, archbishop of Westminster, will be chosen as one of the high cardinals to be appointed at the next consistory.

King Edward celebrated his sixty-fourth birthday at Sanringham. Congratulatory telegrams poured in from all parts of the world. The usual salutes were fired and there were the customary celebrations in Great Britain and in the colonies.

The new Logan county court house, completed after three years' work, was dedicated at Lincoln, Ill., with ceremonies attended by several hundred persons. The structure cost $200,000.

The rioting of the garrison of the Brazilian fortress of Santa Cruz, at Rio Janeiro was quickly suppressed, the soldiers surrendering to the authorities.

Rt. Rev. Thomas Frederick Davies, D. D., LL. D., bishop of the Episcopal diocese of Michigan, died of pneumonia at his home in Detroit. Bishop Davies was 74 years old.

Frank Lucas, of Menominee, was murdered while driving along the state road north of Marinette, Wis., a rifle bullet entering his heart. The shot was fired by unknown persons from a clump of bushes near the road.

The three-story office and warehouse building of the Virginia Packing company, near Richmond, Va., was totally destroyed by fire. Loss, $250,000.

Military and naval garrisons at Rio Janeiro, Brazil, revolted against the government. Hundreds were killed in the streets. A warship threatened to bombard the city.

Offer of $1,000 reward may clear the mystery of the death of Mrs. Todd at Philadelphia.

A gift of $10,000 was presented to Trinity college in the city of Washington by the ladies' auxiliary of the Ancient Order of Hibernians, Cardinal Gibbons being the recipient.

The Missouri superintendent of insurance revoked the license of the New York Life Insurance company because of alleged lobbying.

Government ownership of railways and telegraphs, municipal control of public utilities and a general opposition to corporation rule are expected to be the democratic issues in 1908, as a result of the election.

Joseph Hughes, of Hamilton, O., former consul to Birmingham, England, has recovered a verdict of $15,000 against Felix M. Warburg, a rich New York automobilist who injured him.

Fifteen hundred dollars in bank notes, wrapped up in a bundle of papers, was found by Clarence Mason, a farmer living five miles southwest of Cambridge City, Ind. The money was concealed in a hollow stump. The papers wrapped about the money were identified as belonging to the recently robbed First national bank at Hagerstown.

Married less than a year, and after his first domestic quarrel, William Ladewig, of Muscatine, Ia., blew his brains out in a slaughter house where he was employed. His young wife is prostrated because of his action.

Stanie Swatlowski, aged 22, has been arrested near Knowlton, Wis., on the charge of killing his father. It is charged that the young man's father threatened his life with a large knife and in self-defense the boy shot him with a Winchester rifle.

Five persons were killed, ten seriously injured and a score slightly hurt in a head-on collision between a passenger train and a coal train on the Deleware, Lackawanna & Western railroad, near Wilkesbarre, Pa.

President Roosevelt informed a delegation of residents of Oklahoma that he would recommend in his forthcoming message to congress single statehood for Oklahoma and Indian Territory.

Mrs. Cassie L. Chadwick has lost her last hope for a new trial unless the supreme court of the United States shall consent to allow a rehearing. The United States court of appeals at Cleveland, O., refused her application for a new trial.

The Presbyterian foreign missionary board has issued a statement intimating that the recent murders of missionaries in Lienchou was in retaliation for treatment of Chinese in the United States.

Ex-Gov. Horace Austin, of Minnesota, died at his home in Minneapolis. Death was the result of an operation. He was governor of Minnesota from January 9, 1870, to January 7, 1874.

Fire destroyed the new fire-story building of the Moore & Handley Hardware company in Birmingham, Ala., two adjoining buildings also being burned, the total loss being estimated at $150,000.

The wives of thousands of unemployed laborers who are destitute and facing starvation marched the streets of London and presented to Premier Balfour a demand for work for their husbands. Revolutionary speeches were made at a mass meeting.

WASHINGTON GOSSIP

FEW OF THE CABINET OFFICERS YIELD TO MUZZLING.

NATURALLY CAUTIOUS ONES

Secretary to President Should Protect Chief Executive from His Own Mistakes—A Man of Tact Needed—Col. Michael.

WASHINGTON. — "Have you got your muzzle on straight?" This is the humorous greeting of cabinet officers these days when they meet each other. The recent letter of President Roosevelt to the members of his cabinet, advising them not to discuss with the newspaper men the proceedings of the cabinet, has created no little amusement, mixed with just a tinge of resentment, on the part of the cabinet officers. They do not object to being cautioned by their chief to refrain from divulging cabinet secrets, but the impulsive, characteristic Roosevelt style of the letter is not altogether palatable.

The truth is that very few of the cabinet officers would consent to being muzzled for any length of time. They are all men of independent thought and action, although there are two or three of the number who are exceedingly close-mouthed about public affairs, and to whom the presidential caution was entirely superfluous. The more open hearted and communicative members of the cabinet will not change their manners or nature on account of this letter. Big "Bill" Taft laughs just as heartily and cracks just as many jokes with his newspaper friends as he did before the president's letter reached him. Secretary of the Treasury Shaw would not forego conferences with a group of correspondents for all the hints that come from the white house. He is fond of newspaper men, because they are quick to perceive the point of his stories and allegories. A half hour with Shaw is an entertainment that no newspaper man would willingly miss.

Secretary of State Root, Attorney General Moody and Postmaster General Cortelyou are naturally and proverbially cautious, and while each one of them is courteous to correspondents, the amount of actual information they impart would not make a paragraph a quarter of a column in length.

To Protect Press Associations.

IT was on the impulse of the moment that President Roosevelt dictated his letter to the cabinet officers in which he cautioned them to be close mouthed and not, in a moment of "weakness," discuss cabinet affairs with a favorite correspondent or "take pity" on the newspaper man and give him material for a good dispatch on state affairs. The wording of the message was rather unfortunate, as it seemed to bring in question the integrity and reliability of each member of the cabinet, and also reflected upon newspaper correspondents as being beggars for newspapers instead of demanding it as a right and in the interest of the public. He also restricted the cabinet officers in this message to giving departmental news to the press associations, thereby practically ruling special correspondents out of business.

It is known that this letter was dictated because the press asosciations had complained that while they observed the presidential injunction regarding the publication of cabinet news, the special correspondents would see cabinet officers and have more and fuller dispatches on the same subject. So primarily the letter was intended to protect the press associations. It is safe to say that had George B. Cortelyou been secretary to the president instead of William Loeb, Jr., this letter would have never reached the cabinet in its present shape. Mr. Cortelyou is a tactful and observing individual, and he would have seen in a moment the offensive parts of this communication and would have toned them down into diplomatic language. Mr. Loeb is a stenographer by profession and felt compelled to transcribe accurately the exact language the president used in dictation.

The province of the secretary to the president includes the exercise of diplomacy and tact in order to protect the chief executive from his own mistakes. This is a duty that requires discernment, and there have not been many men who have performed this work perfectly. The late John Hay was a model private secretary when he acted in that capacity for Abraham Lincoln. The late Daniel Lamont, who acted in the same capacity for Mr. Cleveland, was one of the most tactful men in that position, and Mr. Cortelyou made a great reputation while serving President McKinley and President Roosevelt.

Gen. Keifer Returns.

GEN. J. WARREN KEIFER, of Springfield, O., the speaker of the house of representatives who, 20 years ago was driven out of public life by the Washington newspaper correspondents, is back again and will take his seat in the coming congress. Gen. Keifer attempted to nullify the privileges which congress had for years granted the press, and in his quarrel with the late Gen. Boynton, then chairman of the press committee, he made charges of venality against the latter. Gen. Boynton demanded a congressional investigation, which was finally given, with the result that he was magnificently vindicated. The controversy over the whole matter resulted in attacks upon Keifer that led to his retirement.

After 20 years' vacation Gen. Keifer comes back with a deeper respect for the newspaper press of Washington. He is here now preparing for the approaching session. The many changes that can occur in a fifth of a century in public life are illustrated by his experience. In discussing these changes the other day, Gen. Keifer said:

"Of all the democratic representatives in congress with whom I served, not one will be present when the house is called to order next December. On the republican side there will be five of my former colleagues.

"I made my campaign for the speakership in this hotel, the Ebbitt, and the events of that period are still fresh in my mind. My opponents were Thomas B. Reed, afterwards the most famous speaker of the house; Frank Hiscock, of New York, afterwards United States senator; Burrows, of [illegible] senator; Kasson, of Iowa, and Dunnell, of Minnesota. The contest was good natured and all my opponents remained my good friends."

Chief Clerk of State Department.

THERE is very general regret that in the reorganization of the state department incident to the incoming of a new secretary the old chief clerk, Col. William H. Michael, should be displaced. For ten years Col. Michael has filled that position, and those having business with him can testify to his efficiency and courtesy. Secretary Root, however, desires to have as his chief clerk a man who is his personal friend; so he has selected Charles Denby, of Indiana, son of the former minister to China, for the place.

Col. Michael will be taken care of in the consular service, but his removal from the state department is none the less regrettable. He has been assigned to the consul generalship at Calcutta, India, where the salary is about double that which he had been receiving as chief clerk of the state department. This increase in compensation, however, offers very little inducement to a man of Col. Michael's age to go to such an unhealthful climate as prevails in Calcutta. It is very likely that before the time comes for him to go to this post, a transfer will have been arranged to a place in some more congenial latitude.

Col. Michael is a veteran of the civil war, having served first in the army for a year, and then three years as an officer in the navy. He was recommended for promotion for gallantry by Rear Admiral Porter, and he was chosen by the people of Iowa to represent the navy in a statue on the soldiers' and sailors' monument in Des Moines. He is a man of literary attainments and served as a Washington newspaper correspondent for a number of years. He is the author of several books and has compiled many important public documents. He was appointed chief clerk of the state department early in President McKinley's first administration, and has handled very important matters during his incumbency.

Would Be Better.

"This cheese is full of holes" complained the prospective purchaser.

"Yes, sir," said the proprietor, "That's right."

"Haven't you got one with the holes full of cheese?"—Chicago Sun.

A Difference.

Col. Highflyer—What are your rate per column?

Editor of Swell Society—For insertion or suppression?—Life.

POLAND MUST STILL REMAIN

AN INTEGRAL PART OF RUSSIAN GOVERNMENT, SAYS THE CZAR

Attempt to Wrest Autonomy from the Government is Revolt. Nationalists Warned Country not to be a Second Finland.

St. Petersburg, Nov. 13.—Poland is not to be permitted to become a second Finland.

The Russian government, in a strongly worded communication published this morning, serves notice on the Polish nationalists that for good or ill the ancient kingdom of Poland has now become an integral part of the Russian empire, and that while the government intends to fully observe the national rights of Poland, any attempt to wrest Polish autonomy from the emperor would be considered an act of revolt and would lead the Poles into the sorrowful paths trodden by them in 1831 and 1863.

The Russian authorities recognize the gravity of the movement in which two antagonistic parties, the Nationalists and the Socialists, under the leadership of such poles as Henrik Stenkiewicz, the novelist, have joined forces, and they declare that none of the benefits of the emancipation manifesto can be conferred on "a country of revolt.

An official communication issued this morning recalls the facts that the imperial ukase of Dec. 25 last established basis for the gradual renovation of the civil life of Russian subjects and points out that the measure adopted in pursuance of the ukase, affected equally the Polish people.

A Good Haul.

Winona, Minn., Nov. 13.—A discriminating burglar, who knew good furs and silverware, made a rich haul at the home of J. R. Watkins in this city at an early hour in the morning. He entered by way of a window and from the wardrobe took a seal coat, a seal cape, an ermine muff and a furlined overcoat. He then went to the silver chest and selected the best of the solid silverware. The goods stolen are valued at $1,000. Mr. Watkins offers a reward of $300 for the arrest of the guilty person, and Mr. E. L King, Watkin's son-in-law, offers $100 for the return of the goods.

Dead As Predicted.

Yankton, S. D., Nov. 13.—Mrs. L. Karr, aged sixty-two years, is dead here, death coming extremely suddenly while visiting at the home of a neighbor, Mrs. Van Ostrand. Mrs. Karr, who was apparently in robust health, was returning home from church and stopped at the home of her friend to look at some new floors. While remarking about them she dropped dead. Her sudden demise recalls the words of her husband, a spiritulist, who predicted his wife's death within a year and a half. He alleged he had the warning from a dead daughter.

Many Hunters.

Duluth, Nov. 13.—The open season for hunting big game in Minnesota opened the 10th and will close Nov. 30 at midnight, a period of twenty days. It is estimated that already there are 2,000 nimrods in the woods to the north of Duluth. This is a record-breaking number, but is based on hunting licenses obtained here and from deputy auditors in the range towns. Many who live in the game region disregard the requirement of taking out license, and these men also usually kill big game in and out of season.

Plebiscite.

Christiania, Nov. 13.—A plebiscite for and against the choice of Prince Charles of Denmark as the new king of Norway begun yesterday under favorable weather conditions. The people everywhere were voting in large numbers.

In Christiania, out of a total electorate of 40,000, fully 40,000 have already voted.

Stabbed His Brother

Booneville, Ind., Nov. 13.—In a fight over the branding of a pet horse, Orville Heads, 8 years old, who lives near Hereman, this county, fatally stabbed his brother Clarence, 11 years old. Clarence died two hours after being wounded.

Doctor Drops Dead.

Springfield, Minn., Nov. 13.—Dr. T. Sullivan dropped dead in his office from heart disease. He had not been feeling well for nearly a week, but his illness was not thought to be serious. He had practiced medicine here for nearly twenty years.

Fatally Hurt.

Marshalltown, Iowa, Nov. 13.—Randolf McLeod, left end of the Hampton high school football team, was probably fatally injured in a game with Marshalltown high school. His intestines were ruptured.

ntered as Second-class matter August 30,
05, at the post office at Sunbeam Minn.
der the Act of Congress of March 3, 1879.

President Roosevelt has des;nated Thursday November 30, Thanksgiving day, and the ırkeys are roosting higher.

The railroads and president oosevelt will have a warm time is winter over the railroad rate ll and it will be up to the peole to keep their eye on the gun d see what congressmen are ıtitled to a re-election.

The Plummer Pioneer comes us this week double its usal ze. We are pleased to note this vidence of prosperity of Mr. atta, as he is one of the hard orking newspaper boys, who olds the plow or drives the am all the time.

St.Hilaire Spectator:Loren Fle ber the Minneapolis congressan,is the latest to tell his friads that he might be induced to in for governor if presiur was rong enough. The announceent don't seem to have filled a ng felt want.

The state of Minesota's case ainst Shevlin-Carpenter company of Minneapolis to recover 51,334,42 for timber stolen from ate lands is an other instance the slowness of justice for the ch thief. The offence was comited in 1903-4, and if a poor seter had stole one fourth of that mmount from the state at that [illegible] e year of his Stillwater sentenby this time.

Thirteen Towns: The big game eason opens to day in Minneso —for deer and men. Hunters ill look twice before they shoot is season however, for the laeglature of last winter made a ew law declaring the killing of man in mistake for a deer or ny other animal, a felony of anslaughter in the first degree, earious business indeed. But hen "hunters" don't make such istakes. Those other fellows are he ones that do all the mischief.

One of our contemporarys down n the line put in so much of his aluable? time, putting in six hot air" branch newspapers to rive other people out of business that he only got one side of his last weeks paper printed, and ent it out to his subscribers lank on one side. This weeks now storm may cool off his head ome so he will cut out about hree of his branches and try to et out his own paper printed on oth sides.

Stephen Singer, who was with us in the newspaper business at Gully will look over the ground n Township 153, Range 42, next week to look up a location for a newspaper plant. The paper will be put in under the name, of Singer & Hunt. As the Thief River Falls papers thinks there is a crying need of more newspapers on this reservation, we are will do our part to get more of them established. Mr. Singer is not very old in the newspaper business but is an expert at attending to taking of applications and publishing final proof notices.

Not For General Circulation.

"Say, pa, when I'm a man won't I have to obey you nor ma any more?"

"No, but you'll have a boss then who will make you wonder why you ever thought we were hard to deal with. You needn't tell your ma, however, that I told you."—Chicago Record-Herald.

The Hindoo Strong Man.

The Hindoos tell wonderful stories of the feats of Bhima, who was their strong man. Among the wonders credited to Bhima are the following: Pursued by a tiger, his mother when nursing Bhima let him drop. The force of the impact shattered in a thousand pieces the rock on which he had fallen, but the boy was none the worse. When he quarreled with other boys he gathered them up, ten or fifteen at a time, and plumped them into the nearest pond. His cousins hid themselves in a tall banyan to jeer at him, but he tore it from the ground without effort. He snapped his bonds like Samson, and a hungry cobra's fangs could not penetrate his skin. His triumph, however, was the defeat of Bakasura, who "consumed a cart load of food at a sitting and used palmyra trees for toothbrushes."

Sweeping.

"I was just telling my daughter," said Mrs. Nexdore, "that it's a shame of her to play the piano on Sunday."

"Huh!" exclaimed Mrs. Peppery. "Why Sunday especially?"

To Promote Politeness.

The pupils and alumni of an academy in Chicago have organized a club known as the Knights and Ladies of Courtesy, "to promote politeness and a more accurate and dignified use of the mother tongue." The club has elected an official optimist and pessimist, who are to report upon the evidence of improvement or decadence in public and private manners.

Beautifying Paris.

The Avenue des Champs-Elysees, Paris, is to be extended to the forest of St. Germain, at a cost of $2,000,000. The avenue will be about eight miles long and 135 feet wide. In the middle will be an electric railway, and at each side of the railway will be tracks for motor cars, cycles, horse vehicles and pedestrians.

The word "measles" formerly meant leprosy.

The best brands of flour for sale at the High Landing store.

Applications to make final proof written free at this office.

P. Sullivan arrived home from his Canada trip last Monday

Wallace Grace left for a short business trip to Dakota last Sunday.

Singer Bros. have a large stock of flour for sale at Rhoda. Call and get prices.

Jerry O'Brien and Miss Kate O'Brien arrived from Dakota last week and are fixing up their homes for the winter.

A distructive prairie fire passed over the north part of the township, on Monday last, which caused the settlers to hustle to save their property.

Miss Mary Callipeau of Thief River Falls, who is visiting Mrs Eve rendered kind assistance to the laidies in making their baskets for the social on Monday evening.

We noticed that our friend, Audrew Ellingson was wareing a little broader smile than usal to day and learned, that it was a boy. Tally one more for High Landing; no race sueside up this way,

Mr. and Mrs. Walter McAndrees are rejoyceing over the arrivel of a nine pound boy, which came to make his home with them for twenty one years, his time commenceing on last Monday morning.

The Singer brothers are pushing work rapidly on their new store building at Rhoda and expect to have it ready to shelter their large stock of goods. which will arrive next week. Oscar and [illegible] Nesiand are doing the carpenter work for them.

The basket social at the residence of Alfred Eve on Monday was not as well attended as it should have been, considering the purpose that it was gotten up for, Tnose who did attend passed a very pleasant evening and quite a neat little sum was contributed for the purpose of getting a libr airy for this school Disrrict.

DEER PARK.

To late for last week's publication.

M. E. Hyland, and his sons Theo, and Eddie returned from Gully, last week.

Martin Hyland, finished building his barn last week,

A. Christianson, and C. O. Swanson, transacted business in tne big city of Plummer, last week.

Sam B, Swanson, returned from Park River, N, Dak., last Thursday.

"Johnny" the Padny store-keeper, took in the grand ball at Short's place in Equality last Saturday evening.

Mr. and Mrs. Gunder T. Anderson's little baby girl that was born while tney were down to Fisher, died last Friday. She was but seven days old we do indeed sympathize with the bereaved parents.

Sam Swanson, and G. and T. Smedjan, and Kjeste and Signa Vatendahl, were among those that took in the Sullivan, party from here.

Ben Kveste, the "cyclone" thresherman of High Landing, sold hie rig the Joreson brothers of Espetvet.

Some of the Deer Park ladies from around here organized a Ladies Sewing Society at the home Mrs. W. A. Swanson last Wednesday, and the following officers were elected for the first year. Foreman Mrs. A. Christianson, Sec'y Mrs. W. A. Swanson, Treas, Mrs. Thor O. Moen. They will meet hereafter on the first Wednesday in each month.

C. W. Johnson, took his bunch of "steers" down to Plummer, last Saturday. and sold them to the butcher down there.

Peter O'Toole, one of the Sunbeam batchlors, was up this way looking for fiddlers for the Sullivan party last Friday.

George Singer, says the rail road question for these parts is a settled matter now. Mr. Singer predicts that we will not be far out of line either when it does show up.

Dont "cuss" the editor, if deer park news dont suit you this week. He left us at noon. for to be gone a couple hours, it is now getting dark and we have neither heard nor seen him since So he is indeed innocent this time.

EARN FROM $75 TO $150 PER MONTH.

We want at once, young men for Brakemen and Firemen.

Experience unnecessary.

Positions secured as soon as competent. Instruction by mail.

Cut out cupon and send with stamp for full particulars. Give name, age, and post office address, with No. of R.F.D. route.

Northern Railway Correspondence School.

45-s. 4th st.
Minneapolis, Minn

APPLICATIONS AT LILLO.

If you live in the town of Equality or Johnson you can make your application to make final proof, at Lillo, and have your notice published in the paper published nearest your land.

LAND OFFICE BUSINESS.

U.S. Commissioner L. G. Browning with office located at Thief River Falls, is prepared to take homestead entries final proof etc., within the Crookston U. S Land District.

Office in News building, three doors south of the post office.

A Wonderful Pagoda.

The great Buddhist shrine, the Shway Dagon at Rangun, is no temple, but a great pagoda, rising from its platform to a height of 368 feet and all completely covered with gold leaf. This platform, with a perimeter of nearly 1,400 feet, is the place of worship. The pagoda itself has no interior. It is a solid stupa of brick raised over a relic chamber. A cutting made into its center has revealed the fact that the original pagoda had seven casings added to it before it attained its present proportions. The shape of the pagoda is that of an elongated cone. It is divided by Burmese convention into twelve parts: First, the base surrounded by a great number of small pagodas; then the three terraces, called Pichayas; next the Bell; the inverted Thabeik, or begging bowl; the Baungyit or twisted turban; the Kyalan or ornamental lotus flower; the Plantain Bud; the brass plate for the Hti or umbrella; the Hti; the Sein bwin or artificial flowers; the vane, and, last of all, the Seinbu or bud of diamonds.—"The Silken East," by V. C. Scott O'Connor.

Prices For Butterflies.

Butterfly collectors are seldom able to estimate with any confidence the value of their collections, since the prices for specimens so constantly vary. A case in point is that of the blue butterfly of Brazil, specimens of which were originally sold for from $50 to $75. Afterward some collectors who supplied the London market ran into a perfect swarm of these butterflies and shipped to England such quantities that better specimens than the original insects sold for $1 each. It not infrequently happens that two or three specimens of a certain family are discovered by collectors, who, encouraged by the high prices received for their finds, are tempted to prosecute their search for this particular variety without result for several years. Suddenly they or some other collector finds the insects grown plentiful, and the cherished varieties of the cabinet become among the commonest specimens.—Chicago Post.

Sociable Spiders.

Spiders have been observed in Madras which live in a sponge-like nest of branching network, penetrated internally by canals of communication and furnished with a number of external apertures. The nests, which may be attached either to the tips of branches or to leaves of the prickly pear, are ashy gray in color and constructed of leaves, with an external covering of the usual sticky threads. The spiders are similar in color to their nests. Their inconspicuous, sheet-like webs radiate in all directions, and as many as five or six nests, connected by intermediate webs, may be found on a single plant. The connecting webs, which are very strong, often form tubular bridges between the nests. From forty to a hundred spiders may be found in a single nest, and males and females inhabit the same nest in the proportion of about seven to one.

Notice for Publication.

First Pub. Nov. 10th 1905.

Rudolph H. Green, Charles G. Sall, [illegible] G. Whaler, Thomas Veitch, all of [illegible] Minn.

R. J. MONTAGUE, Register.

The Envious Woman.

The train had pulled out of the terminal, and the conductor was on his fare collecting tour. In one car there sat alone a woman dressed in deep mourning, her heavy veil having been lifted to allow a breath of air. When the conductor approached her the woman burst into tears.

As she cried as if her heart would burst the conductor asked her what was the matter. She sobbed this reply: "Ten years ago I took my first husband over this road to be cremated, five years ago I took my second husband on the same trip to the crematory, and now I am taking my third husband to be condemned to ashes."

Just then there were loud sobs heard coming from a seat on the opposite side of the car. The conductor turned and saw another woman crying. Approaching softly, he asked the weeping one, "What is the matter, madam?"

Taking her handkerchief from her eyes, the second in tears answered, "That woman has husbands to burn, while I can't get even one."—Philadelphia Record.

The Senses of the Word.

"She is a lady in every sense of the word," exclaimed Blifkins.

"Then she is the most remarkable woman that ever lived," replied Johnson.

"What do you mean? Aren't there plenty of ladies in the world?"

"Yes, but not in every sense of the word. For instance, if the woman is what you say, she is not only a woman of good family or of good breeding and refinement, but she is also, according to the Century Dictionary, 'a sweetheart (local United States); a slate measuring about sixteen inches broad by ten long; the calcareous apparatus in the cardiac part of the stomach of the lobster, the function of which is the trituration of food.' And if she is all that her fortune is made in the museum line."

After that it was noted that Blifkins usually pruned down the remark to "she is a lady" simply.—New Orleans Times-Democrat.

The Solan Geese.

Richard Bell in his book, "My Strange Pets," tells of the solan geese, which in Great Britain in bygone days used to be salted and dried for human food: "Many years ago these dried geese found their way to the lowlands of Scotland and were used as an appetizer. A small portion when eaten before meals was supposed to tickle the appetite. In this connection I have heard a good story: A worthy farmer in the neighborhood gave a dinner party, and when the dinner was in progress he asked one of his guests if he would have 'another portion,' upon which the guest remarked, 'I think I will, as I et a bit o' solan goose afore I left hame and it has made me very hungry,' upon which his neighbor said, 'I dinna believe in these solan geese, for I et a haill yin afore I cam' awa' and I dinna feel a bit the hungrier.'"

The Books of Ancient Persia.

We knew that the Moslems when they conquered Persia found in that country an innumerable quantity of books and scientific treatises and that their general, Saad Ibn Abi Ouccas, asked Caliph Omar by letter if he would allow him to distribute those books among the true believers with the rest of the booty. Omar answered him in these terms: "Throw them into the water. If they contain anything which can guide men to the truth we have received from God what will guide us much better. If they contain errors we shall be well rid of them, thank God!" In consequence of this order the books were thrown into the water and the fire, and the literature and science of the Persians disappeared.—Notices et Extraits.

The Atmosphere.

The earth's sensible atmosphere is generally supposed to extend some forty miles in height, probably farther, but becoming at only a few miles from the surface of too great a tenuity to support life. The condition and motions of this aerial ocean play a most important part in the determination of climate, modifying by absorbing the otherwise intense heat of the sun and when laden with clouds hindering the earth from radiating its acquired heat into space.—St. Louis Republic.

All Against the Preacher.

Sydney Smith loved to tell a good story, and one that haunted his brain and tickled his sides for weeks was that of a tame magpie in a church that suddenly descended on the reading desk and strove to fly off with the sermon and of the desperate struggle that ensued between the bird and the preacher, the congregation all in favor of the bird.

Naturally.

Patient—Well, doctor, do you think I'm getting well all right? Doctor—Oh, yes. You still have a good deal of fever, but that doesn't trouble me. Patient—Of course not. If you had a fever it wouldn't trouble me.—Tales.

A Southern Reminiscence.

In "A Southern Girl In '61" Mrs. D. Giraud Wright describes the burial of the young hero, Latane, one of the most dramatic and touching incidents in the story of the Confederacy. He died leading a gallant charge.

"John Latane, a lieutenant in his brother's company, took charge of the body and, with a cart and driver, tried to return to Richmond. Finding this impossible, as the enemy were in possession of the country all around, he went to Westwood, the home of Dr. Brockenbrough, who was then a surgeon in the army. The enemy approaching, and he, to avoid capture, was obliged to leave his brother's remains and escape on foot. Mrs. Brockenbrough sent for an Episcopal clergyman to perform the funeral ceremonies, but the enemy would not permit him to pass. Then, with a few other ladies, a fair haired little girl, her apron filled with white flowers, and a few faithful slaves who stood reverently near, a pious Virginia matron read the solemn and beautiful burial service over the cold, still form of one of the noblest gentlemen and most intrepid officers in the Confederate army. She watched the clods heaped upon the coffin lid, then sinking on her knees, in sight and hearing of the foe, she committed his soul's welfare and the stricken hearts he had left behind him to the mercy of the All Father."

Meaning of Surnames.

Nearly all surnames originally had a meaning. They were descriptive of their owners. In a word, they were nicknames, like "Skinny" or "Shorty" or "Pud."

Peel is a surname that shows the original Peel to have been bald. Grace means fat, from the French "gras." Grant, from "grand," means big.

An Oliphant should be a clumsy and unwieldy person. This surname was "elephant" originally.

The Parkers were keepers of noblemen's parks. The Warners were warreners, or rabbit tenders. The Barkers prepared bark for tanning. The Laboucheres were butchers.

Bell meant handsome. Cameron meant crook nosed. Curtis meant polite. And Forster meant a forester, Napier a servant in charge of the table linen, Palmer a pilgrim, Wainwright a wagon builder, Walter a wall builder, Webster a weaver, Wright a carpenter.—Philadelphia Bulletin.

Substitutes For Tobacco.

Sailors on long cruises sometimes exhaust their tobacco. Thence untold misery and many ingenious efforts to create a tobacco substitute. Tea and coffee make the best tobacco substitutes. They smoke freely in pipe or cigarettes, and their taste and aroma are not unpleasant. But they burn the mouth and rack the nerves. Rope yarn—the untwisted parts of rope and oakum—is smoked by sailors as a last resort. Bark, peeled from the hoops of salt beef and pork barrels, is also smoked when the limit is reached. These things smoke abominably, and the black fumes that they give forth from the sailors' mouths are always accompanied by oaths and imprecations. Yet many a desperate sailor has smoked them in the hope of appeasing his tobacco hunger.

St. Maurice.

St. Maurice, in Switzerland, is the name of a little station on the railway that leads up the Rhone valley from the lake of Geneva. The place gets its name as follows: Maurice was the officer second in command of the Thebaic legion, which the Emperor Maximian marched over the Alps in A. D. 302 to quell a rising in Gaul. At Octodurum (Martigny) the legion, every man of which was a Christian, was ordered to sacrifice to the Roman gods for the success of the expedition. Headed by Maurice, they refused, marched off to Agaunum (St. Maurice) and there were twice decimated to enforce submission. But they still refused, and finally the remainder were surrounded and cut down by the rest of the army.

Automatic Cooking Boxes.

Automatic cooking boxes were in general use among the Hebrews nearly 2,000 years ago. The Greek and Roman writers frequently refer to them. In his edition of "Juvenile," for example, Friedlander cites a commentator, who refers to "the Jews who a day before the Sabbath put their viands hot into the cooking boxes, the pots being covered with napkins and wrapped about with hay so that they may have warm food on the Sabbath."

Always In Evidence.

"I notice," observed Tuffoid Knutt, "that people don't pay no taxes on the costliest things they's got."

"How's that?" grunted Ruffon Wratz.

"Well, f'r instance, if you wuz wuth even a million you wouldn't have to pay nothin' on that peach of a nose you've got."—Chicago Tribune.

Interested.

Nell—Mrs. Closeleigh is getting up a fair to help a poor widow pay her rent. Belle—I didn't know Mrs. Closeleigh was so philanthropic. Nell—She isn't. She owns the house the poor widow lives in.—Philadelphia Record.

Similar Symptoms.

One—Are you certain that you love the girl? Tuther—Certain? Why, I can't sleep of nights for thinking about her. One—I get the same effect from my tailor's bills.—New Yorker.

The Way to Success.

Success in industrial business nowadays is as simple as a fairy tale. The young man must find out how to kill the dragon—the dragon of competition.—Saturday Evening Post.

"Facts are stubborn things" is an aphorism first used by Le Sage in "Gil Blas." It has since become proverbial.

Doomed the Colonel.

Emperor William I. of Germany was a strict disciplinarian. One day during the maneuvers of the army a cavalry regiment charged at a strongly intrenched and embattleried village, of which the garden walls were lined with marksmen. "Look, look!" exclaimed the Russian representative, "That regiment is lost." "No," was the emperor's calm reply, "this regiment isn't, but the colonel certainly is." And, sure enough, at the close of the maneuvers he was placed on the retired list.

Two Kinds of Boys.

"My son got brain fever from studying too hard," said one mother to another, trying to repress a thrill of intellectual pride.

"That's bad, but my boy broke his leg and two ribs in his first game of football," replied the other, with motherly gratification.—Baltimore American.

DEFECTIVE PAGE

PAINFUL PERIODS

Suggestions How to Find Relief from Such Suffering.

Miss Nellie Holmes
Mrs Tillie Hart

While no woman is entirely free from periodical suffering, it does not seem to be the plan of nature that women should suffer so severely. Menstruation is a severe strain on a woman's vitality. If it is painful or irregular something is wrong which should be set right or it will lead to a serious derangement of the whole female organism.

More than fifty thousand women have testified in grateful letters to Mrs. Pinkham that Lydia E. Pinkham's Vegetable Compound overcomes painful and irregular menstruation.

It provides a safe and sure way of escape from distressing and dangerous weaknesses and diseases.

The two following letters tell so convincingly what Lydia E. Pinkham's Vegetable Compound will do for women, they cannot fail to bring hope to thousands of sufferers.

Miss Nellie Holmes of 540 N. Division Street, Buffalo, N. Y., writes:

Dear Mrs. Pinkham:—

"Your medicine is indeed an ideal medicine for women. I suffered misery for years with painful periods, headaches, and bearing-down pains. I consulted two different physicians but failed to get any relief. A friend from the East advised me to try Lydia E. Pinkham's Vegetable Compound. I did so, and no longer suffer as I did before. My periods are natural; every ache and pain is gone, and my general health is much improved. I advise all women who suffer to take Lydia E. Pinkham's Vegetable Compound."

Mrs. Tillie Hart, of Larimore, N. D., writes:

Dear Mrs. Pinkham:—

"I might have have been spared many months of suffering and pain had I only known of the efficacy of Lydia E. Pinkham's Vegetable Compound sooner; for I have tried so many remedies without help.

"I dreaded the approach of my menstrual period every month, as it meant so much pain and suffering for me, but after I had used the Compound two months I became regular and natural and am now perfectly well and free from pain at my monthly periods. I am very grateful for what Lydia E. Pinkham's Vegetable Compound has done for me."

Such testimony should be accepted by all women as convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for all the distressing ills of women.

The success of Lydia E. Pinkham's Vegetable Compound rests upon the well-earned gratitude of American women.

When women are troubled with irregular, suppressed or painful menstruation, leucorrhœa, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating, (or flatulency), general debility, indigestion and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Don't hesitate to write to Mrs. Pinkham if there is anything about your sickness you do not understand. She will treat you with kindness and her advice is free. No woman ever regretted writing her and she has helped thousands. Address Lynn, Mass.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

THERE IS NO SLICKER LIKE TOWER'S FISH BRAND

Forty years ago and after many years of use on the eastern coast, Tower's Waterproof Oiled Coats were introduced in the West and were called Slickers by the pioneers and cowboys. This graphic name has come into such general use that it is frequently though wrongfully applied to many substitutes. You want the genuine. Look for the Sign of the Fish, and the name Tower on the buttons.

No Reason to Complain.

"The independence of the American waiter is a great and glorious thing," said A. F. D. Stall, of Australia. "He has been roaming about in this broad western hemisphere, breathing the air of freedom, liberty and independence until he is saturated with it. In Chicago the other day I said to a waiter in a cafe:

"'Waiter, is this a pork chop, or a mutton chop?'

"'Can't you tell by the taste?' asked the waiter, marvelously disinterested in the identity of the chop.

"'I certainly cannot,' I replied.

"'Then what difference does it make?' replied the waiter."—San Francisco Chronicle.

Go East via the Nickel Plate Road.

Lowest rates via the Nickel Plate Road and its eastern connections to all points in Eastern and New England States. Three elegant through trains daily to Cleveland, Buffalo, New York and Boston. Calahan, General Agent, 113 Adams St., Chicago, Ill.

Among the qualities that win in a football game, honorable mention must be given to avoirdupois.—Chicago Tribune.

A GIANT LAID LOW.

Crippled and Made Ill By Awful Kidney Disorders.

John Fernaays, fruit raiser, Webster, N. Y., says: "I used to lift railroad ties easily, but wrenched my back and began to suffer with backache and kidney trouble. I neglected it until one day a twinge felled me like a log, made me crawl on hands and knees. I was so crippled for a time that I couldn't walk without sticks, had headaches and dizzy spells and the kidney secretions were muddy and full of brick-dust sediment. Doan's Kidney Pills made the pain disappear and corrected the urinary trouble. I have felt better ever since."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

$16.00 an Acre

160 ACRE FARMS IN WESTERN CANADA FREE

of WESTERN CANADA is the amount many farmers will realize from their wheat crop this year.

25 Bushels to the Acre will be the Average Yield of Wheat.

The land that this was grown on cost many of the farmers absolutely nothing, while those who wished to add to the 160 acres the Government grants, can buy land adjoining at from $6 to $10 an acre.

Climate splendid, school convenient, railways close at hand, taxes low.

Send for pamphlet "20th Century Canada" and full particulars regarding rate, etc., to SUPERINTENDENT OF IMMIGRATION, Ottawa, Canada, or to the following authorized Canadian Government Agents:

NEWS OF MINNESOTA.

Iron Ore.

Duluth.—Julius Moersch, statistitian of the state labor department, has completed a comprehensive report upon iron ore mining in Minnesota during 1904. After several months of inspection and correspondence with the operators of the large mines he had gathered together some interesting data touching the production of ore on the range and labor conditions as they existed during that year. The magnitude of the industry in Minnesota can be easily grasped by a perusal of the report.

The five Lake Superior iron ore ranges, the Mesaba, Vermillion, Gogebic, Menominee and Marquette range, had at the close of the year 1904 shipped a total of 365.696,359 tons of ore, of which the Minnesota mines, located in the Vermillion Vermillion and Mesaba ranges furnished 37.5 per cent, or in round numbers 100,817,075 tons.

Peat For Coal.

Norwood—With the establishment of a large manufacturing plant here, where it has aquired a 500-acre peat bed, the Northwestern Fuel Manufacturing company, just organized in Minneapolis, will introduce peat in the local market as a substitute for hard coal. An output of 600 tons a day is the prospect of the prosposed Norwood factory, and the manufacturers, declaring their article will be the equal of the anthractic product and can be sold at a much lower rate, expect the new industry to flourish. In the event of success they promise to enlarge their scope and establish other plants in different peat localities of the state. Three Minneapolis young men are the incorporators of the company.

More Saloons Close.

Robbinsdale.—E. J. Urban, president of the village, declares that he will emulate the example of Mayor David P. Jones of Minneapolis and close the four saloons in this village on Sundays. Mr. Urban, in company with Councilman Johnson, called upon Mayor Jones and expressed an intention of following his footsteps. "The manner in which the saloons in our town were conducted Sunday was a disgrace," declared Mr. Urban. "The saloonkeepers had placarded the town, advertising raffles and other forms of amusements for the purpose of attracting large numbers to their places of business."

Salute the Flag.

Ft. Snelling.—The form of salute to the flag will be amended, in accordance with orders received at the post. The custom has been for all persons connected with the military service to stand at attention during the playing of the "Star Spangled Banner" by the band. According to the new order "all persons in a military reservation at the sounding of retreat will stand at attention and salute with the hand while the band plays the Star Spangled Banner."

Baby Drowned.

Brainard.—A four-months-old Indian baby was drowned in Leach lake. The child slipped from the back of the mother who was in a rowboat on her way to the agency. The woman was intoxicated at the time and did not miss the child for several moments. This was the only death or accident as a result of the spending of the regular annuity checks which the Indians received a few days ago.

Bold Burglars.

Minneapolis.—Burglars dug through two seven-inch brick walls to get into Arthur Zakman's fur store, 23 Fifth street south, late Saturday night.

After thus gaining entrance they carried off furs to the value of $4,000. The loss is but partially covered by insurance.

The job was one of the most finished ever done in Minneapolis and the police are inclined to the belief that professionals have dropped into the city.

Indicted.

Minneapolis.—The big fight has begun. Four of the five prominent Minneapolis insurance men indicted for alleged grand larceny because of the alleged misappropriation of Northwestern National Life Insurance company funds, and a former state insurance commissioner indicted on the charge of bribary, were arraigned before Judge H. D. Dickinson, of the district court.

News Notes.

St. Paul—W. G. Tubby, general storekeeper of the Great Northern, is appointed chief of the division of material and supplies at Panama.

St. Paul—Attorney General Young rules that the farmers' institute board had no right to vote the superintendent extra pay twelve years ago.

Ada—Former State Senator O. H. Senator Myran died at his home in Los Angeles, Cal. Mr. Myran had not been in good health for some years, but his death came as a surprise to his Minnesota friends.

St. Cloud—The Protestant ministers of this city have decided the time is ripe for St. Cloud to experience a revival in religious thought and action.

Red Wing — Edward Keating of Tunnel City, Wis., who was run over by a Milwaukee train and had both legs almost cut off, died from his injuries at St. Joseph's hospital. He was twenty-seven years of age and leaves an aged mother who is broken-hearted over the affair.

Springfield—John Kors of Cincinnati, Ohio, who has been visiting with relatives near here, was seriously hurt trying to stop a runaway team.

St. Paul—Milton Trenham of the dairy and food commission challenges Thomas A. Edison's statement that we eat too much.

DISAGREEABLY AGREEABLE.

Young Man Was There with the Oily Approval to a Nauseating Extent.

A story told of the late James F. Joy is at least characteristic. He was never weak in his likes or dislikes, and among the things that he dearly liked were honesty and naturalness. The attempt to appear what one were not was to antagonize him, says the Cincinnati Commercial Tribune.

Mr. Joy had many positions at his disposal, and an applicant for one of them came with gilt-edged credentials. The young man presenting them was of good appearance, finely educated, and the son of one whom the financier had respected for years. Wise as to his tongue the youth would have a walkover.

The older man purposely engaged the younger in conversation. The latter replied in smooth sentences, delivered in dulcet tones. Mr. Joy would make a statement carrying an opinion, and there would be unctuous approval from his caller. This got on to the nerves of the sturdy old gentleman. He advanced an opinion diametrically opposed to the one delivered but a few sentences before. The youth was right there with his oily approval. The railroad magnate wondered how far it would go, and put the test:

"Don't you think that this is a much warmer summer than last?"

"Unquestionably."

"But on second thought I think it considerably cooler."

"You are certainly right, sir."

"Young man, you are so persistently agreeable as to be disagreeable."

Get at the Cause.

Sacramento, Ky., Nov. 13th (Special)—A typical illustration of the way Dodd's Kidney Pills Cure Rheumatism is well told by Catherine Devine, who is very well known here. She says:—

"For over four years I was greatly troubled with Rheumatism. It used to take me worst in my legs and feet. At times I would be so bad I could not put my feet to the ground. As I am over seventy-three years of age I began to think I was too old to get cured and should have to bear my Rhuematism the best way I could. But I heard about Dodd's Kidney Pills and thought I would give them a trial. So I got a box and began taking them. Well, I must say Dodd's Kidney Pills did me a wonderful lot of good. They eased the pain from the first, and to-day I am in better health than I have been for many years."

Resorting to the Higher Methods.

The pickpocket had been caught in the act and arrested.

"What is the meaning of this?" he exclaimed, pale with indignation, and struggling violently. "Gentlemen, this is an outrage! I can explain it all! You have no right to meddle in my business affairs! Besides, I can prove an alibi!"

But he was too insignificant an operator. He was hurried off to the lockup.—Chicago Tribune.

SKIN-TORTURED BABIES.

Instant Relief in Warm Baths with Cuticura Soap and Gentle Anointings with Cuticura Ointment.

The suffering which Cuticura Remedies have alleviated among the young, and the comfort they have afforded worn-out and worried parents, have led to their adoption in countless homes as priceless curatives for the skin and blood. Infantile and birth humors, milk crust, scalled head, eczema, rashes, and every form of itching, scaly, pimply skin, and scalp humors, with loss of hair, of infancy and childhood, are speedily, permanently and economically cured when all other remedies suitable for children, and even the best physicians, fail.

"De man dat thinks he knows it all," said Uncle Eben, "ginerally turns out to be a victim of misplaced confidence."—Washington Star.

NOT A TRACE LEFT

Rheumatism Thoroughly Cured by Dr. Williams' Pink Pills for Pale People.

There is one remedy that will cure rheumatism in any of its forms and so thoroughly eradicate the disease from the system that the cure is permanent. This remedy is Dr. Williams' Pink Pills for Pale People and the proof of the statement is found in the experience of Mr. T. S. Wagar, of No. 72 Academy street, Watertown, N.Y. He says:

"The pain was in my joints and my sufferings for over two years was beyond description. There was an intense pain in my shoulders that prevented me from sleeping and I would get up and walk the floor at night. When I began taking Dr. Williams' Pink Pills the improvement was gradual, but by the time I had taken four boxes I was entirely cured and I have not had the slightest touch of rheumatism since that time."

Mr. Wagar's wife is also enthusiastic in her endorsement of Dr. Williams' Pink Pills. She says: "I have tried the pills myself for stomach trouble and have experienced great relief from their use. My daughter, Mrs. Atwood, of Gill street, Watertown, has used them for female weakness and was much benefited by them. I regard Dr. Williams' Pink Pills for Pale People as an extremely valuable family medicine."

Dr. Williams' Pink Pills have cured the worst cases of bloodlessness, indigestion, influenza, headaches, backaches, lumbago, sciatica, neuralgia, nervousness, spinal weakness, and the special ailments of girls and women whose blood supply becomes weak, scanty or irregular. The genuine Dr. Williams' Pink Pills are guaranteed to be free from opiates or any harmful drugs and cannot injure the most delicate system. At all druggists or from the Dr. Williams Medicine Co., Schenectady, N. Y., postpaid, on receipt of price, 50 cents per box, six boxes for $2.50.

Running Account.

"The cashier has skipped out and his books are in an awful muddle," announced the bookkeeper. "What shall we do?" "Open a running account with him at once," said the president, promptly.—Cleveland Leader.

Piso's Cure for Consumption is an infallible medicine for coughs and colds.—N. W. Samuel, Ocean Grove, N. J., Feb. 17, 1900.

"Dey used ter say," said Uncle Eben, "dat Satan laid in wait foh folks, but nowadays it 'pears like he's kep' busy by folks ringin' at his do' bell."—Washington Star.

W. L. DOUGLAS
$3.50 & $3.00 SHOES FOR MEN
W. L. Douglas $4.00 Gilt Edge Line cannot be equalled at any price.

W.L.DOUGLAS SHOES ALL PRICES
BEST IN THE WORLD
ALL STYLES
THE WORLD'S GREATEST SHOEMAKER
SOLE AGENTS FOR W.L.DOUGLAS SHOES
ESTABLISHED JULY 6, 1876.

W. L. DOUGLAS MAKES AND SELLS MORE MEN'S $3.50 SHOES THAN ANY OTHER MANUFACTURER.

$10,000 REWARD to anyone who can disprove this statement.

W. L. Douglas $3.50 shoes have by their excellent style, easy fitting, and superior wearing qualities, achieved the largest sale of any $3.50 shoe in the world. They are just as good as those that cost you $5.00 to $7.00—the only difference is the price. If I could take you into my factory at Brockton, Mass., the largest in the world under one roof making men's fine shoes, and show you the care with which every pair of Douglas shoes is made, you would realize why W. L. Douglas $3.50 shoes are the best shoes produced in the world.

If I could show you the difference between the shoes made in my factory and those of other makes, you would understand why Douglas $3.50 shoes cost more to make, why they hold their shape, fit better, wear longer, and are of greater intrinsic value than any other $3.50 shoe on the market to-day.

W. L. Douglas Strong Made Shoes for Men, $2.50, $2.00. Boys' School & Dress Shoes, $2.50, $2, $1.75, $1.50

A WEEK'S NEWS IN CONDENSED FORM

RECORD OF MOST INTERESTING EVENTS TOLD IN BRIEFEST MANNER POSSIBLE.

HOME AND FOREIGN ITEMS

Information Gathered from All Quarters of the Civilized World and Prepared for the Perusal of the Busy Man.

THE INSURANCE PROBE.

James Hazen Hyde, testifying before the New York insurance legislative committee, declared that the Mercantile Trust company, an offshoot of the Equitable Life, paid $75,000 to former Gov. Odell in order to prevent an attack from Albany, as a result of the shipbuilding trust scandal. He explained the $685,000 "yellow dog" fund and charged Harriman and Frick with conspiring to get him to go abroad.

E. H. Harriman denied on the witness stand before the insurance investigating committee that he ever advised James H. Hyde to settle with former Gov. Odell, who was suing the Mercantile Trust company. Mr. Hyde reaffirmed his statement. Former Gov. Odell asked the privilege of being heard.

Former Gov. Odell gave Hyde the lie before the Armstrong committee. He denied that he sandbagged the Equitable into paying the $75,000 shipbuilding claim.

Senator Chauncey M. Deepw, who was on the stand as a witness in the insurance investigation in New York, expressed the hope that state legislatures would enact laws forbidding contributions in aid of political parties. He denied lobbying at Albany and disclaimed knowledge of the use of railroad passes to influence legislation.

Richard A. McCurdy, president of the Mutual Life Insurance company, startled the trustees by announcing that he had cut his $150,000 salary to $75,000.

President McCall of the New York Life Insurance company promises to pay into the treasury of the company $235,000, provided Andrew Hamilton, the lobbyist, does not return that sum of the company's money before December 31.

THE TURMOIL IN RUSSIA.

The Russian council of workmen's delegates at St. Petersburg resolved to secure an eight-hour day by revolution if necessary. Mobs sacked the towns of Gors and Krivcirog, Russia, killing 500 persons and setting fire to the buildings. Many persons were killed in Vladivostok, where soldiers joined the rioters after the warships sailed.

The czar's offer of crown lands to the peasants is regarded as a last effort to appease the hunger of an awakened nation. The imperial estates embrace 401,624,000 acres.

Preparations are being made in St. Petersburg for serious battles in the streets, following the sudden strike of 100,000 men, led by the revolutionaries, who seek to depose the czar. The people are panic-stricken.

The czar, in a manifesto, paves the way for Russian peasants to acquire vast tracts of land, a boon for which they have clamored for years, and abolished taxes amounting to $40,000,000.

MISCELLANEOUS.

William R. Hearst, candidate for mayor of New York on the municipal ownership ticket, certified to the secretary of state that his total campaign expenses were $65,843. This breaks the record for such expenses, which was formerly held by Gov. Higgins, who spent during the last state campaign $22,000.

William S. McSwain and Willie Cole, an accomplice, were arrested in Chicago on a charge of attempting to blackmail Armour & Co., out of $40,000 for stolen correspondence.

Thomas W. Lawson in a magazine article declares a clique of financiers traded on McKinley's death.

Mrs. Astor entertained Prince Louis of Battenberg at dinner in New York and caused a new division in society by selection of an exclusive 79, representing the cream of the "400."

The executive committee of the National Grange, in its report, scores grafters of millions "who occupy positions of trust or hold down seats in the United States senate."

President Roosevelt selected J. Van Vechtin Olcott as candidate for the chairmanship of the republican county committee of New York, to lead the fight against B. B. Odell, Jr., under the direction of Platt.

A gas explosion at a mine shaft at Benleysville, Pa., resulted in the death of eight miners.

The Wisconsin supreme court, in a decision, held that, in granting divorces, judges cannot award children to outsiders, but must give the children to one parent or the other.

The board of canvassers in New York discovered votes for William Randolph Hearst credited to the prohibition candidate.

Fearing her husband married her for her money, Mrs. Charlotte M. Weightman, of Chicago, threw $15,000 in the fire.

Stephen Salisbury died at Worcester, Mass., broken-hearted and alone. He was the victim of his father's will leaving fortune with proviso that he should never wed. He gave up the woman he loved for $20,000,000.

A majority of the consulting board of engineers will recommend that the United States build a sea level canal across the isthmus of Panama. They say the cost will be only a little more than a lock ditch.

An international naval prize fight in New York resulted in an easy victory for an English sailor, attached to Prince Louis' squadron, over an American marine, at the end of the third round.

The final result of the plebiscite shows that 259,963 votes were cast in favor of Prince Charles for king of Norway, and 69,264 against him.

The count of Flanders, brother of King Leopold of Belgium, and heir to the throne, died in Brussels. Death was due to inflammation of the respiratory organs. The count was born in 1837. The new heir to the throne of Belgium is Prince Albert of Flanders, only son of the late count of Flanders.

The Montana supreme court held the anti-trust law of that state to be unconstitutional, since it violates the constitutional provision against class legislation.

The shingle manufacturers of northwest Washington concluded arrangement to close down plants throughout that state for 60 days, beginning December 1.

Henry S. Cauthorn, well-known as a historian, died at Vincennes, Ind. He was a speaker of the Indiana house of representatives in 1879.

Fire in the large warehouse of the American Beet Sugar company's plant at Rockford, Col., caused a loss estimated at from $300,000 to $400,000, fully covered by insurance. There were about 10,000,000 pounds of sugar in the warehouse.

William Sink was shot and instantly killed at the Dichason mine, one mile north of Linton, Ind., by Lee Hammond. The murderer was arrested and admitted killing Sink. The men quarreled over alleged attentions paid to Hammond's wife by Sink.

A sensation was created in the New York election investigation by the disappearance of an alleged illegal voter, who failed to appear in court, thus forfeiting $5,000 bail.

Commissioner of Pensions Warner, ignoring precedent, appointed two women to serve on board of the pension review.

Speaker Cannon and all the other officers of the national house will probably be reelected by the republican members.

Secretary Root is ready to negoitate a treaty with Great Britain covering all disputes with Canada over tariff, fisheries, etc.

August Heusne, a farmer living eight miles southwest of Carlyle, Ill., while pulling a bucket of water to water the stock, lost his balance and fell headlong into the well and was drowned. He was 64 years of age.

Labor unions were denounced as trusts by the Citizens' Industrial association at its convention in St. Louis, and federal and state authorities are urged to prosecute them.

While playing with a shotgun Helen Meunse, 11 years old, of Muscatine, Ia., accidentally shot and killed May Meunse, 11 years old.

Gov.-elect Pattison of Ohio is suspected of the intention of nailing down the lid all over the state, and putting a stop to Sunday saloons and concerts.

Attorney General Moody holds the report of Commissioner Garfield in the beef inquiry useless, will not use it in the coming proceedings and denies any hope of immunity for packers.

Charles S. Mellen, an eastern railroad president, took luncheon with President Roosevelt, and announced his intention of joining him in his fight for rate legislation.

Minnie Mitchell, 32 years old, and Allie Bowers, 22 years old, were found dead in the kitchen of the flat occupied by them. Their deaths were due to poison. It is thought something they had eaten may have caused death.

In an explosion at the Buckeye powder works at Edwards Station, 14 miles northwest of Peoria, Ill., two men met instant death and several other employes were injured.

S. P. Ayres, editor of the Marshalltown (Ia.) Herald, committed suicide by shooting. He had become excessively despondent because of ill health.

Very Rev. Charles D. Williams, dean of Trinity cathedral, Cleveland, was elected bishop of the Episcopal diocese of Michigan on the second ballot of the diocesan convention at Detroit, Mich.

Five persons were burned to death in an Italian tenement house fire in New York. Three of those who lost their lives were kneeling in prayer when the fire reached them.

Miss Mabel Beland won a $15,000 verdict in her breach of promise suit at Chicago against ex-Alderman John O'Neill.

In the presence of Mrs. McKinley, the trustees of the McKinley National Memorial association, other noted guests and citizens and school children, the corner stone of the American monument, the gift of the American people, was formally laid at Canton, O.

Rev. Dr. William Sims Knight, president of Carthage collegiate institute, died at his home in Carthage, Mo., aged 68 years.

The students of the Nebraska Central college, a prominent educational institution in Omaha, have decided by a unanimous vote to eliminate football from the list of college sports.

Attorney General Moody will fight the packers' plea for immunity to the last.

President Roosevelt reiterates that he is in favor of joint statehood for Oklahoma and Indian Territory.

Three deaths were caused at Paterson, N. J., by the falling of a heavy picture on the wall which broke a gas pipe while the Schroeder family were asleep. Chris Schroeder, his mother, Catherine, and her grandchild, Ira La Forge, were all asphyxiated.

The administration is declared to hold that the Isle of Pines belongs to Cuba, and American residents will receive no encouragement in plans for annexation to the United States.

One girl was shot and killed and another wounded in resisting a hold-up man near Grand Rapids, Mich.

David Gilwater, aged 13, is under arrest at Chillicothe, O., for the murder of his brother Albert, aged 2½ years, who was found burned to death at the home of his parents, near Three Locks.

The New York supreme court has granted a joint request of Mayor McClellan and Mr. Hearst that a mandamus be issued to compel the production of the original election tally sheets before the canvassers.

Col. J. M. Clark, brevet brigadier and general in the confederate army, and who was for a number of years agent for the Mescalero Apache Indians of New Mexico, is dead at his home at Snyder, Okla., aged 72 years.

Another suit for a sum aggregating $90,000 has been brought by the receiver for the Enterprise bank of Allegheny, Pa., against William H. Andrews.

Robert G. Lynn, or "Col. Bob," one of the most widely known sporting men and bookmakers in the country, died at Cincinnati, O., of pneumonia.

Three men were killed and another fatally injured in an explosion of dynamite at the Coal & Coke company's quarry near Charleston, W. Va.

Half a block of business structures were wiped out at Grantberg, Wis., with a loss of $67,000, six buildings being destroyed.

Chief of Police Bond, of Port Hope, and his sister-in-law, Miss Grier, of Toronto, were drowned near Haliburton, Ont.

W. H. Moore, of St. Louis, was elected president at the annual metting of the National Good Roads association in St. Louis.

Fire wiped out the entire town of Burke, W. Va., entailing a loss estimated between $200,000 and $300,000. Only four dwellings and one storeroom remain of more than 200 houses.

More than 800,000 farmers in 28 states were represented by the delegates to the thirty-ninth annual convention of the National Grange Patrons of Husbandry, which began at Atlantic City, N. J.

Three men were killed and two fatally injured by a dynamite explosion near Safe Harbor, Pa. The men were blasting on a new freight line when the blast was prematurely discharged.

The silver jubilee of the American Federation of Labor was opened in Pittsburg, and President Samuel Gompers, in his report, recommended many changes to advance the cause of unionism.

Fearing reduction of wages would follow passage of legislation adverse to railroads, delegates of railway employes plan to pit American Federation of Labor against President Roosevelt's rates policy.

Residents of the Isle of Pines declared their independence from Cuba, formed a new government and notified President Roosevelt of their desire to have the island become a territory of the United States.

The British steamer Bavaria, bound from Barry for Bordeaux, has been lost off Belle Isle, France. Part of her crew has been landed at Noirmoutier, France. The captain and 14 men are missing.

George B. Reed, a prominent citizen of Kent county, Delaware, committed suicide in an unusual manner. Securing a double-barrel shotgun, he sat in bed and discharged the weapon with a broomstick.

While driving across the railroad tracks near Galt, Mo., Mrs. George Greene and her mother-in-law, Mrs. Rachael Greene, were killed by a passenger train, which splintered the buggy to atoms.

Lieut. Col. Arthur Tremayne, one of the few remaining survivors of the "charge of the light brigade" at Balaklava in which he was wounded and his horse shot, died in England at the age of 78.

HUNDREDS ARE DROWNED AT SEA

THE BRITISH STEAMER HILDA IS WRECKED OF COAST OF FRANCE.

Steamer Misses Her Way in a Fog and Bad Weather and Strikes a Rock and Sinks at Once. Hundreds are Drowned.

London, Nov. 20.—The Southwestern railway's cross-channel steamer Hilda was wrecked yesterday morning off St. Malo, on the north coast of France, and it is believed that 100 or more of her passengers and crew were drowned.

The Hilda left Southampton Friday night for St. Malo, with considerable more than 100 souls on board. Her passage was greatly delayed by a fog in the channel, and when nearing St. Malo she ran into a severe snow storm, apparently missed her course and foundered on the rocks of Jardin lighthouse, three miles from St. Malo.

The company's steamer Ada, outward from St. Malo, rescued five of the passengers and one of the crew. These are now on the way to Southampton. There is an unconfirmed report that seventy had been saved.

The crew numbered twenty-six, and there were about 100 passengers, all Frenchmen, the majority being union dealers from S.. Briae and neighborhood.

A telegram from St. Servan adjoining the town of St. Malo gives the few particulars yet available.

The Hilda was near St. Malo Sunday morning. She struck the rocks at 4 o'clock in the roadstead off Cezam[illegible], having missed the way owing to fog and bad weather. The passengers were asleep at the time.

Two boats were lowered, one of which, containing five men, arrived at St. Servan.

The second boat was picked up empty at St. Cast, where thirteen bodies were washed ashore.

The top of the Hilda's funnel and her mast are visible at low tide.

The Hilda was built at Glasgow in 1882 and registered 848 tons. She was a screw steamer of iron construction and was 235 feet in length.

FOOTBALL SCORES.

The Gophers Defeat the Cornhuskers while the Badgers go Down Before the Wolverines.

Minneapolis, Minn., Nov. 20.—In the presence of a 8,000 people Saturday at Northrup Field, the Minnesota university football team defeated the Nebraska university team by the score of 35 to 0. Minnesota outclassed their opponents at every point of the game and the Minnesota goal was never in danger.

Ann Arbor, Mich., Nov. 20.—Before a crowd of 20,000 Michigan defeated Wisconsin Saturday, 12 to 0. The Badgers gamely contested every inch of ground, but were badly handicapped by the loss of Captain Vanderboom, who dislocated his shoulder in practice three days before the game. During the game a section of the seats fell. A number of people were painfully injured, but none seriouly.

Chicago, Nov. 20.—Chicago university completely overwhelmed the University of Illinois in Saturday's football game, winning by the score of 44 to 0. Eckersall was the star of the game, kicking five goals from the field and scoring a touchdown after a twenty-yard run.

The following scores were made by the big eastern colleges: Yale 23, Princeton 4; Harvard 6, Dartmouth 0; Columbia 12, Cornell 6; West Point 34, Trinity 0, Navy 22, Virginia 0.

Crime in Wilderness.

Winnipeg, Man., Nov. 20.—Inspector McGinnis of the Northwestern mounted police police arrived here, accompanied by two members of the force from Kenora, where he lodged in jail an Ojibway Indian named Tushwegeh, charged with the murder last April of a member of the same tribe, named Peter Geeshigoose.

Cat lake, the scene of the murder, is located in an almost unexplored wilderness, just half-way between Lake Winnipeg and Hudson Bay. It is in the heart of the country practically unknown to white people and traversed by none except the Hudson Bay men on their annual trips south from the bay. Officials of the company first brought word of the murder.

Dies From Violence.

Brainard, Minn., Nov. 20.—T. D. Merrill, an old settler and a former resident of Anoka, was found in a half-conscious condition in an alley back of a saloon late at night, and was taken to the jail by night patrolman Hurley, where he died about 7 o'clock the following morning. At the time he was found, his hands, face and clothes were covered with blood and several bruises about the face and head gave evidence of violence.

AUNT JANE'S TURKEYS

By WRIGHT A. PATTERSON

"AN OLD woman like me don't have many real pleasures," said Aunt Jane Hamilton to Matilda Crawford, one of her neighbors. "I could count my annual pleasures on one finger on one hand, and now for this year that is gone."

"Why, goodness gracious, Aunt Jane! What do you mean?" and Matilda looked the genuine sorrow which in her neighborly heart she felt.

"I mean that the Lord saw fit to take from me my last turkey last night, and now I can't have the Hamilton family to the regular Thanksgiving dinner. Mighty little I'll have to be thankful for this year, and all my invitations out, too. Now I've got to go in and write letters to tell them all not to come."

Aunt Jane Hamilton's Thanksgiving dinner had been the wonder of Philipsburg for many a year. She was a widow whose husband had paid the penalty of his devotion to his country at Gettysburg. Before his marriage John Hamilton had built a big, roomy home for his bride about half a mile from Philipsburg, and that was all that was left her when the bullet ended his life. Here she had lived ever since, eking out a living from the poultry she raised, and the small pension paid her quarterly by the government.

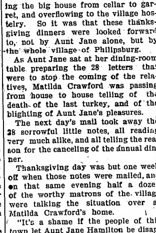
Aunt Jane had never been blessed with children, but both herself and John had been members of large families. It was to all of these brothers and sisters, and to their families, that Aunt Jane's invitations to Thanksgiving dinner went each year. Annually they came trooping into Philipsburg for the family reunion and feast; filling the big house from cellar to garret, and overflowing to the village hostelry. So it was that these thanksgiving dinners were looked forward to, not by Aunt Jane alone, but by the whole village of Philipsburg.

As Aunt Jane sat at her dining-room table preparing the 28 letters that were to stop the coming of the relatives, Matilda Crawford was passing from house to house telling of the death of the last turkey, and of the blighting of Aunt Jane's pleasures.

The next day's mail took away the 28 sorrowful little notes, all reading very much alike, and all telling the reason for the canceling of the annual dinner.

Thanksgiving day was but one week off when those notes were mailed, and on that same evening half a dozen of the worthy matrons of the village were talking the situation over at Matilda Crawford's home.

"It's a shame if the people of this town let Aunt Jane Hamilton be disappointed at not having her family dinner just for the lack of a few turkeys," said Susan Peters. "There ain't anybody in this town that she hasn't done something for at some time, and now they might help her. I'm going to send her one of my turkeys for Thanksgiving, so there!"



PREPARING THE LETTERS.

The result of that little gathering was that the next day six prime turkeys were delivered at Aunt Jane's door by six different boys coming from six different families.

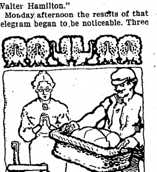
"Whatever will I do now!" cried Aunt Jane, as the sixth turkey was deposited at her back door. "If I only hadn't sent out those letters yesterday. I could have my dinner just the same. I know I can't never get another set written and off in time for all of them to get here. It makes me almost cry to think about it."

By Saturday others in the town had heard of the six turkeys that were sent to Aunt Jane, and they followed the example set them. Even the genial host of the village inn contributed a nice fat hen he had bought for his own use.

In the meantime that host of relatives who had grown to look upon the annual visit to Aunt Jane's as a not-to-be-missed pleasure, were taking action. Her brother-in-law, Walter Hamilton, was a prosperous lawyer in New York city, who for 20 years had never missed one of these family reunions. He received Aunt Jane's sorrowful note on Saturday, and took immediate action. His first move was to get into communication with a farmer he knew raised turkeys for market, and order five of his largest birds to be sent to Mrs. Jane Hamilton, Philipsburg, by express. Then he set the telegraph instruments to clicking, and this is what they said to the 27 other families who had received notes like his own:

"Disregard Aunt Jane's note. Dinner there as usual. Send a turkey.—Walter Hamilton."

Monday afternoon the results of that telegram began to be noticeable. Three turkeys came in on the train, of which two were alive. The next morning the five from Walter arrived, all nicely dressed, and on the same train came two others from his son, Walter, Jr., who had not known of the fact that his father was sending five. The village drayman undertook the task of delivering all of them at Aunt Jane's door, and he made regular trips there after the arrival of each of the two daily trains up to Wednesday morning.



"FORTY-THREE TURKEYS."

And it was not until Wednesday morning that Aunt Jane really knew what the deluge of turkeys really meant. As the drayman delivered his load following the arrival of the morning train, Aunt Jane attempted to take stock of the turkeys on hand, and figure out, if possible, what she could do with them.

"Forty-three turkeys—29 of them alive and 14 dead—and no one to eat the dead ones," she was saying, when there came a knock at the front door. Before she could get her apron off and get to the door, it was pushed open, and in came her sister Mary and her three children.

"Mercy on us! Why did you come!" exclaimed Aunt Jane.

"To eat Thanksgiving dinner with you," they said in chorus.

"But didn't you get my note telling you the turkeys had all died?"

"And didn't you get our turkey?"

Then explanations were in order, and after they were made the whole story was out.

"And to-morrow's Thanksgiving. Mary, you've just got to help me. I haven't got a blessed thing done for that dinner. Here I've been setting wondering about all these turkeys, when I just might have known what it all meant."

And Mary did help, and so did the children, and so did others who came in on the afternoon train, and when the turkeys were placed on the long dining-room table the next day there were gathered around the table the largest number of Aunt Jane's relatives the old home had seen in many a year.

"If the good Lord'll forgive me for doubting His wisdom in taking away my turkeys, I'll never doubt Him again," said Aunt Jane at the dinner table, "for I never had so much to be thankful for on any Thanksgiving day before, and I've been able to make others happy by sending Thanksgiving dinners to the poor families of Philipsburg."

Never a Thanksgiving day has passed at Philipsburg since but what the turkeys for Aunt Jane's family dinner have come in to her from the families that gather about her hospitable board once each year.

Tommy's Experience.

"Our Tommy told me Sunday night that he guessed he'd got the Thanksgiving tired feeling."

"What did he mean by that?"

"Why, he was naughty on Thanksgiving day, and his mother took her slipper and warmed him. Then she warmed him over on Friday and Saturday."

THE SUNBEAM.

BY W. G. HUNT.

Published every Friday, at Sunbeam, Red Lake County ıinnesota.

Subscription price $1.00 per ear in advance. If not paid in dvance $1.50

Entered as Second-class matter August 30. 905, at the post office at Sunbeam Minn. nder the Act of Congress of March 3, 1879.

If some of our legislators, who re of the opinion that some of he farmers of northern Minnes ta were raising wolves to get e bounty on them, should visit is locality at the preasent time, ey would be of the opinion at the farmers had raised a etty big crop this season.

We are a man of peace and tend to our own business, and makes no difference to us what hers may do, but it looks as if ere were some newspapers in is county that were trying to eed a scab on the nose of the ies from which they recieve eir support that might eat like ancer in future years.

it is of no use for you to blame officials of the U. S. Land ce for refusing to take your ney for the second install- nt on your land after the 60 ys are past, as they are only nplying with the law passed the payment for this land, ich says they shall not eccept ir payment after the 60 days passed.

Ve understand that our friend F. Lattimoe has commenced arry his mail from Kratka to e post-office, 5 miles east from h Landing and is going to in a newspaper up there. en he has lugged mail and ers for a printing plant for a months he will conclude that an earns what little he gets of it, and that any one look- for a soft snap to make easy ey had better look for some r business.

he Minnesota country editors have taken advantage of an r by a certain gentlemen in shington to furnish their read- withf areo suppliment, should card the same at once. In sheet carefully and cleverly guised will be found ideas on ffi and railroad rate regulat averse to the policy proclai- l by President Roosevelt, and trary to the wish of the peo Bros., don't poisen the hearts your readers with such tom- rot. Cut it out! —Olbeg rnal.

he threat of Germany to pla- he duties on foodstuffs from United States so high as to unt to prohibition unless we e her a favored nation on go- imported from her will have terror for her own people ours; for we can do without manufactured goods better her people can without som- ng to eat. The United States live within our own boundar- which cannot be said of ma- ations. There is nothing im- ed that we can not do with- f necessary; and be grown manufactured here if necess-

twithstanding the opinion cretary Shaw that the pres- accepted by Miss Alice Roo- lt as daughter of the Presid- should be admited free of , which willbe about $60,000, ident Roosevelt says he will the duties like a man and no more words about it. This he kind of a man who pres over the nation. Now, if the ot scribe was required to 60,000 duties, we would— we might write a check for amount, but—.-Medford O. striot.

By W.G.Hunt Notary Public.

How the Bulldog Was Evolved.

In the north hall of the British Natural History museum skulls of domesticated dogs are arranged which illustrate the evolution of the modern bulldog from a breed which, according to old pictures, was more of the mastiff type. Bull baiting was a common sport in the thirteenth century, and there is a later record which draws a distinction between bulldogs and mastiffs. Low, in his "Domesticated Animals of the British Islands," points out that it is essential that a dog which makes a frontal attack on a bull should be both underhung and short legged, that it may get a firm grip of its antagonist and avoid its horns. We may therefore be sure that, as the bulldog was gradually evolved from the mastiff, these points were held to be of prime importance.

The Lost.

When a fellow has discovered that all his loose change has filtered through a hole in his trousers pocket it is nearly impossible to get him to accept the scientific proposition that nothing is ever lost.

As It Should Be.

He had just proposed, but his poverty was too much of a handicap.

"A man without money," she said, "might as well walk back and sit down."

"Oh, of course," he rejoined. "He naturally wouldn't be in a position to ride back."—Brooklyn Eagle.

LOCAL PARAGRAPHS.

Pay up your back subscription.

Miss Auguste Kuehnel has her store nearly completed.

Do your Notary Public business at the SUNBEAM office.

The best brands of flour for sale at the High Landing store.

Applications to make final proof written free at this office.

Post master Jacobson of High Landing was a pleasant caller here Tuesday evening.

B. Peterson our High Landing blacksmith made a business trip to Plummer this week.

Singer Bros. have a larg stock of flour for sale at Rhoda. Call and get prices.

Good by, summer. Come on winter, for you have been expected for some time.

If you want a good warm cap for winter, call and see Ellingson at the High Landing store.

A. W. Shoston Hans Homme and August Wentzel went down to Thief River Falls Monday on business trips.

Miss Auguste Kuehnel and Henry Arndt drove down to Thief River Falls Sunday, returning Monday.

Miss Mary Gallipeau returned to her home last Tuesday at Thief River Falls, after a pleasant visit at Mrs A' Eves.

Simon and Peter O'Tool and Alfred Eve, have each been fortunate enough to kill a deer since the opening of the season.

Our Indian summer caught cold last evening, and the ground is covered with snow this morning, which we do not expect to part with before next April.

We recieved a social visit from a couple of gentlemen from Thief River Falls last Friday, but as they did not know what they were up here for we of course could not find out.

Stephen Singer came up for a short business visit the first of the week, but left again Thursday morning for Red Lake Agency, where he has some business interests to look after.

There has been bids enough put in for the mail rout from High Landing to Thief River Falls, so that the second assistant post master general had ought to secure one of them, to carry the mail, on that rout. If there is to be no government contracts let for carring mail up this way, they had onght to give the 4th class post masters lisence so they can be distinguished as government pack mules.

Wallace Grace, who returned from Dakota Sunday last, says that the farmers along the Red River west from Warren and Argyle were harvesting and threshing their grain on the fields that were to soft to run their binders on until the ground froze. The threshing machine can not get into the fields as the ground is not frozen enough to hold them up, but they set them up on the graded road and hawled the grain to them. He says there is not a furrow of fall plowing don but if the preasent weather continues a large number of the farmers will save this season crop, if is badly damaged.

DEER PARK.

Pastor Laugseth from Foston was up this way last Saturday and called on his old friend Thor Moen while up here.

Thor O. Moen and Knut Olson was down to Thief River Falls last Monday on a business transaction, this was their first trip to that city.

ME. Hyland Charles N. Johnson made a flying trip down to Thief River Falls last Thursday, attending to legal matters.

Rev Mostue from Winsor is now a homesteader here, he has purchased the northeast fraction quarter in section six.

Sam Swanson has been assisting Ole Vatendale with his house the last couple of days.

Chas O. Swanson transacted business at Lillo last Friday.

Ed Havik the prosperous Grit merchant was up this way last Sunday, taking a general view of the country air.

Prairie fires are getting to be quite common now days, but the worst one passed this way last Sunday, going south, but thus far we have heard of no damage done.

There was a special school meeting held in district number 34 at W A. Swansons place last Saturday afternoon, for the purpose of electing officers and deciding the school house site. The following officers were elected. Director Thor O. Moen. Clerk W A. Swanson. Treasure Edward Singer.

EARN FROM $75 TO $150 PER MONTH.

We want at once, young men for Brakemen and Firemen.

Experience unnecessary.

Positions secured as soon as competent. Instruction by mail.

Cut out cupon and send with stamp for full particulars. Give name, age, and post office address, with No. of R.F.D. route.

Northern Railway Correspondence School.

45-s. 4th st.
Minneapolis, Minn.

LAND OFFICE BUSINESS.

U.S. Commissioner L. G. Browning with office located at Thief River Falls, is prepared to take homestead entries final proof etc., within the Crookston U. S. Land District.

Office in News building, three doors south of the post office.

Cured Beyond All Question.

There were cures for drunkenness in the early days of this country, and from this account in the New York Gazette of May 7, 1772, we are told of a treatment that cured one patient beyond all possible question: "On Saturday last Mr. Mohtanny's negro man, who had misbehaved himself and was a remarkable drunkard, was sent to Bridewell and underwent the usual discipline of the house for such offenses—viz, a plentiful dose of warm water and salt to operate as an emetic and of lamp oil as a purge, in proportion to the constitution of the patient. Of these he took about three quarts of the one and two and a half spoonfuls of the other; also a gill of New England rum, which operated very powerfully, attended with a violent sickness which obliged him to lie down, and between 8 and 9 at night he was discovered to be dead. He died of excessive drinking, co-operating with discipline and medicine. Mr. Dobbs, the operator, was innocent of his taking off."

Won His Promotion.

The Duke of Clarence, afterward William IV., once received a very adroit and humorous hint which he took in very good part. He was visiting Portsmouth and inspecting the ships there when it happened that his guide over the "seventy-fours" was an aggrieved and battered lieutenant who had waited for promotion many years in vain. He seemed despised and forgotten. As this man removed his hat to salute royalty the duke observed that he was bald and said jestingly:

"I see, my friend, that you have not spared your hair in your country's service."

"Why, your royal highness," was the quick answer, "it's a wonder I have any hair left, for so many young fellows have stepped over my head."

The duke laughed and made his inspection of the fleet, but in a few days his Portsmouth guide received an appointment as captain.

The Mentone Man.

An almost perfect skeleton was found in a cave at Mentone, France, March, 1872. It showed its owner to have been a tall, well formed man, with an average skull and a facial angle of eighty-five degrees. The antiquity of this skeleton, known as the Mentone man, is undoubted. His bones are associated with those of the cave lion, cave bear and other extinct animals. All the bones were in place, surrounded by flint implements and the remains of animals which the man probably had killed. Twenty-two perforated teeth, which may have formed a chaplet, lay by his head. These bones, with the Dutchman's skull found in a cave near Engis, are the oldest specimens known of human remains and go far to prove that prehistoric races were well furnished with brain power.

Deacon and Elder.

Morrison—What is the matter, Dumley? You look terribly mystified. Dumley—No wonder. I was talking with Jinkins just now. We were speaking of the Joneses, and he said that the elder was the younger and the deacon the elder. I can't get at the rights of the thing to save me.—Boston Transcript.

Ole Overson, Joseph Kilen, Swan Gjervold, Ole Woole, all of Kratka Minn.

R. J. MONTAGUE, Register.

Boulevard and Esplanade.

Both "esplanade" and boulevard" are military terms by origin. The original "boulevard" was a bulwark or horizontal part of the rampart, and an "esplanade" was originally the glacis or slope of the counterscarp of a fortified place. A writer 200 years ago noted that the word boulevard was "now chiefly taken for the void space between the glacis of a citadel and the first houses of a town;" hence its extension to other "void spaces" suitable for promenading. The old French "esplanade" was defined by Cotgrave as "a planing, levelling, evening of ways," from Latin "explanare," to smooth or flatten out, whence the English words "explain" and "explanation."

Exact Reasoning.

Here is a bit of exact reasoning on the part of a little schoolgirl. The teacher wished to impress the idea of the wrong of idleness. He led up to it by asking who were the persons who got all they could and did nothing in return. For some time there was silence, but at last the little girl, who had obviously reasoned out the answer inductively from her own home experiences, exclaimed, with a good deal of confidence, "Please, sir, it's the baby!"

His Object.

"I can recommend you to a good lawyer."

"All right, but don't let him be too good. I'm trying to conduct my business so as to keep out of jail, not so as to go to heaven."—Houston Post.

The Start.

Judge—Were you present when the trouble started between the man and his wife? Witness—Yessir. I was at deir weddin', ef dat's whut yo' means, sah.—Philadelphia Bulletin.

The Only Safe Place.

"Can you lay this carpet so the children won't wear it out?"

"Where shall I put it, madam—on the roof?"—Harper's Bazar.

Oats were not known to the Hebrews or the Egyptians.

No Further Delay.

Abner Slopoak (desperately)—M-may I name the day? Jemima Jones (decisively)—No! Abner Slopoak (in alarm)—Why? Jemima Jones (frankly)—Because, if you put it off as long you did your proposal, we never will be married. I'll name the day myself.—Cleveland Leader.

Diet and Digestion.

Abstemiousness in diet is very conducive to a good digestion. It is preferable to be a little underfed than at all overfed. Hence we come to one of the first causes of indigestion in the adult, too large a quantity of food. After an ordinary meal the food should all have left the stomach by the end of six or seven hours. If owing to an excessive quantity the stomach cannot deal with the amount some food remains in the stomach and ferments. This creates discomfort, pain, wind, nausea and perhaps vomiting, by means of which the abused stomach gets rid of its burden. If the sufferer is not thus fortunately sick the best thing he can do is to drink a large tumbler of lukewarm water, which will probably induce vomiting and so wash out the stomach. Half a teaspoonful of bicarbonate of soda added to the fluid will cause still more relief. During the next twenty-four hours the lightest diet, such as a little tea and dried toast, some boiled rice, a little arrowroot or corn flour, should be taken.

Chotohazree at the Gymkhana.

In "Modern India" the author, William Eleroy Curtis, records his meeting with the word gymkhana and "ventures to say that nobody who has not been in India can guess what that means."

And if you want another conundrum, what is a chotohazree? It is customary for smart people to have their chotohazree at the gymkhana, and I think you would be pleased to join them after taking the beautiful drive which leads to the place. Nobody knows where the word was derived from, but it is used to describe a country club—a bungalow hidden under a beautiful grove on the brow of a cliff that overhangs the bay—with all of the appurtenances, golf links, cricket grounds, racket courts and indoor gymnasium, and everybody stops there on an afternoon drive to have chotohazree, which is the local term for afternoon tea and for early morning coffee.

Winding Your Watch.

The old superstitious belief that you will change your luck if you stop winding your watch at night and wind it in the morning may have some slight basis in fact, according to a jeweler, who says that the morning is the proper time to do the winding. This is not only because the hour of rising is for the average man much more regular than that for retiring, but even the soberest and most orderly of men are apt to relax and prone to carelessness at bedtime, when more or less worn by the wear and tear of the day. In this condition the winding is apt to be done in a jerky, irregular sort of way or too far or not far enough. "Nine people out of ten wind their watches on going to bed," said the jeweler, "but if they would do it when they get up, at some regular point in the process of making their toilet, they would do it much better."—Philadelphia Record.

Curious Almshouse.

The most curious almshouse in England is St. Mary's hospital at Chichester. There eight old ladies live actually in the church, which is a fine old building dating from 1680. It was originally a monastery, but when Queen Elizabeth came to visit there she turned it into an almshouse to endure as long as almshouses exist. The old ladies have two neat little rooms each down the sides of the main church, with windows looking out on the garden. They have each a coal supply, a kitchen range, water and gas. At one end of the church is the chapel, where daily services are held. The choir stalls are beautifully carved old oak, the original seats that the monks used. The church stands in a quiet little square.

Too Serious.

While a great many persons probably take themselves too seriously, entertaining an altogether exaggerated opinion of their ability and worth, not many nowadays go to the extreme length of the German whom the English poet Coleridge met at Frankfort. He always took off his hat when he ventured to speak of himself. Were this practice to become general what a number of people would be permanently bareheaded!

Boarding a Hansom.

Have you ever noticed the right way to get into a hansom when two people are riding? Few persons know what to do. In nine cases out of ten the one who enters first seats himself on the off side. But this is wrong. If, on getting in first, you take the near seat, your companion can then enter in ease and comfort, which otherwise he could not.

To Waterproof Canvas.

Scientific American gives this recipe for waterproofing for canvas: Soft soap dissolved in hot water and a solution of iron sulphate added. The sulphuric acid combines with the potash of the soap and the iron oxide is precipitated with the fatty acid as insoluble iron soap. This is washed and dried and mixed with linseed oil.

Masculine.

Mrs. Hix—Mrs. June strikes me as being entirely too masculine for a woman. Mrs. Dix—Yes, indeed. Why, every time she has an ache or a pain she makes as much fuss about it as a man would.

Discretion.

First Lawyer—It seems to me you let that last witness down pretty easily in your cross examination. Second Lawyer—I had to. He is my tailor, and I owe him a big bill.

When a man says, "Of course it's no business of mine," it is a sure sign that he is going to do the best he can to make it his business.

Duke McGluke—Why do you call your dog Feathers? Count Noaccount—Because I dislike to call him down.

Don't express a positive opinion unless you perfectly understand what you are talking about.

A Triple Coincidence.

A correspondent of the London Standard relates the following triple coincidence, taken from an old manuscript diary, dated 1842, in which a relative quotes from an "old journal:" "In the year 1664, on Dec. 5, a boat on the Menai (Menai strait, North Wales) crossing that strait, over which a bridge has since been built, with eighty-one passengers, was upset, and only one passenger, named Hugh Williams, was saved. On the same date, in the year 1785, was upset another boat, containing about sixty passengers, of whom all perished excepting one, whose name was Hugh Williams. On Aug. 5, 1820, a third boat met with the same disaster, with twenty-five passengers only, and all perished with the exception of one, whose name was Hugh Williams.

HOSPITALS CROWDED

MAJORITY OF PATIENTS WOMEN

Mrs. Pinkham's Advice Saves Many From this Sad and Costly Experience.

Miss Luella Adams

It is a sad but true fact that every year brings an increase in the number of operations performed upon women in our hospitals. More than three-fourths of the patients lying on those snow white beds are women and girls who are awaiting or recovering from operations made necessary by neglect.

Every one of these patients had plenty of warning in that bearing down feeling, pain at the left or right of the womb, nervous exhaustion, pain in the small of the back, leucorrhœa, dizziness, flatulency, displacements of the womb or irregularities. All of these symptoms are indications of an unhealthy condition of the ovaries or womb, and if not heeded the trouble will make headway until the penalty has to be paid by a dangerous operation, and a lifetime of impaired usefulness at best, while in many cases the results are fatal.

The following letter should bring hope to suffering women. Miss Luella Adams, of the Colonnade Hotel, Seattle, Wash., writes:

Dear Mrs. Pinkham:—

"About two years ago I was a great sufferer from a severe female trouble, pains and headaches. The doctor prescribed for me and finally told me that I had a tumor on the womb and must undergo an operation if I wanted to get well. I felt that this was my death warrant, but I spent hundreds of dollars for medical help, but the tumor kept growing. Fortunately I corresponded with an aunt in the New England States, and she advised me to take Lydia E. Pinkham's Vegetable Compound, as it was said to cure tumors. I did so and immediately began to improve in health, and I was entirely cured, the tumor disappearing entirely, without an operation. I wish every suffering woman would try this great preparation."

Just as surely as Miss Adams was cured of the troubles enumerated in her letter, just so surely will Lydia E. Pinkham's Vegetable Compound cure every woman in the land who suffers from womb troubles, inflammation of the ovaries, kidney troubles, nervous excitability and nervous prostration.

Mrs. Pinkham invites all young women who are ill to write her for free advice. Address, Lynn, Mass.

SCHOOL NOTES.

Miss Ellen Stone, the American missionary who was captured by brigands several years ago, will open a female college at Monastir, which will be conducted on American ideas.

Rhodes scholars at Oxford university, England, have come to be known as "Rhodesters." This is not in any way a term of reproach, for so far the young men have been conspicuously successful both intellectually and socially.

The Ramsbottom (England) education committee granted all the school children of the town a half holiday on the occasion of the visit of a circus, in order "to give the poorer children an opportunity of seeing unfamiliar animals."

A remarkably successful attempt is making in Germany to instill in the public school children a love for plant culture. Last year a gardening association inaugurated a system by which flowers and plants in pots were presented to a large number of children, and prizes, to be awarded at the end of the summer school term this year, were offered to such as should merit them by the care of their plants. In a single town, Wuerzburg, 133 children received these prizes at the school exhibitions.

The annual clothing bill of the British army is more than three times that of the navy.

PASSING OF PORRIDGE.

Makes Way for the Better Food of a Better Day.

"Porridge is no longer used for breakfast in my home," writes a loyal Britain from Huntsville, Ont. This was an admission of no small significance to one "brought up" on the time-honored stand-by.

"One month ago," she continues, "I bought a package of Grape-Nuts food for my husband, who had been an invalid for over a year. He had passed through a severe attack of pneumonia and la grippe combined, and was left in a very bad condition when they passed away.

"I tried everything for his benefit, but nothing seemed to do him any good. Month followed month and he still remained as weak as ever. I was almost discouraged about him when I got the Grape-Nuts, but the result has compensated me for my anxiety.

"In the one month that he has eaten Grape-Nuts he has gained 10 pounds in weight, his strength is rapidly returning to him, and he feels like a new man. Now we all eat Grape-Nuts food, and are the better for it. Our little 5-year-old boy, who used to suffer from pains in the stomach after eating the old-fashioned porridge, has no more trouble since he began to use Grape-Nuts, and I have no more doctor's bills to pay for him.

"We use Grape-Nuts with only sweet cream, and find it the most tasty dish in our bill of fare.

"Last Monday I ate 4 teaspoonfuls of Grape-Nuts and cream for breakfast, nothing else, then set to work and got my morning's work done by 9 o'clock, and felt less tired, much stronger, than if I had made my breakfast on meat, potatoes, etc., as I used to. I wouldn't be without Grape-Nuts in the house for any money." Name given by Postum Co., Battle Creek, Mich. There's a reason.

Read the little book, "The Road to Wellville," in pkgs.

NEWS OF MINNESOTA.

The New Park.

Mankato.—Attorney General Young is engaged in preparing the deeds by means of which the owners of Minneopa falls and some of the land adjacent are to convey it to the state. It is expected that the transaction will be completed this week, when Minnesota will add a real jem to its park system.

The last legislature appropriated $5,000 for the purpose of acquiring the falls and the surrounding land for a state park, and the negotiations for the purchase of the property has been in progress ever since, only having been closed at the time of the recent visit of Governor Johnson, State Auditor Iverson and Attorney General Young to the spot. The negotiations were actually conducted by a committee of the Mankato board of trade, and it made such a bargain that the state officials immediately approved of the matter. This committee consisted of Dr. J. W. Andrews, Thomas Hughes and C. N. Andrews.

Eight Years.

St. Paul.—Eight years' imprisonment in the state prison at Stillwater was the sentence imposed by Judge Page Morris in the United States district court on Thomas B. Clement, the Faribault banker convicted on twenty-four counts of misapplying the bank's funds and of making false entries in the books and in reports to the controller of the currency.

The sentence imposed was eight years' imprisonment on each of the twenty-four counts, making a total of 192 years, but the court ordered that the sentence under the counts be served concurrently.

When Judge Morris asked the defendant if he had anything to say why sentence should not be imposed he answered:

"No. Only to say that I am innocent of the charges—certainly perfectly innocent of any intention to defraud anyone." The case will be appealed.

All Paid.

St. Paul.—The state has now paid all the loans it has promised to make to school districts, municipalities, counties and townships. In some of the cases the borrowers do not want the money right away, but the state has the money ready with which to pay them when they want it.

When the state investment board met Oct. 14, it approved loans for $55,000, although at that time there were already several approved loans waiting. This brought the amount of the promised loans up to $205,000 above the amount then available. The investment board approved the loans upon an estimate that there would be about $300,000 turned into the permanent school fund from the sales of land and timber. The actual returns have gone above expectations, and now there is money awaiting the requests for loans.

Hedged In.

Minneapolis — The Improvement League may take action to prevent saloons from cashing checks for laboring people. The idea came up as an incidental subject in a general discussion that was held in the court house.

The reason given was that many men who go to saloons to have checks cashed are moved to exchange a part of their wages for the doubtful delights of the barroom, and also that with a week's wages in their pockets they are apt to display a generosity in "treating" that is unusual after they have turned over part of their money to their families.

One member told of a large firm of liquor dealers that draws between $8,000 and $9,000 from the bank every Saturday for the convenience of people whose pay is given them in checks, and the average amount which they receive is $1 on each check.

Hits Minnesota.

Washington.—Under a recent order from the secretary of the interior no entries for issolated and disconnected tracts of public lands containing less then forty acres will hereafter be allowed until congress is given opportunity to enact further laws for their disposal.

Under the present law these tracts, including many small islands in Minnesota and Wisconsin, are becoming very valuable and being eagerly sought for summer residences and resorts, must remain subject to homestead entry for three years before they can be sold for cash to the highest bidder.

News Notes.

St. Paul—Controller Betz estimates the expenses of the city during next year at $2,892,468.

St. Paul—The Union Manufacturing company may ask for a franchise covering the entire city.

St. Paul—Thomas B. Clement, the Faribault banker is sentenced to eight years in prison.

St. Paul—The State Historical society holds memorial exercises for Gov. Austin and Gov. McGill.

St. Paul—The permanent school fund of the state receives unexpected additions from the sales of land and timber.

Cambridge—There is a telephone war on here between the Twin City and Northwestern lines.

St. Paul—Good prices ware realized by the state auditor for six mineral leases on which conflicting applications had been made. They were sold at auction and the bidding was lively.

Duluth—There are 692,816 persons, or 35 per cent of the state's entire population engaged in some gainful occupation. The state census bureau today made public its occupation table for the entire state, classifying the population in a general way, according to the character of work.

Two Harbors—The Christmas tree industry is about to begin in northern Minnesota. Camps are now being put in at several points along the railroads.

DISTRESS AFTER MEALS

Sure Sign That Dr. Williams' Pink Pills Are Needed to Tone Up the Digestive Organs.

Loss of appetite, distress after eating, shortness of breath, a feeling of utter weakness—these are symptoms that are familiar to most sufferers from stomach trouble. Too often the ordinary doctor's treatment serves but to weaken the diseased organs.

The new tonic method of treating disorders of this kind does not aim to do the work of the stomach, does not demand that the food be pre-digested, but builds up the weakened organs, so that they can do the work that nature intended.

Mrs. L. O. Law, of No. 324 North street, Horton, Kansas, says: "In 1897, while we were living on a farm in this neighborhood, I became generally debilitated as the result of overwork. I had serious indigestion, lost my appetite, suffered from a sense of suffocation and from obstruction of the circulation, so that artificial means had to be used to restore it. After suffering for months without finding any relief, I tried a box of Dr. Williams' Pink Pills of which I had read in a newspaper. The first few boxes made me lots better, and after using the third box I felt entirely well.

"I am now in excellent health and am able not only to take care of my house but also to assist my husband in a store which he has lately taken. Dr. Williams' Pink Pills cured me and I can recommend them. They are so simple, so easily taken and so prompt in their action."

Remember Dr. Williams' Pink Pills do not act on the bowels. They make new blood and restore shattered nerves. In this way they carry health and vigor to every organ and fiber of the body. They are sold by all druggists or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for $2.50, by the Dr. Williams Medicine Co., Schenectady, N.Y.

Not a Lightweight.

"You've made a mistake in your paper," said the indignant man, entering the editorial sanctum. "I was one of the competitors at that athletic match yesterday, and you have called me 'the well-known lightweight champion.'"

"Well, aren't you?" said the editor.

"No, I'm nothing of the kind, and it's confoundedly awkward, because, you see, I'm a coal merchant."—Stray Stories.

Intelligent Spider.

A superstitious subscriber who found a spider in his paper wants to know if it is a bad omen. Nothing of the kind. The spider was merely looking over the paper to see who was not advertising, so it could spin its web across the store door, and thus be free from disturbance.—Kiowa (Kan.) Signal.

Not So Badly Off.

"I've had to work for everything I've got!" growled the pessimist.

"Well, what of it?" observed his optimist friend. "Some people work a whole lot and don't have anything to show for it!"—Detroit Free Press.

Convincing Evidence.

Winthrop, Cal., Nov. 20th (Special).—A plain and straight forward story is always the most convincing. And that is what has impressed us most in reading the testimonials in regard to Dodd's Kidney Pills. The experience told by Davis Lewis, of this place, bears the ring and stamp of truth upon it. He says:—

"I was troubled for six months with dull, heavy pains in the small of my back, sometimes it passed into my stomach, at other times up between my shoulders. When it was in my stomach I was doubled up, and hardly knew what to do for the pain. I was advised to take all kinds of remedies, and did so, but without getting any relief. Then some one told me to try Dodd's Kidney Pills. I got a box and began taking them. The first few doses gave me relief; by the time I had finished them all the pain was gone and I have been well ever since."

Too Much So.

Fuddle—You know Stocks, don't you?

Doctor—He is a patient of mine.

"Pretty wide-awake man, isn't he?"

"I should say so. I'm treating him for insomnia."—Stray Stories.

Piso's Cure cannot be too highly spoken of as a cough cure.—J. W. O'Brien, 322 Third Ave., N., Minneapolis, Minn., Jan. 6, 1900.

You can never make a man believe that he can't afford to pay five times as much for his dinner in a restaurant where everybody is looking at him as he can at home.—N. Y. Press.

Unappreciated Eloquence.

It is well for a speaker to know where his peroration is going to end when he begins. I heard a young lawyer make his maiden speech. It was in defense of a fellow who was half-witted, arrested on the charge of stealing a hog, the young attorney having been appointed by the court.

His defense was that his client was an idiot, and unable to distinguish between right and wrong. He closed a flowery speech with this peroration:

"Gentlemen of the jury, look at my client. That low, receding forehead, those lusterless eyes, portend that he was deprived by nature of the power to distinguish right from wrong, ignorant of the distinction which exists between his own property and that of others. To him, as to the two-year-old child, whatever he wants and can reach belongs to him. He knows neither why it does nor why it does not. But, gentlemen of the jury, such are the institutions of this, our free and glorious country, that my client, idiot though he is, stands for trial to-day by a jury of his peers."

The culprit got the full penalty of the law.

GRATEFUL TO CUTICURA.

For Instant Relief and Speedy Cure of Raw and Scaly Humor, Itching Day and Night for Many Months.

"I do wish you would publish this letter so that others suffering as I have may see it and be helped. For many months awful sores covered my face and neck, scabs forming, which would swell and itch terribly day and night, and then break open, running blood and matter. I had tried many remedies, but was growing worse, when I started with Cuticura. The first application gave me instant relief, and when I had used two cakes of Cuticura Soap and three boxes of Cuticura Ointment, I was completely cured. (Signed) Miss Nellie Vander Wiele, Lakeside, N. Y."

Epitaph.

In Memory of Our Father: Gone to join his appendix, his tonsils, his olfactory nerve, his kidney, his ear-drum and a leg prematurely removed by a hospital surgeon, who craved the experience.—Life.

Go East via the Nickel Plate Road.

Lowest rates via the Nickel Plate Road and its eastern connections to all points in Eastern and New England States. Three elegant through trains daily to Cleveland, Buffalo, New York and Boston. Meals served in Dining Cars on the Individual Club Plan, at prices ranging from 35 cents to $1.00. Also service a la carte. Luxurious Sleeping Cars on all trains. No excess fare charged on any train on the Nickel Plate Road, and service as good as the best. For full information regarding rates, connections, sleeping car reservations, etc., address J. Y. Calahan, General Agent, 113 Adams St., Chicago, Ill.

The smile that illuminates the counting-room will also make light in the home.

WASTED TO A SHADOW.

But Found a Cure After Fifteen Years of Suffering.

A. H. Stotts, messenger at the State Capitol, Columbus, O., says: "For fifteen years I had kidney troubles, and though I doctored faithfully, could not find a cure. I had heavy backaches, dizzy headaches and terrible urinary disorders. One day I collapsed, fell insensible on the sidewalk, and then wasted away in bed for ten weeks. After being given up, I began using Doan's Kidney Pills. In a couple of months I regained my old health, and now weigh 188 pounds. Twelve boxes did it, and I have been well two years."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Information Gathered from All Quarters of the Civilized World and Prepared for the Perusal of the Busy Man.

THE INSURANCE PROBE.

Senator Thomas C. Platt, testifying before the insurance investigating committee, said the Equitable has paid $10,000 in each of the last ten years to the republican state campaign fund and that the Mutual and New York Life also have contributed, all through him.

Gage E. Tarbell, second vice president of the Equitable Life Assurance society, admitted before the legislative investigating committee in New York that he got rebates on policies for $325,000 on his own life and $100,000 more on the lives of other members of his family, in the shape of the full agent's commission being returned to him.

A New York Life clerk, in the insurance investigation, said $40,000 of profits on a loan were paid to George W. Perkins with no record on the books, and $60,000 of profits on the insurance company's share in the steel syndicate were paid by J. P. Morgan & Co. to Hamilton, manager of the company's "yellow-dog" fund.

THE TURMOIL IN RUSSIA.

The zemstvo congress agreed to support De Witte if the czar granted a constitution and direct ballot to the people.

The governor general of Poland ordered all military governors to consider agitators and rioters as insurgents and shoot them down until all are exterminated.

Premier Witte is being bombarded by telegrams from all parts of Poland praying for the abolition of martial law and the granting of autonomy. The demand for the autonomy of Poland has encouraged the Lithuanians to make a similar demand.

The Poles in a manifesto to the Russian people deny they want separation from Russia. They ask autonomy and the right to use the Polish language in schools.

The Black sea fleet is reported in fresh mutiny and the troops in uprising at Sevastopol.

MISCELLANEOUS.

Newton C. Dougherty pleaded guilty at Peoria, Ill., to five of the charges of forgery against him and was given an indeterminate sentence, from one to 14 years, in Joliet penitentiary.

Five convicts in the prison at Jefferson City, Mo., fully armed, in a desperate attempt to escape, killed two officials and wounded a third, dynamited the prison gate and were recaptured after a fierce battle in which one of the felons was killed and another wounded.

Senator Foraker presented his rate bill to the senate committee. It authorizes the federal court to define an unreasonable charge and is designed to avoid giving rate-making power to the commerce commission.

The attorney general of Minnesota has begun proceedings against two elevator companies at St. Paul, charged with violating the anti-trust law.

Mrs. William McWilliams and her five children were murdered in their farmhouse near Independence, Ia. The husband and father is under arrest suspected of the crime.

Turkey having rejected the terms of the powers, the joint naval forces will act at once.

Judge Advocate Marix in the court-martial of Cadet Meriwether caused a sensation by challenging the fitness of Rear Admiral McCormick to sit as a member of the court.

The comptroller of the currency has been advised that by order of the board of directors the First national bank of Leesville, La., has closed its doors. No cause is assigned.

Twenty-five passengers, many of them women, and members of the crew of the steamer Argo, ashore at South Holland, Mich., were rescued through the bravery of Robert Smith, a lifesaver, who almost died to save others.

The boyhood home of President Roosevelt, near Maplewood, N. J., was burned.

The mint report shows that the silver bullion in the treasury is all coined up, so no more dollars can be made until congress acts.

The American Federation of Labor unanimously decided against the use of souvenir programmes at all future union labor celebrations and events.

Postal officials caused the arrest of a Chicago broker, whom they accuse of a wholesale swindling scheme in mining stocks.

Marshall Field, Jr., son of Chicago's great merchant, shot himself accidentally while examining a revolver preparatory to a hunting trip. His condition is extremely critical.

The physicians attending Marshall Field, Jr., at Chicago, announced their patient was improving and had a good chance to recover.

Senator Burton, testifying in his own behalf, denied he had used his influence as a senator in the interest of a get-rich-quick concern.

Trade reviews report a continuance of encouraging conditions, production being at the greatest volume and prices strong.

Great Britain has accepted the invitation of the United States to take part in the naval demonstration at Jamestown, Va., in 1907.

In a fight at Springfield, Ill., resulting from a disagreement in connection with a horse trade, Will and James Hinman shot and killed Samuel Douglass, probably fatally wounded John Lawrence and severely wounded Charles Casson, all of New Berlin. It is said that the killing was done in self-defense.

The plant of the Decatur Milling company at Decatur, Ill., was totally destroyed by fire, involving a loss of $50,000. The Decatur Chair company also caught fire and was consumed with a loss of $20,000.

Fire at Cleveland practically destroyed the big plant of the T. H. Brooks Foundry company, manufacturers of structural iron. The loss is estimated at $100,000.

President Roosevelt has appointed Herbert J. Hagerman, of Roswell, N. M., as governor of New Mexico, the appointment to take effect at the expiration of Gov. Otero's time, January 22, 1906.

Thomas Taggart, chairman of the democratic national committee, has appointed August Belmont, of New York, as treasurer of the committee, to succeed George Foster Peabody, who has resigned on account of sickness.

Granville Gwin, cashier of the bank of Hayti, Mo, has disappeared and it is charged that he has absconded with $18,000 of the bank's funds. A reward of $500 has been offered for his apprehension.

Chairman Wilson made a report of the expenses of the inauguration of President Roosevelt, showing that they were greater than ever before. The total is $145,491.

Surgeons in Midshipman Meriweather's trial testified positively that Midshipman Branch came to his death from fist blows on the head.

The cashier of the United States assay office in Seattle has been arrested, charged with stealing $35,000 in gold dust from the packs of Klondike miners and substituting black sand to make up the weight.

Norway's new king and queen left Copenhagen to begin their reign.

Senator Platt issued a statement proclaiming the permanent passing of Odell and supporting Congressman Olcott for the New York county republican chairmanship.

English capitalists claim $1,500,000 damages on account of the use of the Manila & Dagupan railroad by United States troops during the war in the Philippines.

John Mitchell and other leaders of the miners' organizations declare there must be an advance in wages or there will be an enormous strike in the spring.

Mayor McClellan has decided to enter the lists against Hearst and fight the contestant's move to have ballot boxes opened for a recount.

A former agent of the Standard Oil company in Missouri, testifying before a special commissioner in St. Louis, says the trust used fraud in its effort to kill competition.

Congress will attack the action of the Panama canal commission in making contracts in advance of specific appropriation, declaring it a violation of the law.

One hundred thousand Jews marched in New York to honor the dead in Russia.

The latest census bureau report shows that 4,207 institutions are maintained for the care of the needy in the United States at an annual cost of $55,577,663.

The National Grange in session at Atlantic City, N. J., adopted a resolution antagonistic to labor unions and the eight-hour day. The action may mean a contest between the farmers and organized labor.

The senate committee is unanimously agreed on complete rate reform, but is split over methods of regulating railroads.

Burglars broke into the Pratt institute, Brooklyn, N. Y., and carried off $50,000 worth of jewelry and other articles.

The canvass of the vote at the late election in Ohio shows the official plurality of John M. Pattison, the democratic nominee for governor, to be 42,647.

Lead ore sold at the highest price in 25 years in Missouri, when sales were made in St. Louis at $5.50 per 100 pounds. The advance in lead ore is attributed to several causes, chief of which is the restriction in production in Missouri.

Henry White, American ambassador to Rome, has been selected to represent this country in conjunction with Minister Gummere, of Tangier, at the approaching Moroccan conference.

Five men were killed and one was fatally injured in a head-on collision one mile from Albion, Ind., between a work train and a freight train on the Baltimore & Ohio railroad.

Robbers broke into a Japanese bank in Los Angeles, Cal., and took cash amounting to $15,000.

An organized legal campaign against injunction laws in every state was decided by the American Federation of Labor at Pittsburg.

The sentiment in congress is overwhelmingly in favor of the lock canal on account of the long delay and extra cost of the sea-level.

Mary G. McCarty, of New York, despondent through illness, knelt in front of elevated train and was killed.

Gov. Deneen, of Illinois, declares he will attempt to have an act passed prohibiting the issuance of railroad passes except to employes of railways.

Gov. La Follette's call for a special session of the Wisconsin legislature puzzles the politicians of the state. The intent of the executive regarding acceptance of the senatorship is in doubt.

A renewal of the Chinese boycott against American goods is planned, Wu Ting-Fang being removed from power to make way for the leader of the anti-American party, which demands the abolition of immigration restrictions by the United States.

Copies of a manifesto issued by American anarchists urging the Italian army to desert were found in Rome.

A New York man who attempted to vote as John D. Rockefeller, calling his performance a joke, has been indicted.

Extremely lax conditions and the existence of an unwritten "code" of rules among students at Annapolis naval academy were disclosed in the trial for manslaughter of Minor Meriwether, Jr., in connection with the death of Midshipman Branch.

The United States Steel corporation bought 2,500 acres in Indiana, on the shore of Lake Michigan, and is planning an immense steel plant, to cost $20,000,000 and to give employment to 5,000 men.

Haakon VII., the new king of Norway, asked Minister O'Brien to convey his warmest greetings and thanks to President Roosevelt and the American government for the president's recent kind message.

An ammonia pipe at the plant of the Houston Packing company, near Houston, Tex., exploded. Steve Johnson, colored, was instantly killed and several other workmen were injured, some of them fatally.

Cresceus, the world's champion trotting stallion, record 2:03¼, was sold at auction for $21,000 at the Old Glory horse sale in New York to M. W. Savage, of Minneapolis, Minn.

Fire in Indianapolis, Ind., caused damage to the stock of the Badger Furniture company amounting to $75,000 and injured the two seven-story buildings on Washington street, occupied by the company to the extent of $10,000.

Ex-Alderman Arthur A. McCormack pleaded guilty before Judge Tarrant in the circuit court in Milwaukee, Wis., on the charge of bribery and was fined $350. McCormack was indicted on the charge of having accepted a bribe in connection with a coal deal.

The porte has rejected the proposals of the powers for the international control of the finances of Macedonia.

In a saloon brawl near Ford River, Mich., Alexander Gravel was shot and instantly killed, and Richard Grave, was fatally shot through the head by William Lind, a bartender.

Wild scenes on the New York cotton exchange followed the receipt of the government report estimating that only 7,498,167 bales had been ginned up to November 14, and the price advanced a cent a pound in a few minutes.

President Roosevelt is criticised severely by ex-Gov. Odell, of New York, for "stirring up a factional quarrel" in the republican party by selecting a new chairman for the New York county republican committee.

The giving of prizes at social games is termed gambling and condemned in a resolution passed by the Interchurch Conference on Federation, which closed its sessions in New York.

Miss Ella Hamilton thinks the kiss she alleges Hayden Marquis, a wealthy young man stole from her is worth $10,000. At least that is the amount of damages she demands in a petition filed in the district court at Des Moines, Ia.

Two masked men, armed with revolvers, forced Cashier Gabriel Jones, of the South Denver, Col., bank, a small concern, to deliver to them $1,000, all the cash in the safe, and fled in a buggy.

Secretary Wilson has appointed Dr. A. D. Melvin, of Illinois, as chief of the bureau of animal industry to succeed Dr. Salmon, who resigned some time ago.

Mayors-elect of Ohio cities will meet in Cleveland December 4, where they will be addressed by Mayor Dunne of Chicago and Mayor Weaver of Philadelphia, and form an organization for the enactment and enforcement of reform laws.

WASHINGTON LETTER

PRESIDENT IS CONSISTENT IN "SQUARE DEAL" POLICY.

HE EXPLAINS LOEB LETTER

Surveyors Engaged Past Summer Inspecting Line Separating Canada from Vermont and Maine—Old and New Monuments.

WASHINGTON.—President Roosevelt adheres to his "square deal" policy in his own personal views, no matter how embarrassing or humiliating it may be to him. There was a striking illustration of his devotion to this principle furnished recently in his dealings with his own cabinet and newspaper correspondents.

It had been decided by the president and members of his cabinet, every member joining him in his determination, that the proceedings of cabinet meetings should not be divulged by anyone unless a conclusion was reached on some particular subject. It was decided that whatever of that sort of news should be given out should be transmitted to the public through Secretary to the President Loeb. The first meeting after this rule had been adopted resulted in the press associations taking the account given out by Mr. Loeb, while the special correspondents did a good deal of speculating and wrote some rather lurid stories of the meeting.

The appearance of these special stories disturbed the president, and on the eve of his trip to the south he dictated a letter to members of his cabinet, a strict interpretation of which would seem to indicate that he was instructing these officials as to their duties and ordering them not to talk to special correspondents or give away any news. A strict construction of the language of this letter would indicate an order that cut off all information to the special correspondents, and made the press associations merely the channel through which news the administration considered should be made public should be issued. The letter caused a storm of protest from cabinet officers and from special correspondents, and when the president reached home from his southern trip he was astounded by the storm that had been raised and the manner in which his letter had been interpreted.

Cabinet and Correspondents.

MR. ROOSEVELT felt that his letter had been misconstrued, although he privately admitted that the language was somewhat ambiguous and would have been modified had he considered the matter thoroughly before the letter was mailed. He at once made peace with his cabinet by declaring that the whole object and spirit of the letter was to protect the proceedings of cabinet meetings and prevent the cabinet from being misrepresented in speculative dispatches. Then he sent for a number of special newspaper correspondents and, in his characteristic way, took them right into his confidence and explained most clearly what the order meant and what it did not mean.

He assured the correspondents that the relations between himself and them and between him and the members of his cabinet had not been disturbed in the least. The only point was that members of the cabinet had been requested not to discuss with newspaper men at any time the discussions that had occurred in the cabinet room. He did not mean by his order to create a news trust by requesting his cabinet to give the news to the press associations. He went further and by his statement declared that a newspaper correspondent had a proprietary or vested right in a "scoop." Everybody knows that a "scoop" is the securing of a piece of news by a newspaper man which is not known to his colleagues on opposition papers or to press associations. The president declared that when a man went to a cabinet officer or to himself, the president, for information on such a piece of news the information was to be given to him, and no other newspaper man or press association was to be let into the secret.

The president went to all this trouble and went through the embarrassment of half apologizing to newspaper men for his order because he thought that his "square deal" policy was involved and it was due to the cabinet and newspaper men; that he should thoroughly and clearly explain what he meant by his letter regarding news of cabinet meetings.

The Canadian Boundary.

CONGRESS may be asked to provide for a uniform system of marking the boundary line between the United States and Canada. Inspection of the markers shows different methods, and in many cases they have been lost or destroyed. The old Hebrew curse upon the man who destroys boundary marks does not seem to have much terror nowadays. There will be, at least, strong recommendations to the governments of Canada and the United States for a clearer demarkation of the boundary line between Canada and the states of Vermont and Maine. Surveyors have been engaged all the past summer in an inspection of this line.

It has been found that monuments marking this boundary in many cases have fallen down, and some have been removed. The damage was so great in this respect that a new style of boundary marks to take the place of the present cast iron monuments will probably be recommended. Some of the surveyors are strongly in favor of putting up stone monuments along the Maine and Vermont borders similar to those built by the state of New York and Canada three years ago. These New York monuments are solidly planted on stone pedestals built into the ground to a depth below the frost line. They are six feet in height and very durable.

The importance of having the border between Maine and Vermont and Canada is rapidly being settled, and already there is trouble with smugglers, who build what are called "line houses," which sit on the boundary line, one half on Canada and one half in the state. It is necessary, also, to have the line at railroad crossings clearly delimited. It is absolutely necessary to determine exactly and in what territory an accident occurs, and the clear definition of a boundary line is therefore needed across all railroads. Both Canada and the United States have already experienced much trouble in arresting smugglers who live and operate along this border where the boundary is not clearly defined.

Reducing Expenses.

ECONOMY is the watchword for congress this winter. It was sounded by Speaker Cannon last congress and has been iterated and reiterated by him and his lieutenants during the vacation whenever an opportunity was afforded for discussing the work of congress Mr. Cannon's apt illustration of making Uncle Sam's trousers and waistcoat meet has served a good purpose. This homely phrase of a gap between the vest and trousers has called attention to the deficit between receipts and expenditures. Mr. Cannon, who for many years was chairman of the appropriations committee in the house, is fully satisfied that expenses can be reduced. He has had many conferences with President Roosevelt on this subject, and the latter is using all his powerful influence to impress the administrative force of the government that watchfulness and economy must be practiced.

The president sounded the economy note months ago when he asked his cabinet to have the expenditures in their departments held down to the minimum that would be consistent with good administration. He had investigations started for the purpose of ascertaining where saving could be made. One of the most important of these was the investigation into the work of the government printing office. Experts there reported that a saving of $1,000,000 a year could be effected without any injury to the public service. His efforts there have been supplemented by the investigations by a special committee of congress, headed by Mr. Landis, of Indiana. That committee has discovered a wanton waste of printed matter and reckless extravagance on the part of congress and heads of executive departments in ordering printing.

In the departments there has been hearty cooperation with the president in an effort to keep down expenses. Secretary of War Taft has turned in his estimates for $10,000,000 less than was given his department last year. Other cabinet officers are following his example.

Forced Recluse.

Gunner—What in the world has become of Rounder? I never see him out painting the town any more.

Guyer—No; he had a streak of remorse and vowed he would remain in his home a month.

Gunner—Tut, tut! I have heard him say that before.

Guyer—Yes; but he won't venture out this time. He let his wife cut his hair.—Chicago Daily News.

GOPHER GOSSIP.

Minneapolis.—Homer Schreiber, aged twenty-six, committed suicide by taking carbolic acid.

Detroit.—Sheriff Larson has arrested Charles Houtari in connection with the McHugh murder.

Moorhead.—The Northern Pacific road will this winter double track its main line between Moorhead and Brainerd.

Minneapolis.—The fifteenth annual convention of the Twin City Luther league held its session at St. John's Evangelical Lutheran church.

Minneapolis.—In a drunken frenzy John Drake, a transient, jumped from a third-story window in the Twin City hotel, fracturing his hip and his arm.

St. Paul.—George Munro, auditor of Stevens county, carries off the prize this year for the first auditor to report his county tax lists to the state auditor.

Minneapolis.—Mrs. Millie Backus attempted suicide at her home, by taking arsenic. Other persons in the house saw her take the poison, and her life was saved by prompt medical treatment.

Willmar.—William Radke, who has been employed on the Thorpe farm north of this city for about a month, is wanted on the charge of taking a horse and buggy belonging to his employer, William Bixby.

Two Harbors.—The business of catching herring along the north and south shores of Lake Superior will be conducted on a more extensive scale this fall than ever before in the history of the industry.

Hamline.—E. W. Randall, secretary of the Minnesota State Agricultural society, will deliver an address Dec. 20 before the convention of the American Association of Fairs and Expositions at Chicago.

Hastings.—This city now has a soldiers' cemetery, a half-acre across the street from Lakeside having recently been bought, and will be laid out in lots for the interment of soldiers, sailors and their families.

St. Paul.—The state treasury received an installment of $100,000 from the state prison for twine settlements. This makes nearly $800,000 for the past year, with about $50,000 more to come.

Fergus Falls.—Ole Rockwog, one of the pioneer residents here, died at his home from old age and other complications. He was 74 years of age and leaves three children, one of whom is a merchant of this city.

Minneapolis.—Beginning Jan. 1 mail in the business districts will be collected every forty minutes for sixteen hours every day. The collecting will be done by wagons and the carriers will be relieved of an arduous task.

Stillwater.—The leaf tobacco supply in sufficient quantity to start the new plug tobacco factory at the state prison has been ordered and the factory will soon be in operation. The output will be sufficient to supply the needs of the prison, about 700 pounds per month.

Hastings.—The store of F. Biles & Co. in Randolph, was entered by burglars and a number of knives, razors, cigars, suits of underwear and several pairs of pants taken, together with $8 of telephone money, a pile of credit slips and some very valuable papers. An attempt was also made at the postoffice, the dog being poisoned and the window raised about four inches.

North Branch.—Mrs. Waldorf, aged eighty-one years, who with her husband, lived in St. Paul fifty-five years ago, and planted trees on St. Anthony Hill during her ten years' residence there, is dead. She was born in Hanover, Germany.

Red Wing.—A. Manfred was found dead near Bay City with a gash in his side. It was thought he had been killed as he carried some money. It is now learned that he was struck by a Burlington train. He was 70 years of age and an old settler.

St. Paul.—Mayme F. Quill is the plaintiff in a $15,000 breach of promise suit, filed in the Ramsey county district court against Thomas F. Tierney, a grain and feed dealer of St. Paul. Miss Quill is a resident of Chicago, having come to St. Paul last June on a visit. Her age is given as 22, and she alleges that the defendant, a widower, promised to marry her, but has since tried to repudiate the obligation. Mr. Tierney denies ever having made any promises to the Chicago girl.

St. Paul.—The state labor department has completed its report of the inspection of foot blocks of railroad switches for 1905. The inspectors found 9,712 railroad switches with 102,715 foot blocks, of which 79,328 are in good condition, 4,582 in fair condition, 15,311 in bad condition and 3,474 missing. These foot blocks are required by law to protect brakemen in making flying switches.

Minneapolis.—Dr. John M. Fulton, pastor of Central Presbyterian church, on Sunday announced to his congregation his intention to accept the call to become field secretary of the general assembly's committee on temperance.

Duluth.—The Barnett and Record Company of Minneapolis is the successful bidder for the construction of the new No. 4 ore dock for the Duluth, Missabe & Northern. The dock and approaches will cost about $1,000,000. The contract to the Barnett and Record company involves $700,000, and the balance of the expenditure will be made by the Missabe road direct.

Duluth.—The Y. M. C. A. of Duluth completed a successful campaign to raise $150,000 for a new building. The subscriptions have overrun so that the total is about $180,000. It is said that more money is in sight if it shall be required, and the association is to have one of the best buildings owned by a similar association in the Northwest.

Minneapolis.—Matt Bellew, a laborer, was found unconscious from gas poisoning in a lodginghouse.

DEFECTIVE PAGE

THE SUNBEAM.

BY W. G. HUNT.

Published every Friday, at Sunbeam, Red Lake County Minnesota.

Subscription price $1.00 per year in advance. If not paid in advance $1.50

Entered as Second-class matter August 30, 1905, at the post office at Sunbeam Minn. under the Act of Congress of March 3, 1879.

The old county printing "gang" of Polk Co. had to refund $725; of their printing graft to the county last week. The way of the grafter is hard, now days, but this gang still has the long end of the stick even if it is getting to be a little slipery.

John Vig has been chassing the blind pigs at Fosston and charging the expence up to the tax payers of the county, of Polk. County Attorney Maybury has refused to o.k. Johns bills as he did not catch any pigs and he thinks he is "hogish" to charge for pork when he did not deliver the goods.

Congressman and Mrs. Steenerson will leave Crookston on Sunday for Washington, to be in readiness for the opening of the coming session of congress. Much important business is scheduled to come up for consideration and it will be a busy term for the activ representative of the Ninth. —Thirteen Towns.

It is said that "love is blind," and it is well If young lovers could look upon the years to come as many afterwards appear there would undoubtedly be more old maids and bachelors than there are and there might be reason to cry race suicide. But so long as love sees not the faults in its victims mankind will continue to multiply and replenish the earth. After all, what is more pleasant than to observe the unsullied affection of newly married couples; the unaffected confidence; the willingness to do for each other and efforts put forth to please. But the frosts will come and then.

A western editor has come to the conclusion that the people who desire "puffs" in his paper must pay the following prices: For telling the public that a man is a successful citizen when everybody knows he is as lazy as a government mule, $2.75; referring to a deceased citizen as one who is mourned by the entire community, when he knows he will only pe missed py the poker circles, $1.08; referring to some gallivanting female as an estimable lady whom it is a pleasure to meet, when every business man in town would rather see the devil coming horns, hoofs and all, than to see her coming towards them, $3.10; calling an ordinary pulpit pounder an eminent divine, 60c; sending a tough sinner to heaven with poetry, $5.00.

The Kaiser's Stirrup Cup.

Here is the recipe, given in the Westminster Gazette, of the kaiser's favorite preparation when he goes out hunting:

White beer, sugar, citron peel, ginger, spices, the yolk of at least a dozen eggs, Rhine wine, Madeira, old Santa Cruz rum. All this after being thoroughly stirred is placed on a fire and slowly heated, several large pats of butter being added to the concoction while it is warm.

Brides Priced.

To us it seems a curious whim on the part of our ancestors of the eighteenth century that in their marriage announcements they should so often choose and with such seeming complacency to enlighten the world with regard to the amount of fortune received with the brides. Here are two cases in point: "Mr. James Coutts, of Jeffry's Sq., merchant, to Miss Peagrum of Knightsbridge, £80,000." "W. Smith, gentleman, of the 2d Troop of Horse Guards, to Mrs. Ann Gardiner, a maiden lady, aged, 'tis said, near 70, with a fortune of £20,000."—Chambers' Journal.

LOCAL PARAGRAPHS.

Pay up your back subscription.

Miss Auguste Kuehnel has her store nearly completed.

Do your Notary Public business at the SUNBEAM office.

The best brands of flour for sale at the High Landing store.

Applications to make final proof written free at this office.

Singer Bros. have a larg stock of flour for sale at Rhoda.

Simon O'Tool shot and killed a full grown female wolf on Saturday last.

Dan Sullivan left for Crystal N.D today on a bnsiness trip.

Wallace Grace is assisting P. Sullivan in sealing his house this week.

Wallace Grace and Patrich Sullivan killed two fine deer on Friday last.

The regular U.S. carrier commenced to carry mail from here to Lillo yesterday.

There will be a raffel and dance at Singer Bros. hall, at Rhoda tomorrow night, all are invited.

Jim O'Brien was the first one to cross the Red Lake river on the ice with a team this season, yesterday.

Jerry O'Brien Alfred Eve Even Sund and Walt Mcandrees have killed two fine deer this week.

John Polbrook and William M. Erb, of Deer Park Township, made this office a pleasent call Monday.

Elmer Eve has commenced to work at THE SUNBEAM OFFICE and will learn the printers trade, from "devil" in a country printing office to editor of a city daily.

We have a good substancial bridge across the river now that will last until next April. The ice is about 6 inches thick and teams commenced to cross on it yesterday.

Chas Swanson of Deer Park had an exciting chase after a deer last Sunday, which took to the river after he had wounded it, but with the assistance of Mr McAndrees he finaly landed it.

There is a fine hunting dog, at the residence of Torger Lunde 2 miles east of here, which came to his place a week ago. Dog has a collar and was draging a chain. Owner call and get your dog.

If you don't see all the locals that you expect, it is because we have been to busy attending to other business to look them up this week, and you will notice that we have a couple of land notices to look after the publication of.

Dan Carroll was in from his reservation home Thursday to get ready for threshing his big crop. Threshing operations are pretty general in his neighborhood at present, and the yield better than the average. —Plummer Pioneer.

Halvor Egland was in from Gully this morning with a load of wheat for Nels Bolstad who is now in Colorado for the benefits of his health. He reports Nels very much improved in health and spirits —The Mcintosh Times.

Eels in Scotland.

Although eels abound in Scotch waters and are caught in great quantities, they are not considered fit food there. No matter how plentiful and how very fine and large they may be in any district of Scotland, no native will eat one. The objection to the eel is said to be based on its serpent-like appearance and the fact that it is not overfastidious as to what it feeds on. Tons of choice eels for the London market are taken from streams that are not conspicuously free from sewage.

His First Intimation.

"How did you find out you could draw?" inquired the admirer of the celebrated illustrator.

"By the marks I received in school for the excellence and facility of my work," replied the eminent one. "My work was a caricature of my beloved teacher on the blackboard and the marks came from the teacher's cane."—Cleveland Plain Dealer.

Office in News building, three doors south of the post office.

Studying Nature.

The thing to aim at in studying the beauties of nature, as is the case with all artistic pleasures, is the perception of quality, of small effects. Many of the people who believe themselves to have an appreciation of natural scenery cannot appreciate it except on a sensational scale. They can derive a certain pleasure from wide prospects of startling beauty, rugged mountains, steep gorges, great falls of water—all the things that are supposed to be picturesque. But, though this is all very well as far as it goes, it is a very elementary kind of thing. The perception of which I speak is a perception which can be fed in the most familiar scene, in the shortest stroll, even in a momentary glance from a window. The things to look out for are little accidents of light and color, little effects of chance grouping, the transfiguration of some well known and even commonplace object, such as is produced by the sudden burst into greenness of the trees that peep over some suburban garden wall or by the sunlight falling by a happy accident on pool or flower.—Cornhill.

Why the Horse Heeds the Bugler.

An interesting report regarding the development of the musical sense in horses was made by a committee of German zoologists and botanists. The report says: "The investigations as to the musical sense of horses have shown that that sense is very poorly developed in these animals. It has been proved beyond doubt that horses have no notion whatever of keeping time to music, and that at circuses they do not dance according to the tune, but that the musicians have to keep time according to the steps of the animals.

"Other investigations show that horses do not understand military trumpet signals. It is only the rider or the animal's instinct of imitation which induces horses to make the moves required by the signal, but no horse without a rider, however carefully trained, takes the slightest notice of a trumpet signal, and the same observation has been made on a large number of cavalry horses without riders."

Science of Bell Ringing.

It was Sunday morning, and the bell ringer had just finished ringing the chimes that called the godly to church. "Bell ringing is a science. Did you know that?" he said. "It is called campanology, and there are abstruse and technical terms in it, like 'Kent treble bob,' 'Stedman cinques,' 'double court bob,' 'dodges,' 'nolls' and 'stingoes.' Each of these terms defines a certain phase or kind of bell ringing. In England there is a society, the Central Council of Bell Ringers, that every campanologist desires ardently to belong to. Maybe you think bell ringing is simple? Do you know what a peal is? A peal in ringers' parlance is a series of 5,000 changes rung upon a chime, no change occurring more than once."—New York Press.

Children's Names in England.

The vicar of Membury, Derbyshire, writes in his parish magazine, "A hundred and thirty-eight baptisms, and I have not yet had a 'Sarah Jane'—that delightful, old fashioned name!"

Amused, as he said, by the vicar's sad wail, a parishioner replies to the vicar, saying the reason is not far to seek. The custom of the parents residing in these parts is to consult with their incumbent regarding the choice of the name for the offspring.

The natural consequence is that all children born on a saint's day are called after the saint. Thus a girl born on St. George's day would be christened Georgiana and one on St. Clement's day Clementina, and so on.—London Express.

No Further Delay.

Abner Slopoak (desperately)—M-may I name the day? Jemima Jones (decisively)—No! Abner Slopoak (in alarm)—Why? Jemima Jones (frankly)—Because, if you put it off as long as you did your proposal, we never will be married. I'll name the day myself!—Cleveland Leader.

Deacon and Elder.

Morrison—What is the matter, Dunley? You look terribly mystified. Dunley—No wonder. I was talking with Jinkins just now. We were speaking of the Joneses, and he said that the elder was the younger and the deacon the elder. I can't get at the rights of the thing to save me.—Boston Transcript.

Oddly Marked Tombstone.

In an old graveyard in Maine the monument to the founder of a distinguished family is marked with the outline of a human leg. It is formed by black streaks in the granite running through the stone, for at the back there is another leg, but much smaller in dimensions. Nobody saw this blemish when the stone was set up. Not until years had passed did any one notice it. People concluded that the stonecutters, not wishing to go to the expense of quarrying out another block, so hid the leg with cement and stone dust that the actions of the storms of a dozen winters were necessary to expose the strangely formed disfigurement.

Sweeping.

"I was just telling my daughter," said Mrs. Nexdore, "that it's a shame of her to play the piano on Sunday."

"Huh!" exclaimed Mrs. Pepprey. "Why Sunday especially?"

The Lost.

When a fellow has discovered that all his loose change has filtered through a hole in his trousers pocket it is nearly impossible to get him to accept the scientific proposition that nothing is ever lost.

He Wanted That Wine.

General Sir E. Hamley is cited as the authority for a good anecdote about Bismarck. Hamley was sitting close to the chancellor at luncheon, with the old Emperor William not far off.

Bismarck, talking rather loudly, described the old monarch as being generous, but very forgetful. Hamley got nervous, as he thought the emperor would hear. "For instance," continued Bismarck, "I pleased him the other day, and he asked me what he could do for me. I said, 'Give me a dozen of that Tokay you have in your cellars,' and he said he would. "But," added Bismarck, raising his voice still higher, "he hasn't done it." Here Hamley hastily broke in, "I beg your pardon, but I am really afraid the emperor will hear you." "I want him to hear me!" roared Bismarck. "That's just what I want." And a smile broke over the face of his imperial master.—"Fifty Years of Fleet Street."

Tiger Story From India.

A man living in a village near Lucknow is reported to have had an extraordinary adventure in the jungle. He had gone in search of two buffaloes that had gone astray when he was attacked by a tiger.

He was unarmed except for a heavy stick, with which he fought until overcome by loss of blood, when he sank unconscious. At this moment the two buffaloes appeared. One of them stood over the wounded man, while the other snorted and tossed his head.

The man recovered consciousness and staggered to his feet, when the tiger made another spring at him. The beast was, however, received on the horns of one of the buffaloes and was so badly wounded that it turned tail and slunk away.—London Express.

Raw Animals.

With a heart attuned to "nature study" a little Hungarian girl in the Canadian northwest exclaimed: "Yah, teacher. It's certain beautiful on our prairie, where the birds and the small sheep run about raw."

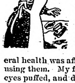
Don't express a positive opinion unless you perfectly understand what you are talking about.

The Hindoo Strong Man.

The Hindoos tell wonderful stories of the feats of Bhima, who was their strong man. Among the wonders credited to Bhima are the following: Pursued by a tiger, his mother when nursing Bhima let him drop. The force of the impact shattered in a thousand pieces the rock on which he had fallen, but the boy was none the worse. When he quarreled with other boys he gathered them up, ten or fifteen at a time, and plumped them into the nearest pond. His cousins hid themselves in a tall banyan to jeer at him, but he tore it from the ground without effort. He snapped his bonds like Samson, and a hungry cobra's fangs could not penetrate his skin. His triumph, however, was the defeat of Bakasura, who consumed a cart load of food at a sitting and used palmyra trees for toothbrushes.

TWICE-TOLD TESTIMONY.

A Woman Who Has Suffered Tells How to Find Relief.



The thousands of women who suffer backache, languor, urinary disorders and other kidney ills, will find comfort in the words of Mrs. Jane Farrell, of 606 Ocean Ave., Jersey City, N. J., who says: "I reiterate all I have said before in praise of Doan's Kidney Pills. I had been having heavy backaches, and my general health was affected when I began using them. My feet were swollen, my eyes puffed, and dizzy spells were frequent. Kidney action was irregular and the secretions highly colored. Today, however, I am a well woman, and I am confident that Doan's Kidney Pills have made me so, and are keeping me well."

It is a healthy sign that public opinion has at last been aroused to a pitch where common honesty is demanded of public officials.—Atlanta Constitution.

CONVINCING EVIDENCE

That Dr. Williams' Pink Pills Will Cure Rheumatism.

"People can cure themselves of a good many common ailments at a very small cost if they go about it the right way," said Mr. Hoar, recently. "For instance, I have just cured myself of a very painful disease. I might have begun to treat it sooner, that's all the mistake I made in the matter. But I found the root of the difficulty and I picked out the right remedy without the aid of a doctor.

"It was really all in my blood. I first felt a twinge in my left foot and ankle in the middle of last January, following exposure to cold. I realized I had rheumatism and I knew that really comes from bad blood. Cold simply develops it. Then my hands and feet were cold and clammy even in hot weather, and numb a great part of the time. I concluded that my blood was thin and poor and the circulation sluggish.

"After a time my feet and ankles swelled so badly that I could only tie my shoes half way up. My legs swelled terribly and I could walk only a short distance before giving out completely.

"When I read of the cures of all kinds of blood diseases, that had been effected by Dr. Williams' Pink Pills, I was convinced that they were just the remedy for my case, and so it proved. I could see that they were benefiting me before I had quite used up the first box. The improvement was decidedly marked after I had taken two boxes. Three more boxes restored my hands and feet and legs to natural size and feeling and then I stopped taking medicine and have since been perfectly well."

Mr. F. LeRoy Hoar lives at No. 132 Constitution street, Bristol, R. I. Any one can get convincing evidence that Dr. Williams' Pink Pills have cured anæmia, rheumatism, erysipelas and other serious diseases of the blood by simply writing to the Dr. Williams Medicine Co., Schenectady, N.Y.

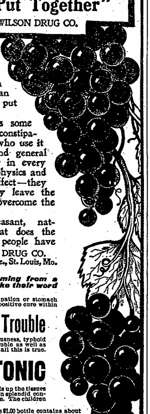
A. N. K.—G 2102

"It Has Cured More Cases Than All Others Put Together"
—WOLFF & WILSON DRUG CO.



"We have never run onto an article that met with the success of Mull's Grape Tonic. It has cured more cases of constipation and stomach trouble to our certain knowledge, than all other remedies that we ever sold put together.

"Mull's Grape Tonic must possess some peculiar quality that no other constipation and stomach remedy has. All who use it say that it adds to the strength and general health and makes them feel better in every way. We all know that ordinary physics and cathartics have exactly the opposite effect—they have a weakening tendency. They leave the digestive system in worse shape to overcome the trouble than it was before.

"Mull's Grape Tonic is a pleasant, natural, harmless, effective remedy that does the work and does it well, and the people have found it out." WOLFF & WILSON DRUG CO.
Sixth and Washington Ave., St. Louis, Mo.

These are very strong words coming from a reliable drug concern. Can you not take their word and give this grand remedy a trial?

Why suffer or take needless chances with constipation or stomach troubles when there is a perfect, harmless, natural, positive cure within your reach?

Constipation and Stomach Trouble

cause blood poison, skin diseases, sick headache, biliousness, typhoid fever, appendicitis, piles and every kind of female trouble as well as many others. Your own physician will tell you that all this is true. But don't drug or physic yourself. Use

MULL'S GRAPE TONIC

the natural, strengthening, harmless remedy that builds up the tissues of your digestive organs and puts your whole system in splendid condition to overcome all attacks. It is very pleasant to take. The children like it and it does them great good.

35 cent, 50 cent and $1.00 bottles at all druggists. The $1.00 bottle contains about six times as much as the 35 cent bottle and about three times as much as the 50 cent bottle. There is a great saving in buying the $1.00 size.

FREE Upon receipt of your address, your druggist's name and 10c. to pay postage we will mail you a sample free, if you have never used Mull's Grape Tonic, and will also send you a certificate good for $1.00 toward the purchase of more Tonic from your druggist.

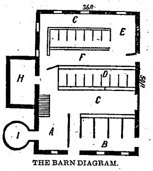
THE DAIRY

PLAN OF A STOCK BARN.

Building for the Stock Should Be Arranged with View to Greatest Convenience.

One thing a farmer should work hard for is to have his farm buildings arranged as conveniently as possible. Not long ago I was in a barn and was impressed by the great loss of energy the owner of the barn sustained every time he fed his horses and cattle. Every pound of hay fed had to be carried from the mow quite a distance to a pitch-hole down which it was thrown, thence to be carried along alleys until the mangers were reached. The straw shed in that barn was just as unhandy. All the straw used had to be conveyed 50 or 60 feet before reaching the stables.

Now a little foresight would have rendered all this extra labor unnecessary. When the barn is being built is the time for the man who feeds the stock to arrange things. In our barn, explains an Illinois correspsondent of Prairie Farm, we have the feed as handy as possible. I give herewith the plan of a barn that has many advantages. A is the mixing room; B, horse stable; C, feed alleys; D, cow stalls; E, box stall; F, passage behind cattle; G, manger; H, root house under driveway; I, silo. This plan is for a barn 36x50 feet, with silo, and is suitable for three horses and 15 cows.



THE BARN DIAGRAM.

The framework above the basement provides for an 18-foot bay above the horse stable, then a 12-foot driveway and then a 20-foot bay. In order to have corn for a team to be taken out beside a loaded wagon, there should be an overlay of six feet in the mow over the cattle. This will give plenty of room on the thrashing floor. The stairway to the basement is from the mixing room and the hay or feed from above is let down through a swinging door beside the stairway.

The basement consists of 16 single cow stalls, box stalls and four horse stalls with feed rooms. Provision is made for a concrete root house arched over with concrete under the driveway. The silo is on the outside of the barn beside the driveway and it can be made any size desired, one 15 feet in diameter and 30 feet high would be required for the stock the basement will house.

DAIRY NOTES.

Never let the heifer become more than three years old before breeding. Cows which have been bred young are usually good milkers, says a writer in the Montreal Star.

If you expect to produce baby beef at a profit, you must keep the calves in a thrifty, growing condition from the day they are born until they are put on a full grain ration.

If you would increase the size of your stock, do it through the use of large females. As a general thing the female influences the size of offspring, the male the outward characteristics.

The English market is now demanding a softer and fatter cheese, and the Canadians are finding it difficult to meet the demand, as such a cheese requires a different curing room from that in use.

Selling Milk to Shippers.

The man that sells milk to shippers to be sent to the city cannot afford to accept a small price for it. Under existing conditions in the west a dollar a hundred is a small enough price for a man to receive throughout the year, and in the winter season it should be higher than this. The man that sells milk in this way has no skim milk for his cows and pigs. This interferes very much with the business of hog raising, which is one of the most profitable enterprises of the farm.

Mistletoe and Green Boughs.

On a ranch where I was some years ago during the summer, when green feed was scarce, a wood chopper cut down some live oak trees, and the cows, which were all with calf, ate the mistletoe and green boughs, and they all "slunk" their calves. Another cow on the same ranch, which did not eat the mistletoe, carried her calf to full term. Feeding some fresh mistletoe to cows which retain the afterbirth I found would cause them to clean all right.

Keep Calf Growing.

From the day the calf is first fed it must be kept growing. This means that there shall be no setbacks due to underfeeding or overfeeding; that there shall be as few exposures to storm and cold as possible; and that the general drift shall be toward comfort and steady growth.—Farm Journal.

Haul Corn Fodder Early.

Corn fodder hauled to shelter now will be nearly twice as valuable as fodder left outdoors a month or so longer.

SCARED AWAY THE GHOST

Resourceful Curate Knew How to Put Unwelcome Visitors to Rout.

A zealous young curate went to stay with some friends at a country house, relates Ram's Horn. On descending to breakfast each morning he noticed his hostess inquiring particularly how he had slept, and seemed relieved when he said he had passed a very good night. On the last morning his hostess said: "Mr. ——, you perhaps noticed how very particular we were in our inquiries every morning as to how you had slept, but the truth is that the room you occupied is said to be haunted, and we were anxious to know if you had seen the ghost."

"The ghost!" repeated the curate, thoughtfully. "Oh, yes; I do remember the first night I was here some fellow came and stood by my bedside."

"Oh!" said the company with great interest, "and what did you do?"

"I said: 'Please, will you give me a subscription for my Sunday school?' He instantly disappeared and I never saw him again."

Idaho Joins.

Fraser, Idaho, Nov. 27th (Special).—Mrs. Martha J. Lee has given for publication the following statement, concerning Dodd's Kidney Pills:

"I was down with Rheumatism three times," she says, "and each time Dodd's Kidney Pills helped me. The last time they cured me, and now I am able to get around and do all my work, though I am fifty-eight, and I can walk to Sunday School every Sunday. Before I took Dodd's Kidney Pills I was so bad I could use neither hand nor foot. I shall keep Dodd's Pills on hand all the time."

Rheumatism is caused by Uric Acid crystallizing in the muscles. Healthy kidneys remove all Uric Acid from the blood. Diseased Kidneys cannot remove this Acid, which collects in the blood and poisons every vein and artery. Dodd's Kidney Pills cure Rheumatism by curing the Kidneys; by healing and strengthening them, so that they can rid the blood of all impurities.

Correct.

"Now, gentlemen," said the lecturer on commerce and manufactures, "mention one of the most important collateral branches of the oil business."

"Writing for the magazines," promptly responded the student who keeps abreast of the times.—Pittsburg Post.

CUTICURA, THE SET, $1.00.

Complete Treatment for Every Humor, from Pimples to Scrofula, from Infancy to Age—A Set Often Cures.

Cuticura Treatment is local and constitutional—complete and perfect, pure, sweet and wholesome. Bathe the affected surfaces with Cuticura Soap and hot water to cleanse the skin of crusts and scales and soften the thickened cuticle, dry without hard rubbing, and apply Cuticura Ointment freely to allay itching, irritation and inflammation, and soothe and heal, and lastly take Cuticura Resolvent Pills to cool and cleanse the blood, and put every function in a state of healthy activity. More great cures of simple, scrofulous and hereditary humors are daily made by Cuticura remedies than by all other blood and skin remedies.

A Definition.

Gladys—Mamma, what is a "cursory glance?"

Mamma—It is the kind of look that your father gives when he wants to swear but doesn't dare.—Roslyn News.

Do not believe Piso's Cure for Consumption has an equal for coughs and colds.—J. F. Boyer, Trinity Springs, Ind., Feb. 15, 1900.

Some men never seem to be satisfied with anything until they attend their own funeral.

JOYS OF MATERNITY

A WOMAN'S BEST HOPES REALIZED

Mrs. Potts Tells How Women Should Prepare for Motherhood

The darkest days of husband and wife are when they come to look forward to childless and lonely old age.

Many a wife has found herself incapable of motherhood owing to a displacement of the womb or lack of strength in the generative organs.

Mrs. Anna Potts

Frequent backache and distressing pains, accompanied by offensive discharges and generally by irregular and scanty menstruation indicate a displacement or nerve degeneration of the womb and surrounding organs.

The question that troubles women is how can a woman who has some female trouble bear healthy children?

Mrs. Anna Potts, of 510 Park Avenue, Hot Springs, Ark., writes:

My Dear Mrs. Pinkham:—

"During the early part of my married life I was delicate in health; both my husband and I were very anxious for a child to bless our home, but I had two miscarriages, and could not carry a child to maturity. A neighbor who had been cured by Lydia E. Pinkham's Vegetable Compound advised me to try it. I did so and soon felt that I was growing stronger, my headaches and backaches left me, I had no more bearing-down pains, and felt like a new woman. Within a year I became the mother of a strong, healthy child, the joy of our home. Lydia E. Pinkham's Vegetable Compound is certainly a splendid remedy, and I wish every woman who wants to become a mother would try it."

Actual sterility in woman is very rare. If any woman thinks she is sterile, let her try Lydia E. Pinkham's Vegetable Compound and write to Mrs. Pinkham, Lynn, Mass. Her advice is free to expectant or would-be mothers.

SICK HEADACHE
CARTER'S LITTLE LIVER PILLS.
Positively cured by these Little Pills.
They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER. They regulate the Bowels. Purely Vegetable.
SMALL PILL. SMALL DOSE. SMALL PRICE.

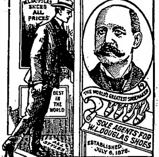
W. L. DOUGLAS
$3.50 & $3.00 SHOES FOR MEN
W. L. Douglas $4.00 Gilt Edge Line cannot be equalled at any price.



W. L. DOUGLAS SHOES ALL PRICES
BEST IN THE WORLD
THE WORLD'S GREATEST SHOEMAKER
SOLE AGENTS FOR W. L. DOUGLAS SHOES
ESTABLISHED JULY 6, 1876.

W. L. DOUGLAS MAKES AND SELLS MORE MEN'S $3.50 SHOES THAN ANY OTHER MANUFACTURER.

$10,000 REWARD to anyone who can disprove this statement.

W. L. Douglas $3.50 shoes have by their excellent style, easy fitting, and superior wearing qualities, achieved the largest sale of any $3.50 shoe in the world. They are just as good as those that cost you $5.00 to $7.00—the only difference is the price. If I could take you into my factory at Brockton, Mass., the largest in the world under one roof making men's fine shoes, and show you the care with which every pair of Douglas shoes is made, you would realize why W. L. Douglas $3.50 shoes are the best shoes produced in the world.

If I could show you the difference between the shoes made in my factory and those of other makes, you would understand why Douglas $3.50 shoes cost more to make, why they hold their shape, fit better, wear longer, and are of greater intrinsic value than any other $3.50 shoe on the market to-day.

W. L. Douglas Strong Made Shoes for Men, $2.50, $2.00. Boys' School & Dress Shoes, $2.50, $2, $1.75, $1.50

CAUTION.—Insist upon having W. L. Douglas shoes. Take no substitute. None genuine without his name and price stamped on bottom.

WANTED. A shoe dealer in every town where W. L. Douglas Shoes are not sold. Full line of samples sent free for inspection upon request.

Fast Color Eyelets used; they will not wear brassy.

Write for Illustrated Catalog of Fall Styles.
W. L. DOUGLAS, Brockton, Mass.

LATE FOREIGN DISPATCHES

Interesting Items of News Gathered from All Parts of the Globe and Outlined in the Briefest Manner Possible.

THE INSURANCE PROBE.

James H. Eckels, of Chicago, is mentioned as successor to President McCurdy, of the Mutual Life Insurance company.

In the New York Life Insurance company's inquiry it was shown that $700,000 in New York city stock was taken from the insurance company's vaults and a check substituted, the effect being to prevent taxation.

Developments in the insurance investigation show that the Mutual Reserve Life Insurance company has issued policies containing a clause that gives the company power to multiply premiums at pleasure.

Stock deals by which former officials of the Equitable made thousands by buying from and selling to the society were disclosed in the New York investigation.

THE TURMOIL IN RUSSIA.

The battle between Russian mutineers and loyal troops at Sebastopol is said to have resulted in the loss of 5.000 lives and the sinking of four warships. A strike of telegraphers has cut off St. Petersburg from the interior. The life of the czar is endangered by disloyalty of the soldiers that form his bodyguard.

Russian rebels at Sevastopol were defeated in a three-hour battle. Ten of their warships were sunk, riddled or surrendered. The forts were carried by bayonets. Half the city was destroyed by fire and shell.

Telegraphers throughout Russia are on strike. Cities are completely isolated and government must now fight its enemies in the dark.

The effect of the strike of telegraphers in Russia was felt in this country when cable companies announced that messages for Russia in Europe will be accepted only subject to delay.

The czar has signed a decree abolishing martial law in Russian Poland.

A dispatch from St. Petersburg says the government intends to mobilize all the Cossacks, numbering 450,000.

MISCELLANEOUS.

A total of 149 lives have been sacrificed, over 70 ships wrecked and a loss of nearly $7,000,000 has been sustained in the three big storms on the Great Lakes this season. That this is the most disastrous season in the history of shipping on the lakes is beyond doubt.

The death sentence was imposed at Valdosta, Ga., upon J. G. Rawlings, his sons Milton and Jesse, and Alf Moore, all convicted of the murder of the Carter children last June. The 6th of January next was fixed as the day for the execution.

Business failures for the week ending November 30 number 185, against 224 last week, 184 in the like week of 1904, 239 in 1903, 185 in 1902 and 237 in 1901.

Practically the entire business portion of the town of Arcadia, Fla., involving a loss, estimated at $250,000, was destroyed by fire.

The sixty-first anniversary of Queen Alexandra was celebrated with the usual heartiness throughout Great Britain, including artillery salutes, the ringing of church bells and the display of flags, etc.

Charles F. Douglass, a farmer, his wife and two children, were instantly killed by an explosion of a gas main running past their home, three miles from Weston, W. Va.

The country place of J. Clint Smith, at East Meadowbrook, L. I., was destroyed by fire. All the bric-a-brac, china, paintings and furniture were destroyed. The loss is about $100,000.

Harry Eldridge, a leader of the Folsom, Cal., prison convicts who broke from the prison on July 27, 1903, and who was convicted of the murder of Guard William Cotter, died on the gallows at the prison.

A. R. Meyer, a widely known capitalist, one of Kansas City's most prominent business men and founder of Leadville, Col., died in the former city of rheumatism of the heart.

The Chicago steamer Ira H. Owen foundered in Lake Superior and her entire crew of 19 men was lost.

Secretary Root has addressed a letter to Charles Raynard, president of the American Society of the Isle of Pines stating positively that in his judgment the Isle of Pines belongs to Cuba, and strongly advising the Americans there to submit themselves to Cuban law.

Chicago university's football team is champion of the west. Stagg's eleven and Michigan clashed on Marshall field in Chicago and the former was victor. The score was two to nothing and it was a safety that decided the western gridiron supremacy.

Newton C. Dougherty, the widely known educator and financier, who, in his dual capacity as superintendent of Peoria, Ill., public schools and president of a national bank, embezzled public funds aggregating possibly $1,000,000, began the serving of an indeterminate sentence of from one to 14 years in the penitentiary at Joliet, Ill.

Newton C. Dougherty, convicted Peoria financier, has been given the task of sorting broom corn in the prison broom factory at Joliet, Ill.

The monthly statement of the public debt shows that at the close of business November 30, 1905, the debt, less cash in the treasury, amounted to $999,758,831, which is a decrease as compared with last month of $12,893,284.

Nine persons occupying a house boat on Middle river, which runs between the Texas and Alabama rivers, met a terrible fate, all being burned to death in a fire which destroyed the boat.

W. R. Janvier, of New York, bought for a price reported to be $12,500 the Indiana stallion Director General. Director General is the sire of the noted grand circuit trotter Mainsheet, 2:08½.

Miss Florence Carpenter, of Chicago, while riding horseback at Excelsior Springs, Mo., fell from her horse and received injuries from which she died a few hours later.

W. S. McWilliams confessed at Independence, Ia., to killing his wife and five children with a hammer and afterward hacking their bodies with a butcher knife.

The election in Cuba developed into a landslide for the moderate party, every nominee, from President Palma to the provincial councillors, being elected.

A coroner's jury in Chicago returned a verdict that Marshall Field, Jr., died as the result of a revolver wound, which he accidentally inflicted on himself.

E. G. Lewis, president of the People's bank of St. Louis, has been indicted on the charge of using the mails to defraud, and with swindling the government by mailing sample copies of his publications at the regular periodical rate.

A hard fight on President Roosevelt's plan for making two states out of four territories is assured at the coming session of congress, New Mexico and Arizona especially resenting being made into one.

A recount of ballots in four New York election districts gives Hearst a gain of 17 votes, and if continued in like proportion insures his election.

The widow of Bishop Merrill, who died a short time ago, expired suddenly in Chicago from heart disease.

A train plunges into the river near Scranton, Pa. The loss of two lives is reported.

President Loubet, of France, told an interviewer that when he retires from the presidency on February 18 he will quit public life forever.

Omaha Catholics were excommunicated by the bishop for attending the wedding of a divorced person.

Jews of New York held a notable meeting to celebrate the two hundred and fiftieth anniversary of the landing of Jews in America, and enthusiasm was unbounded as President Roosevelt's letter was read and speeches made.

Speaker Cannon is finding much difficulty in selecting the chairmen and members of the various house committees.

The city health officers of Los Angeles, Cal., confiscated shipments of Thanksgiving cold storage poultry from the eastern markets valued at $5,000. The bad condition of many of the shipments was due, it is stated, to the poor refrigerating cars.

Public Printer Stillings proposes to stamp out the system of money lending that has existed for years among employes in his bureau.

Henry Anson, the founder of the city of Marshalltown, Ia., and one of the earliest settlers of central Iowa, is dead. He was the father of Adrian C. Anson, the famous baseball player, and now city clerk of Chicago, who was the first white child born in Marshall county.

Congress will devote attention to affairs in the Philippine islands when the rate bill is disposed of. A fight is certain on a proposed reduction of the Dingley tariff rates.

The powers hesitate in their move against Turkey, awaiting a move by Great Britain, which because of home complications is slow to act.

Americans in London gave a Thanksgiving banquet at which Ambassador Reid was the principal speaker. Dr. Nevin conducted service at Rome.

The warehouse of the Standard Oil company at Armourdale, Kan., was destroyed by fire, causing a loss of $175,000.

Fire destroyed four business blocks in the center of the town of Petersburg, Ind. Loss, $50,000.

Herbert Parsons, candidate for president of the New York republican county committee, issued a statement repudiating all bosses.

The most important needs of the Philippine islands are a market, a bank and better transportation, says the chief of the bureau of insular affairs in his report to the war secretary.

The President and Mrs. Roosevelt, accompanied by two of their children, left Washington for Plain Dealing, their country home in Virginia, where they spent Thanksgiving quietly.

Gov. Herrick, of Ohio, issued a Thanksgiving pardon to Jefferson Shanks, of Miami county, who was sent up for life July 6, 1893, for murder.

Drugs worth from $25,000 to $50,000 have been stolen from wholesale chemists in New York during the last few months, according to detectives who arrested two men.

Robbers wrecked the safe of the Citizens' national bank, at Owl, I. T., and escaped with over $3,000.

Mine owners of the interstate district offer miners an increase of five per cent. in wages to prevent a strike next month.

The Chicago drainage canal, Illinois and Michigan canal and the Illinois river will hereafter be regarded by the national government as navigable streams.

According to figures given out by the census bureau nearly one-tenth of the people in the United States are illiterate.

Secretary Root accepted the resignation of Herbert G. Squiers as minister to Cuba, the vacant post being taken by Edwin J. Morgan.

Robbers smashed a window at No. 76 Madison street, Chicago, at six o'clock at night and stole diamonds valued at $9,000.

Korea will make a strong appeal to President Roosevelt to continue diplomatic relations, urging this as the only means of preventing absorption by Japan.

The senate commerce committee has received a copy of the rate bill prepared by the interstate commerce commission, in which it asks for rate-making powers.

New York university council, in special meeting, decided to follow Columbia's lead and abolish football.

Senator W. B. Allison, of Iowa, in an interview in Chicago, said he expected congress to pass railroad freight and insurance laws.

Philippe Bunau-Varilla, the French engineer, lecturing before the National Geographic society at Washington, urged a canal 500 feet wide and 45 feet deep, forming the "Straits of Panama," as a final solution of the question.

The sultan of Turkey will be careful not to carry his obstinacy to such lengths as to cause the allied powers to send a fleet to Constantinople.

Edwin Hurlbut, editor of the Wisconsin Free Press, and one of the oldest writers in the state, died at Oconomowoc, aged 88 years. Death was due to old age.

The plant of the Illinois Match company was totally destroyed by fire at Joliet, Ill. Loss, $30,000. The body of William Schraff burned to a crisp was found in the ruins.

Fire in the cigar factory of Ellis & Gantadine, in the heart of the manufacturing district of San Francisco, burned fiercely for six hours, despite a heavy rain, and caused a loss of $250,000.

The Colorado state supreme court fined United States Senator Thomas M. Patterson $1,000 and costs for contempt of court. The contempt consisted in the publication of cartoons and editorials reflecting on the court in the senator's two newspapers. He has appealed the case to the supreme court of the United States.

William T. Reid, Jr., Harvard's head football coach, has been summoned to the white house by President Roosevelt to "talk over the football season."

President Roosevelt has declared himself against "bossism" in New York city politics. This declaration he has made emphatic in letters to personal and political friends regarding the selection of a president of the republican committee of New York county.

The village of Rocca Soraggio, near Lucca, Italy, has been entirely destroyed by a landslip, with the exception of a church. Fortunately there there were no victims, the inhabitants having fled.

President Roosevelt, after a conference with his advisers, has let it be known that he stands firm for the passage of a railway rate regulation law and is not willing to accept a compromise.

In session at Washington the national committee having in charge the matter of the proposed change of inauguration day decided to recommend to congress the last Thursday in April as the date.

Emperor William opened the reichstag in Berlin with a formal speech. He expressed pride in having been President Roosevelt's ally in bringing about peace between Russia and Japan.

A north-bound freight train on the Cairo division of the Big Four was wrecked near Paris, Ill. An unknown man was instantly killed, two seriously injured and ten cars demolished.

Four persons, one a woman, were given an aggregate of 32 years in prison for trafficking in girls in New York.

WASHINGTON LETTER

THE PRESIDENT'S MESSAGE A MOST IMPORTANT ONE.

RAILWAY RATE PROMINENT

Diminishing Number Ex-Confederates in Congress—Passing of Distinct Southern Type—Home Spirit in Middle West.

WASHINGTON.—President Roosevelt has his annual message completed, a finely engrossed copy ready for filing away and carefully typewritten copies, tied with ribbon, to be presented to the house and senate and read before those bodies and about 10,000 copies printed and ready for distribution as soon as the important document has been read in congress. This is probably the most important message the president has ever sent to congress and is the longest. It contains from 20,000 to 25,000 words, which is an unusually lengthy communication for an executive to send to congress.

As the country knows pretty generally, Mr. Roosevelt makes railway legislation the chief feature of his message. When congress adjourned last winter without doing anything on this subject the president announced that he would take every opportunity to keep it alive and he has done so. In his own speeches he has told very clearly what he will ask congress to do and Secretary of War Taft and Senator Knox, of Pennsylvania, former attorney general, have aided in promulgating the administration policy. The president proposes that congress authorize the interstate commerce commission or some other governmental body to declare when a railroad rate is unreasonable and then to fix a rate which is reasonable. The railroads are to be given recourse to the federal courts if they are not satisfied.

The president will treat of a great number of subjects in his message in addition to railroad matters, prominent among them being federal control of insurance companies, the Santo Domingan treaty, the Panama canal, preserving the Niagara falls, our relations with foreign governments, but it is said he will not have any observations to make on the tariff.

Retirement of Senator Blackburn.

ONE of the results of the recent elections, it is said, will be the retirement of Senator Jo Blackburn, of Kentucky. His term expires in 1907, but the contest this fall has shown that the control of the legislature is in danger of passing away from his friends. Senator Blackburn is one of the old-time southern orators and a man of unique character and manners. He will be greatly missed if the wheel of politics should throw him out of public life.

Blackburn served for ten years in the house and most of his reputation he made for oratory was achieved in that body. He was then in the prime of life and vigor and his fine resonant voice was frequently heard in debate. He was never known for the profundity of his arguments, but he had a way of speaking that was impressive. He is one of those orators who can take a self-evident proposition and restate it in complex sentences so as to make it appear as an entirely new discovery and something of wonderful meaning and depth. He could argue on the floor of the senate for five minutes that two and two make four and to the ordinary listener it would sound as though he were demonstrating a most abtruse problem.

The Kentucky senator is one of the diminishing number of ex-confederates now in congress. He served all through the war in the confederate army and has an excellent record for bravery. He served two terms in the senate, beginning in '85 and then was retired for four years when the republicans controlled the legislature, but in 1900 succeeded former Senator William Lindsay, who had turned gold democrat in '96 and refused to support Bryan in 1900. New leaders have sprung up in Kentucky, however, and Mr. Blackburn is said to be slated for retirement. He will have reached within one year of the scriptural limit of life of three score and ten when his term expires.

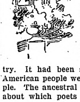
The Old Southerners.

THE retirement of Senator Blackburn reduces still further the group of senators from the south who have in these modern days retained many of the characteristics and mannerisms ante-bellum days. The death of Senator, Bate, of Tennessee, last spring removed an old-time and old-style southerner from public life. There are not a great many of this type left. Money, of Mississippi; Morgan and Pettus, of Alabama; Berry, of Arkansas; McCreary, of Kentucky; and McEnery, of Louisiana, are about all who could now be classed as typical southerners in dress and manners, with the exception of Bailey, of Texas, a comparatively young man, who affects even more than his seniors the old-style southern dress. This uniform is the long-skirted black coat, low-cut vest and black slouch hat.

The other senators from the south cannot be distinguished from their northern colleagues and look, for the most part, like prosperous business men and usually attend the sessions of the senate dressed in business clothes. On state occasions the whole senate dresses in the black Prince Albert coat, although the cut of the garments worn by the old southerners is not so stylish as that of the other members. This uniformity of black, closely-buttoned frock coat adds very much to the appearance of the senate and the body seems to lose some of its dignity when in every day routine of work senators appear in sack coats, cutaways and other styles of garments of various colors.

Another decade will probably see the last of the ante-bellum type of southerner in Washington. The numerous railroads that bind the south to the north and the interchange of commerce has done wonders in amalgamating the sections and destroying the distinctive types of citizens. This is nowhere so apparent as in the congress of the United States, where men from the most remote sections of the south and west meet.

Our "Home" Country.



"THE great Mississippi valley and the middle west is becoming the section of American homes," said Mr. Babcock, of Wisconsin, the other day in commenting on the changes that are being worked by the increasing population of the country. It had been suggested that the American people were not a home people. The ancestral homes of England, about which poets have sung, do not abound in this country, and even in the old settlements of the east comparatively few homesteads are found where more than one generation has lived. On this point Mr. Babcock declared that the middle west, the great states of Illinois, Wisconsin, Iowa and others, were now the great home country of America.

"Out in this delightful section," said Mr. Babcock, "you find the home spirit more deeply established than in the rich and prosperous east. In many of these states you find a strong German element, and wherever that is you find the love of home and the ambition to found a home that will remain in the same family for generations. Of course the country is too new to show any very long established homesteads, but I can point to you in my own state and in adjoining states scores and hundreds of places where the head of the household established himself 30, 40 and 50 years ago and where the original estate has been preserved, a substantial house built and occupied first by the original owner and then by his oldest son, while surrounding the homestead are the homes of other children of the family. There are many of these patriarchial establishments and in them I think you will find the hope for the stability and conservatism necessary to a safe government."

It is not known whether Mr. Babcock has followed the example of the good people whom he describes, but he has purchased enough homes in Washington to insure places for all his heirs if they wish to locate here.

Helpful Medicine.

"Doctor, I want to thank you for your valuable medicine.'

"It helped you, did it?" asked the doctor, very much pleased.

"It helped me wonderfully."

"How many bottles did you find it necessary to take?"

"Oh, I didn't take any of it. My uncle took one bottle, and I am his sole heir."—Tit-Bits.

Plenty of Pulp.

Canada has forests which, at the present rate of consumption of timber for paper, would supply the world with paper pulp for more than 800 years.

In Books Only.

The Japanese have a high re, for their mothers-in-law. So have most people, outside of the joke books.

NEWS OF MINNESOTA.

How Races Are Mixed.

St. Paul.—Figures given out by the state census bureau show that the Swedes perdominate in Minneapolis by over 20,000, while in St. Paul the Germans lead by 16,000.

The figures on parentage give the total foreign population of the city including residents who were born in foreign countries and those who were born in America, but whose fathers imigrated from foreign shores. The figures thus show the foreign born and first generation in this country. The more prominent nationalities in the three large cities are as follows:

	Minneapolis.	St. Paul.	Duluth.
Germans	25,638	38,815	5,213
Swedes	46,854	22,523	10,388
Norwegians	25,893	6,852	5,984
Canadians	13,192	7,233	7,808
Irish	13,051	14,877	2,515
English	6,195	4,709	1,929
Russians	5,136	3,293	1,194
Austrians	4,655	3,693	1,219

The proportion of other nationalities in Minneapolis is as follows: Danes, 3,829; Scotch, 3,072; Poles, 1,415; Roumanians, 1,466; Finns, 1321; Bohemians, 946; French, 841; Swiss, 898; Huns, 1,091; Italians, 628; Welch, 558; Holanders, 413; Belgians, 114; Syrians, 150; Greeks, 111; Icelanders, 134.

St. Paul is headquarters for the Syrians, there being 208 in that town, while the Greeks gather in Minneapolis, St. Paul having but 33 and Duluth 4. The Italians also predominate in St. Paul, there being 1,530 in that town. St. Paul has but 191 Roumanians and 140 Finns.

Gets Another Trial.

Joseph Gardner, now serving a life sentence for the murder of William Garrison in Itasca county, in 1904, was granted a new trial in a decision handed down by the supreme court. The finding is based on the fact that the Itasca county district court was in error in not giving the defendant's side of the story in the instructions to the jury.

Gardner, who was a homesteader of Itasca county and also a rural mail carrier, shot and killed William Garrison, another homesteader, at Garrison's home. Garrison was known to have threatened Gardner's life on several occasions prior to the shooting. Gardner's defense was that he was obliged, in pursuance of his duties as a mail carrier, to go to the Garrison home. Fearing trouble, he carried a gun. At his approach Garrison ran for his rifle, which was lying near the barn, whereupon Gardner shot and killed him.

After the shooting Gardner notified the coroner and then gave himself up to the authorities. In his charge to the jury the lower court neglected to give Gardner's story.

Torn to Pieces.

St. Paul.—C. E. Fallstrom was literally torn to pieces in the counterweight conduit of the city railway on Selby hill.

His body was found wedged between the tracks of the counterweight and the cable in such a manner that what remained of the body had to be dismembered by Deputy Coroner Dr. E. Whitcomb before it could be taken out of the tunnel. The remains of the corpse had to be picked up in pieces and placed in a cloth while fragments were carried down the conduit from the top of the hill to the bottom.

Mr. Fallstrom was employed as an oiler of the cable and it was his business to descend into the different manholes along the conduit to perform his work.

It is thought that Fallstrom had been oiling the cable which is on the opposite side of the conduit from the station and when the weight began to descend he had not time to get back.

Record Shipment.

Duluth.—The steamer Augustus B. Wolvin arrived to load a cargo of 350,000 bushels of No. 2 macaroni wheat. It is interesting for the reason that this will be the biggest cargo of wheat ever loaded on fresh water, and that it is the macaroni variety.

The wheat is distined for Mediterranean ports. The Wolvin will hold the grain in storage for a time at Buffalo, as this is her last trip for the season.

The freight bill on the cargo of wheat to Buffalo will be $14,000.

News Notes.

St. Paul—The state brings action against the elevator companies under the state anti-trust law.

Minneapolis—Miss Count, was the victim of a burly purse snatcher while she was walking home along in the evening.

St. Paul—As a result of the ivestigation made by an examiner of the public examiner's department Gustave E. Blomberg, Jr., former clerk of court of court of Nicolet county, will be called upon to explain some alleged irregularities in the records of his office during the period when he was in charge.

Two Harbors—Peter Johnson, forty years of age, employed at Haley's lumber camp, thirty miles north of Virginia, was killed in a stampede of hores while at work loading logs. One horse is said to have stepped on Johnson, crushing him to death.

DEFECTIVE PAGE

THE SUNBEAM.

BY W. G. HUNT.

Published every Friday, at Sunbeam, Red Lake County Minnesota.

Subscription price $1.00 per year in advance. If not paid in advance $1.50

Entered as Second-class matter August 30, 1905, at the post office at Sunbeam Minn. under the Act of Congress of March 3, 1879.

The lot of the 4th class post master is hard, but the salery is big. It is reported that some of them are getting about $5 every three months out of it.

Ex county Commissioner M.E. Kirsch, of Polk county and McKinzie of The Crookston Times are in a row and we hope it will continue until some of the old newspaper boys find out how them deals used to be "worked", when Kirsch was "daddy" of the board that McKinzie always got the county printing on the highest bid.

R.J. Montague, Register of the U S. Land office at Crookston has expressed the opinion that a newspaper to publish land notices should have about 240 paid subscribors and be a newspaper of general circulation. We heartily indorse the view of Mr. Montague on this question, as a sheet sprung for the sole purpose of publishing land notices is not a newspaper.

Our friend Mr. Eastman of The Thief River Falls News made haste to publish the letter of Register of the U.S Land office, Mr. Montague last week, hoping that t ment that SUNBEAM. Not at all Mr. Eastman; when we have published a paper for nearly six ears, if we did not have more han 240 paying subscribers it vould be time for us to get out of usiness. Our respected Register as been one of them subscribers or the past 5 years and we venure that he takes a peep at the SUNBEAM every week.

Our subscription list has incresed, with a rapidity, unlooked or during the last two weeks, but et there is room for more. We esire to have all the settlers on his reservation on our subscription books and we shall make an effort to obtain them, as they hould all have THE SUNBEAM in heir homes, as it is almost a necessity. A farmer living near Mcintosh. infomed us last winter, hat he had found the paper very valuable. He said that he tried every thing to make his hens lay during the cold weather, until at ast he cut up and fed them a SUNBEAM and the next day he got six eggs.

WE HAD THE STRENGTH.

Northern Minnesota has seventeen legislative districts out of he state's sixty-three, seventeen senators out of the state's sixty-three, and seven representatives ut of the state's 119. Hence the eed of sending down to St. Paul he best men available is obvious. nly by strength in its make-up an such a minority overcome uch a majority. -Duluth Evening Herald.

Strength is the make-up.

Well you bet we had strength n the make-up of our senator rom Polk. Just think of it; he ith the assistance of the railroad lobbists, walked over the hole business and defeated heir bill to reduce railroad milege to two and one half cents per. ile, and took thousands of dollars out of the common traveling ublic, and contributed it to the ailroad companys.

ow was not that something for he railroads to feel proud of? hat the dear people of the ounty of Polk had the good ense to elect a man to represent hem in the state senate who had he ability to acomplish such ood work for them.
